HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(Formed by the Rt. Hon. Tony Blair, MP, May 2005)

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP

DEPUTY PRIME MINISTER AND FIRST SECRETARY OF STATE—The Rt. Hon. John Prescott, MP

CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP

LEADER OF THE HOUSE OF COMMONS AND LORD PRIVY SEAL—The Rt. Hon. Jack Straw, MP

SECRETARY OF STATE FOR FOREIGN AND COMMONWEALTH AFFAIRS—The Rt. Hon. Margaret Beckett, MP

SECRETARY OF STATE FOR TRADE AND INDUSTRY—The Rt. Hon. Alistair Darling, MP

SECRETARY OF STATE FOR THE HOME DEPARTMENT—The Rt. Hon. John Reid, MP

SECRETARY OF STATE FOR HEALTH—The Rt. Hon. Patricia Hewitt, MP

SECRETARY OF STATE FOR CULTURE, MEDIA AND SPORT—The Rt. Hon. Tessa Jowell, MP

MINISTER FOR THE CABINET OFFICE AND MINISTER FOR SOCIAL EXCLUSION (CHANCELLOR OF THE DUCHY OF LANCASTER)—The Rt. Hon. Hilary Armstrong, MP

SECRETARY OF STATE FOR NORTHERN IRELAND AND SECRETARY OF STATE FOR WALES—The Rt. Hon. Peter Hain, MP

LEADER OF THE HOUSE OF LORDS AND PRESIDENT OF THE COUNCIL—The Rt. Hon. The Baroness Amos

SECRETARY OF STATE FOR CONSTITUTIONAL AFFAIRS AND LORD CHANCELLOR—The Rt. Hon. The Lord Falconer of Thoroton, QC

SECRETARY OF STATE FOR INTERNATIONAL DEVELOPMENT—The Rt. Hon. Hilary Benn, MP

SECRETARY OF STATE FOR EDUCATION AND SKILLS—The Rt. Hon. Alan Johnson, MP

SECRETARY OF STATE FOR COMMUNITIES AND LOCAL GOVERNMENT—The Rt. Hon. Ruth Kelly, MP

SECRETARY OF STATE FOR ENVIRONMENT, FOOD AND RURAL AFFAIRS—The Rt. Hon. David Miliband, MP

SECRETARY OF STATE FOR WORK AND PENSIONS—The Rt. Hon. John Hutton, MP

SECRETARY OF STATE FOR DEFENCE—The Rt. Hon. Des Browne, MP

SECRETARY OF STATE FOR TRANSPORT AND SECRETARY OF STATE FOR SCOTLAND—The Rt. Hon. Douglas Alexander, MP

MINISTER WITHOUT PORTFOLIO—The Rt. Hon. Hazel Blears, MP

PARLIAMENTARY SECRETARY TO THE TREASURY—The Rt. Hon. Jacqui Smith, MP

CHIEF SECRETARY TO THE TREASURY—Stephen Timms, Esq, MP

DEPARTMENTS OF STATE AND MINISTERS

Cabinet Office—

MINISTER FOR THE CABINET OFFICE AND MINISTER FOR SOCIAL EXCLUSION (CHANCELLOR OF THE DUCHY OF LANCASTER)—The Rt. Hon. Hilary Armstrong, MP

MINISTER WITHOUT PORTFOLIO—The Rt. Hon. Hazel Blears, MP

PARLIAMENTARY SECRETARIES—
Pat McFadden, Esq, MP
Edward Miliband, MP

Communities and Local Government—

SECRETARY OF STATE AND MINISTER FOR WOMEN—The Rt. Hon. Ruth Kelly, MP

MINISTERS OF STATE—
Minister for Local Government—Phil Woolas, MP
Minister for Housing and Planning—Yvette Cooper, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Angela E. Smith, MP
Meg Munn (Minister for Women and Equality)
The Baroness Andrews, OBE

Constitutional Affairs—

SECRETARY OF STATE—The Rt. Hon. The Lord Falconer of Thoroton, QC

MINISTER OF STATE—
The Rt. Hon. Harriet Harman, QC, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Baroness Ashton of Upholland
Bridget Prentice, MP
Vera Baird, QC, MP

Culture, Media and Sport—

SECRETARY OF STATE—The Rt. Hon. Tessa Jowell, MP

MINISTER OF STATE—

Minister of Sport—The Rt. Hon. Richard Caborn, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—

Shaun Woodward, Esq, MP
David Lammy, Esq, MP

Defence—

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTER OF STATE—The Rt. Hon. Adam Ingram, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—

Tom Watson, Esq, MP
The Lord Drayson

Education and Skills—

SECRETARY OF STATE—The Rt. Hon. Alan Johnson, MP

MINISTERS OF STATE—

Minister for Schools—Jim Knight, MP
Minister for Higher Education and Lifelong Learning—Bill Rammell, MP
Minister for Children and Families—The Rt. Hon. Beverley Hughes, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—

The Lord Adonis
Phil Hope, MP
Parmjit Dhanda, Esq, MP

Environment, Food and Rural Affairs—

SECRETARY OF STATE—The Rt. Hon. David Miliband, MP

MINISTERS OF STATE—

Minister for Climate Change and the Environment—Ian Pearson, MP
Minister for Sustainable Farming and Food—The Rt. Hon. The Lord Rooker

PARLIAMENTARY UNDER-SECRETARIES OF STATE—

Ben Bradshaw, Esq, MP
Barry Gardiner, MP

Foreign and Commonwealth Affairs—

SECRETARY OF STATE—The Rt. Hon. Margaret Beckett, MP

MINISTERS OF STATE—

Minister for Europe—The Rt. Hon. Geoffrey Hoon, MP
Minister for Trade—The Rt. Hon. Ian McCartney, MP
Minister for the Middle East—Dr. Kim Howells, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—

The Lord Triesman

Health—

SECRETARY OF STATE—The Rt. Hon. Patricia Hewitt, MP

MINISTERS OF STATE—

Rosie Winterton, MP
Andy Burnham, MP
The Lord Warner
Caroline Flint, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—

Ivan Lewis, Esq, MP

Home Office—

SECRETARY OF STATE—The Rt. Hon. John Reid, MP

MINISTERS OF STATE—

Minister for Policing, Security and Community Safety—Tony McNulty, Esq, MP
Minister for Criminal Justice and Offender Management—The Baroness Scotland of Asthal, QC
Minister for Immigration, Citizenship and Nationality—Liam Byrne, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—

Joan Ryan, MP
Vernon Coaker, Esq, MP
Gerry Sutcliffe, Esq, MP

International Development—

SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—Gareth Thomas, Esq, MP

Law Officers' Department—

ATTORNEY-GENERAL—The Rt. Hon. The Lord Goldsmith, QC
SOLICITOR-GENERAL—Mike O'Brien, QC, MP
ADVOCATE-GENERAL FOR SCOTLAND—The Lord Davidson of Glen Cova, QC

Leader of the House of Commons—

LEADER OF THE HOUSE OF COMMONS AND LORD PRIVY SEAL—The Rt. Hon. Jack Straw, MP
DEPUTY LEADER OF THE HOUSE OF COMMONS—Nigel Griffiths, MP

Northern Ireland—

SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP
MINISTER OF STATE—
David Hanson, Esq, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Maria Eagle, MP
Paul Goggins, MP
David Cairns, MP

Paymaster General's Office—

PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP

Privy Council Office—

LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Amos

Scotland Office—

SECRETARY OF STATE—The Rt. Hon. Douglas Alexander, MP
PARLIAMENTARY UNDER-SECRETARY OF STATE—
David Cairns, MP

Trade and Industry—

SECRETARY OF STATE—The Rt. Hon. Alistair Darling, MP
MINISTERS OF STATE—
Minister for Trade—The Rt. Hon. Ian McCartney, MP
Minister for Industry and the Regions—The Rt. Hon. Margaret Hodge, MP, MBE
Minister for Energy—Malcolm Wicks, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Sainsbury of Turville (Minister for Science and Innovation)
Jim Fitzpatrick (Minister for Consumer Affairs and Competition Policy)

Transport—

SECRETARY OF STATE—The Rt. Hon. Douglas Alexander, MP
MINISTER OF STATE—
Dr. Stephen Ladyman, MP
PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Derek Twigg, MP
Gillian Merron, MP

Treasury—

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Tony Blair, MP
CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Gordon Brown, MP
CHIEF SECRETARY—Stephen Timms, Esq, MP
PAYMASTER GENERAL—The Rt. Hon. Dawn Primarolo, MP
FINANCIAL SECRETARY—John Healey, MP
ECONOMIC SECRETARY—Ed Balls, Esq, MP
PARLIAMENTARY SECRETARY—The Rt. Hon. Jacqui Smith, MP
LORDS COMMISSIONERS—
Dave Watts, Esq, MP
Alan Campbell, Esq, MP
Kevin Brennan, MP
Frank Roy, Esq, MP
Claire Ward, MP
ASSISTANT WHIPS—
Ian Cawsey, Esq, MP
Steve McCabe, MP
Liz Blackman, MP
Tony Cunningham, MP
Huw Irranca-Davies, MP
Jonathan Shaw, MP
Michael Foster, Esq, MP

Wales Office—

SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Nick Ainger, Esq, MP

Work and Pensions—

SECRETARY OF STATE—The Rt. Hon. John Hutton, MP

MINISTERS OF STATE—
Minister for Employment and Welfare Reform—Jim Murphy, Esq,
Minister for Pensions Reform—James Purnell, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Anne McGuire, MP
James Plaskitt, Esq, MP
The Lord Hunt of Kings Heath, OBE

Her Majesty's Household—

LORD CHAMBERLAIN—The Rt. Hon. The Lord Luce, GCVO, DL

LORD STEWARD—The Duke of Abercorn, KG

MASTER OF THE HORSE—The Lord Vestey

TREASURER—The Rt. Hon. Bob Ainsworth, MP

COMPTROLLER—The Rt. Hon. Thomas McAvoy, MP

VICE-CHAMBERLAIN—John Heppell, Esq, MP

CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMAN-AT-ARMS—The Rt. Hon. The Lord Grocott

CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Lord Davies of Oldham

LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Evans of Temple Guiting, CBE, The Lord McKenzie

BARONESSES IN WAITING—The Baroness Crawley, The Baroness Farrington of Ribbleton, The Baroness Royall of Blaisdon

---

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS—Sir Stuart Bell, MP

HOUSE OF COMMONS

THE SPEAKER—The Rt. Hon. Michael J. Martin, MP

CHAIRMAN OF WAYS AND MEANS—The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS—Mrs. Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS—Sir Michael Lord, MP

CHAIRMEN'S PANEL

David Amess, Janet Anderson, Hugh Bayley, Miss Anne Begg, Joe Benton, John Bercow, Sir John Butterfill, Martin Caton, Christopher Chope, Derek Conway, Frank Cook, John Cummings, Mrs. Janet Dean, Roger Gale, Mike Hancock, Jimmy Hood, Mrs. Joan Humble, Eric Illsley, Martyn Jones, David Marshall, Eric Martlew, Edward O'Hara, Bill Olner, Greg Pope, David Taylor, Mike Weir, Hywel Williams, David Wilshire, Ann Winterton, Sir Nicholas Winterton

HOUSE OF COMMONS COMMISSION

The Rt. Hon. The Speaker (Chairman), Sir Stuart Bell, MP, Nick Harvey, MP, The Rt. Hon. David Maclean, MP, The Rt. Hon. Mrs. Theresa May, MP, The Rt. Hon. Jack Straw, MP

SECRETARY OF THE COMMISSION—David Natzler

ASSISTANT SECRETARY—Geoffrey Farrar

ADMINISTRATION ESTIMATE AUDIT COMMITTEE

The Rt. Hon. Mrs. Theresa May, MP (Chairman), Nick Harvey, MP, Sir Thomas Legg, KCB, QC, David Taylor, FCA

SECRETARY OF THE AUDIT COMMITTEE—Tracey Garratty

BOARD OF MANAGEMENT

Sir Roger Sands KCB (Chief Executive), Helen Irwin (Clerk of Committees, Department of the Clerk of the House), Peter Grant Peterkin, CB, OBE (Serjeant at Arms), John Pullinger (Librarian), Andrew Walker (Director of Finance and Administration), Lorraine Sutherland (Editor of the Official Report), Sue Harrison (Director of Catering Services), Joan Miller (Director of Parliamentary ICT)

SECRETARY OF THE BOARD OF MANAGEMENT—Robert Twigger

SPEAKER'S SECRETARY—Angus Sinclair

SPEAKER'S COUNSEL—John Vaux

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—Sir Philip Mawer

PARLIAMENTARY SECURITY CO-ORDINATOR—Peter Mason

Written Ministerial Statements

Monday 17 July 2006

TREASURY

Tax and Benefit Reference Manual 2006-07

The Paymaster General (Dawn Primarolo): Copies of the 2006-07 edition of the Tax Benefit Reference Manual (TBRM) are today being deposited in the House of Commons Library.

HM Treasury publishes the TBRM annually. It is a technical manual detailing the tax and benefit system, describing both the current and historic regimes. There are also tables of time series covering tax and benefit rates, numbers of tax payers and benefit claimants, VAT and duty rates and the tax burden on specimen households.

COMMUNITIES AND LOCAL GOVERNMENT

Preventing Extremism Together

The Secretary of State for Communities and Local Government (Ruth Kelly): I would like to provide an update on the recommendations of the Preventing Extremism Together working groups.

The machinery of Government changes in May 2006 saw responsibility for working with Muslim communities to prevent extremism pass to the Department for Communities and Local Government.

I am clear that my new Department's remit offers the opportunity to make real progress on tackling extremist ideologies. Our central policy on cohesion and faith will continue to be a key contributor to national debates and engagement, but we will be able to combine this with an extended reach into local authorities and communities to make a real difference at the local level. We will continue to work to tackle disadvantage experienced by Muslim communities, but will combine this with a greater focus on enabling them (and other communities) to challenge extremism directly.

Part of this work will be delivered by close engagement and partnership working with representatives of a broad range of Muslim individuals and organisations. I am keen to add new voices to a vigorous debate about how Government can support Muslim communities more effectively, while building on the successful consultations over the past year.

One of the key strands of that past consultation was "Preventing Extremism Together", the working groups for which disbanded in November 2005, although we continue to work with a number of people involved in them. I would like to inform hon. Members of a progress update on that project, which will be available later today on the Department's website at: http://www.communities.gov.uk/index.asp?id=1500185.

The update shows that we have made clear progress on the recommendations from Preventing Extremism Together that were for Government to take forward and that much of it has been made by supporting Muslim communities to deliver change for themselves. We will update the website on a regular basis as progress develops.

The update posted on the website therefore gives an indication of the work going on in response to all of the themes raised in the report—with projects focused on Muslim women and young people, and work aimed at tackling alienation and strengthening civic structures.

The recommendations made to us by the Preventing Extremism Together are an important part of our work with Muslim communities. But they are not the only part. By continuing to support interfaith activity, by funding grassroots projects through our £5 million faith communities capacity building fund, and by continuing our local outreach, we will be able to empower communities to tackle these challenges head on. I will keep the House informed of progress in this area.

Tenancy Deposit Protection Commencement Date

The Parliamentary Under-Secretary of State for Communities and Local Government (Angela E. Smith): The commencement date for tenancy deposit protection will be 6 April 2007.

The summary of responses to the consultation on the tenancy deposit protection secondary legislation was published on 23 June 2006. The consultation sought views on the information requirements to be placed on landlords and the handling of deposits at the beginning and end of the tenancy.

Alongside the publication of the summary of responses, the Government announced that the commencement date of 1 October 2006 was under review.

Responses to the consultation raised concerns about joint authorisation for deposit repayment where either landlord or tenant cannot contact the other party to obtain agreement. This includes situations where there are rent arrears and a tenancy has been abandoned.

Further consideration has now been given to stakeholders' concerns expressed in the consultative process and the Government recognise that it would be beneficial to both landlords and tenants to enable single claims to be made on the deposit in certain circumstances. We therefore intend to bring to the House proposals to achieve this.

To ensure all provisions are in place and stakeholders have had the opportunity to prepare for the introduction of tenancy deposit protection, the commencement date has been moved from 1 October 2006 to 6 April 2007, which is a common commencement date.

DEFENCE

Modernising Armed Forces and Veterans Personnel Administration

The Parliamentary Under-Secretary of State for Defence (Mr. Tom Watson): As foreshadowed by my predecessor in his statement in March 2005, I am announcing today the outcome of the study to explore whether there is scope for further service improvement through the greater integration of services delivered by the Armed Forces Personnel Administration Agency and the Veterans Agency. The study has included consultation of trade unions and veterans' groups and has recommended that the Armed Forces Personnel Administration Agency and the Veterans Agency are integrated on 1 April 2007.

I have decided that the integration of these two agencies should take place as it will enable improvements to the service received by both veterans and serving members of our armed forces. It is my intention that each of these two groups should be able to access the whole range of services and benefits currently provided by the two agencies, simply by going to their own single dedicated contact point where their different needs will be understood and valued. Bringing together these agencies will enable the creation of an organisation with separate front office customer contact for veterans and serving personnel supported by a single back office and unified corporate services and strategy, with one person accountable for overall service delivery. This chief executive will be supported by directors with responsibility respectively for services to veterans and services to those currently serving. The new structure will enable more joined up and hence more accurate assessments of total entitlements that currently span two agencies. It will also facilitate the development of integrated business processes and IT, leading in due course to further improvements in services for serving and retired members of the armed forces and their beneficiaries, thus providing excellent and efficient service from 'cradle to grave'.

Integrating these two agencies does not of itself imply an intention to collocate or further outsource services. These are separate issues to be considered on their merits as and when opportunities arise or existing contracts expire. Integration is designed to improve the administrative support we provide to the armed forces and veterans; and robust key targets will be set to ensure no erosion in the quality of service provided. Bringing together the agencies is consistent with the pan-Government initiative for more coherent, "joined up" approaches to service delivery. To retain a sharp focus on the quality of veterans services and to reassure elderly customers through a sense of continuity, the veterans agency name for the veterans contact point will be retained with a director dedicated to veterans services. As Minister for Veterans, I am committed to ensuring that the quality of service to veterans and their dependants as well as the serving population is continued and improved even further under the new arrangements.

EDUCATION AND SKILLS

LSC Annual Report and Accounts 2005-06

The Minister for Higher Education and Lifelong Learning (Bill Rammell): I would inform the House that the Learning and Skills Council for England has today published its annual report and accounts for the period to 31 March 2006. Copies will be placed in the Libraries of both Houses.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Home Energy Conservation Act Data

The Minister for Climate Change and the Environment (Ian Pearson): Data reported by Energy Conservation Authorities in England under the Home Energy Conservation Act 1995 in the period 1 April 1996 to 31 March 2005 have been placed in the Libraries of both Houses. These data have also been published on the Department for Food and Rural Affairs website at: http://www.defra.gov.uk/environment/energy/heca 95/index.htm. Authorities have reported an overall improvement in domestic energy efficiency of 16.7 per cent. as measured against a 1996 baseline.

HEALTH

Smoke-free Premises and Vehicles

The Minister of State, Department of Health (Caroline Flint): Today, the Department of Health publishes a consultation on proposed regulations for smoke-free premises and vehicles to be made under part 1 of the Health Bill. The medical and scientific evidence of the risks to health from exposure to second-hand smoke is well established and is set out in the 1998 and 2004 reports of the independent Scientific Committee on Tobacco and Health, as well as in the World Health Organisation's International Agency for Research on Cancer Report of 2004.

A key aspect of the Government's strategy as set out in the White Paper: "Choosing Health: Making Healthy Choices Easier", is to shift the balance significantly in the favour of smoke-free enclosed public places and workplaces through legislation in order to reduce levels of exposure to second-hand smoke. The smoke-free provisions in the regulations to be made under the Health Bill are a huge step forward for public health by reducing exposure in enclosed public places and workplaces to the hazards of second-hand smoke.

The consultation seeks comments on the content of the regulations and their implementation. The consultation period will run for 12 weeks, closing on 2 October 2006.

Copies of the consultation document have been placed in the Library.

Herceptin - Progress on HER2 Testing

The Secretary of State for Health (Ms Patricia Hewitt): On 12 June 2006, *Official Report*, columns 47-48WS I updated the House on Herceptin, following the announcement of its licence for early breast cancer and the publication of the National Institute for Health and Clinical Excellence's (NICE) draft recommendations on its use. In that written statement, I promised to update the House on progress with introducing HER2 testing arrangements across the country. This statement provides that update.

In October 2005 Professor Mike Richards, the national cancer director, wrote to all cancer networks to identify the current level of HER2 testing and to inform them that they would need to put arrangements in place to ensure that patients who may benefit from Herceptin for early breast cancer could be identified.

This exercise confirmed that access to HER2 testing facilities was patchy and few networks were testing all women with early breast cancer to determine their HER2 status. This was unsurprising given that Herceptin was not then licensed for early breast cancer.

In March 2006 the national cancer director sought a progress report from cancer networks. This has shown that there has been a significant improvement in the number of cancer networks providing HER2 testing for all women diagnosed with early breast cancer.

Some 28 out of 34 cancer networks are now reporting that they HER2 test all women diagnosed with early stage breast cancer. Of the remaining six:

Two (Leicester, Northampton and Rutland and Surrey, West Sussex and Hampshire) report that they will be testing all these women by July/August 2006; and

four (Derby and Burton, Mount Vernon Peninsula and Thames Valley) report that they will be testing all these women by September /October 2006.

HOME DEPARTMENT

National Offender Management Service

The Parliamentary Under-Secretary of State for the Home Department (Mr. Gerry Sutcliffe): Her Majesty's Prison Service and the National Probation Service have today published their annual reports, reporting their performance for 2005-06. The Office for Contracted Prisons has today published their "Statement of Performance". Copies of all the annual reports have been placed in the House Library. The Prison Service report and the Office for Contracted Prisons Statement of Performance include the financial accounts for 2005-06. The financial accounts for the National Probation Service will be published later in the year.

Performance against all the National Offender Management targets for 2005-06 is shown in the table below.

PERFORMANCE AGAINST THE NATIONAL OFFENDER MANAGEMENT TARGETS FOR 2005/06

	ANNUAL TARGET	OUTTURN
PUBLIC PROTECTION TARGETS		
Category A Escapes	0	0
Total Escapes from Prisons and Prison Escorts	Less than 0.05%	0.014%
Escapes from Contracted Escorts (NOMS)	1:20,000	1:59,082
Risk of harm assessments, full analyses and Offender Assessment Systems (OASys) sentence plans, including risk management plans, on high/very harm risk of harm offenders completed within 5 working days of commencement of order or release into the community	90%	81% (Aug 05-Mar 06)
Risk of harm screenings/full analyses (as appropriate) and OASys sentence plans completed on Prolific and other Priority Offenders (PPOs) within 5 working days of the commencement of the order or release into the community	90%	82% (Aug 05 Mar 06)
SUPPORTING THE COURTS		
Pre-Sentence Reports to the Magistrates courts within the deadline specified by the court	90%	97% (July 05 Mar 06
Timely Arrival at Court (NOMS)	85%	82.31%
FIRM AND FAIR PUNISHMENT		
Proportion of orders and licences in which the offender complies	85%	81%
Breach proceedings initiated within 10 days	90%	91%
Self-inflicted Deaths	Less than 112.8 per 100,000	96.8
Serious Assault	Less than 1.53%	1.84%
Overcrowding (public prisons)	Less than 24%	23.7%
Overcrowding (contracted prisons)	Less than 34.5%	31.3%
HELPING TO CUT CRIME		
Education Awards (Probation Service) Basic Skills starts	40,000	44,972
(Probation Service) Basic Skills Awards achieved*	10,000	14,930
Education Awards (Prison) Basic skills awards achieved*	56,080	63,925
Education Awards (Prison) Work Skills awards achieved*	120,000	186,226
Accommodation on Release	64,765	77,388

PERFORMANCE AGAINST THE NATIONAL OFFENDER MANAGEMENT TARGETS FOR 2005/06

	ANNUAL TARGET	OUTTURN
Employment, Training and Education (ETE) place on release	38,000	42,879
Drug Treatment and Testing Orders/Drug Rehabilitation Requirements Completed (Probation)	4,000	3,977
Drug Treatment Programmes Completed (prisons)	5,850	8,011
Mandatory Drug Tests	Less than 11.8%	10.3%
Offending Behaviour Programmes completions (Probation Service)	15,000	17,127
Offending Behaviour Programmes (Prisons)	7,000	7,942
Of which Sex Offender Treatment programmes	1,240	1,152
Intensive Control and Change Programmes completed	350	270
CONTRIBUTING TO COMMUNITIES AND SOCIETY		
Enhanced Community Punishment/Unpaid Work completions	50,000	51,026
Victim Contact	85%	93%
ORGANISING AND SUPPORTING DELIVERY		
Staff Sickness (public prisons only)	Less than 11..5 days/person	12.17
Staff Sickness (Probation Service)	Less than 9 days/person	12.3
Ethnic Minority Staff (public prisons only)	At least 6%	5.73%
Regionally set employment targets for Ethnic Minority Staff	8.4%	11.9%
Clear proposals in court reports for minority ethnic offenders	95%	97%

* Learning and Skills Council has contributed to this target by delivering in three development regions.

Organised and Financial Crime

The Secretary of State for the Home Department (John Reid): I have today published a consultation paper, "New Powers for Organised and Financial Crime", which will make the UK the least desirable place for organised criminals to operate.

The proposals build on the plans set out in March 2004 in the Government's White Paper: "One Step Ahead: A 21st Century Strategy to Defeat Organised Crime". Those plans have been brought into being by the passing of the Serious and Organised Crime and Police Act 2005 and the establishment of the Serious Organised Crime Agency from April this year. The proposals on which we are now consulting would:

Improve the sharing of data within the public sector and between both the public and the private sectors in order to help prevent crime;

introducing new offences of encouraging or assisting a criminal act to strengthen the current law and make it easier to bring to justice those involved in the margins of organised crime;

establish a new civil crime prevention order to prevent organised criminal activity by individuals or organisations by imposing conditions on them;

strengthen the working of proceeds of crime legislation.

We believe that these additional measures would provide important new means for tackling organised criminality still more effectively.

Copies of the consultation document are available in the House Library and on the Home Office website at: www.homeoffice.gov.uk. We should be glad to receive views by 17 October 2006.

Youth Justice Board

The Parliamentary Under-Secretary of State for the Home Department (Mr. Gerry Sutcliffe): The Youth Justice Board's annual report and accounts for 2005-06 have been laid before Parliament today. Copies have been placed in the Libraries of both Houses.

TRANSPORT

MOT Fee Increase (Consultation)

The Minister of State, Department for Transport (Dr. Stephen Ladyman): The Department for Transport has, today, issued a consultation document for the attention of stakeholders seeking views on the proposed review of the maximum level of MOT fee due for implementation later this year. The letter proposes an increase in the maximum level of fee for a car (MOT test Class IV) from £44.15 to £50.35 from October 2006.

This represents an increase of £6.20. The Government do not intend to increase the maximum price again until April 2008 at the earliest.

The increase in the maximum fee level follows an analysis of how long garages actually spend performing the test which shows it now takes nearly an hour on average to fully MOT a car. This includes a check of up to 26 systems and components, including safety critical ones such as tyres and brakes.

Prescribed MOT fee levels are a maximum—some garages do not charge the full fee. Some garages simply charge less than maximum; some offer free retests; and, some even make no charge for the test provided it is combined with a full service.

The increase in fees will go to the garages to cover the costs of their time, with a small amount—27p—going to the Vehicle Operator Service Agency to cover the costs of running the system, which will in turn be passed to the service provider.

A copy of the letter is available in the Libraries of both Houses. The proposed new fee levels have already been subject to informal consultation with interested parties and so there is a shortened consultation period which expires on 1 September 2006.

WORK AND PENSIONS

Informal Employment, Social Policy and Health Ministerial Meeting (Helsinki)

[redacted] Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): The Employment, Social Policy and Health Informal meeting was held on 6 to 7 July in Helsinki, Finland.

My hon. Friend the Minister for Consumer Affairs and Competition Policy, the Minister of State, Department of Health, my hon. Friend the Member for Doncaster, Central (Ms Winterton) and I represented the UK.

The theme of the informal was to look at the challenges of globalisation and demographic ageing. The workshops were divided into three parallel groups.

My hon. Friend the Minister for Consumer Affairs and Competition Policy participated in the workshop on 'Productivity and Quality of Working Life' and focused on the UK experience and strategy for promoting high performance in the workplace as set out in "Success at Work".

I represented the UK on the workshop on Prolonging Working Life for Men and Women and highlighted the Government's plans to extend working life through pension reform and measures to help people to stay in work and balance their caring responsibilities.

My hon. Friend the Minister of State, Department of Health spoke about the Health, Work and Wellbeing Strategy and emphasised the message that work is good for health, especially mental health, in the workshop looking at how to promote health in the workplace.

The presidency drew conclusions from the three workshops and said that it had seen a consensus that the ageing population raised clear challenges, which could best be met by shared objectives for employment, social and health policies. This could include flexicurity, effective social protection and consistent action on health. The flexibility needed to embrace social change should include action on work-life balance, gender equality, lifelong learning and health and safety to make work more attractive and increase productivity. Social partners and civil society must be fully engaged. All actions should be tailored to the needs of women and men.

Written Ministerial Statements

Tuesday 18 July 2006

TREASURY

HMRC Online Services

The Paymaster General (Dawn Primarolo): In his report on the "Review of HMRC Online Services", published at the Budget in March 2006, Lord Carter of Coles recommended that, for 2007-08 and subsequent returns, the income tax self assessment filing deadline should be brought forward from 31 January to 30 September for paper returns and to 30 November for returns filed over the internet. Lord Carter has since reviewed the responses to the Partial Regulatory Impact Assessment published with his report and has received further representations from tax practitioners. Having reviewed his earlier findings, he has now recommended that, for 2007-08 and subsequent returns, the filing period for paper returns should be reduced to seven months—the new deadline should be 31 October—and the filing period for online returns should remain at 10 months—with a deadline of 31 January. He has also suggested that HM Revenue and Customs officials should work with practitioners to explore how in future the practical difficulties in collecting data earlier might be overcome so that taxpayers can complete their returns sooner if they wish. The Government have accepted Lord Carter's revised recommendation. This updating of the self assessment system takes account of both the views of tax professionals and the operational requirements of HM Revenue and Customs.

COMMUNITIES AND LOCAL GOVERNMENT

Home Information Packs

The Minister for Housing and Planning (Yvette Cooper): I am today setting out further details of the Government's implementation strategy and dry run for Home Information Packs (HIPs).

The aims of the HIPs programme

The aims of the Government's reforms to the home buying and selling process are threefold:

(i) To provide home owners with important energy efficiency information about their homes to help them cut fuel bills and carbon emissions. This is vital as homes account for 27 per cent. of Britain's carbon emissions. Energy Performance Certificates will provide clear information about the energy efficiency of homes and how that can be improved. The Energy Saving Trust estimates that following the advice in Energy Performance Certificates could save the average home owner up to £300 a year on their fuel bills The Government believe it is important to implement these as early as possible given the importance of reducing carbon emissions.

(ii) To benefit consumers by cutting waste and duplication, speeding up home sales and reducing the number of failed transactions, which at present cost consumers around £350 million a year in wasted costs.

(iii) To encourage and support long term transformation of the home buying and selling industry by introducing greater transparency and competition to drive down costs and incentivise better service and clearer redress for consumers.

Testing

There are three main components to Home Information Packs: searches and other legal documents; Energy Performance Certificates; and the home condition surveys that make up the other component of a full Home Condition Report. It is essential that all aspects of Home Information Packs are properly tested before fall implementation. We need to be sure that consumers understand, value and can utilise the information that HIPs provide; that the assumed benefits will be realised; and that the different operating systems underpinning HIPs will work effectively.

As part of our on-going programme of implementation, we have already successfully tested over 14,000 HIPs with searches, but largely without Home Condition Reports, in the dry run so far. Over the course of the summer we propose to undertake farther consumer research on Home Condition Reports; to study in greater detail the 250 HIPs that have been produced to date with some kind of survey; and to look to see what more we can learn from experience in other countries where HIPs have been introduced successfully or are currently being proposed. From the autumn the emphasis of our implementation programme will switch to the testing of Energy Performance Certificates and Home Condition Reports. Working with the industry and with consumers, we are proposing to support a series of area based trials and we will test proposals such as allowing sellers to start marketing their homes if they have already commissioned their HIP rather than having to wait up to 14 days. There will be independent assessment and monitoring of all aspects of the dry run.

Roll out

It is also important that reforms are introduced on a timetable and as part of a programme that maximises the benefits for consumers and the environment.

As part of the development of the dry run we have engaged in detailed consultation with a wide range of stakeholders and gathered substantial information on the progress of implementation so far. As a result, we have concluded that there would be significant risks and potential disadvantages to consumers from a mandatory "big bang" introduction of full Home Condition Reports on 1 June 2007. In particular:

Further testing is needed to ensure that Home Condition Reports deliver the assumed benefits for consumers and that the operating systems that support them work smoothly. Design work on the dry run has made it clear that this cannot be completed in time for the results to be taken into account by 1 June.

A recent report from the Council of Mortgage Lenders identified the real possibility that some lenders might not be fully geared up to use HCRs until 2008-09. In particular the industry's plans for bringing in Automated Valuation Models means that many lenders will not have them in place by June 2007 and so will continue to seek separate mortgage valuation surveys where they could have relied on a Home Condition Report.

There are concerns about the number of inspectors that will be in place in time for June next year.

Moreover, because of our commitment to addressing climate change we do not want to jeopardise the successful introduction of Energy Performance Certificates at the earliest possible opportunity by pursuing the 'big bang' mandatory introduction of full Home Condition Reports at the same time.

We believe that progressive market-led take-up of full HCRs could strongly benefit consumers. Bearing in mind our commitment to the early introduction of Energy Performance Certificates, combining an Energy Performance Certificate and a full Home Condition Report at the same time is likely to offer significant additional benefits to buyers and sellers. In particular, sellers offering full Home Condition Reports should be more likely to benefit from swifter sales and suffer fewer transaction failures, as accepted offers are much less likely to be re-opened as a result of new information coming to light. In addition, once Automated Valuation Models are in place, Home Condition Reports should mean buyers get cheaper and swifter valuations and mortgage offers. We therefore believe that there will be a significant incentive for consumers to top up their HIPs voluntarily to include full Home Condition Reports and that this is a product that the market can and should deliver.

Therefore we have concluded that:

HIPs will be introduced with searches and other key documents from 1 June 2007.

Energy Performance Certificates will be included in HIPs on a mandatory basis from 1 June 2007.

We will work with the industry to facilitate market-led take-up of full HCRs. As part of this approach, we will explore with the sector a wide range of options to enable a successful and innovative market for HCRs, including options for supporting the provision of necessary systems, effective demonstration projects for HCRs, and will consider the case for pump-priming funding. This market-led approach has the added benefit of giving industry more flexibility to innovate and adapt to consumer preferences.

This means that the remaining aspects of Home Condition Reports will not be made mandatory from June next year, but HCRs will be authorised documents that sellers will be able to include in their packs

Mandatory HCRs will remain on the table if the industry fails to make a success of the roll out of HCRs

As part of the next phase of reform of we will also be setting out our plans for an ombudsman scheme for estate agents to strengthen consumer protection as well as further proposals to review competition and transparency in the industry to the benefit of consumers.

We believe that these arrangements will ensure that Home Information Packs are implemented in a way that maximises benefits for consumers and the environment and successfully enables the long-term transformation of the home buying and selling market.

CONSTITUTIONAL AFFAIRS

Court of Protection Rules and Lasting Powers of Attorney

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My noble Friend the Parliamentary Under-Secretary of State has made the following written ministerial statement:

"The Department for Constitutional Affairs has yesterday published a consultation paper seeking views on new rules of court for the new Court of Protection established under the Mental Capacity Act 2005. The Department is seeking views on the draft rules included in the consultation paper. Copies will be placed in the Libraries of both Houses.

The Department is also publishing the Government response to the consultation on "Lasting Powers of Attorney" today. The consultation ended on 14 April 2006 and 118 responses were received. The consultation response provides a summary of responses and the next steps in light of the consultation.

The Mental Capacity Act 2005 establishes a new specialist court, to be known as the Court of Protection, with a new jurisdiction to deal with decision-making for adults who lack capacity. This court will have important structural differences from the current Court of Protection. The new court will be able to make decisions both, as the current court can, about property and affairs (the term used in the Act to describe the financial decision-making jurisdiction) and also about personal welfare matters including health care. The new Court of Protection will begin operating from April 2007.

The Act also allows people to plan ahead for a time when they may lack capacity by appointing an attorney to make decisions about both their property and affairs and personal welfare."

DEFENCE

Nimrod MRA4

The Secretary of State for Defence (Des Browne): I can announce that the contract for full production of 12 Nimrod MRA4 aircraft has been placed with BAE Systems. This is the culmination of many years of hard work by BAE Systems and its supply chain, and builds upon the considerable investment already made by the Ministry of Defence and BAE Systems. Nimrod MRA4 has had a troubled and well publicised history of time delays and cost overruns. The contract restructuring introduced since early 2003 has been successful in stabilising costs and, with three aircraft participating in the flight trials programme, the design has now reached a level of maturity which permits a commitment to full production.

The greater transparency offered by the revised contracting arrangements and the development of an effective partnering relationship between MOD and BAE Systems and its supply chain have been essential to restoring confidence in the programme. These are key elements of the Defence Industrial Strategy (DIS) and progress on Nimrod MRA4 demonstrates the benefits that will accrue to MOD and industry as these and other features of the DIS are put into effect across the defence industrial base.

The programme will provide the RAF with a maritime patrol aircraft capability second to none. Nimrod MRA4 will offer greater capability and improved availability when compared with the current MR2 maritime patrol aircraft which it replaces.

This contract will secure some 1,000 jobs at BAE Systems sites in the north-west of England, including around 700 at the Woodford site where the aircraft is manufactured. A further 300 or so jobs associated with production will also be secured at other BAE Systems sites.

Military Low Flying

The Parliamentary Under-Secretary of State for Defence (Mr. Tom Watson): It is normal practice for the Ministry of Defence to publish before the summer recess a report giving a detailed account of the low flying training that has taken place in the UK Low Flying System for the previous training year April 2005 to March 2006.

In the preparation of the report for this year an error in the method of attribution of hours from night areas into day areas has been discovered, which also affects information reported in prior years. This has delayed analysis of data and production of the 2005-06 report.

The corrected prior year figures will be shown in the 2005-06 report, and copies will be placed in the Library of the House.

November 2006 Roulement

The Secretary of State for Defence (Des Browne): I would like to confirm the details of the force package that we currently plan to deploy to Iraq at the next routine roulement of UK forces in November 2006.

The lead UK formation, currently 20 Armoured Brigade, will be replaced by 19 Light Brigade, which will take over command of UK forces in early November. In addition to 19 Light Brigade's Headquarters and Signals Squadron, the other major units currently in Iraq will be replaced as follows:

Unit deploying for Operation TELIC 9	*Unit currently in theatre (Operation Telic)*
HQ 19 Light Brigade	HQ 20 Armoured Brigade
1 x squadron from 2nd Royal Tank Regiment	The Queen's Royal Hussars
The Queen's Royal Lancers	1st The Queens's Dragoon Guards
1st Battalion The King's Regiment	1st Battalion The Light Infantry
1st Battalion The Yorkshire Regiment	1st Battalion The Princess of Wales's Royal Regiment
1st Battalion The Royal Green Jackets	1st Battalion The Devonshire and Dorset Light Infantry
1st Battalion The Staffordshire Regiment	2nd Battalion The Royal Anglian Regiment
1 x company from the Joint CBRN Regiment and 1 x company from The Black Watch 3rd Battalion The Royal Regiment of Scotland	
1 x company from the 51st Highland. 7th Battalion the Royal Regiment of Scotland (Territorial Army)	1 x company from each of The King's and Cheshire Regiment (Territorial Army) and The Lancastrian and Cumbrian Volunteers (Territorial Army)
40th Regiment Royal Artillery	26th Regiment Roval Artillery
2 x companies of the 2nd Battalion The Light Infantry (to deploy in September)	1st Battalion The Grenadier Guards (to return in September)
38 Engineer Regiment	35 Engineer Regiment
19 Lt Bde Combat Service Support Battalion	1 Logistics Corps

Following the completion of the roulement in November, the total number of UK troops in Iraq will be broadly the same as currently deployed, approximately 7,100 servicemen and women.

Members of the reserve forces will continue to deploy to Iraq as part of this force package, and we shall shortly start to serve approximately 600 call-out notices in order to fill some 500 posts. On completion of their mobilisation procedures, the reservists will undertake a period of training and integration into their respective receiving units. For, the majority their deployment to theatre will also commence in November and most will serve there for six to seven months, although some may have shorter tours. The reservists will perform a wide range of activities including force protection duties, logistics, medical support and individual reinforcements to units. In addition, we expect some 20 members of the sponsored reserves to be in theatre at any one time.

I emphasise that the force package we deploy in October/November will depend on the conditions on the ground, in particular the security situation in the south and progress on handover of security responsibility to the Iraqi civil authorities over the months to come. I very much hope that positive progress in these areas will enable adjustments to the force package we deploy, and we will continue to keep UK force levels in Iraq under review. I will, of course, aim to inform Parliament of any changes to these plans at the earliest opportunity.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Access to the English Coast

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Barry Gardiner): In July 2005 DEFRA asked the Countryside Agency, working with English Nature and the Rural Development Service, to advise the Government on ways to improve access to the English coast. We asked for that advice to be provided by the end of July 2006 in advance of the publication of a consultation document in October this year.

I have now decided that in view of Natural England assuming responsibility from the Countryside Agency in this area in October this year, Natural England should take forward the work which the Countryside Agency, English Nature and the Rural Development Service have carried out on coastal access. I am today announcing that I have asked the Natural England board to come forward with its recommendations on coastal access to the Government before the end of December this year. In line with these changes I am proposing that the public consultation should now be issued in early 2007.

HEALTH

Audiology Services

The Parliamentary Under-Secretary of State for Health (Mr. Ivan Lewis): We acknowledge that there are pressures with regard to the waiting times for audiology services. Considerable progress has been made in improving the provision of audiology services although we accept that there is still some way to go.

Between 2000-05, the Government invested £125 million in the Modernising Hearing Aids Service programme (MHAS), which was managed by the Royal National Institute for the Deaf (RNID), on behalf of the Department of Health. The outcomes of the programme have been significant and have ensured that by 2005 all NHS hearing aid services met the Government target of routinely fitting modern digital hearing aids.

There have been other significant improvements:

Working with RNID, we have ensured that high quality digital hearing aids are now available throughout the NHS with an estimated 750,000 people fitted with digital hearing aids by the NHS;

the current public private partnership (PPP) is also proving very successful; by February 2006 approximately 68,600 patients had been fitted with a hearing aid. NHS trusts benefit from the increased capacity, competitive pricing and quality of service provision available through PPP;

RNID and NHS Purchasing and Supplies Agency (PASA) working together have negotiated a reduction in the cost to the NHS of digital hearing aids;

a new degree has been developed to help address the national shortage of audiologists;

'Hearing Direct' has been set up: 12 sites run by NHS Direct which provide follow-up care and advice for selected hearing aid users (may be suitable for one third of all NHS patients);

since January 2006 we have been collecting waiting time and activity data for 15 diagnostic tests and procedures, including pure tone audiometry. These data have been shared with the NHS for performance management purposes since 2 June 2006. These data were published on 12 July 2006;

A key area of challenge to delivering the 18-week waiting target outlined in section 2 of the publication "Tackling hospital waiting: the 18 week patient pathway—An implementation framework" was audiology. Work is underway at official level to scope a national action plan for audiology, to be published in due course. The intention is to develop and take the work forward in partnership with stakeholders. This will involve working with eight physiological measurement sites to test ideas and to improve access to physiological measurement diagnostic services including audiology. These sites will be critical for informing the action plan and its eventual implementation.

The Government's investment, through the work of MHAS, has improved outcomes for patients. Medical Research Council research shows that patients have reported a 40 per cent. increase in benefit with the new service.

INTERNATIONAL DEVELOPMENT

Debt Relief (Clarification)

The Secretary of State for International Development (Hilary Benn): In my written statement of 5 July 2006, *Official Report*, column 43-44WS I said that 20 heavily indebted poor countries had had 100 per cent. of their debts to the IMF cancelled in January 2006, and that that applied to another, Cameroon, since. I wish to clarify that, in January, the IMF cancelled 100 per cent. of the debt stock held by 19 countries (including 17 HIPCs, 13 of which were African) and has cancelled 100 per cent. of the debt stock of two other HIPCs, Cameroon and Mauritania, since. Some 21 countries have now therefore received 100 per cent. debt stock cancellation at the IMF.

SOLICITOR-GENERAL

Annual Reports

The Solicitor-General (Mr. Mike O'Brien): The annual reports of HM Crown Prosecution Service Inspectorate, Revenue and Customs Prosecution Service, the Serious Fraud Office, Treasury Solicitor and the Crown Prosecution Service have today been published and laid before Parliament. Copies have been placed in the Libraries of both Houses.

TRANSPORT

Journey Time Targets

The Secretary of State for Transport (Mr. Douglas Alexander): The accessibility of our cities is key to their economic growth and success. It is therefore important that local authorities take responsibility for addressing the problem of road congestion, and the impact on journey times caused by the increasing numbers of journeys being made.

Each of the 10 largest urban areas in England therefore has a target to limit the increase in person journey time per mile, given the expected increase in travel over the next five years. The target relates to the overall average journey time on a representative set of the busiest roads in each of their major urban centres. The 10 are: London, Greater Manchester, West Midlands, West Yorkshire, South Yorkshire, Tyne and Wear, Merseyside, Bristol, Nottingham and Leicester.

While ownership of these local targets, and implementing measures to deliver them, is the responsibility of the local authorities involved, we have weighted (according to traffic volumes) and averaged the journey times across the 10 areas to create a national composite PSA target for the Department for Transport, as we announced on 5 July 2005.

The national PSA target is therefore that:

By 2010-11, the ten largest urban areas will meet the congestion targets set in their local transport plan relating to movement on main roads into city centres. The target will be deemed to have been met if, on target routes in the 10 largest urban areas in England, an average increase in travel of 4.5 per cent. is accommodated within an increase of 3.7 per cent. in person journey time per mile. The local targets on which this is based include:

In London, accommodate an increase in travel of 3 per cent. within an increase in journey time of no more than 1.5 per cent.;

in Manchester, accommodate an increase in travel of 1.5 per cent. with no increase in journey time; and

in the West Midlands, accommodate an increase in travel of 4 per cent. within an increase in journey time of no more than 5 per cent. (the target is expected to change—possibly to 3 per cent.—if funding for the West Midland's Urban Traffic Management and Control Project is fully approved in 2006-07).

Each local authority is responsible for finding a balance between economic development, safety and journey

times consistent with local circumstances and needs. The targets for each area are consistent with each authority's local transport plans, which set out their wider transport strategies. The Department for Transport will be working with each authority, to encourage and support them in delivery.

London, Manchester and the West Midlands account for about two-thirds of the traffic in the 10 urban areas. Major scheme bids, including for the West Midland's Urban Traffic Management and Control Project, are currently being considered.

We have today published a PSA technical note, with full methodological details, on the Department for Transport website. Copies have been placed in Library of the House.

Road Pricing Schemes

The Minister of State, Department for Transport (Dr. Stephen Ladyman): The Department is to release guidance on appraisal and modelling for local road pricing schemes. The guidance will advise scheme promoters in their preparation of business cases involving road pricing and can be found in the consultation section of the Department's transport analysis guidance website at: www.webtag.org.uk. The guidance has been placed in the Libraries of both Houses.

An overview of the analysis of road pricing schemes is provided by "Introduction to Modelling and Appraisal for Road Pricing". This is supported by four other modules for analysts: "Designing Efficient Local Road Pricing Schemes" (TAG Unit 3.12.1), which discusses approaches to the design of effective road pricing schemes: guidance on the issues arising when modelling road pricing schemes is provided in "Modelling Road Pricing" (TAG Unit 3.12.2); guidance on the issues arising when appraising road pricing schemes is provided in "Appraisal of Road Pricing Options" (TAG Unit 3.12.3); and "Measuring the Social and Distributional Impacts of Road Pricing Schemes" (TAG Unit 3.12.4) provides guidance on the use of social research methods to assess the social and distributional impacts of road pricing.

During the consultation period, ending 1 October, the Department welcomes comments. The guidance will be kept under review and may be updated from time to time to reflect any comments made.

WORK AND PENSIONS

National Insurance Numbers and Illegal Working

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): I announced on 5 June that the DWP would introduce a "right to work" condition into Jobcentre Plus's National Insurance Numbers allocation and decision making process for employment related applications from July. I can confirm that appropriate administrative arrangements are now in place making it a condition for the allocation of a NINO that there is a right to work. To further support this change, I intend to bring forward amendments to regulation 9 of the Social Security (Crediting and Treatment of Contributions and National Insurance Numbers) Regulations 2001 to make explicit the evidence which must be produced to demonstrate that the "right to work" condition has been satisfied.

Written Ministerial Statements

Wednesday 19 July 2006

TREASURY

Revenue and Customs Prosecutions Office

The Paymaster General (Dawn Primarolo): During passage of the Serious Organised Crime and Police Act (2005), Standing Committee D, 13 January 2005, column 130 and the Commissioners for Revenue and Customs Act (2005), 7 February 2005, column 615, statements were made that certain powers available to the Revenue and Customs Prosecutions Office (RCPO) would not be used in respect of tax offences until the outcome of the consideration of these powers by the current review of HM Revenue and Customs' Powers.

Those powers are contained in part 2 of the Serious Organised Crime and Police Act 2005. The Act came into force on 1 April. They enable the director of RCPO (and prosecutors to whom he has delegated such powers), to serve disclosure notices, obtain material, conduct compulsory interviews and execute search warrants. These powers are powers of RCPO, not of HMRC; they are RCPO's to use. However, the prosecutor can authorise use of the powers by an officer of HMRC in respect of tax offences where the prosecutor has decided that such use is appropriate.

As the powers are for RCPO to use, the issue for the Review of HMRC's powers to consider was the guidance that was available to HMRC staff when a prosecutor had authorised the use of the powers by an officer of HMRC. The review has looked at that guidance and, following minor changes, has approved it.

The Attorney-General and I agree that the powers contained in part 2 of the Serious Organised Crime and Police Act 2005 are now available for use by RCPO in respect of tax offences.

COMMUNITIES AND LOCAL GOVERNMENT

Planning (Best Value)

The Parliamentary Under-Secretary of State for Communities and Local Government (Meg Munn): My right hon. Friend, the Member for Streatham (Keith Hill), when Minister for Planning made a statement to the House on 14 September 2004 about the Government's approach to achieving the target for 100 per cent. of local planning authorities in England to perform at or above best value (BV109) levels for efficient handling of major, minor and other planning applications.

Since then, authorities have continued to make excellent progress in overhauling their processes and introducing a performance management culture. As a result it is now a realistic prospect that these targets, which are owned both by my Department (as PSA6) and by local government (as LG PSA11), will be achieved by the end of 2006-07 by the large majority if not all authorities.

In order to help embed recent changes in the performance culture in planning Departments, and to sustain delivery against the targets which now carry through to 2008 under the 2004 spending review, I am today announcing my intention to continue designating planning standards authorities for one more year.

It is my intention that authorities performing five percentage points below the targets levels in the year to June 2006 should be considered for designation as planning standards authorities in 2007-08. However, I intend to take into account performance in the year to September 2006 before making the final decision. I intend that the performance standards which designated authorities will be required to meet will be to the national best value target levels, as this year. In summary, the proposed thresholds and standards are as follows:

Percentage of applications determined within time

		2007-08
Major applications	Performance threshold in year to June 2006	55
	Standard to be met in 2007-08	60
Minor applications	Performance threshold in year to June 2006	60
	Standard to be met in 2007-08	65
Other applications	Performance threshold in year to June 2006	75
	Standard to be met in 2007-08	80

Supporting People

The Minister for Local Government (Mr. Phil Woolas): The Government are today confirming individual grant allocations to "Administering Authorities for the Supporting People Programme in 2007-08" which will fund housing related support services for over 1 million vulnerable people—including victims of domestic violence, teenage parents, older people and those with mental health problems—to live independently in their accommodation.

As part of the two-year local government funding settlement in December 2005, minimum allocations for 2007-08 were announced guaranteeing 95 per cent. of the total available. Some 5 per cent. of the funding was held back pending consultation on the draft Supporting People distribution formula, with a commitment to confirming full Supporting People allocations for 2007-08 before the summer recess.

The consultation on the Supporting People distribution formula is now complete and responses to this exercise have been assessed. Following consideration of the available options a decision has been taken to target the remaining funding in 2007-08 to help address some of the inherited uneven distribution of grant between

authorities by increasing Supporting People funding to over half of all Supporting People local authorities.

This decision is consistent with the approach taken to determining allocations in both 2005-06 and 2006-07 when an earlier version of the formula was used to inform the grant allocations to those authorities furthest from their correct relative share of the budget. Further work will be carried out on the analysis of responses to the consultation with a view to taking forward work on how we can distribute future funding based on need. All Supporting People grant allocations are listed below.

The Government are also targeting funding from the Supporting People programme to assist linked programmes of national importance.

This early announcement of funding for 2007-08 will help provide the stability required by local authorities and the sector in order to plan for the future.

Local authority	*2007-08 grants allocation (£)*

DEFENCE

Defence Industrial Strategy and Defence Procurement

The Minister of State, Ministry of Defence (Mr. Adam Ingram): I am pleased to announce progress on the complex weapons sector of the Defence Industrial Strategy (DIS). This sector provides key missile development capabilities to our armed forces.

The DIS identified that it represented a substantial challenge to maintain the industrial capability we wished to retain onshore given that we expect investment in new systems to decrease in the next five years from the current level due to a sharp decline in market size. We undertook to work with UK industry to meet this challenge, and can now announce that we are forming a "Team Complex Weapons (CW)". "Team CW" is led by MBDA and is centred around, QinetiQ, Thales Air Defence Ltd., Thales Missile Electronics and Roxel. "Team CW" will enable the UK to maintain key skills and technologies through a mixture of directed procurements and open competition, enabling controlled restructuring to take place whilst maintaining on-shore access to the capabilities our armed forces require.

Together we will develop "Team CW" during the second half of this year. We intend to agree a Strategic Partnering Agreement in 2006. This will require contractually binding measures focused on business transformation both within the Ministry of Defence and within industry allowing better-informed-through-life decisions to be made, and a more incremental approach to technology insertion to be adopted.

We intend to use a range of programmes to incentivise the restructuring process. Most significantly, we have changed our procurement strategy for the Loitering Munition Demonstration and Manufacture programme, potentially worth more than £500 million. It will be single-sourced to the MBDA-led "Team CW", subject to an enduring requirement for this technology, to affordability and to the ability to clearly demonstrate value for money.

We are also announcing four contracts for the development of technologies to contribute to the enhancement of Storm Shadow, and the Future Anti-Surface and Future Rapid Effects programmes, which will offer significant opportunities for collaboration. In the support area, we have placed a "Contract for Availability" known as PROJECT RevISE that covers air-launched weapons designed by MBDA.

Our joint approach with industry will enable us to develop a globally competitive industry that will deliver the technologically advanced missiles our armed forces will need in the future.

Far East Prisoners of War and Civilian Internees

The Parliamentary Under-Secretary of State for Defence (Mr. Tom Watson): Late last year, it emerged that inconsistent criteria had been used for deciding payments over the history of the ex-gratia payment scheme for former Far East prisoners of war and civilian internees. In response to this, my predecessor, the then Minister with responsibilities for veterans, my right hon. Friend the Member for Islwyn (Mr. Touhig), agreed that there should be an independent investigation to examine how the use of inconsistent criteria had arisen and why this had not been exposed earlier. Mr. David Watkins, a retired senior civil servant from the Northern Ireland Office was appointed to undertake this work and his findings were presented to me on 7 July. A copy of his report has been placed in the Library of the House.

The report finds no evidence of culpable behaviour by individuals but identifies a number of shortcomings

with the scheme's development and administration and also makes recommendations designed to avoid any recurrence.

I am grateful to Mr. Watkins for an investigation which has been thorough and far reaching, and has included consultation with the key representatives of those who were adversely affected by the errors. I welcome his report and can say now that we accept the overall thrust of its recommendations. We will analyse it in more detail, in consultation with other interested Departments, and I intend to give a more detailed response in a further statement after the recess.

While the errors in administering the scheme were deeply regrettable, I would echo the report's recognition of the admirable work undertaken by the then War Pensions Agency and others that allowed the scheme to be introduced in a remarkably short timescale, with some 14,000 payments made within three months of the scheme's introduction, and a total of over 25,000 payments now made.

Finally, I know that there has been a residual concern that a number of those who do not qualify under the scheme may be experiencing hardship. To respond to this concern, my officials have been in discussion with the charity which provides support in such cases amongst those from the UK who were once prisoners of war or civilian internees in the Far East. I am pleased to announce that the Ministry of Defence will shortly be providing financial assistance to support the charity's work in dealing with such cases and to help publicise the recently announced changes to the criteria, as a result of which eligibility under the scheme has been extended to those who can show a close link to the UK since the second world war.

HEALTH

Annual Reports and Accounts

The Parliamentary Under-Secretary of State for Health (Mr. Ivan Lewis): The annual reports and accounts for the following organisations have been laid before Parliament today:

Dental Practice Board
Dental Vocational Training Authority
Mental Health Act Commission
National Treatment Agency for Substance Misuse
NHS Appointments Commission
NHS Blood and Transplant
NHS Business Services Authority
NHS Direct
NHS Institute for Innovation and Improvement
NHS Logistics Authority
NHS Professionals
NHSU
National Institute for Health and Clinical Excellence

The annual reports and accounts for the following organisations will be laid before Parliament shortly:

Human Tissue Authority +
Commission for Patient and Public Involvement in Health
Council for Health care Regulatory Excellence
Healthcare Commission
NHS Pensions Agency
NHS Counter Fraud and Security Management Service
Prescription Pricing Authority

The business plans for the Medicines and Healthcare Products Regulatory Agency have been placed in the Library today.

Pharmaceutical Price Regulation Scheme

The Minister of State, Department of Health (Andy Burnham): The ninth report to Parliament on the pharmaceutical price regulation scheme (PPRS) was published today.

The report covers the main points of the 2005 scheme and the delivery of the 7 per cent. price cut; the management and operation of the 1999 scheme including the delivery of the 4.5 per cent. price cut and consolidated information on company annual financial returns. The report sets out the contribution made to the economy by the UK based pharmaceutical industry and gives an update on international price comparisons.

Copies of the report have been placed in the Library.

HOME DEPARTMENT

Foreign National Prisoners (Deportation and Removal)

The Minister for Immigration, Citizenship and Nationality (Mr. Liam Byrne): I would like to update the House on progress in deporting foreign national prisoners, following the Home Secretary's statement on 23 May 2006, *Official Report*, column 77WS, volume 446.

Our objective is that foreign national prisoners should face deportation and deportation should happen as early as possible in their sentence. As an immediate step, we now have an Imminent Release Team in IND, working with HM Prison Service to ensure that foreign national prisoners who meet the existing criteria are not being released from prison without being considered for deportation. My review of the last few weeks confirms that, in order fully to achieve our objective, there is a need for legislation, as well as fundamental reforms in the eight areas identified.

First, the Home Secretary identified that there is today no unique identifier to link individuals who come in contact with the asylum and immigration and criminal justice systems. We have therefore commenced development of a comprehensive approach to identity management across all Home Office areas and will finalise a strategic action plan by the end of September 2006

Secondly, we have identified that the police, Crown Prosecution Service, courts and prisons depend on self-declaration of nationality and that there is no requirement for the police to record nationality of people brought into custody. There is no requirement

in law for a detainee to furnish details of their identity or nationality. The immigration and nationality directorate and the criminal justice agencies have now designed and tested proposals for new ways of working, alongside options for new legal requirements to address this. We will conduct detailed field tests with frontline staff over the summer and produce recommendations in October.

Thirdly, work has to be done to ensure that all future instructions are given to all agencies of the criminal justice, asylum and immigration systems and are both consistent and fully implemented. IND needs to work much more closely with the criminal justice agencies. Lin Homer has therefore joined the National Criminal Justice Board to ensure that this is done. Since 23 May, new guidance has been issued to IND and the prison service. Over the summer we will audit related guidance of six key agencies, benchmark implementation and develop recommendations for change, including training provision, by October. This will be followed up by training and awareness events for staff working in the 20 key prisons, which process largest numbers of foreign national prisoners at the earliest stages of their sentences, by the end of 2006.

Fourthly, the Home Secretary asked for an audit of policy criteria and processes; and fifthly that steps should be taken to ensure that all deportation decisions are made according to the most robust interpretation of the requirements of our international obligations. Guidance in May to IND and prisons identified interim criteria, so that all non-European economic area nationals sentenced to 12 months imprisonment or more, either in one sentence or in two or three sentences over five years; and all EEA nationals sentenced to 24 months or more, should be considered for deportation. We are today changing the immigration rules with effect from midnight tonight to confirm the presumption that all such prisoners should be deported. The guidance sets out also that only rarely will factors other than international obligations weigh against deportation.

But the current law does not go far enough to link criminality with deportation in the way that we would want and the public would expect. We need to change the law to make deportation the norm for foreign national prisoners, to remove some in-country rights of appeal; to streamline procedures; and otherwise to remove barriers to deportation and removal, including existing exemptions for some Commonwealth nationals. We shall announce further steps in the wider IND review, to be published before recess.

Sixthly, new formal arrangements are now in place to refer cases for consideration of deportation where the foreign national prisoner is in custody in Scotland or Northern Ireland. Prison authorities in Scotland and Northern Ireland have confirmed that these processes are working well. These arrangements involve IND officials and officials in the Scottish Executive, the Scottish Prison Service, the Northern Ireland Office and the Northern Ireland Prison Service. Agencies are now developing proposals to extend these formal arrangements for referral across the justice systems in these jurisdictions: for example with the police, Crown Office and Procurator Fiscal Service (COPFS) and Scottish courts; and at each stage in the system in Northern Ireland, as approved by my right hon. Friend the Secretary of State for Northern Ireland.

The seventh priority area for action is the sensitive issue of mentally disordered offenders, where there has hitherto been no established system of referral, and nationality has not routinely been recorded. As with Scotland and Northern Ireland, arrangements have now been put in place to ensure that cases are referred for consideration of deportation for this particular group, when their formal restriction is due to end. Home Office officials are considering with the Department of Health what other actions we might take to ensure mentally disordered offenders can be considered for deportation at the earliest appropriate opportunity.

Finally, the National Offender Management Service (NOMS) is conducting targeted interviews with foreign national prisoners who qualify to transfer to serve their sentence in their home country. An urgent amendment is being sought to legislation currently before Parliament to remove the need for prisoner consent in these cases; and prisoner transfer agreements are being negotiated with more foreign Governments. We have agreements with 96 countries and territories. NOMS, IND and the Foreign and Commonwealth Office are assembling a package of measures to accelerate this work further.

There remains much to be done. Progress in all these areas will be reported in due course.

Ministerial Authorisation (Zimbabwe)

The Minister for Immigration, Citizenship and Nationality (Mr. Liam Byrne): As a result of intelligence received in 2001 and July 2004 suggesting systematic fraud in applications for UK ancestry from Zimbabwean nationals, consideration of such applications was suspended last year pending further investigation.

In the light of continued evidence of fraudulent Zimbabwean applications for indefinite leave to remain in the UK on grounds of UK ancestry lodged prior to 25 October 2004, my predecessor made an authorisation on 16 January of six months duration under section 19D of the Race Relations Act 1976. This authorisation enabled staff in the Immigration and Nationality Directorate to subject these applications to more rigorous investigation than applications from persons of other nationalities, for the purpose of detecting fraudulent applications.

As a result of our review of this authorisation, I have decided to renew it for a further six months. We will review the continued need for this authorisation before its expiry.

A copy of the authorisation has been placed in the Library of both Houses of Parliament.

NORTHERN IRELAND

Police Ombudsman for Northern Ireland

The Secretary of State for Northern Ireland (Mr. Peter Hain): The Police Ombudsman for Northern

Ireland's annual report and accounts for the year ended 31 March 2006 is published today.

Copies will be available in the Libraries of both Houses.

Youth Justice Agency of Northern Ireland

The Minister of State, Northern Ireland Office (Mr. David Hanson): I have placed copies of the Youth Justice Agency's annual report and accounts for 2005-06 in the Libraries of both Houses.

This is the Agency's third annual report since its inception on 1 April 2003. It achieved nine of its 10 key performance targets and all 17 of its development objectives.

TRANSPORT

Demand Management (M25)

The Secretary of State for Transport (Mr. Douglas Alexander): In July 2003 the then Secretary of State for Transport, my right hon. Friend the Member for Edinburgh, South-West (Mr. Darling), in response to the ORBIT multi-modal study, confirmed his intention to add an extra lane of capacity to bring most of the remaining three lane sections of the M25 up to four lanes in each direction. Construction work on this major investment project costing over £2 billion is expected to start in 2008 and run through until 2016 with the widening being undertaken in stages.

At the time of the decision to increase the capacity of the M25, it was made clear that widening would be pursued alongside measures to improve the management of traffic flow in order to lock in the benefits that the additional capacity would provide.

The Department has been exploring how traffic management technology already being used on the motorway network might be used to control congestion on the orbital motorway and its junctions. But traffic using the motorway also uses surrounding local roads and not just the motorway. The modelling that has been completed shows that there is potentially considerable benefit to be gained in the Department applying and operating traffic management techniques jointly with local authorities. The benefits would be reflected in better overall journey times for the majority of road users, across both the national and the local networks

It is vital that we harness local authorities' local knowledge at the planning stage, as well as developing a joint approach in applying that knowledge. I am therefore writing today to all the local authorities around the M25 to start this dialogue, focusing initially on those in the north west segment, where the first section of widening will take place, with the aim of developing an approach that will ensure long-distance traffic and local residents all benefit from this huge national investment.

Heathrow Sustainable Development (Air Quality)

The Secretary of State for Transport (Mr. Douglas Alexander): I have today published the technical report of the Air Quality Technical Panels instituted after the 2003 Air Transport White Paper to review the basis upon which air quality assessments should be carried out for Heathrow Airport.

We continue to support further development at Heathrow, including the addition of a short, third runway in the 2015 to 2020 period, after a new runway at Stansted, but only if we can be confident that the conditions set out in the White Paper can be met. Publishing this report is a significant milestone in the programme of work to review the scope for meeting those conditions. I am grateful to the panel members who have devoted their energies over the past two years to a very full review of the issues and have produced a detailed and comprehensive report.

The report has been peer reviewed and I am happy to accept its recommendations. It is primarily concerned with methodology—how future assessments of air quality around Heathrow should be conducted. It does not attempt to prejudge the question whether development at Heathrow is more or less likely to be achievable within the critical air quality limits. But importantly it provides a sound scientific basis on which we can now proceed to carry out the remaining stages of the work to address that question in the coming months, building on the panels' recommendations.

Copies of the report are available in the House Library and full details will be available on the Department's website.

WORK AND PENSIONS

Strategic Direction for Remploy

The Parliamentary Under-Secretary of State for Work and Pensions (Mrs. Anne McGuire): Increasing the number of disabled people that we support into work is a core part of our Welfare Reform agenda. This is central to meeting the Department's aim of an 80 per cent. employment rate, and central to ensuring equality of opportunity for disabled people.

Remploy was set up after the Second World War to provide employment to facilitate rehabilitation and progression to open employment. Employing around 5,000 disabled people, the Remploy factories are engaged in a wide range of sectors ranging from office furniture through textiles to electronics. These industry sectors have experienced significant change over the last sixty years—not least through increased international competition.

In addition, the way in which we support disabled people into work has evolved. Strengthened disability rights mean that we are now in a stronger position to support people in a mainstream environment. This is why Remploy developed its Interwork business—which supported 4,300 people into jobs in 2005.

These changes have raised significant questions about the future strategy for Remploy. That is why in March I commissioned PricewaterhouseCoopers and Stephen Duckworth (a disability expert with wide experience of disability rights and employment issues) to conduct a strategic review of the future business options for the company.

Today I have published the findings of the review. Copies of the PricewaterhouseCoopers report have been made available in the Libraries, Vote and Printed Paper Offices and on the DWP website http://www.dwp.gov.uk/publications/dwp/2006/remploy

The report delivers a hard-hitting financial assessment of the challenges facing Remploy.

Factories are facing growing cost pressures as a result of increased international competition and technological development

The average cost per employee is £18,000 per year and over £48,000 in the household and toiletries factory— far greater than say the £5,000 cost per head of other WORKSTEP providers.

The report sets out a range of possible scenarios for the business—from no change to complete closure of the factory network. I am ruling out both of these options.

It is clear from both this report and that of the National Audit Office that doing nothing is not an option. This view is shared by the Remploy Board, its management and the trade unions. The necessity for change is clear, but I believe there is still a role for sheltered employment in the future.

We recognise that change will have an inevitable impact on the disabled people Remploy employs. We want to give Remploy the time and support to determine the best way to modernise and restructure its business. We intend therefore to provide the necessary funding to enable this to happen, in particular so there is sufficient time to consider factory reorganisation as part of an overall restructuring package. This is not a cuts package for Remploy; on the contrary we will be maintaining the baseline funding and investing more this year to help deal with the short term issues.

I will be asking the Board of Remploy to undertake the preliminary work to bring forward later next year a five year restructuring plan with proposals both to modernise the business and to support substantially larger numbers of disabled people into work. Full consultation will take place with the trade unions and employees in developing this strategy. I will be making clear that any such proposals must protect Remploy's disabled employees from compulsory redundancy. Once this plan is brought forward, we will consider whether we are able to offer the Board additional funding for modernisation and we will also consider at that stage with the Chair whether we need to enhance the range of skills on the Board to help them to do this.

Currently Remploy supports around 9,000 disabled people in factory employment, Interwork and managed services. In the longer term our ambition is that any restructuring should enable us to help significantly more disabled people in work than if we continue with the status quo thus providing substantially more opportunities for disabled people and better value for the taxpayer.

The efforts of Remploy's existing workforce, its Chair and current Board, and its supporters must not be under-estimated or taken for granted. They have much to be proud of. But Remploy cannot stand still and we need to examine how the ideals which lay behind its creation 60 years ago can fit the world which it now faces.

Disability Rights Commission

The Parliamentary Under-Secretary of State for Work and Pensions (Mrs. Anne McGuire): The Disability Rights Commission's Annual Report and Accounts 2005-06 have been published today and laid before Parliament. The Annual Report demonstrates the DRC's continuing success in its important work to eliminate discrimination against disabled people; promote equal opportunities; encourage good practice and keep the working of the Disability Discrimination Act and the DRC Act under review.

Benefit Fraud Inspectorate Reports (Publication)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the BFI inspection reports on the following councils were published today: Bath and North East Somerset Council, Elmbridge borough council, Exeter City Council, Gateshead borough council, Reading borough council, Shepway district council, Stevenage borough council and Walsall metropolitan borough council. Copies have been placed in the Library.

The BFI reports detail a range of strengths and weaknesses in the housing benefit services provided by councils and make recommendations to improve the security and efficiency of benefit delivery.

My right hon. Friend the Secretary of State is considering the reports and may ask the councils for proposals in response to BFI's findings.

Written Ministerial Statements

Thursday 20 July 2006

TREASURY

Double Taxation (Poland)

The Paymaster General (Dawn Primarolo): A new Double Taxation Convention with Poland was signed on 20 July 2006. After signature, the text of the convention was deposited in the Libraries of both Houses and made available on HM Revenue and Customs' website. The text of the convention will be scheduled to a draft Order in Council and laid before the House of Commons in due course.

ECOFIN

The Chancellor of the Exchequer (Mr. Gordon Brown): At its meeting of 11 July 2006, the Economic and Financial Affairs Council took note of a presentation from the Finnish presidency on its work programme for the Council during the second half of 2006. Priorities include addressing the challenges of globalisation, efficient functioning of the internal market and further economic and structural reforms.

ECOFIN adopted a 104(12) Decision abrogating Cyprus's Excessive Deficit Procedure (EDP) and Council Conclusions on Portugal's progress in addressing its EDP.

Council adopted a decision allowing Slovenia to adopt the Euro as its currency as from 1 January 2007.

ECOFIN adopted a set of conclusions regarding the first year of the revised Stability and Growth Pact.

Council discussed the renewal of the EIB's external lending mandates, which will set the amounts and strategic priorities of the EIB's operations outside the ED. The Council requested the Economic and Financial Committee to oversee further work on the proposal and will discuss this again at its meeting on 10 October.

ECOFIN was briefed by the Commission on economic dialogues with third countries and held an exchange of views. The UK welcomed the economic content of the EU-US Vienna Declaration as well as further ECOFIN discussion on the key issues for these dialogues.

ECOFIN adopted Council conclusions on a Commission proposal for the funding of the International Accounting Standards Board.

The Financial Secretary to the Treasury represented the UK.

Income Support/Job Seekers Allowance

The Paymaster General (Dawn Primarolo): The Chief Secretary made a statement on 12 July 2005, *Official Report*, column 723, on timing of the phased transfer on to child tax credit (CTC) of the remaining families with children receiving family support through Income Support/Job Seekers Allowance.

Following further consideration of the proposed timetable, I have decided that the transfer should be deferred until 2007. My decision reflects the fact that it is extremely important to safeguard continuity of support for children among this particularly vulnerable group. The postponement will allow a number of planned tax credits measures, which I announced at the pre-Budget report, some of which require system changes, to be introduced before support for these families' children is transferred to child tax credit.

I will make a final decision next year on whether the transfer should go ahead in 2007 as currently planned. My decision will again be taken in the light of the importance I attach to ensuring the continuity of support that these families receive for their children. Families will continue to receive financial support through their benefits until they are transferred on to child tax credit.

It remains the Government's firm intention to migrate all income-based support for children into a single, seamless system of support delivered through child tax credit.

CULTURE, MEDIA AND SPORT

Government Indemnity Scheme

The Parliamentary Under-Secretary of State for Culture, Media and Sport (Mr. David Lammy): On 26 January 2006 I made a statement to the House regarding the Government Indemnity Scheme. In that statement, we reported a figure of £1,286,220,279 as the contingent liability of non-national museums as at 30 September 2005.

It has since been brought to my attention that the non-national museums' contingent liability figure, produced by the Museums, Libraries and Archives Council, should have been £1,292,909,094.

DEFENCE

Northern Ireland Future Allowances and Charges

The Minister of State, Ministry of Defence (Mr. Adam Ingram): On 1 August 2005 the Secretary of State for Northern Ireland announced the start of the normalisation programme outlined in the Joint Declaration. Stage 1 of this programme will be complete by 31 July 2007 and, at that time, operation banner will end. An allowances and charges package specific to the operational, security and welfare

circumstances of operation banner is currently in place. With the end of operation banner, however, Northern Ireland will no longer be classed as an operational theatre and, as a result, there will be a number of changes to the package. On 1 August 2007, personnel serving in Northern Ireland will commence payment of food and accommodation charges, and contributions in lieu of Council Tax on the same basis as those elsewhere in the United Kingdom and overseas. Other provisions associated with operational status will also cease, such as operational telephone allowance, welfare entertainment, free e-blueys and the award of operational medals. Other Northern Ireland-related allowances, including: Northern Ireland resident's supplement, which is paid to all personnel serving on permanent assignment in Northern Ireland, in recognition of the impact of the security situation on them and their families; Northern Ireland journeys, which allows personnel and their accompanying families to return to Britain regularly to obtain respites from the pressures of living in Northern Ireland; and other lesser provisions will be retained for the time being, but will be kept under review as the normalisation programme progresses.

Gulf Veterans

The Parliamentary Under-Secretary of State for Defence (Mr. Tom Watson): A key principle of the Government's approach to addressing the health concerns of veterans of the 1990-91 Gulf conflict is that there should be appropriate research into veterans' illnesses and factors that may have a bearing on these.

As a key part of that research, the Ministry of Defence has sponsored an investigation by the Defence Science and Technology Laboratory, Porton Down, into the possible health effects of the combination of vaccines and tablets given to troops at the time of the 1990-91 Gulf conflict to protect them against the threat of biological and chemical warfare. The main body of work involved monitoring multiple factors in marmosets for up to 18 months following the administration of vaccines and/or pyridostigmine bromide (the active ingredient in nerve agent pre-treatment tablets). Interim results were announced on 1 April 2003, official report, column, 55WS.

Papers reporting final results from two elements of the main study have now been published in the online version of the journal "Pharmacology Biochemistry and Behavior" and hard copy publication will follow. A summary of the papers is available on the "Articles in Press" section of the journal's website: www.sciencedirect.com/science/journal/00913057. The papers report that there were no long-term changes of biological significance in cognition, muscle function, general health, brain electrical activity and sleep that could be attributed to administration of vaccines and/or pyridostigmine bromide.

The publication of these findings in a peer-reviewed journal should be welcomed by Gulf veterans in addressing a key area of concern to them. It represents a further step towards meeting the Department's commitment to investigate these issues. Further results on the immunological aspects of the study will be published in due course.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Advisory Committee on Pesticides

The Minister for Climate Change and the Environment (Ian Pearson): The Advisory Committee on Pesticides (ACP) has agreed to trial arrangements to publish the detailed record of its meetings.

The ACP will continue to publish a short summary minute of meetings within three weeks of a meeting. This is published on the ACP website and supports a requirement under the Code of Practice for Scientific Advisory Committees to publish material suitable for a lay readership.

This will be followed with the publication of the full detailed record two to three months after the meeting. This timescale is necessary to allow the Committee's members to review the draft at their subsequent meeting and for consultation with relevant stakeholders to ensure that any commercially confidential information is not disclosed.

Partners for Water and Sanitation

The Minister for Climate Change and the Environment (Ian Pearson): I am pleased to welcome the publication of the fourth annual report from Partners for Water and Sanitation (PAWS) on 28th July. The UK tri-sector partnership is proof this partnership model can produce and deliver tangible, measurable results.

PAWS continues to evolve, providing a solid platform where partners from Government, civil society and business can work together with the people within Africa to develop sustainable solutions in the delivery of water and sanitation services. This report marks a key milestone in the Partners for Water and Sanitation, and outlines the progress made at national and local levels in the four African partner countries—South Africa, Nigeria, Uganda and Ethiopia—including scoping visits and exchange programmes.

It is particularly encouraging to see the partnership is making progress in translating words into actions within its partner countries. I look forward to the continuing progress of the partnership in providing support, building capacity and developing sustainable solutions in partner countries.

Copies of the report will be placed in the Libraries of both Houses.

GM Crops

The Minister for Climate Change and the Environment (Ian Pearson): Defra has today published a consultation paper on proposals for managing the coexistence of GM and non-GM crops in England,

should GM crops be grown here commercially in due course. The paper is consistent with the Government's overall policy on GM crops, as set out in the parliamentary statement made on 9 March 2004.

The proposals relate to managing coexistence between farms and focus on the specific measures that would be needed for crops of maize, beet, potato and oilseed rape. It is proposed that the key measures required for an effective co-existence regime will be implemented on a statutory basis, with other, less significant measures to be applied via an industry code of practice.

The Defra paper also seeks views on a number of related issues:

whether special rules should apply for coexistence between GM and organic crops;

options for compensating financial losses that non-GM farmers might face due to the presence of GM material in their crops

whether there should be a public GM crop register

guidance to farmers on voluntary GM-free zones

No commercial GM cultivation is expected in the UK before 2009 at the earliest, but we need to prepare for this possibility in good time, so that farmers are clear what rules would apply.

Copies of the consultation paper will be deposited in the Libraries of both Houses and will also be available on the Defra website at http://www.defra.gov.uk/environment/gm/crops/index.htm. The deadline for responses to the paper is 20 October 2006.

Crop Spraying

The Minister for Climate Change and the Environment (Ian Pearson): My noble Friend the Minister of State Lord Rooker has today published the Government's response to the Royal Commission on Environmental Pollution (RCEP) report "Crop Spraying and the Health of Residents and Bystanders". This response sets out the Government's view on the recommendations made by the Royal Commission and indicates how we intend to address them. I have placed copies of the response in the Library of each House.

Firstly, I would like to thank the Royal Commission for producing this report which was requested by my right hon. Friend the Member for Cardiff, South and Penarth (Alun Michael) when Minister for Rural Affairs and Local Environment Quality, to examine the science on which the current pesticide approvals system is based and the reasons for people's concerns about possible adverse health effects from pesticide spraying.

The Government recognise the clearly genuine concerns of some residents and bystanders about the spraying of pesticides, Government can, and will, do more to address these concerns.

I firmly believe that these concerns are best addressed at the local level through dialogue between residents and farmers to identify and understand the issues and to develop mutually agreeable solutions. I also believe that this can be achieved most rapidly through a voluntary approach that allows for innovative and flexible solutions.

Existing voluntary schemes such as Farm Assurance and the Voluntary Initiative have demonstrated how effective non-statutory approaches can be in changing behaviour. I want to see schemes such as these playing a crucial role in ensuring that both farmers and the public can have a greater mutual understanding of the problems they each face. These schemes have the potential to provide farmers both with the practical support and the incentive to be good neighbours in this regard and I will be discussing with these organisations and others how this might be achieved.

I believe that the proposals set out in the Government's response, a number of which are already underway, can achieve the majority of outcomes envisaged by the Royal Commission without the need for additional burdensome regulation on the agricultural sector.

The Government have also noted the concern of both the Royal Commission and some members of the public with how the risks to residents and bystanders are considered in the approvals process. To address this concern I have requested a complete review of the model used to assess resident and bystander exposure as part of the pesticide approvals process.

The current approvals process is adequate with clear safety margins built in. However, I recognise that it needs to be more clearly demonstrated to the public that approvals are based on high quality underpinning science. To address this the revised exposure model will give more explicit consideration to a wider range of possible exposure routes and will reflect modern farming practices. The research to develop this model has already begun. A former member of the Royal Commission was one of the peer reviewers for the proposal before it was approved and Defra's Chief Scientific Adviser will ensure the development of the model meets acceptable scientific standards.

The UK is also taking a primary role on this issue in Europe, taking the lead in revising the guidance on acceptable exposure limits, including the assessment of resident and bystander exposure, for the European Commission.

The Government have considered the findings of the report very thoroughly alongside additional independent scientific advice. The Department of Health has sought the views of the Committees on Toxicity and on Carcinogenicity of Chemicals in Food, Consumer Products and the Environment on the report's health recommendations and Defra has additionally considered advice from the Chief Scientific Adviser and the Advisory Committee on Pesticides on the wider recommendations of the report. In addition to this scientific advice we have also considered the views of interested parties from all sides of the debate.

The scientific advice we have received is clear that there is insufficient evidence to support the Royal Commission's recommendations for additional regulatory measures on safety grounds. Introducing regulations for other reasons such as perceived nuisance from spraying would be incompatible with the Government's Better Regulation policy. We have therefore decided against introducing any new regulations at this time.

Animal Products (Import Controls)

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw): The Annual Review of Controls on Imports of Animal Products for the financial year 2005-06, as required under the Animal Health Act 1981 (as amended by the Animal Health Act 2002), will be laid before Parliament tomorrow.

Copies of the Review will be placed in the Libraries of both Houses and on the Defra personal food imports website www.defra.gov.uk/animalh/illegali

Hard copies will be available on request.

FOREIGN AND COMMONWEALTH OFFICE

General Affairs and External Relations Council

The Minister for Europe (Mr. Geoffrey Hoon): My right hon. Friend the Foreign Secretary and Sir John Grant (UK permanent representative to the EU) represented the UK at the General Affairs and External Relations Council (GAERC) in Brussels on 17 July.

The agenda items covered were as follows:

General Affairs

Presentation of Presidency Priorities

The Council took note of the presidency priorities which included the Middle East, Enlargement, Energy, Central Asia, Human Rights and Relations with Russia.

Migration

The Council adopted conclusions: welcoming the outcome of the Euro-Africa Ministerial Conference on Migration and Development in Rabat on 10-11 July; expressing its concern about the increasing illegal migratory flows in the Mediterranean and the Atlantic; and underlining the need to address the situation, including further work on East African routes.

External Relations

World Trade Organisation/Doha Development Agenda (WTO/DDA).

Commissioner Mandelson briefed the Council on developments in the current round of trade negotiations.

Procedural conclusions were adopted allowing the Council to meet in special session in July or August if a WTO Ministerial were called.

Sudan/Darfur

High representative Solana stressed the need for the international community to continue support for the African Union Mission in Sudan (AMIS) until UN transition, as well as putting pressure on the Sudanese Government to accept the UN mission. The high representative hoped that a high level-conference in Brussels on 18 July would make progress on both these issues.

The Council adopted conclusions: reiterating EU support for the Darfur Peace Agreement; emphasising the importance of an effective AMIS; and urging the Sudanese Government to agree to UN transition.

Democratic Republic of Congo (DRC)

The Council discussed the forthcoming elections in DRC on 30 July. External Relations Commissioner Ferrero-Waldner said that the EU's election observation mission in DRC, working with other international delegations and with MONUC (UN mission in DRC) and EUFOR (EU force in DRC) on security issues, should help ensure a smooth election process.

The Council agreed conclusions urging the Congolese to seize the opportunity offered by the elections and the authorities to fully comply with democratic principles and noting the ongoing deployment of the EUFOR and the EU election observation mission.

Western Balkans

The Council was briefed by UN Special Envoy Martti Ahtisaari on the state of play of the Kosovo status process. The EU would have a key role to play in Kosovo post-settlement.

The Council adopted conclusions on Kosovo reiterating its full support for Ahtisaari and his efforts in conducting the political process to determine Kosovo's fixture status and welcoming the joint report by High Representative Solana and the Commissioner for Enlargement Rehn on the future EU role and contribution in Kosovo.

Conclusions on Macedonia welcomed the organisation for security and co-operation in Europe's preliminary assessment that overall parliamentary elections on 5 July met international standards, despite some isolated incidents.

The Council also adopted conclusions recognising Montenegro as a sovereign state and highlighting the importance of regional cooperation in the framework of the stabilisation and association process.

An Extended Troika (the presidency, incoming presidency, enlargement Commissioner Rehn and high representative Solana) met Serbian Prime Minister Kostunica after the GAERC on 17 July to discuss Serbia's co-operation with the International Criminal Tribunal for the former Yugoslavia (ICTY) and the action plan that Serbia had drawn up on how to deliver on its ICTY commitments.

The presidency stressed that Serbia must begin to implement the action plan immediately with full cooperation with ICTY being a condition for restarting Stabilisation and Association Agreement negotiations.

Middle East Peace Process

High Representative Solana briefed the Council on his trip to Lebanon on 16 July.

The Council adopted conclusions: expressing concern at the situation in the Middle East, particularly the deteriorating humanitarian situation and the destruction of civilian infrastructure; supporting the idea of a possible international monitoring presence in Lebanon; and calling for international engagement, especially through High Representative Solana, to de-escalate the crisis.

Iran

High representative Solana briefed the Council on his 11 July meeting with Iranian chief nuclear negotiator, Ali Larijani.

The Council adopted conclusions covering the nuclear file, Iran's approach to the Middle East Peace Process, terrorism and human rights.

Wilton Park

The Minister for Europe (Mr. Geoffrey Hoon): Wilton Park is an academically independent Executive Agency of the Foreign and Commonwealth Office. Its annual report and accounts for 2005-06 are laid before Parliament today.

Wilton Park celebrates its 60th Anniversary in 2006. It continues to achieve high ratings from participants on the value of Wilton Park conferences. Building on last year's successes, nine overseas conferences are planned for 2006. There has been an increase in the number of participants from certain key areas including international organisations and business.

Wilton Park's performance against agreed targets for 2005-06 is shown below.

	05-06 Target	*05-06 Performance*
Total income	£4.2m	£3.9m
Excellent rating for programmes	54.5%	55.5%
Excellent rating for administration	84%	87%

HEALTH

Patient Power Review

The Minister of State, Department of Health (Andy Burnham): As recommended by Ofcom in their report[1] of January 2006, the Department set up a Patient Power Review Group (PPRG) in February 2006 to explore which communication services could be offered to hospital patients without charging as high a price for incoming calls.

The Patient Power Review Group has been considering:

All aspects of the charging structure;

the requirement to install, with limited clinical exceptions, units at every bedside within a hospital site, irrespective of use;

the requirement to offer services through a combined unit, offering television and telephone and capable of offering added value services; and

the need to clarify guidance on use of mobile phones in hospitals.

Further work is needed to provide a considered response to the recommendations made in the Health Select Committee's report on NHS Charges published on 18 July.

A final report will be published by December 2006.

Note

[1]Ofcom own-initiative investigation into the price of making telephone calls to hospital patients.

Allergy Services

The Parliamentary Under-Secretary of State for Health (Mr. Ivan Lewis): We have today published the report of the Department of Health review of services for allergy, which the Government undertook to carry out in its response (Cm 6433, January 2005) to the Health Committee report on the provision of allergy services (November 2004). The report has been placed in the Library and it is available on the Department of Health website at:

http://www.dh.gov.uk/PublicationsAndStatistics/Publications/PublicationsPolicyAndGuidance/PublicationsPolicyAndGuidanceArticle/fs/en?CONTENT_ID=4137365&a mp;chk=/Z3Wtj

HOME DEPARTMENT

Parental Compensation Order

The Minister for Policing, Security and Community Safety (Mr. Tony McNulty): The Parental Compensation Order (PCO) is provided for by sections 13A to 13E of the Crime and Disorder Act 1998 ("CDA 1998) which were inserted by section 144 of and Schedule 10 to the Serious and Organised Crime and Police Act 2005.

The PCO powers will be commenced initially in 10 local authority areas (Gateshead, Hampshire, Hertfordshire, Nottinghamshire, Worcestershire, Wandsworth, Southwark, Leicester, South Tyneside and York). The use, impact and cost of the PCO will be evaluated as part of the wider use of early intervention.

Attempts to secure voluntary reparation should always be made. The PCO should be used only where that approach fails and when its use would be desirable in the interests of preventing a repetition of the behaviour in question. However, we hope that the existence of the PCO will encourage reparation and wider behavioural change on a voluntary basis.

By requiring the parent(s) or guardian(s) to pay compensation, the PCO is designed to provide compensation to those affected and to prevent further behaviour by the child of the type which caused the order to be made. The PCO will therefore encourage parents and their children to understand their responsibilities and to take responsibility for behaviour.

A PCO is designed to be used as part of a wider strategy to increase the parents' skills and improve their child's behaviour, to address risk factors and underlying problems experienced by the child and family, to steer the child away from involvement in anti-social or offending-type behaviour, to keep the child safe and to encourage positive outcomes.

A Magistrates' Court may make a PCO on application from a local authority when it is satisfied that the child (who must be under 10) has taken, or caused loss of or damage to property in the course of:

committing an act which, if he had been aged 10 or over, would have constituted an offence; or

acting in a manner that caused or was likely to cause harassment, alarm or distress to one or more persons not of the same household as himself; and that it would be desirable to make the order in the interests of preventing a repetition of the behaviour in question.

Before making an order the court must consider:

the views of the person affected by the damage, loss etc about whether an order should be made in his favour; and

the child's family circumstances and the likely effect of the order on those circumstances.

It follows that local authority practitioners should form a view about the suitability of a PCO following assessment of the child, parents and family circumstances and in light of experience of trying to resolve the dispute on a voluntary basis. The PCO would be a viable option only with the support of the person affected by the damage, loss etc.

The effect of a PCO is to require the parent(s)/ guardian(s) of the child to pay compensation to the person affected. Compensation is limited to £5,000. In deciding the level of compensation the court must take into account:

the value of the damage etc caused to property by the child;

any further loss which flowed from the taking of or damage to the property, or from its loss;

whether the child or parent has already paid any compensation and if so how much;

whether the child or parents have made any reparation and if so what it consisted of;

the means of the parents; and

any lack of care on the part of the person(s) affected by the taking of the property or its loss or damage.

The court is responsible for enforcement of the order and has the same enforcement powers as it does for fines.

The court can make a parenting order when making a PCO provided this would be desirable in the interests of preventing a repetition of the kind of behaviour which led to the PCO being made.

Guidance on the PCO is being completed with DfES following limited consultation with key stakeholders including the Welsh Assembly Government. Feedback from practitioners will help inform the improvement of the guidance. It is intended that there will be a wider consultation exercise on the guidance before implementation of the PCO across England and Wales.

Departmental Report

The Secretary of State for the Home Department (John Reid): We have today published the Home Office's 2006 departmental report. Copies are available in the House Library and on the Home Office website. The report describes the work of the Home Office during 2005-06, in particular as reflected in its strategic objectives and key targets as delivered by our three key business areas: policing, security and community safety; offender management and criminal justice reform; and immigration citizenship and nationality.

Identity Cards

The Under-Secretary of State for the Home Department (Joan Ryan): Section 37 of the Identity Cards Act 2006 requires a report to be laid before Parliament every six months, following Royal Assent, setting out the Secretary of State's estimate of the public expenditure likely to be incurred on the ID cards scheme during the 10 years beginning with the laying of the report. The first six-monthly report on the costs of the identity card scheme is due on 30 September but, because of the dates of recess, it will be laid before Parliament on their return on 9 October 2006.

National Identity Scheme

The Parliamentary Under-Secretary of State for the Home Department (Joan Ryan): Feedback from industry on the procurement strategy for the national identity scheme has reinforced the importance of avoiding a big bang implementation and supports the incremental approach to the scheme. The Home Office report on the feedback will be published in August. Intellect, the trade association for the UK hi-tech industry has also produced a report on the procurement strategy as part of its concept viability process. Copies of both reports will be placed in the Libraries of the House on publication and the documents will also be made available via the Identity and Passport Service website www.ips.gov.uk

LEADER OF THE HOUSE

State Opening

The Leader of the House of Commons (Mr. Jack Straw): Her Majesty the Queen will open the new session of this Parliament on Wednesday 15 November. I plan to announce the date of prorogation as soon as I am able.

NORTHERN IRELAND

Liquor Licensing

The Minister of State, Northern Ireland Office (Mr. David Hanson): This statement sets out my plans to reform liquor licensing law in Northern Ireland. The last review of the law governing liquor licensing and registered clubs took place some 10 years ago. Since then the social and economic climate in Northern Ireland has changed and improved immensely. The peace dividend has altered the shape of the tourism and hospitality sectors and of town and city centres. There is great potential for further growth, and liquor licensing law must keep pace with these developments and with modern expectations.

Coupled with that is the need for a more transparent, accountable and better regulated framework for the licensed trade. There are clear anomalies in the current licensing system and a requirement for greater enforcement powers for the Police Service of Northern Ireland to deal with breaches of licensing law.

The consultation on proposed changes to the existing legislation was launched in November 2005. Since then I have had a number of discussions with political representatives and other interested parties. There has been support from both local political parties and the licensed trade for many of my proposals. Concerns have been expressed by politicians and parts of the licensed trade regarding two of the proposed changes. These are the transfer of responsibility for liquor licensing from courts to district councils and the abolition of the 'surrender' principle. I welcome the views that have been put and now confirm that my plans for the reform of the law on liquor licensing and registered clubs in Northern Ireland are as follows:

The introduction of six new objectives to underpin licensing policy, legislation and regulation. These are—Promotion of public health; Promotion of public safety; Prevention of crime and disorder; Prevention of public nuisance; Protection of children from harm; Fair treatment of all stakeholders.

New, more effective enforcement measures, including immediate temporary closure powers for the police, a penalty points system for licensees who break the law and new council liquor licensing officers.

Moving responsibility for granting and renewing licences and certificates of registration from courts to district councils, leading to a more accountable, transparent system.

Replacing the current twelve categories of licences in favour of a dual system of personal and premises licences.

Abolishing the provision which requires an existing licence for a pub or off-licence to be "surrendered" to a court before a new one may be granted. This will be subject to an assessment of the business impact of my proposal which will help decide how this is addressed in the second stage of reforms. I hope it will be the Northern Ireland Assembly that will consider these matters.

A voluntary proof-of-age scheme and more flexibility to allow under-18s in certified licensed premises and registered clubs when accompanied by responsible adults.

A modest extension of current opening hours for licensed premises and registered clubs, creating scope for opening up to 2.00am Monday to Saturday. Sunday opening hours will remain unchanged as will opening hours for off-licences.

Revoking the financial controls and accounts formats for registered clubs, prescribed in the Registration of Clubs (Accounts) Regulations (Northern Ireland) 1997, in favour of best practice guidance.

The proposals will give police the powers they need to crack down on irresponsible drinkers and rogue traders and make the licensing system more transparent and accountable, giving communities more information and a louder voice in decision-making.

Allowing licensed premises and registered clubs to apply to the courts to extend their opening hours up to 2.00am is the result of careful consideration of the changes in people's social habits and the opportunities available for developing the night time economy. I have listened very carefully to the arguments made by the licensed trade, the police, health interests and others, and balanced the economic and social advantages of extending opening hours with the public interest and public safety. Accordingly, I have decided that opening to 2.00am will be available to those licensed premises entitled under existing law to apply for later opening but not to off-licensed premises.

Transferring responsibility for granting liquor licences and club certificates from a court-based system to district councils will create a more accountable system where pubs, off-licences, registered clubs and other licensees will have to explain in detail how their businesses will support the six licensing objectives. There have been concerns expressed about the ability of councils to administer a new liquor licensing system. However, councils already operate a number of regulatory systems including entertainments licensing and street trading, and their range of responsibilities will be greatly enhanced under the Review of Public Administration. The capacity of new councils to undertake these new responsibilities is an issue that is being addressed in the period leading up to the full implementation of the Review of Public Administration. I wish to reassure those concerned that responsibility for liquor licensing will only move to councils once they have built the capacity to administer the new system.

The new system will operate under clear guidelines that will be issued to councils. They will be required to produce a statement of licensing policy that clearly articulates how they plan to control liquor licensing in line with the six licensing objectives. There will be further safeguards. Before councils reach a decision they will have to seek the views of responsible authorities and interested parties such as the Police Service of Northern Ireland, local residents and local businesses. All applications for a licence will be open to objection and a licence may be reviewed, revoked or suspended at any time if there is cause for concern. Those seeking a premises licence will be required to produce an operating plan setting out the nature of the business for approval by councils, and the need for any new licence will have to be clearly demonstrated.

I am replacing the current twelve categories of licence with a dual system of personal and premises licences. This will result in a more robust licensing regime. Personal licences are being introduced for the first time to ensure that those managing licensed premises have accredited qualifications and demonstrate clean backgrounds. This will improve operating standards across the licensed trade and protect against infiltration by those involved in organised crime.

The surrender provision has created anomalies in the licensed trade. At present only pubs and off-licences are required to surrender a licence before being granted a new one. This has capped the overall number of such premises in Northern Ireland, but it has not prevented the growth of alcohol sales in other premises such as large hotels, nor the clustering of pubs and off-licences in particular areas. It is also an artificial barrier to entry to the market and its abolition will create a more equitable commercial environment.

I have listened to the views of local politicians and parts of the licensed trade about the implications of the abolition of surrender. In response to their concerns, I will commission an assessment of the business impact of abolition before making any further decision on the way forward.

I intend to implement some of the proposals as soon as possible. Those relating to enforcement, opening hours, children and registered clubs' accounts should come into effect by Christmas 2007, and draft legislation will be consulted on in autumn 2006.

With regard to the move to councils, I intend to defer the consideration of this aspect of the legislation, along with some of the other proposals that depend on the new system being operational, to a second, later legislative vehicle. The Review of Public Administration is due for completion in 2009 and the target date for making legislation to transfer responsibility for licensing from courts to district councils and for the introduction of new licensing objectives will be linked to this. This tranche of legislation will also see the abolition of the existing categories of licence and, subject to an impact assessment, the surrender provision. The final decisions on this will hopefully be taken by a devolved Assembly, should it be successfully restored.

I believe this is a balanced package of measures that weighs up the rights, needs and demands of the various interested parties. They will bring licensing law in Northern Ireland up to date, both to deal more effectively with the alcohol-related problems we currently face and to meet modern day expectations. They will result in a more democratic approach that allows local people to have greater influence in how and where the licensed trade operates. They will promote a safe, welcoming environment in town and city centres where the evening and night-time economy can flourish and will encourage investment, variety and high standards of service in the hospitality, tourism and entertainment sectors.

Review of Public Administration

The Minister of State, Northern Ireland Office (Mr. David Hanson): I wish to make a statement on progress on the Review of Public Administration (RPA). Implementation of decisions on the review follows statements to this House on 22 November 2005 and 21 March 2006. The outcome of the RPA represents the most comprehensive reform of public administration and services in Northern Ireland in over 30 years.

Implementation of these decisions, which involve radical restructuring of health and social services, education and local government, is now proceeding across a wide range of organisations and services. Robust programme and project management arrangements are in place to deliver implementation. These include a local government taskforce which is making a vital contribution to our new vision for local government. A steering group which is representative of the various sectors is led by the head of the Northern Ireland Civil Service and formal arrangements are also in place to consult with trade unions as the implementation programme proceeds.

The Secretary of State for Northern Ireland has tasked me with overseeing implementation of these reforms.

On 8 March 2006, this House was informed of the establishment of a Public Service Commission to safeguard the interests of staff affected by decisions on the review and ensure a smooth transition for them to new organisations.

Restructuring of Education and Health and Social Services is to be complete by April 2008. This is to include the establishment of new regional Authorities in each sector and early progress is being achieved towards this with the appointment of a Chief Executive (Designate) of the Health and Social Services Authority. A new Library Authority will also be created by this date. Transformation of health and social services is already well under way. Some 18 Health and Social Services Trusts are to be reduced to five larger trusts by 1 April 2007. Legislation for these is already in place and they will operate in shadow form from 1 August 2006. The chairs of these trusts have been appointed and a competition to appoint the chief executives has just been completed. We intend to appoint a Chief Executive (Designate) of the Education and Skills Authority in the autumn.

Seven pieces of primary legislation are required to implement RPA decisions. One of these is already in operation enabling the appointment of a Local Government Boundaries Commissioner on 1 June 2006 and setting out the procedures to be adopted by the Commissioner in drawing the boundaries of the proposed seven new district council areas. Three of the remaining six pieces of legislation will deal with health and social services, education and local government restructuring. The others will deal respectively with libraries, transfers of functions from central to local government and residual issues in relation to public bodies, including the removal of nomination rights to the boards of such bodies.

I shall keep this House informed of progress as preparation of these legislation proposals to implement this major restructuring programme continues.

TRADE AND INDUSTRY

EU Structural Funds

The Minister for Industry and the Regions (Margaret Hodge): On 28 February 2006, the Department of Trade and Industry published a consultation document on a draft National Strategic Reference Framework for future ED Structural Funds programmes.

The consultation document invited stakeholders to comment on three main issues: the methodology for allocating future competitiveness funding between the UK's regions; the administrative arrangements for delivering future programmes; and the strategy for future spending set out in the draft National Framework.

The Department of Trade and Industry is currently analysing the 320 responses to the consultation, received from stakeholders across the UK. The Government intend to publish a full response to the consultation as soon as possible after the summer recess.

Government Assets

The Secretary of State for Trade and Industry (Mr. Alistair Darling): The Chancellor stated in his Budget 2006 announcement that the Government would be prepared to consider selling part of their stake in British Energy. I confirm that the Government will actively consider a sale of part of their stake in British Energy via a capital markets transaction.

TRADE AND INDUSTRY

Informal Competitiveness Council

The Parliamentary Under-Secretary of State for Trade and Industry (Jim Fitzpatrick): My noble Friend the Parliamentary Under-Secretary of State for Science and Innovation (Lord Sainsbury of Turville) has made the following ministerial statement.

"I attended the informal meeting of the Competitiveness Council on 10-11 July, hosted by the Finnish Presidency in Jyvaskyla. The meeting focused on innovation policy, with discussion of the Seventh Framework Programme for research and development over lunch on the first day.

On the morning of 10 July, a number of speakers gave presentations on their views of the challenges for European Innovation policy. Presentations were given by:

Jorma Ollila—Chairman of the Board of Nokia;

Michael Worley—President of the GEEF, a group representing family-run businesses in Europe;

Juliana Garaizar—Managing Director of IFEX;

Gordon Murray—Professor at the School of Business and Economics, University of Exeter; and

Esko Aho—former Finnish Prime Minister and President of the Finnish National Fund for Research and Development.

Commissioners McCreevy and Verheugen both welcomed the Presidency's focus on innovation policy, and stressed the importance of better regulation, an effective intellectual property regime, public procurement, research and development, structural funds, cluster policy, dialogue with industry, and modern financing instruments in promoting innovation.

Over lunch, Commissioner Potocnic updated Ministers on the current state of play of the Seventh Framework Programme for Research and Development. An additional Competitiveness Council has been called on 24 July, at which it is hoped that political agreement on a common position can be reached.

In the afternoon, Ministers split into breakout groups to discuss a number of questions about innovation policy posed by the Finnish Presidency. I chaired one of the groups. We reported back on our discussions in a plenary session on Tuesday morning.

All Ministers supported the Presidency's paper on a broad based innovation strategy and its focus on demand-side policies. I emphasised the need for development of the intellectual property and state aid regimes, outcome-focused regulation, innovation-oriented public services and public procurement, and support for research and entrepreneurship. There was scope for EL) action in some areas, but member states must take the lead in others, with the ED ensuring that it did not discourage national or private initiatives.

The Commission welcomed member states' comments and the Presidency's work, and confirmed their intention to produce a communication on innovation policy in September, in advance of the informal summit in Lahti in October".

Insolvency Service

The Parliamentary Under-Secretary of State for Trade and Industry (Jim Fitzpatrick): The Insolvency Service plans to deal with some 72,000 new insolvencies in the year to 31 March 2007 including a significant increase in personal bankruptcies. Its planning assumption for the level of redundancy payments and other, insolvency-related claims is 95,000.

In support of the policy that bankrupts who can make a contribution for the benefit of their creditors should do so, official receivers have been asked to ensure that, as last year, at least 17 per cent. of bankrupts agree or are ordered to make such payments. Action will continue to be taken against bankrupts and company directors in respect of financial misconduct or dishonesty and Companies Investigation Branch, part of the Agency from 1 April 2006, will continue to investigate the affairs of companies in the public interest.

The Service's new financial regime, put in place by the Enterprise Act 2002 will be reviewed in this, its third year and it is likely that new targets relating to unit costs and fees will be agreed as a result. The Service is required to balance its case administration costs and income over the three-year period.

I have also set the Insolvency Service the following targets for the year 2006-07:

	Target
Increase the level of user satisfaction index to	90 per cent.
Increase the level of public confidence in the service's enforcement regime to	60 per cent.
Ensure the average time for concluding disqualification proceedings is no longer than	26 months
Complete internal section 447 investigations	
within 90 days of commencement	60 per cent.
within 180 days of commencement	90 per cent.
Reduce the unit cost of redundancy payment processing by 31 March 2007 from the 2005-06 baseline	3 per cent.
and	
Process redundancy payment claims for payment within	
3 Weeks	78 per cent.
6 weeks	92 per cent.

In addition to these targets the service is required to meet centrally promulgated targets relating to replying from correspondence from hon. Members, making payment to suppliers and reducing sickness absence levels.

UK Trade and Investment

The Secretary of State for Trade and Industry (Mr. Alistair Darling): UK Trade & Investment (UKTI) launched today its new five-year strategy entitled "Prosperity in a Changing World". This strategy sets out how UKTI will respond to the enhanced role envisaged in the Budget.

The new strategy describes how UKTI will take the lead to maximise the UK's ability to attract foreign

direct investment, win market share in the new high growth economies, and help business internationalise in a globalised world. It will lead Government efforts to:

Market the UK overseas as a key business partner and as the preferred location for inward investment;

boost UK trade with, and secure investment from, emerging economies such as China and India;

promote the UK's financial services sector and the City of London as the world's leading international financial centre;

lobby overseas on regulatory issues and barriers to trade and investment;

target innovative R&D-intensive companies both for inward investment and as potential exporters.

It outlines plans for UKTI to reform itself to become a more streamlined, entrepreneurial organisation, focusing on the ever-changing needs of its clients. UKTI will spearhead a more professional approach to marketing the strengths of the UK economy. It will allocate resources to frontline services where they can be most effective in adding value to the UK economy.

I am arranging for copies of the UKTI 5-year strategy to be placed in the Libraries of both Houses.

Partnerships Law Reform

The Minister for Trade (Mr. Ian McCartney): The Law Commission and the Scottish Law Commission published a report on partnership law reform in November 2003 (Law Com No 283; Scot Law Com No 192). It included recommendations in respect of general partnership law and limited partnership law, together with a draft Bill designed to replace both the Partnership Act 1890 and the Limited Partnerships Act 1907. I am very grateful for the Law Commissions' detailed and thorough work.

The DTI followed this with a consultation document on the economic impact of reform of partnership law. Respondents to the consultation were divided on the economic benefits of the proposed reforms to the business community. A summary of responses is being published on the DTI website at:

http://www.dti.gov.uk/bbf/corp-governance/partnership/page25911.html.

Copies are available in the Libraries of both Houses.

The Government have carefully considered the report from the Law Commissions and the consultation responses and intend to bring forward proposals for the reform of limited partnership law based on the Law Commissions' recommendations. The recommendations for limited partnership reform have been widely supported and there is a strong economic case for taking them forward. The reforms are not dependent on the proposed reforms for general partnership law which the Government have decided not to take forward at this time.

The Government aim to take forward the reforms to limited partnership law by means of a Regulatory Reform Order when Parliamentary time allows, and to publish a consultation document containing draft clauses shortly.

Civil Plutonium and Uranium Stocks

The Minister for Energy (Malcolm Wicks): The Department will be placing the figures for the United Kingdom's stocks of civil plutonium and uranium as at 31 December 2005 in the Libraries of both Houses. In accordance with our commitment under the 'Guidelines for the Management of Plutonium', we have also sent the figures to the Director General of the International Atomic Energy Agency (IAEA), who will circulate them to member states. The figures will be available on the Department's and the IAEA's websites.

The figures show that stocks of unirradiated plutonium in the UK totalled 104.9 tonnes at the end of 2005. Changes from the corresponding figures for 2004 are a consequence of continuing reprocessing operations (that is, as reflected in the increased quantity of 'unirradiated separated plutonium in product stores at reprocessing plants'). HEU stocks decreased mainly as a result of down-blending. The increase in the civil depleted, natural and low enriched uranium figures reflects the increased stocks at the UK enrichment plant.

TRANSPORT

General Aviation Strategic and Regulatory Reviews

The Secretary of State for Transport (Mr. Douglas Alexander): The Civil Aviation Authority (CAA) has today published the recommendations of its two reviews in the General Aviation sector. Ministers are grateful to the CAA for taking the initiative to review General Aviation and to the teams involved for their contribution to the process. We believe these are the first reviews of their kind in the EU and will improve understanding of the General Aviation sector and its value to the UK economy. It is, however, only the beginning. It is now for Government, the CAA and General Aviation to continue to work together and build upon the recommendations in these reports.

The reviews clearly demonstrate that General Aviation is an important and integral part of the UK aviation sector and that it makes a not insignificant contribution to the UK economy, both in terms of direct economic value (approx. £1.4 billion per annum) and numbers employed (approx. 11,600). As a direct result of the reviews, the Department for Transport has made a commitment to participate in a new General Aviation Strategic Forum with CAA and General Aviation representatives, which will meet quarterly to discuss strategic issues facing the sector.

Additionally, the Department has also established a focal point for General Aviation matters with in its Aviation Airspace Division. We will consider the other recommendations in due course. Copies of the full reports are available on the CAA's website and have been placed in the Libraries of both Houses.

Highways Agency

The Minister of State, Department for Transport (Dr. Stephen Ladyman): The Highways Agency annual report and accounts for 2005-06 is published today under section 7 of the Government Resources and Accounts Act 2000. Copies of the report will be placed in the House Library and will be available from the Vote Office.

M6

The Minister of State, Department for Transport (Dr. Stephen Ladyman): On the 19 July last year I announced that I had asked the Highways Agency to carry out a detailed review to allow an informed decision to be taken on the case for building a new tolled Expressway to run parallel with the M6 between Birmingham and Manchester as an alternative to widening the existing M6 by one lane in each direction. This followed a consultation exercise undertaken in 2004 on the broad concept of an Expressway.

The Government had accepted the need for more road capacity in this corridor, as shown by the Midlands to Manchester multi-modal study (Midman), which reported in July 2002. The issue was how best that capacity could be provided. Given the high level of investment involved whatever option would be taken forward, it was clearly important that we properly considered the potential for the extra benefits that might be achievable from an Expressway.

The 2004 consultation document "M6: giving motorists a choice" suggested that the Expressway might be delivered more quickly than the widening, by avoiding the need to build new structures such as bridges, and avoiding substantial disruption to traffic during construction. The evidence from the detailed development work undertaken by the Highways Agency has not borne this out.

The Highways Agency's modelling suggests that an Expressway would have a significant impact on both the levels and the mix of traffic using the Expressway and the M6. In particular, it is likely that the proportion of heavy freight traffic on the M6—which is already relatively high—would increase further, requiring additional infrastructure works at junctions to provide safely for traffic joining and leaving the road. This, together with providing for the appropriate range of access options at each junction between the Expressway and the existing M6, would require the demolition of many existing structures and reconstruction of 20 per cent. of the existing carriageway. The Expressway would also have a much larger land take, requiring some 50 per cent. more land than the widening. The Expressway and associated works would cause more disruption to existing traffic and would cost some 15 per cent. more than widening.

Although on-line widening would necessarily involve some disruption to M6 traffic during construction, the phasing of works could mean additional capacity being provided sooner than an entirely new road, with efforts focused on the most heavily trafficked sections first.

The Highways Agency has held a series of seminars and meetings with stakeholders, to set out indicative plans for both options, and take feedback. On the basis of these more clearly defined propositions, few stakeholders regarded the Expressway as an attractive alternative to widening.

In the light of the further development work and stakeholder consultation, we have therefore decided not to pursue the Expressway alternative any further.

The Highways Agency has continued to progress the widening option and will now focus solely on that. This work will include examining the demand management measures needed to ensure that the benefits of additional capacity are locked-in.

A more detailed report on the options review has been placed in the Library of the House.

Airport Policing

The Secretary of State for Transport (Mr. Douglas Alexander): In his statement on 21 November, the then Secretary of State for Transport announced the Government's intention to commission an independent, wide-ranging review of policing at airports. He subsequently appointed Stephen Boys Smith, a former senior civil servant, to lead the review.

The review was tasked with identifying a sustainable approach to the policing of airports which takes account of the roles and responsibilities of all stakeholders and, in particular, addresses the need for funding arrangements that are objective and transparent.

The review was about airport policing not airport security, which had already been considered by Sir John Wheeler's review in 2002. Wheeler recognised that the "designation" of airports for policing purposes was an issue and saw the implementation of a Multi-Agency Threat and Risk Assessment (MATRA) process as fundamental in modernising that process. MATRA is in place at over 40 UK airports and the present review has considered whether the process of designation should now be replaced, given the changes implemented following the Wheeler review.

The review report has now been submitted to both my Department and the Home Office. We welcome its broad thrust and will be working closely with key stakeholders to consider the recommendations in detail.

The review has identified areas where we can build on the good work already being done by all stakeholders at our airports. It makes recommendations in a number of areas:

It endorses the principle of joint accountability for airport security and the concept of airports as "communities" where stakeholders must work together in full partnership to protect against a range of threats.

It recommends continued and enhanced liaison between key stakeholders, including Government Departments, the Police Service and airport operators at both national and local level to maintain a consistent understanding of and response to threats and risks.

It endorses the current Multi-Agency Threat and Risk Assessment (MATRA) approach already in place at UK airports and recommends that it is strengthened further.

It recommends the system of "designation" is discontinued and that policing costs should generally be met by the industry on the basis that policing forms part of an agreed airport "community" response, that costs are clear and transparent, and that policing at airports is brought within the mainstream policing agenda.

Although this review has not focused on aviation security measures it is concerned with a key element in the wider protection of our airports against a range of threats including from terrorism and serious and organised crime. Given these considerations, it is naturally not a report for public circulation. I intend to make a further statement in due course.

British Transport Police

The Secretary of State for Transport (Mr. Douglas Alexander): On 11 October 2005 my predecessor, my right hon. Friend the Member for Edinburgh South-West, (Mr. Darling), announced his decision to review the role of the British Transport Police (BTP). The review, which has been carried out in consultation with interested parties including rail operators, passenger representative groups, the BTP, the BTP Authority and other policing organisations, has now concluded.

The review has examined a range of options in relation to the future policing of the railways, including transferring the function to local police forces and various options for expanding or re-focusing the role of the BTP. It has also considered the relationship between the work carried out by the BTP and the requirements of the rail industry.

I have concluded that there remains a strong case for retaining a national specialist police force for the railways. The BTP plays an important role in combating crime and helping to deter potential terrorist activity on the rail network. The review has confirmed the effectiveness of the force in its key role and, in particular, that its specialist knowledge of the operation of the railway is an important asset. I have therefore decided not to make any structural changes to the way in which the policing of the railways is carried out.

However, the review has identified a need for greater clarity in detailed aspects of BTP's operation in relation to its responsibilities to the rail industry, the rail industry's own duties and the role of local police forces.

I therefore propose to write to the chairman of the BTP authority and the chief constable of the BTP asking them to ensure that the force's resources are focused on areas where the BTP can provide maximum added value to the fight against crime on the railway. I will be asking them to establish how the role and responsibilities of the BTP relative to those of other forces can be clarified and, where necessary, revised and incorporated into current protocols between BTP and local forces.

I will also be asking them to develop a more structured partnership approach between the force and the rail industry focused on agreed needs and priorities. This will require all stakeholders to interact more effectively at all levels, in particular at the local level to ensure that local issues and concerns are addressed. Bespoke neighbourhood policing for the railway community and enhanced communication between the train companies and the BTP will help ensure that the policing service is tailored more effectively to meet local needs.

I have also decided to increase the membership of the British Transport Police Authority to enhance scrutiny of the force's resource requirements and to strengthen the industry's input to the authority's management and oversight of the efficiency and effectiveness of the force. I will be appointing two additional industry members.

The review has also considered the arrangements for funding the BTP. I have concluded that the BTP should remain largely funded by the rail industry. The Government will continue to consider providing additional central funding for specific projects and initiatives undertaken by the BTP which provide benefits beyond the railway environment.

West Midlands Planning Assessment for the Railways

The Parliamentary Under-Secretary of State for Transport (Derek Twigg): Today the Department for Transport has published the West Midlands Regional Planning Assessment for the railway (RPA), the third in a series of 11 RPAs covering England and Wales. The West Midlands RPA covers the whole of the West Midlands Region.

RPAs are the key link between regional spatial planning (including preparation of regional transport strategies) and planning for the railway by both Government and the rail industry and are designed to inform the development of the Government's strategy for the railway. They look at the challenges and options for development of the railway in each region over the next twenty years, in the wider context of forecast change in population, the economy and travel behaviour. An RPA does not commit the Government to specific proposals. Instead it sets out the Government's current thinking on how the railway might best be developed to allow wider planning objectives for a region to be met, and identifies the priorities for further development work.

The area covered by the West Midlands RPA has a population of just over 5.3 million of which 2.5 million live in the West Midlands conurbation centred on Birmingham. While population levels are not expected to grow significantly, structural changes in the type of employment available and greater prosperity are expected to lead to more trips being made. Growth in rail passenger journeys is forecast for the region and it is expected that there will be particular growth in longer distance journeys, especially to London, and commuting to central Birmingham.

Planning for railways in the West Midlands needs to take into account a changing economic and social context set out in the Regional Spatial Strategy and Regional Economic Strategy. I am particularly grateful for the contribution made to the development of the RPA by the Regional Assembly, Advantage West Midlands, local authorities and others.

The RPA clarifies the role of the railway in the region, its contribution to the economy and its place in the overall transport system, setting out where greater

rail capability and capacity will be needed over the next twenty years, and the options for responding to that need. The focus of the RPA is making better use of the existing network but it also draws attention to the need to improve access to stations, including interchanges, and the expected need to increase train capacity to meet forecast growth in demand.

Copies of the document have been placed in the House Library.

WORK AND PENSIONS

Social Fund

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): I am pleased to announce publication of the annual report by the Secretary of State for Work and Pensions on the Social Fund 2005-06 and the Social Fund Commissioner's annual report.

The Secretary of State's annual report on the social fund for 2005-06 (Cm 6856) was published today and has been laid before Parliament. Copies are available in the Vote Office and Printed Paper Office.

The report records that total gross expenditure in 2005-06, excluding winter fuel payments, was £917 million. This included more than 275,000 non-repayable grants and more than 2.2 million interest free loans together worth over £742 million, and funeral and cold weather payments totalling more than £53 million. In addition around 238,000 Sure Start maternity grants worth over £120 million were made, and over eight million households benefited from a winter fuel payment at a cost of around £1.99 billion.

The report also confirms that reforms to the social fund loan scheme were introduced from April 2006, with extra net funding of £210 million over the next three years to support the changes.

The social fund commissioner's report has also been published today and copies will be available in the Libraries of both Houses.

Claims Handling (Mesothelioma)

The Secretary of State for Work and Pensions (Mr. John Hutton): On 16 May I announced that my Department and the Association of British Insurers (ABI), the Association of Personal Injury Lawyers (APIL), and the Department for Constitutional Affairs (DCA) had agreed to work together to identify urgently ways in which we can speed the settlement of claims for those suffering from mesothelioma. I said that I would report on progress before Parliament rises for the summer recess.

More stakeholders have also been involved in this work, such as the Trades Union Congress (TUC) and the Financial Services Compensation Scheme (FSCS) and we have also kept other interested parties informed.

Since then, the Government have introduced amendments to the Compensation Bill to reverse the effects of the Law Lords ruling on Barker *v.* Corus. This would have caused delays in resolving claims and made it more difficult for mesothelioma sufferers to recover full compensation. We are changing the law to make it easier for them to get full compensation as quickly as possible.

These new provisions would also enable certain changes to be made to the financial services compensation scheme, which should considerably speed up payment of claims to mesothelioma victims and produce a fair outcome for insurers.

Today I announce interim measures to speed up current claims handling for mesothelioma sufferers. I am also confirming that we will put in place a long term solution. This work will start now and I will provide a further update on progress in the autumn. We are committed to having a full dialogue and we will invite comments from all interested parties.

Looking forward, we have identified a number of interim measures that can be implemented relatively quickly and will speed up the settlement of claims across the UK:

Our partners are developing a standard claim letter that should be in place by October.

We are drafting a leaflet for those diagnosed with mesothelioma to explain the help available to them and where to find it.

In July, DWP will clarify with claims handlers best practice for ensuring priority for industrial injuries disablement benefits for those with mesothelioma.

Also in July, DWP will work with Revenue and Customs to address tracing employer records more quickly.

To support the code of practice for tracing Employers' Liability Compulsory Insurance (ELCI) policies, ABI will introduce a phone enquiries helpline in the autumn and will also issue guidance on how to get the best out of the code.

We will review the code of practice for tracing ELCI policies to ensure that the code is comprehensive and has the confidence of users.

ABI will spread best practice within the wider insurance industry with a claims handling best practice guide.

Partners will consider further public awareness activity to encourage claimants to use qualified, experienced legal practitioners when making a claim.

We will continue to work with our partners to ensure that these short-term outcomes are delivered quickly as we develop options for future change.

Post Office Card Accounts

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): The Department for Work and Pensions ran a number of small-scale Post Office card account pilots between 13 February and 10 March 2006. The pilots tested various approaches to moving people from having their benefit or pension paid into a Post Office card account to payments into a bank account, and they have provided us with some useful information on how customers react.

We have already shared the key findings with Post Office Ltd. to help them identify customer needs as they develop new savings and banking products which are likely to be more attractive to many of their customers than the current Post Office card account.

Post Office Ltd. plan to start a three month trial next week when it will be writing to 10,000 existing Post Office card account customers to encourage them to open one of its new instant saver accounts.

Among the key findings from the DWP pilots were:

Many customers were not aware that they could use their bank account at the Post Office. This is not just an issue for those receiving a benefit or pension. There are around 20 million people who could access their bank account at a Post Office, but only around 10 per cent. (2 million) per week actually do so. This is a huge untapped market which could bring vital new income into Post Office branches. DWP will work with Post Office Ltd. and support it in its efforts to increase this market;

once customers had moved from the Post Office card account and become used to their new routine, the vast majority (85 per cent.) were happy using a bank account rather than a Post Office card account. Customers like the additional features of bank accounts and the flexibility to get their money when and where they want; and

there are opportunities for Post Office Ltd. to respond positively to customer demand by providing new products which offer more features than the Post Office card account. Customers need to be properly informed of all of their options and the services that the Post Office offers.

We will continue to discuss with Post Office Ltd. and other key stakeholders how the needs of customers can continue to be met after the Post Office card account contract ends in 2010. DWP officials will also be discussing the findings from the pilots and our future payments strategy with customer representative groups and other key stakeholders over the next few months.

Our commitment to allowing people to continue to collect their benefit or pension in cash at the Post Office if they wish remains unchanged. Around 25 different bank accounts can be accessed at Post Office branches now, and we hope there could be more in the future, as well as new Post Office products.

I am placing a report of the pilot findings in the Library of the House.

Benefit Fraud Inspectorate

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the Benefit Fraud Inspectorate (BFI) has today announced its phase 17 programme of work.

The authorities that will be inspected are: Caerphilly county borough council, city of Edinburgh council, Glasgow city council, London borough of Hounslow council, Sheffield city council, south Bedfordshire district council, Staffordshire Moorlands district council, and Watford borough council.

I am pleased to announce that the planned focused inspections of the claims administration in, Braintree district council, London borough of Newham council and Solihull Metropolitan borough council will not go ahead as all three councils have shown significant improvements in their performance.

BFI is an independent unit within the Department for Work and Pensions that inspects and reports directly to the Secretary of State for Work and Pensions on the standard of benefit administration and counter-fraud activity in local authorities and the Department itself.

Agency Reports and Accounts

The Secretary of State for Work and Pensions (Mr. John Hutton): I am pleased to announce that the Department for Work and Pensions has today laid the 2005-06 annual reports and accounts for two of its executive agencies: The Pension Service (HC1531) and The Rent Service (HC1289). Copies are available in the Printed Paper Office and the Vote Office.

Written Ministerial Statements

Monday 24 July 2006

COMMUNITIES AND LOCAL GOVERNMENT

Commission for Racial Equality (Annual Report 2005)

The Secretary of State for Communities and Local Government (Ruth Kelly): The Commission for Racial Equality's Annual Report 2005 is published today.

Copies will be available in the House Library. Copies will also be sent to the Scottish Parliament and the National Assembly for Wales.

Control of Advertisements

The Minister for Housing and Planning (Yvette Cooper): The Government are consulting on draft regulations to control outdoor advertisements and an accompanying draft circular and a partial regulatory impact assessment.

The draft regulations and circular take forward proposals announced in 2000 and 2002 following earlier consultation.

The new draft regulations will update and improve the current arrangements for controlling outdoor advertisements and make the legislation more responsive to rapidly changing forms of advertising. The draft circular will clarify the legislation and provide guidance to help ensure that the system operates effectively.

The consultation period ends eight weeks from today and we expect to make the regulations and publish the circular by the end of the year.

Copies of the consultation documents are available in the Libraries of both Houses or via the DCLG website at: www.communities.gov.uk/consultations.

The draft circular includes guidance and advice to local planning authorities on dealing with unlawful advertisements alongside motorways and trunk roads. This is part of a package of measures we have adopted to get these unlawful advertisements removed.

I will be writing to the leaders of councils in whose areas these unlawful advertisements are still being displayed seeking their assurance that they will take action to get these advertisements removed.

Local Development Frameworks

The Parliamentary Under-Secretary of State for Communities and Local Government (Meg Munn): The Planning and Compulsory Purchase Act 2004 (PCPA 2004) which commenced on 28 September 2004 provided for a three-year transitional period in which policies in old style plans could remain in force pending adoption of policies in the new development plan documents (DPDs) and regional spatial strategies (RSS). The policies in the old style plans in place at commencement of the Planning and Compulsory Purchase Act 2004 are saved until the end of the three-year transitional period, which ends on 27 September 2007. However, policies in plans that are adopted or approved after commencement of the PCPA 2004 will be saved for three years from adoption or approval date. If policies in old style plans are not extended after the three-year saved period and policies in DPDs and RSSs have not replaced them, there will be a risk of a policy gap for local planning authorities and regional planning bodies in carrying out their planning functions. My officials will be writing to all local planning authorities and regional planning bodies shortly to inform them about the procedures that they will be required to follow when making applications for extension of old style policies and the type of polices that are likely to be given favourable consideration.

The assessment of the case for saving old style policies will be based on the criteria set out in Planning Policy Statement (PPS) 12 which are:

where appropriate, there is a clear central strategy;

the policies have regard to the Community Strategy for the area;

the policies are in general conformity with the regional spatial strategy or spatial development strategy;

the policies are in conformity with the core strategy development plan document (where the core strategy has been adopted);

there are effective policies for any parts of the authority's area where

significant change in the use or development of land or conservation of the area is envisaged; and

the policies are necessary and do not merely repeat national or regional policy.

These policies will include policies that would help deliver Government objectives, such as green belt boundaries, unimplemented waste and minerals site allocations, housing site allocations, established settlement boundaries (pending review through DPDs), policies that support the delivery of housing; regeneration policies and policies that will enhance economic development.

Housing and Planning Delivery Grant

The Minister for Housing and Planning (Yvette Cooper): In our December response to the Kate Barker review of housing supply we committed to reform the planning delivery grant to support local housing delivery and conduct a wider consultation on local planning and housing incentives. Today we launch the consultation on a proposal for a new housing and planning delivery grant and the criteria for allocations for the final year of the current planning delivery grant. The consultation will run until 17 October 2006.

The Government's aim is to encourage local authorities to respond more effectively to local housing demand. Over 200,000 new households are formed

each year but last year just under 170,000 additional homes were built, with upward pressure on house prices as result. The Government believe that local authorities do not have sufficient incentives to respond to housing need.

Under our proposals, a performance related grant would be paid to local authorities as a reward for meeting the housing needs of the community and in improving planning performance. The proposal is part of the Government's package of measures to improve housing affordability and our commitment to create and maintain sustainable communities.

The Government's aim with a new grant would be to encourage local authorities to become active in the delivery of new housing to meet local housing demand. The grant would be awarded to local authorities with high levels of demand who are delivering additional housing. The proposal envisages that the grant would continue to resource planning to ensure effective delivery of the new planning system.

We are also consulting on the criteria to allocate £120 million of planning delivery grant for the financial year 2007-08. Within this allocation we are proposing to increase the percentage of planning delivery grant awarded to support housing. This is to ensure that the grant better supports areas which are delivering high numbers of new homes and areas struggling with issues of low demand. We plan to announce the first part of this grant in November 2006, with further announcements planned for spring 2007.

Copies of the Planning Delivery Grant 2007-08: Proposed Allocations Criteria have been placed in the Libraries of both Houses and is available on the DCLG website at http://www.communities.gov.uk/index.asp?id=1 501792

The housing and planning delivery grant consultation paper will be placed in the Libraries of both Houses tomorrow and will be available from tomorrow afternoon on the DCLG website at http://www.communities.gov.uk/index.asp?id=1017165

Housing Private Finance Initiative

The Minister for Housing and Planning (Yvette Cooper): The closing date for expressions of interest to the fifth housing PFI bidding round in support of our decent homes programme and for the provision of additional social rented housing was 31 March.

My officials are in the final stages of the assessment process and I expect to announce the outcome during the summer.

Housing and Regeneration Review

The Secretary of State for Communities and Local Government (Ruth Kelly): I am today updating the House on the housing and regeneration review, launched in April this year by the Deputy Prime Minister, the then Minister for Communities and Local Government, my right hon. Friend the Member for South Shields (Mr.Miliband).

This Government have an ambitious agenda for housing and regeneration. My letter of 12 July to the Prime Minister outlined my vision for developing mixed communities and increasing the supply of affordable and market housing.

Delivering this agenda requires a step-change in our activities. It is therefore vital that we get our delivery arrangements absolutely right, with clear, focused and accountable delivery chains.

The current review of housing and regeneration provides an important opportunity to build on the existing strengths of English Partnerships and the Housing Corporation and ensure a coherent approach to delivering new housing and mixed sustainable communities. We must make the most of the skills and expertise of these bodies, and maximise the use of private investment, public subsidy, land holdings and assets to support and deliver local and regional housing and regeneration strategies.

At the same time, the creation of the Department for Communities and Local Government (DCLG) as a new strategic department, focused on delivering for people and places, offers an opportunity to evaluate our wider departmental delivery chain for housing and regeneration. I have therefore asked my officials to undertake further work in three key areas.

First, in addition to addressing the Housing Corporation and English Partnerships, I have asked officials to examine the DCLG's delivery functions to determine the scope for rationalising existing delivery focused activities across the piece. Secondly, I have asked officials to undertake a distinct stream of work on modernising the regulation of affordable housing, particularly in the light of the increasing involvement of the private sector. Finally and relatedly, I have asked officials to carry out further work and analysis on the range of potential modernisation and structural options for reform.

I will make a further announcement in the autumn on my plans for creating a modern, dynamic delivery chain to support stronger communities and create places in which people feel proud to live.

The Queen Elizabeth II Conference Centre (Targets 2006-07)

The Parliamentary Under-Secretary of State for Communities and Local Government (Angela E. Smith): Key Performance Targets have been agreed for The Queen Elizabeth II Conference Centre for the period 1 April 2006 to 31 March 2007.

The agency's principal financial target for 2006-07 is to achieve a minimum dividend payment to the Department for Communities and Local Government of £1,500,000.

An operational target has been set to achieve room occupancy within the Centre of 70 per cent.

The agency also has the following quality of service targets:

Overall score for value for money satisfaction of greater than 90 per cent.

The number of complaints received to be less than two per 100 events.

An average response time when answering complaints of less than four working days.

Reduced Ignition Propensity

The Parliamentary Under-Secretary of State for Communities and Local Government (Angela E. Smith): Careless handling of smokers' materials continues to be one of the major causes of UK accidental fire deaths in the home. Evidence has shown that Reduced Ignition Propensity (REP) cigarettes decrease the risk of inducing ignition or progressive smouldering in materials, therefore reducing the number of accidental fire deaths in the home.

RIP cigarettes have been legislated for in New York State, California, Vermont, Illinois, New Hampshire and Massachusets and are all now in place, including Canada. The legislation requires that all cigarettes conform to American Society of Testing and Materials Standard (ASTM International).

At the request of the UK, supported by Sweden, the European Commission undertook to look into the case for developing an appropriate technical standard for RIP cigarettes. The Department for Communities and Local Government will be working very closely with the Department of Health which has led Government work on tobacco regulation, and the Department of Trade and Industry which leads on consumer product safety. It is expected that further discussion on the case for developing a European technical standard for REP cigarettes will take place at the next General Product Committee meeting in Brussels this September.

Planning Appeals

The Parliamentary Under-Secretary of State for Communities and Local Government (Meg Munn): The majority of planning appeals in England are decided by inspectors, but a small percentage are decided by the Secretary of State for Communities and Local Government, usually because the development is large and controversial (out of a total of 25,000 appeals, some 150 were recovered for decision by the Secretary of State last year). This statement sets out the Secretary of State's policy on recovering planning appeals and replaces the previous policy on which appeals are recovered for the Secretary of State's determination (which was set out in a House of Commons *Hansard* written answer for 25 July 2000). These changes are being made to achieve a greater focus on those cases which merit ministerial decision, and over time to lead to a reduction in the number of cases recovered and produce time savings in decision making.

In future the Secretary of State will consider recovery of appeals involving—

Any proposal for residential development of over 150 units or on sites of over five hectares, which would significantly impact on the Government's objective to secure a better balance between housing demand and supply and create high quality, sustainable, mixed and inclusive communities.

Proposals for development of major importance having more than local significance.

Proposals giving rise to substantial regional or national controversy.

Proposals which raise important or novel issues of development control, and/or legal difficulties.

Proposals which involve any main town centre use or uses (as set out in paragraph 1.8 of PPS6) where that use or uses comprise(s) over 9,000 sqm gross floorspace (either as a single proposal or as part of or in combination with other current proposals) and which are proposed on a site in an edge-of-centre or out-of-centre location (as described in Table 2 of PPS6) that is not in accordance with an up-to-date development plan document prepared in accordance with the policy in PPS6.

Proposals for significant development in the green belt.

Major proposals involving the winning and working of minerals.

Proposals against which another Government Department has raised major objections or has a major interest.

Cases which can only be decided in conjunction with a case over which inspectors have no jurisdiction (so-called "linked cases").

There may on occasion be other cases which merit recovery because of the particular circumstances.

Water Efficiency Consultation

The Parliamentary Under-Secretary of State for Communities and Local Government (Angela E. Smith): Members will be interested to know that the Department for Environment, Food and Rural Affairs (DEFRA) and the Department for Communities and Local Government (DCLG) will be jointly consulting on ways of making water efficiency mandatory, during the recess. The scope of the consultation will cover water efficiency in new homes, existing buildings and in respect of the domestic uses of non-household buildings. We are considering a range of measures including amendments to the Building Regulations 2000. There will be a slightly longer consultation than normal—four months rather than three—as we recognised the difficulty of consulting during a holiday period.

Copies of the consultation document will be available later in the year on both the DCLG and DEFRA websites and in the Libraries of both Houses. I will be writing separately to the hon. Member for East Surrey (Mr. Ainsworth), Chairman of the Environmental Audit Committee, the right hon. Member for Fylde (Mr. Jack), Chairman of the Environment, Food and Rural Affairs Committee, and the hon. Member for Milton Keynes, South-West (Dr. Starkey), Chairman of the Communities and Local Government Committee.

CONSTITUTIONAL AFFAIRS

Law Commission Chairman

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My noble Friend the Secretary of State and Lord Chancellor, Lord Falconer has made the following written ministerial statement;

"I have appointed Mr. Justice Terence Etherton to be chairman of the Law Commission from 1 August 2006. He succeeds Mr. Justice Roger Toulson whose term of office will then be completed.

I have decided that the needs of the Law Commission are usually best met by having a member of the senior judiciary as chairman. This follows a consultation in the 2004 consultation paper, Appointment of Law Commissioners, and the response paper issued in 2005. As a result I have decided to propose to Parliament amendments to the Law Commissions Act 1965 so that the chairman can be recruited from the senior judiciary as and when appropriate. I will do so when legislative time and opportunity allows."

Electoral Administration Act

The Parliamentary Under-Secretary of State for Constitutional Affairs (Bridget Prentice): The Electoral Administration Act received Royal Assent on 11 July 2006. The Act aims to tackle four areas at the core of a healthy democracy by improving access, improving confidence, extending openness and transparency of party financing and maintaining professional delivery of elections.

In line with the Government's commitment to bring as many of the important provisions in the Act into force as soon as possible a commencement order has been made which includes the following key provisions:

New rules for transparency and permissibility of loans,

Registration provisions to apply to the 2006 annual canvass process,

A package of offences in relation to postal voting applications and conduct of elections,

Provisions in relation to the regulation of political parties; and

Power for the Electoral Commission to set performance standards.

The provisions in the Act to bring a similar regime of transparency and permissibility to that set out for donations in the Political Parties, Elections and Referendums Act 2000 (PPERA) to loans from political parties will come into force on 11 September 2006. The Government consider that it is important for the new regime to be brought into force at the earliest opportunity. Political parties will be required to report to the Electoral Commission all regulated transactions existing at that date and any entered into between that date and the end of that month, within 30 days from the end of September. Taken together, the existing donations regime and the new regulated transactions regime provide a robust and transparent mechanism to ensure that significant financial benefits to political parties are disclosed.

We have also brought into force a package of offences in the Electoral Administration Act that aim to improve the security and confidence of the electoral process. These will come into force on 11 September 2006 and relate to both the application for postal and proxy votes as well as offences around the conduct of elections. We believe that it is vital that we tackle potential problems of fraud in relation to elections. Along with other provisions in the Act that will be brought into force in time for the May 2007 elections. We believe this represents a comprehensive set of legislative changes that will improve the confidence in the electoral system.

The Government are also committed to improving the accuracy of the register and tackling potential registration fraud at the earliest opportunity. We have therefore commenced those provisions in the Act that relate to the annual canvass process so that they can be in place for the 2006 annual canvass. This includes the new duty on Electoral Registration Officers (EROs) to carry out necessary steps to maintain the register and the new registration offence of supplying false information in connection with registration. Both these provisions will come into force on 11 September 2006.

In addition, the Electoral Administration Act contains miscellaneous provisions in part 7 which are designed to simplify and streamline procedures for the regulation of political parties and many of these will come into force on 11 September 2006.

The power for the Electoral Commission to set performance standards in relation to electoral activity will also come into force on 11 September. This will allow the Electoral Commission to carry out the important preparatory work in relation to the performance standards scheme.

We aim for the Electoral Administration Act to be implemented in full, where possible, for the May 2007 elections. We will therefore be making subsequent commencement orders to commence the remaining provisions in the Act.

Personal Data

The Parliamentary Under-Secretary of State for Constitutional Affairs (Vera Baird): My noble Friend, Baroness Ashton of Upholland, the Parliamentary Under-Secretary of State, has made the following written ministerial statement:

"I have today published a consultation paper on proposed custodial penalties for breaches of section 55 of the Data Protection Act 1998. In an environment where concerns about identity fraud are growing and where the widespread use and exchange of data is increasingly important to the economy and to society as a whole, it is essential for people to be confident their personal data will not be willfully or recklessly abused. We are determined that the regulatory regime properly reflects the risks that come with greater data use. The aim of this proposal is to provide an appropriate and effective level of deterrent for those who seek to profit from the illegal trade in personal information. We welcome the recent report by the Information Commissioner 'What price privacy? The unlawful trade in confidential personal information' which has been an extremely valuable contribution on this issue, and we are responding positively to the report's recommendations. We are seeking views on whether the proposed sanctions would act as an effective deterrent to those who deliberately or recklessly misuse personal information. Copies have been placed in the Printed Paper Office, Vote Office and Libraries of both Houses."

DEFENCE

Armed Forces and Dental Officers Pay

The Secretary of State for Defence (Des Browne): The supplement to the 2006 report of the Armed Forces Pay Review Body, making recommendations on the pay of service medical and dental officers, has been published today. Copies of the report are available in the Vote Office and the Library of the House. I wish to express my thanks to the chairman and members of the review body for their report.

The review body recommended a pay increase of 2.2 per cent. for junior doctors and cadets, and 2.4 per cent for associate specialists. In addition, the review body recommended that there should be an increase of 2.2 per cent. in the values of trainer pay and distinction and clinical excellence awards. These recommendations are to be accepted in full, with implementation effective from 1 April 2006.

All regular and reserve defence medical services consultants, general medical practitioners, general dental practitioners and higher medical management personnel will also receive a 2.2 per cent. increase effective from 1 April 2006. In addition, and closely matching the recommendation of the AFPRB, the Government have agreed to a further consolidated payment effective from 1 November 2006 to ensure the levels of pay are comparable to their counterparts in the NHS.

The agreed pay award will be met from within existing departmental expenditure limits.

Force Levels in Germany

The Minister of State, Ministry of Defence (Mr. Adam Ingram): The then Secretary of State for Defence, my right hon. Friend the Member for Airdrie and Shotts (John Reid), announced on 30 January 2006, *Official Report*, column 3WS the move of 4 Mechanised Brigade (4 Armoured Brigade) to the UK from Germany. At the same time, we made clear that we would take the opportunity to make further adjustments to our forces in Germany, where it made sense to do so. I want today to announce that an initial review of the opportunities for further rationalisation of our basing arrangements in Germany has developed proposals for the possible return to the UK of Headquarters Allied Rapid Reaction Corps (HQ ARRC), 102 Logistic Brigade (102 Log Bde) and 1 Signal Brigade (1 Sig Bde), over the period 2008-2012, including identifying exactly where these units will be based in the UK. A project team is being established to assess these proposals in greater detail, and to determine whether they are practicable and offer value for money. An important part of the team's remit will be to consider in more depth where in the UK we could re-locate HQ ARRC and the two brigades. The team will produce an initial report around the end of the year; it is unlikely that we will be in a position to announce final decisions until well into 2007.

I have notified our NATO allies, including the German Government as host nation, of our plans, and the Chief of the Defence Staff has written to the Supreme Allied Commander Europe in view of the HQ ARRC's assignment as Headquarters NATO Rapid Deployment Corps (UK).

Separately, we also plan a series of minor moves within Germany which will lead to the closure of Osnabrück Station from early 2009. This will entail moving 1 Close Support Medical Regiment (1 CSMR) from its current base in Münster Station to alternative British army estate in Germany, and replacing them with another unit, the identity of which will be determined by further analysis. These moves will enable Osnabrück Station to close. Subject to the conclusions of the project team, further moves are envisaged in due course that would enable us to close Münster Station and therefore Osnabrück Garrison as a whole. The current planning assumption is that this would not take place before 2010. The relocation of HQ ARRC, 102 Log Bde and 1 Sig Bde would also enable us to close Rhine Garrison in the period 2010-2012. This will concentrate our Germany-based forces in Hohne, Paderborn and Gutersloh garrisons.

We also plan to return 12 Regiment Royal Artillery from Paderborn to the UK as early as summer 2007, as we re-organise our air defence regiments and capitalise on UK based facilities for High Velocity Missile Stormer vehicles. As a result, 12 Regiment will collocate with 47 Regiment Royal Artillery at Thorney Island. Consequently, 16 Regiment Royal Artillery, which we had previously envisaged moving from Woolwich to Thorney Island, will now be based in North Luffenham in summer 2007. In order to enable the necessary re-balancing in Germany, 12 Regiment's barracks in Paderborn will be occupied by another unit, the identity of which will be determined by further analysis.

We will continue to make further modest adjustments to our force levels in Germany, but our plan remains to base UK forces in the country, in the form of 1 Armoured Division and its supporting units, for many years to come. These moves and the work of the project team in no way signal a change in either our commitment to the NATO Alliance or in our overall defence policy, nor do they in any way devalue the continued close bilateral relationship between the UK and Germany.

General Service Engagement Bounty for the Royal Irish (Home Service)

The Minister of State, Ministry of Defence (Mr. Adam Ingram): On 9 March 2006, *Official Report*, column 961, I announced the settlement package for the Royal Irish (Home Service) (R IRISH (HS)) personnel being discharged as a result of the normalisation process in Northern Ireland. Included within the settlement package was an alternative to redundancy; a taxable £10,000 engagement bounty offer to all those eligible R IRISH (HS) personnel who wished to transfer, and are accepted for a general service engagement in the wider army. We had anticipated that around 250 such personnel would take the opportunity to continue with their military career in the army, but, to date, only a handful of the R IRISH (HS) personnel are in the process of being accepted into general service army.

I very much meant what I said back in March that I was eager for as many home service personnel as possible to take the opportunity to continue with their military career in the armed forces.

As a result, I am announcing today a one-off increase to the general service engagement bounty to a taxable £20,000. This decision to increase the bounty was taken in order to encourage more eligible R IRISH (HS) personnel to opt for transfer, rather than redundancy.

MOD Civilians in Northern Ireland

The Minister of State, Ministry of Defence (Mr. Adam Ingram): I am pleased to announce the severance package for the estimated 1,500 MOD civilians in Northern Ireland being made redundant during the period 1 August 2006 to 31 December 2008, as a result of the process of normalisation.

The House will recall that when I announced the package for the Royal Irish (Home Service) (R IRISH (HS)) on 9 March 2006, *Official Report*, column 961 I explained that a process of consultation would take place with the trades unions on the civilian redundancies in accordance with our duties under Section 188 of the Trades Unions and Labour Relations (Consolidation) Act 1992. That consultation has now been concluded and the redundancy package has been decided.

First of all, I would like to take this opportunity to pay tribute to the dedication and commitment shown by MOD civilians in Northern Ireland over many years in supporting the armed forces, and in helping bring about the enabling environment for the current security normalisation programme. While normalisation is good news for Northern Ireland, it also brings substantial change for our civilian work force and my Department has been working hard to draw up an enhanced redundancy package for those affected. I am now in a position to provide details of that package.

In addition to the normal occupational redundancy package (which, for the majority, will be compulsory terms under the Civil Service Compensation Scheme (CSCS)), affected staff will receive a flat rate financial recognition award (FRA) payment of £14,000 gross.

The payment is being made, in recognition of a unique set of circumstances, to MOD civilians based in Northern Ireland, and are a combination of the following factors:

The pressures and restrictions arising from their association with the armed forces in Northern Ireland, which they experienced while working for MOD and are likely to continue to affect them in the immediate aftermath of being made redundant;

The difficulties they may experience as a result of normalisation and directly arising from their former association with the armed forces in Northern Ireland; and

The effect of those pressures being exacerbated by the fact that the whole of the R IRISH (HS) is being disbanded, affecting over 3,000 individuals and nearly 50 per cent. of the civilian workforce are losing their jobs over a compressed timescale.

In summary, during the period 1 August 2006 to 31 December 2008 MOD civil servants made redundant through the process of normalisation will receive:

Redundancy compensation under the terms of their occupational redundancy scheme;

Access to the MOD outplacement service for a period of 12 months (an increase over the normal 6 months);

A re-training allowance of up to £1,000 per person, and

A flat rate additional payment of £14,000 gross.

The package, which goes significantly beyond statutory entitlements, is well deserved and we hope will be well received by MOD civilians in Northern Ireland. To put this into context, typically an individual who is aged 50 or over and made redundant between 1 August 2006 and 31 December 2008 will receive the immediate payment of an enhanced pension (and a tax free pension lump sum for those in the 1972 section of the Principal Civil Service Pension Scheme (PCSPS)), redundancy compensation of up to six months pensionable pay and the FRA of £14,000. To give examples, a 51-year-old band C with an average salary of £26,167 and 31 years service will receive a lump sum payment of £27,084 (this is the redundancy compensation and the FRA), in addition they will receive their pension lump sum of approximately £30,419 and an annual pension; a 54-year-old B and E/skill zone 3 with an average salary of £17,975 and 34 years service will receive a lump sum payment of £22,987 (this is the redundancy compensation and the FRA), in addition they will receive their pension lump sum of approximately £25,136 and an annual pension. Those staff under age 50 and made redundant in the same period will typically receive a preserved pension payable at age 60, redundancy compensation up to three times their annual pensionable pay and the FRA of £14,000. To illustrate, a 34-year-old band E/Skill zone 3 with an average salary of £17,975 and 16 years service will receive a lump sum payment of £43,958; a 27 year old band D/skill zone 4 with an average salary of £20,617 and 9 years service will receive a lump sum payment of £29,463. These lump sums are the combined totals of redundancy compensation and the FRA. Redundancy compensation and the FRA combined will be tax free up to the first £30,000 in accordance with the Income Tax (Earnings and Pensions) Act 2003.

This is a generous package for a unique set of circumstances for those MOD civilians in Northern Ireland made redundant between 1 August 2006 and 31 December 2008.

Operational Force Enhancements

The Secretary of State for Defence (Des Browne): I have made clear my determination to ensure the armed forces on operations have the resources they need to do the job. I said I would update the House on developments in two particular areas of operational capability: additional options for armoured vehicles and helicopter support for Afghanistan.

As I told the House on 26 June, I ordered an urgent review of our armoured vehicle fleet, particularly focused on the evolving threat in Iraq, but covering the whole operational picture including Afghanistan, to ensure we were providing commanders with the best options.

That review has now concluded. It has confirmed that there is a growing requirement for a protected vehicle with capabilities between our heavy armour,

such as Warrior, and lighter patrol vehicles, such as SNATCH. The review has also identified feasible options to address the gap in the short term. We have now completed a very rapid assessment of those options and have identified three complementary ways forward. Two of these build on, and accelerate, work already ongoing in the Department. The third is new. The necessary funding will come in part from acceleration of existing funding within the defence budget, and in part from substantial new funding from the Treasury.

The first element is an additional buy of around 100 VECTOR, our new Pinzgauer based protected patrol vehicle, for Afghanistan, on top of the 62 already on contract. VECTOR provides good protection and, importantly, increased mobility and capacity compared to SNATCH which makes it very suitable for the rugged terrain and long patrol distances in Afghanistan.

The second element is to provide around 70 additional up-armoured and upgraded FV430 to equip a mechanised infantry battlegroup for Iraq by the spring of 2007, again on top of the 54 we have already ordered. The FV430 will be delivered incrementally with the first vehicles currently expected to be delivered this autumn.

Significantly smaller and lighter than Warrior, the up-armoured FV430 will provide a similar level of protection while being less intimidating and having less impact on local infrastructure—thereby providing commanders with an important additional option. Since it is able to carry out many of the same tasks as Warrior, it will also relieve pressure on heavily committed Warrior vehicles and armoured infantry battlegroups.

The third, new element is the Cougar manufactured by Force Protection Incorporated of Charleston, South Carolina. We judge that this vehicle meets our requirement for a well protected, wheeled patrol vehicle with a less intimidating profile than tracked vehicles like Warrior or FV430. We are arranging to rapidly procure around 100 vehicles through US military sources. We have received excellent co-operation from the US Government, military and industry—an example of the special relationship bringing real benefits for our soldiers on the ground. Once we take possession of the vehicles, we must then customise them with Bowman radios and electronic counter-measures—and then fit additional armour beyond the standard level, to ensure they have the best possible protection. This procurement and enhancement process takes time. But we expect to be able to deliver the vehicles, in batches, with an effective capability in place before the end of the year and continuing through the next six month rotations in Iraq and Afghanistan.

These three vehicles will complement existing Warrior and SNATCH. Warrior will continue to provide the capability to deal with the most demanding threats, but its profile and weight makes it unsuitable for some operations and situations, such as Afghanistan. SNATCH, with a much less intimidating profile, enables troops to interact with locals and promotes a sense of normality and will remain a key tool for building and maintaining consent. The up-armoured FV430, the Cougar medium PPV, and VECTOR fill the requirements for varying degrees of protection, mobility and profile between these two extremes. But I am confident that together these vehicles provide commanders with the right range of options to deal with the situations and threats they face.

In my Afghanistan statement on 10 July 2006, *Official Report*, columns 1131-35, I detailed the additional forces we shall deploy to Southern Afghanistan. I also undertook to provide further details of the enhancement of the Support Helicopter force deployed as part of the Helmand Task Force once I had received definitive advice on the needs of our Commanders on the ground. I have now had that advice, as endorsed by the Chief of the Defence Staff, and I have directed that those needs be met in full.

I have therefore directed that two extra CH-47 CHINOOK be deployed: the first in early September 2006, and the second in October. Helicopter force levels will remain under constant review.

I also wish to update the House on the units assigned to provide additional forces for Afghanistan. Force protection for 28 Regiment, Royal Engineers will be provided by W Company, 45 Commando, Royal Marines, not a composite unit as has been suggested. Finally, I erroneously referred in my earlier statement to 12 Signal Regiment. The unit listed should have been 14 Signal Regiment.

FOREIGN AND COMMONWEALTH OFFICE

Stratetgic Export Controls (Annual Report)

The Minister for the Middle East (Dr. Kim Howells): The 2005 Annual Report on Strategic Export Controls will be published at 11 o'clock today as a Command Paper. Copies will be placed in the Library of the House. The Report describes UK policy and international developments in export control regimes, as well as information on export licensing decisions taken during 2005.

The Annual Report on Strategic Export Controls is an innovation of this Government. This report, the ninth Annual Report (the first report was published in 1997) is a step away from the traditional reports of the past. Our export licensing system is one of the most rigorous and transparent regimes in the world and the Annual Report —in this new format—symbolises our continued commitment to accountability and transparency by presenting detailed information in a more modern and user friendly format. This year, due to the increasing volume of information on strategic exports that is being published by the Government, all the statistical data that was historically published only in hardcopy is now made available on a CD ROM which accompanies the report. Since 2004 the Government have also produced detailed Quarterly Reports available on the Internet—ensuring that the UK provides some of the most open and timely export licensing information available anywhere. The new CD ROM includes the Quarterly Reports for 2005, as well as more consolidated data, information on licence refusals and fuller information on trade control

(trafficking and brokering) licences issued during 2005. The complete Report will be available on the Foreign and Commonwealth Office website and also published through The Stationery Office.

British Council Trustees (Annual Report and Accounts)

The Minister for Europe (Mr. Geoffrey Hoon): Copies of the British Council Trustees' annual report and accounts for the financial year ended 31 March 2006 have been placed in the Library of the House. During the period the Council received £189,210,000 grant-in-aid from the Foreign and Commonwealth Office.

Prospects for the European Union 2006

The Minister for Europe (Mr. Geoffrey Hoon): I will today lay before the House the Foreign and Commonwealth Office Command Paper 6896 on "Prospects for the European Union 2006". This is the latest in a series of forward looks to the work programmes of the respective European Union Presidencies.

Copies will be placed in the Library of the House. Additional copies can also be obtained from the Vote Office and the Printed Paper Office. A copy will also be available on the Foreign and Commonwealth Office website www.fco.gov.uk

The last White Paper was published in January at the conclusion of the UK Presidency of the EU. This was a retrospective of our Presidency as well as a forward look to the year ahead. The White Paper I am laying before the House today is an update to the Spring Paper and sets out in more detail the priorities of the Finnish Presidency over the next six months.

The Finnish Presidency began on 1 July. The Finns have presented an ambitious programme for the next six months which builds on the work of previous Presidencies and addresses many important challenges for the European Union. We agree with the challenges identified by the Finns and welcome their proposed priority actions. In particular we welcome the focus on follow-up to the Hampton Court agenda initiated under the UK Presidency in October 2005. The informal meeting of the European Council in Lahti on 20 October will focus on innovation and energy and will be an opportunity to look at the next steps we collectively need to take to meet Europe's needs in the 21st century.

The Finnish Presidency also plans to take forward work in key areas such as tackling climate change, enlargement, competitiveness, security and migration. For example we will see an open dialogue on the best way to drive international action on tackling climate change. This Presidency will host a discussion on the Commission report on enlargement progress in the Autumn. It will also oversee the mid term review of the 2004 Hague programme which will, amongst other issues, look at stronger EU co-operation to tackle illegal migration. The Finns hope to reach agreement on a number of important measures to boost European competitiveness including final adoption of the Services Directive and increased investment in Research and Development.

This agenda demonstrates the EU's commitment to delivering on issues of concern to our citizens. We welcome these priorities and look forward to working with the Finnish Presidency over an important six months.

"The United Kingdom in the United Nations"

The Minister for the Middle East (Dr. Kim Howells): I will today lay before the House the Foreign and Commonwealth Office Command Paper 6892 entitled "The United Kingdom in the United Nations".

The Command Paper provides a comprehensive overview of the work of the United Nations, and details the UK's significant contribution to the UN's efforts, consistent with the UK's strong support for the organisation.

HEALTH

Clostridium Difficile Outbreaks at Stoke Mandeville Hospital and Publication of Data on Healthcare

The Minister of State, Department of Health (Andy Burnham): The Healthcare Commission has today published its investigation into outbreaks of clostridium difficile at Stoke Mandeville hospital (Buckinghamshire Hospitals NHS Trust). Copies of the report have been placed in the Library.

My right hon. Friend the Secretary of State commissioned this report to establish:

- whether the trust's systems and processes for the prevention and control of infection were adequate during the two outbreaks;
- the current state of the trust's systems to control this infection; and
- the lessons to be learned from these outbreaks, both for the trust and the wider NHS, about how best to reduce the risk of C. difficile infection.

The Healthcare Commission's report identified the factors involved in the first outbreak and concluded that a failure to implement appropriately the lessons learnt from this, combined with an inadequate governance system, led to a delay in controlling the second outbreak. Since the outbreaks, the trust has improved infection control practice and consequently strengthened patient safety.

My right hon. Friend has today written to Anna Walker, Chief Executive of the Healthcare Commission to accept the conclusions of the report. This letter also asks that the Commission use the powers available to it to ensure that trusts are following the good practice set out in the new Code of Practice on Prevention and Control of Healthcare Associated Infection and to use their powers of intervention where trusts fail to do so.

The Department will work closely with the trust, the strategic health authority, the Health Protection Agency and the local primary care trusts in addressing the recommendations in the report. As the conclusions have a wider applicability to the health service, the Chief Medical Officer and Chief Nursing Officer will consider this report over the summer and assess how the lessons learned can be implemented both locally and nationally to reduce the risk from this infection. The Department will also ensure that the report's conclusions inform the review of the current C. difficile guidance.

Today also sees the publication of the latest information from the Department of Health's mandatory healthcare associated infections (HCAIs) surveillance system. This information, which has been placed in the Library, brings together data on MRSA blood stream infections, clostridium difficile associated disease, glycopeptide resistant enterococci blood stream infections and orthopaedic surgical site infections to help assess trends in HCAIs.

This statistical report has been prepared by the Health Protection Agency (HPA) and is a part of our new approach to publication of HCAI data, where the HPA both manages the surveillance programme and publishes the data. An annual report will be produced every July to help evaluate trends and facilitate access to all the data.

Mandatory surveillance has shown a clear need to improve NHS performance and we believe that upgrading the level of surveillance and more rapid feedback of results will help performance. Therefore we intend to move to quarterly publication as soon as it is feasible to do so.

Expert Group on Phase 1 Clinical Trials - Interim Report

The Minister of State, Department of Health (Andy Burnham): On 25 May 2006 I informed the House that the Medicines and Healthcare products Regulatory Agency (MHRA) had published its final report on the investigations into the incident that occurred with the phase 1 clinical trial for a drug in development known as TON 1412, *Official Report*, column 95WS. I also announced the membership of the expert group established by my right hon. Friend the Secretary of State under the chairmanship of Professor Gordon Duff, to consider what the incident revealed about the underlying science, and how clinical trials involving these types of products should be managed in the future. I promised a further report to the House when the expert group provided its interim report.

That interim report is being published tomorrow, 25 July, together with the minutes of all its meetings, the documents submitted for its consideration and details of the evidence given by a wide range of stakeholders, all of which have contributed to its preliminary findings. A copy of the interim report will be placed in the Library.

It is important to recognise that this is an interim report, that a public consultation will take place on its proposals, and further opportunities for interested parties to give evidence will be available in the autumn.

The Government are very grateful for the great deal of progress already made on this important issue by the expert group in the two months since it first met. The group anticipates completing its work in the autumn and I will provide a further report to the House when this report is available.

HOME DEPARTMENT

Criminal Records Bureau (Annual Reports and Accounts 2005-06)

The Parliamentary Under-Secretary of State for the Home Department (Joan Ryan): I announce that the 2005-06 annual report and accounts for the Criminal Records Bureau have been laid before Parliament. Arrangements are now in hand for their publication and copies will be placed in the House Library.

Justice and Home Affairs Council 24 July 2006

The Parliamentary Under-Secretary of State for the Home Department (Joan Ryan): The Justice and Home Affairs Council will be held today, 24 July 2006, in Brussels. I am attending on behalf of the Home Office. I thought it would be useful if I were to outline the main issues I expect to be discussed.

The Council will take an initial presentation by the Commission on the Hague programme review. There will also be discussion of migration issues and, in the mixed committee format, the second generation Schengen Information System. On the first of these, the Commission will present four communications: the future direction of the Hague programme which includes a proposed use of Article 42 TEU (the passerelle clause); reviewing the implementation of the Hague programme to date (the scorecard); options for better evaluation of the impact of EU policies in the area of Justice and Home Affairs (JHA); and a legislative proposal based on Article 67(2) TEC adapting the provisions of the European Court of Justice under Title IV (immigration, asylum and civil law matters). The presidency has indicated that they will focus on procedure and handling and is not looking for substantive discussion on these items at this Council. Detailed discussion, including in relation to the more controversial aspects, such as the possible use of Article 42 TEU (the passerelle clause) and Article 67(2) TEC (adapting the remit of the ECJ in Title IV) will take place later in the year, including at the September Informal JHA Council in Finland. Those aspects aside, the Government's initial view is to welcome the focus on implementation and more effective evaluation contained in the communications.

There will be information items on the EU preparations for the UN high-level dialogue on international migration and development and the report on the outcome of the Euro African ministerial conference on migration and development held in Rabat on 10-11 July 2006. The Government welcome the adoption of the EU common position at the General Affairs and External Relations Council last week, 13 July; we will continue to feed into preparations for the UN High Level Dialogues on

International Migration and Development, which take place in September. There will also be a presentation by the Commission and Frontex (EU Border Agency) on the situation in the Mediterranean and Africa. We expect there to be a focus on the continuing influx of illegal immigrants to the Canaries and Malta. The UK strongly supports EU joint operational activity in the Mediterranean and has offered technical assistance to the Spanish and Maltese authorities.

There will be discussion on the management of migration flows; specifically on the two Commission Communications on: a policy plan for legal migration and a common policy on illegal immigration. The presidency will be seeking a first exchange of views on both items. The UK will be encouraging solutions of sharing best practice and establishing common principles, while advising against inflexible, detailed prescription, especially in the form of legislative measures on labour access.

The Government are fully committed to tackling the problem of illegal immigration of third country nationals and notes with interest the Commission's Communication; we will examine concrete proposals for measures when they are tabled in due course.

In the mixed committee format the presidency will be hoping to agree a general approach on the key outstanding issues in the three legal instruments establishing SIS II—a regulation covering immigration aspects, a Council decision covering law enforcement aspects and a regulation covering access by vehicle registration authorities—with a view to reaching a First Reading deal with the European Parliament in September. This is the last opportunity to resolve the major outstanding issues within the Council before the expected EP vote in September. The UK will not participate in the regulation covering immigration but will participate in the other two legal instruments.

Two further presentations by the Commission are expected in the margins of the meeting. These are on: i) a proposal for a regulation setting up the powers and the financing of teams of national border control experts of member states (Rapid Border Intervention Teams) to provide joint EU technical and operational assistance at the external EU Border, co-ordinated by Frontex and ii) a proposal for a community code on visas—a Schengen measure in which the UK will not participate. Although the UK will not participate in the first proposal, we support the concept of nominated experts deployed at short notice to respond to emergencies to help enhance the security of the EU external border, but will wish to look carefully at the detail.

Finally there is likely to be a lunch-time presentation by Commissioner Franco Frattini on the issue of CIA rendition flights.

Statistics of Scientific Procedures on Living Animals - Great Britain, 2005

The Parliamentary Under-Secretary of State for the Home Department (Joan Ryan): I wish to announce that the publication entitled Statistics of Scientific Procedures on Living Animals—Great Britain—2005 is being presented as a Command Paper (6877) today. Copies will be placed in the House Library.

This annual report meets the requirement in the Animals (Scientific Procedures) Act 1986 to keep Parliament informed about the use of animals for experimental or other purposes. It also forms the basis for meeting periodic reporting requirements at EU level. There has been criticism in previous years, including from a House of Lords Select Committee, for providing too much detail and not being very digestible or reader-friendly. Therefore some changes have been made to improve the contents and layout of this publication with the intention of making the publication easier to comprehend and follow.

The report shows an overall increase over the previous year of 1.4 per cent. in the number of procedures undertaken. The total number of procedures was 2.9 million, an increase of 41,300 over the previous year. Although this is the highest total since 1992, it does not necessarily signal an established upwards trend in animal use. A number of factors, including the economic climate and global trends in scientific endeavour, determine the overall level of scientific procedures.

Non-toxicological procedures accounted for about 86 per cent. of the procedures carried out in 2005. These included studies for fundamental biological or applied research in human and veterinary medicine, with the main areas of use being for immunological studies, pharmaceutical research and development, and cancer research.

Procedures for toxicological purposes accounted for the remaining 14 per cent. of all procedures. About 73 per cent. of these were for testing the safety and efficacy of new drugs and medicines.

In keeping with previous years, those procedures that used mice or rats (or other rodents) were the great majority at 84 per cent. Those using fish amounted to 8 per cent. and those using birds, 4 per cent. The total of all procedures using dogs, cats, horses and non-human primates, that is, those species offered special protection by the Act, was less than 1 per cent. of the total.

Genetically normal animals were used in about 1.65 million regulated procedures, representing 57 per cent. of all procedures for 2005 (compared with 59 per cent. in 2004 and 84 per cent. in 1995). Genetically modified animals (nearly all rodents) were used in 957,500 regulated procedures representing 33 per cent. of all procedures for 2005 (compared with 32 per cent. in 2003 and 8 per cent. in 1995).

These trends have been evident over recent years, reflecting the changing balance in use between genetically normal and modified animals, and are set to continue as advances in genetic science open up new and promising avenues of research.

I should point out in relation to the statistics that the Home Office, as regulatory authority under the 1986 Act, does not control the overall amount of animal research and testing which takes place, the imperative being to minimise the numbers of animals used for justifiable purposes. We ensure, in carrying out our licensing function, that the provisions of the Act are rigorously applied in each programme of work. All animal use must be justified, and for each particular programme of work the number of animals used, and the suffering caused, must be minimised.

Passport Fees

The Parliamentary Under-Secretary of State for the Home Department (Joan Ryan): The Privy Council has made an Order in Council, the Consular Fees (Amendment) Order 2006, which gives authority for a revision in passport fees. The revision will take effect on 5 October 2006. The fee for a standard 32 page passport will increase from £51 to £66 while the fee for a 48 page passport will increase from £62.50 to £77. The fee for a passport for a child will increase from £34 to £45. The fee for an adult using the guaranteed one week counter service for a standard 32 page passport will increase from £77.50 to £91, for a child from £70 to £80 and a 48 page jumbo from £87 to £97. The fee for an adult using the guaranteed same day service for a standard 32 page passport will increase from £96.50 to £108, for a child from £83 to £93 and for a 48 page passport from £104.50 to £114.50. The fee for a collective passport, for organised trips for schools and youth groups, will remain unchanged at £39.

This increase represents the second stage of the two year fee agreement reached with HM Treasury last year. This followed a stringent review of costs to ensure that the fee for each type of passport service closely reflects the production costs accrued by that service and bears its share of the cost of consular protection services. This increase will deliver extensive improvements required in the ongoing efforts to combat passport and identity fraud.

United Kingdom Passport Service (Annual Report and Accounts 2005-06)

The Parliamentary Under-Secretary of State for the Home Department (Joan Ryan): The UK Passport Service annual report and accounts 2005-06 have been laid before Parliament today and will be published shortly. Copies will be placed in the Library of the House on publication. This will be the last annual report and accounts issued by UKPS whose activities were transferred to the Identity and Passport Service (IPS) from 1 April 2006.

INTERNATIONAL DEVELOPMENT

Gaza and Lebanon

The Secretary of State for International Development (Hilary Benn): I am deeply concerned about the humanitarian situation in the Lebanon and in the Gaza Strip.

In Lebanon, the crisis has led the UN to estimate that at least 500,000 people have been displaced. Insecurity and damaged infrastructure is making it difficult to reach those in need of medical care, food and water supplies. The supply of electricity has stopped to most villages and towns in southern Lebanon. Stocks of fuel will be exhausted in two weeks. Factories producing medicines, milk, wood, and housing supplies have been destroyed. It is clear from aid agencies that they need immediate and safe access to the displaced and the wounded and those requiring humanitarian assistance. I support the proposals by the UN and the International Committee of the Red Cross—ICRC—for safe humanitarian access, but ultimately the security situation needs to stabilise in order to ensure that vital assistance can get where it is needed.

We have responded to international appeals for humanitarian aid. Following the initial response I announced last week, I am today committing a further £2.2 million to support humanitarian relief, including for the UN Flash appeal, which has been launched today. The UN Central Emergency Response Fund is also providing an initial contribution of $5 million (of which the UK share is $1.4 million [£770,000]). This brings the total UK commitment to £5 million, and we stand ready to do more as needed. DFID is deploying two humanitarian advisers to the region. Two stabilisation and recovery advisers will join them shortly. The Post Conflict Reconstruction Unit is helping cross-government planning for the UK's contribution to stabilisation and recovery, immediately hostilities cease.

The situation in Gaza is also very difficult. Following the Israeli attack on Gaza's only power station, electricity is limited to supplies received from Israel. Households receive six to eight hours' electricity per day. Electricity is vital for hospitals and clinics, which need constant supplies of power to run medical equipment and keep drugs at constant temperatures. It is needed to pump fresh water to houses and to treat sewage. It is essential for the safe storage of food and for processing flour to make bread. Most households in Gaza are receiving two hours of water per day. This means they do not have reliable access to water for drinking, personal hygiene and washing clothes. According to the World Health Organisation, cases for diarrhoea among refugee children in Gaza in early July were 50 per cent. higher than the same period last year. Humanitarian supplies are vital. The Rafah crossing was opened temporarily on 18 July to allow those stranded at the crossing in desperate conditions to enter, and the Karni crossing was temporarily open for humanitarian and commercial imports. But both are now closed again. Action is needed to ensure unrestricted humanitarian access, including the supply of medical equipment, fuel, food and electricity.

The UK made a contribution of £15 million to the United Nations Relief and Works Agency (UNRWA) in April, which provides basic services for Palestinian refugees in Gaza, Lebanon, and elsewhere in the Middle East. This is helping UNRWA provide healthcare and other basic services to Palestinian refugees, who comprise 70 per cent. of Gaza's population. The EU collectively provides over half of UNRWA's funding, and the UK last year was the third largest bilateral donor.

The European Union has established a temporary international mechanism to support the basic needs of the Palestinian people. The mechanism will provide support to health, education and social affairs, help to pay for utilities and assist the very poorest Palestinians. The UK stands ready to allocate up to £12 million to the mechanism, plus our share of the European Community contribution, giving a total of up to

£25 million. The mechanism has already enabled much needed fuel supplies for emergency generators after Gaza's only power station was damaged by military action. These fuel deliveries are keeping hospitals open, water pumps going and waste treatment plants open. The mechanism will soon start making payments to health workers in both Gaza and the West Bank to ensure they can continue to provide essential medical care. We welcome the decision of G8 leaders to immediately expand the mechanism to provide wider assistance to the people of Gaza, we are working closely with the Quartet and others to ensure that this happens.

The UK is also providing assistance to the United Nations Office for the Co-ordination of Humanitarian Affairs to enable it to monitor closely the humanitarian situation in Gaza to assist donors and others to make sure help gets to those who need it most.

It is particularly important for the humanitarian welfare of innocent civilians in Lebanon, Israel, and Gaza that there is an end to the violence on all sides. The UK Government support efforts to put in place a durable ceasefire.

NORTHERN IRELAND

Devolution

The Secretary of State for Northern Ireland (Mr. Peter Hain): On 15 May, Members of the Northern Ireland Assembly were recalled to participate in a process to secure the full restoration of the institutions in Northern Ireland on or before 24 November. The Assembly rose on 7 July for summer recess and will reconvene on 4 September.

Following their discussions with the Northern Ireland political parties in Parliament Buildings, Stormont on 29 June, the Prime Minister and Taoiseach issued a statement which again reiterated their commitment to the November deadline and called for all sides to commit to a period of genuine and frank political engagement on the outstanding issues in the months ahead.

A work plan was also published alongside the statement in order to assist the parties in their work between now and the November deadline. Both the statement and the work plan have been placed in the Libraries of the House.

The plan allows for the Preparation for Government Committee to continue its valuable work during the summer recess and I have recently provided for the creation of sub-groups within the Committee to deal with the issues of devolution of justice and policing, changes to the institutions and the economic challenges facing Northern Ireland.

I have made clear previously that, in the event that devolved government is not restored on or before 24 November, all MLAs' salaries and allowances will be cancelled with immediate effect. I have repeatedly stressed that it remains the Government's firm hope that devolution can and will be restored by that deadline but I wish to ensure that MLAs have the fullest of opportunities to arrange their affairs in advance. My officials have therefore written to all MLAs explaining the implications of the termination of allowances for MLAs in respect of their responsibilities as employers of their staff and for their constituency offices. A copy of this letter has been placed in the Libraries of the House.

PRIME MINISTER

Ministerial Gifts 2005-06

The Prime Minister (Mr. Tony Blair): I have today published a list of gifts received by Ministers. The list provides details of gifts received by Ministers valued at more than £140 for the period 1 April 2005 to 31 March 2006. Copies of the list have been placed in the Libraries of the House.

Ministerial Travel

The Prime Minister (Mr. Tony Blair): Expenditure on Ministerial overseas visits for the last three financial years and for the year 1996-97 is as follows:

	Expenditure (£million)
1996-97	7.9
2003-04	5.2
2004-05	5.1
2005-06[1]	6.1

[1] The figure for 2005-06 reflects payments made so far for travel undertaken in the period; a few bills have yet to be submitted to departments for payment.

A list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during the period 1 April 2005 to 31 March 2006 has been placed in the Libraries of the House. The list provides details of the date, destination and purpose of all such visits and the cost of Ministers' travel and accommodation where appropriate.

Special Advisers

The Prime Minister (Mr. Tony Blair): Listed below are the names of special advisers in post at 24 July 2006, the special advisers' pay ranges for 2006-07, the number of special advisers in each pay band by department and the total pay bill cost of special advisers for 2005-06.

All special advisers are appointed under terms and conditions set out in the *Model Contract* and *Code of Conduct for Special Advisers* providing assistance on the full range of their appointing Minister's departmental responsibilities. Where a special adviser has a specific expertise or works mainly in a particular area of the department's work this is indicated.

Appointing Minister	Special Adviser in post	Expertise
The Prime Minister	Jonathan Powell	Chief of Staff
	Liz Lloyd	Deputy Chief of Staff
	Ruth Turner	Director of Government Relations
	Matthew Taylor	Chief Adviser on Strategy
	Policy Directorate	
	David Bennett	Head of Policy Directorate
	Conor Ryan	
	Paul Corrigan	
	Geoffrey Norris	
	Philip Collins	
	Justin Forsyth	
	Kieran Brett	
	Strategic Communications & Press	
	David Hill	Director of Communications
	David Bradshaw	
	Hilary Coffman	
	Matthew Doyle	
	Chris McShane	
	Benjamin Wegg Prosser	
	Huw Evans	
	Events & Visits	
	Jo Gibbons	Director of Events, Visits and Scheduling
	Katie Kay	
	Angela Goodchild (p/t)	
	John Watts	
	Victoria Gould	
	Research and Information Unit	
	Catherine Rimmer	
	Katie O'Donovan	
Deputy Prime Minister and First Secretary of State	Joan Hammell	Chief of Staff
	Mick Halloran	
Minister for the Cabinet Office and for Social Exclusion (and Chancellor of the Duchy of Lancaster)	Peter Kyle	
	Anna Turley	
Secretary of State for Communities and Local Government	Julie Crowley	Media and communication
	David Leam	
	Rachel O'Brien	Women and equality
Chief Whip (Commons)	Sue Jackson	
	Simon Benson	
Chief Whip (Lords)	Margaret Ounsley	
Secretary of State for Constitutional Affairs and Lord Chancellor	Garry Hart	
	Philip Bassett	
Secretary of State for Culture, Media and Sport	Nick Bent	
Secretary of State for Defence	Matt Cavanagh	
	Alaina Macdonald	
Secretary of State for Education and Skills	Chris Norton	
	Mario Dunn	
	Clare Montagu	
Secretary of State for Environment, Food and Rural Affairs	Madlin Sadler	
	Tony Grayling	
Secretary of State for Foreign and Commonwealth Affairs	Sheila Watson	
	Ed Mitchell	
	Malcolm Chalmers	Foreign affairs
Minister for Europe	James Connal	
Minister for Trade	Martin O'Donovan	Trade
	Blair McDougall	Communications; human rights

Appointing Minister	Special Adviser in post	Expertise
Secretary of State for Health	Liz Kendall	
	Karen Livingston	
Secretary of State for the Home Department	Steve Bates	
	Justin Russell	
	Anna MacMillan	
Leader of the House of Commons and Lord Privy Seal	Mark Davies	
	Declan McHugh	
Leader of the House of Lords and Lord President of the Council	Joe Dancey	
	Dorothea Hodge	
Secretary of State for International Development	Beatrice Stern	Communications
Secretary of State for Northern Ireland and Secretary of State for Wales	Claire McCarthy	Northern Ireland issues
	Philip Taylor	Northern Ireland issues
	Andrew Bold	Wales issues
	Matthew Burchell	Wales issues
Secretary of State for Scotland and Secretary of State for Transport	Paul Sinclair	Transport
	Iain Gray	Scottish Affairs
Secretary of State for Trade and Industry	Andrew Maugham	
	Sam White	
	Emily Thomas (unpaid)	
Chancellor of the Exchequer[1], [2]	Spencer Livermore	
	Damien McBride	
Chief Secretary	Jonathan Ashworth	
	Jo Dipple	
Secretary of State for Work and Pensions	John Williams	
	John Woodcock	
Minister without Portfolio	Paul Richards	
	Andy Bagnall	

[1] In addition, the Chancellor of the Exchequer has appointed Dan Corry, Paul Gregg, Shriti Vadera, Michael Jacobs, and Stewart Wood to the Council of Economic Advisers on special adviser terms.
[2] Plus Sue Nye appointed as an unpaid adviser.

Pay bands for 2006-2007

The pay bands and pay ranges for special advisers for 2006-07 are as follows:

Scheme Ceiling: £136,500

Pay Band 4: £84,000 to £100,900

Pay Band 3 and Premium: £62,800 to £97,500

Pay Band 2: £49,300 to £65,400

Pay Band 1: £38,100 to £51,100

Pay Band 0: Up to £38,100

Advisers by Pay Band

At 24 July 2006, the number of special advisers in each pay band by department is as follows:

Department	Pay band 0	1	2	3	4
No 10[1]	—	[2]6	2	[2]13	[2]1
Deputy Prime Minister's Office	—	1[2]	—	1	—
Cabinet Office	—	[2]2	—	—	—
Communities & Local Government	—	[2]1	[2]2	—	—
Chief Whips' Offices (Commons and Lords)	—	1[2]	2	—	—
Constitutional Affairs	—	—	—	—	2
Culture, Media and Sport	—	—	1	—	—
Defence	—	1[2]	1[2]	—	—
Education and Skills	—	1[2]	2[2]	—	—
Environment, Food and Rural Affairs	—	—	1[2]	1[2]	—
Foreign and Commonwealth Office (Includes Minister for Europe and Minister for Trade)	1[2]	2[2]	-	3[2]	—
Health	—	1[1]	1[2]	-	—
Home Office	—	1[1]	—	2[2]	—
International Development	—	1	—	—	—
Leader of the House of Commons and Lord Privy Seal	—	[2]1	1	—	—
Leader of the House of Lords and Lord President of the Council	—	[2]2	—	—	—
Secretary of State for Northern Ireland and Wales	—	[2]4	—	—	—
Secretary of State for Scotland and Transport	—	—	1	[2]1	—
Trade and Industry[3]	—	1	1	—	—
HM Treasury[3], [4]	—	1	[2]2	1	—
Work and Pensions	—	1	—	—	[2]1

Department	Pay band 0	1	2	3	4
Minister without Portfolio	—	[2]	—	[2]	—
Total	1	29	17	23	4

[1] Plus three special advisers who are paid beyond Pay Band 4 but within the scheme ceiling.
[2] Includes provisional salaries yet to be agreed.
[3] Plus one unpaid Adviser.
[4] Plus the five members of the Council of Economic Advisers who are employed on special adviser terms (one in Band 4, three in Band 3, and one in Band 1). One of the members of the Council works part time.

Paybill costs

The cost of special advisers in 2005-2006 was £5.9 million[1]

[1] This figure includes salary, severance pay and estimate of pension costs.

House of Lords Appointments Commission

The Prime Minister (Mr. Tony Blair): I have today placed the House of Lords Appointments Commission Annual Report for 2004-05 and 2005-06 in the Libraries of both Houses. I am grateful to the members of the Commission for the report and their valuable work.

Advisory Committee on Business Appointments

The Prime Minister (Mr. Tony Blair): I have today published the eighth report of the independent Advisory Committee on Business Appointments. The report provides an account of the work of the Committee in advising former Ministers and Crown servants on the acceptance of appointments after leaving Crown service. The report covers the period 1 April 2005 to 31 March 2006. Copies of the report have been placed in the Libraries of the House. I am grateful to the Chairman, Lord Mayhew of Twysden, and to the members of the Committee for giving their time and expertise so generously.

SOLICITOR-GENERAL

Public Prosecution Service (Annual Report)

The Solicitor-General (Mr. Mike O'Brien): I have today placed in the Library of the House copies of the first Annual Report of the Public Prosecution Service for Northern Ireland and of its business plan for the coming year.

While the new Service was formally launched in June 2005 it initially only took work from the six police districts that make up the PPS Belfast region. It has, however, been planned from the start as a regional service and the last year has seen good progress in rolling out the Service over the whole of Northern Ireland.

In August 2005 the PPS western and southern region assumed responsibility for the conduct of all youth offences occurring in the Police Service of Northern Ireland's Armagh, Banbridge and Newry and Mourne districts as well as all prosecutions from the five police districts within Fermanagh and Tyrone. A new Lisburn office, serving as headquarters of the PPS eastern region opened in March 2006 and will be fully operational by October of this year when it will add a further six police districts to those already within the PPS structure.

The roll out of the PPS will continue through this year and next and when completed will operate from six regional offices planned for Belfast, Lisburn, Newry, Omagh, Londonderry and Ballymena. This regional approach, with each office having its own regional prosecutor, will encourage local involvement with the service, helping the community understand its work and how it goes about reaching decisions and thereby building public confidence in the criminal justice system. The annual report and business plan is part of this process and will be of interest to anyone with an interest in the Public Prosecution Service for Northern Ireland or in criminal justice generally.

TRADE AND INDUSTRY

Central Government Payment Performance

The Minister for Industry and the Regions (Margaret Hodge): The overall payment performance of Government is 96.87 per cent. Figures for the financial year 2005-06 show that there has been a slight fall compared to last year's figure of 97.09 per cent. Some 54 per cent of Departments improved on their performance of last year.

Government Departments and their agencies are required to monitor their payment performance and to publish the results in their Departmental or annual reports. The table lists, by Department, the proportion of bills paid within 30 days, or other agreed credit period, on receipt of a valid invoice.

The Government take this issue very seriously, and are committed to improving the payment culture in the UK, in order to create fair and stable business transactions. The Government's own payment performance is an important element in this policy.

Main Departments 2005-06	Paid on Time %
Defence Bills Agency (Ministry of Defence)	100
Office of Fair Trading	99.86
Intelligence Agencies (GCHQ)	99.80
Privy Council Office	99.71
Office for National Statistics	99.51
Office for Government Commerce	99.48
Office of Gas & Electricity Markets (OFGEM)	99.46
The National Archives (Public Records Office)	99.31
Health & Safety Executive	99.19
Scotland Office (Department for Constitutional Affairs)	99.11
Office of Water Services (OFWAT)	99.10

Main Departments 2005-06	*Paid on Time %*
Postal Services Commission (PostCom)	98.97
Export Credit Guarantee Department	98.93
HM Revenue & Customs	98.80
Department for Transport	98.71
Charity Commission	98.24
Food Standards Agency	98.18
Office of the Deputy Prime Minister	98.09
Forestry Commission	97.98
Ordnance Survey	97.95
Department for Culture, Media and Sport	97.66
Office for Standards in Education (OFSTED)	97.66
Government Actuary's Department	97.54
Land Registry	97.38
Department for International Development	96.76

Cabinet Office (OPS)	94.06
Central Office of Information	93.17
Foreign & Commonwealth Office	92.96
Serious Fraud Office	91.46
Department for Work and Pensions	89.79
Crown Prosecution Service	88.96
Wales Office (Department for Constitutional Affairs)	88.64
Department for Constitutional Affairs (Lord Chancellor's Department)	88.48
Northern Ireland Office	86.65
Home Office	86.24
National Savings and Investments	85.49
Royal Mint	84.98
Overall Total	96.87

Coal Authority (Annual Report and Accounts 2005-06)

The Minister for Energy (Malcolm Wicks): I have today laid a copy of the Coal Authority report and accounts for 2005-06 before Parliament.

Regional Development Agencies (Annual Report and Accounts 2005-06)

The Minister for Industry and the Regions (Margaret Hodge): I have today laid before Parliament the annual reports and accounts for 2005-06 for the eight Regional Development Agencies (RDAs) outside London. Copies have been placed in the House Library.

The annual report and accounts for London are presented to the Mayor of London rather than to Parliament. I shall provide a copy to the House of Commons Library when it is available.

The Government welcome the contribution that the RDAs have made during this year to driving forward economic development in their respective regions.

Also published today are the RDAs' reported outputs for 2005-06. These results are evidence that the RDAs continue to play a valuable role in improving the economic performance of the English regions and, through working with their partners, the RDAs are making a real difference to the individual regional economies concerned. The figures cover the creation and safeguarding of jobs, the number of people helped to get a job, the amount of brownfield land brought back into use, the number of businesses added to the regional economies, the number of businesses helped to improve their performance, the number of learning opportunities created and the amount of private sector investment attracted benefiting deprived areas, all as a result of RDA activity.

Press releases on the outputs have been issued in each region. Copies of the output results have been placed in the House Library, and are also available on the DTI website at: www.dti.gov.uk/regional/regional-dev-agencies/index.html

TRANSPORT

Journey Times (Urban Areas)

The Secretary of State for Scotland (Mr. Douglas Alexander): In my written ministerial statement of Tuesday 18 July 2006, *Official Report* 18-19WS the Department published new targets for journey times in urban areas. The target included for Merseyside unfortunately used an interim version of Merseyside's target, rather than the final target they adopted. Incorporating the final target has a small beneficial effect on the national journey time target, lowering it by just 0.03 per cent.

The revised success criteria are therefore as follows: the target will be deemed to have been met if, on target routes in the 10 largest urban areas in England, an average increase in travel of 4.4 per cent. is accommodated within an increase of 3.6 per cent. in person journey time per mile.

An updated public service agreement and technical note has been placed on the Departmental website today. Copies have been placed in the Library of the House.

Release of Data from the UK Vehicle Registers

The Minister of State, Department for Transport (Dr. Stephen Ladyman): I am today announcing 14 major new measures to ensure that the release of data from the UK vehicle registers is undertaken in a way that:

Protects vehicle keepers from misuse of their information;

ensures that those who do have reasonable cause can get the data they need;

balances the right to privacy of individuals whose data are held on the register with the need of others to gain proper redress;

is cost effective—in that the costs to all are proportionate to the benefits that the scheme delivers; and

is right in principle and works in practice.

This follows the review that I announced in December last year and the public consultation launched in February this year.

I will give a full update on progress in delivering these new measures in the autumn.

I will continue to scrutinise closely the way in which the scheme operates and how it is used. Should further action be merited, I will ensure that it is taken quickly.

The new measures are as follows:

New Requirements for evidence of 'reasonable cause'

(1) New detailed guidance on what is likely to constitute 'reasonable cause'.

(2) Clarity that behaviour in using data will be considered in judging whether a particular applicant's assertions as to the 'reasonable cause' for his application are to be believed; and in deciding upon whether approved conditional access is granted or maintained.

(3) For all applications where 'reasonable cause' relates to a vehicle left on land without permission or in breach of terms and conditions, evidence is required that the applicant is the landowner or has the permission of the landowner to pursue the vehicle keeper.

(4) For all applications where 'reasonable cause' relates to the pursuit of a penalty charge, evidence is required that a penalty scheme was indeed in place on that piece of land (that is, that there was signage).

New requirements for 'approved conditional access'

(5) Those bodies and companies seeking approved conditional access that do not have an appropriate regulatory body are required to be current members of an 'accredited' trade association. Part of the process for 'accrediting' trade associations will include ensuring that there is a clear and enforced code of conduct (for example relating to conduct, parking charge signage, charge levels, appeals procedure, approval of ticket wording; and appropriate pursuit of penalties–that is, approach by letter only and county court action only to permit a house call).

(6) Organisations that do not comply with the terms of the accredited trade association will be expelled and without valid membership of another accredited trade association will lose their approved conditional access. Trade associations that do not police the conditions of membership adequately will lose their accreditation.

(7) All those seeking approved conditional access will be required to serve a 'probationary' period of six months or, if longer, for the period of time it takes to make 20 requests— during which all requests should be made on a case by case basis.

New Measures to ensure awareness of the vehicle keeper

(8) That all those who receive data, as evidence of their 'reasonable behaviour' and as a condition of 'approved conditional access', include in any correspondence with the keeper a leaflet or statement advising them of:

The 'reasonable cause' which formed the basis of the request;

the 'complaints' procedure by which a data subject can notify both DVLA and the Information Commissioner if they believe their data have been used inappropriately;

the appeals procedure (for the regulatory body) if they feel that, for example, a parking charge notice has been issued incorrectly.

And that this information is also placed on the DVLA web site.

(9) That DVLA maintain on its web site a list of organisations and companies who have requested data and the reasons for their request.

(10) That a reference to the location on the DVLA website of guidance and advice and all other information relating to the release of vehicle keeper data are included on all DVLA documentation sent to the vehicle keeper—including the annual VED reminder.

New Auditing Procedures and action to combat misuse or complaints

(11) A rolling 3-year programme of audit check including targeted checks on those where concerns have been raised:

(12) A clear set of procedures where such concerns are raised:

An audit is triggered by complaints of substance representing a disproportionate level of granted requests or any complaint of a serious nature if following implementation of the audit recommendations a disproportionate level of complaints of substance are received an organisation with approved conditional access will be required to submit requests on a case by case basis; if it is already subject to request on a case by case basis it will be subject to additional scrutiny of each request it m[illegible]

if a disproportionate level of further complaints of substance are received and a company is found to be consistently using data inappropriately or a serious complaint of abuse of the system by an applicant is substantiated then there is a distinct possibility that we will not believe the applicant to have reasonable cause upon a future request and, if so, data release would then be declined in that case.

New Complaints Procedures

(13) A clear procedure by which data subjects can notify DVLA if they feel that their data have been used inappropriately and take steps to draw this to the attention of vehicle keepers by including information in paperwork sent to them and on the DVLA website. This will include information of how they can notify the Information Commissioner of the misuse of their data.

(14) Complaints received will form part of the evaluation of whether an applicant's assertion of 'reasonable cause' is valid.

WORK AND PENSIONS

Agency Reports and Accounts (2005-06)

The Secretary of State for Work and Pensions (Mr. John Hutton): I am pleased to announce that the Department for Work and Pensions has today laid the 2005-06 annual reports and accounts for three of its executive agencies: Child Support Agency (HC1402), the Disability and Carers Service (HC1336) and the Appeals Service (HC1542). Copies are available in the Printed Paper Office and the Vote Office.

Publication of the Jobcentre Plus annual report and accounts has been delayed until after the summer recess.

Financial Assistance Scheme

The Minister for Pensions Reform (James Purnell): On 6 June I wrote to Members to advise them that I had commissioned a review of the administration of the financial assistance scheme and would report the outcome before the summer recess. In particular I was concerned about ensuring that all eligible people receive payments as quickly as possible; that we ensure the most cost efficient operation; and that we examine a full range of options for the appropriate organisational location of the operations.

Today I have placed copies of the findings of the review in the Library. These show that obtaining data from trustees is the key to making payments and highlight the need to significantly strengthen the skills within the financial assistance scheme operations needed to obtain this data, concluding that this can best be achieved through an injection of skills from the private sector or the pension protection fund. These skills can best be managed from within DWP.

The review has also identified the scope for some operational efficiencies and more detailed work will be undertaken to establish optimum staffing levels. In addition, it has concluded that the long term governance of the Operational Unit is best placed in the Pension Service. Overall we expect these changes to increase the speed at which people receive help from the scheme.

I have now commissioned work to implement the findings and will update on implementation in the autumn.

I am also pleased to announce that today we have published the draft Financial Assistance Scheme (Miscellaneous Amendments) Regulations 2006. These regulations will bring into effect the extension to the financial assistance scheme announced in the White Paper on pension reform on 25 May. We will be consulting on the draft regulations over the next eight weeks and will publish a response to the consultation along with the final version of the draft regulations. Copies of the draft regulations and consultation document have been placed in the Library and can also be found on the FAS website at www.dwp.gov.uk/fas.

Written Ministerial Statements

Tuesday 25 July 2006

COMMUNITIES AND LOCAL GOVERNMENT

Validation of Planning Applications

The Parliamentary Under-Secretary of State for Communities and Local Government (Meg Munn): Today I have launched a consultation on the requirements for local authority validation of planning applications. This follows on from an earlier consultation on proposals for a standard application form.

The consultation proposes that there is a core and mandatory list of national requirements for applicants to comply with in submitting a planning application, which is to be supplemented by a list of local authority requirements. These local requirements must be consulted on by the local authority prior to being published on their website. The Department for Communities and Local Government (DCLG) intends to publish guidance for local authorities on what the local lists should contain, and will also make clear that there are a number of national requirements on applicants to provide information on such areas as flooding, and land contamination. The proposals provide that where an application does not meet the published national requirements and locally consulted on requirements, the authority will not be required to validate it.

The consultation is linked with the development of the standard application form, and the proposals are intended to complement the streamlining and efficiency benefits that will result from there being a single national form.

The consultation period ends on 30 September 2006. Any proposed legislative changes would be brought in by April 2007, and local authorities would have to adopt these by July 2007, the date on which the standard application form would become mandatory.

The consultation paper has been published on the DCLG website at http://www.communities.gov.uk/index.asp?id=1017165 and a copy of the paper has been placed in the Library of the House.

Homelessness Code of Guidance for Local Authorities

The Minister for Housing and Planning (Yvette Cooper): Today we have published a revised edition of the Homelessness Code of Guidance for Local Authorities. The revised code is issued jointly by the Secretary of State for Communities and Local Government and the Secretaries of State for Health and for Education and Skills, and will replace the current guidance (issued in July 2002) with effect from 4 September.

The code provides clear statutory guidance on how local authorities should carry out their homelessness functions and will assist authorities in providing appropriate and effective responses to homelessness and potential homelessness. It also complements other forms of advice, guidance and best practice which have been produced to help local authorities strengthen the services they provide to help people avoid homelessness, wherever possible.

The revised code strengthens the guidance on dealing with vulnerable groups, including people fleeing violence and families with children. It also includes stronger guidance on preventing homelessness, on providing a wide range of housing options, and limiting the use of bed and breakfast accommodation.

Copies of the revised Homelessness Code of Guidance for Local Authorities are being made available in the Libraries of both Houses. Copies will also be available free of charge from the Department for Communities and Local Government and the guidance can also be accessed through the Department's website at: http://www.communities.gov.uk/index.asp?id=1501614

CONSTITUTIONAL AFFAIRS

Human Rights Act

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My right hon. and noble Friend the Secretary of State and Lord Chancellor made the following written ministerial statement:

"I have today placed in the Printed Paper Office, the Vote Office and the Libraries of both Houses copies of the Review of the Implementation of the Human rights Act. The review was commissioned by the Prime Minister. It considers the impact of the Human Rights Act on UK law, the impact upon policy formulation by Government, the myths and misperceptions that have grown up around the Act and proposals for the way forward.

The Government remain fully committed both to the European Convention on Human Rights and to the way effect is given to it in the UK by the Human Rights Act. As shown in the review, the Human Rights Act has had a significant, but beneficial, effect upon the development of policy by central Government.

The Government will take forward a number of actions to address areas of concern highlighted by the review. The Government are conducting a thorough review of how police, probation, parole and prison services balance public protection and individual and collective rights and, if necessary, will legislate to ensure that public protection is given priority. Other initiatives include a major push for the provision of better and more consistent guidance and training on human rights within Departments; and a proactive, strategic and co-ordinated approach to human rights litigation, so that it has the maximum possible impact on future case law under the Human Rights Act. The Government will also lead a drive to ensure that the public s well as the wider public sector are better informed about the benefits which the Human Rights Act has given everyone in the UK."

Draft Tribunals, Courts and Enforcement Bill

The Minister of State, Department for Constitutional Affairs (Ms Harriet Harman): My noble Friend the Parliamentary Under-Secretary of State (Baroness Ashton) had made the following written ministerial statement:

I am pleased to announce today publication of the draft Tribunals, Courts and Enforcement Bill. Copies of the draft Bill, explanatory notes and accompanying regulatory impact assessments are being placed in the Libraries of both Houses and on the DCA's website.

The main effects of the Bill are to:

Create a new, simplified, statutory framework for tribunals to provide coherence and enable future reform;

Unify the tribunals judiciary under a senior president;

Amend the existing threshold criteria for eligibility for appointment to judicial office in order to enable a wider range of applicants to apply;

Unify the law relating to enforcement by seizure and sale of goods, including power of entry to premises;

Allow creditors with claims in the civil courts to be able to enforce their judgments more effectively; and;

Introduce a package of measures to help those who are willing and able to pay off their debts over time and a new personal insolvency procedure for those who have fallen into debt but have nom foreseeable way out of it.

The Government intend to introduce the Bill as soon as parliamentary time allows.

FOREIGN AND COMMONWEALTH OFFICE

Independent Monitor for Entry Clearance Refusals Without the Right of Appeal

The Secretary of State for Foreign and Commonwealth Affairs (Margaret Beckett): I have today placed in the Library of the House copies of the annual report by Fiona Lindsley, the independent monitor for entry clearance refusals without the right of appeal.

Decisions taken in the calendar year 2004 were under review. Ms Lindsley's report raises a number of interesting proposals as to how we may improve our entry clearance operation world-wide and we are committed to doing this.

I wish to express my thanks to Ms Lindsley for her hard work in completing this, her third and final report as independent monitor for entry clearance matters. Ms Lindsley's contract as independent monitor has now ended and she has been succeeded by Mrs. Linda Costelloe Baker, whose first report covering decisions made during 2005 will be published later this year.

Hong Kong

The Minister for Trade (Mr. Ian McCartney): The latest report on the implementation of the Sino-British Joint Declaration on Hong Kong was published today. Copies have been placed in the Library of the House. A copy of the report is also available on the Foreign and Commonwealth Office website www.fco.gov.uk The report covers the period from 1 January to 30 June 2006. It includes a foreword by my right hon. Friend the Foreign Secretary. I commend the report to the House.

Cyprus: Export Licensing Policy

The Minister for Europe (Mr. Geoffrey Hoon): The Government have reviewed the application of our arms export licensing policy for Cyprus. We currently assess all export licence applications against the consolidated criteria as well as the policy restriction imposed in 1997 on exports to military forces on the island. We have determined that the consolidated criteria alone will be sufficient in assessing future export licence applications for Cyprus.

We will continue to scrutinise the export of military equipment to Cyprus with the same rigour, applying strict controls on a case-by-case basis with due regard to security on the island and stability in the region, and in accordance with the relevant UN Security Council Resolutions. We will no longer have regard to the EU common embargo list in assessing licence applications to Cyprus.

LEADER OF THE HOUSE

Senior Salaries Review Body (SSRB)

The Leader of the House of Commons (Mr. Jack Straw): In 1996 the independent Senior Salaries Review Body (SSRB) recommended that parliamentary pay, allowances and pensions should be reviewed every three years starting in 2000. In line with this recommendation, my right hon. Friend the Prime Minister, has written to John Baker, the Chairman of The Review Body, in the following terms:

Terms of the review

"I understand that the Senior Salaries Review Body is ready to undertake the triennial review of parliamentary pay and allowances;

You will be aware of recent statements by the Chancellor of the Exchequer and the Chief Secretary to the Treasury on public sector pay restraint and the underlying rate of inflation. I am sure that the review body will wish to take account of this important context in its deliberations.

I am writing to confirm that the Government would like to see the following areas covered in your report:

(a) The salaries of Members of the House of Commons taking into account the benefits of the parliamentary pension scheme;

(b) the salaries of Ministers and other office holders, including those with additional responsibilities in Parliament, and the operation of severance pay;

(c) aspects of the benefits and funding of the parliamentary contributory pension fund;

(d) an appropriate approach to the annual increase to parliamentary salaries between triennial reviews to replace the current automatic link to the senior civil service given the changing recruitment and retention strategy for senior staff;

(e) the rate of allowances for Members of the House of Commons, including eligibility for the additional costs allowance and the London supplement, and the operation of the resettlement grant in the light of forthcoming age discrimination legislation;

(f) the rate of peers' expenses allowances; and

(g) the extension to unmarried partners of eligibility to spouses' travel costs, and to cover travel to devolved assemblies for Scottish, Welsh and Northern Ireland MPs.

I should also be grateful for your recommendations on the adequacy of the current provision of IT equipment for Members both in the House of Commons and in their constituencies.

I look forward to receiving your recommendations next year."

The review will also take into account the recent appointment of the Lords Speaker.

Consultation with Members of Parliament

As previously outlined to the House following the last triennial review, the SSRB will be pro-active in seeking contributions from each Member of Parliament. The SSRB will write to Members of Parliament in due course.

Contacting the SSRB

Not withstanding this, Members who have views should submit their comments to the SSRB by early December 2006 at the following address:

Alan Dawson
Senior Salaries Review Body
The Office of Manpower Economics
6th Floor
Kingsgate House
66-74 Victoria Street
London, SW1E 6SW

Alternatively, those Members of Parliament who have comments can email the secretariat to the SSRB. Please contact: alan.dawson@dti.gsi.gov.uk

NORTHERN IRELAND

Causeway Project

The Minister of State, Northern Ireland Office (Mr. David Hanson): The Government have received a report from the Chief Inspector of Criminal Justice in Northern Ireland, Mr. Kit Chivers. The report, "The Causeway Project: A Short Inspection", has today been published.

The Government warmly welcome this report, and thank the chief inspector and his team for the evident care and reflection which has gone into producing this work. The criminal justice organisations are actively considering the report and have already taken some actions in line with the recommendations.

Copies of the chief inspector's report have been placed in the Library.

Community-based Restorative Justice

The House will recall that in December 2005, I published for consultation draft guidelines setting out a proposed framework regulating the community-based restorative justice schemes that are currently operating in Northern Ireland.

That period of consultation afforded the opportunity for all interested parties to make their views known to Government and generated responses from 56 organisations and individuals across the statutory and voluntary sectors as well as from members of the public. The consultation revealed general support for restorative justice as a concept but highlighted serious concerns about the way in which some key aspects of schemes might operate. It was clear from the strong criticisms that the draft guidelines did not get it right and so today I am publishing a robust new protocol to address those concerns.

The Government have always been clear that where community-based restorative justice schemes operate they must be part of the criminal justice system and must not act, or be perceived to act, as an alternative to the existing policing structures. Society would not tolerate officially approved schemes becoming a tool for local paramilitary control and neither will the Government.

The regulation of community-based restorative justice in Northern Ireland was a key recommendation of the Criminal Justice Review which itself was central to the Good Friday Agreement.

I have today published that revised framework which I have renamed a "Protocol for Community-based Restorative Justice Schemes" to affirm its status, not simply as guidelines, but as a document which requires full compliance by all participants and which effectively sets a 'gold standard' for schemes. I have placed a copy of the protocol in the Library of the House.

The protocol contains a number of important changes which will, I believe, substantively address the four keys issues of concern raised by respondents during the consultation. Those concerns centred on: the ability for schemes to use third parties to distance themselves from direct engagement with the police; arrangements for determining the suitability of persons working in schemes; the need for a robust independent complaints mechanism; and the need to set demanding standards for schemes underpinned by an effective inspection regime.

As a consequence of those concerns I have:

Removed the provision for schemes to report offences to the Police Service of Northern Ireland through a third party. The protocol now requires that schemes engage, and have a direct relationship, with police on all matters governed by the protocol. The centrality of the police to the way in which schemes operate is non-negotiable.

Agreed arrangements for a panel, comprising representatives of relevant statutory bodies, to determine the suitability of individuals to work in posts governed by the protocol. The panel will consider criminal records and other pertinent information provided by statutory agencies, including the police, in determining the suitability of any individual in accordance with published criteria contained in the protocol.

Agreed with the Probation Board for Northern Ireland that they will establish an independent complaints mechanism for victims and offenders who may have cause to raise concerns about how a scheme has handled their case.

Ensured that the new protocol sets exacting standards which schemes must meet to achieve accreditation, with continued compliance tested by a rigorous, regular and unannounced inspection regime undertaken by the Criminal Justice Inspectorate who shall publish their inspection reports.

The protocol would establish the relationship between schemes and the criminal justice system in dealing with low-level criminal offences and offenders and, by definition, govern cases which have both achieved the criminal threshold and been deemed suitable by the Public Prosecution Service for referral for a restorative disposal. While the protocol cannot therefore formally extend to schemes' other activities, as part of the inspection regime records on non-criminal cases handled by schemes will be examined to help ensure that all cases attaining the criminal threshold have been referred to the police. Schemes which achieve accreditation will, as organisations, have demonstrated the attainment of the high standards required in the protocol which I expect to see reflected in all aspects of their activities.

Due to the significant nature of the changes I want to allow for a further period of consultation on the new protocol, which will run in parallel with an Equality Impact Assessment to explore the potential for any of its measures to adversely impact on equality of opportunity for any of the nine categories set out in section 75 of the Northern Ireland Act 1998. This will be launched shortly and will involve a 12-week public consultation period.

It has never been a direct corollary that schemes which sigh up to the protocol will receive NIO funding. However I expect that accredited schemes meeting the exacting standards set out in the protocol should be in the best position, where they meet the appropriate grant criteria, to apply for funding from whatever statutory or charitable sources are currently available to them. Conversely any scheme which does not sign up to them will not receive any funding whatsoever from Government for community-based restorative justice.

I hope that the revised protocol can provide an effective way forward but I am keen to hear the views of all the stakeholders and interested parties during the consultation period.

PRIME MINISTER

Armed Forces Pay Review

The Prime Minister (Mr. Tony Blair): I am pleased to announce that I have reappointed Professor David Greenaway as chairman of the Armed Forces' Pay Review Body for a second three-year term, commencing March 2007. The reappointment has been conducted in accordance with the office of the Commissioner for Public Appointments' guidance on appointments to public bodies.

SOLICITOR-GENERAL

Fraud Review

The Solicitor-General (Mr. Mike O'Brien): My right hon. Friend the Attorney-General has made the following written ministerial statement:

"The final report of the fraud review was published yesterday and I have placed copies in the Libraries of both Houses. The Government are issuing it for consultation and seeks responses by 27 October 2006.

The report outlines current arrangements for dealing with fraud, identifies gaps and shortcomings in the system, and makes recommendations for dealing with them. The recommendations are wide ranging and are aimed at improving fraud deterrence, prevention, detection, investigation, prosecution, and penalties. Benefits will include reduction of fraud losses to taxpayers, consumers and businesses and a reduction in the harm that fraud causes to individuals and communities.

The Government accept the analysis of the report and is sympathetic to the broad conclusions and recommendations; but we believe the report would benefit from a wider public consultation. Implementation of the recommendations will be considered in the light of consultation responses and after further evaluation of the funding and legislative implications."

TRADE AND INDUSTRY

Facilities Research Council

The Parliamentary Under-Secretary of State for Trade and Industry (Jim Fitzpatrick): My noble Friend the Minister for Science and Innovation (Lord Sainsbury of Turville) has made the following ministerial statement:

"The Government announced on 22 March 2006 a consultation on a proposal to create a Large Facilities Council. The consultation was announced in the document Science and Innovation Investment Framework 2004-2014: Next Steps, and the Government asked for responses on two principal questions as follows:

The Government would welcome views on whether all large facilities operations should be integrated under a new Large Facilities Council, or whether there is a case for some facilities to remain under the management of other Research Councils.

Furthermore, in the event of a merger, should the grant-giving functions of the Particle Physics and Astronomy Research Council (PPARC) be moved to the Engineering and Physical Sciences Research Council (EPSRC)?

Following this consultation, which closed on 16 June, the Government have decided to create a new Large Facilities Council by merging the current responsibilities of the Particle Physics and Astronomy Research Council (PPARC), and the Council for the Central Laboratory of the Research Councils (CCLRC). PPARC's grant-giving functions will not be transferred to the Engineering and Physical Sciences Research Council (EPSRC). Responsibility for nuclear physics will be transferred from EPSRC to the new Council. The Government aim to set up the new Council so that it can take on its new functions by 1 April 2007".

Waste Electrical and Electronic Equipment Directive

The Minister for Energy (Malcolm Wicks): I have today published a consultation document on the Government's proposals to implement the waste electrical and electronic equipment directive (the WEEE Directive).

The Government are firmly committed to sustainable development and recognises that effective implementation of the WEEE directive has a key role to play in achieving this goal. Electrical and electronic equipment is the fastest growing category of waste across the European Union, with an estimated 17 to 20 kg per person produced every year. The UK alone generated around 1 million tonnes of WEEE last year. By ensuring that WEEE is treated, recycled and disposed of to high environmental standards as required by the directive, we protect the environment and human health from the risk of hazardous contamination.

The proposals published today follow on from the implementation review announced last December, and have been developed through extensive consultation with companies and other interested parties who will be directly affected by the new regulations. They represent a balance of controls needed to identify and discourage free-riders and give companies the freedom to find the most cost-effective routes to meet their obligations.

The intention is, subject to the outcome of public consultation, that the directive should be transported into UK law early in 2007, leading to full implementation on 1 July 2007.

The consultation document will be placed on the DTI website so that it is available to the wider public. The consultation period will run for 12 weeks, with a closing date for comments of 17 October 2006. Copies of the consultation document have been placed in the Libraries of both Houses.

Unfair Terms in Contracts

The Minister for Trade (Mr. Ian McCartney): The Law Commission and the Scottish Law Commission published a report on unfair terms in contracts in February 2005 (Law Com No. 292; Scots Law Com no. 199). It set out detailed recommendations, together with a draft Bill designed to produce a unified regime replacing the Unfair Contracts Terms Act 1977 and the Unfair Terms in Consumer Contracts Regulations 1999 for the whole of the UK in a way that is much clearer and easier to follow, and also addressed some gaps in protection that the Commissions identified. I am grateful for the Law Commissions' detailed and comprehensive report and for their extensive consultations on the issues involved, and appreciate their commitment to this project.

This project was undertaken jointly by the Law Commissions at the request of both the Department of Trade and Industry and the then Lord Chancellor's Department—now the Department for Constitutional Affairs. The Government have carefully considered the Law Commissions' report and are content in principle to accept the recommendations for reform. This acceptance is subject to further consideration of the detail of the issues, and to further work to identify potential cost impacts. The proposed legislation will be subject to full public consultation.

Written Ministerial Statements

The following statements were received between Monday 4 September and Friday 8 September 2006

CABINET OFFICE

Publication of Public Bodies Directory

The Parliamentary Secretary, Cabinet Office (Mr. Pat McFadden): I am pleased to announce that the 2006 version of the "Public Bodies Directory" has now been completed and copies of the directory are available in the Library for the Reference of Members. The directory provides information on individual public bodies as at 31 March 2006. The directory is also accessible at: http://www.civilservice.gov.uk/other/agencies/public_bodies/index.asp. This shows that at 31 March 2006 there was a reduction of 28 long-term public bodies since the same date in 2005.

The directory lists the public bodies sponsored by central Government, with contact details, information about their remit and about the membership of their boards. It also introduces a new category within the public bodies classifications; Public Broadcasting Authorities. This recognises the unique governance arrangements pertaining to the BBC and S4C, which set them apart from other non-Departmental bodies and public corporations.

The board membership figures are broken down between male and female members for individual bodies, and summaries are provided at departmental level for the proportions of board members who are women, have declared they have a disability or come from a minority ethnic background. There have been small increases in all categories. As at 31 March 2006, 35.5 per cent. of appointments made were women (up 0.5 per cent. on the position at 31 March 2005), 5.9 per cent. were members of ethnic minority groups (up 0.4 per cent.) and 5.1 per cent. were to those declaring a disability (up 0.8 per cent.).

A cross-Government summary of individual Departments' figures will be placed on the public appointments website at: www.publicappointments.gov.uk. This reinforces the Government's commitment to continue to pursue its diversity objectives and to promote outreach activity and plans.

The directory also includes information about the Government's Task Forces, Ad-hoc Advisory Groups and Reviews, giving a more complete picture of the bodies and groups working to deliver the Government's objectives.

Social Exclusion Action Plan

The Minister for the Cabinet Office (Hilary Armstrong): Today we are publishing the "Social Exclusion Action Plan".

We have much to be proud of in our efforts to tackle poverty, promote social justice and create the right environment for sustained economic growth.

However, a consequence of this success is that the more modest progress of some specific groups within our society has become more apparent.

This Action Plan is the first step towards changing that. It aims to create the conditions to allow everybody to accept opportunity, reach their full potential and play their full part in society.

This Action Plan marks a new direction for the Government's social exclusion policy. It commits us to:

Better identification and early intervention: We will identify early who is at risk of persistent exclusion and use this information to more effectively intervene and support those most in need, and before disadvantage becomes entrenched.

Identifying what works: We will systematically identify and promote interventions that work. To ensure effective adoption of best practice, we will build the capability of providers and commissioners.

Multi-agency working: We will break down barriers and enhance flexibility so local providers and agencies can work together to meet the needs of excluded groups, especially those facing multiple problems.

Personalisation, rights and responsibilities: We will tailor services to the needs of the individual. We will empower, where it is appropriate, excluded groups to make choices on their own behalf or ensure there is an independent, trusted third party to work on their behalf. Our approach will be framed by a clear understanding of the rights and responsibilities of citizens, services and the community.

Supporting achievement and managing underperformance: Where local authorities and services are delivering, Government will leave them alone. But where there is underperformance, Government will intervene.

The Action Plan outlines how these principles will be applied or piloted for excluded groups throughout the lifetime—during the early years, the childhood years and the adult years. Implementing more focused and immediate interventions will supplement and inform deeper systemic reform.

Copies of the Action Plan have been placed in the Library for the reference of Members.

COMMUNITIES AND LOCAL GOVERNMENT

Ordnance Survey Agency Performance Monitors

The Parliamentary Under-Secretary of State for Communities and Local Government (Angela E. Smith): The following performance targets have been set for Ordnance Survey in 2006-07:

Ordnance Survey will report externally against a set of Agency Performance Monitors (APMs) as required of all Executives Agencies in Government:

1. To achieve an operating profit before interest and dividends of £4.5 million for the financial year 1 April 2006 to 31 March 2007.

2. Some 99.6 per cent. of significant real world features are represented in the database within six months of completion.

3. To continuously improve the timeliness of the supply of our data to customers with a success rate not lower than 96 per cent.

4. To reduce carbon emissions from Ordnance Survey Headquarters by 28 per cent. against the base year of 2000-01.

5. To achieve an increase of at least 5 per cent. in business with customers transacted through our Ordnance Survey Options and Ordnance Survey Leisure map shop e-channels.

These targets reflect Ordnance Survey's continuing commitment to customers, improved value for money for all of its stakeholders and commitment to Government policies.

DEFENCE

Iraq Roulement - Theatre Reserve Battalion

The Secretary of State for Defence (Des Browne): On 18 July in a written ministerial statement I confirmed the details of the force package for the next routine roulement of UK forces in Iraq in November when the lead UK formation, currently 20 Armoured Brigade, will be replaced by 19 Light Brigade. I would now like to confirm some of the details of preparations for this roulement. As for previous roulements, elements of the Theatre Reserve Battalion, currently the 2nd Battalion, the Royal Regiment of Fusiliers, will be deployed to provide additional security during what is always a period of intense activity for UK forces. There will also be some additional support aimed at contributing to improving security in Basra city.

In total this involves approximately 360 additional personnel. They will begin deploying shortly and complete their work not later than January 2007.

This is a critical period for the Iraqi people and their Government. There is an opportunity to improve significantly the security situation in Basra city—building on, and reinforcing, recent progress in Baghdad. Improved security in Basra will create the conditions for the important civil development work being led by the UK's Provincial Reconstruction Team. Therefore I have agreed that the deployment of troops from the Theatre Reserve Battalion, while strictly time limited, should on this occasion be brought forward and extended by a short period. In addition, I have also authorised the deployment of Royal Engineers to assist with reconstruction and countering the threat from improvised explosive devices, a Royal Marine boat troop to assist in tightening security on the Shatt Al Arab waterway, and a troop of Royal Military Police to augment our training of the Iraqi Police.

We ask our servicemen and women to discharge difficult and dangerous tasks. But over the next few months, through security operations and civil development projects, we have a key opportunity to make improvements to the lives of the people of Basra and lay the foundations for the departure, once the conditions are right, of coalition forces from front line roles in Iraq.

EDUCATION AND SKILLS

Annual Uprating of Loans, Grants and Fees for Higher Education Students

The Minister for Higher Education and Lifelong Learning (Bill Rammell): The level of support for loans, grants and fees that will be available to eligible students in the 2007-08 academic year will be 2.33 per cent. higher than for 2006-07, in line with forecast price increases.

For students who have entered higher education on or after 1st September 2006, and are being charged variable fees, the maximum fee payable will increase from £3,000 to £3,070 in 2007-08. The increase to the fee will be matched by a corresponding increase to the loan for fees that students can take out.

For students who are not being charged variable fees (primarily students who entered higher education before 1 September 2006), the maximum fee payable will increase from £1,200 to £1,225.

The increased fee amounts have been authorised by the Student Fees (Amounts) (England) (Amendment) Regulations 2006, which will come into force on 1st September 2007.

I am placing a memorandum in the Library giving details of all the increased loan, grant and fee rates for 2007-08. These rates are being incorporated in the Education (Student Support) Regulations 2007, which will be laid before Parliament in due course.

EDUCATION AND SKILLS

Independent Advisory Group on Teenage Pregnancy - 4th Annual Report 2005-06

The Minister for Children and Families (Beverley Hughes): I would inform the House that the Independent Advisory Group on Teenage Pregnancy has published its Annual Report for 2005-06. Copies will be placed in the Libraries of both Houses.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Veterinary Laboratories Agency - Performance Targets 2006-07

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw): In my written ministerial statement of 16 May I set out the Performance Targets for the Veterinary Laboratories Agency for 2006-07. The third target listed under Service Delivery in that statement should have had the figure of 80 per cent. rather than 75 per cent. That and all other targets are set out again below.

Service Delivery

1. To meet 85 per cent. of Rationale, Objectives, Appraisal, Monitoring and Evaluation (ROAME) milestones together with evidence of significant progress towards an outcome based measure of research projects.

2. To achieve 85 per cent. of surveillance deliverables to time.

3. To achieve a score of at least 80 per cent. satisfaction in the VLA customer satisfaction survey.

Financial

4. To achieve full cost recovery.

Efficiency

5. To deliver 2.5 per cent. efficiency savings.

Quality

6. Maintaining current third party certifications and accreditations.

7. To achieve ISO14001 certification for the regional laboratories.

Safety

8. To implement the VLA safety plan 2006-07 to timescales indicated in the Business Plan.

Further details are given in the VLA Business Plan for 2006-07 a copy of which has been provided to the Library of the House.

FOREIGN AND COMMONWEALTH OFFICE

UK Nominations to the Economic and Social Committee

The Minister for Europe (Mr. Geoffrey Hoon): The Government have submitted to the EU Council Secretariat details of the United Kingdom's 24 nominees for membership of the Economic and Social Committee. The Government have made these nominations on the basis of a fair and transparent selection process to ensure the UK delegation reflects the social and economic diversity of the United Kingdom.

The present four-year term of the ESC ends in September 2006. The UK divides its 24 members equally between Group I (Employers), Group II (Employees) and Group III (Other Interests).

The ESC is a consultative body, which produces Opinions for the Council of Ministers on draft legislation. Additionally the Committee can produce its "Own Opinion" on any other economic or social issue.

The UK has 24 full members in the ESC from a current total membership of 317. There are eight UK members in each of the three groups.

The nominees are:

Employers (Group I)

1. Kenneth Fraser
2. Peter Morgan
3. Madi Sharma
4. Bryan Cassidy
5. Jonathan Peel
6. David Sears
7. Brendan Burns
8. Brenda King

Employees (Group II)

9. Christine Blower
10. Sandy Boyle
11. Marge Carey
12. Peter Coldrick
13. Nicolas Crook
14. Brian Curtis
15. Judy McKnight
16. Monica Taylor

Other Interests Group (Group III)

17. RoseD'Sa
18. Maureen O'Neill
19. Michael Smyth
20. Jane Morrice
21. Richard Adams
22. Sukhdev Sharma
23. Tom Jones
24. Derek Osborn.

The 2005 Annual Report on Strategic Export Controls

The Minister for the Middle East (Dr. Kim Howells): The 2005 Annual Report on Strategic Export Controls will be published at 1100 today as a Command Paper. Copies will be placed in the Library of the House. The report describes UK policy and international developments in export control regimes, as well as information on export licensing decisions taken during 2005.

The Annual Report on Strategic Export Controls is an innovation of this Government. This report, the ninth Annual Report (the first report was published in 1997) is a step away from the traditional reports of the past. Our export licensing system is one of the most rigorous and transparent regimes in the world and the Annual Report—in this new format—symbolises our continued commitment to accountability and transparency by presenting detailed information in a more modern and user friendly format. This year, due to the increasing volume of information on strategic exports that is being published by the Government, all the statistical data that were historically published only in hardcopy are now made available on a CD ROM which accompanies the report. Since 2004 the Government have also produced detailed Quarterly Reports available on the Internet—ensuring that the UK provides some of the most open and timely export licensing information available anywhere. The new CD ROM includes the Quarterly Reports for 2005, as well as more consolidated data, information on licence refusals and fuller information on trade control (trafficking and brokering) licences issued during 2005. The complete report will be available on the Foreign and Commonwealth Office web site and also published through The Stationery Office.

INTERNATIONAL DEVELOPMENT

East Africa - Humanitarian Update

The Secretary of State for International Development (Hilary Benn): At the beginning of this year the UN judged that 8.2 million people in East Africa and the Horn were in need of urgent humanitarian assistance, mainly food aid, following the worst drought for a decade. Since then approximately 490,000mt of food aid has been delivered to respond to these needs. Additional assistance has been provided in the form of emergency medical and nutritional relief, water and sanitation, shelter and other forms of relief. The UK has provided approximately £55 million or $103.9 million towards this. Overall the international donor community have provided over $660 million towards the relief effort.

The long rains in the early and mid part of 2006 have led to improvements in most areas. Unfortunately, most notably in Ethiopia, flooding has brought its own tragedy as over 600 people have died and more than 150,000 have lost their homes or been affected in one way or another. Most recently DFID has made available a further £6 million for humanitarian assistance in Kenya, where malnutrition rates remain high and current season harvest assessments present a very mixed picture. In Ethiopia we have provided £1 million for urgent relief to flood-affected people.

Humanitarian assistance is still needed to address the urgent medical and nutritional needs of the most seriously sick and malnourished, and to meet other basic needs, including clean water, to the reduce risks of death and disease. Basic humanitarian indicators remain worrying, but we expect that the steps taken by relief agencies have mitigated what might have been more serious consequences, such as widespread mortality and displacement. We are closely monitoring the situation.

Assistance is also being provided in an effort to improve productive capacity by investing in livestock or other farming inputs such as seeds, tools and livestock vaccinations. However, it remains a challenge to achieve sustained benefits for the poorest and most vulnerable communities. In Ethiopia we are leading supporters of a productive safety nets programme to tackle chronic hunger; we are working on the development of a similar programme in Kenya. It is also important to note that substantial risks remain from conflict in the region, and we are working closely with the international community to promote peace and stability as a prerequisite to finding long term solutions to persistent humanitarian crises.

India - Reproductive and Child Health

The Secretary of State for International Development (Hilary Benn): I have approved support of £252 million over five years for the second phase of the Government of India's nationwide Reproductive and Child Health Programme. DFID will disburse £10 million in financial assistance plus a further £700,000 in technical assistance in 2006-07. Thereafter, annual disbursements will be subject to satisfactory reports on progress.

This programme will support the Government of India in tackling India's huge burden of maternal and infant mortality. One fifth (136,000) of all maternal deaths in the world, and one quarter (1.8 million) of all infant deaths occur in India. Globally we will not reach the Millennium Development Goals to reduce these deaths unless we succeed in India. The Reproductive and Child Health Programme is the Indian Government's single biggest response to meet this challenge. The programme aims to reduce the Maternal Mortality Ratio from 407/100,000 live births in 1998 to 100/100,000 in 2015, and the Infant Mortality Rate from 70/1000 live births in 1998 to 30/1000 in 2015. If the programme achieves all its targets, over one million lives will be saved each year.

The programme will introduce new measures to tackle concerns about procurement irregularities in the first phase of the Reproductive and Child Health Programme, which was not funded by DFID. An action plan will help strengthen competitive tendering procedures and increase transparency for the purchasing of drugs and equipment, and new standards will be introduced to improve the quality of products. Until these measures take effect, all procurement contracts over $200,000 will be handled by international agents.

The total cost of this second phase of the Reproductive and Child Health Programme is around £5 billion, which the Indian central and state Governments will meet the bulk of. External aid will be around 15 per cent. of the overall budget, with the single largest contribution coming from DFID. Our aid is being fully coordinated with other development partners, including the World Bank.

The Reproductive and Child Health Programme is universal in coverage, and it will provide care through pregnancy, childbirth and childhood. But resources will be targeted on India's poorest states, including Uttar Pradesh, Bihar, Orissa, and Madhya Pradesh and will especially target women and children among the poorest and most marginalised families, in Scheduled Castes and Scheduled Tribes.

DFID's financial support will be used for upgrading maternity facilities; increasing skilled attendance at birth; the purchase of essential drugs, equipment, supplies and contraceptives; staff training; communications; the piloting of new ideas; and assessing the impact of the programme. DFID technical assistance will finance a National Health Systems Resource Centre, which will provide overall technical assistance to the Programme at central and state level, and strengthen health sector procurement.

This second phase of the programme is ambitious and will require a huge expansion in the delivery of public sector health services, to tackle some of the country's biggest health problems. It also includes a number of additional accountability and financial management safeguards to strengthen the Government's anti-corruption systems. The programme will be monitored closely by the Indian Government and development partners, through reviews every six months. A copy of the Project Memorandum for the DFID contribution has been deposited in the Library of the House.

Update on Recovery in Lebanon and Humanitarian Situation in Gaza

The Secretary of State for International Development (Hilary Benn): The recent conflict in Lebanon caused great harm to the civilian populations in both Israel and Lebanon. A million people, a quarter of Lebanon's population, were displaced by the fighting and in Israel 300,000 people were reported to have fled their homes or taken to shelters. Israel had every right to defend itself against Hezbollah, but from the beginning we expressed the need for a proportionate response. I believe that this requires all sides to respect international humanitarian law.

The ceasefire, reached after much diplomatic activity, including strenuous efforts by the British Government, is holding and has aided the relief effort but the humanitarian situation in Lebanon remains serious.

On 15 August, the day after the ceasefire came into effect, I visited Beirut to assess the situation for myself. The priorities for the humanitarian aid effort were to secure sustained access for humanitarian convoys to reach the most vulnerable; to ensure safe return for displaced citizens; to minimise the risk of injury and death from unexploded munitions for those returning and for aid workers; and to repair basic infrastructure, such as water and power supplies and bridges.

From early in the conflict, the UK responded to Lebanon's call for help. Our total funding commitment now stands at £22.3 million, including our share of multilateral spending, making us one of the biggest bilateral contributors to the humanitarian effort. In line with our assessment of current priorities, this money is helping to provide shelter, healthcare, water and sanitation, and to clear unexploded munitions. We have agreed to provide urgently needed prefabricated bridges to open critical humanitarian supply routes. The first three bridges arrived in Lebanon on 1 September.

The Government have also urged Israel to lift all restrictions on normal shipping entering Lebanese ports, as set out in resolution 1701. This is essential in order to help restore the economy. The partial lifting of the economic blockade last week has further enhanced the chances of avoiding a much bigger humanitarian crisis and will help Lebanon begin the path to recovery. We continue to push for further progress on the issue.

The international community has responded generously to Prime Minister Siniora's appeal for assistance at the Stockhom conference on early recovery held on 31 August. Collectively we have pledged over $900 million to aid recovery. It will be important that these pledges are acted on as soon as possible.

Lebanon needed our aid, and we are ready to do more as needed, but more than anything else what Lebanon and the region need is peace. The conflict of this summer was a symptom of a wider collective failure to resolve the conflict that has affected the Middle East for decades. UNSCR 1701 was a step in the right direction, and must be implemented by all parties, but we need to encourage negotiation, compromise and above all political leadership to end the long-term suffering of people on both sides of the border.

Unfortunately, what has happened in Lebanon is not the only humanitarian crisis in the region. We cannot forget the plight of the Palestinians, especially in Gaza, where violence continues and people die. Since the start of the current conflict on 28 June, over 200 Palestinians have been killed and over 700 injured. The cost of damage to agriculture and industry is now estimated at around $46 million. Many households continue to receive only six to eight hours of electricity per day. However, there are plans to rebuild the Gaza power station and to supply electricity from Egypt, which should improve the situation. Intermittent electricity supply is affecting all key services. Water supply and sanitation services remain limited, with severe health implications. The UN now estimates a 65 per cent. increase in the number of children with diarrhoea compared with this time last year. Hospitals are struggling to operate vital equipment and to store drugs and vaccines safely.

Food prices are rising and 70 per cent. of Gazans are now considered to be food insecure. The World Food Programme reports a 7[illegible] per cent. increase in numbers using their feeding programme. Gaza crossing points are open intermittently, primarily for humanitarian food supplies. Action is needed to ensure unrestricted humanitarian access, including the supply of medical equipment, fuel, food and electricity.

At the Stockholm Donor Conference on 1 September, donors pledged $500 million for the Occupied Palestinian Territories, of which $200 million was for humanitarian aid. The UK pledged £3 million to the Temporary International Mechanism (TIM) for operation, maintenance and repair work to keep water, sanitation and electricity services running. This follows an earlier contribution to the TIM of £3 million to fund essential health supplies. In addition, the UK made a contribution of £15 million to the United Nations Relief and Works Agency (UNRWA) in April. UNRWA provides healthcare and other basic services for Palestinian refugees, who comprise 70 per cent. of Gaza's population. The UK has also deployed two experts to the United Nations Office for the Coordination of Humanitarian Affairs to improve its capacity to monitor the humanitarian situation in Gaza. These two experts will assist donors and others to make sure help gets to those who need it the most.

HEALTH

NHS Financial Performance

The Secretary of State for Health (Ms Patricia Hewitt): My Department published on 11 August 2006 the NHS financial performance for the first quarter of 2006-07. The report indicates that the NHS is on track to achieve our aim of a net financial balance by the end of the year. The report shows that the NHS as a whole

is forecasting a small surplus for the year of £18 million, after application of a £350 million contingency created by the Strategic Health Authorities.

The report is available in the Library and is published on the Department's website at: http://www.dh.gov.uk/assetRoot/04/13/79/95/04137995.pdf

Outsourcing of the NHS Supply Chain Services

The Minister of State, Department of Health (Andy Burnham): A 10-year contract has been awarded to DHL to manage the supply chain and procurement services currently managed by the logistics division of the NHS Business Services Authority (NHSBSA) and part of the NHS Purchasing and Supply Agency (PASA).

The effective date of the contract will be 1 October 2006 and the new service will be known as NHS Supply Chain. DHL will operate NHS Supply Chain as agent of the NHSBSA, which will be responsible for managing the contract on behalf of the Department and of the NHS.

DHL will manage the procurement and supply chain services of approximately £3.7 billion of NHS non-pay spend and forecasts savings greater than £1 billion for the NHS frontline.

In addition, the partnership with DHL will:

Secure continuity of the services for at least 10 years;

ensure all Trusts will benefit from lower prices;

secure the vast majority of the 1,650 jobs that are being transferred;

protect staff terms and conditions under the Transfer of Undertakings (Protection of Employment) Regulations (TUPE);

create up to 1,000 new jobs to support expansion over the 10 years;

guarantee that all the logistics distribution centres will remain open for five years at the very least; and

require the construction of a new distribution centre in the Midlands within 18 months.

We recognise that NHS Trusts value the NHS Logistics service and we have ensured that DHL will, at a minimum, maintain the current service. As is the case now, NHS Trusts will not be mandated to use the outsourced service. For DHL to be successful they will have to demonstrate value for money to NHS Trusts. They will also work very closely with clinicians to source the right products at the best prices from suppliers.

This is also an opportunity for suppliers with innovative products to gain better access to the NHS. DHL will purchase products on behalf of the NHSBSA in accordance with EU procurement regulations thus ensuring open and fair competition.

Review of Part IX of the Drug Tariff

The Minister of State, Department of Health (Andy Burnham): The arrangements under part IX of the drug tariff have not been reviewed for over twenty years and there were clear indications that neither the NHS nor the taxpayer were receiving value for money.

We have therefore been consulting with the market over potential price cuts since October 2005.

In reviewing part IX, the Government's objectives have been to:

Maintain, and where applicable improve, the current quality of care to patients;

secure value for money for the NHS;

ensure equitable payment for equivalent services and transparent reimbursement pricing;

work in partnership to deliver fair prices for the NHS and reasonable returns for suppliers and contractors;

facilitate the introduction of innovative solutions;

maintain local choice in the provision of services; and

keep administration arrangements to the necessary minimum.

We have consulted extensively with industry on these issues. Following consultation on dressings and chemical reagents, we have decided to implement a staged price reduction of up to 15 per cent. to the April 2006 drug tariff reimbursement prices for some blood glucose detection strips. Initially, reimbursement prices will be reduced by 12 per cent. on all affected products from 1 October 2006. This may be followed by a further reimbursement price reduction of 3 per cent. from 1 November 2006. We hope that the 3 per cent. variant will allow the market to maintain the free provision of related services, including the supply of educational material, helplines and metres. Responses to the consultation indicated that a price reduction of 15 per cent. may mean that it would be difficult to maintain these services. We have written to companies to inform them of the price changes.

A consultation on stoma and incontinence appliances has closed today and further consultation with industry will be held.

Spearhead Primary Care Trust Areas

The Minister of State, Department of Health (Caroline Flint): The Government have set Public Service Agreement targets to address geographical inequalities in life expectancy, cancer, heart disease, stroke and related diseases. The targets aim to see faster progress compared to the average in the "fifth of areas with the worst health and deprivation indicators". Achievement of the targets will be assessed on the outcomes for this group in 2010. The local authorities and primary care trusts which make these areas are the Health Inequalities Spearhead Group.

The Spearhead group is defined on local authority data and consist of 70 local authorities that are then mapped onto primary care trust boundaries.

Revised primary care trusts boundaries were announced on 19 May. Following the reconfiguration, the spearhead group list has been refreshed to take account of the new primary care trust boundaries. The list of 70 Spearhead group local authorities (that has not changed) and the revised list of 62 primary care trusts that map to them is as follows:

Local Authorities in the Spearhead Group	*Primary Care Trusts in the Spearhead Group*
Barking and Dagenham	Ashton, Leigh and Wigan PCT

HOME DEPARTMENT

Control Order Powers

The Minister for Policing, Security and Community Safety (Mr. Tony McNulty): Section 14(1) of the Prevention of Terrorism Act 2005 (the 2005 Act) requires the Secretary of State to report to Parliament as soon as reasonably practicable after the end of every relevant three-month period on the exercise of the control order powers during that period.

During the period 11 June to 10 September 2006, nine orders were made with the permission of the court under section 3(l)(a) of the 2005 Act—one in respect of a British citizen on 19 June 2006, one in respect of a foreign national on 31 July 2006, six in respect of foreign nationals on 1 August 2006 and one in respect of a British citizen on 5 September 2006.

The Secretary of State has also renewed one control order in accordance with Section 2 (4) (b) of the 2005 Act on 30 August 2006.

There are 15 control orders currently in force, six of which are in respect of British citizens.

During the period two requests to modify a control order obligation were agreed, and seven requests to modify a control order obligation were refused. A right of appeal exists in section 10(3) of the 2005 Act against a decision by the Secretary of State not to modify an obligation contained in a control order.

TRADE AND INDUSTRY

Suspension of Doha Development Agenda Negotiations

The Minister for Trade (Mr. Ian McCartney): I would like to update the House on the World Trade Organisation's (WTO) negotiations on the Doha Development Agenda. On July 24, Pascal Lamy, the Director General of the WTO announced that he was recommending the suspension of the negotiations across all subjects after talks between the US, EU, Brazil, India, Australia and Japan broke down on the key issues of agricultural domestic support, agricultural market access and non-agricultural market access. He said the suspension would give all WTO members time to reflect, to examine available options and to review their positions. His recommendation was accepted at a WTO General Council meeting on 27 July.

The UK Government are very disappointed that insufficient progress has been made in the negotiations to allow the conclusion of the Doha Round this year. While it is very disappointing that no agreement has yet been reached, it is premature to say that the Doha Round has collapsed and cannot be revived. We believe that all key players have a responsibility to use the suspension of the negotiations to reflect on their positions with a view to showing flexibility in future that will allow an agreement to be reached. Developing countries, including the poorest countries, are the biggest losers from the failure to reach agreement.

The UK remains committed to achieving an ambitious, pro-development outcome to these negotiations. Our priority now is to encourage all WTO members to re-engage in the negotiations as soon as possible. The UK Government have taken and will continue to take every opportunity to press for this—within the EU and with other WTO members. The UK Government will also continue to press for progress on Aid For Trade for developing countries. Building developing countries' capacity to trade is important in helping them integrate into the global economy and for providing a route out of poverty, and we do not believe that Aid for Trade should be conditional on the successful conclusion of the DDA.

The UK will continue to support a multilateral, rules based international trading system. We believe multilateralism is the best way of tackling unfair trade practices.

WORK AND PENSIONS

Independent Living Review - Membership of the Expert Panel

The Parliamentary Under-Secretary of State for Work and Pensions (Mrs. Anne McGuire): The Office for Disability Issues has set up an Expert Panel to support the work of the cross-Government Independent Living Review, as announced in another place by my noble Friend the Baroness Royall on 14 July.

The role of the Expert Panel will be to shape and steer the Independent Living Review which we have set up to identify imaginative and practical solutions to support independent living for disabled people. The Independent Living Review Project Team will report regularly to the Expert Panel and ensure that its views are reflected as the review progresses.

The review, which will report in summer 2007, will:

Bring together the views and experience of central and local government officials, disabled people and organisations of disabled people;

develop imaginative new solutions in the areas of health, social care, transport, employment and housing;

develop thinking on the relationship between independent living and individual budgets; and

make practical proposals for activity to support independent living.

Dame Jane Campbell, former Chair of the Social Care Institute for Excellence, will chair the Expert Panel. Rob Greig, National Director for Learning Disabilities, will be Vice Chairman.

Expert Panel members include a range of experts in the field of independent living, including disabled people, and people from organisations of disabled people, user-led groups and service delivery organisations.

I am pleased to announce that members of the Independent Living Review Expert Panel are:

Dame Jane Campbell, Expert Panel Chair, Disability Rights Commissioner, Former Chair, Social Care Institute for Excellence

Rob Greig, Expert Panel Vice Chair, National Director for Valuing People, Co-chair of Learning Disability Task Force

Saghir Alam, Disability Rights Commission, lead Commissioner for Partnership and Capacity Building, member of CENTREX Race and Diversity Panel

Ian Basnett, Chair of Independent Living Committee, Joseph Rowntree Foundation

Nasa Begum, Principal Adviser for Participation, Social Care Institute of Excellence (SCIE)

Zoe Carter, User Involvement Network for Mental Health Services in North Essex

John Dixon, Joint Chair of Disability Committee, Association of Directors of Social Services

David Gardiner, UK Older People's Advisory Group, Better Government for Older People

Fazilet Hadi, Director of Policy, Royal National Institute for the Blind

Frances Hasler, Head of User Participation, Commission for Social Care Inspection

Rowen Jade, Office for Disability Issues Advisory Group

Raymond Johnson, National Manager, People First

Elaine Morton, Chief Executive, Independent Living Funds

Menghi Mulchandani, Chair, National Centre for Independent Living

Jo Williams, Chief Executive, Mencap

Jean Willson, Chair of Centre 404 (formally Islington Mencap), A local organisation founded by parents of children with learning difficulties, which provides family support, learning and leisure opportunities, and supported housing

Gerry Zarb, Head of Independent Living Strategy, Disability Rights Commission

Government Departments on the Office for Disability Issues Board of Management will also be represented on the Panel.

The first meeting of the Expert Panel is being held today, 11 September 2006.

Written Ministerial Statements

The following statements were received between Monday 11 September and Wednesday 13 September 2006

TREASURY

Financial Services Regulation

The Economic Secretary to the Treasury (Ed Balls): Concerns have been expressed to the Government about the effects of a possible takeover of the LSE by a company based outside the UK on the LSE's rules, in particular the rules applying to those companies whose securities are traded on the LSE's markets. This is a concern that the Government share. In this statement I set out our approach.

The Government are neutral as to the nationality of the owners of Recognised Bodies (RBs)[1]. Of the current RBs, five are subsidiaries of overseas based companies. Openness to overseas investment has been an important part of the success of the City in recent years and will continue to be in the future.

The Government would also not seek to intervene in the independent judgments of the Financial Services Authority (FSA) and the competition authorities in respect of any changes of ownership of RBs. The FSA and the competition authorities have specific tasks to perform on an independent basis within clear legislative frameworks set out by Parliament. Independence and indifference to nationality are key elements of the UK's regulatory regime.

Investors, issuers of securities, and members of RBs all have an interest in RBs having rules which strike a balance appropriate to that body between the benefits of the restrictions, particularly in terms of investor protection and the impacts on issuers, members and other stakeholders. Such a balance is vital to ensuring exchanges play their role in creating deep and liquid capital markets which promote economic growth. In this respect, the Government believe it is essential that changes of ownership of RBs should not put at risk the achievement of such a balance by RBs.

Our current regulatory regime for RBs is based on high-level legislative principles supplemented by FSA guidance. Within this framework, RBs have the freedom to develop their own rule books in consultation with their members.

I have discussed these issues widely in recent months and made clear that I would expect any potential new owners of the LSE to want to provide certainty and reassurance to the exchange's stakeholders. I welcome the statement which the US's Securities and Exchange Commission issued on 16 June. This provided a helpful clarification of how the SEC sees the current position in respect of the scope of US securities laws.

However, as the FSA pointed out in its statement of 12 June, there is a degree of uncertainty about how overseas ownership of the LSE would affect its regulatory regime. It depends on exactly how any owner would attempt to integrate the LSE with its existing business and the legal framework in other countries—both of which can be subject to change.

It is important that there is certainty that the rules of RBs in the UK will continue to be proportionate, balancing the benefits of restrictions with the impacts on stakeholders.

The Government will now legislate to enhance the FSA's powers in this area. This will confer power on the FSA to veto changes to the rules of an RB in defined circumstances. The aim would be to enable the FSA to stop RBs making rule changes whose effects on issuers and others were likely to be disproportionate to the public benefits. The Government will provide further details in due course.

The purpose of such a change to legislation is not to involve the FSA in the day-to-day commercial judgments of the RBs. The power will be a right of veto and not a right of approval of rule changes. It will provide a back stop to ensure that the RBs stakeholders can be certain about the proportionality of the rules of the RBs going forward.

This new provision will ensure that UK RBs remain open to overseas ownership. It makes the permissible outer limits of the RB rules blind to the nationality of their ownership by entrenching better regulation principles in respect of those rules.

It should also be clear that we will not allow this legislation to be evaded through abuse of our recognised overseas investment exchange and clearing house regimes.

[1] Under section 18 of the Financial Services and Markets Act 2000 there are seven recognised investment exchanges (the London Stock Exchange, London International Financial Futures Exchange, EDX London, Virt-X, ICE Futures, the London Metal Exchange and NYMEX Europe) and two recognised clearing houses (CREST, and LCH. Clearnet Ltd).

Home Reversion Plans and Home Purchase Plans

The Economic Secretary to the Treasury (Ed Balls): The Treasury is today laying before Parliament the secondary legislation to introduce Financial Services Authority regulation of activities relating to these products. Copies will be available in the Vote Office and the Library of the House, and will be accessible on the Treasury website at: www.hm-treasury.gov.uk

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Counter Narcotics

The Minister for the Middle East (Dr. Kim Howells): Following the launch of the National Drug Control Strategy at the London Conference on Afghanistan in January, the UK continues, as partner nation, to support the Government of Afghanistan's counter narcotics effort. This year's planting season pre-dated the launch of that strategy and, although last year saw

a 21 per cent. decline in opium poppy cultivation across Afghanistan, this year it is likely that there will be a significant rise in cultivation. This is worrying and is due, in part, to a substantial increase in planting of opium poppy in the south of Afghanistan, including in Helmand Province. But in areas where governance, security and levels of development have improved, there are signs that last year's cultivation reductions will be sustained. At the same time, the Government of Afghanistan's eradication effort has been more effective than in previous years.

The Government of Afghanistan's National Drug Control Strategy offers the best means to tackle the opium trade at its source. We are determined to work with the Government and people of Afghanistan to sharpen delivery in order to achieve sustained impact on the ground. In particular they will be focusing their efforts on targeting the traffickers and their accomplices who profit most from the trade. We will be assisting by helping to establish the rule of law across Afghanistan, which is essential to counter narcotics efforts and to the success of the broader reconstruction process. The UK is working with the Government of Afghanistan and with other donors to develop new intelligence structures and to build the capacity of counter narcotics law enforcement and criminal justice agencies. These efforts are starting to show results. Since August 2005 we have seen the conviction of over 190 traffickers, and a significant increase in drugs related seizures and the destruction of laboratories. These actions are helping to disrupt the trade, forcing traffickers to move and store drugs in smaller quantities.

The Department for International Development also continues to support Afghan National Programmes focused on strengthening and diversifying legal rural livelihoods, including in Helmand Province where my right hon. Friend the Secretary of State for International Development recently announced that the UK would contribute £30 million to livelihoods activity over the next three years. Since April 2003 over 12 million labour days have been provided and over 8,000 km of roads rehabilitated. Almost US$70 million micro-finance loans have been disbursed over the last two years and US$180 million in grants approved to some 10,000 Community Development Councils. In addition, since September 2005, over 500,000 farmers have been provided with seeds and fertiliser.

On 5 September last year I announced, in a joint press conference with Afghan Counter Narcotics Minister Qaderi, that the UK would spend a total of £270 million in support of the Afghan National Drug Control Strategy between 2005-08. This includes £130 million of DfID funding. In 2005-06 the UK spent the following in support of the eight pillars in the National Drugs Control Strategy:

Pillar 1: Public Awareness—£649,000 in support of Afghan efforts to inform members of the population about counter narcotics policies, legislation, operations and alternatives to poppy cultivation and to persuade farmers not to grow poppy.

Pillar 2: Demand Reduction—£1,112,000 on treatment, rehabilitation and harm reduction programmes.

Pillar 3: Law Enforcement—£20,787,000 on building the capacity and equipping the Counter Narcotics Police of Afghanistan and the Afghan Special Narcotics Force.

Pillar 4: Criminal Justice—£1,112,000 to establish a counter narcotics Criminal Justice Task Force of 84 judges, prosecutors and investigators and high security detention facilities.

Pillar 5: Institution Building—£5,177,000 to establish and staff a fully operational Ministry of Counter Narcotics (MCN) and to build capacity within the counter narcotics division of the Ministry of Interior.

Pillar 6: Alternative Livelihoods—£37,520,000 to strengthen and diversify legal rural livelihoods.

Pillar 7: Eradication—£5,709,000 to support survey, monitoring, and verification of eradication to target it where legal livelihoods exist.

Pillar 8: International and Regional Cooperation—£2,006,000 to support border control and other regional projects focused on disrupting the flow of illicit drugs and precursor materials across Afghanistan's borders.

The UK also contributed £9,000,000 to the Government of Afghanistan's Counter Narcotics Trust Fund and a further £1,500,000 to the Law and Order Trust Fund established to cover the cost of police salaries and equipment. A further £2,970,000 was spent on strategy, research and reviews, including support to the United Nations Office on Drugs and Crime's annual poppy survey.

Situation in the Middle East

The Secretary of State for Foreign and Commonwealth Affairs (Margaret Beckett): I welcome this chance to update the House on the situation in the Middle East since I wrote to Members of Parliament on 14 August.

Since the adoption of UN Security Council Resolution 1701 on 11 August, the Government have been focused on turning the cessation of hostilities between Israel and Hizbollah into a durable cease-fire and a long-term solution. And we have been working hard with key partners and the parties to re-energise the Middle East Peace Process, an issue of vital importance to the region and wider world. My right hon. Friend the Prime Minister visited Lebanon (the first ever visit by a British Prime Minister), Israel and the Occupied Territories from 9 to 11 September and I visited Egypt from 7 to 9 September.

Lebanon

As the Prime Minister said during his visit to Lebanon, we must ensure the full implementation of UNSCR 1701 to support the Lebanese people's desire for a stable, prosperous and democratic future for Lebanon.

Following the ceasefire, one of our immediate priorities has been to address the humanitarian and reconstruction situation in Lebanon. We have seen an easing of the humanitarian situation. Most of the Lebanese displaced population have now been able to return home or are on their way home. Food and other essentials are now available. A worsened humanitarian crisis has been averted. After intensive efforts by the UK and other international partners, Israel announced the lifting of its blockade on Lebanon on 7 September. But life in Lebanon remains difficult for many.

The UK continues to play its part in the humanitarian and recovery efforts. The UK will contribute a total of over £40 million to Lebanon, including £22.3 million

for humanitarian assistance and early recovery projects. UK funding has so far helped to provide and deliver shelter, healthcare, food, water and sanitation. We have provided over £1.5 million to clear spent and unexploded munitions. Our funds will also contribute towards emergency bridges to help open critical humanitarian supply routes to those isolated in southern Lebanon. The first three prefabricated bridges provided by the UK arrived in Beirut on 1 September.

The other immediate priority has been to stabilise the peace. Urgent work has been undertaken to strengthen the UN Force in Lebanon (UNIFIL), in order to carry out the range of important new tasks set out in UNSCR 1701. The force will be led by France until February 2007, and then by Italy. On 25 August, EU Foreign Ministers in Brussels pledged up to 7,000 troops and a range of sea, air and specialist assets.

Due to our current operational commitments elsewhere, we will not be able to provide ground troops. But the UK has sent HMS York to participate in the Interim Maritime Force and we would consider providing, in addition, two E3 AWACS and six Jaguar aircraft if needed. We are willing to respond positively to requests to use our Sovereign Base Areas on Cyprus. We are also paying our share of the costs of the UN operation, on which we pay a premium as a permanent member of the UN Security Council.

During his visit to Beirut, the Prime Minister made clear that the UK intends to play a major role in Security Sector Reform (SSR). The Lebanese armed forces have a crucial role in the country and the UK has set aside £2.5 million to support efforts to ensure that the Lebanese armed forces take in control of all parts of the Lebanon. We will work with the Lebanese Government in terms of training and equipment and any other help that we can give.

We must also work to address the underlying root causes of this conflict. This means strengthening the ability of the democratically-elected Lebanese Government to be in sole charge of Lebanon, and ensuring that militias, supported and supplied from outside Lebanon, can never again plunge the region into crisis.

Middle East Peace Process (MEPP)

We must not lose sight of the fact that the conflict in Lebanon arose out of the continuing impasse in Palestine. This issue is of fundamental importance, not just to Israelis and Palestinians but to the whole of the region and the wider world. As the Prime Minister made clear in Los Angeles on 1 August there is an urgent need to re-energise the Middle East Peace Process. We have been working hard to bring the parties back to the Road-Map.

To achieve this goal it is imperative that the violence on the ground stops. As a result of the current situation in Gaza more than 220 Palestinians have died, including more than 60 children. Three Israeli soldiers have been killed and one abducted. We continue to call for the immediate and unconditional release of Corporal Shalit. We also condemn the continued rocket attacks on Israeli civilians. We call on Israel to exercise restraint and to do everything possible to avoid civilian casualties. As the European Council said on 18 July, those elected members of the Palestinian Government and legislature detained by Israel should be released.

We remain seriously concerned about the humanitarian situation in Gaza. The "Temporary International Mechanism" (TIM) is now operational. The TIM is paying allowances to 10,000 officials in the health sector. It is also paying for fuel to reach hospitals across the Occupied Territories. It has supported the continuation of health services in the current difficult environment. The International Development Secretary has announced £6 million so far for the TIM, for essential health supplies and to support water, sanitation and electricity services. The UK will contribute up to £12 million. The EC has already paid an allowance to 43,000 of the poorest Palestinians.

The Prime Minister used his visit to exchange ideas and identify a way for the parties to re-engage. Both Prime Minster Olmert and President Abbas agreed to meet with each other without conditions and made clear their commitment to a political process. The Prime Minister also discussed the formation of a National Unity Government with President Abbas. President Abbas subsequently announced on 11 September that agreement had been reached to form a National Unity Government. We await details on the programme to which this Government are committed. But, as the Prime Minister said when he was with President Abbas, such a Government, if based on the Quartet requirements, offers the possibility of re-engagement by the international community.

As I made clear to President Mubarak and the Egyptian Foreign Minister, Aboul Gheit, we fully support Egyptian efforts to mediate between Israel, the Palestinian Authority, and the militants currently holding Corporal Shalit. I also discussed with them and the Secretary General of the Arab League, Amr Moussa, the need to re-energise the MEPP. Egypt and the Arab League share this goal.

Update on Sudan

The Secretary of State for Foreign and Commonwealth Affairs (Margaret Beckett): Sudan remains a top priority for the UK Government. The Department for International Development and the Foreign and Commonwealth Office are jointly supporting parties in Sudan to deliver the Darfur Peace Agreement (DPA) signed on 5 May, and to promote development in Sudan. The UK played a leading role in securing UN Security Council Resolution 1706, which was passed on 31 August. This resolution expands the mandate of the UN Mission in Sudan (UNMIS) to Darfur in support of the early and effective implementation of the Darfur Peace Agreement and the N'djamena Agreement, and strengthens the military personnel and civilian component of UNMIS to do this.

The passage of Resolution 1706 demonstrates the international community's continued commitment to peace in Darfur. In the interests of the safety and welfare of its civilians, we continue to press the Sudanese Government, at the highest level, to give consent to its implementation. We are concerting with others in the international community, including the UN, US and key Arab states, to achieve this. I raised this with Egyptian President Mubarak and the

Secretary General of the Arab League, Amr Moussa, in Cairo last week. And both my right hon. Friend the Secretary of State for International Development and my noble Friend the Minister for Africa (Lord Triesman of Tottenham), have been engaging key interlocutors in the Government of Sudan and beyond.

In the meantime we will continue to support the African Union's efforts while a transition is under-way. The African Union is doing an important job in the most difficult of circumstances and it is most important that they stay until a UN force is able to deploy. On 18 July, the international community in Brussels promised further support of around $200 million, including the £20 million that the UK is providing this year.

The continuing violence in Darfur is having devastating effects. It must stop immediately. We condemn the continuing violations of the ceasefire by all parties, particularly the violence directed at civilians and attacks on humanitarian agencies. Because of this insecurity the UN and NGOs are unable to reach 470,000 people whom they believe to be in need of their assistance.

We are also gravely concerned by the recent military build-up in Darfur and reports of Sudanese Government military attacks as part of its "stabilisation plan for Darfur". As the UN Secretary-General has said, this plan is inconsistent with the DPA. Any attempt to take renewed military action and any continued rebel activity would further undermine the prospects of achieving peace and could lead to a further humanitarian catastrophe.

A broad-based and inclusive implementation of the DPA, signed in Abuja on 5 May 2006, remains the basis for stability, peace and reconciliation in Darfur. The UK played a leading role in negotiations in Abuja: the Secretary of State for International Development attended the final days of negotiations in support of the AU mediation to help secure a deal. All parties should work to put its provisions into effect. More rapid progress by the Government of Sudan in disarming the Janjaweed is key. It is also important for the signatories to the DPA to work to bring the non-signatories on board. To this end, the efforts of the SPLM are most welcome.

In the meantime the non-signatories need to be fully involved in the effective monitoring of the ceasefire and investigation of violations through existing ceasefire mechanisms. In this way, they should be fully held to account for fulfilling their obligations as set out in the 2004 N'djamena Agreement on Humanitarian Ceasefire on the Conflict in Darfur.

The UK remains committed to peace in Darfur, and the wider Sudan. We will continue to seek a solution to the conflict there. As part of this, we have appointed a new special representative for Darfur, William Patey, a former ambassador in Khartoum, to replace Rod Pullen, who has retired from the Diplomatic Service.

TRADE AND INDUSTRY

Office of Fair Trading Report "Opium Derivatives: A Review of Undertakings Given by Macfarlan Smith"

The Minister for Trade (Mr. Ian McCartney): We welcomed this Office of Fair Trading report, which was published on 7 March 2006. As part of its statutory role, the OFT regularly reviews undertakings given by organisations following earlier competition investigations. In this case, the OFT reviewed the undertakings by MSL following a report from the Monopolies and Mergers Commission (MMC), and concluded that competition was being impeded by the impact of Government policy in the licensing of imports for opium derivatives. It made the recommendation that Government consider competition when setting licensing policy for the import of opium derivatives.

The OFT recommendation is in line with the Government's commitment to encourage and enhance the competitive process to bring the wider benefits to the UK economy. Preventing abuse of market power is a key element of this, and it is important to ensure that regulation which affects such market power is operated in a transparent manner. It is therefore clear that Government should regularly review policy decisions such as this to ensure that the detrimental impact on competition is prevented, or, where other objectives intervene, limited. The OFT report has provided an excellent catalyst for such a review, and the Government will commit to repeating the process of review every five years.

During discussion with MSL and other parties while developing the response, a consistent complaint was the lack of a level playing field between the UK and other European countries (something recognised in the original MMC report). Currently, the UK is the only major European producer to allow imports.

There has been limited discussion of this at European level, and the Government are committed to raising this issue again with the European Commission, to develop options for the creation of a single market for these products.

The full Government action plan and copies of OFT's report will be placed in the Members' Library. In preparing this response, we have worked closely with the relevant Government Departments, in particular the Home Office, which is responsible for licensing policy and the Department of Health.

Written Ministerial Statements

The following statements were received between Thursday 14 September and Monday 18 September 2006

CABINET OFFICE

Sickness Absence (Civil Service)

The Parliamentary Secretary, Cabinet Office (Mr. Pat McFadden): The report "Analysis of Sickness Absence in the Home Civil Service 2005" prepared for my Department by RED Scientific Limited shows that the headline figure for the average level of sickness absence was 9.8 days per staff year. The report contains a comprehensive analysis of the 2005 figures by Department/Agency.

The Cabinet Office is continuing to work with other Departments and agencies as they work to reduce sickness absence and progress with their implementation of the recommendations of the "Managing Attendance in the Public Sector" report published by the Ministerial Task Force on Health, Safety and Productivity.

The increase in the number of working days lost was primarily due to a change in the methodology used for analysing data. If the 2004 methodology had been used for the 2005 report, the adjusted average working days lost figure would have been 8.8 days per staff year, a drop of 0.3 days.

COMMUNITIES AND LOCAL GOVERNMENT

Housing Employment Mobility Services (moveUK)

The Minister for Housing and Planning (Yvette Cooper): The Government have decided to terminate their agreement with Scout Solutions Projects Limited to deliver mobility services for social tenants.

The new services to be provided under the contract were a new website providing access to existing schemes such as LAWN and Seaside and Country Homes, and a link to the Jobcentre Plus Internet Job Bank. The cost for the development of the new software and IT infrastructure was £1.2 million and the Department has paid £1.06 million to date.

The Department has decided to terminate this agreement in the interests of the public and the taxpayer because of serious concerns about the performance and fitness for purpose of the software developed by SSPL to provide those services. The software was delivered by the contractor in final form more than a year behind schedule; and independent final testing which replicated SSPL's own test criteria discovered an unacceptable level of faults. Departmental officials worked with the company throughout the contract to address shortcomings, but came to the conclusion that this strong course of action was the only one available. This decision was communicated to SSPL on 20 July 2006. The Department will be seeking to recoup the £1.06 million spent on the development of the new software as well as the associated costs.

Scout Solutions Projects Limited have also been providing existing mobility services alongside the development of the new services. They will continue to be paid to provide these services under the terms of the contract for a transitional period. The funding for these existing services which were delivered has been £9.7 million. Mobility services are important to tenants, and the Department will be seeking to put alternative provision in place building on the success of choice-based letting schemes.

Throughout this period, social housing applicants and tenants have continued to use direct methods to move within social housing. For example in 2004-05 alone over 15,500 LA tenants completed mutual exchanges.

The matter is now the subject of discussions between DCLG and the contractor.

DEFENCE

Naval Base Review

The Secretary of State for Defence (Des Browne): The Defence Industrial Strategy published in December 2005 set out a challenge to the UK maritime industry to reduce its overheads and invest in the facilities and skills needed to meet the demands of the Royal Navy's future warship programme. The same challenges apply to the naval bases as we look to the future. The naval bases exist to support the Royal Navy's front line. They are complex and expensive organisations. We need to ensure that their capacity is no more and no less than we need to support the needs of the fleet now and in the years to come. I wish to announce therefore our intention to conduct an in-depth review of naval base infrastructure requirements. The aim of the review is to ensure that we have the right naval base infrastructure to meet the needs of the future fleet. The review will assess future requirements and examine a range of options, including some that could lead to radical reductions in overheads and naval base capacity. The recommendations from the review, which will be undertaken by the Defence Logistics Organisation, are expected to be finalised in spring 2007.

The trade unions have been consulted on the terms of reference for the review and, while it is too early to predict the impact on jobs, the Department will continue to engage with them and other stakeholders as the review is taken forward. Final decisions on the recommendations from the review will be subject to full trade union consultation.

World War 1 Veterans (Pardons)

The Secretary of State for Defence (Des Browne): On 16 August I announced that the Government plan to seek parliamentary approval for a statutory pardon for service personnel executed for a range of disciplinary offences during the First World War. I am now taking this opportunity to confirm these plans to the House and to provide some further information on our intentions.

I have reviewed carefully the case for granting pardons and concluded that although this is a difficult issue it is right to recognise the exceptional circumstances that gave rise to these executions and to show compassion to the families who have had to live with the associated stigma over the years.

Given the paucity of records for the courts martial of those executed, I have taken the view that it would not be appropriate or fair to consider individual pardons under the Royal Prerogative but that a statutory pardon for all members of the group should be introduced. This approach removes the risk of individual cases failing to meet the criteria for a pardon under the Prerogative simply because of lack of evidence.

It is the Government's intention to introduce an amendment to the current Armed Forces Bill during the Lord's Committee Stage to give effect to this. Rather than naming individuals, the amendment will pardon all those executed following conviction by court martial for a range of offences likely to have been strongly influenced by the stresses associated with this terrible war; this will include desertion, cowardice, mutiny and comparable offences committed during the period of hostilities from 4 August 1914 to 11 November 1918. Over 300 individuals from the UK, her dominions and colonies were executed under the 1881 Army Act. We will also seek pardons for those similarly executed under the provisions of the 1911 Indian Army Act, records of whose identities we have not been able to locate. We consider that it would not be appropriate to include in the pardon all capital offences and specifically the offences of murder and treason will be excluded.

In each case, the effect of the pardon will be to recognise that execution was not a fate that the individual deserved but resulted from the particular discipline and penalties considered to be necessary at the time for the successful prosecution of the war. We intend that the amendment should so far as possible remove the particular dishonour that execution brought to the individuals and their families. However, the pardon should not be seen as casting doubt on either the procedures and processes of the time or the judgment of those who took these very difficult decisions.

The pardon would apply to those sentences of execution confirmed and carried out but convictions would not be quashed. The amendment will not create any right to compensation and the Royal Prerogative of Mercy will remain unaffected.

As the amendment would affect the cases of personnel who were serving in the armed forces of a number of dominions and colonies, we are consulting with the Governments of those states or their successors on our plans. We are expecting to receive their responses shortly but I can confirm that our decision has already been welcomed by one of those principally affected. I anticipate the Government's proposal will also be warmly welcomed by the public at large and particularly by the families concerned.

Harrier GR7a Deployment (Afghanistan)

The Secretary of State for Defence (Des Browne): Both the International Security Assistance Force and coalition forces in Afghanistan are experiencing a surge in their requirement for air support. To help meet that need, I have decided temporarily to deploy a seventh Harrier GR7a aircraft and a small number of additional personnel to Kandahar Airfield. As with any operational commitment, the duration of this deployment will be kept under constant review.

HEALTH

National Institute for Health and Clinical Excellence

The Minister of State, Department of Health (Andy Burnham): The Department has consulted on proposed changes to the process for the selection of topics for the work programme of the National Institute for Health and Clinical Excellence (NICE).

Some responses were received from a wide variety of organisations, including patient and professional groups, healthcare professionals, industry and the NHS. An analysis of the responses has been undertaken and we have reached the following decisions: the administration of the early stages of the topic selection process will be the responsibility of NICE. Responsibility for the administration of the later stages of the process will remain with the Department; the criteria used in the selection of topics will be revised, with a single set of criteria used for the selection of both clinical and public health topics; there will be wider and better representation of the NHS and public health throughout the process, to help ensure that the topics being proposed represent the needs of professionals and their patients. This representation will be secured via the new panels which will replace the Advisory Committee for the Selection of Topics (ACTS); and finally the timelines for the selection of topics will be reduced. This will mean that clinical topics which are a priority issue for the NHS will be referred to NICE sooner.

Full details of the consultation responses and the analysis of the comments has been placed in the Library and is available on the Department's website at http://www.dh.gov.uk/Consultations/ResponsesToConsultations/ResponsesToConsultationsDocumentSummary/fs/en?CONTENT_ID=4139043&chk-5Sr3mH

A new programme of work is being established by NICE to help the NHS identify and stop ineffective interventions. This will potentially allow the NHS to reinvest millions of pounds on drugs and other treatments that improve patient care.

The three products that NICE will be developing are: commissioning guides: these will help NHS commissioners to make the case for moving to concordance with NICE guidance and shift resources away from ineffective care; recommendation reminders: these will highlight recommendations from published NICE guidance which reduce ineffective practice; and specific guidance aimed at reducing ineffective practice: this guidance will use existing methodologies to give advice on the use of technologies or approaches to care currently employed by the NHS where evidence of effectiveness that exists suggests that it is a poor use of resources.

NICE expects to issue the first commissioning guides and recommendation reminders in autumn 2006 and the first guidance on ineffective treatments in 2007.

Children's Palliative Care Services

The Parliamentary Under-Secretary of State for Health (Mr. Ivan Lewis): I am announcing a review of the longer term funding arrangements for palliative care services for children and young people who have a life limiting or life threatening condition.

On 5 June I was pleased to announce new funding of £27 million spread over three years for children's hospice services. We have drawn up eligibility criteria for the grants in consultation with key stakeholders and I am delighted to say that applications for the Children's Hospice and Children's Hospice at Home Grant are now being made. The application form can be found on the Department of Health website at

http://www.dh.gov.uk/PublicationsAndStatistics/Publications/PublicationsPolicyAndGuidance/PublicationsPolicyAndGuidanceArticle/fs/en?CONTENT_ID=4138727&c hk=91DtzU.

The closing date for applications is 20 September 2006.

At the same time I also announced a review of children's hospice services and their funding arrangements. Children's hospices provide a valuable service for children and young people but they represent only one part of the range of palliative care services. I have therefore decided that the review should be extended to cover palliative care services for children and young people more generally. I expect the review to commence in the autumn.

We are drawing up the terms of reference for the review, in consultation with key stakeholders, and will publish these and announce the name of the person who will undertake the review when we can.

HOME DEPARTMENT

Immigration

The Minister for Immigration, Citizenship and Nationality (Mr. Liam Byrne): The Home Secretary has today published the Government response to the Home Affairs Committee's Report into Immigration Control, copies of which have been deposited in the Libraries of the House and are also available from the Vote Office and the Printed Paper Office.

Lambert Report

The Parliamentary Under-Secretary of State for the Home Department (Mr. Gerry Sutcliffe): On 16 September 2004, my hon. Friend the Member for Wythenshawe and Sale, East (Paul Goggins), the then Parliamentary Under-Secretary with responsibility for correctional services, announced the appointment of David Lambert, a former Assistant Chief Inspector of Social Services, to examine the operational issues raised by the tragic death of Joseph Scholes at Stoke Heath Young Offender Institution in 2002.

David Lambert completed his report in October 2005. The Government have considered it and responded to its recommendations. I am placing copies of the report and of the Government's response in the Library of the House. Both documents can also be accessed at

http://press.homeoffice.gov.uk/documents/lambert-report-180906 and http://press.homeoffice.gov.uk/documents/lambert-report-govt-response.

As well as identifying procedures and practices that require further development, the report notes the positive steps that have been taken since Joseph's death to improve assessment, placement and safeguarding of young people in custody.

WORK AND PENSIONS

DWP Office Support Services

The Minister for Pensions Reform (James Purnell): After completing a detailed commercial and tendering exercise, I wish to announce that Haden Building Management are to be awarded a seven year contract for the delivery of a suite of office services to the Department for Work and Pensions.

In January 2005, following a wide-ranging review of support services, senior officials in my Department, with the support of Ministers, concluded that bids for the future provision of all our office support services should be invited from specialist external suppliers in the private sector. Inviting bids for a single national contract for the supply of office services from the private sector would allow us to harness the benefits afforded by new technology, organisational efficiencies and the agility to respond to our changing needs as the Department is modernised and reformed.

These office support services, which include post opening and despatch, messengerial work, switchboard operations, typing and secretarial services, are currently delivered through a range of external suppliers and in-house teams as well as forming part of the tasks of staff who serve the public directly. These arrangements have served us well in the past, but the review concluded that these methods of delivery no longer provided best value for money and that, in their current state, would not provide the best service in the future.

Since the review, officials have been undertaking a competitive tendering exercise, in accordance with EU procurement rules, to select a supplier who can provide the services we require and offer best value for money. Following a rigorous evaluation of bids, the contract has been awarded to Haden Building Management with the new supply arrangements expected to commence on 1 March 2007.

This decision will mean that some jobs currently undertaken by DWP staff and our existing external providers will transfer to the new supplier. In total around 700 DWP staff nationally may transfer. Greatest numbers of DWP staff affected are based in Scotland, Wales and north-west England with other smaller groups in London and the north-east. We recognise that some staff may not wish to transfer and for these we will, where possible, offer the opportunity to re-deploy within DWP or other Government Departments although we cannot guarantee this. Given the general unavailability of suitable alternative posts however, the likelihood is that many staff engaged in support services will transfer to the new contractor under the protection of TUPE.

Proposals put forward by Haden provide more efficient ways of working and take account of the Departmental modernisation programme. This is likely to result in a reduction of staff required to deliver office service contract arrangements over a period of time.

Officials have been meeting with trade unions, and keeping staff affected by these changes informed of progress on an ongoing basis. Over the coming months they will continue to consult with trade unions and work with managers and HR advisors on all matters relating to the transfer of staff.

I will keep Members with significant numbers of affected constituents updated on our progress over the next few months. I am confident that these plans, for the future delivery of office services, will help support our overall goal of moving to a leaner and fitter organisation delivering world-class services to our customers.

Written Answers to Questions

Monday 17 July 2006

TRANSPORT

A127

Mr. Amess: To ask the Secretary of State for Transport what plans his Department has for improving the A127; what improvements have been made to the A127 between Basildon and Southend-on-Sea during 2005; and if he will make a statement. [85169]

Dr. Ladyman: The A127 is not a trunk road and so is the responsibility of local highway authorities; these are Southend on Sea borough council for the section of the road within the borough boundary and Essex county council for the section beyond to Basildon. Plans for future improvements to the road, and details of any which have already been carried out, are therefore matters for these authorities.

A2 Roadworks

Mr. Gale: To ask the Secretary of State for Transport what assessment his Department has made of the effect on holiday and business traffic of the proposed roadworks to be carried out on the A2 at Boughton Green between 17 July and 8 September; and why it is necessary for the roadworks to be carried out at the peak of the summer holiday season. [85319]

Dr. Ladyman: When assessing the effect on holiday and business traffic of the essential safety works on the A2 at Boughton, the Highways Agency has considered average daily traffic flows and the variation of traffic flows in the peak and off peak hours.

No material differences in average daily flows were found for July, August and September, with August flows being some 3 per cent. lower than July and September. This indicates that there is no significant summer peak in traffic flows.

In terms of the variation of traffic flows in the peak and off-peak hours, after 9.30 am until 4 pm one lane will provide sufficient capacity, enabling one lane to be closed for the roadworks.

A3 Tunnel (Hindhead)

Mr. Hunt: To ask the Secretary of State for Transport when he expects to publish the Inspector's Report following the Public Inquiry into the A3 Tunnel at Hindhead; and whether he has accepted the recommendations of the Inspector. [84871]

Dr. Ladyman *[holding answer 14 July 2006]:* The Inspector's report will be published with the decision on the scheme taken jointly by the Secretary of State for Transport, the Secretary of State for Communities and Local Government and the Secretary of State for Environment, Food and Rural Affairs. This will be issued soon and convey whether the Inspector's recommendations have been accepted.

Car Journeys

Mr. Hollobone: To ask the Secretary of State for Transport what the Department's working assumption is about the number of car journeys a year generated by each new house built. [84931]

Dr. Ladyman *[holding answer 13 July 2006]:* The number of car trips generated by each new house built is considered to be the same as the number of car trips generated by existing houses and, in Great Britain, is approximately nine trips per week.

Underlying this average are trip rates for different categories of households using information from the National Travel Survey. A key determinant of trip rate is the number of cars owned and the location of the household. For existing households in Kettering and Great Britain, the averages for households by numbers of cars owned is tabled as follows:

Number of cars owned by household	*Average car trips made in Kettering per week*	*Average car trips made in Great Britain per week*
0	4	4
1	7	8
2 plus	14	15

It should be noted that households with no car can still have a car available to travel. For example, they can hire a car or have access to a company car.

Clifton Suspension Bridge

Chris Grayling: To ask the Secretary of State for Transport what the cost to the Department was of the most recent inquiry into the toll levels on the Clifton Suspension Bridge; how many people lodged objections which led to the calling of that inquiry; and if he will make a statement. [85044]

Dr. Ladyman: Since the coming into force of the Clifton Suspension Bridge Act 1952, toll charges at the Clifton Suspension Bridge have been revised three times: in 1976, 1982 and most recently 2003. The Department has no record of whether inquiries were held for the 1976 and 1982 toll revisions. The 2003 toll revision application received no objections and was considered and approved without the need for a local inquiry.

The operator of the Clifton Suspension Bridge and the Trustees of the Clifton Suspension Bridge, applied to the Secretary of State Department in October 2005 for an order to revise the maximum tolls for using the bridge. Five objections have been received to this application. The trust has been advised that if it wishes to continue with its application, there will have to be an inquiry. No date, as yet, has been set for this inquiry.

High Occupancy Vehicle Lanes

Chris Grayling: To ask the Secretary of State for Transport whether the high occupancy vehicle lane on the M1 will be the *(a)* outside and *(b)* inside lane of the motorway. [84833]

Dr. Ladyman: It is currently anticipated that the dedicated high occupancy vehicle (HOV) lanes on the M1 would be positioned in the outside lane, i.e. adjacent to the central reservation in both directions. However, the final decisions on how the proposals for HOV lanes at this location will be taken forward will be made only once the Highways Agency has completed further work to elaborate the details of the proposed scheme.

Highways Agency

Alison Seabeck: To ask the Secretary of State for Transport how much was spent by the Highways Agency in using trenchless technology for cabling, ducting and underground service installation in each year since 2001; and what proportion this represents of the overall spending for this work in each year. [85053]

Dr. Ladyman: A single figure for how much has been spent is not held centrally.

Alison Seabeck: To ask the Secretary of State for Transport to what extent the Highways Agency uses minimum dig or trenchless technology when undertaking works for the installation of cables, ducts and underground services on the road network; and what technology it uses. [85055]

Dr. Ladyman: The Highways Agency's use of minimum dig or trenchless technology is limited to thrust-boring beneath carriageways where existing cross-carriageway ducts are unserviceable. When undertaking works for the installation of cables, ducts or underground services in the verges of its roads, it installs armoured cables or ducts in trenches in accordance with BS7671, at a sufficient depth to avoid cables or ducts being damaged by any reasonably foreseeable disturbance of the ground.

M6

Geraldine Smith: To ask the Secretary of State for Transport whether he has granted funding to the Heysham M6 Link, subject to planning approval. [85031]

Dr. Ladyman: The Heysham scheme does not yet have scheme approval but Ministers have agreed with the region's recommendation that it may receive funding in the next three years.

The Department's provision of funding will, of course, be subject to the scheme securing all necessary statutory powers, demonstrating sufficient value for money, and being supported by a satisfactory business case in line with the departmental requirements.

Pavement Parking

Mr. Hollobone: To ask the Secretary of State for Transport what legislation proscribes vehicle parking on pavements; and what penalties the legislation provides. [85790]

Gillian Merron: There is no specific national legislation which proscribes vehicle parking on pavements. However, local traffic authorities can make traffic regulation orders, under powers in the Road Traffic Regulation Act 1984, to both ban pavement parking in certain areas and also allow specific exemptions from the ban.

Section 137 of the Highways Act 1980 makes it an offence to obstruct a highway without lawful authority. The pedestrian footway is part of a highway. The police may issue a fixed penalty notice for such obstruction. However, in London, by virtue of section 8 of the London Local Authorities and Transport for London Act 2003, authorised officers of borough councils and Transport for London are also empowered to issue a fixed penalty notice for the offence of obstruction under section 137 of the 1980 Act.

Speed Limits

Mr. Lidington: To ask the Secretary of State for Transport if he will increase the discretion to local highways authorities in respect of the installation of national speed limit signs at the end of any zone where a lower speed limit is in operation. [84960]

Gillian Merron: Local highway authorities have the power to set speed limits at an appropriate level. All changes of speed limit are required by law to be clearly signed to allow drivers ample time to adjust their speed accordingly and drivers are required to know the speed limit in force at any given time. It is important to retain national consistency.

LEADER OF THE HOUSE

Cabinet Committees

Derek Conway: To ask the Leader of the House which Minister chaired the Cabinet Sub-Committee which considered including the Armed Forces Discipline Bill in the current legislative programme; and which Ministers were members of the Sub-Committee. [83841]

Mr. Straw: All Bills are considered by the Ministerial Committee on the Legislative Programme (LP), whose terms of reference are "to consider legislation and related matters". Membership at the time was as follows:

Lord Privy Seal and Leader of the House of Commons (Chair)

Deputy Prime Minister and First Secretary of State

Secretary of State for Transport and Secretary of State for Scotland

Secretary of State for Defence

Parliamentary Secretary to the Treasury and Chief Whip

Home Secretary

Secretary of State for Northern Ireland and Secretary of State for Wales

Minister without Portfolio

Leader of the House of Lords and Lord President of the Council

Secretary of State for Constitutional Affairs and Lord Chancellor

Chancellor of the Duchy of Lancaster (Minister for the Cabinet Office)
Chief Secretary to the Treasury
Chief Whip, Lords, Captain of the Honourable Corps of Gentleman-at-Arms
Attorney-General
Advocate-General
Deputy Leader of the House of Commons.

Parliamentary Questions

Anne Main: To ask the Leader of the House if he will ensure that all Ministers comply with the Resolution of the House of 18 December 1972 as it applies to the timeliness of answers to parliamentary questions. [85902]

Mr. Straw: All Ministers recognise the obligation, deriving from the decisions of the House of 18 December 1972, that a written question tabled for a named day should receive an answer on that day and an ordinary written question should receive a substantive response within a working week of it being tabled. I attach great importance to the timeliness of responses to parliamentary questions tabled in the House and, as I have indicated to the House, I have raised the matter directly with ministerial colleagues.

I also refer the hon. Member to the answer I gave to the hon. Member for Wellingborough (Mr. Bone) on 10 July 2006, *Official Report*, column 1560W.

Prime Minister's Questions

Mr. Bone: To ask the Leader of the House (1) how many Prime Minister's questions sessions there were in each year since 1990; [85010]

(2) what estimate he has made of the number of Prime Minister's question sessions likely to be held in 2006. [85071]

Mr. Straw: The information is available by parliamentary session. The number of days on which oral questions to the Prime Minister were taken in each session is given in the following table. The figures for sessions for the period before 1997 to 98 are not comparable with those subsequently. The arrangements for Prime Minister's questions were changed at that time, with twice weekly fifteen minute slots being replaced by one weekly thirty minute slot so that no less time is spent in the Chamber. To make a more accurate comparison a table of the approximate hours involved is also given.

Before 1997 to 98

Session	*Number of sessions*	*Approximate number of hours involved*	*Total sittings days*
1989-90	62	15.5	167
1990-91	61	15.25	160
1991-92 (short session)	32	8	83
1992-93 (long session)	89	22.25	240
1993-94	59	14.75	154
1994-95	65	16.25	159
1995-96	61	15.25	146
1996-97 (short session)	35	8.75	86

After 1997 to 98

Session	*Number of sessions*	*Approximate number of hours involved*	*Total sittings days*
1997-98 (long session)	50	25	241
1998-99	32	16	149
1999-2000	35	17.5	170
2000-01 (short session)	17	8.5	83
2001-02 (long session)	42	21	201
2002-03	37	18.5	162
2003-04	36	18	157
2004-05 (short session)	14	7	65

The number for the 2005-06 session so far (up to and including Wednesday 12 July) is 41 (20.5 hours). Given the planned dates for further sittings so far announced, four more Prime Minister's questions days can be expected up to the end of October. The number of such days for the remainder of the session, and for the beginning of the next session, will be dependent on the dates for prorogation and the Christmas recess.

Sitting Days

Mr. Bone: To ask the Leader of the House (1) how many days the House sat in each year since 1990; and how many days were allocated to Private Members' business; [85009]

(2) what estimate he has made of the number of days the House is likely to sit in 2006; and how many days are expected to be allocated for private Members' Bills. [85072]

Mr. Straw: The information is available by parliamentary Session. The number of days on which the House sat in each Session, together with the number of private Members' days, is given in the table. Private Members' days include days allocated to private Members' Bills and (up to 1993-94) balloted private Members' motions. (Balloted private Members' motions were ended after that Session, in favour of greater opportunities for Back-Bench adjournment debates).

Session	*Private Members' days*	*Total sitting days*
1989-90	24	167
1990-91	22	160
1991-92[1]	12	83
1992-93[2]	24	240
1993-94	23	154
1994-95	13	159
1995-96	13	146
1996-97[1]	7	86
1997-98[2]	13	241
1998-99	13	149
1999-2000	13	170
2000-01[1]	8	83
2001-02[2]	13	201
2002-03	13	162
2003-04	13	157
2004-05[1]	4	65

[1] Short Session.
[2] Long Session.

The number of sitting days for the 2005-06 Session up to and including 14 July is 182, of which 12 have been allocated to private Members' Bills. Given the planned dates for further sittings so far announced, 21 more sitting days can be expected up to the end of October, of which one would be allocated to private Members' Bills. The number of sitting days for the remainder of the Session, and for the beginning of the next Session, will be dependent on the dates for prorogation and the Christmas recess.

Summer Recesses

Mr. Bone: To ask the Leader of the House how many days there were in the summer recess in each year since 1990. [85011]

Mr. Straw: The total number of days (including weekends and bank holidays) between the rise of the House in July and the return in October in each year since 1990, excluding sitting days, was as follows:

	Number of days
1990	[1]78
1991	80
1992	[2]92
1993	82
1994	87
1995	88
1996	81
1997	87
1998	[3]77
1999	83
2000	86
2001	[4]83
2002	[5]81
2003	[6]77
2004	[7]70
2005	75
2006	[8]75

[1] Excludes sittings on 6 and 7 September.
[2] Excludes sittings on 24 and 25 September.
[3] Excludes sittings on 2 and 3 September.
[4] Excludes sittings on 14 September and 4 and 8 October.
[5] Excludes sitting on 24 September.
[6] Excludes September sitting 8 to 18.
[7] Excludes September sitting 7 to16.
[8] Planned.

HOUSE OF COMMONS COMMISSION

Accommodation

Mr. Dismore: To ask the hon. Member for North Devon, representing the House of Commons Commission what average square metreage of office space is allocated per person to *(a)* all hon. Members, *(b)* hon. Members who are Ministers, *(c)* hon. Members who are not Ministers, (d) hon. Members' staff based on the estate and *(e)* senior House officials; and if he will make a statement. [84429]

Nick Harvey: Evidence on office space allocation and occupancy was submitted to the Administration Committee's inquiry into House of Commons Accommodation earlier this year. This evidence is published with that Committee's Third Report of the Session, HC 1279. The answer that follows is based on that information, which represents a sample at a given moment in time.

(a) The Accommodation Whips have approximately 14,800 sq m of office space available to allocate to Members, an average of 22.9 sq m per Member. In practice, however, some of this accommodation is unoccupied or occupied by Members' staff. Of the office space currently used by Members, the average area available for each Member is 14.3 sq m.

(b) and *(c)* Of the total office space available to the Accommodation Whips, 1,300 sq m is designated ministerial accommodation, an average of 16.9 sq m per Minister. This leaves 13,500 sq m of office space not designated ministerial accommodation which the Accommodation Whips have available to allocate to other hon. Members. However, Ministers also occupy some Members' accommodation not designated for Ministers, while some ministerial rooms are occupied by Members' staff.

(d) The average space available to individual Members' staff is estimated at 9.2 sq m per person, based on 1,230 desk spaces in areas allocated by the Serjeant at Arms and in Members' accommodation.

(e) 1,735 staff of the House, 1,257 of whom are desk-based, occupy 13,140 sq m of office space, giving an average density of 7.6 or 10.5 sq m per person depending on the method of calculation used. Disaggregated information is not held on space occupied by senior staff of the House.

Mr. Dismore: To ask the hon. Member for North Devon, representing the House of Commons Commission what consideration has been given to turning accommodation at 2 and 3 Parliament Street and 4 Canon Row into further office space for hon. Members and their staff. [84440]

Nick Harvey: The houses are structurally unsuitable for use as offices.

Mr. Dismore: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer of 3 July 2006, *Official Report*, column 823W, on Officers of the House (Accommodation), what the estimated annual rental value is of the properties concerned. [84441]

Nick Harvey: No estimate of the annual rental value of these properties has been made. Because they are physically part of the secure Parliamentary Estate, it would not be feasible to offer the properties for rent.

Senior Staff Appointments

Mr. Dismore: To ask the hon. Member for North Devon, representing the House of Commons Commission what the procedure is for the appointment of *(a)* the Clerk of the House and *(b)* other senior House staff; and if he will make a statement. [85353]

Nick Harvey: The Clerk of the House is appointed by the Crown under letters patent on the recommendation of the Speaker and the Prime Minister. The posts of Clerk Assistant and Serjeant at Arms are also Crown appointments. Under section 2(1)

of the House of Commons (Administration) Act 1978, all other appointments (other than Mr. Speaker's personal staff) are made on the authority of the House of Commons Commission. The Commission has delegated these powers of appointment to Mr. Speaker in relation to posts of head of Department (and, in some cases, their deputies) and to heads of Department for the remainder. These appointments are made on the basis of internal or external competition, as appropriate.

NORTHERN IRELAND

Building Regulations

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland if he will assess the merits of including the inspection of the cavity wall insulation required under the building regulations as part of the statutory inspections carried out on properties by a building control officer. [84604]

Mr. Hanson: The building regulations require statutory notice of certain works to facilitate inspection of such works. However, they do not require the statutory inspection of those works. Building control officers have the powers to inspect the construction of a building at any reasonable time to ensure compliance with the building regulations.

Dangerous Driving

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many drivers in Northern Ireland were found guilty of dangerous driving in 2005; and how many of that total were restricted drivers. [84605]

Mr. Hanson: Statistics on the number of persons convicted of dangerous driving in 2005 are not yet available.

In 2004, 349 persons were convicted of 'dangerous driving'; an additional 18 were convicted of grievous bodily harm by dangerous driving and a further six of death by dangerous driving. It is not possible to determine how many of these related to restricted drivers.

Dentistry

David Simpson: To ask the Secretary of State for Northern Ireland what the gross cost was of *(a)* dental fees for items of service and *(b)* dental treatments in each of the last five years; and how much of the cost was borne by patients (i) in total and (ii) as a percentage of the overall cost in (A) Northern Ireland and (B) in each board area. [83949]

Paul Goggins: The information requested is provided in the following tables. Information broken down by Health and Social Services Board can only be given for 2002-03, 2003-04 and 2004-05.

	Gross cost of items of service (£000)	*Gross cost of treatments (£000)*	*Patients contributions (£000)*	*Percentage cost borne by patients*	*Net fees payable (£000)*
2000-01					
Total	47,602.0	48,019.4	15,145.7	31.5	32,873.7
2001-02

Total	51,529.1	52,322.0	16,627.0	32.0	35,695.0
2004-05					
HSS Board					
Eastern	22,030.7	22,646.0	7,485.0	33.0	15,161.0
Northern	12,756.2	12,948.0	4,753.0	37.0	8,195.0
Southern	9,329.0	9,439.0	3,112.0	33.0	6,327.0

2000-01	Gross cost of items of service (£000)	Gross cost of treatments (£000)	Patients contributions (£000)	Percentage cost borne by patients	Net fees payable (£000)
Western	7,439.7	7,595.0	1,446.0	19.0	6,149.0
Total	51,555.7	52,627.0	16,797.0	32.0	35,830.0

Notes:
1. Gross cost of treatments will include management fees such as treatment on referral fees and as such will differ from gross cost of items of service.
2. The patient, unless exempt, pays 80 per cent. of the cost of treatment, up to a maximum of £384.

Central Services Agency

Dessie O'Hare

Mr. Donaldson: To ask the Secretary of State for Northern Ireland whether the Police Service of Northern Ireland has any outstanding warrants for the arrest of Dessie O'Hare. [71690]

Paul Goggins: PSNI confirms that there are no formal investigations ongoing in relation to this individual although he remains the subject of attention by the PSNI Historical Enquiries Team (HET) and their ongoing process.

Elections (Public Expenditure)

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much public expenditure was incurred in organising the 2005 *(a)* local government and *(b)* general elections. [19545]

Mr. Hanson: £3.6 million public expenditure was incurred in organising the 2005 local government and general election in Northern Ireland. £1.8 million was spent by district councils and £1.8 million by the Electoral Office.

Electronic Listening Devices

David Simpson: To ask the Secretary of State for Northern Ireland on how many occasions the Secretary of State for Northern Ireland has authorised the use of electronic listening devices in each of the last five years. [65355]

Paul Goggins: The hon. Member should be aware that it is not Government policy to comment on specific national security and intelligence matters.

Environment and Heritage Service

David Simpson: To ask the Secretary of State for Northern Ireland what the total cost was of bringing court cases by the Environment and Heritage Service in Northern Ireland in each of the last three years; and how much was recouped in fines. [84309]

The Solicitor-General: I have been asked to reply.

The Public Prosecution Service prosecutes cases submitted to it by the Environment and Heritage Service in Northern Ireland. No figures are available for the total cost of bringing such cases.

In those cases prosecuted by the PPS over the last three years, the total of fines imposed were:

	£
2003	23,125
2004	32,525
2005	29,625

Festivals

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much public money has been allocated to the *(a)* West Belfast Festival and *(b)* Gasyard Feile in Londonderry in each of the last two years. [82877]

Maria Eagle: Details of the public monies allocated to the *(a)* West Belfast Festival and *(b)* Gasyard Feile in Londonderry in each of the last two years is given in the following table:

Financial year	West Belfast Festival (£)	Gasyard Feile
2004-05	360,037.95	0
2005-06	273,768.01	0

Historical Enquiry Team

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many of the cases reviewed by the Historical Enquiry Team in Northern Ireland have resulted in prosecutions. [84936]

Paul Goggins: I am advised by the Historical Enquiry Team, which only became operational in January 2006, that to date there have been no prosecutions resulting from the review of unresolved deaths undertaken since then and that due to the reinvestigation process, where relevant, it is too early to tell if any prosecutions are likely.

It has always been acknowledged that given the time that has passed for a number of cases, the number of prosecutions expected from the review of unresolved deaths is likely to be small. However the aim of the Historical Enquiry Team is to work with the families of victims to answer their questions and provide resolution, where possible, whether it is through judicial or non-judicial means.

Independent Treatment Centres

Lady Hermon: To ask the Secretary of State for Northern Ireland how many operations, by type, were carried out in independent sector treatment centres in Northern Ireland in the last year for which figures are available. [68980]

Mr. Woodward: The information requested is not held centrally and will take some time to collate. I will write to the hon. Member with the relevant information as soon as it becomes available and place a copy in the Library.

Substantive answer from Shaun Woodward to Lady Hermon:

The number of operations, by type, which were carried out in independent sector treatment centres in Northern Ireland is not available. However, the number of operations, by specialty, carried out in independent sector treatment centres in Northern Ireland during the financial year 2005-06, is shown in the table as follows.

Specialty	*Number of patients*
Dermatology	<5
ENT	14
General Surgery	141
Gynaecology	<5
Neurosurgery	40
Ophthalmology	321
Paediatric Surgery	46
Plastic Surgery	653
Trauma and Orthopaedics	212
Urology	172
NI total	1,603

Notes:
Figures are for the financial year 2005-06.
Includes patient transferred for both in-patient and day case.
Figures include Board Transfers, Group 2 Transfer and Special measures (NTPOC).
Please note that cell sizes that have a value of less than five have been masked in order to help protect confidentiality.

Landfill Sites

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland on how many occasions during 2005 landfill sites in Northern Ireland were found to contain hazardous or toxic materials for which they were not approved. [84753]

David Cairns: In 2005, there were 74 licensed landfill sites in Northern Ireland. No sites were allowed to accept hazardous waste, although there are 58 hazardous waste facilities where such material can be processed for off-site shipping, but not landfilled. In 2005, none of the 74 licensed landfill sites in NI were licensed to bury hazardous waste.

Of the 32 licensed landfill sites inspected by officials from the Environment and Heritage Service, none were found to have accepted hazardous or toxic waste.

Medical Services

David Simpson: To ask the Secretary of State for Northern Ireland how many *(a)* GP practices, *(b)* dental practices, *(c)* ophthalmic practices and *(d)* pharmacies there were in Northern Ireland in each of the last five years. [83939]

Paul Goggins: The information requested is detailed in the following table.

General practices, dental, ophthalmic and pharmaceutical practices in Northern Ireland in each of the last five years

	General practices	*Dental surgeries*	*Ophthalmic practices*	*Number Pharmacies*
2001	[1]359	n/a	n/a	[1]509
2002	[1]367	n/a	[2]23 1	[1]508
2003	[3]364	n/a	[2]235	[1]509
2004	[1]366	[3]362	[2]231	[1]511
2005	[1]364	[1]363	[2]236	[1]510

n/a = Not available.

Central Services Agency.

David Simpson: To ask the Secretary of State for Northern Ireland how many *(a)* GPs, *(b)* dentists, *(c)* optometrists and *(d)* pharmacies there were per 100,000 resident population in Northern Ireland in each of the last five years, (i) in total and (ii) broken down by health board. [83940]

Paul Goggins: The information requested for parts (i): *(a)*, *(b)* and *(c)* is detailed in Table 1. The information for (i): *(d)* is not available as the Central Services Agency does not hold information on the number of pharmacists in Northern Ireland. The information requested for (ii): *(a)* and *(b)* is available for a restricted number of years and is detailed in Tables 2 and 3 respectively. The information for (ii): *(c)* and *(d)* is not available.

Table 1: Total number of GPs, dentists and optometrists per 100,000 population in Northern Ireland in each of the last five years

	General practitioners	*Dentists*	*Optometrists*
2001	[1]62.81	[2]239.84	[1]24.03
2002	[1]63.42	[2]40.61	[1]26.23
2003	[3]63.20	[2]40.88	[1]26.14
2004	[1]63.03	[1]42. 80	[1]27.30
2005	[1]63.38	[1]44.61	[1]29.35

[1] October.
[2] April.

Central Services Agency.

Table 3: Dentists per 100,000 population in Northern Ireland by health board area in each of the last two years

	Eastern board	Northern board	Southern board	Western board
				Number
October				
2004	48.8	44.0	44.5	40.5
2005	50.6	44.7	48.2	41.9

Notes:
1. The number of dentists by board area is not available for 2001, 2002 and 2003. Dentists can work in more than one board area, so may be counted more than once.
2. NISRA population mid-year estimates have been used to calculate total number per 100,000 population.
3. Population mid-year estimate for 2004 was used for 2004 and 2005 calculation.

Central Services Agency.

David Simpson: To ask the Secretary of State for Northern Ireland what percentage of *(a)* GPs, *(b)* dentists, *(c)* optometrists and *(d)* pharmacists were (i) male and (ii) female in each of the last five years. [83943]

Paul Goggins: The information requested for general practitioners, dentists and optometrists is detailed in the following table. The information requested is not available for pharmacists.

Gender split of GPs, dentists and optometrists in Northern Ireland in each of the last five years

	GP		Dentists		Optometrists	
	Male	Female	Male	Female	Male	Female
						Percentage
2001	68	32	n/a	n/a	46	54
2002	66	34	n/a	n/a	46	54
2003	[1]66	[1]34	n/a	n/a	[2]49	[2]51
2004	65	35	[1]58	[1]42	49	51
2005	64	36	56	44	49	51

n/a = Not available.
[1] November.
[2] July.
Notes:
1. The Central Services Agency does not hold this information on the number of pharmacists in Northern Ireland.
2. All figures are as at October unless otherwise indicated.

David Simpson: To ask the Secretary of State for Northern Ireland what the total number of eye tests claimed for in Northern Ireland was in each of the last 10 years; and what percentage of those who had eye tests subsequently received *(a)* spectacles for the first time and *(b)* replacement or repairs of spectacles. [83952]

Paul Goggins: Table 1 shows the total number of eye tests claimed for in Northern Ireland in each of the last 10 years. The percentage of those who had eye tests that subsequently received spectacles for the first time is not available, however we do know the total number of spectacle vouchers issued (Table 2). The percentage of those who had eye tests that subsequently received replacement or repair of spectacles is not available, however we do know the total number of repairs or replacements of spectacles in the last seven years. This information is provided in Table 3.

Table 1: Number of Health Service Sight Tests

1995-96	196,731
1996-97	212,000
1997-98	227,000
1998-99	235,603
1999-2000	305,148
2000-01	306,503
2001-02	325,998
2002-03	333,928
2003-04	345,966
2004-05	346,925

Notes:
Health Service sight tests are restricted to certain groups of the population such as children and those with particular medical conditions. In addition, from 1 April 1999, patients aged 60 and over were eligible for Health Service sight tests.

Northern Ireland Police Fund

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 5 July 2006, *Official Report*, column 1180W, on the Northern Ireland Police Fund, whether the finances of the Northern Ireland Police Fund are subject to *(a)* monthly, *(b)* quarterly, *(c)* six monthly and *(d)* annual returns to his Department. [84759]

Paul Goggins: The Northern Ireland Police Fund is required to provide financial monitoring information on a monthly basis and after the end of each financial year to provide its audited accounts to the Department.

David Simpson: To ask the Secretary of State for Northern Ireland who ordered the internal audit by his Department of the Northern Ireland Police Fund which followed the breach of security at the fund; whether they did so under instruction by a Government Minister; and whether the audit uncovered any *(a)* systems failures and *(b)* financial irregularities. [84761]

Paul Goggins: In respect of the alleged breach of security at the Northern Ireland Police Fund a full police investigation has been carried out within the fund. This investigation has now been completed and involved a comprehensive programme of interviews. No persons have been prosecuted as a result of this investigation. It would not be appropriate to comment on the operational detail of the investigation as such issues are a matter for the Chief Constable.

The board of directors asked the NIO internal audit to complete a review of the Northern Ireland Police Fund. All matters relating to the report are a matter for the fund.

David Simpson: To ask the Secretary of State for Northern Ireland if he will publish in full the initial internal audit of the Northern Ireland Police Fund conducted by his Department after the 2003 breach of security at the fund. [82923]

Paul Goggins: In respect of the alleged breach of security at the Northern Ireland Police Fund a full police investigation has been carried out within the fund. This investigation has now been completed and involved a comprehensive programme of interviews. No persons have been prosecuted as a result of this investigation.

The audit report referred to was requested by the Northern Ireland Police Fund. Any matters relating to the report are a matter for the fund.

David Simpson: To ask the Secretary of State for Northern Ireland whether the internal audit of the Northern Ireland Police Fund conducted by his Department after the 2003 breach of security at the fund was accepted by the Board of Directors of the fund; and whether a second audit was conducted. [82924]

Paul Goggins: The audit report referred to was requested by the Northern Ireland Police Fund. Any matters relating to the report are a matter for the fund.

David Simpson: To ask the Secretary of State for Northern Ireland whether the internal audit of the Northern Ireland Police Fund conducted by his

Department after the 2003 breach of security at the fund was classed as restricted by any *(a)* senior officer and *(b)* member of staff of the fund. [82925]

Paul Goggins: The audit report referred to was requested by the Northern Ireland Police Fund. Any matters relating to the report are a matter for the fund.

David Simpson: To ask the Secretary of State for Northern Ireland when the internal audit of the Northern Ireland Police Fund conducted by his Department after the 2003 breach of security at the fund was completed. [82926]

Paul Goggins: All matters relating to the internal audit report on the Northern Ireland Police Fund are a matter for the fund.

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 5 July 2006, *Official Report*, column 1179W, on the Northern Ireland Police Fund, on what date *(a)* Ms A. Paisley, *(b)* Mrs. F. Reid, *(c)* Lord Rogan, *(d)* Mr. R. Wilson and *(e)* Sir John Semple ceased to be directors of the Northern Ireland Police Fund. [84750]

Paul Goggins: The Northern Ireland Police Fund has advised me that the following Directors of the fund resigned with effect from the dates listed:

Director	*Date of resignation*
Ms A. Paisley	3 March 2006
Mrs. F. Reid	31 January 2005
Lord Rogan	31 March 2005
Mr. R. Wilson	31 March 2004
Sir J. Semple	31 January 2005

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 5 July 2006, *Official Report*, column 1179W, on the Northern Ireland Police Fund, what percentage of staff at the fund are employed by his Department; and what that percentage was on 31 December 2003. [84751]

Paul Goggins: Currently 60 per cent. of the staff of the fund are seconded from the Northern Ireland Civil Service. At 31 December 2003 this figure was 12.5 per cent.

Paramilitary Paraphernalia

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people have been *(a)* charged with and *(b)* convicted of offences involving the (i) wearing and (ii) display of items associated with paramilitary organisations in Northern Ireland in each year since 2001; and how many related to (A) Loyalist and (B) Republican displays in each case. [71115]

Paul Goggins: The Police Service of Northern Ireland have confirmed that they have no records of anyone being charged with these offences since 2001.

The NIO Statistics and Research branch have confirmed that they have no record of convictions for these offences between the years 2001 and 2003.

Data that might detail convictions from 2004 to present time will not be available until late summer.

Police

David Simpson: To ask the Secretary of State for Northern Ireland how frequently the list of organisations of which members of the Police Service Northern Ireland must notify the authorities of their membership is reviewed. [84588]

Paul Goggins: Section 51(2) of the Police (NI) Act 2000 provides the Chief Constable with the power to give guidance to officers on any membership which a police officer believes he has, or not, of an organisation which may be regarded as affecting that officer's ability to discharge his duties effectively and impartially. I am advised by the PSNI that all General Orders are reviewed on an annual basis and that during this annual review, the list of organisations will also be revisited. This review of the list of organisations will then be placed before the Chief Constable's Forum for final decision.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many police officers in Northern Ireland have been suspended from duty as a result of investigations by the policing ombudsman in each of the last three years. [70429]

Paul Goggins: The PSNI has advised that two police officers in Northern Ireland have been suspended from duty as a result of investigations by the Police Ombudsman in 2003 and three officers were suspended in 2004. No officers were suspended in 2005 or 2006 as of 7 July 2006.

Post Office Contracts

Danny Alexander: To ask the Secretary of State for Northern Ireland for which services *(a)* his Department and *(b)* its associated public bodies hold contracts with the Post Office; and what the (i) start and (ii) termination date is of each contract. [81538]

Mr. Hanson: The following table lists all current contracts with Post Office Ltd held by Northern Ireland Departments and their associated public bodies.

Department	Service	Start date	End date
Livestock and Meat Commission for Northern Ireland (LMC):	"Presstream" and "Mailsort" services for delivery of weekly LMC bulletin.	29 October 2006	Open ended (seven days notice by either party)
Driver And Vehicle Licensing Northern Ireland	Processing motor vehicle licensing renewals	1 April 2002	31 March 2007
Social Security Agency	Post Office card account (POCA) banking services	1 April 2003	31 March 2010

Rates

Dr. McCrea: To ask the Secretary of State for Northern Ireland what formula is used to calculate the average rate for households in Northern Ireland. [82598]

Mr. Hanson: The average domestic rate for households in Northern Ireland consists of the average of the 26 district council domestic rates plus the domestic regional rate.

The formula for calculation of the average rate for households is as follows: Each year, district councils' estimated net expenditure is reduced by anticipated general grant payments and any balance that councils have indicated they wish to apply, to determine the net amount to be raised from district rates. This figure is divided by the total penny product (the income from one penny in the rates) to give the average non-domestic rate. The average non-domestic rate is then multiplied by the Northern Ireland growth factor to determine the average domestic rate. The average domestic rate for 2006-2007 is 157.33 pence

The regional domestic rate is a single rate applied uniformally across Northern Ireland. It is determined by dividing the domestic rate revenue required in the Budget by the domestic tax base, currently defined in rental values.

The average domestic rate in 2006-07 is 355.50 pence, which is the sum of the uniform regional domestic rate of 198.17p and the average district rate of 157.33p.

Redundancy

David Simpson: To ask the Secretary of State for Northern Ireland how redundancy packages are calculated for *(a)* the Northern Ireland Office and *(b)* Northern Ireland Police Fund staff. [82990]

Paul Goggins: All benefits payable on redundancy terms which apply to staff in the Northern Ireland Office who are members of the Home Civil Service are determined under the Civil Service Compensation Scheme.

All benefits payable on redundancy terms which apply to staff in the Northern Ireland Office who are members of the Northern Ireland Civil Service are determined under the Civil Service Compensation Scheme (Northern Ireland).

The terms and conditions for the employment of staff in the Northern Ireland Police Fund are a matter for the fund.

Road Improvements

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland when the major planned roadworks on the A2 between Limavady and Coleraine will *(a)* begin and *(b)* be concluded. [85726]

David Cairns: The acting chief executive of roads service Mr. Geoff Allister has written to the hon. Gentleman in response to this question.

Letter from Geoff Allister, dated 17 July 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about when the major planned roadworks on the A2 between Limavady and Coleraine will (a) begin and (b) be concluded. As this issue falls within my responsibility as Acting Chief Executive of Roads Service, I have been asked to reply.

It is assumed that you are referring to the planned improvements for the A37, the main route between Limavady and Coleraine.

Roads Service plans to carry out a major improvement scheme to provide a 2.3 kilometre long climbing lane to improve overtaking opportunities for Coleraine-bound traffic on the A37 west of Keady mountain.

It was expected to commence construction work on this scheme during this financial year, however this has had to be deferred because of land acquisition difficulties. We are hopeful that construction will commence in 2007/2008.

We are mindful of the elevation of the site and propose to programme the works to commence in the spring and be completed by the autumn to avoid the need to divert traffic onto other less suitable mountain roads during winter conditions.

Sectarian Attacks

Dr. McCrea: To ask the Secretary of State for Northern Ireland how many sectarian attacks there were in each parliamentary constituency in Northern Ireland in each of the first four months of 2006. [71214]

Paul Goggins: The statistics have been split by police District Command Unit and have been provided for the months of Jan, Feb and Mar 2006-April 2006 statistics are not yet available.

	Violent crimes				Non-violent crimes			
	January 2006	February 2006	March 20006	January to March 2006	January 2006	February 2006	March 2006	January to March 2006

Sex Offenders

Lady Hermon: To ask the Secretary of State for Northern Ireland how many persons on the Sex Offenders Register in Northern Ireland have re-offended whilst on licence in each of the last five years. [81810]

Mr. Hanson: Probation Board for Northern Ireland have responsibility for the post-release supervision of persons subject to life licences and sex offender licences. Of the 17 persons released in the last five years who are subject to a life licence or sex offender licence, and who are also subject to the notification requirements of the Sexual Offences Act 2003, one person has been reconvicted.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many persons on the Sex Offenders Register in Northern Ireland on licence have had their licence revoked in each of the last five years. [81811]

Mr. Hanson: The Probation Board for Northern Ireland has responsibility for the post-release supervision of persons subject to life licences and sex offender licences. In the last five years, three offenders on sex offender licences who were also subject to the notification requirements of the Sexual Offences Act 2003 were returned to prison for breach of licence conditions, two in 2001 and one in 2002. There have been no licences revoked in any of the last five years in respect of those subject to a life licence or sex offender licence who are also subject to the notification requirements of the Sexual Offences Act 2003.

Victims March (Dublin)

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 5 July 2006, *Official Report*, column 1187W, on the Victims March (Dublin), what assurances he sought from Ministers of the Irish Republic *(a)* about the safety of Northern Ireland citizens while in Dublin in the future and *(b)* regarding the prosecution of people identified as being involved in the attacks upon citizens of Northern Ireland in Dublin on 25 February 2006. [84760]

Mr. Hain: This was an unfortunate but isolated incident. I understand 41 people were arrested during the disorder that occurred on 25 February: the decision to prosecute is a matter for the Director of Public Prosecutions. The safety of Northern Ireland citizens, whether in Dublin or Belfast or anywhere else, remains paramount for me and of course I discussed this and keep in touch with Ministers of the Irish Republic.

Westminster Election (Expenditure)

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much was spent on the running of the 2001 Westminster election in Northern Ireland. [19580]

Mr. Hanson: The spend in relation to the parliamentary general election held on 7 June 2001 in Northern Ireland was £1.65 million.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Cars

Mr. Ruffley: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned cars were recorded in each local authority in England in each year since 1997. [82909]

Mr. Bradshaw: Numbers of abandoned vehicles for each local authority were primarily collected from 2000-01 to 2003-04 from the DEFRA Municipal Waste Management Survey and from WasteDataFlow in 2004-05. Results from authorities that responded have been placed in the Library of the House. Numbers were not collected prior to 2000-01 and results for 2005-06 are not yet available.

Air Quality

Mr. Evennett: To ask the Secretary of State for Environment, Food and Rural Affairs if he will visit the London borough of Bexley to discuss air quality with residents. [85990]

Mr. Bradshaw: There are no plans at present to visit the London borough of Bexley.

Carbon Islands

Mr. Ian Austin: To ask the Secretary of State for Environment, Food and Rural Affairs what research he has evaluated on carbon islands as a preventive measure for climate change. [84744]

Ian Pearson: I understand carbon islands to mean the production of biomass grown by hydroponics on artificial islands in tropical seas. My Department has not evaluated any research on this idea as a way to mitigate the effects of climate change.

Energy Efficiency

Nick Harvey: To ask the Secretary of State for Environment, Food and Rural Affairs what targets have been set for Government departments' consumption of *(a)* gas, *(b)* electricity and *(c)* all power from renewable sources. [82420]

Ian Pearson: On 12 June the Prime Minister and my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs announced new sustainable operations targets for the Government estate. They replace the previous targets in the Framework for Sustainable Development on the Government Estate, and will drive improvements in the way Departments manage their land and buildings sustainably.

These new commitments do not set a separate target for gas and electricity consumption on the Government estate. Instead Government have set targets on overall energy efficiency, carbon emissions and carbon neutrality, all of which will apply from April 2006. A table of the new targets follows as annex A. In addition, the existing commitment that Government Departments should source at least 10 per cent. of their electricity from renewables will remain in place until 2008.

Departmental performance against Government estate targets, including carbon emissions and energy efficiency, has been published in annual Sustainable Development Government Reports. The last report was produced by the Sustainable Development Commission, the independent watchdog, in December 2005. It covered the reporting period April 2004 to March 2005 and is available at: http://www.sd-commission.org.uk/watchdog.

Annex A: Targets for sustainable operations on the Government estate[1]

Priority area	*Targets*
Climate change and energy	
Carbon emissions from offices	Reverse the current upward trend in carbon emissions by April 2007
	Reduce carbon emissions by 12.5 per cent. by 2010-11, relative to 1999-2000 levels
	Reduce carbon emissions by 30 per cent. by 2020, relative to 1999-2000 levels
Carbon emissions from road vehicles	Reduce carbon emissions from road vehicles used for Government administrative operations by 15 per cent. by 2010-11, relative to 2005-06 levels
Carbon neutral	Central Government's office estate to be carbon neutral by 2012
Energy efficiency	Departments to increase their energy efficiency per sq m by 15 per cent. by 2010, relative to 1999-2000 levels.
	Departments to increase their energy efficiency per sq m by 30 per cent. by 2020, relative to 1999-2000 levels
Sustainable consumption and production	
Waste arisings	Departments to reduce their waste arisings by 5 per cent. by 2010, relative to 2004-05 levels
	Departments to reduce their waste arisings by 25 per cent. by 2020, relative to 2004-05
Recycling	Departments to increase their recycling figures to 40 per cent. of their waste arisings by 2010
	Departments to increase their recycling figures to 75 per cent. of their waste arisings by 2020
Natural resource protection	
Biodiversity	Departments to meet or exceed the aim of having 95 per cent. of Sites of Special Scientific Interest (SSSIs) in sole ownership or control in target condition by 2010

Annex A: Targets for sustainable operations on the Government estate[1]

Priority area	*Targets*
Water consumption	Reduce water consumption by 25 per cent. on the office and non-office estate by 2020, relative to 2004-05 levels
	Reduce water consumption to an average of $3m^3$ per person/year for all new office builds or major office refurbishments
Government to mandate	Departments to adopt the Carbon Trust's Carbon Management Programme—involves the proactive management to the risks and opportunities relating to climate change mitigation
	The application of BRE's Environmental Assessment Method (BREEAM) excellent standards, or equivalent, to all new builds and major refurbishments
	Accepted elements from the Sustainable Procurement Task Force National Action Plan
	OGC's Property Benchmarking Scheme—aimed at improving the efficiency and effectiveness of corporate estate management
	All Departments to have Environmental Management Systems based, or modelled upon, a recognised system
	Data collection and reporting—identification of core data to be reported against the new targets
	All Departments to encourage staff to take an active role in volunteering in the community
	All Departments to conduct sustainability appraisals of office relocations
Existing Sustainable Operational Commitments (to continue until completion)	Departments to source at least 10 per cent. of electricity from renewables (31 March 2008)
	Departments to source at least 15 per cent. of electricity from Combined Heat and Power (2010)

[1] Vision for the Government estate: A sustainably managed estate which is modern, resource efficient, with low energy buildings; well conserved and managed land; efficient use of space and ways of working; and where the principles of sustainable development are embedded into our working practices.

Note

The above sustainable operational targets to apply for the reporting period April 2006-March 2007

Environmental Directives

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* letters of warning, *(b)* infringement notices and *(c)* prosecutions have been instigated by the European Commission against his Department since May 1997 in relation to environmental directives, including failure to meet transposition dates; and what the circumstances were of each case. [84963]

Ian Pearson: DEFRA was created in June 2001. Between 1 June 2001 and 30 June 2006 the Department was the lead Department for 60 environmental infringement proceedings initiated by the European Commission. The following table lists these by year:

	Number
1 June to 31 December 2001	10
2002	7
2003	20
2004	12
2005	4
2006	7

A member state can be infracted for a number of different reasons falling into the following categories: late transposition, poor transposition and implementation issues. The infraction procedure begins with an initial pre-litigation stage, during which the Commission issues first a letter of formal notice (article 226 letter).

A list of all infringements, including environmental ones, initiated by the European Commission against the UK can be found on the European Commission website at:

http://ec.europa.eu/community_law/eulaw/index_en.htm-infractions

Greenhouse Emissions

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms exist to ensure the accuracy of *(a)* national and *(b)* international reporting of greenhouse gas emissions. [85231]

Ian Pearson: Annex I Parties to the Kyoto Protocol are required to submit Greenhouse Gas Inventories to the United Nations Framework Convention on Climate Change (UNFCCC) every year. These inventories are compiled using methodologies devised by the International Panel on Climate Change and agreed by the UNFCCC. Once submitted, the inventories are scrutinised by international experts to ensure their completeness and accuracy.

In the UK, inventory data are subject to an audited quality control and assurance programme. This ensures that the data sources are reliable and quality checked, that the choice of methodologies is transparent, and that data are consistent over time, complete, comparable, and assessed for uncertainties. When required, methodological changes are made to take account of new data sources, new guidance from the IPCC, relevant work by other international organisations, new research, or specific research programmes sponsored by DEFRA. Such improvements to the methodology are applied retrospectively to ensure a consistent time series of emissions.

DEFRA periodically tests the accuracy of key source sector estimates in the national inventory by undertaking independent peer review. Reviews completed to date include carbon dioxide from fossil fuel combustion and agriculture. DEFRA also funds independent verification of the reliability of the emissions estimates by combining measurements of the concentrations of selected greenhouse gases at Mace Head in Ireland and a model of atmospheric transport developed by the Met Office.

Methyl Bromide

Mr. Horam: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in the UK towards the Montreal Protocol aim of phasing out the use of methyl bromide. [84511]

Ian Pearson: Under the Montreal Protocol, methyl bromide use was phased out in developed countries from 2005, except for quarantine and pre-shipment purposes, and critical uses agreed by the parties to the Protocol and (in the EU) licensed by the European Commission.

In 2006, agreed UK critical uses amount to up to 33 tonnes. This shows a significant downward trend of less than half the previous amount licensed for 2005 (some 70 tonnes). 2006 is the last year that methyl bromide will be used by the agricultural sector in soil. UK nominations of 11 tonnes for critical uses in 2007 continue the downward trend.

Methyl bromide is an ozone depleting substance and the Government's policy is to support further critical uses only where lack of availability would cause significant market disruption and there are no technical or economically feasible alternatives.

Mr. Horam: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department *(a)* provides assistance for and *(b)* promotes the development of alternatives to (i) sulphuric acid in the cultivation of potatoes and (ii) methyl bromide as a pesticide in agriculture. [84512]

Ian Pearson: The Department does not generally seek to find alternatives to specific uses of chemicals such as those listed, since this is a matter for the industry sectors concerned. However, it is funding a small number of projects, some jointly with industry, on the development of alternatives to methyl bromide, particularly in the horticulture sector.

Additionally, our pesticides research and development programme includes alternative crop protection technologies projects which aim to support Government policy directed at the minimisation of conventional chemical pesticide use. DEFRA's Pesticides Safety Directorate administers a research budget of about £5.5 million per year, of which over £1 million is applied to support this objective.

Radioactive Waste

Mr. Dai Davies: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the letter sent on 16 June 2006 to the Secretary of State for Trade and Industry on the future of Nirex and policy on the management of radioactive waste. [84951]

Ian Pearson: No. It is inappropriate to place private ministerial correspondence in the Library of the House.

However, it might be helpful to explain and put into context the current role of Nirex in the management of radioactive waste.

Responsibility for securing the safety of the public and the environment rests with the independent regulators—the Health and Safety Executive (HSE) and the environment agencies (the Environment Agency, EA, in England and Wales and the Scottish Environment Protection Agency, SEPA, in Scotland).

The nuclear operators are required to demonstrate to the regulators that the risks to the public and the environment from their activities, including the management of radioactive waste, are reduced as low as reasonably practicable. In support of their safety cases for the packaging and disposal of radioactive waste, the operators may seek advice from Nirex.

Nirex is not a regulator. It is a company that is jointly owned by the Department for Environment, Food and Rural Affairs (DEFRA) and the Department of Trade and Industry (DTI) that advises nuclear site operators on the preparation of the industry's safety case submissions to the regulators for the conditioning and packaging of waste.

It is the independent regulators who take decisions on the acceptability of waste conditioning and packaging safety cases submitted to them. The environment agencies have teams that scrutinise Nirex's contribution to the safety case process. It is regulators who are responsible for applying and determining the statutory safety requirements of the Nuclear Installations Act 1965 and the Radioactive Substances Act 1993.

The Nuclear Decommissioning Authority (NDA) is the strategic UK-wide body with responsibility for securing the clean-up and decommissioning of public sector nuclear liabilities and the treatment, storage, transportation and disposal of hazardous materials including radioactive waste. It is the owner of most of the UK's radioactive waste.

The majority of Nirex's current funding—over 90 per cent.—comes from a contract with the NDA. The remainder comes through an agreement with the Ministry of Defence (MoD). The company also receives payment from nuclear site operators for supply of their waste conditioning and packaging advice.

Rights of Way

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs how many rights of way have been *(a)* reopened and (b) established in (i) Southend-on-Sea, (ii) Essex and (iii) Hertfordshire in the last five years for which figures are available. [85306]

Barry Gardiner: Responsibility for improving the rights of way network, and ensuring that routes are properly recorded and maintained, rests with individual local highway authorities.

Data on how many new routes have been re-opened and established is not collected centrally by DEFRA.

Rural Life

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what his most recent assessment is of the rate of closure of *(a)* village halls, *(b)* village shops and *(c)* rural pubs since 1980; and if he will make a statement. [84637]

Barry Gardiner: Information from Action for Communities in Rural England shows that, of the 9,000 village halls on Rural Community Council databases, just five are known to have closed in the past few years. The Department does not hold information on the rate of closure of village shops or rural pubs.

The Government recognise that village halls, shops and pubs can all play a part in helping rural communities to thrive. That is why, among other things, we have extended mandatory rate relief at 50 per cent. to include sole village public houses, petrol stations and village food shops under the village shop scheme.

Special Protection Areas

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what recent guidance English Nature has published on *(a)* mitigation and *(b)* avoidance measures in relation to special protection areas; and what plans it has for publishing future guidance. [85616]

Barry Gardiner: English Nature has published a draft Thames Basin Heaths Delivery Plan. This is designed to provide a means of mitigating against the potential adverse effects of increased housing around the Thames Basin Heaths Special Protection Area.

The Government Office for the South East is working with English Nature to explore the practicalities and flexibilities in the delivery plan approach, and to provide advice to local authorities and developers.

The delivery plan, along with other research evidence, will be considered at the Examination in Public of the South East Plan in November.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Keith Simpson: To ask the Secretary of State for International Development which civilian individuals on the ground are responsible for overseeing reconstruction efforts in Afghanistan. [84198]

Hilary Benn: Afghanistan is a sovereign nation which has an elected Parliament and President. The Government of Afghanistan are therefore the civilian body responsible for overseeing the reconstruction efforts in Afghanistan. The Afghanistan Compact signed at the London Conference in January 2006, commits the Government of Afghanistan to lead on the reconstruction process in Afghanistan over the next five years, with support from the international community. The Government's plans are described in the interim Afghan National Development Strategy (iANDS), also launched at the London Conference. The UN has a Special Representative of the Secretary General in Kabul (currently Tom Koenigs). It is the responsibility of this person to help co-ordinate the international community's efforts. He is the joint chair of the Joint Co-ordination Monitoring Body (JCMB) which helps to make sure progress is seen against the targets set in London.

As far as DFID civilian staff are concerned, I refer the hon. Member for Mid Norfolk to the response I gave on 10 July 2006, *Official Report*, column 1405W to the hon. Member for the Forest of Dean (Mr. Harper).

African Aid

Miss McIntosh: To ask the Secretary of State for International Development if he will make a statement on progress in providing aid to Africa following the G8 Gleneagles Summit in 2005. [84519]

Hilary Benn: Important progress has been made since Gleneagles on delivering G8 commitments to support development in Africa. This includes an increase in international aid of around 25 per cent. between 2004 and 2005 to over $100 billion, putting us well on track to reach the target of $130 billion in global aid by 2010. Half of this extra money will go to Africa, so that by 2010 it will be receiving $50 billion a year—double the aid it received in 2004. DFID met its pledge to provide £1 billion in aid to Africa through its country programmes in 2005-06 and is on track to double its bilateral programme by 2010-11. The Gleneagles pledges represent a long-term agenda and the Government remain committed to ensuring that all 2005 promises are fully implemented.

Agency Staff

Ms Katy Clark: To ask the Secretary of State for International Development what average hourly rate was paid by his Department to each employment agency for staff employed through agencies in 2005-06. [81493]

Mr. Thomas: DFID periodically engages temporary staff, both administrative and professional, through employment agencies. Only some information on agency hourly rates is held centrally; for those agencies who supply staff to DFID regularly. The average hourly rate for these agencies, who supply mainly junior administrative grades, is as follows:

Grade C2 - £7.30 Glasgow, Margaret Hodge Recruitment Agency £7.46 Glasgow, TempTeam

Grade C1 - £8.75 - Glasgow, Margaret Hodge Recruitment Agency £10.95 - London, Josephine Sammonds

Other agencies are used on an ad hoc basis but information about these agencies is not held centrally and could be secured only at disproportionate cost.

DFID will be joining an existing arrangement, set up by the Prison Service, this year and once this comes into force information will be more readily available.

Child Labour

Mrs. James: To ask the Secretary of State for International Development what work his Department is undertaking on *(a)* reducing and *(b)* preventing child labour in (i) Asia, (ii) Africa and (iii) Latin America. [84473]

Mr. Thomas: The UK is committed to the elimination of child labour wherever it occurs. DFID is funding projects worth more than £20 million around the world, which aim to address the plight of those

children already in work as well as to prevent further child labour. Many of these projects also tackle the trafficking of children for work. In addition, many of DFID's broader poverty reduction programmes are also helping to get children out of work and into education and are protecting children from having to take on harmful jobs to survive.

In Asia, DFID is supporting the work of the International Labour Organisation's (ILO) International Programme for the Elimination of Child Labour (IPEC). For example, in India, DFID is currently providing over £2.5 million for their programme in the state of Andhra Pradesh. DFID is also providing nearly £9 million to the ILO's programme in the Greater Mekong Region to end trafficking of women and children for exploitative labour.

In Africa, DFID is supporting many countries to provide free universal primary education. Many of the most vulnerable cannot afford school fees or seek work to pay for schooling. In Tanzania, DFID is providing £110 million this year for the implementation of the Government's national strategy for growth and poverty reduction. Child labour is a key challenge that this strategy seeks to address and free primary education is part of the response.

In Latin America, support is focused on street children. In Brazil, Peru, and Central America, DFID has funded projects aimed at reducing the numbers of children living and working on the streets by providing them with realistic alternatives.

Mrs. James: To ask the Secretary of State for International Development what discussions he has had with *(a)* the UN and *(b)* UK-based humanitarian charities about child labour in developing countries. [84476]

Mr. Thomas: The UK is in regular contact with both the International Labour Organisation (ILO) and UNICEF, the lead UN agencies working to eliminate child labour. My right hon. Friend the Secretary of State's recent discussions with these organisations have not focused specifically on child labour. DFID is a major funder of both organisations, with a current commitment of over £15 million to the ILO's programmes to combat child labour and the trafficking of children. DFID also provided £19 million in core funding to UNICEF programmes in 2005, including support to their Child Protection programme.

My right hon. Friend the Secretary of State for International Development regularly holds meetings with UK-based non-governmental organisations (NGOs) which often have issues relating to child labour on their agenda. However there has been no specific discussion of child labour in recent meetings. DFID funds a number of UK-based NGOs, including Save the Children Fund (SCF) and World Vision, to implement projects addressing child labour issues, including trafficking and street children.

Mrs. James: To ask the Secretary of State for International Development what representations his Department is making on reducing the need for child labour. [84570]

Mr. Thomas: DFID's overarching mission is to address extreme poverty which is the underlying cause of most child labour. DFID supports many activities which will enable children and families to survive without depending on income from child labour.

In the White Paper published last week, the Government restate their commitment to the elimination of child labour and the development of social protection measures to ensure that poor families and vulnerable children do not need to depend on child labour.

A number of DFID programmes already support social protection. For example, DFID is supporting the development of the Ghana Social Protection Strategy. One of the flagship projects of this strategy is the provision of cash payments to families living in chronic poverty, some of whom currently depend on their children's income. In Zimbabwe, DFID is providing £30 million to the Protracted Relief Programme which is supporting food security for £1.5 million households in extreme poverty and will mean that many children, including those orphaned by AIDS, will not have to undertake harmful work to survive.

Mrs. James: To ask the Secretary of State for International Development what estimate his Department has made of the extent of child labour in *(a)* Mexico, *(b)* Belize, *(c)* Argentina, *(d)* Bolivia, *(e)* Brazil, *(f)* Chile, *(g)* Columbia, *(h)* Cuba, *(i)* Ecuador, *(j)* El Salydor, *(k)* Guatemala, *(l)* Guyana, *(m)* Haiti, *(n)* Honduras, *(o)* Nicaragua, *(p)* Panama, *(q)* Paraguay, *(r)* Peru, *(s)* Surinam, *(t)* Uruguay and *(u)* Venezuela; and if he will make a statement. [84883]

Mr. Thomas: DFID uses data from the International Labour Organisation (ILO) and UNICEF to estimate the extent of child labour. Between 2000 and 2004, the number of children at work in Latin America and the Caribbean fell by two thirds. Just over 5 per cent. of children in the region are now working. According to the ILO, the levels of child labour in Latin America and the Caribbean are now similar to those of some developed and transition economy countries.

The datasets on child labour available from the ILO and UNICEF differ and are not available for all countries. The Statistical Information and Monitoring Programme from the ILO collate estimates on the number of working children based on national survey data. UNICEF estimates the percentage of children (aged five to 14) who are in child labour.

The data available for the countries requested are as follows:

	Data
Mexico	According to UNICEF, 16 per cent. of children aged 5 to 14 are involved in child labour. No data are available from the ILO
Belize	According to the ILO, 9,000 children between 5 and 17 years are working. No data are available from UNICEF
Argentina	No data available from either the ILO or UNICEF
Bolivia	According to the ILO there are 313,000 children between the ages of 7 and 17 in work. UNICEF estimates that 21 per cent. of children between the ages of 5 and 14 are working

	Data
Brazil	According to the ILO, there are 2.2 million child workers in Brazil. UNICEF estimates that 7 per cent. of children aged between 5 and 14 are involved in child labour
Chile	According to the ILO there are 196,104 working children between the ages of 5 and 17 in Chile. This figure represents approximately 5 per cent. of children. No data from UNICEF available
Colombia	According to the ILO, there are 1.5 million working children between the ages of 5 and 17 in Colombia. UNICEF estimates that 5 per cent. of children aged between 5 and 14 are involved in child labour
Cuba	No data from available from the ILO or UNICEF
Ecuador	UNICEF estimates that 6 per cent. of children aged between 5 and 14 are involved in child labour. No recent ILO data available
El Salvador	According to the ILO, there are 222,000 working children between the ages of 5 and 17. No data from UNICEF available
Guatemala	According to the ILO, there are 938,000 working children between the ages of 5 and 17. UNICEF estimates that 24 per cent. of children aged between 5 and 14 are involved in child labour
Guyana	UNICEF estimates that 19 per cent. of children aged between 5 and 14 are involved in child labour. No data available from the ILO
Haiti	No data from either the ILO or UNICEF available
Honduras	According to the ILO, there are 356,000 working children between the ages of 5 and 17. No data from UNICEF available
Nicaragua	According to the ILO, there are 253,000 working children between the ages of 5 and 17. UNICEF estimates that 10 per cent. of children aged between 5 and 14 are involved in child labour
Panama	According to the ILO, there are 48,000 working children between the ages of 5 and 17. No data from UNICEF available
Paraguay	UNICEF estimates that 8 per cent. of children aged between 5 and 14 are involved in child labour. No data available from the ILO
Peru	No data from UNICEF or the ILO available
Surinam	No data from UNICEF or the ILO available
Uruguay	No data from UNICEF or the ILO available
Venezuela	UNICEF estimates that 7 per cent. of children aged between 5 and 14 are involved in child labour

Clean Water

David Tredinnick: To ask the Secretary of State for International Development what steps he is taking to improve access to clean water and sanitation in the developing world. [84880]

Hilary Benn: I refer the hon. Member for Bosworth to the response I gave on 10 July 2006, *Official Report*, column 1406W.

Comprehensive Spending Review

Dr. Cable: To ask the Secretary of State for International Development what discussions he has had with the *(a)* Treasury and *(b)* Cabinet Office regarding the pre-comprehensive spending review report; and if he will make a statement. [82750]

Hilary Benn: I have had, and will continue to have, regular discussions with the Chief Secretary about preparations for the 2007 Comprehensive Spending Review, as a matter of great importance to the Department for International Development's medium and long term planning.

Departmental Staff (Sickness Absence)

David Simpson: To ask the Secretary of State for International Development pursuant to the answer of 8 June 2006, *Official Report*, column 768W, on departmental staff, why no record is maintained of the number of periods of sick absence by staff of less than five days. [84033]

Mr. Thomas: Since October 2004, when an electronic absence recording system was introduced, records of sick absences have been held centrally by DFID. This has afforded better management control of frequent and long-term sick absences. However, we are still in the process of defining the types of reports we will require on a regular basis. To provide the information in the format requested requires intensive manual manipulation of the data. We have also changed the basis of recording working patterns from days to hours, which compounds the problem of producing ad hoc reports. We are working with an external consultant towards implementing a simpler process for extracting information from existing systems, but we are unlikely to be able to produce the data until later this year.

Departmental Travel Costs

Anne Main: To ask the Secretary of State for International Development pursuant to his Answer of 10 July 2006, *Official Report*, column 1408W, on departmental travel costs, (1) what the average cost of flights was in each month; and if he will make a statement; [85622]

(2) what steps his Department is taking to reduce the *(a)* cost and *(b)* number of internal flights for his staff; and if he will make a statement; [85718]

(3) what the total cost was of these flights in 2005; and if he will make a statement. [85678]

Mr. Thomas: The average cost of flights in each month in 2005 was as follows:

	Average cost (£)
January	215.84
February	222.83
March	203.66
April	241.70
May	242.61
June	231.66
July	207.54
August	227.53
September	218.33
October	239.41
November	224.88
December	122.87

DFID's domestic travel policies ensure that staff travel only when necessary, to minimise cost and environmental impact from carbon emissions. Only top management staff may buy business class tickets. However, DFID benefits from an arrangement used by a number of Government Departments whereby

travellers on flexible economy tickets may be upgraded to business class at no extra cost. We are keen to reduce the number of internal flights and time spent travelling. We instruct staff to consider whether meetings are essential, and we have invested in modern communication systems, including video conference facilities, to reduce the need for travel.

Disability Policy

Dr. Gibson: To ask the Secretary of State for International Development what steps his Department is taking to implement its public sector duty in respect of disability policy; and what steps are taken to include *(a)* disabled people and *(b)* their representative organisations in this process. [84303]

Mr. Thomas: DFID has started its preparations for the implementation of the Disability Equality Duty, which comes into effect on 1 December 2006. We are currently developing a DFID-specific equalities screening tool, and an equalities impact assessment tool, to allow for the effective identification and assessment of policies and functions relevant to the Disability Equality Duty.

We will shortly be mapping out our Disability Equality Scheme and preparing our Disability Action Plan. At this stage we will involve disabled people's organisations as well as development organisations with a disability focus—both in the UK and in our partner countries.

DFID is already taking a number of steps to address disability issues in its approach to development. For example, DFID commissioned a Disability Knowledge and Research programme, and we have since been adopting a twin track approach to disability research. This involves mainstreaming disability into existing research initiatives and working directly towards the establishment of an emancipatory model of research with an umbrella Disabled Peoples' Organisation in Southern Africa.

DFID is also consulting disabled people's organisations, and development organisations with a disability remit, about the development of a good practice note for its staff on Inclusive Development. This will have a strong focus on the involvement of disabled people and their representatives in partner countries to ensure that disability issues are taken into account across DFID's programmes.

Disabled Children

Mark Durkan: To ask the Secretary of State for International Development (1) how much his Department has allocated to ensure that children with disabilities in developing countries receive an education in each of the last five years; and how much he plans to allocate for this purpose over the next three years; [85361]

(2) how much his Department has spent on ensuring schools in developing countries have adequate facilities to meet the needs of children with disabilities in each of the last three years. [85360]

Hilary Benn: DFID has committed some £2 billion to education over the last 10 years. In April, my right hon. Friend the Chancellor of the Exchequer, pledged to increase this sum to £8.5 billion over the next 10 years, and last month the Prime Minister promised to increase DFID's annual budget for education to £1 billion a year by 2010.

Most of this funding will be channelled to the Governments of developing countries to invest in long term, comprehensive investment plans for the education sector. We will be working with our partners to ensure that access to education by children with disabilities is part of these plans. For example, in India, DFID has supported the District Primary Education Programme, which promotes inclusive education and has helped states integrate disabled children into mainstream schools.

We will also continue to fund discrete civil society projects focused on children with disabilities. DFID has partnership agreements with a number of organisations that support disability-focused activities, such as World Vision, HelpAge International, Save the Children and VSO, among others. In addition, through our partner Action on Disability and Development, with whom we have a six-year Programme Partnership Agreement, we work to promote greater participation and inclusion of disabled people and their organisations in decision-making processes, particularly on partner Governments' Poverty Reduction Strategies.

Mark Durkan: To ask the Secretary of State for International Development what estimate he has made of the percentage of children with disabilities in developing countries who receive an education. [85362]

Hilary Benn: The Global Monitoring Report, which we regard as the most reliable source of education data, estimates that only 2 per cent. of children with disabilities in developing countries are enrolled in school. Civil society organisations working in this field make similar estimates.

All children, including those with disabilities or living in difficult circumstances, should have equal access to a good-quality basic education. DFID is committed to working with the Governments of developing countries towards the education of all children, including those with disabilities.

DFID's policy paper, 'Reducing poverty by tackling social exclusion', which has been deposited in the Libraries of the House, sets out our broad-based approach to tackling social exclusion across all sectors. The paper outlines how DFID will build on the work that is already under way and some practical actions that DFID is taking to tackle social exclusion and make a real difference to the lives of excluded people.

EU Economic Partnership Agreements

Mr. Drew: To ask the Secretary of State for International Development what assessment he has made of the effect on UK international development strategies of EU Economic Partnership Agreements. [85126]

Hilary Benn: The negotiations on Economic Partnership Agreements (EPAs) between the EU and

African, Caribbean and Pacific (ACP) countries are continuing and are due to be finalised by the end of 2007.

Based on our strategy on development and trade as outlined in the Trade and Investment White Paper 2004 (in which we supported improved trade opportunities for developing countries in line with their broader development strategies), the Government have responded to the EPA negotiations. We published a policy statement in March 2005 on how we think EPAs should be designed if they are to help the ACP countries develop. This policy determines how we will influence the EPA negotiations and assess their outcome.

Secondly, at ACP countries' request, DFID has provided substantial financial and independent technical assistance to help inform their positions in the negotiations. This includes support for the west African, eastern and southern African and Caribbean countries as well to the regional bodies which negotiate on their behalf. The UK is the largest bilateral donor in the EU providing such assistance for EPAs.

Thirdly, UK international development assistance will also respond to the needs and priorities of the ACP arising from EPAs in order to help them develop their ability to trade. DFID will provide funding through the European Development Fund. Support for developing countries, including the ACP, will also be provided through our own bilateral initiative, Aid for Trade, to which we have committed £100 million per year by 2010.

Fast Track Initiative

Mark Durkan: To ask the Secretary of State for International Development in what ways his Department is supporting the Fast Track Initiative for education in developing countries. [85358]

Hilary Benn: The UK is supporting the Fast Track Initiative (FTI) as part of our overall approach to speeding up progress towards primary education for all children by 2015. Earlier this year, I announced an additional UK contribution of £100 million to the FTI Catalytic Fund, bringing our total support to £150 million. Our contribution over the next two years will cover nearly a quarter of the funding gap in the FTI.

In addition, the UK is calling for other donors, especially G8 countries, to increase their support for an expanded FTI. We have urged other G8 countries to increase their support to education within the FTI framework, either directly through the FTI Catalytic Fund or by increasing their support for education in FTI endorsed countries.

Health Services

Andrew George: To ask the Secretary of State for International Development how much his Department has spent on health services development in developing countries in each year since 1997, broken down by country. [81832]

Hilary Benn *[holding answer 3 July 2006]:* I attach details of our bilateral general health sector spend by country for the financial years 1997-98 to 2004-05. This totalled nearly £267 million in the financial year 2004-05. We are still in the process of validating expenditure data for 2005-06 and cannot release this under National Statistics Protocols.

DFID also supports work to improve health through our regional and central programmes (including research programmes) that complement the work of our country programmes. In 2004-05, this additional support brought our total bilateral spend on the health sector to some £363 million.

In addition, we provide funding to UN agencies such as the World Health Organisation (WHO) and UNICEF, and bodies such as the Global Fund for AIDS, TB and Malaria, which are all primarily concerned with helping countries improve their health services. In 2004-05, expenditure on multilateral organisations that have a significant focus on health was £108.6 million.

DFID also provides general Poverty Reduction Budget Support to several developing countries to help build basic services. Some of this funding goes on health services, but is not captured within our sector specific spending figures which therefore somewhat underestimate our overall contribution to improving health in developing countries.

DFID bilateral spend on health 1997-98 to 2004-05

GBP £

Country	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*

SRSG database DFID Bilateral and Broad Sector.

Inclusive Education

Mark Durkan: To ask the Secretary of State for International Development in what ways his Department is supporting *(a)* inclusive education and *(b)* inclusive education in teacher training in developing countries. [85359]

Hilary Benn: DFID is committed to inclusive education and teacher training related to this, being part of education sector investment plans. In addition, DFID provides targeted support; for example in Vietnam, DFID has co-financed with the Government of Vietnam, the World Bank and other donors the Primary Education for Disadvantaged Children programme, a £243 million project which was launched

in October 2003 and includes a strong focus on inclusive education. In Kenya, DFID is supporting an innovative pilot project with Sightsavers and the Ministry of Education to provide assistive technology to all totally blind and severe low-vision students at Kenyatta University and three Teacher Training Colleagues.

Iraq

Mr. Keith Simpson: To ask the Secretary of State for International Development what recent estimate he has made of the number of internally displaced people in Iraq. [84201]

Hilary Benn: The International Organization for Migration (IOM) published figures in June 2006, which give an overall estimate of 1.3 million people internally displaced in Iraq.

Of these, the IOM believes that nearly 100,000 people have been displaced in Iraq's central and southern governorates since the bombing of the shrine at Samara on 22 February.

The IOM add that numbers are estimates only and are continually changing. More information and updates are available on the IOM website (http://www.iom.int).

Since the 2003 conflict, DFID has provided £85 million humanitarian assistance for Iraq, to help avert a major humanitarian crisis and to assist in the restoration of essential services. DFID has also contributed £32 million to the International Red Cross and Red Crescent movement in Iraq, and provided £7.2 million to non-governmental organisations (NGOs) for humanitarian work, including work to assist displaced people.

Mr. Holloway: To ask the Secretary of State for International Development if he will make a statement on the availability of medicine in hospitals in Iraq. [85873]

Hilary Benn: In 2003, following increasing concerns regarding drug shortages in Iraq, the World Health Organisation (WHO) set up a task force to look at of the problem.

Since then WHO has been working with the Ministry of Health in Iraq to improve drug supply systems. In addition to training staff, WHO is working with Iraqis to build new systems, monitor and plan the supply of essential drugs, establish quality control, and assist emergency planning. This has included direct supply of some essential medicines to Iraq.

Shortages remain and WHO advises that the national drug supply management system is still in need of technical and logistical assistance.

DFID has given most of its assistance to the Iraqi health sector through financial contributions to international organisations, including WHO, that have particular expertise in health. These contributions include:

£5 million to WHO, which has helped to fund the delivery of emergency medical supplies, supported clinics and hospitals in Baghdad and Basra, and supports the Iraqi Government's Health Sector Working Group. More information can be found at: http://www.who.int/en

£32 million to the International Red Cross for immediate humanitarian assistance

£70 million to the United Nations and World Bank multi-donor trust funds for Iraq. These trust funds finance reconstruction in a number of areas including health. The UN trust fund has approved 10 health and nutrition projects, in total valued at $96 million. The World Bank trust fund also has a $25 million health rehabilitation project which finances priority emergency services, including basic medical equipment and essential drugs. More information on both trust funds can be found at: http://www.irffi.org

Kosovo and Somalia (Aid)

Mark Simmonds: To ask the Secretary of State for International Development what aid his Department *(a)* has given in each of the last three financial years and *(b)* plans to give in each of the next three financial years to (i) Kosovo and (ii) Somalia; and what percentage (A) was and (B) is planned to be allocated (1) as bilateral aid, (2) as multilateral aid via the EU, (3) as multilateral aid via the UN, (4) as multilateral aid via Bretton Woods institutions and (5) through non-governmental organisations and other voluntary and charity sector organisations. [84128]

Mr. Thomas: In the three financial years from 2002-03, DFID spent £3.1 million, £2.5 million and £2.12 million in Kosovo, all on technical assistance. Our allocation for 2005-06 was £2.7 million. Expenditure figures are being finalised. We intend to provide approximately £3 million in 2006-07 and expect this level to continue for the next two financial years. Virtually all EC support to Kosovo is given through the European Agency for Reconstruction which provided €63 million in 2003, €73 million in 2004 and €77 million in 2005. The UK's share of this assistance is 19 per cent. Data for future years are not available. We do not have disaggregated data for expenditure on Kosovo by UN agencies and the World Bank.

DFID's programme of funding for Somalia for the last three financial years and by percentage is set out in the following table. Official figures for the financial year 2005-06 have yet to be published but the allocation was provisionally £13.2 million. Planned programme allocations for the next two financial years are as follows:

	£ million
2006-07	15.5
2007-08	21

It is currently not possible to disaggregate spending to institutions as our programme is developing in light of the ongoing Joint Needs Assessment.

Future allocations beyond 2007-08 will be announced next year following completion of the current Spending Round.

DFID Bilateral Aid and Imputed UK Share of Multilateral Aid to Somalia

£ million

	Total DFID Bilateral Programme	*Percentage*	*Imputed UK share via EC*	*Percentage*	*Imputed UK share via UN*	*Percentage*	*UK share via WB*	*Percentage*	*Total*
2002-03	3.1	52	1.9	32	0.9	16	0.0	0	5.9
2003-04	4.0	53	2.8	36	0.8	11	0.0	0	7.6
2004-05	5.3	56	3.6	38	0.6	6	0.0	0	9.5

Note
Imputed multilateral shares are available by calendar year only so these taken as proxy for financial years.
Date: 10 July2006
The majority of our bilateral aid in 2002-03 and 2003-04 was channelled through either non-governmental organisations or humanitarian agencies

Oxfam Offices (Darfur)

Mr. Drew: To ask the Secretary of State for International Development what assessment he has made of the implications of the decision of Oxfam to close two of its offices in Darfur because of the lack of security there; and if he will make a statement. [85095]

Hilary Benn: We share Oxfam's concern that the declining security situation in one area of North Darfur has forced them to close two of their local offices there. They hope their withdrawal will only be temporary, and are doing everything they can to reduce the humanitarian impact. Part of Oxfam's work is building local capacity to manage emergency water and sanitation systems, and they are confident that the water supply will not deteriorate significantly in the immediate term.

We continue to press all parties in Darfur to implement the May 2006 Darfur Peace Agreement (DPA) and the 2004 N'Djamena ceasefire to which the Sudan Liberation Movement/Army (SLM/A) as a whole and the Justice and Equality Movement (JEM) agreed.

Palestinian Territories

Mr. Hague: To ask the Secretary of State for International Development pursuant to his answer of 8 June 2006, *Official Report*, column 772W, on the Palestinian Territories, if he will place in the Library a copy of the UN's updated consolidated appeal for humanitarian assistance of 31 May. [84179]

Hilary Benn: I have arranged for the document entitled "Revised Emergency Appeal, 31 May 2006: Consolidated Appeals Process (CAP); Occupied Palestinian Territory", to be placed in the Libraries of the House.

This report can also be accessed via the Humanitarian Information Centres website at http://www.humanitarianinfo.org/opt/docs/UN/OCHA/CAP06_Revised_emergency_30May06.pdf.

Public Private Infrastructure Advisory Facility

Helen Jones: To ask the Secretary of State for International Development (1) what UK Government representation there is at the Public Private Infrastructure Advisory Facility; what UK involvement there is in its decision-making; and if he will make a statement; [82471]

(2) what assessment he has made of *(a)* the value for money supplied from UK public funds of the Public Private Infrastructure Advisory Facility and *(b)* whether the facility provides quality development assistance which has positive impacts on citizens in developing countries by helping to relieve poverty; and on what evidence those assessments are based; [82472]

(3) when the Government last reviewed their involvement in the Public Private Infrastructure Advisory Facility; and what the results were of the review; [82473]

(4) what recent assessment he has made of the *(a)* role and *(b)* value of the consensus-building activities of the Public Private Infrastructure Advisory Facility; and if he will make a statement; [82474]

(5) what the timetable is for decision-making on the annual allocation of funds to the Public Private Infrastructure Advisory Facility; and what public consultation will take place prior to any decision on this allocation. [82749]

Hilary Benn: Improving infrastructure is essential for achieving economic growth in developing countries. There is also a pressing need to increase the efficiency of infrastructure to give greater access to the poor and better value for money. Current investment flows are insufficient to fund these additional needs and the public sector alone cannot bridge the financing and efficiency gaps. A significant contribution from the private sector will be required. However, attracting private capital and participation is difficult—according to World Bank figures, private investment in developing country infrastructure fell from US$ 49.6 billion in 1997 to US$ 12.5 billion in 2003.

Among the main constraints to successful private sector participation in infrastructure are the lack of appropriate policies, laws, regulations and institutions and the weak capacity of the public sector to effectively manage private sector involvement. The PPIAF is a global technical assistance facility managed by the World Bank to address these constraints and, where requested to do so by developing country governments, facilitate and, where appropriate, raise the quality of private sector involvement in infrastructure. The PPIAF is a good example of successful donor harmonization in development. It is supported by 14 donors with a wide range of skills, knowledge and experience. As of April 2006, it had approved US$ 108.7 million funding for 495 activities in 101 countries. This funding mobilised an additional US$ 59.8 million co-financing from Governments and other donors.

A particular strength of the PPIAF is its open and transparent systems of governance. These include procedures governing the application for, and allocation of, activity funds. As a partner in a multilateral facility, DFID abides by the endorsed systems and governance arrangements.

DFID fully endorses the PPIAF's objective to help developing countries to improve the quality of their infrastructure to the benefit of the poor through effective public-private partnerships. In practice, this is largely achieved by helping Governments improve their policies, laws, regulations and institutions (their "enabling environment"). Our other objectives are to encourage greater donor coordination in designing solutions to meet the demands of developing countries, reducing transaction costs for developing countries and effective dissemination of lessons learned.

DFID does not earmark its contribution to the PPIAF. Funding is pooled with that of other donors. The breakdown of total PPIAF expenditure in US$ by sector for each of the last three years is provided in the table. Future allocations will depend on demand from Governments of developing countries.

	2003	*2004*	*2005*

Percentage	100	100	100

As a partnership arrangement, the PPIAF is jointly governed. The PPIAF has four policy and administrative organs. DFID is represented on the first two:

The Program Council is the governing body of the PPIAF, composed of representatives of the 14 donors contributing resources to the PPIAF, and chaired by the World Bank. The Program Council, which meets once a year around June time, is responsible for defining programme policies and priorities, approving an annual work plan and financial plan, reviewing PPIAF performance and overseeing other PPIAF organs.

The Donor Steering Group provides strategic direction to the Program Council. Membership of this group is on a voluntary basis and decided in consultation with the full Program Council.

The Technical Advisory Panel (TAP), comprises six international experts. It provides independent advice on strategy and evaluates the impact of the PPIAF programme by carrying out evaluations of a sample of PPIAF projects.

The PPIAF Program Management Unit (PMU) is responsible for managing the day-to-day operations of the facility with a focus on reviewing proposals, arranging delivery of PPIAF programmes and activities, and proposing and administering the work plan and budget.

Further details on these organs and the PPIAF governance structure are provided in the PPIAF Program Charter, dated May 2001, as amended from time to time, available from its website:

www.ppiaf.org

All project proposals are assessed for value for money and their potential for impact by the PPIAF. Once approved, all activities follow World Bank procurement rules that require open and transparent competition to ensure value for money. A sample of activities are systematically evaluated by the Technical Advisory Panel of independent experts that reports to the Programme Council. PPIAF evaluations have confirmed that 84 per cent. of its activities have satisfactorily achieved their original objectives.

In 2004, PPIAF donors also commissioned an independent evaluation—the 'Strategic Review', of the first five years of PPIAF's operations. The objective was to evaluate PPIAF's progress against its original objectives and identify ways for improving its performance. The report, issued in the final quarter of 2004, was very positive, concluding that the PPIAF is making an important contribution to development.

A number of recommendations were made that the PPIAF has since implemented. The recommendations included strengthening the strategic direction of the programme; increasing stakeholder involvement in the Program Council, more focus on outcomes rather than outputs; enhancing PPIAF's identity as an autonomous multi-donor facility and improving impact measurement.

Changes facilitated by the PPIAF often take a few years to deliver the anticipated improvements to the enabling environment. This has made it difficult to assess direct poverty impact to date. Improving impact measurement is an issue that is currently being addressed. One proposal is that PPIAF activity should be more closely anchored to planned infrastructure projects. Further work is in hand to gauge the impact of PPIAF activity on the International Financial Corporation's national 'doing business' ratings that address various aspects of the enabling environment.

Country-specific activities may be undertaken only where governments seek the assistance of the PPIAF.

Consensus building is essential if reforms are to be successful. Governments are responsible for leading the process. The PPIAF has played an important supporting role. For example, the PPIAF has supported the development of a series of training courses on utility regulation and finance that have been targeted at key stakeholder groups including Ministers and senior Government officials, journalists and consumer associations. The aim of the training courses is to equip stakeholders with a sound knowledge with which to appraise reforms. Two training workshops have also been held for stakeholders. The first workshop was held in South Africa in June 2005 and the second was held in Costa Rica in February 2006. Feedback provided to PPIAF on the workshops has been very positive.

DFID last reviewed its involvement with the PPIAF in July 2005, when considering a request for continued support. This review drew heavily on the findings of the independent strategic review and progress on implementing its recommendations. The strategic review reported that the PPIAF has a comparative advantage over other facilities by demonstrating clear focus, global reach, strong donor support and efficient management. It confirmed that demand for PPIAF services by Governments of developing countries is growing and that continued DFID support is critical to growth and increasing the leverage of funds required for scaling up. On this basis, DFID agreed to continue its contribution to PPIAF for a further three-year period—July 2005 to June 2008.

Donors are asked annually to consider a financial plan incorporating an estimate of future calls on donors based on the anticipated demand by Governments. The PPIAF then considers requests for funding from Governments once a quarter in light of available funds and donor pledges. DFID has agreed an indicative biannual payment schedule for meeting our commitment to the PPIAF based on the financial plan. DFID funds are only ever released on evidence of need and good performance.

DFID consults with members of the public, NGOs and other stakeholders when setting the UK policy for international development. It is not practical to consult the public on the many individual funding decisions that DFID takes to deliver this policy.

Stephen Hesford: To ask the Secretary of State for International Development (1) what assessment the Government have made of the likely impact on poverty alleviation in donor countries of the private infrastructure advisory facility; and if he will make a statement; [82582]

(2) what assessment the Government have made of the value for money of the UK's involvement with the public private infrastructure advisory facility; and if he will make a statement; [82583]

(3) how the Government seeks to influence the activities of the public private infrastructure advisory facility; what recent representations the Government have made; and if he will make a statement; [82584]

(4) what the objectives are of UK involvement in the Public Private Infrastructure Advisory Facility; what UK funding has been provided in each year to the Facility for *(a)* energy production, *(b)* the water industry and *(c)* other functions; and what UK funding has been allocated in each of the next three years. [82585]

Hilary Benn: Improving infrastructure is essential for achieving economic growth in developing countries. There is also a pressing need to increase the efficiency of infrastructure to give greater access to the poor and better value for money. Current investment flows are insufficient to fund these additional needs and the public sector alone cannot bridge the financing and efficiency gaps. A significant contribution from the private sector will be required. However, attracting private capital and participation is difficult—according to World Bank figures, private investment in developing country infrastructure fell from US$ 49.6 billion in 1997 to US$ 12.5 billion in 2003.

Among the main constraints on successful private sector participation in infrastructure are the lack of appropriate policies, laws, regulations and institutions and the weak capacity of the public sector to effectively manage private sector involvement. The PPIAF is a global technical assistance facility managed by the World Bank to address these constraints and, where requested to do so by developing country Governments, facilitate and raise the quality of private sector involvement in infrastructure. The PPIAF is a good example of successful donor harmonization in development. It is supported by 14 donors with a wide range of skills, knowledge and experience. As of April 2006, it had approved $US 108.7 million funding for 495 activities in 101 countries. This funding mobilised an additional US$ 59.8 million co-financing from governments and other donors.

A particular strength of the PPIAF is its open and transparent systems of governance. These include procedures governing the application for, and allocation of, activity funds. As a partner in a multilateral facility, DFID abides by the endorsed systems and governance arrangements.

DFID fully endorses the PPIAF's objective to help developing countries to improve the quality of their infrastructure for the benefit of the poor through effective public-private partnerships. In practice, this is largely achieved by helping governments improve their policies, laws regulations and institutions (their "enabling environment"). Our other objectives are to encourage greater donor coordination in designing solutions to meet the demands of developing countries, reducing transaction costs for developing countries and effective dissemination of lessons learned.

DFID does not earmark its contribution to the PPIAF. Funding is pooled with that of other donors. The breakdown of total PPIAF expenditure in US dollars by sector for each of the last three years is provided in the table below. Future allocations will depend on demand from Governments of developing countries.

	2003	*2004*	*2005*
Energy			
US$	792,010	2,229,500	3,663,675

US$	14,304,305	14,220,760	17,403,203
Percentage	100	100	100

The PPIAF has good systems for assessing outcomes. The following table provides broad details of these by main category since the PPIAF's inception in 1999 to December 2005.

PPIAF activities 1999-2005

Category	*Completed activities*
Facilitating transactions	54
Creating/strengthening regulatory institutions	34
New legislations and regulations	24
Public Private Sector Strategies	26
Workshops concerned with the above	176

All project proposals are assessed for value for money and their potential for impact by the PPIAF. Once approved, all activities follow World Bank procurement rules that require open and transparent competition to ensure value for money. A sample of activities are systematically evaluated by the technical advisory panel of independent experts that reports to the Program Council, which is composed of representatives of the 14 donor members. PPIAF evaluations have confirmed that 84 per cent of its activities have satisfactorily achieved their original objectives.

In 2004, PPIAF donors also commissioned an independent evaluation the 'Strategic Review', of the first five years of PPIAF's operations. The objective was to evaluate PPIAF's progress against its original objectives and identify ways for improving its performance. The report, issued in the final quarter of 2004, was very positive, concluding that that PPIAF is making an important contribution to development. A number of recommendations were made that the PPIAF has since implemented. The recommendations included strengthening the strategic direction of the programme; increasing stakeholder involvement in the PPIAF's Program Council; more focus on outcomes rather than outputs; enhancing PPIAF's identity as an autonomous multi-donor facility, and improving impact measurement.

Changes facilitated by the PPIAF often take a few years to deliver the anticipated improvements to the enabling environment. This has made it difficult to assess direct poverty impact to date. Improving impact measurement is an issue that is currently being addressed. One proposal is that PPIAF activity should be more closely anchored to planned infrastructure projects. Further work is in hand to gauge the impact of PPIAF activity on the International Financial Corporation's national 'doing business' ratings that address various aspects of the enabling environment.

DFID is an active member of the PPIAF's Program Council and we are involved in discussions about the strategic direction of the PPIAF. Over the past couple of years, DFID and other donors have sought to encourage the PPIAF to make better progress on measuring the impact of its activities on poverty alleviation and to better co-ordinate its activity with others.

Rotavirus

Mark Simmonds: To ask the Secretary of State for International Development what funding his Department has *(a)* allocated in each of the last three financial years and *(b)* plans to allocate in each of the next three financial years to tackling rotavirus. [84127]

Mr. Thomas: DFID supports partner countries to strengthen the health system to address all major causes of disease including the prevention and management of childhood diarrhoea.

The Global Alliance for Vaccines and Immunisations (GAVI) alliance board recently approved US$15 million for the completion of clinical trials of rotavirus vaccines in Africa and Asia during the period 2006-09. Furthermore, the board requested the development of an 'investment case' for the introduction of rotavirus vaccine, to be submitted to the November 2006 joint meeting of the GAVI alliance and GAVI fund boards. If approved, GAVI would finance rotavirus vaccine in GAVI-eligible countries (those with GNI of below $1000 p.a). The request for an investment case clearly signals GAVI's interest in supporting rotavirus vaccine.

DFID is a strong supporter of GAVI. We have committed £68.5 million between 2000-08. Our main approach to financing GAVI over the next decade is through the International Finance Facility for Immunisation (IFFIm). The IFFIm is expected to provide GAVI with $4 billion over 10 years and DFID has committed to provide one third of the finance required to deliver this (approximately £1.38 billion to 2025).

DFID plans to sign a memorandum of understanding with the International Centre for Diarrhoeal Disease Research, Bangladesh for £7.5 million core funding for five years. This includes funding their work on a new oral vaccine for rotavirus.

DFID also supports Unicef and WHO; much of their work supports the management of common childhood illnesses

Street Children (Central America)

Mr. Hollobone: To ask the Secretary of State for International Development if he will meet representatives of Casa Alianza and other international development organisations to discuss assistance for street children in central America. [84930]

Hilary Benn: On 26 May 2006, my hon. Friend the Under-Secretary of State for International Development responded to a letter from Casa Alianza, forwarded by my right hon. Friend the Member for Oxford, East (Mr. Smith) outlining recent DFID assistance to street children in Central America. He would be happy to meet with representatives of Casa Alianza to discuss further the situation of street children and how DFID works in Central America.

Tobacco Control

Richard Burden: To ask the Secretary of State for International Development what progress has been made on the World Health Organisation's Framework Convention on Tobacco Control since it entered into force on 27 February 2005; and if he will make a statement. [84873]

Mr. Thomas: The UK was one of the first to ratify the World Health Organisation Framework Convention on Tobacco Control (WHO FCTC): 168 countries have now done so. Since the adoption of the convention, the WHO FCTC secretariat has been working to ensure that as many countries as possible sign and ratify the treaty through awareness-raising among politicians, policy-makers, health professionals and society at large. Regional and national consultations to assist

countries in preparing for the ratification and implementation of the WHO Framework FCTC have taken place. The WHO Tobacco-Free Initiative is also providing technical support to countries to assist them with implementation.

In order to support the development of a strong FCTC and combat tobacco industry disinformation, an alliance of non-governmental organizations from around the world has been formed. Now comprising more than 200 groups from more than 90 countries, the Framework Convention Alliance (FCA) is playing a key role in educating policymakers and strengthening cooperation across borders.

Richard Burden: To ask the Secretary of State for International Development what action the Government are taking to help reduce tobacco use in the developing world. [84874]

Mr. Thomas: The health impacts of tobacco use in developing countries are of increasing concern. By 2030, tobacco will be responsible for ten million deaths per year, and 70 per cent. of these deaths will be in the developing world. The UK is taking action to address this problem.

Firstly, the UK played a key role in negotiating and ratifying the WHO'S Framework Convention on Tobacco Control, which sets international standards on tobacco price and tax increases, tobacco advertising and sponsorship, labelling, illicit trade and second-hand smoke among others. Secondly, we have recently given the International Development Research Centre a £1.1 million grant over 3 years for research into effective tobacco control policies and programmes that will minimize the threat of tobacco production and consumption to health and human development in developing countries. Thirdly, we provide advice to tobacco-dependent poor countries on constraints to their economic development and the livelihoods of their citizens.

As a final point, DFID's focus on improving health systems will impact on the adverse health effects of tobacco. We are currently revising our health strategy and looking at whether we should be doing more on tobacco control. As part of developing our strategy, we are specifically commissioning some work to help guide us in this area.

Trade Matters

Mr. Hurd: To ask the Secretary of State for International Development what the cost was of *(a)* producing and *(b)* distributing the booklet, "Trade Matters". [84373]

Mr. Thomas: Freer and fairer trade is vital for poverty reduction, and "Trade Matters" is DFID's most popular downloaded publication. So far 150,000 copies have been printed in hard copy at a cost of around 64p a copy, totalling some £96,214. It would incur a disproportionate cost to disaggregate specific costs of distribution from the general costs of distributing all DFID publications. However, DFID has spent £26,928 on the promotion of Trade Matters, with flyers in *The Independent, New Statesman, Big Issue in the North, Sunday Herald, The Grocer, SAGA* magazine, and the full publication in the Women's Institute magazine.

Yugoslavia

Mark Simmonds: To ask the Secretary of State for International Development how many internally displaced people there are in the former Republic of Yugoslavia, broken down by *(a)* current state boundary and *(b)* ethnic group; and if he will make a statement. [84137]

Mr. Thomas: According to the United Nations High Commission for Refugees (UNHCR), the following numbers of people were internally displaced (IDPs) in the former Republic of Yugoslavia as of the end of 2005. The UNHCR does not have data on ethnic origin.

Country	*Refugees*[1]	*Asylum seekers*[2]	*Returned Refugees*[3]	*IDPs*[4]	*Returned IDPs*[5]	*Stateless Persons*[6]	*Various*[7]	*Total*

WALES

NHS Operations

Mr. Bone: To ask the Secretary of State for Wales pursuant to the answer of 5 July 2006, *Official Report*, column 798, on NHS operations, on what date figures showed that 768 Welsh patients had been waiting for more than six months for treatment in an English hospital. [85165]

Mr. Hain: Statistics Wales released figures on 28 June 2006 relating to NHS hospital waiting times as at 31 May 2006. These figures show that 768 Welsh patients were waiting for more than six months for inpatient and day care treatment at non-Welsh NHS Trusts.

Further information can be found at http://www.statswales.wales.gov.uk/ReportFolders/ReportFolders.aspx

Sickness Absence

David Simpson: To ask the Secretary of State for Wales pursuant to the answer of 6 June 2006, *Official Report*, column 571W, on sickness absence, how many staff in his Department have had two or more periods of sick leave of less than five days in two or more of the last three years. [84032]

Mr. Hain: The Wales Office does not collect this information in this way, and obtaining this information could be achieved only at disproportionate cost.

HOME DEPARTMENT

Human Trafficking

4. **Mr. Steen:** To ask the Secretary of State for the Home Department whether the Government plan to sign the Council of Europe convention on action against trafficking in human beings. [85248]

Mr. Coaker: The UK is currently considering whether to sign the Council of Europe Convention on Action against Human Trafficking. The Government are examining how the convention's approach could best be harmonised with effective immigration controls. The responses to the recent consultation paper on a proposed UK Action Plan on trafficking in humans will assist the Government in taking a decision on signature.

The Serious Organised Crime Agency, together with the new UK Human Trafficking Centre, is at the forefront of tackling human trafficking within Europe. We have today launched a consultation paper setting out a further package of measures, such as increased data sharing and organised crime civil orders, aimed at helping law enforcement agencies better target and disrupt the activities of organised criminals.

Mr. Hague: To ask the Secretary of State for the Home Department what steps his Department has taken through *(a)* education programmes and *(b)* public campaigns to raise awareness of human trafficking. [82669]

Mr. Coaker: One of the aims of the recent police led multi-agency operation (called Operation Pentameter) which aimed at tackling trafficking for sexual exploitation was to raise awareness of the issue among the public and key stakeholders to be followed by a series of enforcement campaigns across the country. Examples of materials produced by Pentameter include posters in ports of entry in a variety of different languages and leaflets handed out to passengers at ports highlighting the dangers of trafficking.

Work abroad is also undertaken by the Home Office, in conjunction with the Foreign and Commonwealth Office and the Department for International Development to prevent trafficking by investing in projects in key source and transit countries to raise awareness of trafficking.

In the recent consultation on proposals for a UK Action Plan on Human Trafficking views were invited on how to raise awareness among potential trafficking victims about the risks of being trafficked. A summary of responses was published on 21 June and the suggestions put forward will be considered in developing the final UK action plan to be published later in the year.

Mr. Hague: To ask the Secretary of State for the Home Department how much funding will be allocated to the UK Human Trafficking Centre in each of the next five years. [82667]

Mr. Coaker: The total amount of funding for UK policing, provided directly from the Home Office (Project Reflex) amounts to £5.7 million per annum and is allocated until 2008. The UK Human Trafficking Centre will be funded from within this.

Mr. Hague: To ask the Secretary of State for the Home Department when he expects the Optional Protocol to the Convention on the Right of the Child on the sale of children, child prostitution and child pornography to be ratified by the UK. [77174]

Mr. Coaker: The Home Office is undertaking a review to determine the extent to which the United Kingdom complies with the Articles set out in the Optional Protocol on the sale of children, child prostitution and child pornography.

The Government is keen to ratify the Optional Protocol as soon as possible but also wants to ensure that there are no gaps in the measures which exist to protect children in the way the Protocol intended. Once the Government are confident that the United Kingdom is fully compliant, the Optional Protocol will be ratified.

Community Support Officers

22. **Mr. Hollobone:** To ask the Secretary of State for the Home Department if he will take steps to fill the projected budgetary shortfall between his Department's grant to fund extra police community support officers in Northamptonshire and the cost of employing them. [85268]

John Reid: The delivery of 16,000 police community support officers nationally by next April, with 138 of

these in Northamptonshire, will be a significant boost to neighbourhood policing and tackling the Respect Agenda. The funding of PCSOs comes from general police funding, pooled Government grant in the Neighbourhood Renewal and Safer and Stronger Communities Fund, funding by partners in community safety and specific grant from the Home Office, not simply the latter as the hon. Gentleman has mentioned. Even so, we will be giving Northamptonshire Police Authority nearly £1.6 million of new money this year in the Neighbourhood Policing Fund.

Alcohol Exclusion Zones

Ms Diana R. Johnson: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of alcohol exclusion zones in reducing crime and antisocial behaviour; and if he will make a statement. [85260]

Mr. Coaker: No research has been undertaken into the effectiveness of designated public place orders (DPPOs) as they tend to form just one part of a wider local strategy for tackling alcohol-related antisocial behaviour. However, of the 184 local authority areas that have adopted DPPOs, 72 have more than one in place suggesting that the orders are helping police deal with the problem of alcohol misuse.

A series of alcohol misuse enforcement campaigns have targeted alcohol-related crime and disorder since 2004 through the use of fixed penalty notices and test-purchasing operations. Antisocial behaviour orders, contracts and dispersal powers are also powerful tools in dealing with antisocial behaviour or alcohol related disorder on our streets.

Biometric Passports

Mr. McGovern: To ask the Secretary of State for the Home Department whether he plans to allow people to pay for the new biometric passport in instalments. [85263]

Joan Ryan: Identity fraud costs the UK economy at least £1.7 billion each year and we have set up a public-private sector work programme to tackle all aspects of this problem. Our plans for a National Identity Scheme will also provide people with a highly secure means of protecting their identity.

Crime Reporting

Harry Cohen: To ask the Secretary of State for the Home Department whether arrangements are in place for the public *(a)* in Redbridge, *(b)* in Waltham Forest and *(c)* in England and Wales to report a crime to a third party for onward communication to the police; and if he will make a statement. [78555]

Mr. McNulty: Members of the public can report "non-emergency" crime and hate crime/incidents to a third party online via the national Police Portal (www.police.uk). Incident specific forms are available that seek information from the public. The information is then sent to the force in whose area the alleged crime is committed. Visitors to the portal are advised to dial 999 in an emergency.

Doctors

Mr. Sarwar: To ask the Secretary of State for the Home Department how many doctors have applied for work permits to complete their medical training in compliance with the newly introduced requirement; and if he will make a statement. [85259]

Mr. Byrne: I am advised that up to 13 July 2006 there have been 495 work permit applications for doctors to undertake medical training under the newly introduced requirement.

Domestic Violence, Crime and Victims Act

Rosie Cooper: To ask the Secretary of State for the Home Department how many arrests have been made in West Lancashire under the Domestic Violence, Crime and Victims Act 2004 since its introduction. [83656]

Mr. Coaker: The sections within the Domestic Violence, Crime and Victims Act are being introduced gradually and as resources become available.

There have been no arrests in West Lancashire under section 5 of the Act, which came into force in March 2005 and creates an offence of causing or allowing the death of a child or vulnerable adult.

The new powers of arrest, which were created under section 10(1) of the Act were repealed in January 2006 by the introduction of section 110 of the Serious Organised Crime and Police Act 2005, which made all offences arrestable. As section 10(1) of the Domestic Violence, Crime and Victims Act had not been implemented, data on the number of arrests for domestic violence related incidents under these powers are not available centrally.

However, data from January 2006 to March 2006 on domestic violence arrests for all police forces, covering the extended powers of arrest, will be published this autumn and data from April 2006 to March 2007 will be published in autumn 2007.

Dorset Constabulary

Mr. Ellwood: To ask the Secretary of State for the Home Department how much central funding has been given to the Dorset constabulary since 1997. [84739]

Mr. McNulty: The information is set out in the following table.

Government funding for Dorset 1997-98 to 2006-07

£ million

	General grant[1]	*Capital provision, specific grants and special formula grant*	*Total*
1997-98	54.1	1.4	55.4
1998-99	54.9	3.7	58.6
1999-2000	56.6	4.4	61.0
2000-01	58.4	2.0	60.4
2001-02	60.0	5.5	65.4
2001-[illegible][2]	58.3	5.5	63.8
2002-03	59.7	5.7	65.4
2003-04	61.6	6.8	68.3

Government funding for Dorset 1997-98 to 2006-07

£ million

	General grant[1]	*Capital provision, specific grants and special formula grant*	*Total*
2004-05	63.6	6.6	70.1
2005-06	66.0	7.2	73.2
2005-06[3]	58.2	15.0	73.2
2006-07[4]	60.0	16.4	76.4

[1] Total government grants includes general grant (Home Office police grant, DCLG/Welsh Assembly Government Revenue Support Grant and National Non-Domestic Rates). It also includes specific grants: Crime Fighting Fund, Rural Policing Fund, Basic Command Unit funding, Community Support Officers funding, Neighbourhood Policing Fund, Airwave, DNA Expansion Programme, Special Priority Payments and capital grants. Pensions deficit grant and Dedicated Security Posts funding is included for 2006-07. Special formula grant in 2006-07 comprises the former specific grants Rural Policing Fund, Special Priority payments, DNA grant and South East/London allowances.

[2] Figures 2001-02 not directly comparable with 2002-03 due to transfer of funding for NCS/NCIS from police authorities to Home Office. Adjusted figures are comparable with subsequent years.

[3] Figures for 2006-07 are not directly comparable with 2005-06 owing to the transfer from general to specific grant of pensions' and security grant. The adjustments to 2005-06 render them comparable with those for 2006-07.

[4] General grant allocations are net of Amending Report adjustments for 2004-05 and 2005-06 that took account of ONS population data changes and some pensions' data changes.

Drug Classification Review

Paul Flynn: To ask the Secretary of State for the Home Department when his Department will put the drug classification review document out for consultation; and if he will make a statement. [85418]

Mr. Coaker: Since coming into post the Home Secretary has not had the opportunity to decide how to proceed with the matter. In any event, it is sensible to take into account the conclusions drawn by the House of Commons Science and Technology Committee in its inquiry into "Scientific advice, risk and evidence: how Government handles them" which is using the classification of illegal drugs as one of its case studies.

Firearms

Ian Lucas: To ask the Secretary of State for the Home Department what procedure is followed to dispose of firearms seized by police officers in the course of their duties. [85312]

Mr. McNulty *[holding answer 14 July 2006]:* There are no central guidelines on the disposal of firearms except where firearms seized in respect of criminal offences. In such cases an order for their disposal are normally sought from the trial judge or magistrate. In these circumstances, the forfeiture and/or destruction order (as applicable) is actioned locally, at force level.

Disposal is also undertaken locally in cases where firearms are seized by the police from licensed firearms holders as a result of a breach of licence conditions or where the person is no longer considered to be fit and proper to hold the weapon; or where members of the public surrender firearms voluntarily to the police.

The only exception is where firearms are considered to have historical significance or instructional value for training. In such cases the weapons may be retained in liaison with a museum or the Royal Armouries or by the police in secure conditions as instructional aids.

Fox Hunting Ban (Scotland)

Mr. Swire: To ask the Secretary of State for the Home Department what assessment he has made of the use of English police constabularies to enforce the fox hunting ban in Scotland. [81976]

Mr. McNulty: This is an operational matter for chief officers.

Gun Crime

Mr. Amess: To ask the Secretary of State for the Home Department how many shooting incidents there have been in *(a)* Southend-on-Sea, *(b)* Essex, *(c)* Hertfordshire, *(d)* the Metropolitan police area of London, *(e)* City of London police area and *(f)* England and Wales in each year since 1986 in which (i) legally held and (ii) illegally held weapons were used against the police. [82556]

Mr. McNulty: The requested data is not in a form suitable for publication.

Handling Centres

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the development of police investigation and detainee handling centres. [57759]

Mr. McNulty: The Policing Bureaucracy Taskforce recommended in its report published in July 2002 that greater use should be made of prisoner processing units (PPUs) to handle and interview suspects and to complete initial case preparation with a view to freeing up patrol officer time.

The use of PPUs, also referred to as Investigation and Detainee Handling Centres (IDHCs) helps provide an appropriate level of expertise in dealing with volume crime arrests and to enable designated police staff to be employed flexibly within such units. The performance drive and focus is in line with Office for Criminal Justice Reform's objective to bring more offences to justice through a more modern and efficient justice process by supporting all criminal justice agencies in working together to provide an improved service for the public.

The provision of detention facilities within each force area is an operational matter for the chief officer of the force concerned. Information is not held centrally on the number of units or centres. objective to bring more offences to justice through a more modern and efficient justice process by supporting all criminal justice agencies in working together to provide an improved service for the public. The provision of detention facilities within each force area is an operational matter for the chief officer of the force concerned. Information is not held centrally on the number of units or centres.

Haringey Coroner Services

Lynne Featherstone: To ask the Secretary of State for the Home Department which pathologists in Haringey Coroner Services *(a)* are and *(b)* are not accredited by his Department; and how many of these pathologists are over the normal retirement age. [61875]

Joan Ryan: The Home Office does not hold information on *(a)* the pathologists instructed by specific coroners, *(b)* the coroners instructing forensic pathologists on the Home Office Register or *(c)* the age of the pathologists on the Home Office Register. I am therefore unable to provide the information requested.

Knives

Andrew Rosindell: To ask the Secretary of State for the Home Department what percentage of reported knife crimes in Wales resulted in a conviction in each year since 1996. [79629]

Mr. Coaker: Although the homicide figures record where a knife or other sharp instrument has been used, other crimes specifically involving the use of a knife cannot be separately identified in the recorded crime statistics or the court proceedings data.

Mohammed Siddique Khan

Greg Mulholland: To ask the Secretary of State for the Home Department whether an electronic tracking device was fitted to Mohammed Siddique Khan's car at any time prior to 7 July 2005. [81893]

Mr. McNulty *[holding answer 3 July 2006]:* It is the Government's policy not to comment on speculation about specific intelligence.

Murders

Mr. Amess: To ask the Secretary of State for the Home Department how many of the murders committed in England and Wales over each of the last 10 years were committed within the extended family; and what estimate he has made of the numbers of murders in which alcohol was a contributory factor. [83785]

Mr. McNulty: The information available centrally relates to homicides recorded by the police in England and Wales for each year between 1995 and 2004-05 where there was a family relationship between victim and suspect. Figures are also provided for this period where the suspect was known to be intoxicated at the time of the offence, but as they are based on information notified to the Home Office, rather than the actual case files held by the police or the court records, it may understate the true position. Figures are contained in the table.

Offences currently recorded[1] as homicide by the police in England and Wales, 1995 to 2004-05

	Extended family relationship[2]	*Alcohol related[3]*
1995	232	107
1996	218	87
1997	226	84
1997-98	214	74
1998-99	194	75
1999-2000	186	48
2000-01	247	61
2001-02	232	[3]161
2002-03	230	172
2003-04	206	181
2004-05	213	170

[1] As at 28 November 2005; figures are subject to revision as cases are dealt with by the police and by the courts, or as further information becomes available.

[2] From the information notified to the Home Office, the relationship between victim and suspect is known to be within the following categories:
Son, daughter (including adopted)
Stepson, stepdaughter (including child of suspect's cohabitant/lover
Spouse
Ex-spouse, estranged spouse
Cohabitant, common law spouse
Ex-cohabitant, ex-common law spouse
Lover, mistress
Ex-lover, ex-mistress
Lover's spouse, spouse's lover, cohabitant's spouse or lover, lover's lover
Homosexual/ex-homosexual relationship—long-term
Homosexual relationship—casual
Other family (including foster children).

[3] From the information notified to the Home Office, the suspect is known to have been intoxicated at the time of the offence, or on drink and drugs. The drink and drugs related cases may include those where drink was not the primary factor. The figures are affected by recording changes, most notably in 2001-02 when some forces introduced a new notification system.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many murders were committed in each London borough in each of the last five years. [82897]

Mr. McNulty: Available figures relate to the number of homicides recorded by the Metropolitan police in each London borough from 2000-01 to 2004-05 and are contained in the following table.

Offences initially recorded[1] by the Metropolitan police as homicide by London borough 2000-01 to 2004-05

	Period offence initially recorded				
	2000-01	*2001-02*	*2002-03*	*2003-04*	*2004-05*
Barking and Dagenham	4	2	3	4	8
Barnet	8	4	5	2	5
Bexley	3	2	2	0	2
Brent	6	12	6	10	18
Bromley	7	3	4	2	3
Camden	7	10	16	1	8
City of Westminster	8	8	9	6	5
Croydon	3	7	6	12	10
Ealing	8	9	9	6	8
Enfield	2	6	6	6	12
Greenwich	4	5	4	12	8
Hackney	14	14	6	20	9

Offences initially recorded[1] by the Metropolitan police as homicide by London borough 2000-01 to 2004-05

	Period offence initially recorded				
	2000-01	2001-02	2002-03	2003-04	2004-05
Hammersmith and Fulham	6	10	6	4	4
Haringey	9	7	17	12	10
Harrow	3	3	0	3	0
Havering	5	3	1	6	0
Heathrow	0	0	0	0	0
Hillingdon	2	2	5	6	2
Hounslow	5	6	2	7	6
Islington	11	9	3	5	7
Kensington and Chelsea	4	3	3	1	9
Kingston upon Thames	1	3	0	1	2
Lambeth	13	17	15	12	10
Lewisham	6	7	5	9	5
Merton	3	2	3	2	0
Newham	11	7	14	15	10
Redbridge	5	3	5	8	4
Richmond upon Thames	2	0	2	3	3
Southwark	15	11	11	13	9
Sutton	3	2	3	1	1
Tower Hamlets	4	9	11	11	8
Waltham Forest	4	5	7	9	5
Wandsworth	3	11	6	2	4
Total	189	202	195	211	195

[1] This measure is the one used generally for recorded crime statistics. It differs from the more commonly used 'currently recorded' homicide measure, which excludes cases where a suspect has been acquitted or convicted of a lesser offence. Figures using this measure are not available below police force area level.

Parking (Lancashire)

Mr. Evans: To ask the Secretary of State for the Home Department how many parking tickets were issued by Lancashire police in each of the last five years. [82744]

Mr. McNulty: Available information on fixed penalty notices relating to all offences of obstruction, waiting and parking within the Lancashire police force area during the calendar years 2000 to 2004 (latest available) is given in the following table.

Information for 2005 will be available early in 2007.

Fixed penalty data for obstruction, waiting and parking offences[1], Lancashire police force area, 2000-04

	Number of tickets	
	Endorsable	Non-endorsable
Fixed penalty notices issued		
2000	6	64,900
2001	6	56,000
2002	4	47,700
2003	8	31,800
2004	9	17,700

[1] Offences under the Road Traffic Act 1988 s.22; Transport Act 2000 ss. 173 (5); 173 (6); 173 (7); 174 (3); 175 (2); 175 (3); 175 (4); 190 Highway Act 1835 ss 72 & 78; RTA 1988 ss. 19 & 21; Highways Act 1980 s. 137 (1); Road Traffic Regulations Act 1984 ss. 5 (1), 8, 32-36 and 45-53; Road Vehicles (Construction and Use) Regulations 1986 Regs. 101 and 103; Transport Act 2000 Part III.

Parliamentary Questions

Mr. Gauke: To ask the Secretary of State for the Home Department how many written parliamentary questions tabled to the Department before 5 May remained unanswered on 25 May. [75160]

Mr. McNulty *[holding answer 5 June 2006]:* Internal management information shows that 565 parliamentary questions tabled before 5 May remained unanswered on 25 May.

Police

Mr. Amess: To ask the Secretary of State for the Home Department what proportion of each police force's budget in England and Wales in 2006-07 is derived from the police precept; whether he expects this proportion to change under the proposals for police force restructuring; and if he will make a statement. [73244]

Mr. McNulty: The proportion of each police authority's budget met from the police precept on council tax in 2006-07 is set out in the table. There are clearly differentials in precepts between a number of neighbouring police authorities.

I refer the hon. Member to the reply given on 19 June 2006, *Official Report*, column 1057.

Proportion of police authority budgets met from police precepts on council tax in 2006-07

Police authority	*Percentage*
Avon and Somerset	31.4
Bedfordshire	26.8
Cambridgeshire	33.2
Cheshire	26.2
Cleveland	21.9
Cumbria	31.3
Derbyshire	29.7
Devon and Cornwall	30.1
Dorset	41.6
Durham	17.9
Essex	29.8
Gloucestershire	40.1
Hampshire	29.4
Hertfordshire	32.5
Humberside	25.3
Kent	28.7
Lancashire	21.8
Leicestershire	27.3
Lincolnshire	32.3
Norfolk	35.3
Northamptonshire	34.1
North Yorkshire	42.4
Nottinghamshire	25.0
Staffordshire	32.5
Suffolk	32.8
Surrey	45.6
Sussex	31.2
Thames Valley	33.7
Warwickshire	35.3
West Mercia	36.4
Wiltshire	34.5
Total Shires	31.1

Proportion of police authority budgets met from police precepts on council tax in 2006-07

Police authority	*Percentage*
Greater Manchester	17.0
Merseyside	17.4
Northumbria	11.7
South Yorkshire	18.3
West Midlands	13.6
West Yorkshire	19.3

Total England (exc. London)	26.5
Metropolitan	25.0
(Total England (inc London)	26.1
Dyfed-Powys	37.4
Gwent	28.4
North Wales	37.9
South Wales	25.4
Total Wales	30.6
Total England and Wales	26.4

Source:
English Police Authorities—Office of the Deputy Prime Minister
Welsh Police Authorities—Welsh Assembly Government

Mr. Sanders: To ask the Secretary of State for the Home Department how many formal complaints were made against police officers working in each constabulary in England in the most recent year for which figures are available; and what percentage of such complaints have resulted in disciplinary action being taken against the police officer in each constabulary area. [85516]

Mr. McNulty: The Independent Police Complaints Commission (IPCC) is responsible for the management of the police complaints system. I will ensure that the chairman receives a copy of the question and replies to you directly. Copies of the letter containing the IPCC's response will be placed in the Library.

Mr. Borrow: To ask the Secretary of State for the Home Department how many police officers in *(a)* Lancashire police and *(b)* Cumbria police were involved in preparation work for the voluntary merger of the forces; and how many hours were devoted to this work. [86379]

Mr. McNulty: This is a matter for the police forces concerned and the information is not held centrally.

Chris Grayling: To ask the Secretary of State for the Home Department how many traffic police, excluding those trained also to act as firearms response team members, were operating on the roads in each of the last 10 years, broken down by police authority area. [82444]

Mr. McNulty: The available information is given in the following table.

Police officers FTE whose main function is "Traffic"[1] (1995-2005)

Full-time equivalent

	1994-95	*1995-96*	*1996-97*[2]	*1997-98*[2]	*1998-99*[2]	*1999-2000*[2]	*2000-01*[2]	*2002-03*	*2003-04*	*2005-05*

[1] Staff with multiple responsibilities(or designations) are recorded under their primary role or function. The traffic function includes staff who are predominantly employed on motorcycles or in patrol vehicles for the policing of traffic and motorway related duties. This does not include officers employed in accident investigation, vehicle examination and radar duties.
[2] Data is unavailable for 1996-97 and 1997-98
[3] Data by police force area is not available centrally.

Lynne Featherstone: To ask the Secretary of State for the Home Department (1) what guidelines are issued on informing a parent or guardian when a minor is stopped and searched by the police; [62590]

(2) what guidelines are followed when a minor is stopped and searched by the police; [62591]

(3) what guidelines his Department has issued on the length of time before stop and search records should be deleted; [62594]

(4) what guidelines his Department has issued on how long a stop and search record is retained in the case of an underage minor where there has been no further action after the initial stop and search; [62595]

(5) procedures are followed when an underage minor is stopped and searched by the police; and if he will make a statement; [69783]

(6) long the record is kept for a minor who is stopped and searched where no further action is taken; and if he will make a statement. [69796]

Mr. McNulty: Code of practice A issued under the Police and Criminal Evidence Act (PACE) 1984 regulates contacts with the police and the public in the exercise of police powers to stop and search.

Code A requires that a record of the stop or stop and search must be made at the time unless there are exceptional circumstances. If the record is not given at the time, the person must be notified by the officer of their entitlement to a record if requested within 12 months and informed how a copy can be obtained. The decision to retain records after that period is a matter for individual chief officers, irrespective of whether the record relates to an adult or a juvenile and the outcome of the stop or stop and search.

Code A does not make special provision for the handling of a stop or stop and search involving a person under the age of 17 years old. Officers exercising these powers must do so fairly, responsibly and with respect for people being stopped or stopped and searched. It would be an operational matter for the officer concerned to determine whether any additional support or action would be required owing to the vulnerability of the individual; and guidance due for publication this summer by the National Centre for Policing Excellence highlights the need for officers to take account of the person's age and vulnerability .

Probation

Mr. Llwyd: To ask the Secretary of State for the Home Department whether he expects to publish in draft legislation to introduce market forces into the provision of probation services; and if he will make a statement. [85250]

Mr. Sutcliffe: We set out our plans for the probation service in "Working with probation to protect the public and reduce re-offending" which was published on 30 March. We will introduce the necessary legislation as soon as parliamentary time allows. The precise timing and form of that legislation has yet to be decided.

Prisons

Mr. Sutcliffe: To ask the Secretary of State for the Home Department if he will make a statement on the use of the "inner change" programme in prisons. [85254]

Mr. Sutcliffe: The programme was introduced as a pilot only at HMP Dartmoor.

Following a review under Prison Service Order 4350 (Effective Regimes Interventions) the programme is currently being withdrawn. The Review Panel identified a range of concerns, the most significant being:

Poor quality of the manuals which did not demonstrate a structured and coherent programme

Lack of consistency and clarity about the primary aims of the programme

Lack of understanding and appropriate sensitivity to the diversity agenda of HM Prison Service

Lack of protocols for the management of the mentor system, making it unsafe

Inability of the programme to satisfy the Chaplaincy in a number of areas.

Mr. Garnier: To ask the Secretary of State for the Home Department what measures he uses of the improvement in *(a)* literacy, *(b)* numeracy and *(c)* health, including drug and alcohol addiction, of (i) adult, (ii) young offenders and (iii) juveniles in custody. [83350]

Phil Hope: I have been asked to reply.

At present, improvement in literacy and numeracy for adults in custody is measured by reference to their overall contribution towards the Government's Skills for Life targets by counting the qualifications achieved. For young offenders and juveniles in custody, the Youth Justice Board measures improvement by those serving custodial sentences of more than six months through an assessment at the start and end of the sentence that shows what they have achieved, and whether or not they have gained a qualification.

As new Learning and Skills Council-led delivery arrangements for offender learning are introduced across England from 31 July, data on individual achievement by offenders will start to become available for adults, young offenders and juveniles in custody, and on those serving sentences in the community.

A system of star ratings exists for prison health services. This is based on a framework of measures, including prison self-assessments, external inspection reports and prisons' performance against key areas such as mental health and dental waiting times.

Since April 2006, HM Inspectorate of Prisons (HMIP) and the Healthcare Commission have worked in partnership through a Memorandum of Understanding. HMIP continues to inspect and report on the health outcomes for prisoners in all public sector establishments. The Healthcare Commission now assesses the effectiveness of primary care trusts' commissioning arrangements.

Public Pensions (Transferability)

Anne Milton: To ask the Secretary of State for the Home Department what measures the Department has put in place to assist pension transferability of public pensions for *(a)* police and *(b)* probation service personnel. [79766]

Mr. McNulty: All public service schemes pay cash equivalent transfer values to other pension schemes in respect of accrued rights in compliance with pensions law. Under the Fair Deal for Staff Pensions there is a requirement to transfer pension rights when employments are transferred to the private sector under Public Private Partnerships or Public Finance Initiatives and subsequent transfers for former public servants. Public service scheme members can also transfer accrued pension rights by way of the Public Sector Transfer Club. The club is a network of public and private sector occupational pension schemes which makes it easier for employees who move between employers covered by separate participating schemes to transfer their accrued pension rights.

Scottish Criminal Records Office

Mr. Salmond: To ask the Secretary of State for the Home Department what advice he has issued on fingerprint identification following the misidentification in the case of Shirley McKie and David Asbury. [74299]

Joan Ryan: My right hon. Friend the Secretary of State for the Home Department has not issued any advice in response to this case. However, The Association of Chief Police Officers (ACPO) National Fingerprint Board has issued a document dated 4 April 2006 entitled 'Erroneous and disputed identifications: Learning from experience elsewhere'. This document is for guidance only and is not a policy document; it was circulated to all fingerprint bureau in police forces in England and Wales.

The ACPO report referred to Her Majesty's Inspectorate of Constabulary Scotland's inspection of the Scottish Criminal Records Office (SCRO) that commenced on April 2000. The key recommendations of the inspection report were that the SCRO should:

Move towards a non-numeric standard;

Reform management and scope demands for staff levels;

Consider moving to a centralised model for a national fingerprint service;

Have external provision and management of competency testing for experts to provide a sustainable and defensible programme;

Move towards a competency-based standard for expert qualification that all fingerprint experts within the SCRO should undergo;

Provide a common procedure to deal with failure in the course of competency testing; introduce an improved automated manual system of case tracking.

Produce national guidance on fingerprint standards and procedures and issue it to all fingerprint staff;

Establish a national policy which encapsulates an independent review process to deal with all erroneous and disputed fingerprints.

ACPO and the Home Office place a strong emphasis on ensuring forensic standards in fingerprinting. The Home Office will shortly be consulting about the creation of a forensic regulator (in accordance with the evidence given by the then Minister of State, the hon. Member for Leigh (Andy Burnham), before the Science and Technology Committee on 23 November 2005). The creation of the National Policing Improvement Agency through the Police and Justice Bill will also be very significant in providing an Agency dedicated to continuous improvement of policing, including the area of forensic science.

Terrorist Attacks (Compensation)

Mr. Clifton-Brown: To ask the Secretary of State for the Home Department (1) what compensation *(a)* the Government and *(b)* other Governments paid to the families of the British victims of the terrorist attacks on (i) 11 September 2001 in New York, (ii) 7 July 2005 in London and (iii) 12 October 2002 in Bali; [82098]

(2) what compensation payments the Government have made to the families of victims of the Bali bombings in 2002. [82114]

Mr. McNulty: The Criminal Injuries Compensation Authority (CICA) awarded a total of £66,708 in compensation to 26 claimants in respect of the New York incidents of 9/11. The payments were made to them for the mental trauma they suffered from seeing their loved ones killed in the USA on live television here. No compensation payments have been made in respect of the Bali bombings. Through the Foreign Commonwealth Office's 'Aftercare Plan for victims of terrorism overseas' the Government provide immediate assistance to the victims and families of overseas terrorism.

We do not hold information about compensation paid to the victims of these incidents by other Governments.

As at 30 June 2006, CICA had made 370 awards totalling £2.324 million in respect of the 7/7 bombings.

These comprised a mix of final awards and interim awards, and were paid both to victims and to families bereaved by the bombings. This figure will include some payments for non British nationals because neither nationality nor residence are criteria for claiming compensation under the Criminal Injuries Compensation Scheme.

World Cup

Mrs. Spelman: To ask the Secretary of State for the Home Department what assessment he has made of the effect of the World Cup on levels of *(a)* alcohol-related crime and *(b)* domestic violence. [83017]

Mr. Coaker: Police forces do not routinely provide the Home Office with information on specifically alcohol-related crime, and so it is difficult to gauge the effect of occasional events such as the World Cup on this. Police recorded crime statistics covering the period of the World Cup will be released in September.

The Home Office funded an Alcohol Misuse Enforcement Campaign (AMEC) during the month preceding the World Cup. Part of the intention for this was to set the tone of acceptable behaviour during the competition itself. Results from this campaign will be released shortly.

Research has suggested a link between major sporting events and domestic violence. Because of this, a Domestic Violence Enforcement Campaign took place in some areas during the World Cup. Data from this campaign are still being collected and analysed, and the results will be released when they are ready.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many *(a)* police officers, *(b)* intelligence officers and *(c)* other government officials visited Germany for the 2006 World Cup; and at what cost to the public purse. [82921]

Mr. McNulty: A police delegation of 78, undertaking a range of policing functions, were deployed in Germany for the duration of the England team's participation in the tournament. In accordance with the European Union handbook on policing co-operation in respect of international matches the costs were met by the host authorities. A Home Office press officer was attached to the police delegation. Some minor costs and reimbursements will be met by the Home Office. These are yet to be claimed or calculated. The Home Office does not hold details of any other Government officials who attended the World Cup.

SOLICITOR-GENERAL

Correspondence

Mr. Amess: To ask the Solicitor-General what the average cost to his Department was of replying to a letter written *(a)* by an hon. Member and *(b)* by a member of the public in the latest period for which figures are available; and how much of that sum is accounted for by (i) officials' time, (ii) cost of stationery and (iii) postage costs. [80467]

The Solicitor-General: The information requested is not collated centrally and could be obtained only at disproportionate cost (code of practice on Access to Government Information, part 2, clause 9). The cost of a stamp is a post office cost. The cost of stationery is difficult to estimate but around £1 when all the overheads in terms of posting, computer costs and paper are taken into consideration. Staff time varies considerably based on the length of the letter. It is impossible therefore to estimate an average cost for all the letters sent out.

Departmental Finance Directors

Chris Huhne: To ask the Solicitor-General what the *(a)* name, *(b)* professional and academic qualifications and *(c)* relevant experience are of the finance director of each of the Law Officers' Departments. [80079]

The Solicitor-General: I am answering this question for the Crown Prosecution Service, the Treasury Solicitor's Department, the Revenue and Customs Prosecutions Office and the Serious Fraud Office.

The finance director of the Crown Prosecution Service is Mr. John Graham. He has a BA and MA in economics. He has extensive experience as a finance director and has fulfilled this role since 1999.

The finance director of the Treasury Solicitor's Department is Tony Hindley. He is a Fellow of the Association of Chartered Certified Accountants (ACCA). He was appointed on 1 May 2003. He was previously head of corporate planning for Defence Scientific and Technology Laboratory. Other positions previously held include financial controller and company secretary at Defence Evaluation and Research Agency where he was also a member of the board of management; finance director at British Nuclear Fuels plc. (UK Group) and financial controller and member of the sector board at BNFL.

The head of resources and planning of the Serious Fraud Office is Bob Evans. This role incorporates the responsibility of a finance director. He is an MA (Gonville and Caius college, Cambridge) and Chartered Fellow of the Chartered Institute of Personnel and Development. He is currently studying for membership of CIMA and ACMA. He was

appointed in November 2005. Previously he was a member of HM Treasury for 15 years. He has also served as a financial supervisor with the Bank of England and the Financial Services Authority, as economic adviser for the Ministry of Defence and has managed several large financial programmes and Government projects.

The head of finance for the Revenue and Customs Prosecution Office (RCPO) is Justin Freebairn. He holds an MA in Logic and Moral Philosophy (St. Andrews) and is a member of the Chartered Institute of Management Accountants. He was appointed in March 2006 following a number of senior finance positions both within and outside central Government.

Departmental Publications

Mr. Amess: To ask the Solicitor-General if he will list the draft Bills produced by the Law Officers' Departments since October 2005; how many were examined or are planned to be examined by *(a)* a departmental Select Committee or a combination of Select Committees and *(b)* a Joint Committee of both Houses of Parliament; and if he will make a statement. [81644]

The Solicitor-General: None.

Mr. Amess: To ask the Solicitor-General what his practice is regarding meeting, discussions with and taking into account the views and opinions of *(a)* private individuals and *(b)* representatives of organisations when drawing up and framing legislation to be introduced by the Law Officers' Departments; and if he will make a statement. [81645]

The Solicitor-General: My Departments are not generally responsible for drawing up and framing legislation. Where they are we always seek a full range of views in doing so. Consultation is a key part of the policy making process: both formal and informal.

The Attorney-General and I, along with our officials, hold regular meetings with representatives of the principal stakeholder groups, and relevant experts, in the areas for which we are responsible.

Mr. Amess: To ask the Solicitor-General if he will list the unnumbered Command Papers produced by the Law Officers' Departments in each session since 1976; how *(a)* hon. Members and *(b)* members of the public can (i) inspect and (ii) obtain copies; and if he will make a statement. [81646]

The Solicitor-General: Documents which are laid before Parliament as unnumbered Command Papers are generally restricted to explanatory notes to treaties, explanatory memoranda to statutory instruments and some Treasury minutes. All other documents are published in the numbered Command Papers series.

A complete list of unnumbered Command Papers can be produced only at disproportionate cost. Copies of all unnumbered Command Papers are made available via the Vote Office.

CONSTITUTIONAL AFFAIRS

Command Papers

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs if she will list the unnumbered Command Papers produced by her Department in each session since 1976; by what means *(a)* hon. Members and *(b)* members of the public can (i) inspect and (ii) obtain copies; and if she will make a statement. [81265]

Vera Baird: Documents which are laid before Parliament as unnumbered Command Papers are generally restricted to Explanatory Notes to Treaties, Explanatory Memorandum to Statutory Instruments and some Treasury Minutes. All other documents are published in the numbered Command Papers series.

Details of unnumbered Command Papers published since 1976 can be produced only at disproportionate cost.

Coroners

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what powers coroners have to investigate deaths abroad. [84513]

Ms Harman: A coroner has the duty to investigate a death abroad which is reported to him or her where the body is brought back to England and Wales and where there is a reasonable cause to suspect that the death was violent, or unnatural, or sudden and of unknown cause or where the death occurred in prison.

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what powers coroners have to reduce waiting times by transferring cases from one area to another. [84514]

Ms Harman: Under section 14 of the Coroners Act 1988 coroners have limited powers to seek to transfer cases to another coroner on grounds of expediency.

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what plans she has to review the powers of coroners to enter and search premises. [84515]

Ms Harman: Proposals are outlined—in clauses 50 and 51—in the draft Coroners Bill which I published on 12 June 2006.

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what the normal retirement age is for coroners. [84577]

Ms Harman: There is no compulsory retirement age for all coroners. However, coroners who held office immediately before April 6, 1978, and did not opt out of the statutory provisions, can be required by the relevant council to vacate office if they have completed 15 years service and attained the age of 65 years. Coroners' pensionable service under the applicable local government scheme will come to an end at the age of 70 years.

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs how many inquests have been successfully appealed against in the last five years. [84578]

Ms Harman: There is no appeal against a coroner's verdict at an inquest. However, each year a number of inquests are held, quashed or amended by order of the High Court, and the number of such occurrences over the last five years is shown in the table as follows.

	Number of inquests held by order of the High Court	*Number of inquests quashed or amended by the High Court*
2001	3	2
2002	2	1
2003	1	4
2004	1	1
2005	3	1

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what plans she has to remove boundary restrictions on coroners' jurisdictions. [84648]

Ms Harman: Removing boundary restrictions on coroners' jurisdictions is a measure in the draft Coroners Bill which I published on 12 June 2006.

Court Facilities

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs how many courts have separate facilities for victims and witnesses. [84567]

Ms Harman: There are 93 Crown courts 88 of which have dedicated witness facilities. Of the 355 operational magistrates courts 302 can provide dedicated facilities. The remaining courts, which are used on a more infrequent basis, make use of alternative facilities.

Crown Dependencies

Mr. Hollobone: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the effects on the Crown Dependencies of Protocol 3 of the 1972 Act of Accession; and if she will make a statement. [84932]

Ms Harman: I have not made any such assessment, however the governments of the Crown Dependencies have confirmed that they are satisfied that the Protocol has achieved the purposes for which it was established in 1972, that is the free flow of goods between the Islands and the European Community.

Departmental Premises (Security)

Mr. Andrew Turner: To ask the Minister of State, Department for Constitutional Affairs what measures are in place to ensure that no illegal immigrants are employed in the manned guarding of her Department's premises. [80803]

Ms Harman: My Department uses a mix of in-house and contract security guards.

Where security guards are recruited directly to provide in-house services, recruitment is carried out in accordance with the requirements of the Civil Service Commissioners Code.

Two suppliers have provided manned guarding services to all Crown and county courts since 2000. Another supplier provides manned guarding services to offices on the DCA HQ estate. Under the terms of their respective contracts, these suppliers are required to carry out security vetting of personnel they propose using.

My Department assumed responsibility for magistrates courts in April 2005, many of which have contracts for manned guarding services awarded prior to this date. Information on individual contractual arrangements is not held centrally and could be obtained only at disproportionate cost.

A national procurement exercise covering all courts in England and Wales, which will standardise the contractual arrangements including vetting requirements, will begin later this year.

Mr. Andrew Turner: To ask the Minister of State, Department for Constitutional Affairs whether her Department has *(a)* directly and *(b)* indirectly employed illegal immigrants as security guards. [80812]

Ms Harman: In 2005, an individual employed as a security guard by Her Majesty's Courts Service, an Executive Agency of the Department, was found to be an illegal immigrant. His status was discovered in the process of an immigration officer's investigation, and he was found to have provided false information in order to obtain documents that showed him to be fit for employment. He was dismissed.

Departmental Staff

David Simpson: To ask the Minister of State, Department for Constitutional Affairs how many of her staff are *(a)* under and *(b)* over 55 years of age. [77300]

Ms Harman: The statistics are provided as at 31 December 2005 as staff headcount:

	Headcount
Under 55 years	23,124
Over 55 years	5,499
Total	28,623

Note:
Data on civil service entrants has been collected by the Cabinet Office on an annual basis. Previously published data on entrants has been based on Departments submitting returns on a 'Mandate' or summary level basis. Data on entry age is only available from Departments' records of individual civil servants, as civil service statistics does not include this information for all Departments.

David Simpson: To ask the Minister of State, Department for Constitutional Affairs how many people over the age of 55 years have been recruited into her Department in each of the last three years. [77301]

Ms Harman: The statistics for the last three financial years are set out in the table as follows.

Financial year	Total
1 April 2003 to 31 March 2004	[1]193
1 April 2004 to 31 March 2005	[1]299
1 April 2005 to 31 March 2006	345
Grand total 1 April 2003 to 31 March 2006	837

[1] The figures do not include the magistrates courts prior to 1 April 2005.

Early Retirement

David T.C. Davies: To ask the Minister of State, Department for Constitutional Affairs how many departmental employees have taken early retirement due to ill-health in each of the past five years for which figures are available. [46751]

Vera Baird: The number of employees who have taken early retirement due to ill-health in each of the last five years is set out as follows. These figures are for the period April to March for each of the years shown.

	Number
2001	60
2002	38
2003	30
2004	27
2005	31

Family Courts

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what measures she has taken to increase confidence in family courts. [84555]

Ms Harman: I refer my hon. Friend to my written statement of 11 July 2006, *Official Report*, column 60WS.

Home Repossessions

Chris Huhne: To ask the Minister of State, Department for Constitutional Affairs how many court orders have been made for the repossession of homes in *(a)* Eastleigh constituency and *(b)* each district in (i) Hampshire, (ii) Southampton and (iii) Portsmouth in each year since 1987. [84659]

Ms Harman: The following table shows the number of mortgage possession orders made in county courts in Hampshire and the Isle of Wight (includes Aldershot and Farnham, Basingstoke, Portsmouth, Southampton, Winchester and Newport) since 1987. These are the only county courts in Hampshire and Isle of Wight that deal with mortgage repossession matters.

The civil procedure rules provide that all claims for the repossession of land must be commenced in the district in which the land is situated. However, these county courts cover areas that are not necessarily consistent with other administrative or constituency boundaries, and therefore for instance repossessions at Portsmouth county court may relate to properties in other constituencies besides Portsmouth.

These figures do not indicate how many houses have been repossessed through the courts, since not all the orders will have resulted in the issue and execution of warrants of possession.

Number of mortgage[1] possession orders made in Hampshire county and the Isle of Wight county, 1987-2005

	Possession orders made[2]									
	1987[3]	1988[3]	1989[3]	1990	1991	1992	1993	1994	1995	1996

Isle of Wight	59	36	33	15	22	21	35	48	62

[1] Local authority and private
[2] The court, following a judicial hearing, may grant an order for possession immediately. This entitles the claimant to apply for a warrant to have the defendant evicted. However, even where a warrant for possession is issued, the parties can still negotiate a compromise to prevent eviction.
[3] For they years 1987 to 1989, "Suspended orders" were not separately counted. They are thus included in "Orders made".
[4] This court no longer deals with civil procedures.

Legal Aid

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what criteria govern the awarding of legal aid in housing cases. [84557]

Vera Baird: Applicants for legal aid in housing cases can obtain legal aid for legal advice and information, investigative help, or legal representation, if they pass the standard tests of financial eligibility and if their case meets the criteria for the grant of funding, as set out in the Funding Code. Housing cases are considered a priority for funding, and the Funding Code criteria for legal representation in housing cases reflect this. Cases in which the roof over the applicant's head is directly at issue are considered to be of "overwhelming importance" to the applicant and can be funded in a wider range of circumstances than other housing cases.

Legal Professionals

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs how many *(a)* solicitors and *(b)* barristers are practising; and how many were practising in (i) 1992 and (ii) 1997. [85155]

Bridget Prentice: There are currently 100,938 solicitors and 11,818 (self-employed) barristers who hold practising certificates.

In 1992 these figures were 59,566 and 7,271 respectively.

In 1997 they were 71,637 and 9,369 respectively.

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs how many women practise in the legal profession; and how many were practising in *(a)* 1979, *(b)* 1983, *(c)* 1992 and *(d)* 1996. [85156]

Bridget Prentice: The information available is set out in the table.

Number of women

	2006	1996	1992	1983	1979
Barristers (self-employed)	3,543	2,115	1,420	573	409
Solicitors	41,967	21,356	15,653	5,117	3,700
Licensed conveyancers	533	[1]—	[1]—	n/a	n/a
Fellows of the Institute of Legal Executives	4,811	3,307	1,592	n/a	n/a

[1] No data available.

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs what the average earnings are of solicitors; what they were in *(a)* 1976, *(b)* 1986, *(c)* 1996 and *(d)* 2000; and if she will conduct a survey of the socio-economic background of lawyers. [85157]

Bridget Prentice: In 2005, the average earnings of a solicitor were £35,000 per year. This figure is drawn from across the whole solicitors profession and so does not differentiate for size of firm, number of partners, grade of solicitor etc.

The full information, showing the breakdowns, is available in the Law Society's Private Practice solicitors' salaries 2005 fact sheet.

Information on salaries prior to 2001 is not available.

While I have no plans to carry out a survey of the socio-economic background of lawyers, I am taking forward a programme of work to encourage and increase diversity in the legal profession.

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs what the total average fees paid out of public funds per day for appearances in criminal and civil courts for *(a)* prosecution and *(b)* defence barristers who are (i) Queen's Counsel and (ii) junior barristers were in the last period for which figures are available; and what the comparable figures were in (A) 1976, (B) 1986, (C) 1996 and (D) 2000. [85158]

Vera Baird: The information requested is not available.

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs whether the average annual earnings of barristers have *(a)* kept pace with, *(b)* fallen behind and *(c)* risen faster than inflation in each of the last five years. [85159]

Bridget Prentice: Information about the earnings of barristers is not held centrally.

Long Trials

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what steps she is taking to reduce the number of excessively lengthy trials. [84558]

Vera Baird: The Government are committed to ensuring that criminal cases are dealt with in a speedy fashion commensurate with the interests of justice. In the DCA command paper 'A Fairer Deal for Legal Aid' we clearly stated our aim to improve the financial control and overall management of the highest cost cases, achieving more timely and effective disposal.

We have put in place a number of measures to work towards this aim, such as the High Cost Cases Review Board, a cross-CJS board which aims to bring greater scrutiny to the way that high cost cases are managed.

The judiciary have also issued a number of protocols on the management of heavy fraud and other complex cases, terrorism cases and of the disclosure process.

which are intended to ensure that judges actively case manage to minimise the length of trials, and that prosecution and defence teams comply with deadlines and directions.

The Criminal Case Management Framework promotes robust judicial case management among operational practitioners and provides guidance as to how cases should be managed efficiently and effectively from pre-charge through to conclusion. The Criminal Procedure Rules 2005 add a degree of prescription to the practices outlined in the CCMF by ensuring that criminal cases are dealt with efficiently and expeditiously.

Magistrates

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what progress she has made in increasing diversity among magistrates. [84579]

Ms Harman: In the year 2004-05 there were 28,300 magistrates of which 6.7 per cent. were members of the Black and Minority Ethnic community; 18.96 per cent. of magistrates were under 50 years of age.

In 2005-06 the magistracy increased to 28,865. Of these, Black and Minority Ethnic members rose to 7.2 per cent.; and magistrates under 50 rose to 20.16 per cent.

The gender split remains evenly balanced.

Magistrates Courts (Foreign Nationals)

Mr. Hands: To ask the Minister of State, Department for Constitutional Affairs whether magistrates are permitted to ask the Crown Prosecution Service whether they have issued an IM4 Deportation Notice when a non-EU foreign national pleads guilty to an imprisonable offence. [84422]

Ms Harman: Yes, where the court considers this information appropriate to the decision it intends to make for instance if a non-EU foreign national is found guilty of an imprisonable offence.

Mr. Hands: To ask the Minister of State, Department for Constitutional Affairs whether magistrates are permitted to ascertain the immigration status of a defendant who is a non-EU foreign national. [84423]

Ms Harman: Yes, when it becomes relevant for instance when considering bail or sentencing for an imprisonable offence. In practice this is something that would be brought to the attention of the court by the prosecution.

Official Visits

David Simpson: To ask the Minister of State, Department for Constitutional Affairs on how many occasions she has visited each region in an official capacity in the last 12 months. [83911]

Ms Harman: In an official capacity over the last 12 months I have visited the North West five times, the East Midlands twice, the East of England once, the West Midlands twice, the South East once and have made 11 visits in London.

Public Appointments

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs how many public appointments are within her patronage; what *(a)* salary and *(b)* other emoluments are attached to each; and what the comparable figures were in (i) 1976, (ii) 1986 and (iii) 1996. [83188]

Ms Harman: Details of the public appointments to public bodies sponsored by the Department for Constitutional Affairs can be found in "Public Bodies", copies of which are in the Library. "Public Bodies" has been published annually since 1980 and the most recent edition provides figures for 2005. Each edition of "Public Bodies" contains details on the number of public appointments and remuneration details for that particular year. Further information, including comparable information for 1976, in respect of Department for Constitutional Affairs could be provided only at disproportionate cost.

Small Claims Courts

Anne Milton: To ask the Minister of State, Department for Constitutional Affairs what average payment has been made to claimants in successful cases heard by small claims courts where the claimant *(a)* had legal representation and *(b)* had no legal representation in each year since 1997. [84079]

Ms Harman: Information on the average payment made to claimants on successful cases heard by small claims courts is not collected since payment will often be made between the parties without the court having been informed. The following table gives information on the average level of award in cases where the claimant *(a)* had legal representation and *(b)* had no legal representation in each year since 1997, drawn from a sample collected from 29 county courts during the months of February, July and November each year and aggregated to provide national figures.

Small claims procedures

	Number of claims made where claimant was represented by a solicitor	*Average size of award for claims using a solicitor (£)*	*Number of claims made by the claimant in person*	*Average size of award for claims made by claimant in person (£)*
1997	43,499	829.47	54,314	561.25
1998	45,517	1052.46	53,175	760.92
1999	46,149	884.35	42,255	706.29
2000	27,161	1389.41	28,675	1252.92
2001	29,877	1363.21	28,456	1344.92
2002	23,799	1157.99	31,920	1878.99
2003	22,114	1651.11	30,029	1387.44
2004	20,059	1411.48	26,041	1436.94
2005	20,554	1081.61	26,967	1029.15

Anne Milton: To ask the Minister of State, Department for Constitutional Affairs how many cases

have been heard by small claims courts where *(a)* claimants had legal representation and *(b)* claimants had no legal representation in each year since 1997. [84080]

Ms Harman: Information on the number of cases that have been heard by small claims courts where *(a)* claimants had legal representation and *(b)* claimants had no legal representation in each year since 1997 is contained in the following table. The data are derived from case samples collected from 29 county courts during the months of February, July and November each year, which has then been aggregated to provide national figures.

	Number of claims	*Represented by a Solicitor*	*Claimant in person*
1997	97,813	43,499	54,314
1998	98,692	45,517	53,175
1999	88,404	46,149	42,255
2000	55,836	27,161	28,675
2001	58,333	29,877	28,456
2002	55,719	23,799	31,920
2003	52,143	22,114	30,029
2004	46,100	20,059	26,041
2005	47,521	20,554	26,967

Small Claims Limit

David Tredinnick: To ask the Minister of State, Department for Constitutional Affairs what progress the Government have made with their plan for consultation on alternative options for dealing with the small claims limit. [84879]

Ms Harman: The Government are currently working with stakeholders to make the claims process more timely, proportionate and cost-effective. We intend to publish a consultation paper later this year.

Social Exclusion

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what role her Department is playing in reducing social exclusion. [84580]

Vera Baird: The Department for Constitutional Affairs (DCA) has an important role in the social exclusion agenda. We are promoting the benefits of good early advice services for those most in need. Evidence shows that this can prevent relatively simple civil legal issues spiralling into more complex problems. We are also encouraging closer working across Whitehall. Our role is crosscutting in highlighting the worth of advice services to Government colleagues. DCA is also the facilitating Department for other Government Departments that require a final remedy to be decided upon by a court or tribunal.

Specialisation and innovation in the courts system is also relevant. We are looking at both preventing crime through community justice initiatives, and re-integrating offenders into society. The Community Justice Centre in North Liverpool is spearheading such an approach.

Another main area of influence is the role of family courts. The recent Review of the Child Care Proceedings System in England and Wales (produced jointly with DfES) aims to achieve better lives for children and their families by improving the care proceedings system and eliminating unnecessary delay in care cases, while ensuring that the process remains a fair one. The DCA is also a key player on the Domestic Violence Inter-Ministerial Group. There are currently 25 Specialist Domestic Violence (DV) courts. A bidding process is currently under way to establish a second tranche of these courts by 1 April 2007.

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what assessment she has made of the role of early legal advice in preventing social exclusion. [84581]

Vera Baird: Good, early advice services can prevent relatively simple civil legal issues developing into more complex and numerous problems. This is evidenced by the recent Legal Services Research Centre's "Causes of Action" publication, which also highlights the tendency for inter-related problems to develop around a key theme (broadly around 'family', 'homelessness' and 'economic' clusters). The Legal Services Commission's new Community Legal Service Strategy is informed by this research, and proposes that newly created Community Legal Advice Centres are located in areas of high deprivation in order to target the most vulnerable. My Department's recent Getting earlier, better advice to vulnerable people document underlines the need for ensuring advice is people focussed, with problems not being considered in isolation. It also highlights the importance of getting advice right first time, and ensuring more effective referral networks are in place so that people get the service they need regardless of their point of access to the system.

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what role she expects the Legal Services Commission to play in preventing social exclusion. [84583]

Vera Baird: As part of its role in delivering legal aid, the Legal Services Commission (LSC) considers the need for its services to help prevent social exclusion. The LSC can play its part by ensuring that services are better co-ordinated, focussed and effective, and that acts of advice/assistance increase. The new Community Legal Service (CLS) Strategy proposes that Community Legal Advice Centres (CLACs) are located in areas of high deprivation in order to target the most vulnerable. In less densely populated areas Community Legal Advice Networks (CLANs) will ensure that clients are able to access a range of high quality advice services regardless of their geographic location. Community Legal Service Direct also allows easy access for clients. The new CLS Strategy, in proposing that CLACs and CLANs will cover all five areas of social welfare law (Community Care, Housing, Debt, Employment and Welfare Benefits), will further promote social inclusion.

Special Advocates

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs what discussions she has had on extending the pilots of victims' special advocates. [84528]

Ms Harman: I met with Mary Williams, the chief executive of Brake, on 3 May 2006 and discussed whether victims' advocates should be extended to include deaths caused by driving offences. I also have regular discussions about the progress of the pilots with key stakeholders, in the pilot areas. No decisions will be taken about the future of the victims' advocates scheme until we have assessed the success of the pilots.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British officials are serving with the United Nations Assistance Mission in Afghanistan; and what their objective is. [85472]

Dr. Howells: One UK Government secondee from the Ministry of Defence serves with the UN Assistance Mission in Afghanistan (UNAMA), acting as a military assistant to the Head of UNAMA.

Ascension Island

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate she has made of the value of domestic properties on Ascension Island. [77525]

Mr. Hoon: The value placed on domestic properties on Ascension Island for the purposes of property taxation, extracted from the Valuation Roll 2005-06, totals £22,335,333.

Pakistan

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent assessment she has made of the impact on Christians of the use of blasphemy laws in Pakistan; and what recent representations she has made on religious freedom in Pakistan; [85103]

(2) what recent representations she has made to the Pakistani Government on the use of blasphemy laws. [85105]

Dr. Howells: I raised the situation of Christians in Pakistan during my meeting with Prime Minister Shaukat Aziz, on 7 March, asking him to take action to protect religious minorities in Pakistan.

Working with our EU partners, we raise our human rights concerns with the Government of Pakistan through regular démarches, as well as bilateral lobbying. The most recent demarche was presented to the Government of Pakistan in June 2006. In the démarche we reiterated our concerns over the abuses of the blasphemy laws and renewed our requests for the Government of Pakistan to repeal or modify them, to remove the possibility of the law being misused against minority communities.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of reports of *(a)* violence and *(b)* infringements of freedom of religion against Christians in Pakistan. [85104]

Dr. Howells: There continues to be incidents of violence against Christians in Pakistan, although the Government in Pakistan is quick to condemn them. I raised the situation of Christians during my meeting with Pakistani Prime Minister Shaukat Aziz, on 7 March, asking him to take action to protect religious minorities in Pakistan.

We condemn instances where individuals are persecuted because of their faith whenever it happens and whatever religion of the individual or group concerned. We make regular representations to the Government of Pakistan on this issue, both through bilateral lobbying and working with our EU partners. This was last raised through an EU démarche in June 2006.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations she has made since January on behalf of Younis Masih, on trial for blasphemy in Lahore, Pakistan. [85139]

Dr. Howells: We have not made any representations on this case since January. We continue to lobby, both bilaterally and as part of the EU, on minority issues in Pakistan, to remove the possibility of the law being misused against minority communities. In June 2006, an EU démarche on human rights was delivered to the Government of Pakistan, which reiterated our concerns over the abuses of the blasphemy laws and renewed our requests to repeal or modify them.

Palestine

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer to the hon. Member for Coventry, South (Mr. Cunningham) of 28 June 2006, *Official Report*, column 439W, on Palestine, which parts of the Quartet aid mechanism to the Palestinians are expected to begin to deliver support in July; and if she will make a statement. [84180]

Hilary Benn: I have been asked to reply.

Emergency support through the temporary international mechanism has already begun to reach the occupied Palestinian territories. On 11 July, the European Community began providing fuel for emergency generators for hospitals in Gaza. This will enable essential health services to continue after electricity supplies were affected by recent damage to the Gaza power station. We expect that further assistance to health services throughout the West Bank and Gaza will begin during July.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of the likelihood of recent events in Gaza *(a)*

delaying and *(b)* otherwise affecting the launch of the Quartet aid mechanism to the Palestinians; and if she will make a statement. [84210]

Hilary Benn: I have been asked to reply.

The UK Government are deeply concerned at the increased violence between Israel and the Palestinians. We continue to urge both parties to act with restraint and to end the current cycle of violence. The case for the temporary international mechanism is strengthened by the worsening humanitarian situation. The mechanism has already provided emergency fuel supplies to generators at Gaza hospitals, keeping vital services going. Other assistance to continue health services is expected to begin shortly.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs which countries have *(a)* made and *(b)* undertaken to make contributions to the temporary international mechanism to provide assistance to the Palestinian people; and if she will make a statement. [84211]

Hilary Benn: I have been asked to reply.

The temporary international mechanism is open to any donor that wishes to contribute. The European Community has committed €105 million. DFID intends to provide up to £12 million through the mechanism. We are aware that several European countries are considering contributions, but any announcement will be for them to make.

CULTURE, MEDIA AND SPORT

Art Market

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport what action her Department has taken to strengthen the position of London as a global art market. [85364]

Mr. Lammy: My Department sees maintaining the pre-eminent position of London within the global art market as vitally important. Through Arts Council England, we have invested around £480,000 of lottery capital funding into London studio spaces for artists. The Arts Council also supports a number of art fairs, including the Frieze Art Fair which last year attracted 31,497 people, encouraging new buyers for contemporary art and leading to £32 million of sales.

My Department sponsors a number of museums and galleries, a number of which have important contemporary collections. The Arts Council has also stimulated public interest in contemporary art through its Own Art Scheme, which offers interest free loans to open up the market to a wider range of people. Own Art, although primarily focused on the regions, is to be expanded to involve a number of art colleges in London.

Casinos

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport when *(a)* Ministers and *(b)* officials have held meetings in the last 12 months with casino operators interested in securing licences under the Gambling Act 2005; where each meeting took place; and what was discussed. [83371]

Mr. Caborn: Under the Gambling Act 2005, local authorities acting in their capacity as licensing authorities will be responsible for issuing the one regional, eight large and eight small new casino licences permitted by the Act. Licensing authorities will be required to run the competitions for these licences in a fair and open way. These competitions are not expected to begin until mid-2007, and the identities of the bidding companies will not be known until then.

DCMS Ministers and officials have met frequently with casino and other companies that may be interested in bidding, and their representative bodies. These meetings have covered all aspects of the implementation of the Gambling Act and wider gambling policy, and are part of our regular and ongoing consultation with the gambling industry, local authorities and other stakeholders. Those meetings that have been identified that have taken place since 1 January 2006 are listed in the following table, and all these meetings took place in the UK.

Date	*DCMS Minister and/or official(s) present*	*Who attended the meeting*
18 January 2006	Richard Caborn	Rank Group
6 February 2006	Official(s)	British Casino Association
7 February 2006	Official(s)	Representatives of the gambling industry, including British Casino Association and Casino Operators' Association
10 February 2006	Official(s)	Rank Group
21 March 2006	Official(s)	British Casino Association
11 April 2006	Official(s)	Representatives of the gambling industry including the British Casino Association
20 April 2006	Official(s)	Overseas casino operators including Ameristar, Kerzner International, MGM Mirage
10 May 2006	Official(s)	British Casino Association
15 May 2006	Official(s)	Representatives of the gambling industry, including British Casino Association and Casino Operators' Association
18 May 2006	Official(s)	Rank Group
23 May 2006	Official(s)	London Clubs International
24 May 2006	Richard Caborn and official(s)	British Casino Association

Details of earlier meetings that may be relevant were included in my reply of 20 December 2005, *Official Report*, columns 2654-6W to the hon. Member for North-East Cambridgeshire (Mr. Moss).

One further meeting has been identified, which was inadvertently omitted from my earlier reply: DCMS officials and I met Detlef Kornett, Managing Director of the Anschutz Group in London on 7 July 2003. The minutes of this meeting were published on the DCMS website as part of a response dated 26 July 2005 to a request made under the Freedom of Information Act.

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport what *(a)* rights of appeal and *(b)* avenues to reopen decisions are available to those local authorities who have had their applications for a regional casino rejected by the Casino Advisory Panel. [84130]

Mr. Caborn: The process for considering local authority proposals for regional casinos is a matter within the discretion of the Casino Advisory Panel having regard to published criteria and to Government policy. Local authorities have no rights of appeal to the panel. The panel, however, has given interested parties the opportunity to submit further relevant information. The deadline for any such information was 28 June 2006.

Coastal Resorts

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport which coastal resorts in England and Wales received Heritage Lottery grants in each of the last 10 years for which figures are available. [85388]

Mr. Lammy: The Heritage Lottery Fund have awarded the following grants to English coastal resorts (as defined by the British Resorts Association) and Welsh coastal resorts since 1994-95 to 2005-06:

Region/coastal resort	*Number of projects*	*Total value (£)*

Engagements

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 11 July 2006, *Official Report*, columns 1761-62W, on engagements, if she will list the engagements entered in the ministerial diary of the Parliamentary Under-Secretary of State, Media and Tourism since his appointment to that post. [85964]

Mr. Woodward: I refer the hon. Member to the answer given on 11 July 2006.

Gambling

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport whether a sports levy on the gambling industry is being considered to help finance the integrity in sport sought by her Department's 10 point plan on Betting. [85577]

Mr. Caborn: The Government have no plans to introduce a statutory levy to finance the integrity of sports.

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport what the timetable is for local authorities to implement provisions of the Gambling Act 2005. [85735]

Mr. Caborn: The Gambling Act 2005 will be fully implemented by September 2007. Under current plans local authorities will begin to consider the first applications for premises licences from 31 January 2007. My officials are discussing with the Local Authorities Co-ordinators of Regulatory Services—LACORS—the timetable and resources needed to achieve this date.

Illegal Sports Betting

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport (1) what steps her Department is taking with *(a)* EU and *(b)* other countries to combat illegal betting in sport; [84986]

(2) what discussions her Department has held with *(a)* EU and *(b)* other countries sports ministers on tackling illegal betting from overseas on UK sporting events. [84987]

Mr. Caborn: I outlined the Government's internal arrangements to protect the integrity of sporting events on which betting takes place with Jean-Francois Lamour, French Minister for Youth, the Sports and Community Life at a recent meeting in Paris. I have subsequently written to Monsieur Lamour explaining these arrangements in more detail.

The Gambling Commission works closely with gambling regulators in other jurisdictions on a range of issues, including mechanisms for exchanging information on gambling operators and procedures to address illegal practices in gambling.

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what measures are in place to assist *(a)* the Gambling Commission and *(b)* sports governing bodies to monitor betting from overseas on sporting events that are run in the UK. [84988]

Mr. Caborn: The Gambling Commission may, once the provisions of the Gambling Act 2005 are implemented in September 2007, require any betting operator it licenses to provide information on bets that are placed with that operator. The Commission may share that information with the sports governing bodies listed under Schedule 6 of the Gambling Act. While the Gambling Commission has no jurisdiction over betting operators licensed outside Great Britain, it is continuing to build upon its co-operative relationships with overseas gambling regulators.

The Government have worked with sports governing bodies to develop a 10 point plan which facilitates information sharing between sports bodies and betting operators.

So far eleven sports bodies have signed up to the voluntary plan and an increasing number have Memoranda of Understanding with betting operators allowing for the sharing of information about suspicious betting patterns or individuals betting with those operators here or abroad.

Judicial Review

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 5 July 2006, *Official Report*, column 1097W, on judicial review, where information is held indicating on what occasions individuals and organisations have applied

for a judicial review of decisions of her Department; and how *(a)* hon. Members and *(b)* members of the public may have access to that information. [85389]

Mr. Lammy: I informed the hon. Member in my reply to him of 5 July 2006, *Official Report*, column 1097W, that the information requested is not held centrally. The request includes all judicial review claims brought against the Department of Culture, Media and Sport, not just those in which judgment was given by the court but also all those withdrawn or settled by the parties and those where the court did not grant permission to proceed. The information will be held on files of Her Majesty's Court Service, of the Department for Culture, Media and Sport and of the Treasury Solicitors Department. It is open to hon. Members and members of the public to make a request for information under the Freedom of Information Act Some information is also available on Her Majesty's Courts Service website www.hmcourts-service.gov.uk and other legal research databases, although these may be selective and are likely to be confined to cases that proceeded to judgment.

Liquor Licences

Mr. Andrew Turner: To ask the Secretary of State for Culture, Media and Sport what the Department's policy is on whether a liquor licence renewed using grandfather rights before the date on which local authorities became responsible for such licensing should run for 12 months from *(a)* the date of application, *(b)* the date when renewal took place, *(c)* the date on which the licence was issued, *(d)* November 2003 and *(e)* another date. [85837]

Mr. Woodward: Licensing authorities became responsible for licences granted under the Licensing Act 2003 on 7 February 2005. All licences granted under the previous alcohol licensing regime became invalid when the Licensing Act 2003 came fully into operation on 24 November 2005, regardless of whether they had been due to expire after that date. Under the new licensing regime there is no renewal date for premises licences and club premises certificates. Licensees currently pay an annual fee on the anniversary of the date when the licence application was granted.

London Olympics

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the London 2012 Olympic and Paralympic Games Candidate File, if she will provide an update on progress on the procurement of no-emission vehicles for the Olympic fleet; and if she will make a statement. [84901]

Mr. Caborn: The Olympic delivery bodies are currently preparing the Olympic Transport Plan, a requirement of the London Olympic Games and Paralympic Games Act 2006. They will be consulting on the draft plan later this year.

Low or zero emission vehicles will be used throughout the fleet of cars, buses and service vehicles for the 2012 Olympic and Paralympic Games.

The delivery bodies are currently in discussion with a number of potential marketing partners within the automotive sector and expect to appoint a single automotive partner in due course. The successful partner will be contractually bound to provide a fleet of some 3,500 low emission cars, MPVs and vans. During initial discussions all the potential partners have shown a clear understanding of and commitment to the bid promise of a low carbon Games. They will also enter into discussions with transport operators to provide a fleet of 1,500 low emission buses and coaches, and will also appoint a partner to provide low carbon fuels for all vehicles.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the London 2012 Olympic and Paralympic Candidate File, when the exchange programmes and educational scholarships for developing international companies will begin; and if she will make a statement. [84902]

Mr. Caborn: The promotion of sustainability will be a fundamental strand of the London 2012 Education Programme. LOCOG is in the process of working with partners to develop its plans for this programme with the aim of engaging and enhancing the learning of young people across the UK and internationally.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport (1) what percentage of the waste generated during the course of the London 2012 Olympic and Paralympic games will be diverted from landfill and sent for reprocessing; and if she will make a statement; [84903]

(2) what plans the Government have to implement delivery of a zero waste games; by what criteria the level of waste will be assessed; and if she will make a statement. [85026]

Mr. Caborn: We have committed to zero waste to landfill for the duration of the Olympic and Paralympic games in 2012. The Olympic Board has identified waste as one of five key sustainability themes the Olympic programme will be focusing on. The Government, GLA, ODA and LOCOG are currently developing their delivery plans in this area, and are looking at appropriate targets for waste as part of the overall Olympic programme. As part of this, the ODA is currently investigating the opportunities to divert waste from landfill during the demolition and construction of the Olympic Park as part of its sustainable development strategy.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport whether her Department plans to publish the appraisals of the contractors in relation to the 2012 construction commitments. [84962]

Mr. Caborn: The construction commitments signed very recently by DCMS, DTI, ODA, the Mayor for London and the Strategic Forum for Construction are a major step forward in enabling us to showcase collaborative behaviours and best practice. The ODA and the Strategic Forum are now developing various measures in each of the areas of the commitments, and these will be made publicly available.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the impact of winning the 2012 Olympic and Paralympic games on sports participation among children. [85025]

Tessa Jowell: Winning the bid to host the Olympic games in 2012 creates the best possible opportunity to transform sport for young people.

Through our national school sport strategy we are well on the way to ensuring that 75 per cent. of children do two hours of high quality physical education and sport per week by 2006 and 85 per cent. by 2008. In addition, by 2010 all children will be offered a further two to three hours of sport every week. We are also putting in place competition managers so that all pupils can compete individually or in teams. 20 managers have been in post since September 2005 and the next wave will be in place by September 2006. By 2010 all school sport partnerships will be supported by a competition manager.

We have set up the UK school games which will showcase our talented young athletes in an annual inter nation and regions competition to be held from 2006-2011. We have already appointed 600 young ambassadors across the school sport partnerships and we aim to have 822 in place by September 2006. Their objective is to help to spread the Olympic message and ideals within their school sport partnership, and act as advocates and role models to other young people.

The National Sports Foundation is now in place and is responsible for levering and promoting new and additional money for grass roots sports. One of its schemes 2012 Kids builds on the success of the Olympics to encourage children and young people to take up sport.

Ms Keeble: To ask the Secretary of State for Culture, Media and Sport on what basis the venues for the Olympics road show were selected. [85042]

Mr. Caborn: The venues for the 2012 road show were selected to ensure that there is a wide and diverse coverage of events and locations from within each region in England and Scotland, Wales and Northern Ireland. As well as all four capital cities and other major towns, the road show is visiting 2012 competition venues, sporting events, venues with special significance for the Olympic or Paralympic movement, cultural venues and tourist attractions. All road show venues and locations were agreed in conjunction with the Nations and Regions Group.

Ms Keeble: To ask the Secretary of State for Culture, Media and Sport what plans she has to sponsor a future Olympics road show. [85043]

Mr. Caborn: The Olympic stakeholders hope to stage events of this sort in the years from 2007 onwards although plans for future years are yet to be decided.

Museums and Galleries

Mr. Andrew Smith: To ask the Secretary of State for Culture, Media and Sport what progress has been towards increasing the number of people accessing museum and gallery collections by 2 per cent. by 2008. [85458]

Mr. Lammy: The Department's public service agreement target 3 is, by 2008, to increase the number of people from priority groups visiting museums and galleries during the past 12 months by two percentage points on the final baseline estimate, which will be known in late 2006. The provisional baseline estimates published on 24 March 2006 are set out as follows. These data are from the Taking Part survey.

Attendance at museums and galleries by priority group during the past 12 months

At least one visit		*Percentage Range*[1]
Black and minority ethnic	36.3	33.4–39.1
Limiting disability	31.8	29.8–33.9
Lower socio-economic	29.3	27.7–30.8
All adults	42.7	41.6–43.8

[1] Using 95 per cent. confidence interval.

Note:

1. Figures have been rounded to 1 decimal place.

Taking Part is new survey commissioned by the Department and the following NDPBs: Arts Council England; English Heritage; Museums, Libraries and Archives Council and Sport England. The survey was launched in July 2005 and is a continuous national survey of adults and children living in private households in England. The survey asks about engagement and non-engagement in and across activities within the Department's remit. The survey is the principal measurement tool for reporting performance on the Department's PSA target 3.

NESTA

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how much was spent on the National Endowment for Science, Technology and the Arts scheme in each year since 1997; how many grants were made under the scheme in each year; how many applications were rejected; and if she will make a statement. [85555]

Mr. Woodward: The information is as follows.

	Total expenditure NESTA (£000)	*Total number of awards*	*Total number of applicants rejected*
1998-99	909	—	—
1999-2000	5,914	31	—
2000-01	9,659	64	244
2001-02	13,581	95	973
2002-03	17,823	126	912
2003-04	20,843	206	1,190
2004-05	24,773	255	1,024
2005-06	25,332	273	1,460
Total	118,834	1,050	5,803

NESTA was created by Act of Parliament in 1998, to support UK creativity and innovation. NESTA is working towards transforming the UK's capacity for innovation. It invests in all stages of the innovation process, backing new ideas and funding ventures that

stimulate entrepreneurship. It aims to be the single most important catalyst for innovation in the UK.

Its total expenditure in 1998-99 was £909,000, rising to £25,332,000 in 2005-06. The number of awards made in 1999-2000 totalled 31, rising to 273 in 2005-06. Finally the number of applicants rejected in 2000-01 totalled 244, rising to 1,460 in 2005-06.

School Swimming Pools

Joan Walley: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the Amateur Swimming Association on classification of school swimming pools not included in the category of supplementary net agenda; and if she will make a statement. [84151]

Jim Knight: I have been asked to reply.

We are not aware of any discussion between the Secretary of State for Culture, Media and Sport and the Amateur Swimming Association regarding the classification of school swimming pools.

Indoor swimming pools are normally classified as 'supplementary net area', as set out in DfES Building Bulletin 98: 'Briefing Framework for Secondary School Projects'. This is because they are usually an enhancement to school facilities, not part of the core provision that we expect all schools to have. Outdoor pools are not included in either the net or gross floor area of school buildings.

Sport England

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many interviews of the 1,000 per local authority have been conducted so far for Sport England's active people survey; and if she will make a statement. [84972]

Mr. Caborn: 266,883 interviews have been conducted so far for Sport England's active people survey which is on track to meet the target of at least 1,000 interviews per local authority in England by October 2006.

Stonehenge

Paul Holmes: To ask the Secretary of State for Culture, Media and Sport what assessment her Department has made of the likely impact of the shortlisted options for the A303 at Stonehenge in the first year after their construction on *(a)* visitor numbers and *(b)* income generated from visitors to Stonehenge. [85739]

Mr. Lammy: The specific impact of each A303 option on commercial performance at Stonehenge has not been modelled. However, should English Heritage's plans for a new visitor centre and access arrangements at Stonehenge go ahead, along with the published scheme for improvements to the A303, it is estimated that visitor numbers are likely to stay the same as at present. Any increase in visitor spending is likely to be balanced by the cost of operating the new facilities.

Paul Holmes: To ask the Secretary of State for Culture, Media and Sport how much income has been generated from visitors to Stonehenge in each year since 1997. [85740]

Mr. Lammy: The net income (not profit) generated from visitors to Stonehenge in each year since 1997 is as follows:

	£
1996-97	3,156,883
1997-98	3,310,350
1998-99	3,755,389
1999-2000	4,036,315
2000-01	[1]3,827,769
2001-02	[1]3,554,282
2002-03	3,854,550
2003-04	4,260,664
2004-05	4,669,575
2005-06	4,794,121

[1] Decline in income in years 2000-01 and 2001-02 reflects the decline in visitors during the foot and mouth crisis and the aftermath of 9/11.

Paul Holmes: To ask the Secretary of State for Culture, Media and Sport what estimate her Department has made of the number of visitors to heritage sites in the vicinity of Stonehenge in each year since 1997. [85741]

Mr. Lammy: The only English Heritage site in the vicinity of Stonehenge is Old Sarum. Other key sites in the area are Salisbury Cathedral and Wilton House. The visitor figures from 1997 for Old Sarum and Salisbury Cathedral are given in the table. Visitor figures for Wilton House will follow shortly:

		Number
	Old Sarum	*Salisbury Cathedral*[1]
1996-97	80,390	340,000
1997-98	76,372	338,000
1998-99	80,691	332,000
1999-2000	81,378	331,000
2000-01	75,921	313,000
2001-02	70,868	262,000
2002-03	65,818	263,000
2003-04	58,299	244,000
2004-05	53,977	271,000
2005-06	48,637	268,000

[1] Salisbury Cathedral does not charge entry fees, therefore figures are approximate and do not include people attending services, concerts or visiting the Close generally.

Paul Holmes: To ask the Secretary of State for Culture, Media and Sport what estimate her Department has made of the likely effect on the number of visitors to heritage sites in the vicinity of Stonehenge of each of the shortlisted options for the A303 at Stonehenge in the first year after construction. [85742]

Mr. Lammy: Visitor number projections resulting from the construction of any of the shortlisted options for the A303 are not available.

However, South West Tourism has identified Stonehenge and Salisbury as a key destination for regional tourism. Should the published road scheme be

approved, it will enable English Heritage to make major improvements to the visitor experience at Stonehenge, encourage a longer stay in the region and potentially benefit attractions such as Salisbury Cathedral and other local heritage sites and museums.

Swimming (Peterborough)

Mr. Stewart Jackson: To ask the Secretary of State for Culture, Media and Sport if she will take steps to improve the provision of swimming facilities in Peterborough; and if she will make a statement. [85344]

Mr. Caborn: Access to good quality sporting provision, including swimming pools, is essential if we are to encourage people to lead healthier, more active lives. There has been significant public investment in sports facilities in recent years—by 2006 over £1 billion of Exchequer and lottery funding will have been committed to develop over 4,000 new or refurbished facilities. Swimming has been the single greatest beneficiary of sport lottery funding, having received some £249 million since 1997. Peterborough has benefited from 31 awards totalling £699,823.

Provision for sport and leisure is currently a discretionary service for local authorities. Decisions on such provision are therefore a matter for local government. However, Sport England are encouraging and helping local authorities through the development of swimming strategies and toolkits to aid strategic planning. According to the Active Places database (available at www.activeplaces.com) there are 14 swimming pools within a 10 mile radius of Peterborough.

Ticket Touting

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport which event organisers of music festivals in the summer of 2006 have signed up to her Department's code of practice on ticket touting; and if she will make a statement. [84970]

Mr. Woodward: DCMS have been working with many of the organisers of summer music festivals including those representing the organisers of T in the Park, the Reading and Leeds festivals and the V festival as well as other representatives covering music, sport and the arts as well as secondary sellers and EBay.

All of these parties were involved in the production of the statement of principles (copies of which I have now placed in the Libraries of both Houses, which was first presented at a meeting) hosted by my right hon. Friend the Secretary of State in April. The statement of principles sets out the broad guidelines which we expected all parties involved in the commercial selling of tickets to follow. Since that meeting DCMS officials have had continued meetings with these representatives to aid their sectors in the production of sector specific codes of practice, which puts the rights of the consumer at the forefront.

Our principle in taking this forward must be to find a solution that protects fans and ensures that our creative, cultural and sporting industries are able to realise legitimate revenue streams.

Wembley Stadium

Mr. Lancaster: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the deadline for the completion of Wembley Stadium. [85040]

Mr. Caborn: On 3 July, Multiplex announced publicly that it remained confident that substantial completion of the stadium would be achieved in July 2006 sufficient to enable practical completion of its work at the end of September 2006.

Wembley National Stadium Ltd (WNSL) continues to discuss progress towards practical completion of the project with Multiplex and will announce an opening date in due course.

PUBLIC ACCOUNTS COMMISSION

National Audit Office

Mr. Leigh: To ask the Chairman of the Public Accounts Commission what progress the Commission has made in considering the proposal by the National Audit Office for the refurbishment of its headquarters building in London. [86119]

Mr. Alan Williams: At its meeting in December 2005 the Commission gave outline approval to the NAO's proposed refurbishment of its headquarters building in Buckingham Palace Road, London, subject, however, to three conditions. First, that the NAO should produce a detailed, fully costed business case for the project. Second, that the NAO should carry out a cost-benefit analysis of an alternative approach to its accommodation requirements, namely moving its headquarters to a North of England location. And third, that the NAO should provide a fuller explanation of its decision to rule out the possibility of acquiring alternative accommodation in London as part of the Government estate.

At its meeting on 4 July 2006, the Commission considered the NAO's response under each of those headings.

The Business Case

The business case produced by the NAO gives the total cost of the project as £77.44 million, spread over five years starting in 2006-07. In the longer term, there will be a small increase in annual resource costs to the NAO, resulting from higher business rates, capital charges and depreciation, partially offset by reduced running costs through greater building efficiency. Since submitting its original proposals the NAO has revised its approach to the decanting of staff which will be necessary while the building work is in progress. It is now hoped to carry this out in a single rather than a two or three stage process, depending on the availability of suitable decant accommodation. On the basis of the business case, the NAO made a persuasive argument in support of refurbishment as the most cost-effective way of avoiding what would otherwise be—because of the building's current deficiencies—an unacceptable risk to the Office's continued ability to function efficiently. The Commission was, however,

conscious of the sensitivity surrounding the timing of the project, since, under the NAO's plans, the bulk of the expenditure would occur in the years covered by the next, and potentially difficult, comprehensive spending review. We therefore pressed the NAO on the implications of deferring the project (which, because of the need to avoid coinciding with the competing demands on the construction industry from Olympics-related activity, would entail a delay until 2013). The NAO satisfied the Commission that, given the deteriorating condition of the current building, waiting a further seven years before undertaking remedial work would pose an unacceptable risk to the NAO's operations and therefore to the service it provides to Parliament.

The Possibility of Relocating to the North of England

In response to the Commission's request, the NAO examined Manchester as a possible location for a provincial headquarters building. Of a number of cities considered, Manchester was judged to come nearest to meeting the Office's principal requirements: good transport connections; and a sufficiently large local pool of qualified accountants to enable the NAO to recruit and retain key professional staff. On the latter count, the available pool in Manchester, though large in comparison with other provincial cities, is much smaller than London's and is insufficient to support the NAO's requirements. The cost-benefit analysis carried out by the NAO indicated that the basic costs associated with relocating would be broadly similar to those for the option of staying on in a refurbished Buckingham Palace Road. On the other hand, the analysis suggested that the uncertainty over the number of staff who would be willing to relocate posed a risk both of additional, but unquantifiable costs of redundancy and resettlement packages, and of disruption of core business activity. The Commission was satisfied that, for these reasons, relocation was not a realistic option. The NAO is, however, proposing to expand its presence in the North, concentrating on its existing team in Newcastle.

Alternative Accommodation in London

As part of its consideration of alternative sites in London for its headquarters building, the NAO has examined the portfolio of vacant, or about to become vacant, properties maintained by the Office of Government Commerce. The NAO's assessment, which the Commission accepted, is that there is at present no building available of a size and configuration to meet the NAO's requirements on a long term basis, and at a cost competitive with the headquarters refurbishment option, taking account of the resultant loss of the current peppercorn rent. Taking all these factors into account, and having carefully considered the NAO's business case, the Commission gave its formal approval to the proposed refurbishment of the Buckingham Palace Road building. The Commission noted that, depending on how quickly the refurbishment work can begin, it may be necessary for the NAO to submit a supplementary estimate for the financial year 2006-07. The Commission will consider any such request if and when it is received. In the meantime, the Commission looks to the Treasury to make room within the public expenditure envelope for the relevant years for the resources needed for the refurbishment. For its part, the Commission will monitor carefully the progress of the project against both time and budget.

DUCHY OF LANCASTER

Cabinet Office Staff Handbook

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer to my hon. Friend the Member for Brentwood and Ongar (Mr. Pickles) of 21 June 2006, *Official Report*, column 1872W, on the Cabinet Office Staff Handbook, when the CD will be placed in the Library. [85447]

Mr. McFadden: A CD Rom containing the terms and conditions of service of Cabinet Office staff set out in the Cabinet Office HR Code, was placed in the Library for the reference of Members on Friday 14 July.

Departmental Staff (Sickness Absence)

David Simpson: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 5 June 2006, *Official Report*, column 244W, on sickness absence, how many staff in her Department have had two or more periods of sick leave of less than five days in two or more of the years for which she has provided figures. [84031]

Mr. McFadden: The Cabinet Office had 365 staff with two or more periods of sick absence of less than five days in two or more of the years between 2003 and 2005. "Analysis of sickness absence in the Civil Service", copies of which are available in the Library for the reference of Members, publishes sickness absence lost per employee for Government Departments.

FIFA World Cup

Mr. Hands: To ask the Chancellor of the Duchy of Lancaster which matches *(a)* she and *(b)* other Ministers in her Department attended at the FIFA World Cup 2006 in Germany in their ministerial capacity; at what cost to public funds; and with what contributions from third party organisations. [83617]

Hilary Armstrong: Cabinet Office Ministers have not attended any World Cup 2006 matches.

Official Residence

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster how many staff work in the Old Admiralty Building. [85668]

Mr. Hoon: I have been asked to reply.

On 1 July 2006, 1,093 Foreign and Commonwealth Office staff were employed in the Old Admiralty Building.

Parliamentary Questions

Mr. Amess: To ask the Chancellor of the Duchy of Lancaster how many parliamentary questions tabled to

her Department were awaiting a reply on 10 July 2006; which of those had been waiting longer than *(a)* two and *(b)* three weeks for a reply; and what the reason for the delay was in each case. [85199]

Hilary Armstrong: At the end of business on Monday 10 July 2005, there were 17 parliamentary questions tabled to the Department awaiting a response, of which one was two weeks overdue. The question was responded to on Tuesday 11 July.

Statutory Instruments

Mr. Prisk: To ask the Chancellor of the Duchy of Lancaster how many statutory instruments were made by *(a)* Government departments and *(b)* other UK authorities in each year from 1989 to 2005. [84968]

Edward Miliband: The number of statutory instruments made in each year from 1989 to 2005 is shown in the table.

	Number made by Government Departments Authorities and UK	*Total*
1989	—	2,503
1990	—	2,664
1991	—	2,951
1992	—	3,359
1993	—	3,279
1994	—	3,334
1995	—	3,345
1996	—	3,291
1997	—	3,114
1998	—	3,319
1999	—	3,488
2000	—	3,424
2001	—	[1]4,147
2002	—	3,271
2003	of which 2,999 Government departments and 355 other UK authorities	3,354
2004	of which 3,103 Government departments and 349 other UK authorities	3,452
2005	of which 3,297 Government departments and 302 other UK authorities	3,599

[1] The number of SIs/SSIs registered during 2001 included 597 UK Government Sis, 36 National Assembly for Wales Sis and 65 Scottish Sis which related directly to the outbreak of foot and mouth disease.

It is not possible to provide information split between Government Departments and other UK authorities prior to 2003. The information could be obtained only at disproportionate cost.

Detailed statutory instrument statistics are also available on the website of the Office of Public Sector Information (OPSI), at: http://www.opsi.gov.uk/si-statistics.htm

Mr. Amess: To ask the Chancellor of the Duchy of Lancaster on what occasions a statutory instrument sponsored by her Department has been reported by the Joint Committee on Statutory Instruments as defective since October 2005. [85181]

Hilary Armstrong: The Cabinet Office has had one statutory instrument reported as defective since October 2005—The Civil Contingencies Act 2004 (Contingency Planning) Regulations 2005 (S.I. 2005/2042). A correction slip was issued in February 2006 to correct the error.

COMMUNITIES AND LOCAL GOVERNMENT

Brownfield Sites

Mr. Soames: To ask the Secretary of State for Communities and Local Government how many acres of brownfield sites she estimates there are in *(a)* West Sussex and *(b)* Mid Sussex. [84843]

Yvette Cooper *[holding answer 13 July 2006]:* The information shown as follows is the total of sites reported by local authorities for the 2004 National Land Use Database of Previously-Developed Land. Local authorities do not claim to cover all sites in their returns, particularly small sites, so the totals understate the full amounts.

	Hectare	
	West Sussex	*Mid Sussex*
Vacant and derelict land and buildings	153	19
Currently in use with potential for redevelopment	344	42
Total	497	61

Community Infrastructure Scheme

James Brokenshire: To ask the Secretary of State for Communities and Local Government how many projects have been selected for detailed appraisal under the Community Infrastructure Scheme; and how many of these *(a)* have been rejected, *(b)* have been approved and *(c)* are under review. [85075]

Yvette Cooper: Two London Gateway transit schemes were allocated £34 million of Community Infrastructure Fund (CIF) funding in November 2004 to provide support to the 2012 Olympics bid. In addition, the Government received 104 expressions of interest in January 2005 for the remaining £166 million of CIF funding. These were reviewed and in March 2005 the Government announced that 48 schemes would be invited to prepare full bids. Following detailed assessment of the bids received, 25 schemes have been allocated CIF funding, with a further six schemes receiving Department for Communities and Local Government funding. The Government are working with local partners to look into other funding options for a small number of the remaining schemes.

James Brokenshire: To ask the Secretary of State for Communities and Local Government how much of the Community Infrastructure Fund announced in July 2004 has been *(a)* spent and *(b)* otherwise committed to be spent on identified projects; and what these projects are. [85076]

Yvette Cooper: In total £193 million of the £200 million Community Infrastructure Fund (CIF) has been allocated following a series of announcements—the final of which took place on 11 April 2006. The

remaining £7 million is to be used as a contingency reserve to address any emerging issues that may arise over this two-year programme.

Following is a list of the approved CIF schemes:

Scheme name	*Growth area*	*Total CIF £ million (to 2dp)*
A602 Improvements South of Stevenage	LSCP	3.12
Bishops Stortford Green Corridors	LSCP	1.98
Cambridge Station Area Access	LSCP	0.60
Dalston Slab	LSCP	10.00
Great Notley Garden Village Access	LSCP	4.80
Haringey Heartlands Spine Road	LSCP	5.00
Peterborough Fletton Parkway	LSCP	7.01
Aylesbury Vale Parkway	MKSM	8.17
Aylesbury PT Hub	MKSM	11.42
Aylesbury Southcourt Bridge	MKSM	2.96
Corby Northern Orbital Road	MKSM	6.10
Cross Valley Link Northampton	MKSM	9.69
East Luton Corridor Improvements	MKSM	14.50
MI Junction 14	MKSM	8.42
Milton Keynes Station	MKSM	24.00
Sandy Lane Improvements	MKSM	5.72
Sandy Lane Relief Road	MKSM	4.51
Wilby Way Roundabout	MKSM	1.30
Fastrack—Greenhithe Stn/Ingress	TG	5.24
Fastrack Thames Way	TG	8.12
Fryerns/Craylands, Basildon	TG	5.90
Langdon Park DLR	TG	5.70
London Gateway Transits—two schemes	TG	34.00
Pontoon Dock Station Bridge	TG	1.34
Tidal Basin Roundabout	TG	0.96
Woolwich New Road	TG	2.62

James Brokenshire: To ask the Secretary of State for Communities and Local Government what the status is of the appraisal of the Barking-Dagenham-Rainham-Grays-Pitsea 12 car platform lengthening project for funding under the Community Infrastructure Fund. [85074]

Yvette Cooper: The announcement of the final tranche of schemes to be funded under the Community Infrastructure Fund (CIF) was made in April 2006 and was placed on both the Department for Transport (DfT) and Department for Communities and Local Government (DCLG) websites.

The Barking-Dagenham-Rainham-Grays-Pitsea 12 car platform lengthening project bid was not successful. There were numerous bids for GIF funding and DfT and DCLG ministers had to prioritise schemes against a cash limited fund.

James Brokenshire: To ask the Secretary of State for Communities and Local Government what the reasons were for rejecting the Rainham interchange project submitted by the London borough of Havering for funding under the Community Infrastructure Fund. [85073]

Yvette Cooper: There were many bids for Community Infrastructure Funding. We, with colleagues in the Department for Transport, had to prioritise schemes against a cash limited fund. The bid for the Rainham scheme was to fund enabling works and so would not, in itself, have delivered a capital infrastructure project to support housing growth.

Council Tax

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many full-time equivalent staff work in the council tax capping division in her Department. [85697]

Mr. Woolas: The Expenditure Control Division of the Department deals with council tax capping among other issues. At present the division has 8.6 full-time equivalent members of staff, including temporary staff.

It is not possible to set out the split of staff input between capping and other work.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the total administrative cost was of the council tax capping division in her Department in *(a)* 2004-05 and *(b)* 2005-06. [85699]

Mr. Woolas: The total expenditure incurred by the Division dealing with council tax capping, including work on issues other than capping, was:

	(£)
2004-05	503,610.22
2005-06	414,949.95

It is not possible to set out the split of resources between capping and other work.

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government what proportion of the population pays council tax; and what percentage of those qualify for discounts. [86005]

Mr. Woolas: The number of chargeable dwellings liable for council tax in England as at November 2005 was 21,267,000 of which 8,018,000 dwellings (37.7 per cent.) were entitled to a discount.

The number of chargeable dwellings and those entitled to a discount are taken from the CTB1 forms submitted to this Department by all 354 billing authorities in England. The number of individuals liable for council tax cannot be accurately determined from these or other sources.

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government how much council tax was collected by local authorities in the last year for which figures are available. [86025]

Mr. Woolas: A total of £18.4 billion council tax was collected by local authorities in England in 2005-06, irrespective of the financial year to which the liabilities relate.

Councillors (Parental Rights)

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what *(a)* maternity rights and *(b)* paternity rights councillors have; and if she will make a statement. [85674]

Mr. Woolas: Legislation does not provide maternity or paternity rights for local authority councillors.

Crasher Green (Stroud)

Mr. Drew: To ask the Secretary of State for Communities and Local Government when she will name the successful bidder for the Crasher Green site, Stroud. [83276]

Yvette Cooper: English Partnerships is currently conducting a feasibility study into the development of the Crasher Green site in Stroud which is due to be completed in July. A decision about the future development of the site will follow in the autumn.

Discharged Psychiatric Patients

Mr. Rogerson: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of discharged psychiatric patients who *(a)* became homeless and *(b)* were given (i) temporary accommodation and (ii) council housing in each year since 1990. [83376]

Yvette Cooper: Although psychiatric patients should not be discharged as homeless, some may nevertheless self-discharge and not have accommodation available to them. People may be discharged to temporary accommodation as part of a plan agreed between mental health services and housing departments, but this is not recorded as part of routine monitoring.

Information collected by my Department about households accepted by local authorities as unintentionally homeless and in a priority need group identifies those where the applicant or a household member was vulnerable as a result of mental illness or disability. Results for years since 1997 are presented in Table 4 of the quarterly Statistical Release on homelessness, first quarter of 2006, published on 12 June. A summary of information back to 1990 is presented in the table. However, information on the number of these who had been former psychiatric patients, and whether they were subsequently allocated temporary accommodation or a settled tenancy, is not available centrally.

Households accepted as unintentionally homeless and in priority need[1], England

	Total	*Of which, vulnerable due to mental illness or disability:*
1990-91	132,280	4,300
1991-92	139,630	5,200
1992-93	136,230	5,950
1993-94	125,360	6,740
1994-95	116,850	7,200
1995-96	116,550	7,570
1996-97	110,600	8,010
1997-98	102,430	6,930
1998-99	104,260	7,260
1999-2000	105,580	7,580
2000-01	114,670	9,110
2001-02	116,660	9,970
2002-03	128,540	10,980
2003-04	135,430	12,070
2004-05	120,860	10,650
2005-06	93,980	7,340

[1] All households eligible under homelessness legislation, found to be unintentionally homeless and in a priority need category, and consequently owed a main homelessness duty.

DCLG P1E homelessness returns (quarterly).

Green and White Papers

Mr. Amess: To ask the Secretary of State for Communities and Local Government if she will list in date order *(a)* Green and *(b)* White Papers produced by her Department since October 2005. [81267]

Angela E. Smith: No Green or White Papers have been published by this Department for the period in question.

Homelessness

Mr. Evans: To ask the Secretary of State for Communities and Local Government how many single vulnerable households were accepted as homeless in the Ribble Valley in each of the last five years. [84755]

Yvette Cooper *[holding answer 13 July 2006]:* Information about local authorities' actions under homelessness legislation is collected quarterly, at local authority level. The parliamentary constituency of the Ribble Valley shares its boundaries with those of Ribble Valley district council.

Statistical returns distinguish the number of households accepted as eligible for assistance, and unintentionally homeless according to the main category of priority need the applicant falls within. The returns do not identify the number of people in the household. Information reported by Ribble Valley in each year since 2001-02 is summarised in the following table:

Households accepted by Ribble Valley district council as eligible, unintentionally homeless and in a priority need category

	Total households	*Of which: containing dependent children*	*Of which: containing an expectant mother*	*Applicant of family member vulnerable[1]*
2001-02	31	14	2	15
2002-03	51	17	0	34
2003-04	78	31	5	42
2004-05	45	20	4	21
2005-06	38	25	2	11

[1] As well as applicants, or members of their household, considered vulnerable, figures also include households homeless in an emergency, applicants aged 16 or 17 years old, and applicants formerly in care and aged 18 to 20 years old.

Source
DCLG P1E Homelessness returns (quarterly)

Jeremy Corbyn: To ask the Secretary of State for Communities and Local Government how many people were *(a)* homeless and *(b)* placed in emergency accommodation in (i) each of the past five years and (ii) 2006-07 to date; and how many (A) new local authority lettings, (B) new housing association lettings and (C) sales under right-to-buy took place in each borough in each year. [84944]

Yvette Cooper: Information about local authorities' actions under homelessness legislation, which is collected in respect of households rather than persons, is summarised in a quarterly Statistical Release, the latest of which was published by the Department for Communities and Local Government on 12 June.

Copies of the Statistical Release and tables are available in the Library, and from the DCLG website at:

http://www.communities.gov.uk/index.asp?id=1002882&PressNoticeID=2169

(a) Table 1 of the Statistical Release provides the number of decisions on homelessness applications from eligible households in each year since 1997, distinguishing those found to be homeless. This includes those accepted by local authorities as unintentionally homeless and in a priority need category, and consequently owed a main homelessness duty.

Information is also collected by the Department on the number of people who sleep rough—that is, those who are literally roofless on a single night. These are recorded on a calendar year basis, and figures for 1998 up to the latest available figures, for 2005, are also presented on DCLG's website, at:

http://www.communities.gov.uk/pub/132/NationalRoughSleepingEstimate2005Excel116Kb_id1150132.xls

(b) The duty owed to a person accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. Table 6 of the Statistical Release presents those in various forms of temporary accommodation arranged by local authorities at the end of each quarter since March 1997.

The supplementary tables of the release show the results at local authority level.

No data are yet available for 2006-07. Figures for the first quarter of 2006-07 will be published in September.

(A) The number of new local authority lettings in each local authority for the years 2000-01 to 2004-05 has been placed in the Library of the House. No data are available for 2005-06 or 2006-07.

(B) The number of new Housing Association lettings in each local authority for the years 2001/02 to 2005-06 has been placed in the Library of the House. No data are available for 2006-07.

(C) Data on the number of sales under right-to-buy are available from the DCLG website at:

http://www.communities.gov.uk/pub/383/Table648Excel545Kb_id1156383.xls

Rosie Cooper: To ask the Secretary of State for Communities and Local Government how many homeless households in *(a)* West Lancashire and *(b)* Lancashire were (i) living in temporary accommodation and (ii) sleeping rough in each of the past five years; and how many beds were available for homeless households in each area in each year. [83550]

Yvette Cooper: Local authorities report their activities under homelessness legislation quarterly, and this includes the number of homeless households in various forms of temporary accommodation as on the last day of the quarter.

The duty owed to a person accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. As an alternative to the provision of temporary accommodation some authorities arrange for households to remain in their current accommodation until a settled solution becomes available.

Information is also collected on the number of people who sleep rough - that is, those who are literally roofless on a single night. These are recorded on a calendar year basis, and figures for mid-year 2001 up to the latest available figures, for 2005, are also presented in the following tables.

(a) The West Lancashire constituency is wholly contained in the West Lancashire local authority, although the authority also contains part of the South Ribble constituency. Temporary accommodation and rough sleeping figures for the entire West Lancashire authority for the last 5 years are in the following table:

(i) Homeless households in temporary accommodation arranged by West Lancashire district council, and (ii) the number of rough sleepers in West Lancashire

	Number of households in temporary accommodation[1] (31 March snapshot)	*Number of rough sleepers, people, mid-year (June) estimate[2]*
2001-02	6	—
2002-03	—	—
2003-04	5	—
2004-05	2	—
2005-06	1	—

[1] Households in accommodation at the end of the year (March) either pending a decision on their homelessness application or awaiting allocation of a settled home following acceptance. Excludes those households designated as "homeless at home" that have remained in their existing accommodation and have the same rights to suitable alternative accommodation as those in accommodation arranged by the authority.

[2] Number of persons sleeping rough are based on local authority counts during the year and presented as a mid-year estimate. If no count takes place during the year an estimate is given by the local authority.

Source:
DCLG P1E Homelessness (quarterly) and HSSA (annual) returns.

(b) The geographical county of Lancashire is made up of 12 district authorities and 2 unitary authorities, Blackburn and Darwen and Blackpool. The totals are in the following table:

(i) Homeless households in temporary accommodation arranged by local authorities in Lancashire, and (ii) the number of rough sleepers in Lancashire

	Number of households in temporary accommodation[1] (31 March snapshot)	*o.w. Unitary authority*	*o.w. LA districts*	*Number of rough sleepers, people, mid-year (June) estimate[2]*	*o.w. Unitary authority*	*o.w. LA districts*
2001-02	270	52	218	4	4	—
2002-03	343	76	267	7	4	3
2003-04	360	102	258	3	—	3
2004-05	444	132	312	21	4	17
2005-06	348	76	272	7	4	3

[1] Households in accommodation at the end of the year (March) either pending a decision on their homelessness application or awaiting allocation of a settled home following acceptance. Excludes those households designated as "homeless at home" that have remained in their existing accommodation and have the same rights to suitable alternative accommodation as those in accommodation arranged by the authority.
[2] Number of persons sleeping rough are based on local authority counts during the year and presented as a mid-year estimate. If no count takes place during the year an estimate is given by the local authority.

DCLG P1E Homelessness (quarterly) and HSSA (annual) returns.

Information on the number of beds available for homeless households is not held centrally.

Rosie Cooper: To ask the Secretary of State for Communities and Local Government how many people have been in temporary accommodation in West Lancashire in each of the last 10 years. [83553]

Yvette Cooper: Local authorities report their activities under homelessness legislation quarterly, and this includes the number of homeless households in various forms of temporary accommodation as on the last day of the quarter.

The duty owed to a person accepted as eligible for assistance, unintentionally homeless and in priority need is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available. As an alternative to the provision of temporary accommodation some authorities arrange for households to remain in their current accommodation (homeless at home), until a settled solution becomes available.

The West Lancashire constituency is wholly contained in the West Lancashire local authority, although the authority also contains part of the South Ribble constituency. Figures for the entire West Lancashire authority for the last 10 years are tabled as follows:

Homeless households in temporary accommodation arranged by West Lancashire district council

31 March	*Number[1]*
1996-97	6
1997-98	6
1998-99	3
1999-2000	1
2000-01	4
2001-02	6
2002-03	0
2003-04	5
2004-05	2
2005-06	1

[1] Households in accommodation at the end of the year (March) either pending a decision on their homelessness application or awaiting allocation of a settled home following acceptance. Excludes those households designated as "homeless at home" that have remained in their existing accommodation and have the same rights to suitable alternative accommodation as those in accommodation arranged by the authority.

DCLG P1E Homelessness (quarterly) returns.

Mr. Spring: To ask the Secretary of State for Communities and Local Government how many single vulnerable households were accepted as homeless in West Suffolk in each of the last five years. [82718]

Yvette Cooper: Information about local authorities' actions under homelessness legislation is collected quarterly, at local authority level. The parliamentary constituency of West Suffolk consists of Forest Heath DC and part of St Edmundsbury DC.

Statistical returns distinguish the number of households accepted as eligible for assistance, and unintentionally homeless according to the main category of priority need the applicant falls within. The returns do not identify the number of people in the household. Information reported by Forest Heath and St Edmundsbury district councils, which covers the whole of their districts, in each year since 2001-02 is summarised in the following table:

Households accepted as eligible, unintentionally homeless and in a priority need category

	Total households	*Of which*		
		Containing dependent children	*Containing an expectant mother*	*Applicant or family member vulnerable[1]*
Forest Heath district council				
2001-02	43	31	5	7
2002-03	45	31	8	6
2003-04	57	37	9	11

Households accepted as eligible, unintentionally homeless and in a priority need category

	Total households	Of which		
		Containing dependent children	Containing an expectant mother	Applicant or family member vulnerable[1]
2004-05	55	44	11	—
2005-06	55	31	13	11
St Edmundsbury district council				
2001-02	120	93	6	21
2002-03	146	96	17	33
2003-04	141	87	20	34
2004-05	188	119	20	49
2005-06	139	89	21	29

[1] As well as applicants, or members of their household, considered vulnerable, figures also include households homeless in an emergency, applicants aged 16 or 17 years old, and applicants formerly in care and aged 18 to 20 years old.

Housing

Mr. Betts: To ask the Secretary of State for Communities and Local Government how many affordable homes for *(a)* sale, *(b)* rent and *(c)* shared ownership were (i) agreed, (ii) started and (iii) completed by each planning authority years under section 106 agreements in each of the last five. [84229]

Yvette Cooper *[holding answer 13 July 2006]:* A table showing the number of dwellings built for *(a)* sale, *(b)* rent and *(c)* shared ownership as well as planning permissions given as a result of section 106 agreements in each local authority in England, in each year from 2000-01 to 2004-05, has been placed in the Library of the House. Information on the number of building starts is not held centrally.

Mr. Soames: To ask the Secretary of State for Communities and Local Government how many vacant homes there are in *(a)* West Sussex and *(b)* the area covered by the South East plan. [84842]

Yvette Cooper *[holding answer 13 July 2006]:* As at 10 October 2005 there were 9,000 vacant dwellings in West Sussex and 100,400 in the South East. The area covered by the South East plan is the same as that covered by the South East region.

These figures are for all vacant dwellings, including dwellings that have been empty for less than six months, some for less than one month.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the Government's estimate is of the number of residential housing transactions that took place in England and Wales in the most recent year for which figures are available. [85702]

Yvette Cooper: Figures for the number of residential housing transactions by local authority areas based on data from the Land Registry are published on the DCLG website at: http://www.communities.gov.uk/pub/162/Table588_id1156162.xls.

There were 1.02 million residential housing transactions in 2005 in England and Wales. In 2004 there were 1.23 million transactions. The number of transactions varies significantly from year to year due to a range of factors in the housing market.

Mr. Paice: To ask the Secretary of State for Communities and Local Government how many houses were built in rural areas in each year since 2000. [85131]

Yvette Cooper: New build completions data are only available at local authority level therefore it is only possible to measure how many dwellings have been built in local authorities classified as rural by the Department for Environment, Food and Rural Affairs (DEFRA) rural definition and local authority classification. This will include dwellings built in towns that are within a local authority classified as rural.

The following number of dwellings were reported to have been built in local authorities classified as rural in England since 2000:

Number

Rural classification	2000	2001	2002	2003	2004	2005
Significant Rural	20,428	20,109	20,882	21,559	21,974	21,807
Rural-50	19,996	18,651	18,482	18,898	18,407	20,692
Rural-80	21,306	21,098	22,271	21,419	21,709	22,626
Total	61,730	59,858	61,635	61,876	62,090	65,125

For further information on the DEFRA classification please see: http://statistics.defra.gov.uk/esg/rural_resd/rural_definition.asp

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government what the latest timetable is for producing guidance and draft regulations under the Housing Act 2004. [75418]

Yvette Cooper: The information requested is in the following table.

Housing Act 2004: Timetable For Guidance And Regulations

Provision/Part	Proposed/Actual publication date of regulations and guidance
Part 1 - Housing Conditions	The HHSRS (England) Regulations 2005 (3208) were laid on 28 November and came into force on 6 April 2006. The HHSRS Operating Guidance and HHSRS Enforcement Guidance were published in February 2006.

Housing Act 2004: Timetable For Guidance And Regulations

Provision/Part	*Proposed/Actual publication date of regulations and guidance*
Parts 2, 3, 4 and 7- HMO and Selective Licensing	The Management of Houses in Multiple Occupation (England) Regulations, the Licensing of Houses in Multiple Occupation (Prescribed Descriptions (England) Order, the Licensing and Management of Houses in Multiple Occupation and Other Houses (Miscellaneous Provisions) (England) Regulations, the Selective Licensing of Houses (Specified Exemptions) (England) Order and the Housing (Interim Management Orders) (Prescribed Circumstances) (England) Order were laid on 22 February and came into force on 6 April. The Houses in Multiple Occupation (Specified Educational Establishments) (England) Regulations and the Housing (Approval of Codes of Management Practice) (Student Accommodation) (England) Order were laid on 16 March and came into force on 6 April 2006. The Residential Property Tribunal Procedures (England) Regulations and the Residential Property Tribunal (Fees) (England) Regulations were laid on 23 March and came into force on 13 April. Draft regulations relating to section 257 HMOs will be published for limited consultation soon. Explanatory information including leaflets and a dedicated website has been available since March.
Part 4 - Empty Dwelling Management Orders	The Housing (Empty Dwelling Management Orders) (Prescribed Exceptions and Requirements) (England) Order and The Housing (Management Orders and Empty Dwelling Management Orders) (Supplemental Provisions) (England) Regulations were laid on 22 February and came into force on 6 April 2006. Non-statutory guidance for local authorities on Empty Dwelling Management Orders will be published in July 2006.
Part 5 - Home Information Packs	The Home Information Pack Regulations, Procedural Guidance and Certification Scheme Business and Technical Standards documents were published on 14 June 2006.
Part 6 - Right to Buy modifications	The Residential Property Tribunal (Right to Buy Determinations) Procedure (England) Regulations were laid on 13 June 2005 and came into force on 4 July 2005. The Housing (Right to Buy)(Information to Secure Tenants) (England) Order was laid on 5 July 2005 and came into force on 26 July 2005. This Order provides guidance on the provision of information to secure tenants. The Housing (Right of First Refusal) (England) Regulations were laid on 20 July 2005 and came into force on 10 August 2005. The guidance booklet 'Your Right to Buy your Home' was revised together with the relevant Right to Buy forms. Guidance on landlords' discretion not to require repayment of discount, which was clarified by section 185 of the Act, was also issued in January 2005.
Part 6 - Suspension of certain rights in connection with anti-social behaviour	ASB measures in Part 6 of the Act commenced in June 2005. They include enabling local authorities to extend the period of introductory tenancies and withhold consent to mutual exchange on ASB grounds as well as measures to prevent tenants exercising the right to buy. Regulations regarding the form a review should take where a landlord decides to extend the period of an introductory tenancy came into force on 3 May 2006
Part 6 - Gypsy and Traveller accommodation needs assessments	Draft guidance was produced in February 2006 under Section 226 of the Housing Act, in respect of Section 225, relating to the assessment of the accommodation needs of Gypsies and Travellers. This document is subject to further consultation. Definitive guidance will be published in the autumn of 2006.
Part 6 - Tenant Deposit Protection	In order to consider stakeholder concerns raised by that consultation, we are reviewing the commencement date and will confirm a date before Parliament rises

Geraldine Smith: To ask the Secretary of State for Communities and Local Government how much has been allocated for housing renewal in Morecambe since 1997. [85032]

Yvette Cooper: There are no specific funding allocation data available for Morecambe.

Allocations to Lancaster city council of capital funding for housing purposes over the period 1997-98 to 2005-06 exceeds £30 million. This includes the major repairs allowance first introduced in 2001-02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010.

A further £1.9 million was allocated to Lancaster city council by the Regional Housing Board in 2006-07 under priority 1.3 of the Regional Housing Strategy, which seeks to provide a better housing mix in the region's costal towns i.e. Blackpool, Morecambe and Fleetwood. This amounted to an 11 per cent. on year increase in funding.

In addition the North West Development Agency would have contributed towards housing renewal in Morecambe via the Single Regeneration Budget Programme.

Mr. Drew: To ask the Secretary of State for Communities and Local Government whether she has undertaken studies on the impact of planning gain supplement on the provision of affordable housing in rural areas. [83277]

Yvette Cooper: No such studies have been undertaken.

The Government are currently considering responses to their consultation on the Planning-Gain Supplement (PGS), including on the issues of the PGS's impact on rural exception sites and the proposal to retain affordable housing delivery within the scope of planning obligations. Further announcements will be made towards the end of 2006.

Chris Huhne: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the number of homes that have been purchased outright by occupiers of affordable housing on a shared ownership or homebuy basis under the Common and Leasehold Reform Act 2003 in *(a)* rural and *(b)* non-rural areas; and if she will make a statement. [84966]

Yvette Cooper: No data are collected centrally on the number of homes that have been purchased outright, having been originally acquired through shared ownership, or homebuy.

The Government are keen to expand home ownership through the new homebuy scheme. However, we recognise the need to ensure the longer term supply of affordable housing in rural areas which are subject to particular housing pressures.

Therefore we will continue to allow housing associations to restrict the outright purchase ("staircasing out") of shared ownership or homebuy properties on rural exception sites, where possible and appropriate under leasehold legislation. This flexibility, coupled with the additional safeguards within the homebuy scheme which allow providers to buy back properties when a purchaser who has staircased to full ownership wishes to move, should enable affordable housing to be retained where it is essential to do so and ensure delivery of the rural programme.

Mr. Austin Mitchell: To ask the Deputy Prime Minister whether he expects the decent housing targets will be met by 2010 by local authorities which have transferred their stock *(a)* to arm's length management organisations and *(b)* by large scale voluntary transfers. [41141]

Yvette Cooper: I have been asked to reply.

All local authorities currently on the ALMO and transfer programmes have undertaken to meet the Decent Homes target by 2010. However, the Secretary of State for Communities and Local Government announced on 7 June that where greater flexibility and allowing a little longer will allow a better result for the community—or where spreading the work out would deliver better value for money, we will negotiate later dates on a case-by-case basis. That said, we still expect 95 per cent. of social housing to be decent by 2010.

Rosie Cooper: To ask the Deputy Prime Minister how many houses built in West Lancashire in rural settlements according to the rural exceptions policy have been built in each of the last five years. [83647]

Yvette Cooper: I have been asked to reply.

Over the last five years 2000-01 to 2004-05, West Lancashire have reported that no new dwellings were built in their area in accordance with the rural exceptions policy.

Mr. Rogerson: To ask the Secretary of State for Communities and Local Government how much rent surplus is available to each arm's length management organisation for reinvestment in 2006-07. [83374]

Yvette Cooper: The money that an Arm's Length Management Organisation (ALMO) receives is determined by the scope of its management agreement with the local authority and the agreed level of extra funding paid to the local authority for its ALMO to deliver decent homes. The money for the ALMO will come from the local authorities Housing Revenue Account (HRA).

Those local authorities that operate Arm's Length Management Organisations receive specific ALMO allowances as part of their HRA annual subsidy determination. Assumed surpluses (and deficits) are calculated after all assumed income (including rent) and allowances have been taken into account.

Surpluses are collected by the Department and together with a net contribution from the Exchequer of around £200 million a year, are paid to authorities with assumed deficits.

Infrastructure Funding

Mr. Soames: To ask the Secretary of State for Communities and Local Government what representations she has received from the South East England Development Agency with respect to infrastructure funding in *(a)* the South East and *(b)* Mid Sussex. [85835]

Angela E. Smith: The Secretary of State for Communities and Local Government has not received any specific representations from SEEDA with respect to infrastructure funding in *(a)* the South East or *(b)* Mid Sussex. However, SEEDA, the South East regional assembly and Government office for the south east recently submitted advice to Government, as requested in July 2005, on

> "the proposed expenditure of regional transport funding allocations for the three years up to and including 2007-08, in line with the regional housing and economic development allocations already published, and indicative longer term planning assumptions up to 2015-16, across the three funding streams".

The South East advice on this 'Regional Funding Allocation' included reference to a scheme in mid-Sussex and a proposal for a Regional Infrastructure Fund covering the whole of the South East; the document can be found on the SEEDA website at: http://www.seeda.co.uk/About_SEEDA/Board_Members/Board_Meetings/papers/Jan2006/Item7AnnexRFAJan06.doc.

The recommended regional programme for transport schemes was accepted, including the A23 Hancross to Warninglid widening in Mid Sussex as an approved scheme in the indicative 2009-10 to 2015-16 list.

Mr. Soames: To ask the Secretary of State for Communities and Local Government for what green infrastructure her Department proposes to allocate funding in Mid Sussex. [85836]

Angela E. Smith: It is for local planning authorities to determine what their specific infrastructure requirements are, and they should try to ensure that as far as possible these needs are met through the appropriate use of planning conditions and section 106 Agreements. We have provided advice on the use of these mechanisms in "The Planning System: General Principles" (Planning Policy Statement 1: Sustainable Development), in Circular 11/95 "Use of conditions in Planning Permissions" and Circular 05/05 "Planning Obligations".

An opportunity for local authorities to promote green infrastructure has been available through the implementation plan submitted with the draft Regional Spatial Strategy, the South East Plan. This was prepared by the South East Regional Assembly in conjunction with sub-regional partners and stakeholders and includes schedules of a wide range of infrastructure requirements with an indication of funding sources and reference to lead agencies. We understand that a revised implementation plan is being prepared by the Assembly for the Examination in Public later this year, where it will be discussed through the independent panel.

My Department has made special arrangements to support 'green infrastructure' projects in the growth areas of Ashford, Aylesbury and Milton Keynes,

through the growth area funds. The Government response to the Barker report outlined that 10 per cent. of growth area funds are to be used for green spaces. However, given that Mid Sussex is not designated as a growth area and no current new growth point proposals include the hon. Member's constituency, this specific funding is not available in Mid Sussex.

Listed Buildings

Mr. Amess: To ask the Secretary of State for Communities and Local Government if she will introduce legislation to increase the penalties for people who demolish listed buildings without planning consent; and if she will make a statement. [85304]

Yvette Cooper: The Planning (Listed Buildings and Conservation Areas) Act 1990 contains provision enabling allowing for fines for unauthorised works to a listed building. The maximum fine that can be imposed in the magistrates court is £20,000, whereas in the Crown court the fines are unlimited. It is open to the magistrates court to refer a case to the Crown court where it feels its sentencing powers are insufficient in relation to the seriousness of the offence committed.

Local Government Pension Scheme

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate the Government have made of the total cost of the Local Government Pension Scheme to local authorities *(a)* including and *(b)* excluding employee contributions in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [85656]

Mr. Woolas: Based on the findings of the 2004 actuarial valuation exercise it is estimated that the average cost to local authority employers will be (i) 12.5-13.5 per cent. of pensionable pay in 2005-06; (ii) 14-15 per cent. in 2006-07; (iii) 16-17 per cent. in 2007-08. On average employees will contribute 5.8 per cent. of pensionable payroll as well in each of these years.

M6 Link Road (Heysham)

Geraldine Smith: To ask the Secretary of State for Communities and Local Government whether there will be a public inquiry on planning for the Heysham M6 Link road. [85030]

Yvette Cooper: The planning application for the proposed Heysham M6 Link road is currently being considered by Lancashire county council.

Should the council be minded to approve the application it will be referred to the Secretary of State for Communities and Local Government under the terms of a Direction (article 14 of the Town and Country Planning Act (General Development Procedure Order 1995)) issued on 8 March 2006.

On receipt of the application from the council, consideration will be given to the possibility of calling it in for determination by the Secretary of State.

Midland Hotel Regeneration

Geraldine Smith: To ask the Secretary of State for Communities and Local Government how much in Government funds have been allocated to the Midland Hotel regeneration project. [85034]

Yvette Cooper: The total project cost was appraised at £7,310,089 of which NWDA is providing a grant of £4,052,850.

English Heritage via Townscape Heritage Initiative (THI) is providing £600,000. The remaining balance is being met by the private sector.

Planning

Mr. Betts: To ask the Secretary of State for Communities and Local Government what total value of section 106 agreement was agreed by each planning authority in each of the last five years; and how much of that sum is accounted for by funds allocated for *(a)* housing, *(b)* highways, *(c)* residential facilities and *(d)* schools. [84227]

Yvette Cooper *[holding answer 13 July 2006]:* Data on section 106 agreements entered into by individual local authorities are not collected centrally.

A recent study "Valuing Planning Obligations in England" conducted by Sheffield University and Halcrow Group consultants for the Department for Communities and Local Government estimated that the value of planning obligations agreed in England as a whole in 2003-4 was £1.9 billion. This can be broken down as follows:

	£ million
Open space	116
Transport and travel	280
Community and leisure	111
Education	118
Other	65
Agreements made directly with county councils (e.g. minerals and waste applications)	7
Affordable housing	1,200

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what recent guidance her Department has issued on whether local authorities may require *(a)* planning obligations and *(b)* section 106 payments from a developer to pay for mitigation measures in relation to development in a Special Protection Area. [85693]

Yvette Cooper: Government's policy guidance on the use of planning obligations is contained in Circular 5/05 Planning Obligations. This does not refer to the use of planning obligations in Special Protection Areas.

Government office for the south east in conjunction with English Nature are encouraging local planning authorities to develop 'mini-plans' of programmes of land or enhancement of existing land which could be used as mitigation against development around the Thames Basin Heaths Special Protection Area in the short to medium term. Developers could contribute

Therefore we will continue to allow housing associations to restrict the outright purchase ("staircasing out") of shared ownership or homebuy properties on rural exception sites, where possible and appropriate under leasehold legislation. This flexibility, coupled with the additional safeguards within the homebuy scheme which allow providers to buy back properties when a purchaser who has staircased to full ownership wishes to move, should enable affordable housing to be retained where it is essential to do so and ensure delivery of the rural programme.

Mr. Austin Mitchell: To ask the Deputy Prime Minister whether he expects the decent housing targets will be met by 2010 by local authorities which have transferred their stock *(a)* to arm's length management organisations and *(b)* by large scale voluntary transfers. [41141]

Yvette Cooper: I have been asked to reply.

All local authorities currently on the ALMO and transfer programmes have undertaken to meet the Decent Homes target by 2010. However, the Secretary of State for Communities and Local Government announced on 7 June that where greater flexibility and allowing a little longer will allow a better result for the community—or where spreading the work out would deliver better value for money, we will negotiate later dates on a case-by-case basis. That said, we still expect 95 per cent. of social housing to be decent by 2010.

Rosie Cooper: To ask the Deputy Prime Minister how many houses built in West Lancashire in rural settlements according to the rural exceptions policy have been built in each of the last five years. [83647]

Yvette Cooper: I have been asked to reply.

Over the last five years 2000-01 to 2004-05, West Lancashire have reported that no new dwellings were built in their area in accordance with the rural exceptions policy.

Mr. Rogerson: To ask the Secretary of State for Communities and Local Government how much rent surplus is available to each arm's length management organisation for reinvestment in 2006-07. [83374]

Yvette Cooper: The money that an Arm's Length Management Organisation (ALMO) receives is determined by the scope of its management agreement with the local authority and the agreed level of extra funding paid to the local authority for its ALMO to deliver decent homes. The money for the ALMO will come from the local authorities Housing Revenue Account (HRA).

Those local authorities that operate Arm's Length Management Organisations receive specific ALMO allowances as part of their HRA annual subsidy determination. Assumed surpluses (and deficits) are calculated after all assumed income (including rent) and allowances have been taken into account.

Surpluses are collected by the Department and together with a net contribution from the Exchequer of around £200 million a year, are paid to authorities with assumed deficits.

Infrastructure Funding

Mr. Soames: To ask the Secretary of State for Communities and Local Government what representations she has received from the South East England Development Agency with respect to infrastructure funding in *(a)* the South East and *(b)* Mid Sussex. [85835]

Angela E. Smith: The Secretary of State for Communities and Local Government has not received any specific representations from SEEDA with respect to infrastructure funding in *(a)* the South East or *(b)* Mid Sussex. However, SEEDA, the South East regional assembly and Government office for the south east recently submitted advice to Government, as requested in July 2005, on

> "the proposed expenditure of regional transport funding allocations for the three years up to and including 2007-08, in line with the regional housing and economic development allocations already published, and indicative longer term planning assumptions up to 2015-16, across the three funding streams".

The South East advice on this 'Regional Funding Allocation' included reference to a scheme in mid-Sussex and a proposal for a Regional Infrastructure Fund covering the whole of the South East; the document can be found on the SEEDA website at: http://www.seeda.co.uk/About_SEEDA/Board_Members/Board_Meetings/papers/Jan2006/Item7AnnexRFAJan06.doc.

The recommended regional programme for transport schemes was accepted, including the A23 Hancross to Warninglid widening in Mid Sussex as an approved scheme in the indicative 2009-10 to 2015-16 list.

Mr. Soames: To ask the Secretary of State for Communities and Local Government for what green infrastructure her Department proposes to allocate funding in Mid Sussex. [85836]

Angela E. Smith: It is for local planning authorities to determine what their specific infrastructure requirements are, and they should try to ensure that as far as possible these needs are met through the appropriate use of planning conditions and section 106 Agreements. We have provided advice on the use of these mechanisms in "The Planning System: General Principles" (Planning Policy Statement 1: Sustainable Development), in Circular 11/95 "Use of conditions in Planning Permissions" and Circular 05/05 "Planning Obligations".

Government office for the south east in conjunction with English Nature are encouraging local planning authorities to develop 'mini-plans' of programmes of land or enhancement of existing land which could be used as mitigation against development around the Thames Basin Heaths Special Protection Area in the short to medium term. Developers could contribute

Import Licences Issued from 1 January 2005 to date:

AY	110 x lightweight multiple launchers/10 x vehicle missile launchers/75 x automatic, semi-automatic rifles, carbines/25 machine guns/15 grenade launchers/2 x drill anti-tank weapons/500 x shoulder launch aiming units
AY	No more than 500 in total x prohibited weapons and prohibited ammunition
AY	5,000 x automatic weapons of all types
AY	1,000 x semi-automatic (self-loading) rifles and carbines of all types
AY	200 x short barrelled shotguns fed by slide, pump or lever action or by self loading mechanism
AY	50 x rocket launchers, grenade launchers or mortars of all types
AY	2,000 x large and small calibre pistols and revolvers (handguns) of all types
AY	100 x pistols under Section 5(1)(aba)
AY	No more than 10,000 x weapons under Section 5(1)(a)/600 x weapons under Section 5(1)(ab)/6,000 x weapons under Section 5(1)(aba)/100 x weapons under Section 5(1)(ac)/3,000 x weapons under Section 5(1)(ae)
AY	No more than 10,000 x weapons under Section 5(1)(a)/600 x weapons under Section 5(1)(ab)/6,000 x weapons under Section 5(1)(aba)/100 x weapons under Section 5(1)(ac)/3,000 x weapons under Section 5(1)(ae)
AY	No more than 75 x medium machine guns, sub machine guns, light machine guns, heavy machine guns, automatic cannon, cannon, assault rifles/carbines, self-loading rifles/carbines, automatic rifles/carbines, pump action rifles/carbines
AY	60 x handguns (calibre. 2mm-27cm/. 172-1")
AY	45 x shotguns (pump, revolver, semi-automatic, automatic)
AY	No more than 45 in total x shotguns of the following types: pump, revolver, semi-automatic, automatic
AY	No more than 75 in total x medium machine guns, sub machine guns, light machine guns, heavy machine guns, automatic cannon, cannon, assault rifles/carbines, self-loading rifles/carbines, automatic rifles/carbines, pump action rifles/carbines
AY	10 x Derringer, 30 x handgun, 5 x machine pistol
AY	12 x weapons under Section 5(1)(a)/12 x weapons under Section 5(1)(ab)/12 x weapons under Section 5(1)(aba)
BA	9,480 x assorted automatic rifles and machine guns
BA	2,000 x machine guns, assault rifles and sub machine guns
BA	1,500 x machine guns, assault rifles and sub machine guns
BA	2,000 x machine guns, assault rifles and sub machine guns
BA	500 x rocket launchers/3000 mortars
BA	40,000 x various assault rifles
BA	10,000 x various machine guns/2,500 various sub machine guns
BA	100 x anti aircraft systems
BA	100 x rocket launchers
BA	5,000 component parts under Section 5(1)(a)
BA	20,000 x AK47 assault rifles
BA	2,500 x AK47 assault rifles
BA	2,500 x AK47 assault rifles
BA	2,000 x AK47 assault rifles
BA	2,500 x AK47 assault rifles
B A	2,000 x AK47 assault rifles
BA	2,500 x AK47 assault rifles
BA	2,000 x AK47 assault rifles
BA	2,500 x AK47 assault rifles
BA	2,000 x AK47 assault rifles
BA	2,500 x AK47 assault rifles
BA	2,000 x AK47 assault rifles

Import Licences Issued from 1 January 2005 to date:

BA	20,000 x AK47 assault rifles

Coal Health (Compensation)

John Mann: To ask the Secretary of State for Trade and Industry how many coal health *(a)* chronic obstructive pulmonary disease and *(b)* vibration white finger cases have been submitted for deceased claims by Berefords Solicitors in (i) Wales and (ii) Scotland; and how many of each have been refused. [83834]

Malcolm Wicks: The figures requested for deceased claims submitted by Beresfords solicitors are set out in the following table:

	Chronic Obstructive Pulmonary Disease		*Vibration White Finger*	
	Wales	*Scotland*	*Wales*	*Scotland*
Deceased claims submitted	6,839	3,006	11	12
Denials made	525	412	5	2

John Mann: To ask the Secretary of State for Trade and Industry how many meetings have taken place between his officials and UDM Vendside on coal health compensation since June 2005. [83897]

Malcolm Wicks: Three operational meetings have taken place since June 2005 between officials and representatives of the UDM. Two of these related to the vibration white finger scheme and the third to the respiratory disease scheme.

Company Law Reform Bill

Kate Hoey: To ask the Secretary of State for Trade and Industry what his definition is of a proper purpose for inspection of a company register of members under the provisions of the Company Law Reform Bill. [81592]

Margaret Hodge: The Bill does not define what is a proper purpose.

Kate Hoey: To ask the Secretary of State for Trade and Industry under what circumstances a company could refuse to disclose information on its members under the provisions of the Company Law Reform Bill. [81593]

Margaret Hodge: Under clause 116 of the Bill, a request to inspect or to be provided with a copy of a company's register of members must include the purpose for which the information is to be used. The company must either meet the request within five working days or apply to a court. The court will direct the company not to comply with the request if it is satisfied that it is not sought for a proper purpose.

Electricity Transmission

Lynne Jones: To ask the Secretary of State for Trade and Industry what quantity of carbon dioxide emissions were attributable to electricity transmission and distribution losses in each of the last five years. [84529]

Malcolm Wicks: Estimated losses through the electricity transmission and distribution networks for the period 1999 to 2003 were as follows:

	GWh
1999	28298
2000	29649
2001	30902
2002	29890
2003	29862

Using the average carbon emission factor for each year provides the following estimates for the carbon emissions associated with these losses. These estimates are based on the average emissions factor for electricity generation in each of these years, which takes account of the mix between coal, gas and other forms of generation in those years.

	Million tonnes of carbon
1999	3.28
2000	3.67
2001	3.95
2002	3.72
2003	3.83

Energy

John Hemming: To ask the Secretary of State for Trade and Industry in which year the Government expect the UK to be a net importer of energy. [84355]

Malcolm Wicks: Data on net imports of primary fuel are published in the annual Digest of United Kingdom Energy Statistics. Table 1.1.3 in the 2005 edition shows that, having been a net exporter of primary energy since 1993, the UK became a net importer of primary energy in 2004.

Mr. Davey: To ask the Secretary of State for Trade and Industry why the minutes of the latest meeting of the advisory board on sustainable energy policy have not yet been placed in the public domain. [85412]

Malcolm Wicks: The minutes of the Sustainable Energy Policy Advisory Board (SEPAB) have now been published on the DTI website as usual. Publication was held back until the Energy Review conclusions had been announced to Parliament.

Mr. Dai Davies: To ask the Secretary of State for Trade and Industry from which *(a)* ministerial colleagues, *(b)* hon. Members and *(c)* members of the House of Lords he received a submission to the Energy Review; and what criteria were adopted in deciding which of these submissions were posted on the Energy Review pages of his departmental web site. [85048]

Malcolm Wicks: All responses to the Energy Review consultation exercise, which closed on 14 April 2006, have been posted on the DTI website at http://www.dti.gov.uk/energy/review/consultation-submissions/page27883.html.

Mark Lazarowicz: To ask the Secretary of State for Trade and Industry how many applications for *(a)* gas and *(b)* electricity were declined by each energy supplier in (i) each region of England, (ii) Scotland and (iii) Wales in the last full year for which figures are available. [84377]

Malcolm Wicks: Ofgem does not collect data about refusal to supply.

Condition 32 of the standard gas and electricity supply licences requires suppliers to offer terms at a domestic customer's request. There are a number of exclusions within these conditions. Complaints about refusal to supply may be made to the statutory gas and electricity consumer body, Energywatch. Energywatch can refer matters to the industry regulator, the Office of Gas and Electricity Markets (Ofgem) where it believes Ofgem may be able to use its power of licence enforcement.

Mr. Sarwar: To ask the Secretary of State for Trade and Industry if he will make a statement on the role of the energy supply ombudsman. [84573]

Malcolm Wicks: In July 2005, the industry regulator, the Office of Gas and Electricity Markets (OFGEM) required gas and electricity suppliers to establish an independent ombudsman scheme to deal with billing disputes that had not been satisfactorily resolved under standard complaints procedures. The suppliers have now established the Energy Supply Ombudsman scheme, which was launched on 1 July 2006. The Ombudsman will handle both billing and transfer disputes, can reach decisions that are binding on suppliers and may award compensation of up to £5,000 to customers. The scheme is additional to the statutory arrangements governing the investigation of customer complaints, which continue to operate.

Mr. Drew: To ask the Secretary of State for Trade and Industry if he will establish an inquiry into *(a)* wholesale energy prices, *(b)* the level of competition in the UK energy market and *(c)* the impact of energy prices on manufacturing industry. [85097]

Malcolm Wicks: Despite sustained benefits from liberalised energy markets over the past decade, the Government fully appreciate that high energy prices do

create problems for the competitiveness of industry, and take very seriously the potential loss of jobs and investment. The Government are leaving no stone unturned, working closely with industry, to find solutions and reduce the impact. The new Business Energy Forum, co-chaired by the Secretary of State and Richard Lambert of the CBI, met for the first time on 5 July and is monitoring this work and looking at other strategic energy issues impacting on business. Higher energy prices in the UK reflect higher global prices, caused by rising demand and supply constraints (for oil and gas), the lack of EU energy market liberalisation, and domestic factors, such as the tight winter supply demand balance in the UK gas market.

The importance of the Government's activity in pushing for European energy market liberalisation was highlighted in a Global Insight report in 2005. The report estimated that the lack of effective liberalisation and the dominance of oil-linked long-term supply contracts in Europe would cost UK industrial consumers of gas some £2.6 billion over the following year. Ofgem analysis suggests that the cost to UK gas consumers of Interconnector flows not always being in line with price signals during the last winter was £1.5 billion and would cost £3 billion if repeated during the coming winter. The European Commission has been active in reviewing competition in gas and electricity markets.

During the past two years there have been several investigations and reports into competition in UK gas and electricity markets. These include the Ofgem gas price probe, and two inquiries from the Trade and Industry Select Committee. The Ofgem gas price probe found no evidence of anti-competitive behaviour in the UK gas market. More recently, Ofgem published a "Domestic Retail Market Report", which concluded that, "competition remains effective and vigorous in all segments of the domestic energy market." Independent research by Oxera concluded that in 2004 the UK had the most competitive electricity and gas markets in the EU and G7 (available at www.dti.gov.uk/files/file28425.pdf).

Enterprise Insight

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what the level of Government funding for Enterprise Insight is for 2006-07; and if he will make a statement. [82195]

Margaret Hodge: The level of Government funding for Enterprise Insight in 2006-07 is £5 million.

This support enables Enterprise Insight to continue developing and running the highly successful 'Make Your Mark' campaign. The campaign is aimed at people aged between 14 and 30 and encourages them to be enterprising in the broadest sense.

Enterprise Week is the focal point of the campaign. Last year saw 408,000 people from all over the UK attend 2,215 events, run by 722 organisations helped by 3,874 businesses. It is anticipated that these already impressive results will be bettered during Enterprise Week 2006, which Enterprise Insight will run from 13-19 November.

The funding will also support the development of new Local Enterprise Campaign Hubs in some of the country's most deprived and under-performing areas. In addition, the funding will support the development of partnerships to run campaigns in specific industry sectors, emphasising the role of enterprise in the successful start up and growth of companies.

Mr. Carmichael: To ask the Secretary of State for Trade and Industry when he last met representatives of Enterprise Insight; what the outcome was of the meeting; and what plans he has to hold further meetings with this organisation. [82196]

Margaret Hodge: As Minister for Industry and the Regions with responsibility for the Small Business Service, I met Enterprise Insight on 18 May.

The outcome of my meeting was a reaffirmed commitment that the Department will support the development and running of the 'Make Your Mark' campaign; and, to Ministerial participation in key events during the campaign's flagship annual initiative of 'Enterprise Week', which this year will run from 13-19 November.

Further meetings with Enterprise Insight will be scheduled as the year progresses.

Gas Appliances

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what steps his Department has taken in the past 10 years to encourage research and development of gas appliances. [78523]

Malcolm Wicks: This is a matter for manufacturers of gas appliances, which is a competitive commercial activity.

Global Oil Production

John Hemming: To ask the Secretary of State for Trade and Industry in which year the Government expect *(a)* global conventional oil production and *(b)* global total oil production to peak; and what the Government expect to be the level of peak global oil production. [84272]

Malcolm Wicks: The Government consider that the world's oil resources are sufficient to prevent global total oil production peaking before 2030, by which time the International Energy Agency's reference case scenario in its 2005 World Energy Outlook shows global oil demand reaching 115.4 million barrel per day, nearly 40 per cent. higher than current levels. The exact levels and years of the peaks in global conventional and total oil production will depend on assumptions about a number of factors, including the rate of global oil demand growth, the rate of investment in the global oil sector, and technological developments in finding and producing oil.

Market mechanisms will ration the remaining global supplies of oil and provide the incentive for a shift to alternative sources of energy. This process needs to be supported by Governments. The UK Government are already putting in place policies that will help ease the UK economy away from power supplied primarily through fossil fuels and is also promoting international

efforts, for example through the G8 Gleneagles Plan of Action, to develop cleaner energy technologies and promote energy efficiency.

Home Heat Helpline

Mr. Drew: To ask the Secretary of State for Trade and Industry (1) how many calls the Home Heat Helpline has received in each month since its launch; [83936]

(2) whether the Home Heat Helpline refers callers to *(a)* Energywatch, *(b)* local energy efficiency advice centres and *(c)* the Energy Savings Trust; [83937]

(3) how many people have *(a)* received benefit entitlement checks after contacting the Home Heat Helpline and *(b)* been identified as eligible for a benefit following a benefit entitlement check. [83938]

Malcolm Wicks: The Home Heat Helpline was established by the Energy Retail Association on behalf of gas and electricity suppliers. The Government supported the introduction of the Helpline, but is not involved in its funding or its administration. Questions about its operations are, therefore, entirely for the Association.

Liquefied Petroleum Gas Market

Mr. Roger Williams: To ask the Secretary of State for Trade and Industry what estimate he has made of the number of households in *(a)* rural areas and *(b)* non-rural areas using cylinders of a smaller capacity than those investigated by the Competition Commission in their recent inquiry into the domestic bulk liquefied petroleum gas market; and if he will make a statement. [84658]

Mr. McCartney: No such estimates have been made, as the successful functioning of consumer markets, and market investigations when required, are matters for the independent competition authorities rather than for the Government.

Manufacturing Forum

Mr. Prisk: To ask the Secretary of State for Trade and Industry who the members of the Manufacturing Forum are; and what its remit is. [84477]

Margaret Hodge: The membership of the Manufacturing Forum is:

Kevin Smith CBE, Chief Executive, GKN plc

Margaret Hodge MBE MP, Minister of State for Industry and the Regions

Ian McCafferty, Chief Economic Adviser, CBI

Nick Brayshaw, Chairman, CBI Manufacturing Council

Martin Temple CBE, Director General, EEF

Harald Krueger, Plant Director, BMW Hams Hall

Dr. Bryan Jackson OBE, Chair, East Midlands Development Agency

Allan Cook, Chief Executive, Cobham plc

Paul Lester, Chief Executive, VT Group

Steve Musgrave, Vice President Technical Operations, GSK plc

Dawn Gibbins MBE, Chairman, Flowcrete Group plc

John Wall, General Secretary, Confederation of Shipbuilding and Engineering Unions

Peter Booth, National Organiser, T&G

Phil Davies, National Secretary, GMB

Tim Page , Senior Policy Officer, TUC

Jim Brathwaite CBE, Chair, South East England Regional Development Agency

Professor Mike Gregory CBE, Head, Institute for Manufacturing, University of Cambridge

Simon Edmonds, Director, Business Relations, DTI

Vicky Pryce, Chief Economic Adviser, DTI

Eleanor Mack, Head of Enterprise Team, HM Treasury

Greg Dyche, Deputy Director, Skills Group, Department for Education and Skills

Emily Thomas, Special Adviser, DTI

Geoffrey Norris, Senior Policy Adviser, Prime Minister's Office.

Remit of Manufacturing Forum

The Manufacturing Forum is jointly chaired by Government and Industry and was established following the review of the Government's Manufacturing Strategy in 2004. The Forum facilitates ongoing advice from key industry partners to ensure the effective implementation and evolution of the Government's Manufacturing Strategy.

Manufacturing Media Centre

Mr. Prisk: To ask the Secretary of State for Trade and Industry what financial or other contribution his Department and its agencies are making towards the establishment of a Manufacturing Media Centre (MMC); what estimate he has made of the potential total cost of the MMC in each of its first three years; and when he expects the centre to be fully operational. [84478]

Margaret Hodge: The Manufacturing Forum Secretariat, which includes officials from the DTI, is working with stakeholders to establish the Manufacturing Media Centre (MMC). The MMC will cost approximately £300,000 per annum and will be funded by contributions from the manufacturing community, mainly from industry. It is planned to launch the MMC by the end of 2006.

Minimum Wage

Rosie Cooper: To ask the Secretary of State for Trade and Industry how many people have received the minimum wage in West Lancashire in each year since it was introduced. [84891]

Jim Fitzpatrick: Data at the parliamentary constituency level are not available.

However, the DTI estimates that around 120,000 in the North West stood to benefit from the October 2005 uprating of the national minimum wage.

Nuclear Decommissioning Authority

Norman Baker: To ask the Secretary of State for Trade and Industry what assessment he has made of the potential for a conflict of interest to arise from a

board member of the Nuclear Decommissioning Authority also being a board member of the Environment Agency. [85507]

Malcolm Wicks: Matters such as the potential for conflicts of interest arising as a consequence of membership of the Boards of public bodies are taken fully into account during the recruitment process. The DTI press release of 13 October 2004 announcing the appointment of the Nuclear Decommissioning Authority's non executive Board members provided detail on their other appointments and interests. In addition, public bodies maintain records of Board members' interests.

Nuclear Power

Mr. McGovern: To ask the Secretary of State for Trade and Industry what representations he has received from the Scottish Executive regarding the Energy Review with particular reference to the planning system for future nuclear power stations. [81661]

Malcolm Wicks *[holding answer 3 July 2006]:* The Government have worked closely with the Devolved Administrations throughout the Energy Review on all the areas of devolved responsibility, including planning.

The Government's report on the Review, "Our Energy Challenge", was released on 11 July 2006. It is available on the DTI website at:

www.dti.gov.uk/energy/review

Paul Flynn: To ask the Secretary of State for Trade and Industry pursuant to the answer of 4 July 2006, *Official Report*, columns 910-11W, on nuclear power, what the total operating budget was for his Department's Office for Civil Nuclear Security in each financial year since 2001-02. [85386]

Malcolm Wicks *[holding answer 14 July 2006]:* The information requested is as follows.

OCNS Operating costs

	£000
2001-02	1,590
2002-03	1,814
2003-04	2,216
2004-05	2,332
2005-06	2,447

The answer of 4 July 2006, *Official Report*, columns 910-11W referred to the charges made to recover the costs of regulatory services from those who received them. The figures in the table are total operating costs. The difference between total operating costs and fees charged (as stated on 4 July) is the net funding provided by DTI to cover the cost of work that falls outside the scope of The Nuclear Industries Security (Fees) Regulations and which therefore cannot be charged to industry. Office for Civil Nuclear Security (OCNS) activity covered by net funding includes, for example, policy advice within government, work on proposed future legislation and international work.

Nuclear Safety Directorate

Lynne Featherstone: To ask the Secretary of State for Trade and Industry how many warnings have been issued by the Nuclear Safety Directorate to nuclear plants owned or operated by British Energy in each of the last five years. [84222]

Malcolm Wicks: Warnings are not a feature of the regulatory regime enforced by HSE's Nuclear Safety Directorate. However, should there be a need for enforcement action enforcement notices are issued accordingly.

I am informed that HSE has issued 11 improvement notices to British Energy during the last five years.

Oil Imports

John Hemming: To ask the Secretary of State for Trade and Industry what the Government's latest estimate is of when the UK will become a net importer of oil. [84273]

Malcolm Wicks: In 2005 the UK became a net importer of crude oil (including Natural Gas Liquids (NGLs) and feedstocks), on an annual volume basis, for the first time since 1992. However, net exports of refined oil products meant that the UK remained a net exporter of overall oil (crude, NGLs, feedstocks, and refined products). Details are given in tables 3.1 and 3.2 of the June 2006 version of UK Energy Trends available at http://www.dti.gov.uk/energy/statistics/publications/trends/index.html.

With the large Buzzard Field due on-stream in late 2006, the UK should return to being a net exporter of crude oil (including NGLs and feedstocks) by 2007 before becoming a net importer on a sustained annual basis by 2010.

Petrol Prices

Mr. Amess: To ask the Secretary of State for Trade and Industry what recent assessment he has made of petrol prices. [83066]

Malcolm Wicks: Information on the typical UK monthly retail price of petrol is given in Table 4.1.1 of the DTI's Quarterly Energy Prices publication (http://www.dti.gov.uk/energy/statistics/publications/prices/index.html).

The rise in petrol prices since the start of the year reflects increases in the price of crude oil on the global market. In response, the Government are continuing to promote international efforts to improve the functioning of the global oil market and to tackle market inefficiencies that contribute to high and volatile crude oil prices.

Peugeot Plant (Ryton)

Mr. Hoyle: To ask the Secretary of State for Trade and Industry if he will make a statement on the progress of the talks that started on 4 July on the Peugeot car manufacturing operation in Ryton. [84232]

Margaret Hodge: The Government are aware that discussions are on-going between Peugeot Citroen and the trade unions regarding the company's announcement that its Ryton plant will close, but the conduct of those discussions is a matter between the company and the unions.

The Government have made clear to Peugeot Citroen the importance of engaging in meaningful consultation with the trade unions, consistent with their obligations under information and consultation legislation, including giving due consideration to the unions' alternative proposals for the future of Ryton.

Power Stations

Mr. Ian Austin: To ask the Secretary of State for Trade and Industry what steps are being taken to maximise power station efficiency. [84741]

Malcolm Wicks: The Government have put in place a competitive market-based framework that incentivises generators to maximise their productivity. The conclusions of the 2006 Energy Review set out proposals for further improvements to the generation market so as better to achieve the 2003 Energy White Paper goals.

Mr. Ian Austin: To ask the Secretary of State for Trade and Industry what plans there are to build more gas-fired power stations in the next five years. [84742]

Malcolm Wicks: Details of planned major new investments in electricity generation, including gas-fired power stations, can be found in table 2 of the annex to my right hon. Friend the Secretary of State's second report to Parliament on security of gas and electricity supply in Great Britain. The report was published on 11 July and can be found both in the Libraries of the House and on the Department's website at http://www.dti.gov.uk/files/file31630.pdf.

It is important to note that approval of the consents listed in the table does not guarantee that all, or indeed any, of these projects will actually be built.

Mr. Ian Austin: To ask the Secretary of State for Trade and Industry what research he has evaluated on the efficiency of power stations. [84743]

Malcolm Wicks: Table 5.10 of the latest "Digest of United Kingdom Energy Statistics" (http://www.dti.gov.uk/energy/statistics/source/electricity/page18527.html) lists the average thermal efficiencies of large power stations by fuel type. The technical and economic efficiencies of power stations are a commercial matter for generators.

Renewable Energy

Chris Huhne: To ask the Secretary of State for Trade and Industry what proportion of *(a)* energy and *(b)* electricity in (i) the UK and (ii) each region was supplied from renewable sources in the most recent year for which figures are available. [84125]

Malcolm Wicks: In the United Kingdom in 2004 1.8 per cent. of inland consumption of primary fuels and equivalents for energy use and 3.6 per cent. of electricity generation was from renewable sources.

The amount of electricity generated from renewable sources in Scotland, Wales, Northern Ireland and each region of England in 2004 was as follows:

	GWh
England	7,111.9
East Midlands	625.7
East	1,583.4
North East	417.0
North West	1,014.8
London	389.9
South East	1,209.5
South West	518.2
West Midlands	651.0
Yorkshire and the Humber	702.6
Wales	1,044.0
Scotland	5,853.6
Northern Ireland	148.5
Other sites[1]	9.4
Total	14,167.1
Solar photovoltaics	4.0
UK total	14,171.1

[1] Other sites are sites that have not been attributed to a region so that data related to individual companies are not disclosed when the breakdown by technology is shown in the source table.

Source:
DTI Energy Trends, September 2005 Page 24.

Similar statistics for the generation from all sources are not available for the regions of England since this would disclose data for individual companies given to the Department in confidence so percentages for the English regions cannot be calculated. However, percentages for Scotland, Wales, Northern Ireland and England as a whole are as follows:

	Percentage
Scotland	11.48
Wales	2.96
Northern Ireland	2.00
England	2.36
United Kingdom	3.58

Source:
DTI Energy Trends December 2005, page 44.

Regional data covering all energy use are produced only for consumption and not for supply. This is because energy produced in one part of the UK may not be consumed in the same part of the UK given that we have national transmissions systems for gas and electricity, and coal and oil products are distributed from mines and refineries to all parts of the country.

Mr. Ian Austin: To ask the Secretary of State for Trade and Industry how many wind farms there are in England; and how many are planned to be built in the next five years. [84740]

Malcolm Wicks: There are currently 54 wind farms in England, of those three are offshore with a capacity of nearly 154 MW and 51 are onshore with a capacity of nearly 246 MW.

It is not possible to say how many wind farms, on or offshore are planned to be built in the next five years as a number of complex and, as yet, unseen, factors may come into play. However, the following information has been obtained from the British Wind Energy Association:

	Wind farms
	Number
Currently under construction	Seven onshore wind farms with a capacity of 79.5 MW and one offshore wind farm with a capacity of 90 MW.
Consented projects	35 onshore wind farms with a capacity of 537.70 MW and four offshore wind farms with a capacity of 486 MW.
Projects in planning	51 onshore wind farms with a capacity of 938 MW and 10 offshore wind farms with a capacity of 4283 MW.

Royal Mail

Mr. Hoyle: To ask the Secretary of State for Trade and Industry what discussions have taken place between Ministers and officials from his Department and Royal Mail on shares being made available in Royal Mail. [84980]

Jim Fitzpatrick: Royal Mail has submitted proposals on an employee share ownership scheme and these proposals are currently under consideration by the Department. Ministers and officials meet Royal Mail representatives on a regular basis and have discussed these proposals with them. No decisions have been made on whether to introduce a share scheme.

South East England Development Agency

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry what the annual per capita expenditure of the South East England Development Agency has been in each year since its inception in *(a)* each county and *(b)* each unitary authority in the South East of England. [84100]

Margaret Hodge *[holding answer 10 July 2006]:* The tables show the South East England Development Agency's (SEEDA) annual spend from 2003 onwards, broken down to a sub regional level.

SEEDA does not provide expenditure breakdowns on the basis of all counties and unitary authorities within the region.

Before the adoption of their current financial records system in 2003, expenditure by specific geographical or administrative areas was not recorded and it is therefore not possible to produce a disaggregated account of SEEDA spend prior to that time.

Much of SEEDA's spend is allocated across administrative boundaries, and this cannot be disaggregated to local authority boundaries levels.

Sub-region	*Spend 2003-04 (£)*	*Programme expenditure (percentage of annual budget)*	*Expenditure per head (£)*
Berkshire Unitary Authorities	4,626,483.75	3.67	5.78
Buckinghamshire and Milton Keynes	1,614,422.01	1.28	3.37
East Sussex, Brighton and Hove	25,399,943.64	20.12	34.32
Hampshire, Portsmouth, Southampton and Isle of Wight	40,665,609.35	32.21	22.88
Kent and Medway	25,244,668.59	20.00	15.99
Oxfordshire	5,118,297.72	4.05	6.30
Surrey	760,227.82	0.60	0.72
West Sussex	3,248,602.91	2.57	4.31
Regionwide and Cross Region	19,554,744.20	15.49	n/a
Total	126,233,000.00	100.00	—

Sub-region	*Spend 2004-05 (£)*	*Programme expenditure (percentage of annual budget)*	*Expenditure per head (£)*
Berkshire Unitary Authorities	2,230,595.85	2.02	2.79
Buckinghamshire and Milton Keynes	2,877,112.59	2.60	6.01
East Sussex, Brighton and Hove	19,938,380.28	18.04	26.94
Hampshire, Portsmouth, Southampton and Isle of Wight	19,240,442.98	17.41	10.83
Kent and Medway	39,055,557.44	35.34	24.73
Oxfordshire	4,399,289.72	3.98	5.41
Surrey	836,594.35	0.76	0.79
West Sussex	2,673,723.77	2.42	3.55
Regionwide and Cross Region	19,256,303.04	17.43	n/a
Total	110,508,000.00	100.00	—

Sub-region	Spend 2005-06 (£)	Programme expenditure (percentage of annual budget)	Expenditure per head (£)
Berkshire Unitary Authorities	4247471.04	2.68	5.31
Buckinghamshire and Milton Keynes	1,867,303.21	1.18	3.90
East Sussex, Brighton and Hove	22,174,844.97	13.98	29.96
Hampshire, Portsmouth, Southampton and Isle of Wight	38,236,206.41	24.10	21.52
Kent and Medway	36,545,375.53	23.04	23.14
Oxfordshire	5,564,708.01	3.51	6.85
Surrey	4,376,371.19	2.76	4.13
West Sussex	8,630,872.87	5.44	11.45
Regionwide and Cross Region	36,996,847.49	23.32	n/a
Total	158,640,000.72	100.00	—

Note:
Please note per capita expenditure has been calculated using population figures from the Rural Urban Spreadsheet tool (based on 2001 census).

Spam E-mails

Julia Goldsworthy: To ask the Secretary of State for Trade and Industry what steps he *(a)* is taking and *(b)* plans to take to reduce the number of spam e-mails originating from abroad received by people in the UK. [84738]

Margaret Hodge: The Government introduced statutory controls on spam emails by means of the Privacy and Electronic Communications (EC Directive) Regulations 2003, which were enacted on 11 December 2003. The regulations provide a first line of defence against spam originating in the EU where the recipient has no knowledge of the advertiser of the products being marketed. The regulations require that spam must not be sent to an individual subscriber without prior permission or unless there is a previous relationship between the parties. The regulations can be enforced against an offending company or individual anywhere in the EU. There is regular contact between my Department, the Department for Constitutional Affairs and the Information Commissioner's Office on the operation of these regulations.

The Government recognise that most spam does not come from the UK and have therefore extensively promoted international co-operation. A Memorandum of Understanding was agreed on 2 July 2004 between the enforcement authorities of the United Kingdom, United States and Australia, to reduce the problem by working together to investigate those sending spam. The UK also plays a leading role in Organisation for Economic Co-operation and Development (OECD)'s Anti Spam Task Force and other multilateral initiatives. In late 2004, the UK launched the world's first and only anti-spam enforcement network, the London Action Plan, which now spans five continents and includes authorities and industry from countries particularly affected by this issue, such as Nigeria, China and India.

The end user has a role to play in acting to avoid being a target for those sending spam, as well as acting to filter spam. Information has been made available to the public and to business by the DTI, the Information Commissioner's Office, the Office of Fair Trading as well as a number of sites provided by service and software providers. These messages have been reinforced by the Get Safe Online initiative launched on 27 October 2005. This is an initiative between Government and Industry to help individuals and businesses protect themselves against internet threats, including spam.

Our response to the problem of spam continues to develop. I have taken careful note of the views of the Information Commissioner's Office on the powers available to him, and DTI officials are working with the Information Commissioner's Office on this matter. The Government are actively considering whether to revise the relevant legislation. DTI officials have a continuing dialogue with internet service providers regarding steps that can be taken to reduce spam. We also continue our efforts to achieve greater international co-operation.

Strikes

Mr. Amess: To ask the Secretary of State for Trade and Industry how many strikes there were in the last 12 months; and what the lowest number of strikes was during any consecutive 12 month period between May 1997 and May 2002. [85454]

Jim Fitzpatrick: In the 12 months to May 2006, there were 131 stoppages in the UK, compared to 121 stoppages in the 12 months to May 2005.

Between May 1997 and May 2002, the lowest number of stoppages in any 12 consecutive months was 189, in the 12 months to August 1999.

Structural Funds

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry if he will take steps to ensure that the North West is a priority for the allocation of structural funds. [84289]

Margaret Hodge: As set out in the written statement to Parliament of 20 December 2005, *Official Report*, columns 203-06WS. Merseyside will receive phasing-in funding under the Regional Competitiveness and Employment Objective for 2007-13. This will amount to approximately one-third of its allocation as an Objective 1 area over the period 2000-06.

The rest of the North West, along with the other areas of the UK not eligible for Convergence funding (the successor to Objective 1) under the next round of Structural Funds from 2007-13, will be eligible for support under the Regional Competitiveness and

Employment Objective. These areas will receive a total of approximately €6.2 billion in Structural Funds over this period.

The Department of Trade and Industry has recently carried out a public consultation on a draft National Strategic Reference Framework for future Structural Funds spending. As part of the consultation, we sought stakeholders' views on the methodology for allocating part of the UK's Competitiveness funds. In reaching a final decision on this issue, the Government will, of course, want to take full account of the needs of the North West and all other eligible regions.

Sustainability

Lembit Öpik: To ask the Secretary of State for Trade and Industry what funding he plans to allocate to professional bodies for the promotion of the principles of sustainable consumption and development to their members in each of the next five years; and if he will make a statement. [82481]

Ian Pearson: I have been asked to reply.

In October 2005, Defra funded Forum for the Future to engage with a range of professional bodies on sustainability issues. The project, Professions in Partnership for Sustainability, will work with professional bodies to embed sustainable competencies into their professional standards.

The project is worth up to £75,000 and will last until the end of the financial year 2006-07. No decisions have been taken yet on funding beyond the end of 2006-07.

Television Licences

Mr. Dai Davies: To ask the Secretary of State for Trade and Industry what assessment he has made of the effects on pensioners of the discontinuation of the sale of television licences in post offices. [85098]

Jim Fitzpatrick: The decision to withdraw the purchase of TV licences from post offices was a commercial one made by the BBC which has a duty to TV licence holders to achieve value for money with its licence fee income. Although customers will not be able to pay for their TV licences at post offices after 31 July, they will be able to purchase TV licences by direct debit, online or at over 15,000 'Paypoint' facilities situated around the country in local newsagents, convenience stores, supermarkets, and petrol stations.

Waste Disposal

Kerry McCarthy: To ask the Secretary of State for Trade and Industry if he will make a statement on the meeting of EU Member States in Brussels on 26 June regarding the Restrictions on Hazardous Substances and Waste Electrical Equipment Directives; and whether a decision was reached as to whether pipe organs would fall within the scope of these Directives. [84609]

Malcolm Wicks: It was certainly never envisaged that these directives would apply to church and other pipe organs, although there was some legal uncertainty in the final text.

Following the meeting held in Brussels on 26 June, the European Commission has clarified that pipe organs are outside the scope of the new rules.

I am, therefore, very pleased to confirm that the legal uncertainties have now been resolved and pipe organs are considered to be clearly outside the scope of the restriction of hazardous substances (RoHS) and waste electrical and electronic equipment (WEEE) directives.

Zimbabwe

Kate Hoey: To ask the Secretary of State for Trade and Industry if he will make a statement on UK-Zimbabwe trade relations [80264]

Mr. McCartney: There has been a substantial fall in UK-Zimbabwe trade in recent years. In 2000, UK and Zimbabwe two-way trade amounted to £143 million. Imports from Zimbabwe were mainly agricultural products with tobacco, making up approximately 31 per cent. of the total imports. Exports were mainly manufactured goods, with office machines and ADP equipment topping the table at £5.3 million.

By 2005, two-way trade had fallen to £66 million. The principal change was in tobacco imports, which fell to £4.8 million from £31 million in 2000 down 85 per cent. Exports also fell, with the leading export, road vehicles, topping the table at £3.5 million. The decline in trade can be attributed to the policies of the Government of Zimbabwe which have brought about the fall of both imports and exports.

A breakdown of UK exports and imports by sector for 2004 and 2005 is shown in the following table.

HMG have not imposed any economic sanctions or restrictions on doing business in Zimbabwe and two-way trade continues, although as the aforementioned figures show, at a substantially reduced level. It is our view that economic sanctions would harm the people of Zimbabwe at a time of humanitarian crisis, while having very little impact on the ZANU (PF) leadership. The people of Zimbabwe have suffered enough.

UK trade with Zimbabwe

Written Answers to Questions

Monday 17 July 2006

TREASURY

Annuities

Steve Webb: To ask the Chancellor of the Exchequer pursuant to the response by the Economic Secretary to the Treasury of 4 July 2006, *Official Report*, column 729, on the Finance (No. 2) Bill, if he will place in the Library a note setting out the basis for his calculation of the £100 million cost of amendments to the rules on the compulsory purchase of annuities. [83603]

Ed Balls: The Exchequer cost arising from this proposal depends upon behavioural responses. But, assuming that the technical deficiencies with the proposal would be corrected, we stated a conservative overall initial cost of the measure of around £100 million per annum. Our longer term estimate of the overall costs is around £175 to £225 million per annum.

This potential cost consists of two main elements. First, allowing larger lump sums to be taken out and taxed at marginal rate at age 75 would have a tax cost because additional pension savings would be induced.

The up-front tax cost of these additional pension savings is estimated to be in the region of £300 to £500 million per annum. Around three quarters of this would be reclaimed as income tax on the resulting retirement benefits. This gives a broad range for this part of the costing of £75 to £125 million per annum. We used the lower range of this estimate for our conservative initial cost.

Secondly, allowing individuals to leave pensions untouched until death and then bequeath the capital would reduce income tax on pensions in payment. As any additional savings held in pension assets at death would largely displace other liquid assets, held inheritance tax (IHT) would not increase to offset this income tax lost. Even if wealth held at death were to increase as a result of the tabled amendments, the average effective rate of IHT on such assets would still be far below the rate of income tax. Only 6 per cent. of estates have an IHT charge.

The longer term costs of this behaviour are very uncertain but are estimated at £100 million per annum in lost income tax. But this would take time to build up and we have used one quarter of this amount for our conservative initial cost.

Computer Learning Centres

Mr. Francois: To ask the Chancellor of the Exchequer how many computer learning centres have been set up in each year since 1999. [84792]

Phil Hope: I have been asked to reply.

The term "computer learning centres" potentially covers a wide range of provision, not all of which would have been funded by Government.

However, I can say that between 1999 and 2003, with funding from the Capital Modernisation Fund and the New Opportunities Fund, around 6,000 UK online centres were established across England.

Mr. Francois: To ask the Chancellor of the Exchequer how much his Department has spent on computer learning centres in each year since 1999; and if he will make a statement. [84793]

Phil Hope: I have been asked to reply.

The term "computer learning centres" potentially covers a wide range of provision, not all of which would have been funded by Government.

However, I can say that between 1999 and 2003, a total of £396 million from the Capital Modernisation Fund and the New Opportunities Fund was invested in setting up UK online centres across England.

Data Protection

Mr. Gray: To ask the Chancellor of the Exchequer pursuant to the Answer of 26 June 2006, *Official Report*, column 92W, on data protection, what is the longest period of time that has elapsed for HM Revenue and Customs to respond to its satisfaction to a subject access request in the first instance. [84939]

Dawn Primarolo *[holding answer 13 July 2006]:* The response meeting this description was the case cited in my reply of 26 June. The original letter was an appeal against a separate HMRC decision, although it also contained a subject access request.

Demographics

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer what percentage of the population of *(a)* the UK, *(b)* Peterborough constituency and *(c)* the Peterborough City Council area is aged (i) under 25, (ii) between 25 and 34, (iii) between 35 and 44, (iv) between 45 and 54, (v) between 55 and 64 and (vi) over 65. [85992]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2006:

As National Statistician, I have been asked to reply to your question concerning the percentage of the population of *(a)* the UK *(b)* Peterborough Constituency and *(c)* Peterborough Unitary Authority aged (i) under 25, (ii) between 25 and 34, (iii) between 35 and 44, (iv) between 45 and 54, (v) between 55 and 64 and (vi) over 65. (85992)

The latest available data for the UK and Peterborough Unitary Authority (UA) are the mid-2004 population estimates. The mid-2005 population estimates for the UK and local authorities in England and Wales are due to be published on 24 August 2006.

Mid-year population estimates are not produced for parliamentary constituencies. For this reason, the latest data available for Peterborough Constituency is from the 2001 Census.

The attached table shows the percentages requested for each age group and area, based on the latest available figures for these areas.

Percentage of population in selected age groups for UK, Peterborough Unitary Authority and Peterborough Parliamentary Constituency, Mid-2004 Population Estimates, Census 2001

Age Group	UK	Peterborough Unitary Authority	Peterborough Parliamentary Constituency
Under 25	31	33	34
25 to 34	13	15	15
35 to 44	15	15	14
45 to 54	13	12	13
55 to 64	12	10	9
Over 65	16	14	14

Source: Office for National Statistics.

ECOFIN

Mr. Francois: To ask the Chancellor of the Exchequer how many ECOFIN council meetings were attended by each Minister in his Department in each year since May 1997. [83510]

Ed Balls: Ministerial attendance and the outcome of each ECOFIN have been reported either by written ministerial statement, written answer or, occasionally, by letter to the Chairman of the European Scrutiny Committee.

Enterprise Insight

Mr. Carmichael: To ask the Chancellor of the Exchequer pursuant to his oral statement of 15 June 2006, *Official Report*, column 886, on Enterprise Insight, how many new businesses have been set up in Northern Ireland as a result of Enterprise Insight; and when he last met the chief executive of Enterprise Insight. [85685]

John Healey: Enterprise Insight was created in 1999 to promote a culture of enterprise in the UK by running a national campaign promoting the spirit of enterprise to young people and those who influence them. It is funded by the Small Business Service to cover activities in England only and it does not provide business support services for enterprises based in Northern Ireland. Treasury Ministers regularly meet a wide range of individuals and organisations in the course of policy development. As is the case with previous administrations, it is not the practice of the Government to provide details of these meetings.

EU Budget

Mr. Hayes: To ask the Chancellor of the Exchequer what steps his Department has taken to reduce UK contributions to the EU budget since 1997; what reductions have been made in each of the last five years; and if he will make a statement. [84294]

Ed Balls: The UK's contributions to the EU budget are determined in accordance with the Own Resources Decision, details of which can be found at paragraph 2.15 of the "European Community Finances" White Paper (Cm 6770, page 7). The level of these contributions is also dependent in negotiation of the annual EU budget and HM Treasury plays an active role in these discussions, see below. The UK's contributions fluctuate from year to year as can be seen in Tables 31 and 3.2 of the "European Community Finances" White Paper (Cm 6770, page 15 and 17). These fluctuations occur for a variety of reasons, as explained in paragraph 3.6 of the "European Community Finances" White Paper (Cm 6770, page 15).

The Government also participate in Council negotiations on the setting of the annual budget, where we seek to control budget growth in line with genuine needs and implementation capacity, and to focus spending where it adds most value and is most cost effective. This budget disciplined approach helps restrict the growth in UK contributions.

Of course most of the annual budget is pre-set by treaty obligations and multi-annual spending programmes. Furthermore the UK is but one of 25 member states. Decisions in the Council on the annual budget are taken by Qualified Majority, and the final budget must be agreed with the European Parliament. Nevertheless by working effectively with like-minded member states, the Government are able to influence the outcome.

In the last five years Council/EP negotiations have amended the Commission's preliminary draft budget (PDB) proposal and these figures are published annually in the "European Community Finances" White Paper.

Illegal Food Imports

Mr. Paice: To ask the Chancellor of the Exchequer (1) what estimate his Department has made of the proportion of passengers entering the UK each year with prohibited *(a)* products of animal origin and *(b)* fruit, vegetables and plant products in their luggage; [85612]

(2) what estimate his Department has made of the amount of *(a)* meat and *(b)* fruit, vegetables and plant products entering the UK illegally in each of the last three years; [85613]

(3) how many seizures of prohibited *(a)* products of animal origin and *(b)* fruit, vegetables and plant products there were at UK ports and airports in each of the last six years, broken down by product type; and what weight of each type of product was seized in each year; [85614]

(4) what proportion of passengers searched by HM Revenue and Customs at UK ports and airports in each of the last six years were found to be carrying prohibited *(a)* products of animal origin and *(b)* fruit, vegetables and plant products in their luggage. [85615]

Dawn Primarolo: HM Revenue and Customs' central records for POAO, fruit and vegetable and plant products seized by customs officers at ports and airports in Great Britain for the past three financial years are as follows:

Seizures of POAO, fruit, vegetable and plant products

	2003-04	2004-05	January to December 2005
Total number of seizures of POAO	15,316	25,286	22,597

Seizures of POAO, fruit, vegetable and plant products

	2003-04	2004-05	January to December 2005
Total weight of seized POAO items (kg)	174,206	216,889	175,435
Total number of seizures of fruit, vegetable and plant products	1,246	1,497	1,276
Total weight of fruit, vegetable and plant products seized (kg)	21,253	28,189	25,409

Types of POAO seizures

	2003-04	2004-05	January to December 2005
Number of meat seizures	6,473	10,792	9,890
Weight of meat seizures (kg)	70,083	77,087	57,562
Number of fish seizures	5,156	8,235	7,189
Weight of fish seizures (kg)	67,625	84,563	72,944
Number of dairy seizures	3,108	5,091	4,477
Weight of dairy seizures (kg)	27,564	40,265	35,667
Number of honey seizures	530	1,168	1,041
Weight of honey seizures (kg)	8,934	14,975	9,262

Information on POAO seizures made prior to April 2003 can be found in DEFRA's Annual Review of Controls on Imports of Animal Products last published in July 2005.

HMRC do not produce estimates on the amount of illegal meat imported into the UK. Such estimates are held by the Veterinary Laboratories Agency (VLA).

HMRC make no estimates of the proportion of passengers entering the UK each year with POAO and fruit, vegetables and plant products in their luggage.

Income Tax

Mr. Amess: To ask the Chancellor of the Exchequer how much income tax was paid on average per household in each of the last three financial years; and what estimate he has made of the average amount of tax which will be paid in 2006-07. [85394]

Dawn Primarolo: Information can be found on the Office for National Statistics (ONS) website in table 14, "Average incomes, taxes and benefits by decile groups of all households" in the article "The effects of taxes and benefits on household income" from the ONS' Economic Trends publications.

For 2004-05:

http://www.statistics.gov.uk/articles/economic_trends/ET_May_Francis_Jones.pdf

For 2003-04:

http://www.statistics.gov.uk/articles/nojournal/taxesbenefits200304/taxesbenefits200304.pdf

For 2002-03:

http://www.statistics.gov.uk/articles/economic_trends/ET607Lakin.pdf

Similar information for 2005-06 and 2006-07 is not yet available.

Malawi

Mr. Soames: To ask the Chancellor of the Exchequer on how many occasions he has visited Malawi since 1997; and what the outcome was of each visit. [82306]

John Healey *[holding answer 4 July 2006]:* I understand that the Chancellor has never visited Malawi.

Modern Apprenticeship Taskforce

Mr. Francois: To ask the Chancellor of the Exchequer how many times the Modern Apprenticeship Taskforce announced in the 2002 pre-Budget has convened. [84808]

John Healey: The Apprenticeship Task Force (ATF) met for the first time in April 2003 and subsequently seven times with the final meeting in May 2005. In April 2006, the Apprenticeship Ambassadors Network (AAN) was established to continue the work of the ATF.

National Lottery

Kate Hoey: To ask the Chancellor of the Exchequer what the tax yield to the Treasury on national lottery ticket sales has been in each year since it was launched. [84981]

John Healey: The information requested is publicly available on the UK Trade Info website (http://www.uktradeinfo.com).

Kate Hoey: To ask the Chancellor of the Exchequer whether VAT is charged on the construction of sports facilities funded by the national lottery. [84982]

John Healey: Under European agreements we may keep our zero rates, but may not extend them or introduce new ones.

VAT is chargeable on the construction of all new non-residential buildings, other than those that will be used at least 90 per cent. for a relevant charitable purpose—such as free-of-charge activities provided by a charity, a village hall or similar.

Where VAT is chargeable on construction and is not reclaimable through the VAT system, it is reasonable to expect this cost to be taken into account when an organisation makes a bid for national lottery funding.

Kate Hoey: To ask the Chancellor of the Exchequer whether athletes funded by the national lottery are exempt from tax and national insurance contributions on the grants awarded to them. [84983]

John Healey: Whether an athlete is liable for income tax and national insurance contributions on a National Lottery Sports Fund grant will depend on whether he or she is earning an income as a self-employed person from competing in any sport (including any associated activities such as sponsorship or journalism). That is a question of fact to be determined in individual cases. Detailed guidance on these issues is provided in the

HMRC Business Income Manual (beginning at page BIM50650), available on the HMRC website at:

http://www.hmrc.gov.uk/manuals/bimmanual/BIM50650.htm

Online Tax Reduction Claims

Mr. Francois: To ask the Chancellor of the Exchequer how many small companies have gone online and claimed a special tax reduction in each year since 2000. [84817]

John Healey: The number of small companies that have submitted their Employer's Annual Returns online and a "special tax reduction" has been made as follows:

Return for year to 5 April	
2000	0
2001	1,400
2002	0
2003	0
2004	0
2005	900,000

Parliamentary Questions

Mr. Amess: To ask the Chancellor of the Exchequer how many parliamentary questions tabled to his Department were awaiting a reply on 10 July 2006; which of those had been waiting longer than *(a)* two and *(b)* three weeks for a reply; and what the reason for the delay was in each case. [85211]

John Healey: Treasury Ministers endeavour to answer parliamentary questions promptly wherever possible. Of the 173 written questions which were awaiting answer on 10 July, 119 had been received at least a fortnight previously and 85 of these questions had been received at least three weeks previously.

Treasury Ministers had answered 5,252 questions in the present session up to 10 July. For the Treasury's performance in answering written questions within the timescales set by the House, I refer the hon. Gentleman to the answer I gave to the hon. Member for Yeovil (Mr. Laws) on 11 July 2006, *Official Report*, columns 1724-5W.

Mr. Laws: To ask the Chancellor of the Exchequer when he will answer Question *(a)* 38754, *(b)* 46531, *(c)* 62788, *(d)* 63040, *(e)* 63323, *(f)* 72367, *(g)* 75746, *(h)* 75752, *(i)* 75754, *(j)* 75747, *(k)* 75748, *(l)* 75756, *(m)* 75751, *(n)* 75757, *(o)* 75755, *(p)* 75768, *(q)* 75769, *(r)* 75775, *(s)* 75776, *(t)* 75780, *(u)* 75783, *(v)* 75784, *(w)* 75789, *(x)* 75817, *(y)* 75818, *(z)* 75842, *(aa)* 76207, *(bb)* 76418, *(cc)* 76419, *(dd)* 76421, *(ee)* 76422, *(ff)* 76423, *(gg)* 76425, *(hh)* 76426, *(ii)* 76429, *(jj)* 76430, *(kk)* 76431, *(ll)* 76432, *(mm)* 76470, *(nn)* 76471, *(oo)* 76474, *(pp)* 76475, *(qq)* 76476, *(rr)* 76478, *(ss)* 76480, *(tt)* 76481, *(uu)* 76482, *(vv)* 76483, *(ww)* 76484, *(xx)* 76485, *(yy)* 76487, *(zz)* 76488, *(aaa)* 76853, *(bbb)* 76854, *(ccc)* 76870, *(ddd)* 76946, *(eee)* 76994, *(fff)* 76995 and *(ggg)* 76996, on tax credits, tabled by the hon. Member for Yeovil; what the reasons are for the time taken to reply in each case; and what guidance his Department applies on the length of time that should be taken to answer. [85763]

Dawn Primarolo: Question 38754 was a duplicate of the hon. Member's question 38697, which was answered on 10 January, and as such was withdrawn by the Table Office and never appeared in the Questions Book. Some of the other questions concerned have already been answered. Those that have not will be answered as soon as possible.

Treasury Ministers endeavour to answer questions within the timescales set by the House. The provision of timely answers depends in part upon the number of questions the Department is dealing with. The Treasury has answered 554 questions from the hon. Gentleman in the present Session, the great majority of which have concerned tax credits.

Planning Gain Supplement

Mrs. Spelman: To ask the Chancellor of the Exchequer how many written submissions the Government have received to the consultation on Planning Gain Supplement; and if he will place in the Library a copy of each submission. [85539]

John Healey: I refer the hon. Member to the answers I gave the hon. Member for Brentwood and Ongar (Mr. Pickles) on 6 and 16 March 2006, *Official Report*, columns 1105W and 2417W respectively.

Population Statistics

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer whether he plans to change the methods of collecting local authority population statistics to take account of immigration from EU accession countries in the period since May 2004; and if he will make a statement. [85001]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2006:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking whether the Chancellor of the Exchequer plans to review the methods of collecting local authority population statistics in order to take account of immigration from EU accession countries in the period since May 2004. (85001)

Migration of accession country citizens to and from the UK is captured via existing data sources that are used to estimate population change. For population estimation purposes, the definition of a migrant is someone who changes their country of usual residence for a period of at least a year which is the UN recommended definition of a long term migrant. The 2005 mid-year population estimates, due to be published on 24 August 2006, will therefore include an estimate of the number of long term immigrants from the EU accession countries, based on the UN definition.

It is recognised that information about short-term migrants is needed, both nationally and at local levels, for policy and planning purposes and for service provision. In May of this year, ONS set up an Inter-departmental Task Force on Migration Statistics. The Task Force will report to me by the end of August, making recommendations on timely improvements that could be made to the estimates of migration and migrant populations in the United Kingdom, both nationally and at local level.

ONS are also carrying out an extensive programme of work titled Improving Migration and Population Statistics (IMPS) Project which is designed to investigate improvements to the population and migration statistics produced by ONS. Further information on this work can be found at: www.statistics.gov.uk/IMPS. In particular:

The IMPS programme of research is taking forward recommendations from the National Statistics Quality Review (NSQR) into International Migration. The quality review made recommendations for improving the estimation of total migration flows to and from the UK and the allocation of international migration to local areas. This work includes investigating administrative sources that may be used in producing or quality assuring the international migration estimates (such as the Worker Registration Scheme data); investigating potential sources of information about short-term migrants and making improvements to the current source of information on international migrants, the International Passenger Survey (IPS).

The latest Progress Report on taking forward the recommendations of the NSQR on International Migration can be found at http://www.statistics.gov.uk/about/data/methodology/quality/reviews/population.asp

Also, as part of the IMPS programme, ONS are conducting Local Authority case studies. These aim to get a better understanding, from a local perspective, of the administrative data sources that are currently used in the population estimation procedure. They will also investigate any other high quality sources that the local areas use themselves for population purposes. The local areas selected for these studies are ones that are known to have reasons which make their population difficult to estimate, e.g. those with a high volume of migratory moves. It is intended that these studies will contribute towards the improvement of both internal and international migration statistics.

Sniffer Dogs

Mr. Paice: To ask the Chancellor of the Exchequer how many meat detector sniffer dogs were employed at each UK *(a)* port and *(b)* airport in each of the last six years. [85611]

Dawn Primarolo: Meat detection dogs were introduced by DEFRA in 2002, and were transferred to HMRC in 2003. The number of animal origin detector dogs used at ports and airports in Great Britain since 2002 is in the following table:

	Number of dogs
2002	2
2003	2
2004	6
2005	10
2006	9 (+2 in training)

These dogs are employed on a mobile basis across Great Britain.

We cannot disclose further information about the deployment of the dogs as this would provide information of value to those seeking to circumvent HMRC controls, thereby prejudicing the prevention and detection of crime.

Statutory Instruments

Mr. Amess: To ask the Chancellor of the Exchequer on what occasions a statutory instrument sponsored by his Department has been reported by the Joint Committee on Statutory Instruments as defective since October 2005. [85193]

John Healey: Since October 2005, two statutory instruments sponsored by HM Treasury have been reported by the JCSI as defective:

One in its report of 2 November 2005, and

One in its report of 8 November 2005.

In addition one instrument sponsored by HM Revenue and Customs was so reported in the Committee's report of 1 February 2006.

Taskforce on Migration Statistics

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer when he expects the taskforce on migration statistics to report to Ministers; and if he will make a statement. [85002]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2006:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking the Chancellor of the Exchequer when he expects the Taskforce on Migration Statistics to report to Ministers. (85002)

The aim of the Task Force is to report to me, as National Statistician, by the end of August, making recommendations on timely improvements that could be made to the estimates of migration and migrant populations in the United Kingdom, both nationally and at local level. I will report to Ministers in October, after the Parliamentary recess.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer what estimate he has made of the cost of abolishing the family element of the child tax credit and giving equivalent support through child benefit; and if he will make a statement. [84908]

Dawn Primarolo: Child tax credit (CTC) includes a family element of £545 per year. It also includes a baby addition at a rate of a further £545 per year for families for periods when they are responsible for a child aged under one year. Equivalent payments are made to families receiving their child support via income support or jobseeker's allowance. Abolishing these elements would reduce expenditure on CTC by around £3.3 billion per year, based on 2004-05 awards. The extra child benefit expenditure resulting from adding the weekly equivalents to the rate for the eldest child would be around £4.3 billion per year. Therefore, the net cost would be £1 billion per year.

The recent Joseph Rowntree Foundation report "What will it take to end child poverty?" suggested that the child tax credit was probably the most cost-effective way of reducing child poverty. To achieve the same effect by raising child benefit would be up to three times as expensive.

Mr. Frank Field: To ask the Chancellor of the Exchequer how many frauds involving claims for tax credits have been found to be based on false identities in *(a)* 2003-04, *(b)* 2004-05 and *(c)* 2005-06; and how much was paid in respect of fraudulent claims based on false identities in each year. [58999]

Mr. Laws: To ask the Chancellor of the Exchequer pursuant to the answer of 10 January 2006, *Official Report*, column 557W, on tax credits, (1) how much had been paid out to the 22,284 claims in payment that were stopped; on what dates he met the Paymaster General to discuss the problem of tax credit fraud; how many calls to the helpline have been received where fraud is suspected; and if he will commission an independent review into tax credit fraud; [46531]

(2) how many tax credit claims in payment have been stopped since June 2004 because of fraud or suspected fraud; and if he will make a statement; [62788]

(3) how many employees of Network Rail had their identities used in tax credit fraud in 2005-06; what the cost to the Exchequer was; and if he will make a statement; [63323]

(4) what his estimate is of the scale of identity fraud in relation to tax credits; how many tax credits staff have been involved in identity fraud since 2003-04; and if he will make a statement; [72367]

(5) what recent action his Department has taken to reduce the level of tax credit fraud; [75756]

(6) what his latest estimate is of the cost of tax credit fraud for each quarter from April 2003 to April 2006; and if he will make a statement; [75757]

(7) what his latest estimate is of the number of people who experienced identity fraud as a result of tax credits fraud in *(a)* 2005-06 and *(b)* 2006-07 to date; and if he will make a statement; [75768]

(8) what his latest estimate is of the level of (a) fraud and (b) error in respect of tax credit payments in (i) 2003-04 and (ii) 2004-05; and if he will make a statement; [75784]

(9) when he plans to publish the final assessment of tax credit fraud for 2003-04; and if he will make a statement; [75818]

(10) what his latest estimates are of the number of cases of tax credit fraud in each reporting period since 2001-02; and if he will make a statement; [76422]

(11) if he will make a statement on the level of fraud in claims for the childcare tax credit; [76483]

(12) how many tax credit claims have been stopped due to fraud and suspicion of fraud in each month from January to May; and if he will make a statement; [76487]

(13) if he will make a statement on tax credit fraud by people claiming as lone parents; [76423]

(14) what assessment he has made of the level of tax credit fraud by people claiming disabled worker status; [76853]

(15) what information on tax credit fraud his Department has made available to the National Audit Office since 1 January; and if he will make a statement; [76995]

(16) how many planned measures to reduce tax credit fraud had not been implemented as at 1 June 2006; and if he will make a statement; [76946]

(17) on what date he sent the National Audit Office estimates of tax credit fraud and error for 2003-04 based upon the assessment of a sample of 4,700 cases; [78154]

(18) whether *(a)* Ministers and *(b)* special advisers have seen (i) drafts and (ii) a final version of the HM Revenue and Customs report into tax credit fraud and error which was due to be published in spring 2006; and if he will make a statement; [78155]

(19) what his latest estimate is of the breakdown between *(a)* fraud, *(b)* official error and *(c)* claimant error in the existing estimates for tax credit fraud and error; and if he will make a statement; [78389]

(20) if he will publish the report received by the Paymaster General in June 2005 on suspected fraudulent activity in the tax credit system; and if he will make a statement. [78408]

Danny Alexander: To ask the Chancellor of the Exchequer whether randomised sample tax credit cases are tested to ensure residency criteria are complied with. [80560]

Dawn Primarolo: I refer my right hon. Friend the Member for Birkenhead (Mr. Field) and the hon. Members for Yeovil (Mr. Laws) and for Inverness, Nairn, Badenoch and Strathspey (Danny Alexander) to the statement I made to the House on 11 July 2006, *Official Report*, columns 1281-82. I refer them also to the HMRC publications "Child and Working Tax Credits: Error and fraud statistics 2003-04" and "Tackling error and fraud in the Child and Working Tax Credits", available on the HMRC website at www.hmrc.gov.uk/news/index.htm., and to "HM Revenue and Customs 2005-06 Accounts: The Comptroller and Auditor General's Standard Report", part 2, available at http://www.nao.org.uk/pn/05-06/05061159.htm.

Tax Rebates (IT Equipment)

Mr. Francois: To ask the Chancellor of the Exchequer how many small companies have claimed a tax rebate on the cost of purchasing computers or investing in information technology in each year since 2000. [84816]

Dawn Primarolo: Small companies are able to claim tax relief in the form of capital allowances for expenditure on a wide range of assets. Claims for capital allowances are not broken down to the level of detail required for firm estimates of the number of small companies investing in computers or information technology specifically.

Tax Receipts (Energy)

Mr. Bone: To ask the Chancellor of the Exchequer what his latest estimate is of the total tax receipts relating to energy in *(a)* 2005, *(b)* 2004 and *(c)* 2003. [84973]

Dawn Primarolo: Receipts from taxes on energy are published by the Office for National Statistics in table 3.1 of the Environmental Accounts that can be found at: http://www.statistics.gov.uk/downloads/theme_environment/EAMay06.pdf.

Taxable Homecare Allowance

Dr. Cable: To ask the Chancellor of the Exchequer if he will *(a)* estimate the total cost of introducing a taxable homecare allowance of £150 per week to all

families with one child under the age of three and £50 for each additional child under three net of the abolition of the working tax credit and child tax credit schemes and *(b)* assess the likely impact on child poverty of introducing such a scheme; and if he will make a statement. [85797]

Dawn Primarolo: This information is not available except at disproportionate cost.

EDUCATION AND SKILLS

Access to Work Scheme

Roger Berry: To ask the Secretary of State for Education and Skills how many disabled staff in his Department received support through the Access to Work scheme *(a)* in each of the last five years and *(b)* in 2006-07. [82225]

Mr. Dhanda: The Department does not collect information about the Access to Work scheme in the form requested centrally and it could be obtained only at disproportionate cost. Since 2003, my Department has provided assistance for its disabled staff from its own reasonable adjustments fund. This fund has assisted over 500 staff.

Adult Education

Sarah Teather: To ask the Secretary of State for Education and Skills how many colleges have made representations to the Department in the last 12 months concerning *(a)* adult education courses being cut and *(b)* places on such courses being reduced due to funding pressures. [81698]

Bill Rammell: Our records for the last 12 months indicate that we have received 221 letters from MPs on a range of FE funding issues including proposed changes to adult courses. Some letters from MPs include correspondence forwarded from FE college principals and in addition to these letters we have received 18 letters directly from FE college principles on FE funding issues.

We do not have records of any representations made in person by or on behalf of colleges. However, both I and my colleagues have regular meetings with providers and stakeholders including representative organisations such as the Association of Colleges and the Association of Learning Providers about adult education.

Bullying

Mr. Spring: To ask the Secretary of State for Education and Skills how many incidents of bullying were recorded in *(a)* primary and *(b)* secondary schools in Suffolk in each of the last five years. [85542]

Jim Knight: We are unable to provide this information because we do not collect these data centrally. However, individual schools may record incidents of bullying and some local authorities keep records for their own area, which we welcome as best practice within our anti-bullying guidance to schools, "Don't Suffer in Silence".

Since 2003-04, however, we have collected data on the reasons for exclusions from schools. In the 2004-05 academic year, 130 pupils were permanently excluded and 7,680 were given fixed period exclusions for bullying. This information comes from the Statistical First Release on "Permanent and Fixed Period Exclusion from Schools and Exclusion Appeals in England, 2004/05".

Anne Snelgrove: To ask the Secretary of State for Education and Skills how many incidents of bullying of teachers by *(a)* their peers and *(b)* management have been reported in each year since 1997; and if he will make a statement. [85433]

Jim Knight: The Department for Education and Skills does not record the information that my hon. Friend has requested. Bullying of teachers by anyone is unacceptable. Teachers who feel that they have been subjected to bullying should report incidents to their employer and, where appropriate, their professional association immediately.

Chat Rooms

Annette Brooke: To ask the Secretary of State for Education and Skills what discussions he had with the Home Department on vetting chat room moderators on the internet prior to the publication of the Safeguarding Vulnerable Groups Bill. [84123]

Mr. Dhanda *[holding answer 10 July 2006]:* There has been a series of discussions between DfES and Home Office officials about the provisions in the Bill for vetting chat room moderators. These discussions have also included representatives of the industry. They have been helpful in clarifying the extent of the vetting requirement.

Children Leaving Care

Rosie Cooper: To ask the Secretary of State for Education and Skills what proportion of young people who left care in the last 12 months in West Lancashire constituency are in education, training or employment. [83538]

Mr. Dhanda: Information on the proportion of young people who left care in the last 12 months who are in education, training or employment is not collected by the Department for Education and Skills (DfES). However, the following table shows information on care leavers on their 19th birthday who were looked after in their 17th year and is available at national level and for the local authority of Lancashire. Information is not available at constituency level.

Activity on 19th birthday of care leavers who were looked after on 1 April 2002 aged 16 (in their 17th year) or over in the year ending 31 March 2005 [1,2]

Numbers and percentages

	Care leavers on 19th birthday	*In education, training or employment*	*Percentage in education, training or employment*
England (National)	5,200	3,100	59

Activity on 19th birthday of care leavers who were looked after on 1 April 2002 aged 16 (in their 17th year) or over in the year ending 31 March 2005 [1,2]

Numbers and percentages

	Care leavers on 19th birthday	*In education, training or employment*	*Percentage in education, training or employment*
Lancashire (local authority)	100	45	47

[1] *Source:*
DfES—Figures are taken from the SSDA903 return which since 2003-04 covered all looked after children. Excerpt from Table 22 of the Statistical Volume on Children looked after by Local Authorities Year Ending 31 March 2005—Volume 2: Local Authorities

[2] Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.

Note:
To maintain the confidentiality of each individual child, data at national level are rounded to the nearest 100 if they exceed 1,000 to the nearest 10 otherwise. At local authority level, data are rounded to the nearest 5.

Rosie Cooper: To ask the Secretary of State for Education and Skills what the average age of children leaving care was in West Lancashire constituency in *(a)* 2004 and *(b)* 2005. [83539]

Mr. Dhanda: The following table shows the average age of children leaving care in Lancashire in 2004 and 2005. Information at constituency level is not collected centrally.

Children who ceased to be looked after during the years ending 31 March 2004 and 2005 by average age at end of latest period of care [1,2,3]

year:month

	2003-04	*2004-05*
England (National)		
Average age at end of stay (yr:mth)	10:7	10:9
Lancashire (local authority)		
Average age at end of stay (yr:mth)	11:2	10:6

[1] *Source:*
DfES—Figures are taken from the SSDA903 return which since 2003-04 covered all looked after children.

[2] Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.

[3] To maintain the confidentiality of each individual child, data at national level are rounded to the nearest 100 if they exceed 1,000 to the nearest 10 otherwise.
At local authority level data are rounded to the nearest 5.

Rosie Cooper: To ask the Secretary of State for Education and Skills how many children left care in West Lancashire constituency in *(a)* 2004 and *(b)* 2005; and how many have left in 2006. [83541]

Mr. Dhanda: The following table shows the number of children leaving care in Lancashire in 2004 and 2005. Information for 2006 will be available at local authority level in March 2007. Information at constituency level is not collected centrally.

Children who ceased to be looked after during the years ending 31 March 2004 and 2005 by average age at end of latest period of care [1,2]

Number

	2003-04	*2004-05*
England (national)	25,800	25,600
Lancashire (local authority)	525	515

[1] Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.

[2] To maintain the confidentiality of each individual child, data at national level are rounded to the nearest 100 if they exceed 1,000, to the nearest 10 otherwise. At local authority level data are rounded to the nearest 5.

Source:
DfES—Figures are taken from the SSDA903 return which since 2003-04 covered all looked after children.

Rosie Cooper: To ask the Secretary of State for Education and Skills how many young people in West Lancashire who left care in 2005 stayed in *(a)* their own house, *(b)* with friends and *(c)* in hostel or bed and breakfast accommodation. [83555]

Mr. Dhanda: Information on young people who left care in 2005 is not available by the breakdown requested. However, the following table shows how many young people in Lancashire who left care in 2005 had as their last placement, a placement in *(a)* an independent living, *(b)* with own parents and *(c)* in home and hostels. Note that a placement in independent living includes staying in a flat, or staying in lodgings without supported staff, staying in a bed and breakfast and finally staying with friends. Information at constituency level is not collected centrally.

Children who ceased to be looked after in 2005 whose last placement was in independent livings, with own parents or in homes and hostels[1]

Number

	Placements[2]				
	All children[3]	*Independent livings*[4]	*Own parents*[5]	*Homes and hostels*[6]	*Others*[7]
England (national)	25,600	1,500	2,500	2,500	19,100
Lancashire (local authority)	515	25	65	80	340

[1] Historical data may differ from older publications. This is mainly due to the implementation of amendments and corrections sent by some local authorities after the publication date of previous materials.

[2] To maintain the confidentiality of each individual child, data at national level are rounded to the nearest 100 if they exceed 1,000, to the nearest 10 otherwise. At local authority level data are rounded to the nearest 5. As a consequence of our rounding and suppression, figures may not sum to the total.

[3] Total number of children looked after who left care in 2005.

[4] Independent livings include in flat or lodgings without formal support staff, or in bedsit, B&B, or with friends.

[5] Own parents means placed with own parents or other person with parental responsibility.

[6] Homes and hostels inside and outside local authority boundary.
[7] "Others" include looked after children placed for adoption, in foster placement with relatives or friends, in other foster placements provided by the local authority or provided by an agency, in residential employment, in secure units, in residential accommodation not subject to regulation, in other residential care home, in schools, in temporary placements, children missing from placements, children missing from care and other placements not listed above.
Source:
DfES—Figures are taken from the SSDA903 return which since 2003-04 covered all looked after children.

Rosie Cooper: To ask the Secretary of State for Education and Skills what support services are available to young people leaving care in West Lancashire to help them deal with the financial and practical aspects of independent living. [83556]

Mr. Dhanda: Services to care leavers in Lancashire are provided directly by Lancashire county council. Services for care leavers in West Lancashire are co-ordinated by the county's south area leaving care team which supports young people who live in a wide area, from Skelmersdale to the boundaries of Preston and Southport.

Every care leaver must have a pathway plan based on an assessment of their personal needs, setting out the services that will be necessary to support them to greater independence. Leaving care services in the West Lancashire area draw on a wide range of professional staff to contribute to the support of individual care leavers including foster carers, children's home staff, social workers, specialist leaving care staff, Connexions staff and specialist welfare rights and housing staff. Care leavers in West Lancashire also have opportunities to take up work experience arranged by the Looked After Children Employment Skills (LACES) project.

The exact level of financial support provided to any care leaver will be recorded in the individual's pathway plan. Up until the age of eighteen, the local authority will usually be his/her primary source of income. Lancashire, as is the case for other local authorities, is responsible for funding accommodation, maintenance and other expenses (e.g. travel and leisure costs). Once care leavers reach 18, they are entitled to have access to the same mainstream arrangements for obtaining financial help as other young people. It will be the role of their leaving care personal adviser to assist them to access this help. However Lancashire, as the responsible local authority, has a continuing duty to provide assistance, for as long as the young person remains in an approved programme, with the costs of education or training.

Rosie Cooper: To ask the Secretary of State for Education and Skills how many *(a)* leaving-care workers and *(b)* personal advisors are available to young people leaving care in West Lancashire constituency; and how regularly they have contact with individual clients on average. [83557]

Mr. Dhanda: Services to care leavers in Lancashire are provided directly by Lancashire county council. Services for care leavers in West Lancashire are provided by the south area leaving care team. This team comprises a manager, one qualified social worker, one support worker, two leaving care co-ordinators and an administrator. Two members on this team are specifically available to provide support as leaving care personal advisers.

The level of contact that is maintained with each individual care leaver depends on their personal needs. In Lancashire, where young people entitled to care leaving services continue to remain looked after by the local authority, their social workers must visit at least every three months. However, when young people are being actively prepared to leave care, contact will be far more frequent than this and where a young person requires intensive support, contact might take place several times a week. The team estimates that, on average, all care leavers in West Lancashire are seen at least fortnightly.

Young people are also able to make contact with the leaving care team without formal appointments. They make regular contact by phone, occasionally write letters or e-mail and increasingly prefer to communicate by text message. All young people have their social worker's mobile phone number and if they leave a message in working hours their social worker will aim to respond the same day.

Children's Centres

Mr. Francois: To ask the Secretary of State for Education and Skills how much has been spent on children's centres in each year since 2003. [84789]

Beverley Hughes: The delivery of first phase children's centres began in 2003-04, with expenditure during this period totalling £2.2 million capital and £1.9 million revenue. For the period 2004-06, local authorities were allocated £111 million revenue and £315 million capital funding for children's centres.

In addition to this funding, we allocated £313 million capital to Sure Start Local Programmes (SSLP) in 2004-06 and we expect that most of this budget would have been used to facilitate SSLPs to become children's centres.

Class Sizes

Chris Huhne: To ask the Secretary of State for Education and Skills what estimate he has made of class sizes in *(a)* primary and *(b)* secondary schools in (i) rural and (ii) non-rural areas in each year since 1997; and if he will make a statement. [84635]

Jim Knight: The information requested is shown in the table.

Maintained primary and secondary schools[1]: average size of one teacher classes 1997-2006—England

	Maintained primary		Maintained secondary	
	Urban areas	Rural areas	Urban areas	Rural areas
1997[2]	27.8	26.3	21.7	21.5
1998[3]	27.9	26.6	21.7	21.7
1999[4]	27.7	26.3	21.8	21.9
2000	27.4	25.9	22.0	22.0
2001	26.9	25.4	22.0	22.1
2002	26.6	24.9	21.9	22.0
2003	26.6	24.9	21.9	22.0
2004	26.5	25.0	21.8	22.0

Maintained primary and secondary schools[1]: average size of one teacher classes 1997-2006—England

	Maintained primary		Maintained secondary	
	Urban areas	Rural areas	Urban areas	Rural areas
2005	26.5	25.0	21.6	21.9
2006	26.6	25.0	21.4	21.7

[1] Includes middle schools as deemed
[2] Excludes three primary schools for which there is no urban/rural indicator
[3] Excludes six primary schools for which there is no urban/rural indicator
[4] Excludes three primary and three secondary schools for which there is no urban/rural indicator.
Source:
Schools Census

Deaf Children

Rosie Cooper: To ask the Secretary of State for Education and Skills how many and what proportion of deaf 11-year-olds achieved level 4 at Key Stage 2 in *(a)* reading, *(b)* writing and *(c)* mathematics in (i) West Lancashire and (ii) Lancashire in each year since 1996. [83559]

Mr. Dhanda: We cannot provide information relating specifically to deaf pupils. However, in 2004 information on type of Special Educational Need (SEN) was collected for the first time via the Pupil Level Annual School Census for those pupils at "School Action Plus" and with statements of SEN. The "type of SEN" indicator includes a category for those pupils with Hearing Impairment, and information for the pupils who have Hearing Impairment listed as their primary SEN is provided in the following table. Other pupils with statements of SEN or School Action Plus who may have a hearing impairment but for whom this is not listed as their primary SEN are not included in this table.

KS2 achievements for 11-year-old pupils[1] at School Action Plus and with statements of SEN, with hearing impairments as their Primary SEN, in all maintained schools, 2003/04 to 2004/05[2]

	Lancashire LEA[3]		England	
	2004/05	2003/04	2004/05	2003/04
Number of eligible 11-year-old pupils[4] in reading	48	31	1,486	970
Number achieving level 4+ in reading[5]	30	17	911	478
Percentage achieving level 4+ in reading	62.5	54.8	61.3	49.3
Number of eligible 11-year-old pupils[4] in writing	48	31	1,486	970
Number achieving level 4+ in writing[5]	24	8	565	309
Percentage achieving level 4+ in writing	50.0	25.8	38.0	31.9
Number of eligible 11-year-old pupils[4] in maths	48	31	1,503	975
Number achieving level 4+ in maths[5]	29	15	793	426
Percentage achieving level 4+ in maths	60.4	48.4	52.8	43.7

[1] Number of KS2 eligible pupils with a valid result.
[2] Including attempts and achievement in previous academic years.
[3] Figures for West Lancashire have not been provided as the number of pupils involved is too small.
[4] Numbers relate to pupils with a statement of SEN or School Action Plus and with hearing impairment as their primary SEN who were eligible for the KS2 test.
[5] Maths results are checked by schools as part of the checking exercise for the Primary School Achievement and Attainment Tables. Reading and writing results are not checked by schools.

Departmental Publications

Mr. Amess: To ask the Secretary of State for Education and Skills if he will list the unnumbered Command Papers produced by his Department in each Session since 1976; by what means (a) hon. Members and *(b)* members of the public can (i) inspect and (ii) obtain copies; and if he will make a statement. [81293]

Bill Rammell: Documents which are laid before Parliament as unnumbered Command Papers are generally restricted to Explanatory Notes to Treaties, Explanatory Memorandum to Statutory Instruments and some Treasury Minutes. All other documents are published in the numbered Command Papers series.

A complete list of unnumbered Command Papers can only be produced at disproportionate cost.

Copies of all unnumbered Command Papers are made available via the Vote Office.

Departmental Staff (Sickness Absence)

David Simpson: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 June 2006, *Official Report*, column 644W, on departmental staff, how many members of staff in his Department have had two or more periods of sickness of less than five days in both of the years for which he provided figures. [84034]

Mr. Dhanda: In 2005,1,264 members of staff had two or more periods of sickness of less than five days; in 2004, the number was 1,389. In addition, there were 1,461 in 2003.

David Simpson: To ask the Secretary of State for Education and Skills pursuant to the answer of 7 June 2006, *Official Report*, column 644W, on departmental staff, why there are no records of the number of periods of sickness absence of less than five days prior to 2004. [84035]

Mr. Dhanda: I am now able to give the information requested for 2003. It is set out in the following table.

2003

Periods of sick leave of less than five days	Number of staff
2	677
3	384
4	201

Periods of sick leave of less than five days	2003 Number of staff
5+	219
Total	1,481

Edison Schools

Sarah Teather: To ask the Secretary of State for Education and Skills what *(a)* meetings Ministers have held and *(b)* correspondence Ministers have exchanged with Edison Schools in the last two years. [81716]

Jim Knight: Lord Andrew Adonis had a breakfast meeting with Chris Whittle of Edison Schools on 1 December. To the best of our knowledge, there have been no other meetings or correspondence between Ministers and Edison Schools. A visit was made to Thorpe Bay School, Southend, by the then Secretary of State my right hon. Friend the Member for Bolton, West (Ruth Kelly) in January 2006. Thorpe Bay School has benefited from school improvement support from Edison, but we are not aware that the Secretary of State met any Edison representative on this occasion.

Education Funding

Mr. Ruffley: To ask the Secretary of State for Education and Skills what the total recurrent funding per pupil was in real terms for each local education authority in each year from 1998-99 to 2006-07. [84909]

Jim Knight: The available information has been placed in the House Library.

Environmental Standards

Chris Huhne: To ask the Secretary of State for Education and Skills whether his Department *(a)* is committed to the achievement of environmental management to ISO 14001 standard and *(b)* has been externally certified as in compliance with that standard; and if he will make a statement. [81182]

Mr. Dhanda: The New Framework for Sustainable Development in Government (the framework) targets mandate Government to have Environmental Management Systems based, or modelled upon, a recognised system.

The Department has commissioned consultants to introduce a Sustainable Operations Management System (SOMS) into all DfES HQ buildings in this financial year.

The new system will be based upon the ISO 14001:2004 standard but is not currently required to achieve accreditation to that standard.

Further Education

Mr. Evennett: To ask the Secretary of State for Education and Skills how many students from the London borough of Bexley applied for *(a)* university, *(b)* college and *(c)* other further education places in (i) 2003-04 and (ii) 2004-05. [84875]

Bill Rammell: Information on applicants to undergraduate courses is collected by the Universities and Colleges Admissions Service (UCAS). The figures cover students who apply to full-time courses via UCAS, but they exclude students who apply to part-time courses and those who apply for full-time courses directly to institutions.

Data on the number of students living in the London borough of Bexley applying to full time undergraduate courses through UCAS are given in the table.

There is no comparable central organisation which processes applications for further education courses; students apply directly to the relevant FE institution.

Applicants from the London borough of Bexley applying through UCAS for full time undergraduate courses at UK institutions

Year of entry	Applicants
2003 entry	1,314
2004 entry	1,273

Source:
Universities and Colleges Admissions Service (UCAS)

In terms of the students from Bexley actually enrolling on courses, the available information covering enrolments at English further education institutions and full-time and part-time undergraduate entrants at UK higher education institutions is given in the table.

Students[1] from the London borough of Bexley at further and higher education institutions

Type of Institution	2003/04	2004/05
Learners at FE institutions:		
General FE and tertiary	4,880	9,170
Sixth form college	30	90
Other college	245	370
External institution	1,495	2,940
Entrants to HE institutions	2,060	2,135

[1] Covers students on both full-time and part-time courses.
Council (LSC) Individualised Learner record (ILR).
HE entrant figures are on a HESA Standard Registration Population basis.
Figures have been rounded to the nearest 5.

Higher Education Statistics Agency (HESA) student record data and the Learning and Skills Council.

Gap Years

Mr. Boris Johnson: To ask the Secretary of State for Education and Skills what research his Department has commissioned on a potential link between the taking of gap years and university non-completion rates. [84639]

Bill Rammell: The Department has not commissioned any research in recent years which was specifically focused on the potential link between taking gap years and university non-completion rates. However, there have been two studies in the past four years which provide relevant information.

The first, "Dropping Out: A Study of Early Leavers from Higher Education" (DfES, RR386, December 2002), surveyed around 1,500 early leavers from HE. Just under a quarter cited "mistaken choice of course" as the most important influence on withdrawal. The survey also noted that:

"Many respondents felt that they had been pushed by their schools to enter university. They instead felt that they would have benefited from a year out of education to think about their choices more carefully and to enter HE with greater maturity."

The second, "Review of Gap Year Provision" (DfES, RR555, July 2004), provided a comprehensive summary

and analysis of existing literature and research into gap years. It noted a range of benefits of gap years to individuals, employers and society. These included "improved educational performance". However, it did identify a couple of studies which suggested that

"a break in academic work and routine may have negative effects on motivation and progress."

It noted that some university careers support services make reference to this and offer advice on how gap year applicants might address this on arriving at university.

GCSE

Mr. Hayes: To ask the Secretary of State for Education and Skills what percentage of pupils achieved nine or more grade A passes at GCSE in each year since 1997, broken down by type of secondary school. [84246]

Jim Knight: The following table shows the percentage of 15-year-old pupils[1] achieving nine or more GCSEs at grade A or A* in each year since 1997, broken down by school type[2].

	1997	1998	1999	2000	2001	2002	2003	2004	2005
Community School	1.2	1.4	1.7	1.9	1.9	2.0	1.9	2.0	2.3
Voluntary Aided School	2.3	2.4	3.7	4.3	4.3	4.7	4.9	5.2	5.8
Voluntary Controlled school	2.7	3.0	3.7	4.4	4.4	4.4	4.6	4.7	5.9
Foundation School	2.8	3.4	3.3	4.1	4.1	4.4	4.6	4.8	5.1
City Technology College	2.5	2.4	2.5	3.8	3.8	4.4	4.3	5.2	5.3
City Academy	—	—	—	—	—	—	0.0	0.3	0.2
Community Special School	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0
Foundation Special School	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0
Non Maintained Special School	0.2	0.2	0.0	0.0	0.0	0.5	0.3	0.5	0.5
Independent Special School[3]	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0
Independent School	14.7	16.9	18.6	20.1	20.1	20.8	21.6	21.7	22.4
Hospital School and PRU[4]	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0
All Schools	2.6	3.0	3.4	3.9	3.9	4.0	4.1	4.3	5.1

[1] Pupils aged 15 at the start of the academic year, i.e. 31 August.
[2] Institution type as recorded through secondary school achievement and attainment tables.
[3] Independent special school approved to take pupils with special educational needs. [4] Including community and foundation hospital schools and pupil referral units.

Gifted and Talented Students

Ms Butler: To ask the Secretary of State for Education and Skills how many children from each school in Brent are members of the National Academy for Gifted and Talented Youth Scheme. [85429]

Jim Knight: The number of members of National Academy for Gifted and Talented Youth (NAGTY) in each maintained school in Brent is set out in the following table. Membership of NAGTY is available to pupils aged 11-19 in the top 5 per cent. of the ability range.

Brent local authority area schools	*NAGTY members*
Academy	
Capital City Academy	18
Secondary—community	
Wembley High Technology College	28
Secondary—foundation	
Alperton Community School	2
Claremont High School	0
Copeland (A Specialist Science Community College)	18
John Kelly Boys' Technology College	0
John Kelly Girls' Technology College	48
Kingsbury High School	32
Preston Manor High School	92
Queen's Park Community School	66
Secondary—voluntary aided	
Cardinal Hinsley High School	0
Convent of Jesus and Mary Language College	36
JFS School	5
St. Gregory RC High School	68
Total NAGTY membership in Brent	413

David T.C. Davies: To ask the Secretary of State for Education and Skills what provision his Department makes for the development of gifted and talented students. [84800]

Jim Knight: The Department has a wide-ranging strategy in place to improve gifted and talented education with national support provided by the National Academy for Gifted and Talented Youth (NAGTY) at the University of Warwick. The recent White Paper "Higher Standards, Better Standards, Better Schools for All" sets out the next stages of this programme, including development of a national register of gifted and talented pupils and an expert teacher in every secondary school and for every group of primary schools.

Individual Learning Accounts

Mr. Hoban: To ask the Secretary of State for Education and Skills how much was spent on individual learning accounts in each year from the scheme's inception to its closure; how many accounts were set up in each year; and if he will make a statement. [85556]

Phil Hope: As at November 2001, some 2.6 million individuals in England had opened an individual learning account through the national framework launched in September 2000. Of these, over 347,000 were opened during 2000. (Prior to the launch of the national framework, over 200,000 members applied via TECs, of whom, nearly 80,000 transferred their membership to the national framework and are included in the overall total.)

Total expenditure to the point of closure was £261 million, the majority representing payments to learning providers but also including Capita contract payments, development pilots and other related programme costs. The Department paid learning providers £223 million from the inception of the scheme to its closure. £31.1 million of this was paid during 2000 and £191.9 million during 2001.

Key design principles of the national ILA framework were to encourage more people into learning by helping to tackle the financial barriers to learning and to allow people to take responsibility for their own learning. ILAs were not intended to be a guarantee of quality for learning or learning providers. Nevertheless, many account holders who used their account to book a course stated that the learning met or exceeded their expectations (York Consulting Research Report 295). The Government initially made the decision to withdraw the programme in light of an increasing number of complaints. Subsequently, Ministers closed the programme early because of the compelling and growing evidence of abuse.

Kings Copse Primary School

Chris Huhne: To ask the Secretary of State for Education and Skills what criteria have been taken into account in the advice of the school playing field advisory panel not to redevelop the Kings Copse primary school, in Hedge End, Southampton; what account was taken of educational provision for Hedge End as a whole; and if he will make a statement. [85949]

Jim Knight: The Government remain committed to protecting school playing fields. In this respect there is a general presumption against the need to change the current pattern of school playing field provision by disposal or change of use. However, some playing fields can be genuinely surplus and it can make sense to allow them to be sold and the proceeds used to provide new or improved sports or education facilities.

In the first instance, applications to dispose of school playing fields are considered by the independent school playing fields advisory panel. Each application is considered against strict criteria. Briefly, these fall under three headings which can be described as schools' needs, community use, and finance.

In this particular case, the panel considered that Hampshire county council's application in respect of Kings Copse primary school failed to demonstrate how the schools' needs and finance criteria would be met.

In accordance with normal procedure Hampshire county council will be given an opportunity to address the panel's concerns at its next meeting on 7 September 2006.

Learning and Skills Council

Sarah Teather: To ask the Secretary of State for Education and Skills what proportion of Learning and Skills Council funded learners aged over 19 years are studying for a *(a)* level 1, *(b)* level 2, *(c)* level 3, *(d)* level 4 and *(e)* other qualifications; and what proportion are not studying for a qualification. [81803]

Bill Rammell: The Learning and Skills Council (LSC) funds learning which is (a) for externally accredited qualifications, (b) for qualifications which are not externally accredited (e.g. college certificated) and (c) non-qualification based.

It is possible to distinguish learning programmes by level—even where that learning is non-qualification based. That is shown in the table which gives the number (in thousands) and proportion of learners aged 19 and over on LSC funded Further Education (FE), Work Based Learning (WBL) and Adult and Community Learning (ACL —now know as personal and community development learning (PCDL)) provision in 2004-05.

Highest qualification level of learner	*WBL learners (thousand)*	*WBL (percentage)*	*FE learners (thousand)*	*FE (percentage)*	*ACL learners (thousand)*	*ACL (percentage)*
Level 1 and Entry	3	1	1,489	43	814	91
Level 2	118	52	968	28	58	7
Level 3	103	45	475	14	14	2
Level 4, 5 and HE	3	1	70	2	0	0
Level not specified	0	0	475	14	4	0

However, it is not possible to fully distinguish between qualification and non-qualification based learning across all LSC funded learning. Non-accredited learning is currently funded mainly through safeguard personal and community development funding (PCDL), but also within WBL and FE. In WBL, Entry to Employment (a programme of other training and life skills for learners not in employment) has been introduced in response to the Cassells Review of Modern Apprenticeships. Funding for internally certificated learning is also available through FE institutions. Additionally, courses co-financed with European funding are not necessarily qualification based.

However, in 2004-05 it is estimated that 39 per cent. of FE learners and 98 per cent. of PCDL learners were taking non-externally accredited courses (which could be either qualifications which are not externally accredited or non-qualification based).

Missing Children

Mr. Steen: To ask the Secretary of State for Education and Skills how many children born abroad have gone missing from local authority care in each of the last three years. [82617]

Mr. Dhanda *[holding answer 5 July 2006]:* Information about the numbers of unaccompanied asylum seeking children who have been looked after from 2002 to 2005 and the numbers of these who have gone missing from their agreed care placement for more than 24 hours is shown in the following table.

Number of unaccompanied asylum seeking children (UASC) looked after and number with at least one missing placement in the years ending 31 March 2003-05[1,2]

	Number of UASC looked after	*Number with at least one missing placement*[1]
2002-03	2,400	50
2003-04	2,900	70
2004-05	2,900	90

[1] A 'missing' placement is defined as a child being absent from their agreed placement for over 24 hours.
[2] Children looked after who went missing more than once in the years ending 31 March 2003 until 2005 were only counted once.
Notes:
1. Figures exclude any children whose asylum seeking status ceased before going missing.
2. For the purpose of preserving confidentiality, national figures have been rounded to the nearest 100 if they exceed 1,000 and to the nearest 10 otherwise.

Local authorities may also be responsible for looking after other foreign nationals from time to time. Data about this group of children, in terms of missing from placement data by foreign country of birth, are not collected centrally.

Outdoor Learning

Mary Creagh: To ask the Secretary of State for Education and Skills (1) when he expects to publish guidance for schools on safety and education outside the classroom; [84748]

(2) what recent discussions his Department has had with teaching unions about outdoor learning and pupil safety. [84749]

Mr. Dhanda: We expect to publish the Education Outside the Classroom Manifesto in the new school term. It will contain information about good safety management, and references to other relevant documents. A number of teaching unions responded to the public consultation on the draft vision and aims for the Education Outside the Classroom Manifesto that ran from November 2005 to February 2006. We will consult them further on next steps in relation to safety guidance once the manifesto is published.

Out-of-school Clubs

Mr. Hoban: To ask the Secretary of State for Education and Skills how much has been spent on out-of-school clubs as part of the National Childcare Strategy in each year since 1997; how many clubs received funding in each year; how often children attended such clubs in each year; and if he will make a statement. [85467]

Beverley Hughes: As part of the National Childcare Strategy, the Department has made funding available to local authorities since 1999 for childcare provision of a range of types, including out-of-school clubs. However, information on expenditure specifically for out-of-school clubs, or attendance at such clubs, is not held centrally.

Overseas Students

Mr. Djanogly: To ask the Secretary of State for Education and Skills how many students from *(a)* mainland China, *(b)* Hong Kong, *(c)* Macao, *(d)* Taiwan and *(e)* Singapore are estimated to be studying in the United Kingdom. [84701]

Bill Rammell: The latest available information is given in the table:

Students from Selected Countries[1] *Enrolled at UK Higher Education Institutions, 2004/05*

Country	*Number*
China (People's Republic of)	52,680
Hong Kong	10,780
Macao	145
Taiwan	5,880
Singapore	3,630

[1] Refers to the country of the student's permanent or home address prior to entry to the programme of study.
Notes:
1. Figures are on a HESA Standard Registration Population basis.
2. Figures have been rounded to the nearest 5.
Source:
Higher Education Statistics Agency (HESA) student record data.

Parliamentary Questions

Mr. Amess: To ask the Secretary of State for Education and Skills how many parliamentary questions tabled to his Department were awaiting a reply on 10 July 2006; which of those had been waiting longer than *(a)* two and *(b)* three weeks for a reply; and what the reason for the delay was in each case. [85203]

Mr. Dhanda: The Department's parliamentary question tracking system is unable to break down the data as requested. The answer could be supplied only at a disproportionate cost.

Departments aim to ensure that Members receive a substantive response to their named day question on the named day, and endeavour to answer ordinary written questions within a working week of being tabled.

Pathfinder Grants

Mr. Hurd: To ask the Secretary of State for Education and Skills what the value of Government pathfinder grants offered to Greater London local authorities was in *(a)* 2004 and *(b)* 2005, broken down by local authority. [84376]

Jim Knight: The following table shows the value of significant Government pathfinder grants offered to Greater London authorities by the DfES in 2004 and 2005. In some cases resource was allocated over two years and separate figures for the two years are not available.

Pathfinder grants made available to Greater London authorities by DfES in 2004-05 and 2005-06[1]

£

[1] No money was paid out for diversity pathfinders in either year.
[2] Pathfinder ended in 2004-05.
[3] Partly paid through Learning and Skills Council.
[4] Pathfinder began in 2005-06.
Notes:
1. Includes £116 million of PFI credits.
2. Includes £58 million of PFI credits.

Primary Teachers

Greg Mulholland: To ask the Secretary of State for Education and Skills whether there is an oversupply of qualified primary school teachers. [86009]

Jim Knight: On a national basis there is no evidence of oversupply, but there will of course be differences between regions. The table shows that most regions do have vacancies for primary teachers.

A survey conducted by the Training and Development Agency for Schools this year among 6,590 newly qualified primary teachers showed that 95 per cent. had teaching jobs.

This Department periodically reviews the need for teachers in future years and this informs the number of training places that will be offered. The model takes account of such factors as falling pupil rolls, retirements and teachers returning to the profession after having children.

Table 4: Full-time vacancy[1] rates in LA maintained nursery and primary schools in England by grade and Government Office Region: January of each year

	Vacancies as a percentage of teachers in post[2]										*Number of vacancies*
	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006 (p)*	*2006 (p)*

Total vacancies (numbers)	1,090	1,390	1,370	1,420	2,110	1,800	1,110	780	740	700	

(p) Provisional

[1] Advertised vacancies for full-time permanent appointments (or appointments of at least one term's duration). Includes vacancies being filled on a temporary basis of less than one term.

[2] Teachers in post include full-time qualified regular teachers in (or on secondment from) maintained nursery and primary schools, plus the primary portion of full-time regular divided service, peripatetic, advisory and miscellaneous teachers.

[3] The number of teachers in post by grade is from the 618g survey for 2001 onwards, previous years were estimated using the Database of Teacher Records.

[4] The role of assistant head was created in 2001.

[5] The 2006 vacancy rates for the inner and the outer London weighting areas are 1.3 per cent. and 0.6 per cent. respectively, (in 2005 they were 1.2 per cent and 0.8per cent). Totals may not appear to equal the sum of the component parts because of rounding.

618g survey

Private Finance Initiative

Grant Shapps: To ask the Secretary of State for Education and Skills by what total amount private finance initiative projects, for which his Department is responsible, that went over budget did so in each of the last five years; and if he will make a statement. [83651]

Jim Knight: The Department for Education and Skills does not itself undertake private finance initiative (PFI) projects. PFI projects for the provision of schools are delivered through contracts between local authorities and private sector contractors.

There are currently 100 such projects with signed contracts covering over 800 schools. The names, locations and other details of these schools can be accessed at www.teachernet.gov.uk/pfi.

A key aspect of the private finance initiative is that the risk of projects going over budget in the construction phase is transferred to the private sector contractor and we do not have information on any such costs that may have accrued to various private sector contractors for this reason. The public sector does not pay anything until the contracted services are available and thereafter payments are linked to satisfactory performance and availability.

School Meals

Mr. McGovern: To ask the Secretary of State for Education and Skills (1) what steps he is taking to reduce the quantity of trans fats present in school meals; [84714]

(2) whether he has set a maximum limit for the amount of trans fats to be present in school meals. [84718]

Mr. Dhanda *[holding answer 12 July 2006]:* The School Meals Review Panel considered the need for a specific standard for trans-fatty acids to be included within their proposals, and concluded against imposing a specific standard for the following reasons:

Evidence shows that adult intakes of trans-fatty acids are well below the maximum threshold level for health;

Adopting a standard to limit the fat content of school meals would contribute towards controlling levels of trans-fatty acids; and

Food-based standards would include restrictions on foods which tend to be higher in trans-fatty acids (for example, savoury snacks and confectionery).

The School Food Trust supported the panel's view that their proposals would sufficiently control trans-fatty acids, and that there was no need to develop a specific standard for trans-fatty acids which had the potential to complicate the new standards unnecessarily, making it more difficult for schools and local authorities to implement them.

School Places Appeals

Mr. Lancaster: To ask the Secretary of State for Education and Skills how many appeals have been made by parents to Milton Keynes council in each of the last five years over the award of school places; and how many of these appeals were successful. [84918]

Jim Knight *[holding answer 13 July 2006]:* The information requested is shown in the table.

Appeals lodged by parents against non-admission of their children to maintained primary and secondary schools—each academic year 2000-01 to 2004-05—Milton Keynes local authority area

	Maintained primary				
		Appeals heard		Appeals decided in parents favour	
	Admission appeals lodged by parents	Number[1]	Percentage	Number	Percentage[2]
2000/01	50	39	78.0	17	43.6
2001/02	132	87	65.9	25	28.7
2002/03	78	53	67.9	11	20.8
2003/04	80	60	75.0	20	33.3
2004/05	101	63	62.4	31	49.2

	Maintained secondary				
		Appeals heard		Appeals decided in parents favour	
	Admission appeals lodged by parents	Number	Percentage[1]	Number	Percentage[2]
2000/01	230	207	90.0	92	44.4
2001/02	125	90	72.0	29	32.2
2002/03	227	205	90.3	90	43.9
2003/04	200	170	85.0	50	29.4
2004/05	424	371	87.5	127	34.2

[1] Number of appeals heard by a committee expressed as a percentage of the number of appeals lodged by parents. [2] Number of appeals decided in parents' favour expressed as a percentage of the number of appeals heard by a committee. *Source:* Schools Census and Admission Appeals Survey

School Staff (Assaults)

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills how many assaults on school staff were recorded in each local education authority in the last year for which figures are available; and what each figure represents in terms of assaults on staff per thousand pupils. [83989]

Jim Knight *[holding answer 10 July 2006]:* The number of assaults on school staff is not collected centrally.

For the academic year 2004/05, information is available on the reasons for pupil exclusions. These reasons include "physical assault against an adult". A local authority breakdown of the number of pupils who have been excluded from school (permanently or for a fixed period) for physical assault against an adult, together with total numbers of exclusions, is given in the following table.

Maintained primary, secondary and special schools[1,2]. Permanent and fixed period exclusions for physical assault against an adult[3] and total number of exclusions (all reasons) numbers and rates per thousand pupils 2004/05: by local authority area

			Permanent exclusions			
		Number of pupils on roll[4]	Exclusions for physical assault against an adult	Exclusions per 1,000 pupils[5]	Total number of exclusions (all reasons)	Total exclusions per 1,000 pupils[5]
	England	7,606,040	1,270	0.2	9,400	1.2
	North East	398,660	90	0.2	460	1.2

n/a = not available.

[1] Includes middle schools as deemed.

[2] Includes maintained special schools, excludes non—maintained special schools.

[3] The distribution of exclusions by reason has been derived from the Termly Exclusions survey and applied to the number of permanent exclusions as confirmed by LEAs as part of the Schools census checking exercise.

[4] The number (headcount) of all pupils (excluding dually registered pupils) in January 2005.

[5] The number of exclusions in 2004/05 divided by how many thousands of pupils were on roll in January 2005.

[6] Less than 3, or a rate based on less than 3.

[7] Less than 5, or a rate based on less than 5.

[8] The reasons for permanent exclusions are not available for Waltham Forest and City of London.

Notes:

1. National and regional totals and total number of exclusions have been rounded to the nearest 10.
2. Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

Schools (Employee Vetting)

Mr. Kidney: To ask the Secretary of State for Education and Skills what guidance his Department gives schools on the subject of vetting potential employees; and what changes to this guidance are planned should the Safeguarding Vulnerable Groups Bill be passed. [84517]

Mr. Dhanda: Pre-appointment vetting checks are necessary to ensure that people who are appointed to work with children are safe to do so. My Department's guidance to schools on the vetting of potential employees is contained in "Child Protection: Preventing Unsuitable People from Working with Children in the Education Service" (May 2002) and "Criminal Records Bureau: Managing the Demand for Disclosures" (December 2002).

As the Secretary of State announced on 20 June, we are preparing consolidated guidance to replace these documents. This will be issued for consultation shortly.

The guidance will be further revised in the light of the requirements placed on schools by the Safeguarding Vulnerable Groups Bill.

Schools Sports

Mr. Andy Reed: To ask the Secretary of State for Education and Skills what criteria Ofsted uses to assess school sporting provision. [81590]

Jim Knight: This is a matter for Ofsted. HM Chief Inspector, Maurice Smith, has written to my hon. Friend and a copy of his reply has been placed in the Library.

Letter from Maurice J. Smith dated 5 July 2006:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for reply.

You asked what criteria Ofsted use to assess school sporting provision.

Since September 2005 Ofsted's school inspections have focused on the school's overall effectiveness. During one of these inspections Ofsted inspects sports provision in a very general way as part of the inspection of the quality of education provided. There is not a specific focus on physical education unless it is a particularly important subject in the school. Schools with specialist sports college status, for example, will have their distinctive aims and characteristics taken into account and the extent to which the specialist aims are met.

'Every child matters: The Framework for the inspection of schools in England from September 2005 sets out the principles for school inspections. The guidance outlines what inspection will cover and the work that inspectors need to do. This common inspection schedule for schools and other post-1 provision is supported by non-statutory guidance, published in two parts:

Guidance on using the schedule

Guidance on conducting inspections.

The Guidance on using the schedule contains specific criteria and benchmarks to support inspectors in knowing where to pitch their judgments. Equally, they should be an aid to schools in the process of self-evaluation. The amount of evidence on physical education will vary according to the priorities and focus of the inspection.

In addition to section five inspections, Ofsted has a new subject inspection programme which, in the case of physical education, involves 30 primary and 30 secondary schools each year. Every third year a report on physical education is published using the accumulated evidence from these visits. The first is due in 2008. General guidance is provided for the HMI and additional inspectors who are involved with this programme. Ofsted is currently developing subject-specific guidance which exists in draft form. The contents are intended to help inspectors and all other staff to evaluate standards and achievement, quality of provision, leadership and management and other factors that might have a bearing on what learners achieve in physical education. For example, when reporting on the standards achieved by pupils in physical education inspectors:

interpret test, examination results and awards gained by pupils

judge the standards of work seen, highlighting what pupils do well and could do better

evaluate how well pupils are achieving, evaluating standards by the ends of the different key stages and highlighting any differences in achievement for different groups of pupils.

During the inspection, an inspector's view of standards is supplemented by:

examining pupils' targets in physical education and the basis on which they were set and progress towards achieving them any performance trends over time

identifying strengths and weaknesses in attainment against the knowledge, skills and understanding set out in the National Curriculum attainment target.

Grade characteristics are illustrated in order to help inspectors make judgments. For example, when judging standards in physical education to be good, inspectors will look for the following characteristics:

Standards achieved in examination courses are good, above national averages or as reflected in contextual value added. Standards show upward trends over time. Learners' skills, knowledge and understanding in most of the four aspects of the attainment target and across most areas of activity are good. The progress of the great majority of learners, across key stages, is good and for some it is very good, and show that almost all achieve well compared with their prior attainment and ability in physical education, and compared with those in similar schools.

When making judgements on standards and achievement, inspectors will also look for evidence on the 10 high quality outcomes promoted by the Physical Education, School Sport and Club Links (PESSCL) strategy.

Most subject inspections focus on a specific subject issue, identified from the previous inspection, performance data or as part of a specific survey on, for example, the PESSCL strategy. For the subject 'issue' being inspected, a single grade is required and for this the general grade criteria have been interpreted in terms of the particular issue. Guidance pages are provided for each issue to support grading.

A copy of this reply has been sent to Jim Knight and will be placed in the Library of both Houses.

Sign Language

Kerry McCarthy: To ask the Secretary of State for Education and Skills what provision there is for British sign language in the school curriculum; and what plans he has for changes to that provision. [85370]

Jim Knight: British sign language is not recognised as a foreign language for the purposes of the national curriculum, or for the prospective entitlement for pupils learning a language at Key Stage 2. Schools may, however, choose to offer pupils the opportunity to study British sign language over and above the national curriculum requirements. We have no plans to change this.

Somali Children

Jeremy Corbyn: To ask the Secretary of State for Education and Skills what estimate he has made of the

number of Somali children in *(a)* primary and *(b)* secondary education in each education authority in England. [84949]

Jim Knight: The requested information is not held centrally.

As part of the Pupil Level Annual Schools Census (PLASC), schools are required to record ethnicity data to reflect the main categories used in the 2001 National Population Census. Children of Somali ethnic origin are recorded under the category of "Black African". Following a consultation exercise in 2002, local authorities (LAs) were given the option of using extended ethnicity categories in their schools if they felt that the main ones did not meet their local management needs. The extended ethnicity categories do include a separate "Somali" code but not all LAs have chosen to use the extended categories. The majority of authorities use a mixture of main and extended codes and, therefore, the Department does not hold complete data for the extended ethnic background categories.

Specialist School Teachers

Chris Huhne: To ask the Secretary of State for Education and Skills (1) what estimate his Department has made of the number of vacancies for trained specialist school teachers in *(a)* English, *(b)* mathematics, *(c)* science, *(d)* modern languages and *(e)* information and communications technologies in rural areas in the most recent period for which figures are available; and if he will make a statement; [84964]

(2) how many *(a)* vacancies and *(b)* temporary replacements there were for head teachers in (i) rural and (ii) non-rural areas in the most recent period for which figures are available; and if he will make a statement. [84965]

Jim Knight: The information requested is not available in the required format because vacancy level information is collected from a local authority rather than a school level survey and it is not possible to define which of these vacancies are in schools in rural and non-rural areas or which relate to specialist schools.

Table 1 provides the number of full-time classroom teacher vacancies in local authority maintained secondary schools in England in English, mathematics, science, languages and information technology in January 2006.

Table 1: Full-time classroom teacher vacancy[1] rates in local authority maintained secondary schools in England by subject, January 2006

	[2]Number of vacancies 2006
English	160
Mathematics	190
All sciences	210
Languages	40
Information Technology	90

[1] Advertised vacancies for full-time permanent appointments (or appointments of at least one term's duration). Includes vacancies being filled on a temporary basis of less than one term.
[2] Provisional.
Figures are rounded to the nearest 10.
Source:
Survey of teachers in service and teacher vacancies, (618g)

Table 2 shows the number of full-time head teacher vacancies and full-time temporarily filled head teacher posts in local authority maintained schools in England in January 2006. For comparison with table 1, it also shows figures for maintained secondary schools only.

Table 2: Full-time head teacher vacancies and full-time temporarily filled head teacher posts in local authority maintained schools in England, January 2006[2]

	All maintained schools	*Maintained secondary schools*
Full-time head teacher vacancies	180	30
Full-time temporarily filled head teacher posts[1]	660	80

[1] Temporarily-filled full-time permanent appointments. The definition used is wider than the vacancy definition (bullet points (b) and (c) below are in addition to the normal vacancy definition). A post is included in this row of the table:
a. where there is no incumbent who is expected to return to the post;
b. whether or not filled on a temporary basis, i.e. either without a contract or on a contract of les than one year;
c. whether or not advertised;
d. where an appointment has been made by not yet taken up.
[2] Provisional
Figures are rounded to the nearest 10.

Survey of teachers in service and teacher vacancies, (618g)

Student Finance

Dr. Cable: To ask the Secretary of State for Education and Skills what guidance has been given to employers regarding the repayment of income-contingent student loans; and if he will make a statement. [84693]

Bill Rammell: Her Majesty's Revenue and Customs (HMRC) issues a booklet entitled "Collection of Student Loans", which outlines an employer's responsibilities in relation to making student loan deductions from pay and tables which show how much they should deduct. This guidance is available in hardcopy or employers can access it via HMRC's employer website. Employers are also able to obtain help and further guidance from the HMRC Employer Helpline and face-to-face advice is available at regular HMRC employer events.

Dr. Cable: To ask the Secretary of State for Education and Skills how many graduates contacted the Student Loans Company because they believe they were paying too much of their income-contingent student loan back in the last year for which figures are available; and if he will make a statement. [84695]

Bill Rammell: The information requested is not available. While the Student Loans Company does record information about categories of inquiries made by customers at individual account level, it is unable to provide a global picture to this level of detail.

Dr. Cable: To ask the Secretary of State for Education and Skills how many graduates are repaying student loans on a self-assessment basis; and if he will make a statement. [84696]

Bill Rammell: As at June 2006, Her Majesty's Revenue and Customs (HMRC) reports that 5,400[1] borrowers are recorded as repaying on a self-assessment basis (self-employed). An additional 80,700[1] borrowers are recorded as repaying under both PAYE and self-assessment arrangements (self-assessment and in employment). These figures reflect the status at the point at which HMRC originally matched the borrowers to taxpayer records.

[1] Numbers are rounded to the nearest hundred.

Student Numbers

Fiona Mactaggart: To ask the Secretary of State for Education and Skills which local authorities had an increase in the number of students in *(a)* Key Stage 3 and *(b)* Key Stage 4 between 2001 and 2005. [85776]

Jim Knight: The available information has been placed in the Library.

This shows that 83 local authorities have reported an increase in the number of pupils in the Key Stage 3 age group between 2001 and 2005; and over the same period, 126 local authorities have reported an increase in the number of pupils in the Key Stage 4 age group.

Chris Huhne: To ask the Secretary of State for Education and Skills what proportion of students continued full-time education after the age of 16 years from comprehensive secondary schools of *(a)* fewer than 100, *(b)* 100-199, *(c)* 200-299, *(d)* 300-399, *(e)* 400-499, *(f)* 500-599, *(g)* 600-700 and *(h)* over 700 students in (i) rural areas and (ii) non-rural areas in the last period for which figures are available; and if he will make a statement. [85946]

Jim Knight: This information is not available. The Youth Cohort Study (YCS) estimates that overall 70 per cent. of young people in England who had attended a comprehensive school in year 11 in 2002/03 were in full-time education in the spring following completion of compulsory education. Neither the breakdown by size of school or rural/non-rural area is available from the YCS.

Teacher Recruitment

Greg Mulholland: To ask the Secretary of State for Education and Skills how much was spent on Government media advertisements and promotional activities seeking to attract people to the teaching profession in each of the last five years. [86013]

Jim Knight: The costs below relate to the costs of advertising media and include TV, press, radio, magazine, online and outdoor advertising. All costs include VAT.

	£
2001-2002	6,648,414
2002-2003	7,761,572
2003-2004	8,620,899
2004-2005	7,815,576
2005-2006	8,101,055

The key advertising objective is to increase the number of able and committed people recruited to teaching, particularly in the secondary priority subjects (mathematics, sciences, modern languages, religious education, music, design and technology and information and communications technology). The last five years have seen successive increases in the numbers of people entering initial teacher training.

Newly Qualified Teachers

Greg Mulholland: To ask the Secretary of State for Education and Skills how many newly qualified teachers had not taken up full-time teaching posts one year after qualification in each of the last five years. [86010]

Jim Knight: Information on the number of newly qualified teachers in service is available for March of each year. The latest information available is March 2004. The following table provides the number of teachers who attained qualified teacher status (QTS) in each year from 1999 to 2003 and the number of those who were not in full-time service in March of the following year. This number will include those in part time service.

The proportion of qualifiers without teaching service usually falls substantially over the first year or two after qualification, and in the long-term has been around 9-10 per cent.

Teachers gaining qualified teacher status (QTS)[1] in England: 1999 to 2003, service position in March of the following year.

	Calendar year of qualification				
	1999	*2000*	*2001*	*2002[2]*	*2003[1,2]*
Total gaining QTS[3]	24,190	21,880	21,870	23,050	24,580
Of these[4]					
In full-time maintained sector service in England	16,590	15,690	16,650	17,510	17,510
In full-time service elsewhere[5]	920	790	730	800	900
Not in full-time service	6,690	5,390	4,490	4,740	6,170

[1] Provisional data.
[2] Numbers in service are likely to be underestimated due to the late receipt of service information.
[3] Excludes teachers qualifying through employment based routes.
[4] The service position shown is at the first March following the year of qualification.
[5] In service in Wales or Further and Independent sector service in England and Wales.

Database of Teacher Records

Teachers (Bristol)

Kerry McCarthy: To ask the Secretary of State for Education and Skills how many full-time equivalent qualified teachers were employed within *(a)* primary

and *(b)* secondary schools in Bristol local education authority in (i) 1996-97 and (ii) the most recent school year for which figures are available. [84610]

Jim Knight: The table shows the full-time equivalent number of regular qualified teachers who were employed in maintained nursery/primary and secondary schools in Bristol local authority in January 1997 and 2005, the latest information available. The table also shows figures for England for comparison.

It is anticipated that local authority level information for January 2006 will be published in September.

Full-time equivalent regular qualified teachers in maintained nursery and primary and secondary schools in Bristol local authority and England in January 1997 and 2005

	Nursery/primary		*Secondary*	
	Bristol	*England*	*Bristol*	*England*
1997	1,540	190,660	1,120	187,660
2005	1,390	189,920	1,070	204,080

Note:
Figures are rounded to the nearest 10.
Source:
Survey of teachers in service and teacher vacancies, (618g)

Kerry McCarthy: To ask the Secretary of State for Education and Skills what percentage of teaching posts were filled by supply, temporary and agency teachers in *(a)* primary and *(b)* secondary schools in Bristol local education authority in (i) 1996-97 and (ii) the most recent school year for which figures are available. [84611]

Jim Knight: The information requested is not available in the required format because the number of teaching posts in Bristol local authority is not collected centrally.

The table provides the number of occasional teachers (on contracts of less than one month) who were employed in maintained nursery/primary and secondary schools in Bristol local authority and England in January 1997 and 2005, the latest information available. The full-time equivalent number of regular qualified teachers is also provided.

It is anticipated that local authority level teacher numbers for January 2006 will be published in September.

Number of occasional teachers (on contracts of less than one month) and full-time equivalent regular qualified teachers in maintained nursery/primary and secondary schools in Bristol local authority and England in January 1997 and 2005

	Nursery/primary				*Secondary*			
	Occasional teachers[1]		*FTE regular qualified teachers*[2]		*Occasional teachers*[1]		*FTE regular qualified teachers*[2]	
	Bristol	*England*	*Bristol*	*England*	*Bristol*	*England*	*Bristol*	*England*
1997	110	8,310	1,540	190,660	60	4,390	1,120	187,660
2005	90	8,570	1,390	189,920	40	5,700	1,070	204,080

[1] 2005 figures include occasional teachers without qualified teacher status (QTS).
[2] Excludes occasional teachers.
Note:

University for Industry

Mr. Hoban: To ask the Secretary of State for Education and Skills how much has been spent on the University for Industry in each year since it opened; how many people graduated in each year; and if he will make a statement. [85557]

Bill Rammell: Figures for 2001-02 onwards are:

	£ million
2001-02	153.7
2002-03	164.9
2003-04	239.6
2004-05	181.9
2005-06	[1]209.4
2006-07	[2]176.3

[1] Estimated outturn
[2] Planned

Full details of UFI funding are available only from 2001-02 onwards. Prior to 2001-02 funding was made available through the FEFC, for which we do not hold information. UFI (initially called the "University for Industry"), the organisation responsible for learndirect, has successfully pushed the boundaries of learning methods, by making innovative use of technology to make learning more flexible. It is the largest Government supported e-learning initiative in the world, and provides high quality learning for the post-16 learning and skills sector. It particularly reaches those with few or no skills and qualifications who are unlikely to participate in more traditional forms of learning. It is not an awarding body and does not have the status of a university.

Since 1999, more than 2 million people have improved their skills either at a learndirect centre, from work, or from their home computer. Since April 2003, over 120,000 people have achieved their first skills for life test pass in literacy or numeracy through learndirect. UFI is now delivering over one fifth of the post-19 sector's skills for life test passes annually. Almost 200,000 small and medium sized employers have also used learndirect services. The learndirect advice service has delivered more than 33 million information and advice sessions on the telephone and online.

DEFENCE

Access to Work Scheme

Roger Berry: To ask the Secretary of State for Defence how many disabled staff in his Department received support through the Access to Work scheme *(a)* in each of the last five years and *(b)* in 2006-07. [82224]

Mr. Watson: The Ministry of Defence makes full use of the Access to Work scheme in assessing the needs of its disabled staff for reasonable adjustments in the workplace. However, it does not collect the numbers of disabled staff receiving adaptations and equipment paid for by Access to Work, and this information could be provided only at disproportionate cost.

Afghanistan

Mr. Clifton-Brown: To ask the Secretary of State for Defence what progress International Security Assistance Force forces have made in implementing the NATO counter-narcotics operation in Afghanistan agreed in November 2005. [83218]

Mr. Ingram: Under the terms of NATO's operational plan for the International Security Assistance Force (ISAF), ISAF forces can provide, within means and capabilities, training and operational support to Afghan counter-narcotics forces. But they are not there to take direct action against the drugs trade or to eradicate opium poppy in the fields; that is a job for the Afghan Government.

Airborne Stand Off Radar

Dr. Fox: To ask the Secretary of State for Defence how many aircraft equipped with Airborne Stand Off Radar are in service. [84575]

Mr. Ingram: There are currently no aircraft equipped with Airborne Stand Off Radar in service.

Aircraft Carriers

Dr. Fox: To ask the Secretary of State for Defence if he will make a statement on progress regarding the Future Aircraft Carrier programme. [84548]

Mr. Ingram: I refer the hon. Member to the written ministerial statement made by my right hon. Friend the then Secretary of State for Defence on 14 December 2005, and to the answer I gave to the hon. Member for Wellingborough (Mr. Bone) on 6 February 2006, *Official Report*, column 824W, which outlined the major steps taken in our plans for the future aircraft carriers including details of our co-operation with France.

My noble Friend Lord Drayson, the Minister for Defence Procurement, subsequently announced that on 13 April the Aircraft Carrier Alliance signed a formal Alliance Agreement and individual works contracts totalling more than £140 million to continue to refine and mature all aspects of the ship design and its equipment, including mission systems. These contracts and the Alliance Agreement cover the key demonstration phase of the work and involve shipyards and industry in maturing the design to the point at which we can commit to manufacture. When we are satisfied that all this work is sufficiently mature, the main investment decision can be taken and orders placed. At this point, we will also set the in-service dates.

Approved Projects

Mr. Hancock: To ask the Secretary of State for Defence how many approved projects fell into each approval category in 2005-06; and what the aggregated approved expenditure was for each category. [84433]

Mr. Ingram: The following table details the number of approved projects that fell into categories A to C in 2005-06 and the aggregated approved expenditure for each category.

Category	*Number of projects*	*Aggregated approved expenditure (£ million)*
A	43	20,247
B	29	954
C	32	456

Records on category D approvals are not held centrally and the information requested could be provided only at disproportionate cost.

Armed Forces Pensions

Mr. Harper: To ask the Secretary of State for Defence pursuant to the written statement of 11 July 2006, *Official Report*, columns 60-61WS, on armed forces invaliding pensions, what his Department's policy is on the payment of interest on underpaid *(a)* pay and *(b)* pensions. [85743]

Mr. Watson: Any claims for compensation as a result of incorrect payments are considered in accordance with Government accounting procedures. The general principle adopted is that the individual may be recompensed where it can be shown that a financial loss has occurred through maladministration.

Those affected by the pension error that I announced on 11 July 2006, *Official Report*, columns 60-61 WS, will receive, in addition to any back payments due, interest in accordance with Government accounting rules. The Department is currently considering whether any additional recompense should be paid when the errors are corrected.

Mr. Harper: To ask the Secretary of State for Defence pursuant to the written statement of 11 July 2006, *Official Report*, columns 60-61WS, on armed

forces invaliding pensions, what research his Department has undertaken into the proposed merger of the Armed Forces Personnel Administration Agency and the Veterans Agency; what his assessment is of the *(a)* advantages and *(b)* disadvantages of such a merger; and what assessment he has made of the likely effect of such a merger on Joint Personnel Administration. [85744]

Mr. Watson: I refer the hon. Member to the ministerial statement I made on 17 July 2006.

Mr. Harper: To ask the Secretary of State for Defence pursuant to the written statement of 11 July 2006, *Official Report*, columns 60-1WS, on armed forces invaliding pensions, when the error was found; what assessment he has made of the likelihood of further errors being uncovered; and what his estimate is of the financial liability arising from the errors. [85745]

Mr. Watson: The error was found while making payments to rectify pension errors under Projects Haven and Scribe during the period 2003-06. As these projects moved towards a conclusion, specialist resources were freed up to scope this new problem. In view of the work that has been done to review pension files, the likelihood of further errors being uncovered is low, and robust arrangements have been put in place to prevent similar problems occurring in the future.

The total pension arrears payable are estimated to be some £8.8 million plus interest, and I shall be considering as a matter of priority whether additional recompense is appropriate.

Mr. Harper: To ask the Secretary of State for Defence what his assessment is of the impact of increased life expectancy on the integrity and affordability of the Armed Forces Pension Scheme; and if he will make a statement. [85115]

Mr. Watson: New entrants to the armed forces on or after 6 April 2005 have joined the new Armed Forces Pension Scheme 2005. The impact of recent improvements in life expectancy was fully taken into account in developing the benefit structure of this scheme, including by setting a preserved pension age at 65. There have also been changes to the benefit structure of the old pension scheme, the Armed Forces Pension Scheme 1975, to ensure its long term affordability. The age at which a preserved pension is paid was delayed from 60 to 65 for all service, from 6 April 2006. Some of these savings were reinvested in the scheme in the form of an increase in the death in service lump sum to three times pay. The impact of changing life expectancy and other relevant factors is monitored by the Government Actuary's Department, the actuary for the schemes, through regular assessments of the employer's contribution for the two AFPS schemes.

Army Continuous Attitude Survey

Nick Harvey: To ask the Secretary of State for Defence pursuant to the answer of 20 June 2006, *Official Report*, column 1708W, on the Army Continuous Attitude Survey, why the categories included in question 66 of the seventh Serving Personnel survey 'I didn't believe anything would be done if I did complain' and 'I thought that it would cause problems in my workplace' have been omitted from the ninth Serving Personnel survey. [84895]

Mr. Watson: I refer the hon. Gentleman to my answer of 6 July 2006, *Official Report*, column 1352W. Whereas question 66 in the seventh Serving Personnel survey provided a menu of possible responses, question 39c in the ninth Serving Personnel survey is an open-ended question, and does not offer a menu of responses. This approach is designed to provide a richer source of data by enabling respondents to answer the question in their own terms. The breakdown of negative comments in my answer of 6 July reflects an analysis of actual responses to question 39c conducted by occupational scientists. A sample of respondents' comments was extracted and similar types were summarised into a category. Categories were arranged under appropriate headings to provide a coding framework, which was validated using a further sample of comments. Respondents typically made more than one comment and all comments were read and assigned the relevant code(s) to calculate their frequencies.

Army Personnel (Basing)

Mr. Hancock: To ask the Secretary of State for Defence how many Army personnel are based in each Government office region of England. [84437]

Mr. Watson: The strength of United Kingdom regular forces posted in the UK by Government office region is available in tri-service publication (TSP) 10—UK Regular Forces Distribution Across UK.

TSP 10 is published quarterly; the most recent publication shows the numbers of service personnel at 1 April 2006.

Copies of TSP 10 are held in the House of Commons Library and are also available at www.dasa.mod.uk.

Bearskins

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 12 June 2006, *Official Report*, column 996W, on bearskins, what research is taking place into producing alternatives to real bearskin; who is undertaking the research; and what the time scale is for completion of research contracts. [85293]

Mr. Ingram: At present the Ministry of Defence does not have a research contract for producing an alternative to real bearskin. A number of contracts have previously been let with commercial companies but none of these produced a useable product. A faux-fur sample has, however, been submitted by People for the Ethical Treatment of Animals (PETA) and this is currently being assessed for its suitability.

Chinook ZD 576 (Mull of Kintyre Crash)

Mr. Arbuthnot: To ask the Secretary of State for Defence if he will publish the reports into *(a)* incident signal 21/4/94 from No. 1 ECU (Engine) sent to Fleetlands for investigation, *(b)* incident signal 17/5/94

from No. 1 ECU (Engine) sent to third/fourth line for investigation and *(c)* incident signal 26/5/04 of the engine change units in the engines of Chinook ZD 576 in the weeks prior to the crash on the Mull of Kintyre on 2 June 1994; and whether these reports are consistent with the problems recorded in the aircraft log. [86019]

Mr. Ingram: Officials need to research archived records and I will therefore write to the right hon. Member and place a copy of my letter in the Library of the House.

Colombia

Mr. Hancock: To ask the Secretary of State for Defence pursuant to his answer of 3 July 2006, *Official Report*, column 703W, on Colombia, what types of explosive device training are being provided with UK military assistance. [85300]

Mr. Ingram: The type of training provided includes de-mining training and training in improvised explosive device disposal.

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 10 May 2006, *Official Report*, column 298W, on Colombia, for what reasons listing the financial value of bespoke counter-narcotics training provided to Colombia would damage *(a)* the safety of individuals, *(b)* the prevention and detection of crime and *(c)* international relations; and if he will make a statement. [83758]

Mr. Ingram: The bespoke counter-narcotics training provided by the Ministry of Defence is in support of HMG's wider engagement with Colombia on counter-narcotics matters.

Providing further information on this issue could endanger the safety of individuals and reduce the effectiveness of the Colombian law enforcement mission by raising the public profile of this counter-narcotics work, including in Colombia. It would also be contrary to the wishes of the Colombian authorities.

Combat Troops

Dr. Fox: To ask the Secretary of State for Defence how many combat troops have been provided by each contributing nation to *(a)* Operation Enduring Freedom and *(b)* the International Security Assistance Force. [84802]

Des Browne: The Commanding Officer of the International Security Assistance Force has confirmed that he has the forces required to do the job asked of him. The precise composition of the force package provided by nations in support of either Operation Enduring Freedom or the International Security Assistance Force is a matter for the nations concerned.

Comprehensive Spending Review

Mr. Harper: To ask the Secretary of State for Defence whether a new strategic defence review will be conducted before the forthcoming comprehensive spending review. [85112]

Des Browne: No.

CRV 7 Multi-Purpose Sub Munition

Nick Harvey: To ask the Secretary of State for Defence (1) whether the UK attack helicopters in Afghanistan are equipped with the CRV 7 Multi-Purpose Sub Munition; [83978]

(2) what use has been made of the CRV 7 Multi-Purpose Sub Munition in combat in each of the last 10 years. [83980]

Mr. Ingram: The Multi-Purpose Sub Munition variant of the CRV 7 system is one of the weapons systems available for use by Apache Mk 1 Attack Helicopters in Afghanistan.

As at 10 July 2006 no use has been made of the CRV 7 Multi Purpose Sub Munition in combat by any element of UK armed forces since it came into service in 2003.

Defence Food Supply Contract

Mr. Spellar: To ask the Secretary of State for Defence pursuant to his written statement of 27 June 2006, *Official Report*, column 5WS, on the Defence Food Supply Contract, what percentage of the meat supplied to British troops will be from British farms. [83933]

Mr. Ingram: The new food supply contact will commence on 1 October 2006. Transitional arrangements are still being discussed with the contractor, Purple Foodservice Solutions. At this stage we are therefore unable to provide the information requested.

Defence Information Structure

Mr. Hancock: To ask the Secretary of State for Defence how many additional payments have been agreed with the contractors for the Defence Information Infrastructure project since the contract was issued; to whom such payments *(a)* have been made and *(b)* are to be made; how much has been paid and on what dates; and if he will make a statement. [83716]

Mr. Ingram: All payments in respect of Increment 1 of the DII contract are and will be made to EDS as the prime contractor for DII. Payments are made through the service delivery charges of the contract. These charges are commercially sensitive and cannot be disclosed.

A range of changes to the Defence Information Infrastructure programme have taken place since contract award in March 2005. A level of change was always expected and is allowed for under the provisions of the contract. In terms of the overall value of Increment 1 of the DII contract the value of these changes is not significant.

Mr. Hancock: To ask the Secretary of State for Defence what the original *(a)* estimated costs and *(b)* in service delivery date were for the Defence Information Infrastructure project; and what the current situation is in each case. [83717]

Mr. Ingram: Increment 1 of the Defence Information Infrastructure contract was awarded to the ATLAS Consortium, led by EDS, in March 2005 with an estimated value of £2.3 billion. This estimated value remains extant. There is no "in service delivery date" as such within the contract. The contracted "New Services Commencement Date" was originally March 2006. This date was subsequently revised to May 2006 and was met successfully.

Helicopters

Mr. Hands: To ask the Secretary of State for Defence how many military helicopter flights there were in the airspace above the constituency of Hammersmith and Fulham in each of the last three years; and if he will make a statement. [84421]

Mr. Watson: This information is not centrally held. Although individual units hold details of all flight paths undertaken by their own helicopters this information is not centrally collated and could be provided only at disproportionate cost.

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* actual and *(b)* required number of helicopter crew personnel are for each regiment of the Army Air Corps. [84545]

Mr. Ingram: The number of actual and required helicopter crew personnel for each regular regiment of the Army Air Corps (AAC) is as follows:

Regiment	*Helicopter Crew Established (Required)*	*Helicopter Crew Held (Actual)*
1 Regt AAC	60	54
3 Regt AAC	85	57
4 Regt AAC	85	63
5 Regt AAC	93	64
9 Regt AAC	85	69

These figures include qualified helicopter instructors and regimental headquarters personnel, whose primary role is not as helicopter crew. The figures do not include aviation crewmen, such as air door gunners and winch operators, because this is not a long-term Career Employment Group. The established figure for 5 Regiment AAC will reduce to 31 by 1 April 2007, as part of the planned reductions in Northern Ireland. The deficits shown in the table in 3,4 and 9 Regiments AAC are mainly due to the re-roling of these regiments to Apache helicopters. As a consequence of re-roling, some aircrew are posted away for retraining.

Peter Viggers: To ask the Secretary of State for Defence if he will make a statement on the availability of spare engines for each type of helicopter in service with the armed forces. [85904]

Mr. Ingram: The number of spare engines held by the Ministry of Defence differs for each helicopter type and is determined by a number of factors including the size of the fleet, the scheduled training flying hour requirement, industrial considerations (e.g. the lead time to procure an engine) and operational requirements. At any one time, some engines may be undergoing repair and maintenance. We currently have sufficient spare engines to meet operational and training requirements for each helicopter type.

HMS Argyll

Dr. Julian Lewis: To ask the Secretary of State for Defence why HMS Argyll is not to be modified to operate the Merlin helicopter; and what the intended out-of-service date is for this vessel. [85380]

Mr. Ingram: The operational requirement is for 12 Type 23 frigates to be modified to operate the Merlin helicopter. The decision on which ships are to be modified is determined by the fitting opportunities within the frigate upkeep programme. HMS Argyll will not be modified as the requirement will be met by other frigates with earlier fitting opportunities within the upkeep programme. Should the programme change, the situation will be reviewed. On current plans HMS Argyll is due to be withdrawn from service in 2019.

Meal Budgets

David T.C. Davies: To ask the Secretary of State for Defence what the budget is per person per day for meals for members of the armed forces serving in *(a)* Iraq and *(b)* Afghanistan. [85099]

Mr. Ingram: The budget per person per day for meals for members of the armed forces serving in both Iraq and Afghanistan is currently £3.11 per day (July 2006 rate). It is intended to provide 2,900 calories per day, based on three meals per day. This Daily Messing Rate is based on a "basket" of food items, and is calculated on a monthly basis by applying prices obtained from the main Ministry of Defence Food Supply Contractor to the Home Ration Scale.

Meat Procurement

Mr. Clifton-Brown: To ask the Secretary of State for Defence what assessment he has made of his Department's procurement policy on *(a)* beef and *(b)* lamb for members of the British armed forces serving on the Falkland Islands. [85038]

Mr. Ingram: The procurement of meat in the Falkland Islands is consistent with the Ministry of Defence's wider procurement policy. In accordance with this policy, contractors are encouraged to purchase British produce whenever it is competitive and consistent with meeting quality standards. The MOD is, however, bound by European legislation, and is required to seek value for money in the Single European Market. The MOD's Food Supply Contractor sources all meat procured for use by the UK armed forces.

Merchant Naval Ships

Mr. Harper: To ask the Secretary of State for Defence what steps he takes to ensure that wrecks of merchant naval ships lost during hostilities are protected. [84826]

Mr. Watson: Issues relating to merchant vessels are in the first instance the responsibility of the Department for Transport.

The Ministry of Defence administers the Protection of Military Remains Act 1986, which allows it to protect from unauthorised interference the remains of aircraft and ships lost while in military service.

Whether an individual merchant vessel is eligible for designation under the Act depends on whether it can be said to have been "in military service". This will be a case-by-case determination, depending on the circumstances of the individual vessel's loss.

Military Afloat Reach and Sustainability Programme

Dr. Julian Lewis: To ask the Secretary of State for Defence what the *(a)* out-of-service date is for each Royal Fleet Auxiliary vessel due for decommissioning by 2025 and *(b)* scheduled in-service date is for each planned new vessel in the Military Afloat Reach and Sustainability programme. [85378]

Mr. Ingram: On current plans the RFA out-of-service dates are as follows:

	Date
RFA Sir Tristram	2006
RFA Sir Galahad	2006
RFA Grey Rover	2006
RFA Gold Rover	2009
RFA Brambleleaf	2009
RFA Orangeleaf	2009
RFA Black Rover	2010
RFA Oakleaf	2010
RFA Bayleaf	2010
RFA Sir Bedivere	2011
RFA Fort Rosalie	2013
RFA Fort Austin	2014
RFA Diligence	2014
RFA Fort George	2019
RFA Fort Victoria	2019
RFA Argus	2020

As with all projects, the in-service dates for the vessels in the Military Afloat Reach and Sustainability programme will only be set following the main investment decision. This decision has not yet been taken.

Military Equipment Exports

Mr. Hancock: To ask the Secretary of State for Defence whether he plans to supply the Government of Colombia with *(a)* military equipment and *(b)* other support in each of the next three years. [85294]

Mr. Ingram: The Ministry of Defence does not supply the Colombian armed forces with military equipment. We currently have no plans to alter this policy. I refer the hon. Member to my right hon. Friend the Secretary of State's reply on 3 July 2006, *Official Report*, column 703W.

Military Vehicles

Mr. Hancock: To ask the Secretary of State for Defence what plans he has to purchase mine-protected RG-31 vehicles, or variants thereof, for the Army. [81602]

Mr. Ingram: As my right hon. Friend the Secretary of State for Defence announced on 26 June we are conducting a review of the options for protected patrol vehicles to determine what can be done as soon as possible and in the longer term.

Mr. Hancock: To ask the Secretary of State for Defence what the wheelbase dimensions are of *(a)* the Snatch Land Rover, *(b)* the RG-31 and *(c)* variants of the RG-31; and if he will make a statement. [81603]

Ann Winterton: To ask the Secretary of State for Defence what the dimensions of the *(a)* Snatch armoured Land Rover, *(b)* RG-31M and *(c)* Tempest Truck, the Mine-Protected Vehicle are; what is the time for each vehicle to accelerate from stationary to normal cruising speed; what their maximum speeds are; and what their turning circles are. [80572]

Mr. Ingram: The information requested on Snatch, the Mine Protected Vehicle and RG-31 is:

Vehicle	*Length*	*Width*	*Height*	*Max Speed*	*Acceleration*	*Turning Circle*[1]
Snatch	4.80m	1.69m	2.37m	100km/h[2]	Not measured	12.8m
MPV[3]	6.28m	2.75m	3.04m	80km/h	Not measured	17m
RG-31[4]	6.40m	2.47m	2.84m	100km/h	Not stated	16m

[1] Kerb to kerb distance.
[2] For Snatch 2; Snatch 1 and 1.5 are slightly less. Since high speed is not a requirement for Snatch, its maximum speed has not been tested precisely.
[3] The vehicle chosen to replace Mamba as the Mine Protected Vehicle (MPV) was initially called Tempest but this name is no longer used and the in service vehicle, based on the Cougar vehicle produced by Force Protection Inc, is known simply as MPV.
[4] RG-31 is not in service with the UK armed forces, but this data was obtained from BAES during the ongoing review of our patrol vehicle capability.

Mr. Paterson: To ask the Secretary of State for Defence what the cost per track mile excluding crew costs is of operating *(a)* a Warrior MICV and *(b)* a RG-31M in Iraqi conditions. [82495]

Mr. Ingram: The full capitation cost for the Warrior Armoured Fighting Vehicle (all variants) based on peacetime usage is calculated for financial year 2006-07 as £154.04 per kilometre. Specific operational track mile data is not held centrally and

could be provided only at disproportionate cost. The Ministry of Defence does not own any RG-31M vehicles.

Phoenix UAV

Andrew Rosindell: To ask the Secretary of State for Defence how much the Phoenix unmanned aerial vehicle has cost since the programme's inception. [84268]

Mr. Ingram: The Phoenix unmanned aerial vehicle system has cost approximately £345 million since inception.

Premature Voluntary Releases

Mr. Harper: To ask the Secretary of State for Defence how many premature voluntary release exits there were from the regular *(a)* infantry, *(b)* Royal Artillery, *(c)* Royal Engineers, *(d)* Royal Corps of Signals, *(e)* Royal Armoured Corps, *(d)* Household Cavalry and *(e)* Royal Electrical Mechanical Engineers in each of the last five years. [85761]

Mr. Watson: Between 1 April 2001 and 31 March 2006, there were 18, 660 voluntary outflow release exits in these arms/services.

Voluntary outflow exits[1] (officers[2] and soldiers: 2001-02 to 2005-06

Arm/service	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*Total*
The Household Cavalry/Royal Armoured Corps	330	320	330	310	350	1,650
Royal Regiment of Artillery	410	390	430	450	420	2,100
Royal Corps of Engineers	560	500	530	660	660	2,910
Royal Corps of Signals	630	450	400	470	420	2,380
The Infantry	1,600	1,460	1,430	1,460	1,530	7,480
Royal Electrical and Mechanical Engineers	420	370	440	480	440	2,140
Total	3,950	3,500	3,550	3,830	3,830	18,660

[1] The term premature voluntary release (PVR) has been changed to voluntary outflow (VO) although the methodology for producing this information remains the same. voluntary outflow is defined as all exits from trained personnel which are generated by the individual before their time expiry.

[2] Figures for officers in the general staff (officers with the rank of colonel or above) are excluded.

Note:

Figures are rounded to the nearest 10. Due to rounding the totals may not equal the sum of the pans.

Private Land (Military Use)

Bill Wiggin: To ask the Secretary of State for Defence how many private sites are used for military exercises in Herefordshire; and whether rent is paid for use of such sites. [85225]

Mr. Watson: In financial year 2005-06, 161 sites were used for military training on private land in Herefordshire. So far this financial year, 92 sites have been used of which nine were for adventure training. The military training undertaken on private land in Herefordshire is primarily, though not exclusively, operational in nature rather than being designated exercises.

No rent is paid for military training on private land in Herefordshire, apart from camp site fees which are sometimes paid for adventure training exercises. Fees have been incurred for five of the adventure training exercises that have taken place this year.

The owners' permission is sought in advance of any training on private land.

Raptor Reconnaissance Pods

Dr. Fox: To ask the Secretary of State for Defence how many Raptor reconnaissance pods are fitted to Tornado aircraft. [84585]

Mr. Ingram: There are currently four Reconnaissance Airborne Pod Tornado pods undergoing acceptance flight trials for the Tornado GR4/4A. A further four pods are undergoing maintenance activity with the equipment manufacturer, Goodrich Company.

Recruitment

Mr. Hancock: To ask the Secretary of State for Defence how many people joined the Army from each Government office region of England in 2005. [84417]

Mr. Watson: Estimated soldier enlistments for 2005 are shown in the following table:

Government office region	*Enlistments*
North East	440
North West	1,870
Yorkshire and the Humber	1,160
East Midlands	730
West Midlands	990
East of England	700
London	590
South East	800
South West	860

Notes:

1. Figures have been rounded to the nearest 10. When rounding to the nearest 10, numbers ending in five have been rounded to the nearest multiple of 20 to prevent systematic bias.
2. Figures are based on the location of armed forces career office to which the applicant applied rather than the residence of the applicant. Due to the nature of Army officer recruitment procedures, it is not possible to provide an estimate for the number of Army officers recruited from each Government office region.

Reserve Forces

Mr. Brazier: To ask the Secretary of State for Defence what estimate he has made of the proportion of members of reserve forces who belong to ethnic minorities. [85489]

Mr. Watson *[holding answer 14 July 2006]:* The proportion of ethnic minorities[1] in the volunteer reserve forces for 1 April 2006[2]:

	Percentage
Tri-Service	4.5
Royal Navy Reserve	2.8
Royal Marines Reserve	2.7
Territorial Army[3]	4.7
Royal Auxiliary Air Force	3.1

[1] Ethnic minority proportions are calculated as a percentage of those personnel for whom we hold a record of ethnic origin, ie excluding those of unspecified ethnic origin.
[2] Due to the introduction of a new Personnel Administration System for RAF, all RAF data are for 1 March 2006.
[3] Figures include Mobilised TA personnel and University Officer Training Corps but exclude Non Regular Permanent Staff and Full Time Reserve Service personnel.

Royal Navy

Mr. Harper: To ask the Secretary of State for Defence how many serving naval *(a)* engineering mechanics, *(b)* submariner nuclear watchkeepers and *(c)* medical assistants there are; and what the requirement is for each category. [85753]

Mr. Watson: The requirement and numbers serving for engineering ratings, submariner nuclear watchkeepers and medical assistants, as at 1 June 2006, are:

Specialisation	Trained requirement	Trained strength	Untrained strength
Engineering ratings	10,020	9,670	1,580
Submariner nuclear watchkeepers	850	730	0
Medical assistants	680	640	70

Notes:
1. The Navy is currently restructuring the engineering branches, moving from the artificer/mechanic career streams to a single technician stream. This process is in mid transition, so no meaningful figures can be obtained for mechanics alone. The figures provided are for all ratings engineers (mechanics, technicians and artificers).
2. The figures for submariner nuclear watchkeepers are for the petty officer. Chief petty officer and warrant officer 2 ranks of the marine engineer (submariner) specialisations.
3. The figures for medical assistants are for the medical assistant (general service), medical assistant (submariner) and medical assistant (commando) specialisations.
4. The requirement relates to posts that need to be filled by trained personnel. To enable valid comparisons the "numbers serving" figures have been split into trained and untrained.
5. All figures are rounded to the nearest 10. Numbers ending in 5 have been rounded to the nearest multiple of 20 to prevent systematic bias.

Saudi Arabia

Mr. Keetch: To ask the Secretary of State for Defence what the value was of armaments purchased from the UK by the Government of Saudi Arabia in each year since 1997. [84347]

Mr. Ingram: Statistics on the value of exports of military equipment have been published by country for each year since 1997 in the Annual Report on Strategic Export Controls. It is planned to publish the Annual Report for 2005 towards the end of this month.

Service Children (Education)

Dr. Fox: To ask the Secretary of State for Defence what percentage of children in service children's education schools achieved three A-level passes each year since 1997. [83701]

Mr. Watson: Of the students who sat three or more A-level examinations at service children's education schools since 1997, the following percentages achieved a pass mark graded at A-E in three or more subjects:

	Percentage
1997	72
1998	84
1999	78
2000	94
2001	88
2002	98
2003	89
2004	91
2005	94

These figures relate to A-level examinations only and not A-level equivalent examinations which are becoming an increasingly common option for students.

Spectrum Utilisation

Mr. Harper: To ask the Secretary of State for Defence if he will list mobile and fixed linked bands that *(a)* were and *(b)* were not subject to spectrum pricing in each financial year from 2004-05. [83353]

Mr. Ingram: The bands subject to spectrum pricing in 2004-05 and 2005-06 and the basis of pricing were as follows:

2004-05			2005-06		
Band Min. (MHz)	Band Max. (MHz)	Pricing Basis	Band Min. (MHz)	Band Max. (MHz)	Pricing Basis
70	70.5	Mobile	70	70.5	Mobile
72.8	74.8	Mobile	72.8	74.8	Mobile
75.2	76.7	Mobile	75.2	76.7	Mobile
78	80	Mobile	78	80	Mobile
84	85	Mobile	83.5	85	Mobile
137	138	Mobile	137	138	Mobile
141.9	143	Mobile	141.9	143	Mobile
149	149.9	Mobile	149	149.9	Mobile
153.5	154	Mobile	153.5	154	Mobile
401	406	Mobile	401	406	Mobile

2004-05 Band Min. (MHz)	2004-05 Band Max. (MHz)	2004-05 Pricing Basis	2005-06 Band Min. (MHz)	2005-06 Band Max. (MHz)	2005-06 Pricing Basis
406.1	410	Mobile	406.1	410	Mobile
410	430	Mobile	410	430	Mobile
430	450	Mobile	430	450	Mobile
870	872	Mobile	870	872	Mobile
876	880	Mobile	876	880	Mobile
915	917	Mobile	915	917	Mobile
921	925	Mobile	921	925	Mobile
1375	1400	Fixed	1375	1400	Fixed
1427	1452	Fixed	1427	1452	Fixed
2025	2070	Fixed	2025	2070	Fixed
2200	2245	Fixed	2200	2245	Fixed
2290	2300	Fixed	Released to Ofcom		
2310	2390	Fixed	2310	2390	Mobile
2390	2450	Fixed	2390	2450	Mobile
3400	3600	Fixed	3400	3600	Fixed
4400	5000	Fixed	4400	5000	Fixed
5650	5850	Fixed	5650	5850	Fixed
7900	7975	Fixed	7900	7975	Fixed
8025	8400	Fixed	8025	8400	Fixed
8500	8750	Fixed	8500	8750	Fixed
8850	9000	Fixed	8850	9000	Fixed
9500	10125	Fixed	9500	10125	Fixed
10125	10225	Fixed	10125	10225	Fixed
10225	10475	Fixed	10225	10475	Fixed
10475	10500	Fixed	10475	10500	Fixed
13400	14000	Fixed	13400	14000	Fixed
14620	15230	Fixed	14620	15230	Fixed

Pricing for 2006-07 is yet to be concluded with Ofcom but it is expected that the priced bands and the basis (either fixed or mobile) for pricing will remain as in 2005-06.

The bands used by the MOD that are not subject to pricing other than the above are those available for military use that are listed in the United Kingdom Frequency Allocation Table (2004 Issue No. 13) that is issued by the National Frequency Planning Group on behalf of the Cabinet Official Committee on UK Spectrum Management.

Mr. Harper: To ask the Secretary of State for Defence what spectrum price was paid by his Department for the bands which it managed in each financial year from 2004-05; and what estimate he has made for each financial year from 2006-07 to 2009-10. [83354]

Mr. Ingram: The payments made to Ofcom for spectrum in each of the last two financial years were:

	£ million
2004-05	24
2005-06	55

The change in cost was as a result of agreements reached following a review of spectrum pricing policy and procedures.

A sum of £56 million has been allocated for spectrum expenditure in financial year 2006-07 but funding for subsequent years is still under discussion.

Type 23 Frigates (Sonar 2087)

Dr. Julian Lewis: To ask the Secretary of State for Defence what future roles are planned for the five Type 23 frigates which are not to be fitted with Sonar 2087; and what the scheduled out-of-service date is for each of these ships. [85382]

Mr. Ingram: HM Ships Montrose, Monmouth, Iron Duke, Lancaster and Argyll are not scheduled to receive Sonar 2087. These ships will be employed across the normal range of standing strategic, home and overseas commitments. These include Fleet Ready Escort duties around home waters, operational deployments to the Gulf and Arabian Sea, and standing tasks in the South Atlantic (APT(S)), Caribbean (APT(N)) and within NATO's Standing Maritime Group in the Mediterranean (SNMG2). They will also continue to contribute to the UK's Maritime Joint Rapid Reaction Force (JRRF) held at high readiness for contingent operations, and deploy on pre-planned activities as JRRF elements within a Task Group.

On current plans the ships will be withdrawn from service in:

	Date
HMS Argyll	2019
HMS Lancaster	2019
HMS Iron Duke	2020
HMS Monmouth	2021
HMS Montrose	2021

Veterans

Mr. Harper: To ask the Secretary of State for Defence what discussions he has had with the Secretary of State for Work and Pensions on ensuring that employers are informed of the skills that veterans bring to the workplace. [84822]

Mr. Watson: We have seen no need so far for specific discussions between my right hon. Friends the Secretaries of State for Defence and for Work and Pensions on ensuring that employers are informed of the skills of Service leavers. High rates of employment for Service leavers are already achieved through the Department's Career Transition Partnership (CTP) as part of the resettlement process. Of those who wish to work and are eligible for the service, over 50 per cent. are in employment within one month of discharge, rising to about 95 per cent. six months post-discharge.

The CTP commercial partner, Right Management Ltd. is a highly experienced outplacement company with a proven track record. It has a very effective marketing arm that carefully targets prospective employers who can offer quality jobs to Service leavers. Those employers who engage Service leavers are seldom disappointed and tend to seek more when vacancies arise.

The cultivation of prospective employers is a continuing process, not only for Right Management but for all others involved in the resettlement of departing Service personnel. It is an area of further

development under the new CTP contract, with particular emphasis on tying together, at both local and national level, jobs and resettlement training opportunities and exploiting those who have passed successfully through the CTP process to attain posts of influence in civilian employment.

For the minority of early Service leavers who are not eligible for CTP services, a resettlement briefing is provided which signposts employment help available from Other Government Departments and ex-Service charities: contacts are arranged on their behalf as necessary, and these are followed up by the briefing officer. This group of early leavers is also assessed for vulnerability to social exclusion and extra help is given where this is identified as a concern. The effectiveness of these arrangements is being kept under review.

Mr. Harper: To ask the Secretary of State for Defence what recent discussions he has had with the Secretary of State for Health on meeting the health needs of veterans through the NHS. [84823]

Mr. Watson: There have been no recent discussions on the subject between Secretaries of State. Since 1948, it has been the policy of successive Governments that health care for veterans should be provided by the NHS. Priority NHS treatment applies to veterans who are war pensioners for their accepted disorders. Officials in the Ministry of Defence and the four UK Health Departments work closely together, and they are at present developing delivery models to ensure high quality mental health services for veterans across the UK. My predecessors and I have been closely briefed on this and other work in the area of veterans' health. Should there be any issues following this work, or otherwise, I will discuss these with Ministers from the Department of Health and devolved Administrations through the Veterans Ministerial Task Force, as appropriate.

Mr. Harper: To ask the Secretary of State for Defence what assistance is given to service personnel leaving the armed forces on finding appropriate housing; and what guidance has been given to housing authorities on assisting service personnel. [84824]

Mr. Watson: Assistance is given through such schemes as Long Service Advance of Pay and advice offered by the Joint Services Housing Advice Office. Guidance is available to local authorities generally about the allocation of accommodation, the provision of homelessness assistance and the prevention of rough sleeping. This includes guidance on the circumstances when people leaving the armed forces would have a priority need for accommodation.

Mr. Harper: To ask the Secretary of State for Defence what research his Department is undertaking into *(a)* homelessness among veterans and *(b)* veterans in prison; and if he will make a statement. [84827]

Mr. Watson: The Ex-Service Action Group, of which the Ministry of Defence and the Department for Communities and Local Government are members, has commissioned research to look into the effectiveness of interventions in preventing rough sleeping and homelessness among ex-Service personnel in London. The MOD will meet about 70 per cent. of the cost of this research from the Veterans Challenge Fund. The Department is not currently undertaking any research into veterans in prison but is leading a project with the Home Office, ex-Service charities and other voluntary sector organisations to assist ex-Service offenders in custody and on release, and their families, to reduce the risk of re-offending. In a related area, the Department has funded research on the possible merits of mentoring for vulnerable veterans which looked in particular at the needs of personnel discharged from the Military Corrective Training Centre. We are currently considering how best to take forward the results of this work.

Weapons Expenditure

Mr. Hancock: To ask the Secretary of State for Defence how much has been spent on the development of the 40 mm Case Telescoped Ammunition weapon; and what assessment has been made of its *(a)* effectiveness and *(b)* in service cost. [85307]

Mr. Ingram: The 40 mm Cased Telescope Ammunition weapon has been developed using private venture capital by CTA International. The Ministry of Defence is conducting a Technology Demonstrator Programme to assess its effectiveness when vehicle-mounted. No study has yet been made of the through-life costs of the system.

WORK AND PENSIONS

Advertising Campaigns

Mr. Hayes: To ask the Secretary of State for Work and Pensions what advertising campaigns his Department has run since July 2004; and what the *(a)* date and *(b)* cost was of each. [81913]

Mrs. McGuire: The Department runs a number of promotional campaigns aimed at increasing awareness of rights and responsibilities. The dates and costs are given as follows:

Financial year	*(a) Date of activity*	*£000 (b) Annual cost*
Age Partnership Group		
2005-06	April 2005 to March 2006	19
2006-07	April 2006 to May 2006	8
Age Positive		
2004-05	April 2004 to March 2005	29
2005-06	April 2005 to March 2006	68
Council Tax Benefit		
2004-05	January 2005 March 2005	674
2005-06	January 2005 to February 2005 March 2005	526

Financial year	(a) Date of activity	£000 (b) Annual cost
Direct Payment		
2004-05	April 2004	8,379
	June 2004 to December 2004	
	January 2005 -March 2005	
Disability Discrimination Act		
2004-05	March 2004 to September 2004	1,992
	January 2005 to March 2005	
2005-06	December 2005 to May 2006	888
IB Reforms Pilot		
2004-05	April 2004 to May 2004	106
Images of Disability		
2005-06	September 2005	2
Lone Parent Leaflet Promotion Marketing		
2004-05	March 2005	216
National Sector Campaign		
2005-06	July 2005 to September 2005	23
	October 2005 to December 2005	
	January 2006 to March 2006	
National Vacancy Campaign		
2004-05	October 2004 to March 2005	390
Pension Credit		
2004-05	April 2004 to July 2004	4,388
2005-06	January 2005 to March 2005	362
State Pension Deferral		
2004-05	November 2004 to July 2005	115
2005-06	January 2006 to March 2006	392
2006-07	April 2006 to May 2006	51
State Second Pension		
2005-06	January 2006 to February 2006	675
Targeting Benefit Fraud		
2004-05	June 2004 to July 2004	6,017
	October 2004 to November 2004	
	December 2004 to February 2005	
2005-06	June 2005 to July 2005	7,042
	October 2005 to November 2005	
	February 2005 to March 2005	
Winter Fuel Payments		
2004-05	June 2004 to March 2005	515
2005-06	June 2005 to March 2006	918

Notes:
1. The table does not include the following as the information is not held centrally and to obtain it would incur disproportionate cost: spend by non-departmental bodies for which the Department is responsible details of highly localised publicity activity by the Department's customer-facing businesses recruitment or procurement advertising.
2. The figures refer to media spend only, excluding production and other costs.
3. All figures have been rounded to the nearest 1,000. 4. All figures are exclusive of VAT.

Benefit Take-up

Chris Huhne: To ask the Secretary of State for Work and Pensions what estimate he has made of *(a)* the number of people who were entitled to but not claiming (i) unemployment benefit and (ii) incapacity benefit in (A) rural and (B) non-rural areas in each year since 1997 and *(b)* what proportion each figure represents of all those entitled to each benefit. [85921]

Mr. Plaskitt: Estimates are not available below national level for income-based jobseeker's allowance. The national estimates are available in the DWP report entitled "Income Related Benefits Estimates of Take-Up". Copies of the latest publication, which describes patterns in take-up since 1997-98, together with past reports, are available in the Library.

No estimates are available for incapacity benefit.

Computer Software

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what his Department's policy is on the treatment of depreciation of computer software; and whether any extraordinary charges in respect of computer software assets have been made in the last three years. [82526]

Mrs. McGuire: The Department has a policy to depreciate software using a straight-line method, at rates calculated to write off the current replacement cost, less estimated residual value, of each asset in equal instalments over its expected useful life.

Assets are depreciated from the month following acquisition or from when the asset is brought into use, if later.

Software purchases are depreciated over a period of five years. Software licences and software development

costs are depreciated over a period of five years or the life of the asset or licence period, if shorter.

No extraordinary charges have been made in the last three years in respect of software.

Crisis Loans

Mr. Drew: To ask the Secretary of State for Work and Pensions how much was spent on crisis loans for people in *(a)* Stroud and *(b)* Gloucestershire in each of the last five years. [84153]

Mr. Plaskitt: The information is not available in the format requested. Such information as is available is in the table.

Crisis loans for area covered by Gloucestershire Jobcentre Plus district

	Expenditure (£)
2001-02	229,000
2002-03	322,000
2003-04	332,000
2004-05	273,000
2005-06	279,000

Notes:
1. Data is not available by parliamentary constituency or county, but only by Jobcentre Plus district.
2. From April 2002, Stroud parliamentary constituency and the county of Gloucestershire were in Gloucestershire Jobcentre Plus district, previously known as Gloucestershire Social Fund district. This district merged with another district in April 2005. The figure for 2005-06 in the table is for the area covered by the former Gloucestershire Jobcentre Plus district.
3. Figures have been rounded to the nearest 1,000.

Source:
DWP Social Fund Policy, Budget and Management Information System.

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions how much was spent on crisis loans for people in Coventry, South in each of the last five years. [84848]

Mr. Plaskitt: The information is not available in the format requested. Such information as is available is in the table.

Crisis loans for area covered by Coventry and Warwickshire Jobcentre Plus district

	Expenditure (£)
2001-02	762,000
2002-03	765,000
2003-04	907,000
2004-05	915,000
2005-06	1,100,000

Notes:
1. Data is not available by parliamentary constituency but only by Jobcentre Plus district.
2. The parliamentary constituency of Coventry South is in the Jobcentre Plus district of Coventry and Warwickshire. This district was formed in September 2002 by merging the Social Fund district of Coventry and the Social Fund district of Warwickshire. The expenditure for these two districts has been combined in the table.
3. Figures have been rounded to the nearest 1,000.

Source:
DWP Social Fund Policy, Budget and Management Information System.

Departmental Staff (Sickness Absence)

David Simpson: To ask the Secretary of State for Work and Pensions pursuant to the answer of 14 June 2006, *Official Report*, column 1296W, on departmental staff, how many staff in his Department have had more than two periods of sickness of less than five days in two or more of the years for which he has provided figures. [84045]

Mrs. McGuire: Full information on how many staff in the DWP have had more than two periods of sickness of less than five days or more in two or more years is not collated and could be provided only at disproportionate cost.

Disability Living Allowance

Mr. Vaizey: To ask the Secretary of State for Work and Pensions how many households in Oxfordshire include a person with a learning disability who receives the care component of disability living allowance at the *(a)* highest rate, *(b)* middle rate and *(c)* lowest rate. [82202]

Mr. Jim Murphy: The administration of disability living allowance is a matter for the chief executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Terry Moran, dated 17 July 2006:

You asked the Secretary of State for Work and Pensions, how many households in Oxfordshire include a person with a learning disability who receives the care component of disability living allowance at the *(a)* highest rate *(b)* middle rate and *(c)* lowest rate.

The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the chief Executive of the Disability and Carers Service.

The information available is in the following tables:

Recipients of disability living allowance with learning difficulties by rate of care award as at November 2005 in Oxfordshire parliamentary constituencies

		Care component		
	Total with care component	Highest rate	Middle rate	Lowest rate
County of Oxford total	1,940	540	340	1,070
Banbury	370	90	70	220
Henley	200	60	30	110
Oxford East	430	120	70	240
Oxford West and Abingdon	290	70	50	170
Wantage	320	100	60	170
Witney	330	100	60	160

Notes:
1. Numbers are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. Parliamentary constituencies are assigned by matching postcodes against the relevant postcode directory.
4. Figures are based on the care component condition only.

DWP, WPLS 100 per cent. data.

I hope this is helpful.

Mr. Heath: To ask the Secretary of State for Work and Pensions how many households in Somerset include a person with a learning disability who receives the care component of disability living allowance at the *(a)* highest, *(b)* middle and *(c)* lowest rate. [82282]

Mr. Jim Murphy: The administration of disability living allowance is a matter for the Chief Executive of the Disability and Carers Service, Mr. Terry Moran. He will write to the hon. Member with the information requested.

Letter from Terry Moran, dated 17 July 2006:

You asked the Secretary of State for Work and Pensions, how many households in Somerset include a person with a learning disability who receives the care component of disability living allowance at the (a) highest (b) middle and (c) lowest rate.

The Minister for Disabled People, Anne McGuire MP, promised you a substantive reply from the Chief Executive of the Disability and Carers Service.

The information available is in the following table:

Recipients of disability living allowance with learning difficulties by rate of care award as at November 2005 in Somerset local authorities.

	Care Component			
	Total with care component	*Higher rate*	*Middle rate*	*Lowest rate*
Somerset total	2,010	520	430	1,060
Mendip	430	100	110	220
Sedgemoor	430	110	90	230
South Somerset	560	160	120	280
Taunton Deane	440	130	90	220
West Somerset	160	30	30	110

Notes:
1. Numbers are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. Local authorities are assigned by matching postcodes against the relevant postcode directory.
4. Figures are based on the care component condition only.
5. Information is only available for the Somerset local authorities.

Source.
DWP, WPLS 100 per cent. data.

I hope this is helpful.

Financial Assistance Scheme

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what additional resources his Department estimates would be needed to extend the provision of the financial assistance scheme to those aged *(a)* between 59 and 62, *(b)* between 55 and 59 and *(c)* under 55; and if he will make a statement; [69545]

(2) what estimate he has made of the additional resources needed to extend the provision of the financial assistance scheme to those who otherwise fulfil the eligibility criteria but who are aged *(a)* below 55 and *(b)* between 55 and 59; and if he will make a statement. [70747]

James Purnell: Eligibility for the financial assistance scheme is based on the number of years to normal scheme retirement age when the financial assistance scheme was introduced in May 2004. People within three years of their normal scheme retirement age qualify for payments when they reach 65. Not all schemes have a retirement age of 65. Estimates of the cost of extending the financial assistance scheme to individuals of specific ages are not available.

Health and Safety

Mr. Drew: To ask the Secretary of State for Work and Pensions how many Health and Safety Executive inspectors have been employed in the field operations division in each of the last five years, broken down by region. [81115]

Mrs. McGuire: The number of Health and Safety inspectors employed in the Field Operations Directorate for each of the last five years broken down by region are listed in the following table.

On 1 April 2005, management responsibility for 72 inspectors transferred from field operations directorate to policy group but their role remains essentially unchanged.

As at 1 April each year	*Scotland*	*North West*	*Yorkshire and North East*	*Midlands*	*Wales South West*	*East South East*	*London*	*Total*
2002	120	119	129	163	105	183	83	902
2003	110	98	108	155	144	195	86	896
2004	103	96	133	141	112	164	77	826
2005	87	86	111	133	107	168	73	765
2006	89	91	113	121	112	159	70	755

From October 2004, we have also had a front-line force of health and safety awareness officers, numbering 97 in 2006. The proportion of front-line staff remains at 21 per cent. of HSE staff in 2006 as it was in 2005, so essentially front-line delivery remains the same.

Over the last four years, the FOD has consistently increased the proportion of time it spends on front-line activities—standing at 61 per cent. for the 2005-06 work year.

Mr. Boswell: To ask the Secretary of State for Work and Pensions what *(a)* work on contract for overseas Governments and public bodies, *(b)* work on contract for overseas commercial interests and *(c)* collaborative work with other agencies abroad is carried out by (i) the Health and Safety Executive and (ii) the Health and Safety Laboratory; and if he will make a statement. [81940]

Mrs. McGuire: The Health and Safety Executive carries out no work under contract for overseas Governments, public bodies and commercial interests. It does, however, carry out a considerable amount of collaborative work with other agencies abroad. The principal items of such work and the agencies, etc., with whom they are done are listed in table A.

The work currently being carried out by Health and Safety Laboratory (HSL) on contract for overseas Governments and public bodies and for overseas commercial interests is set out in tables B1, B2 and B3.

In addition, HSL operates the Great Britain Explosives Notified Body, which offers a service to industry throughout the world to certify explosives falling within the scope of the European Directive 93/15/EEC and the Placing on the Market and Supervision of Transfers of Explosives Regulations (POMSTER). Explosives that meet the requirements of the directive and POMSTER may be marked with the CE mark. HSL currently has 80 overseas commercial applicants for certification.

HSL collaborates with a large number of overseas laboratories, principally in the area of quality control. In addition, HSL has formal collaboration agreements in place with the following overseas organisations: Korea Occupational Safety and Health Agency; Canadian Explosives Research Laboratory; Institut de Recherche Robert Sauve en Sante et en Securite du Traveil (IRSST) Canada; and the National Institute for Occupational Health of the National Health and Laboratory Service, South Africa. Together with 11 other laboratories in member states of the EU, HSL is a signatory to the Framework Agreement on the Foundation of the Partnership for European Research in Occupational Safety and Health (PEROSH); and is also a World Health Organisation Collaborating Centre.

In addition to these formal collaborative arrangements, Both HSE and HSL staff also regularly exchange information with the counterparts, experts and scientists throughout the world, both in the public and private sectors.

Table A: Collaborative work carried out by HSE with Overseas Agencies

Organisation	*Area of work*
World Health Organisation	Health effects of exposure to static/time varying electro magnetic fields; occupational safety and health statistics.
Organisation for Economic Co-operation and Development Nuclear Energy Agency	Nuclear energy safety.
International Labour Organisation	Developing and maintaining occupational safety and health standards.
International Social Security Association: International Agriculture Section	Occupational safety and health in agriculture.
International Organisation for Standardization	International health and safety standards.
International Atomic Energy Agency	Nuclear energy safety.
United Nations Group of Experts on the Globally Harmonised System for the Classification and Labelling of Chemicals	Classification and labelling of chemicals.
International Conference of Chief Inspectors of Explosives	Exchange of information and good practice on the regulation of explosives.
International Association of Labour Inspectorates	Exchange of information and good practice on occupational safety and health enforcement.
International Regulators' Offshore Safety Forum	Offshore occupational safety and health.
International Group of Experts on the Explosion Risk of Unstable Substances	Energetic and oxidising substances and explosives, propellants and pyrotechnics.
International Collaborative Group on Environmentally Assisted Cracking	Nuclear energy safety.
European Agency for Safety and Health at Work	European Week of Safety and Health at Work, occupational safety and health statistics.
European Union Administration and Cooperation Groups	Occupational safety and health in machinery, pressure, lifts and equipment for use in explosive atmospheres.
European Commission: Eurostat	Occupational safety and health statistics.
European Foundation for the Improvement of Living and Working Conditions	Occupational safety and health statistics.
European Committee for Standardization (CEN)	Occupational health and safety standards.
European Trade Union Institute for Research, Education and Health and Safety	Collaboration to develop methodology to obtain user information for the design of tools.
European Senior Labour Inspectorate Committee	Exchange of information and good practice on occupational safety and health enforcement.
European Working Group on Reactor Dosimetry	Nuclear energy safety.
European Chemicals Bureau and competent authorities in all EU Member States	Classification, labelling and safe use of chemicals.
North Sea Offshore Authorities Forum	Offshore occupational safety and health.
French Government-Ministere des Affaires Sociales (Ministry for Social Affairs)	Developing joint policy on machinery safety issues.

Table A: Collaborative work carried out by HSE with Overseas Agencies

Organisation	Area of work
German Government-Ministerium fur Umwelt und Verkehr (Ministry for Environment and Transport)	Machinery safety issues.
Dutch Government-Arbeidsinspectie Expertisecentrum	Developing procedure to deal with the application of EU Supply Directives.
Dutch State Supervision of Mines	Offshore occupational safety and health.
Danish Energy Authority Ministry of Economic and Business Affairs	Offshore occupational safety and health.
Petroleum Safety Authority Norway	Offshore occupational safety and health.
US Occupational Safety and Health Administration	Occupational safety and health in ground handling activities in air transport.
Atlantic Alliance (UK, USA, Germany, Ireland, Australia)	Occupational safety and health in quarries.

Table B1: Work carried out by HSL on contract for overseas governments and public bodies

Organisation	Area of work
European Commission	Creation and the promotion of an inclusive risk governance culture.
European Commission	Quantification and control of the hazards associated with the transport and bulk storage of fireworks.
European Commission	Handbook for approval of hydrogen refuelling stations.
European Commission	Sharing experience on risk management to design future industrial systems.
European Commission	Safety of hydrogen as an energy carrier.
European Commission	Safe production and use of nanomaterials.
Health and Safety Inspectorate, Gibraltar	Dock work safety.
Health and Safety Authority, Ireland	Exchange of information, advice and support on process safety issues.
Finnish Institute of Occupational Health	Occupational health and safety research topic centre.
Institut National de l'Environment Industriel et des Risques (INERIS), France	Hydrogen safety course.
Institut Quimic de Sarria, Spain	Explosives and explosives prevention.
National Institute of Occupational Hygiene, South Africa	Assessment of measurement and analysis of chemicals.
County Wexford Garda, Ireland	Diving equipment examination.
University of Wuerzburg, Germany	Risk assessment

Table B1: Work carried out by HSL on contract for overseas governments and public bodies

Organisation	Area of work
TNO Quality of Life, The Netherlands	Development of worked examples for exposure scenarios of biocidal products to humans.
CRP Centro para la Prevencion de Riesgos Professionales, Columbia	Urine sample analysis.

Table B2: Work carried out by HSL on contract for overseas commercial interests

Organisation	Area of work
European Chemical Industry Council (CEFIC), Belgium	Analysis of chemicals.
The Oil Companies European Organisation for Environment, Health and Safety (CONCAWE), Belgium	Analytical support for gasoline risk assessment.
Hilti Aktiengesellschaft, Leichtenstein	Tests on two fastening tools to assist the client in self-certification.
Adisseo France SAS, France	Measurement of dustiness of one powder.
Saint Gobain Cree, France	Measurement of dustiness of three carbon powders.
Microclean Environmental Ltd, Ireland	Analysis of chemical samples.
EHS Risk Management Services, Ireland	Nitrous oxide sampling.
AB Achema, Lithuania	Testing resistance to detonation.
Borax Rotterdam NV, The Netherlands	Testing chemicals in air filter samples.

Table B3: Work carried out by HSL on contract for a consortium of overseas public bodies and commercial interests

Organisation	Area of work
Danish Gas Technology Centre, Denmark; Gastec Technology BV, The Netherlands; Directorate for Civil Protection and Emergency Planning, Norway	Group sponsored research project on area classification for secondary releases from low-pressure natural gas systems in naturally and mechanically ventilated indoor locations.

Housing Benefit

Jeremy Corbyn: To ask the Secretary of State for Work and Pensions what average level of housing benefit was paid to claimants in *(a)* local authority, *(b)* housing association and *(c)* private rented accommodation in each London borough in (i) the latest month for which information is available and (ii) the same month in 2005-06. [85006]

Mr. Plaskitt: The most recent available information is for November 2005. Information for November 2004 has been provided for comparison. The information is in the table.

Average amounts of housing benefit in payment by tenure in London boroughs: November 2004 and 2005

London borough	November 2004			November 2005		
	LA	RSL	Private	LA	RSL	Private
Barking	61.46	70.27	117.92	65.32	74.97	124.07
Barnet	75.61	125.66	143.45	78.07	125.15	148.85

Average amounts of housing benefit in payment by tenure in London boroughs: November 2004 and 2005

London borough	November 2004			November 2005		
	LA	RSL	Private	LA	RSL	Private
Bexley	253.40	69.47	112.63	303.64	71.98	116.12

Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in November 2004 and November 2005.

Information Technology

Chris Huhne: To ask the Secretary of State for Work and Pensions what the *(a)* originally estimated, *(b)* most recently estimated and *(c)* out-turn cost was in each of the five largest information technology contracts agreed with outside suppliers over the last five years. [71817]

James Purnell: Information that is available is in the following table.

Contract	Supplier	Original contract estimate (£ million)	Most recently estimated (£ million)
Accord / Standard Services Business Allocation (SSBA)	EDS	3,433.5	2,396.8
Accord / Integrated Communications and Network Services (ICONS)	BT	1,411.3	870.0
Pensions Transformation Project	Accenture	129.0	122.0
Benefits Processing Replacement Programme / Working Age Transformation and Change Programme	IBM	123.4	79.7
Central Payment System	Siemens	59.6	59.6

Medical Assessments

Danny Alexander: To ask the Secretary of State for Work and Pensions what proportion of medical assessments for benefit entitlement have been appealed in each of the last five years; and what proportion of appeals for each benefit has been successful. [76883]

Vera Baird: I have been asked to reply.

I refer the hon. Member to the response I gave to his question of 27 June 2006, *Official Report*, column 286W, as the information asked for is not available in the format requested. Data are collected by benefit type rather than by whether a medical assessment is carried out.

New Deal for Disabled People

Joan Walley: To ask the Secretary of State for Work and Pensions (1) if he will take steps to make the New Deal for Disabled People open to those who are in receipt of jobseeker's allowance who are partially sighted; and if he will make a statement; [83326]

(2) what equipment is available for those on New Deal for Disabled People. [83327]

Mrs. McGuire: New Deal for Disabled People (NDDP) services are available to people with a health condition or disability, including those who are partially sighted, who are in receipt of a range of benefits. Eligible benefits include incapacity benefit and income support with a disability premium, but not jobseeker's allowance (JSA). We have no plans to change the eligibility criteria for the programme.

There is no specific funding for equipment for NDDP customers and it is not a requirement of the programme to provide equipment. However, NDDP job brokers have the flexibility to use their funds to provide equipment, if they feel it is appropriate to do so. Equipment can also be accessed through other provision, for example, the adviser discretion fund (ADF), which enables the purchase of almost anything, up to a limit of £100 within a 12-month period, that will help a customer obtain a job or take up an offer of employment. NDDP customers can access ADF through Jobcentre Plus advisers.

Access to Work also helps disabled people enter and stay in employment by providing a range of practical help to them and their employers, including the provision of equipment to help overcome barriers faced at work as a result of disability.

Office Equipment

Mr. Weir: To ask the Secretary of State for Work and Pensions how many *(a)* personal computers, *(b)* laptops, *(c)* servers, *(d)* printers, *(e)* scanners, *(f)* photocopiers and *(g)* fax machines (i) his Department and (ii) each (A) non-departmental public body, (B) Executive agency and (C) other public body for which his Department is responsible in (1) Scotland, (2) Wales, (3) each English region and (4) Northern Ireland owned in (x) 2003-04 and (y) 2004-05. [40089]

Mrs. McGuire: DWP central asset registers do not hold the requested data in national and regional splits. Assets owned by DWP are held against individual business units and by financial cost centre. The information is therefore provided below by year and by business unit.

In addition to the assets owned by DWP, the Department also utilises equipment owned by our major IT service provider EDS, under PFI arrangements. The figures for these supplier-owned assets are included separately.

There were approximately 130,000 staff in DWP in March 2005 and significantly more PCs than people. There are several reasons for this, including PCs allocated to;

Part-time staff on an individual basis

Staff who work from more than one site or from home

Business testing and training (e.g. for our large modernisation programme)

The time lag between staff reductions and equipment removals.

The figure continues to fall. We estimate that the current figure is 147,794 PCs and 8,169 laptops. The contractual and budgetary provisions of the recently aligned contract with EDS are designed to drive the numbers down further and to provide significantly improved asset management services.

The returns for non-departmental bodies for which DWP is responsible have been obtained from each individual body.

Photocopiers can be purchased or leased by local management and central figures are not available, however, a central DWP leasing arrangement for mid-range copiers indicates that 5,123 copiers were leased as at March 2005.

The information is contained within the following tables:

March 2004

	PCs	*Laptops*	*Servers*	*Printers*	*Scanners*	*Copiers*	*Fax*

Official Visits

David Simpson: To ask the Secretary of State for Work and Pensions on how many occasions he has visited each region in an official capacity in the last 12 months. [83907]

Mrs. McGuire: In the last 12 months the Secretary of State has made the following number of official visits to each region:

	Number
East	1
East Midlands	5
London	3
North East	1
North West/	2
Northern Ireland	1
Scotland	2
South West	1
West Midlands	1
Yorkshire and Humber	1

All visits were conducted in accordance with the ministerial code. The official visits figures do not include speeches in London or departmental visits without an external dimension.

Outsourcing

Mr. Gauke: To ask the Secretary of State for Work and Pensions what administrative functions for which his Department is responsible are outsourced overseas; and what assessment he has made of the merits of outsourcing further such functions overseas. [81550]

Mrs. McGuire: None of the administrative functions for which the Department for Work and Pensions is responsible are outsourced overseas.

Currently the Department has no intention to locate administration functions overseas, therefore no assessment has been made of the merits.

Pension Credit

Mr. Laws: To ask the Secretary of State for Work and Pensions what his estimate is of the *(a)* number and *(b)* proportion of pensioners receiving pension credit in (i) 2020, (ii) 2030, (iii) 2040 and (iv) 2050 on the basis of the proposals made by the Pensions Commission; and if he will make a statement. [70294]

James Purnell: The Pensions Commission made no projections of receipt of pension credit in its second report "A New Pension Settlement for the Twenty-First Century", giving figures for eligibility instead. These are shown in figure 6.42 on page 294.

Public Appointments

Mr. Amess: To ask the Secretary of State for Work and Pensions how many public appointments are within his patronage; what *(a)* salary and *(b)* other emoluments are attached to each; and what the comparable figures were in (i) 1976, (ii) 1986 and (iii) 1996. [83167]

Mrs. McGuire: Details of the public appointments to public bodies sponsored by The Department for Work and Pensions (DWP) can be found in "Public Bodies", copies of which are in the Library. "Public Bodies" has been published annually since 1980 and the most recent edition provides figures for 2005. Each edition of "Public Bodies" contains details on the number of public appointments and remuneration details for that particular year. DWP was established in June 2001 and stewardship of those of its public bodies in existence before this time sat within its predecessor Departments. Comparable information for 1976, 1986 and 1996 in respect of DWP public bodies could be provided only at disproportionate cost.

Details of the latest remuneration for each of the 130 public appointments to the bodies sponsored by DWP are set out in the following table:

Non-departmental public body (NDPB)/Year established	*Public appointments*	*Remuneration*
Disability Employment Advisory Committee (DEAC) 2002	Chair	Unpaid[1]
	14 Members	Unpaid[1]
Disability Living Allowance Advisory Board (DLAAB) 1991	Chair	£286.00 per day
	7 Medical Members	£243.00 per day
		£121. 50 per half day
	10 Non-Medical Members	£134.00 per day
		£67.00 per half day
Disability Rights Commission (DRC) 2000	Chair	£117,000 per annum
	14 Members	£150.00 per day
Health and Safety Commission (HSC) 1974	Chair	£126,594 per annum
	9 Members	£15,435.00 per annum

Non-departmental public body (NDPB)/Year established	Public appointments	Remuneration
Independent Living Funds (ILF) 1993	Chair	Unpaid
	6 Members	Unpaid
Industrial Injuries Advisory Council IIAC) 1948	Chair	£260.00 per full council meeting and
		£141 per council sub-group meeting
	15 Members	£141.00 per meeting
National Employment Panel (NEP) 2001	Chair	Unpaid
	23 Members	Unpaid
Pensions Ombudsman (PO) 1991 Pension Protection Fund Ombudsman (PPFO) 2005	Ombudsman	£122,186.00 per annum
	Deputy Ombudsman	£83,946.00 per annum
Pensions Protection Fund (PPF) 2005	Chair	£82, 934. 80 per annum
	5 Members	£15,171.00 per annum
Remploy Ltd. 1945	Chair	£38,634 per annum
	6 Non-Executive Directors	£7,500.00 per annum
Social Security Advisory Committee (SSAC) 1980	Chair	£21,000 per annum
	13 Members	£210.00 per day
The Pensions Regular (TPR) 2005	Chair	£103,668.50 per annum
	5 Members	£10,114.00 per annum

[1] Loss of earnings up to a maximum daily rate of £138 may be claimed.

Redundancies

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions how much *(a)* his Department and *(b)* the agencies for which he has responsibility spent on redundancy payments in each of the last four years. [82564]

Mrs. McGuire: The amount spent by the Department on all staff early release schemes in each of the last four years is in the following table.

£ million

Business Area	2002-03	2003-04	2004-05	2005-06	Total
The Pension Service	0.2	0.19	1.29	14.1	15.7
Child Support Agency	0.83	0.82	0.84	4.5	7.0
Disability and Carers Service	n/a	n/a	0	7.0	7.0
The Appeals Service	0.15	0.17	0.2	0.2	0.7
Jobcentre Plus	0	0.18	0.55	69.0	69.7
Health and Safety Executive	2.08	0.65	0.75	0.0	3.5
The Rent Service	n/a	n/a	1.7	0.0	1.7
Departmental Corporate Units	16.17	14.11	9.58	43.5	83.3
Total	19.43	16.12	14.91	138.3	188.6

n/a = Denotes that the Agency did not exist in the Department in the year in question.

Notes:

1. A proportion of the ongoing annual pension payments for early retirement cases are held centrally and included in the Departmental Corporate Units' line from 2004-05 and 2005-06.
2. The figures do not include the provisions made in the accounts for costs associated with staff approved for early release in 2006-07.

Remploy

Annette Brooke: To ask the Secretary of State for Work and Pensions when he will answer Question 77480, on the review of Remploy, tabled by the hon. Member for Mid Dorset and North Poole on 9 June. [80325]

Mrs. McGuire *[holding answer 26 June 2006]:* I refer the hon. Member to the written answer I gave on 26 June 2006, *Official Report*, column 64W.

Sulphuric Acid

Mr. Horam: To ask the Secretary of State for Work and Pensions whether the Scientific Committee on Occupational Exposure Levels has made progress in determining whether sulphuric acid should be classified as a carcinogen; and if he will make a statement on current occupational exposure limits to sulphuric acid mist. [84510]

Mrs. McGuire: The European Commission's Scientific Committee for Occupational Exposure Limits (SCOEL) does not make formal recommendations concerning the classification of chemicals. The responsibility for this falls to the Classification and Labelling Working Group established by the European Chemicals Bureau and this Group has not considered the classification of sulphuric acid as a carcinogen. However, in its deliberations leading to recommendations on occupational exposure limits, SCOEL undertakes an assessment of the evidence on all aspects of the substances under consideration, including whether or not a substance may have particular properties, including the potential to cause cancer in humans.

In relation to sulphuric acid mist, for which a Recommendation for an occupational exposure limit was published in October 2004, SCOEL felt that the balance of evidence from studies in worker populations was sufficient to indicate that sulphuric acid mist has the potential to cause laryngeal cancer in humans. However, there were insufficient data to reliably inform on the airborne exposure conditions that were associated with the increased incidence of laryngeal cancer in these studies. In relation to the mechanism whereby sulphuric acid mist causes laryngeal cancer, SCOEL concluded that it is based on long-term chronic irritation of the laryngeal epithelium, and that airborne exposures that are below the threshold for the induction of such irritant effects would not lead to any increased risk of cancer.

SCOEL recommended that an 8-hour time-weighted average occupational exposure limit, set at 0.05 mg.m-3, would not lead to any adverse health effects in workers, and would not be associated with any increased risk of cancer.

In November 2001 the Health and Safety Executive published a Chemical Hazard Alert Notice for sulphuric acid mist, which recommended that employers should control mist exposure to below 0.3 mg.m-3, in line with advice from the National Sulphuric Acid Association. The 8-hour time-weighted average occupational exposure standard (OES) for sulphuric acid, formerly set at 1 mg.m-3, was withdrawn by the Health and Safety Commission in May 2003. There is currently no British occupational exposure limit.

Tax Credits

Mr. Laws: To ask the Secretary of State for Work and Pensions if he will place in the Library all documents regarding discussions held between his Department and HM Revenue and Customs on the use of National Insurance numbers in determining the eligibility for tax credits of an individual who has failed verification rule 12 of the Tax Credits Manual on Residency Criteria Not Met. [85792]

Mr. Plaskitt: Ministers and officials have meetings with a wide range of organisations both within Government and outside as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the practice to provide details of all such meetings.

HEALTH

Animal-based Insulin

Anne Main: To ask the Secretary of State for Health (1) what assessment she has made of Novo Nordisk's discontinuation of pork insulin crystal production in Brazil; and what representations she has *(a)* made and *(b)* received on the matter; [84481]

(2) what recent assessment she has made of the supply of raw materials required to produce animal-based insulin; and if she will make a statement. [84720]

Mr. Dunne: To ask the Secretary of State for Health if she will take steps to ensure that the availability of animal insulin in the UK is not adversely affected by the discontinuation of animal insulin crystal production at Novo Nordisk's Brazilian manufacturing facility which supplies raw materials to Wockhardt UK; and if she will make a statement. [85274]

Sandra Gidley: To ask the Secretary of State for Health whether Wockhardt UK uses raw materials sourced from the Biobras pharmaceuticals facility in Brazil to manufacture their animal insulin products. [85977]

Andy Burnham: The Department has had no involvement with NovoNordisk's production of insulin crystals, although I am aware that it acquired the Brazilian company, Biobras, a number of years ago. NovoNordisk has announced that it is discontinuing its animal derived insulins on a worldwide basis. However, animal insulins will remain available from Wockhardt UK, who has confirmed that future supplies of these products are independent of NovoNordisk.

Avian Influenza

Martin Horwood: To ask the Secretary of State for Health what account she took of the 50 per cent. fatality rate from H5N1 in determining the 2.5 per cent. fatality rate assumption for the relevant UK contingency plan. [85996]

Ms Rosie Winterton: Although the H5N1 virus has a reported fatality rate of around 50 per cent. in humans, there is some question regarding the accuracy of this figure. This is partly because we cannot guarantee that all H5N1 cases have been recorded. It is important to remember that fatality rates for pandemic flu have historically been lower than H5N1 avian flu. For example, the 1918 pandemic was the most severe in the

20th century and this had a fatality rate of around 2 per cent. This 2.5 per cent. figure was informed by international consensus and expert advice. Our modellers have taken the fatality rate of the H5N1 virus into consideration when agreeing this figure.

Community Hospitals

Mr. Greg Knight: To ask the Secretary of State for Health what estimate her Department has made of the number of community hospital beds in the Yorkshire Wolds and Coast Primary Care Trust area in each year since 1997. [85322]

Mr. Ivan Lewis: This information is not collected centrally.

Mr. Greg Knight: To ask the Secretary of State for Health what estimate her Department has made of the number of community hospital beds likely to be needed in east Yorkshire over the next five years. [85323]

Mr. Ivan Lewis: This information is not held by the Department. It is now for primary care trusts in partnership with strategic health authorities and other local stakeholders to plan, develop and improve services for local people.

Mr. Moss: To ask the Secretary of State for Health further to her oral statement of 5 July 2006, *Official Report*, column 826, on community hospitals, how many community hospitals have *(a)* opened and *(b)* closed in the Norfolk, Suffolk and Cambridgeshire strategic health authority area since 1997; and how many are being considered for closure. [85999]

Andy Burnham: The information requested is not held centrally.

Sir John Stanley: To ask the Secretary of State for Health pursuant to her oral statement of 5 July 2006, *Official Report*, column 820, in which primary care trust areas the pilot community hospitals tariff to which she referred will be introduced next year. [85174]

Andy Burnham *[holding answer 13 July 2006]:* We will set out shortly our plans for the national tariff in 2007-08, but we have never said there will be a community hospital tariff.

Crystal Blue Consulting

Andrew George: To ask the Secretary of State for Health what the terms are of the contract her Department has with Crystal Blue Consulting in respect of a review of the impact of the market forces factor in the funding and operation of local health trusts; and what timetable has been set for *(a)* completion of the work and *(b)* publishing its findings. [81957]

Andy Burnham: The advisory committee on resource allocation (ACRA) is carrying out a review of the approach to calculating the staff market forces factor (MFF). To inform the review and following a competitive tendering exercise, the Department has let a contract with Crystal Blue Consulting to examine the feasibility of using national health service costs in calculating the staff MFF. It is expected that the work will be completed by autumn this year. The publication of the findings will be considered later.

Dentistry

Mr. Hurd: To ask the Secretary of State for Health what the outcome was of discussions between her Department, the North West London Strategic Health Authority and Hillingdon Primary Care Trust on the estimated £200,000 shortfall in the devolved dentistry budget for Hillingdon. [84372]

Ms Rosie Winterton: No formal discussions have been held between the Department, the then North West London strategic health authority and Hillingdon primary care trust (PCT) about the devolved dentistry budget for Hillingdon. However, I have been informed that Hillingdon PCT has now resolved this matter to its satisfaction.

Electrical Fields

Chris Huhne: To ask the Secretary of State for Health what research has been conducted *(a)* by and *(b)* for her Department into the health impacts from electrical fields from (i) mobile phones, (ii) other electronic equipment in the home or workplace and (iii) major external sources, including power cables, mobile phone masts and other transmitters; and what steps she (A) has taken and (B) plans to take to tackle the potential effects on health of electrical fields. [84059]

Caroline Flint: The Health Protection Agency's radiation protection division (HPA-RPD) keeps the worldwide research findings on electric and magnetic fields (EMF) and health under review. In 2004 the HPA-RPD, previously the National Radiological Protection Board, undertook a comprehensive review of the existing body of research to date and formally recommended the adoption of EMF exposure guidelines published in 1998 by the International Commission on Non-Ionizing Radiation Protection (ICNIRP). The HPA advice is available on its website at www.hpa.org.uk/radiation/publications/documents_of_nrpb/pdfs/doc_15_2.pdf. The ICNIRP guidelines also form the basis of the 1999 European Recommendation (EC/519/1999) on limiting EMF public exposure.

English Partnerships

Bob Russell: To ask the Secretary of State for Health pursuant to the answer of 3 July 2006 to question 77864, *Official Report*, column 817W, how many of the 96 national health service sites acquired by English Partnerships on 6 April 2005 have been sold. [83220]

Yvette Cooper: Of the 96 former hospital sites acquired by English Partnerships in April 2005, the following four sites have been sold so far:

Park Prewett, Basingstoke (part)
Linton Hospital, Maidstone
Renny Lodge, Newport Pagnell
Sheppey Hospital, Isle of Sheppey

Three of these sites—Renny Lodge, Linton Hospital and part of Park Prewett— will provide over 300 homes as part of the Design for Manufacture competition.

English Partnerships is working with partners to bring forward sites as quickly as possible and hopes to be able to announce preferred developers for a further four sites later this year.

Environmental Management

Chris Huhne: To ask the Secretary of State for Health whether her Department *(a)* is committed to the achievement of environmental management to ISO14001 standard and *(b)* has been externally certified as in compliance with that standard; and if she will make a statement. [81185]

Mr. Ivan Lewis: This Department is committed to maintaining the best possible standards of environmental management. We are working towards certification under IS014001. We have not been externally certified but are working towards certification.

FIFA World Cup

Mr. Hands: To ask the Secretary of State for Health which matches *(a)* she and *(b)* other Ministers in her Department attended at the FIFA World Cup 2006 in Germany in their ministerial capacity; at what cost to public funds; and with what contributions from third party organisations. [83620]

Mr. Ivan Lewis: The Secretary of State for Health and Ministers in her Department attended none of the FIFA World Cup matches in their ministerial capacity, so there was no cost to public funds.

Fraser Day Hospital

Mr. Lancaster: To ask the Secretary of State for Health (1) what estimate has been made by Milton Keynes Primary Care Trust of the value of the Fraser Day Hospital site in Newport Pagnell; [84915]

(2) what estimate she has made of the annual saving to Milton Keynes Primary Care Trust (PCT) of the proposed closure of the Fraser Day Hospital in Newport Pagnell, expressed in *(a)* real terms and *(b)* as a percentage of the PCT's annual budget. [84916]

Andy Burnham *[holding answer 13 July 2006]:* The continued use of the suite of rooms forming the Fraser Day Hospital for health-related services is being investigated and, as such, the value of the primary care trust's legal interest in this accommodation is not required at the present time. The provision of local health care facilities is the responsibility of the Milton Keynes Primary Care Trust (PCT), with the support of their strategic health authority. It is for the PCT to estimate any costs of changes in service arrangements.

Healthcare Commission

Dr. Starkey: To ask the Secretary of State for Health when the Healthcare Commission will begin consideration of the case of Alan Jones (Case No. C200506_0165). [84665]

Andy Burnham: The Chairman of the Healthcare Commission has confirmed that the Commission has now started to review this case. The Chairman has added that a member of the Commission's complaints staff has contacted the complainant.

In-patient Operations

Mr. Bone: To ask the Secretary of State for Health how many *(a)* patients resident in Wales and *(b)* other patients had been waiting more than six months for an NHS in-patient operation at an English hospital at the end of June 2006. [85012]

Andy Burnham: The information requested is not currently available. Waiting times data relating to the end of June will be published on Friday 28 July.

Maternity Services

Mr. Drew: To ask the Secretary of State for Health whether the National Institute for Health and Clinical Excellence report on maternity services was altered after completion and before publication; and if she will make a statement. [84152]

Andy Burnham: The National Institute for Health and Clinical Excellence (NICE) is developing a guideline on care during labour. During the preparation of the draft guideline, the Department, as one of the instituted stakeholders, asked whether or not the available evidence precisely supported one of the recommendations made in the guideline. This related to advice on the risks and benefits of the different places of birth. NICE reflected on this, took further advice, and made a minor change to the relevant recommendation.

Multiple Sclerosis

Joan Walley: To ask the Secretary of State for Health (1) what representations she has received on the availability of disease-modifying therapies for people with multiple sclerosis in Staffordshire; and if she will make a statement; [84176]

(2) if she will meet the MS Society to discuss the terms of reference of the North Staffordshire Review Panel assessing the cost-effectiveness of disease-modifying therapies for people with multiple sclerosis. [84178]

Mr. Ivan Lewis: The Secretary of State has received no recent representations on the availability of disease modifying therapies for people with multiple sclerosis in Staffordshire. The local health community is responsible for decisions around the provision of national health service treatment. The Multiple Sclerosis Society may

wish to discuss its concerns about the terms of reference of the North Staffordshire review panel with NHS West Midlands.

National Institute for Health and Clinical Excellence

Mr. Marsden: To ask the Secretary of State for Health whether the National Institute for Health and Clinical Excellence has considered amending its assessment of cost effectiveness to include a factor of care time in the outcome. [84002]

Andy Burnham: The National Institute for Health and Clinical Excellence's (NICE) "Guide to the Methods of Technology Appraisal" is published on NICE's website at www.nice.org.uk, and gives details of the methodology NICE uses in carrying out its appraisals. NICE reviews its methods guide approximately every three years following consultation with stakeholder organisations, including those representing patients, carers, health care professions and manufacturers. The guide was last updated in 2004.

Newham PCT

Lyn Brown: To ask the Secretary of State for Health what assessment she has made of Newham Primary Care Trust's financial position; and if she will make a statement. [82064]

Andy Burnham: The 2005-06 provisional unaudited financial position of all national health service organisations was announced on 7 June. A full report on the 2005-06 NHS financial performance and a series of tables showing the financial position of all NHS organisations is available in the Library.

Lyn Brown: To ask the Secretary of State for Health what progress has been made towards the six national NHS priorities in Newham Primary Care Trust area; and if she will make a statement. [82073]

Andy Burnham: It is for the local national health service to assess the primary care trust's progress in meeting the six national NHS priorities.

NHS Complaints

Mr. Baron: To ask the Secretary of State for Health what proportion of complaints against the NHS brought to the attention of the Healthcare Commission have been referred back to the trust of origin for resolution without further investigation. [82587]

Andy Burnham *[holding answer 4 July 2006]:* The chairman of the Healthcare Commission has confirmed that in 2005-06 31 per cent. of cases were referred back for further work by the health care provider concerned following a review of the local complaint handling by the Healthcare Commission.

Mr. Baron: To ask the Secretary of State for Health how many complaints against the NHS brought to the attention of the Healthcare Commission and not referred back to the trust of origin without further investigation are waiting to be investigated by a case manager of the Healthcare Commission; how long on average these cases have been waiting; and how many of these cases have been waiting more than *(a)* eight weeks, *(b)* six months and *(c)* one year from receipt of the complaint. [82588]

Andy Burnham *[holding answer 4 July 2006]:* The chairman of the Healthcare Commission has confirmed that the Commission which faces a higher than expected numbers of referred cases, has introduced an eight week target to cases received since 1 April 2006. There are currently 2,261 cases awaiting further investigation, of which 1,136 are over six months old with none over 12 months old.

NHS Finance

Lyn Brown: To ask the Secretary of State for Health what assessment her Department has made of the financial position of primary care trusts that are significantly under their weighted capitation target; and if she will make a statement. [82063]

Andy Burnham: Our analysis of the 2005-06 financial positions of national health service organisations has shown that there is no strong relationship between financial performance and any single factor, including distance from capitation target. A full report on 2005-06 financial performance is available in the Library.

Lyn Brown: To ask the Secretary of State for Health (1) how much notice was given to primary care trusts of their financial obligation to the London risk pool; [82065]

(2) what assessment she has made of the likelihood of there being a need for additional contributions by London primary care trusts to the London strategic health authority risk pool in 2007-08; [82069]

(3) when London primary care trusts are expected to be informed of any need to contribute funds to a London strategic health authority risk pool for 2007-08; [82070]

(4) when Newham Primary Care Trust is expected to receive a refund of its contribution to the risk pool for the London strategic health authority. [82072]

Andy Burnham: The new strategic health authorities (SHAs) will take the lead locally in developing and implementing a service and financial strategy for managing the financial position within their locality. This will include creating local reserves to deal with local problems.

It is for SHAs locally to determine the level of contribution to reserves and the application of those reserves. The level determined will reflect local financial circumstances.

London primary care trusts (PCTs) were advised of their financial obligation to the London risk pool formally at the beginning of March 2006. London PCTs were made aware of this matter some weeks prior to that date via briefing from their previous local SHAs. PCT contributions will be repayable within three years with 2006-07 contributions expected to be repaid over the period 2007 to 2010. Repayment schedules are currently being agreed with deficit organisations.

The London SHA is still working on its plans for this year and is closely engaged with the Department on this issue. There is no timetable yet for the 2007-08 national operating framework and any contributions for 2007-08 will be subject to review.

Lyn Brown: To ask the Secretary of State for Health if she will assess the effectiveness of the weighted capitation targets in addressing health inequalities in the NHS. [82068]

Andy Burnham: Tackling health inequalities is within the remit of all primary care trusts (PCTs). Those PCTs with the worst health and deprivation indicators work to support public service agreement targets to narrow the health inequalities gaps in life expectancy, cardiovascular disease and cancer between their areas and the England average. To support this work, the weighted capitation formula takes account of deprivation.

Lyn Brown: To ask the Secretary of State for Health whether spearhead primary care trusts will be given priority when primary care trust contributions to strategic health authority risk pools are repaid. [82074]

Andy Burnham: Strategic health authorities (SHAs) are responsible for the performance management of their national health service organisations and ensuring they achieve financial balance. SHAs should take the lead locally in developing and implementing a service and financial strategy for managing the financial position within their locality. For 2006-07, this will include creating local reserves to deal with local problems.

The reserves will have to be paid back to organisations in future years when the organisations currently in deficit start producing surpluses. It will be repaid, normally in the three-year allocation period. SHAs have been asked to ensure that primary care trusts with the greatest health need are the first to be repaid.

NHS IT Support

Mr. Stephen O'Brien: To ask the Secretary of State for Health what progress has been made against each target on pages five and six of her Department's publication "Delivering 21st century IT support for the NHS"; what the completion date was for each target that has been met; and what the *(a)* timetable and *(b)* targets are for phases 1, 2 and 3 set out in paragraph 3.3.1. [75123]

Caroline Flint: The information requested has been placed in the Library.

Nurses

Tim Farron: To ask the Secretary of State for Health what percentage of nursing graduates found nursing jobs within *(a)* three months, *(b)* six months and *(c)* 12 months in each year since 1997. [86017]

Ms Rosie Winterton: This information is not collected centrally.

Tim Farron: To ask the Secretary of State for Health what the average cost to public funds was of training a nurse in each year since 1997. [86018]

Ms Rosie Winterton: The estimated average annual cost to public funds of training a nursing student in each year since 1997 is shown in the table, although the data have been collected on different basis thereby making comparisons difficult.

	Cost per individual—bursary or salary and tuition (£)
1997-98	11,625
1998-99	10,500
1999-2000	11,000
2000-01	13,000
2001-02	12,850
2002-03	13,690
2003-04	14,710
2004-05	15,000

Notes:
1. 1997-98 and 2004-05 are forecasts (actual outturn was only collected from 1999 onwards and the last data collected was in November 2004 covering 2003-04 outturn).
2. Average bursary costs for nurses and midwives added to tuition costs from 2000-01 onwards.

Nursing and Care Homes

Mr. Drew: To ask the Secretary of State for Health how many *(a)* nursing and *(b)* residential care homes there were in (i) the Stroud constituency and (ii) Gloucestershire in (A) 1996, (B) 2001 and (C) 2005. [77823]

Mr. Ivan Lewis: Information on the number of homes was collected by the Department for the years 1996 and 2001. Table 1 shows the numbers of residential and nursing care homes in Gloucestershire as at 31 March in 1996 and 2001. Data are not available at constituency level.

Table 1: Number of residential and nursing care homes in Gloucestershire, as at 31 March 1996 and 2001

		Rounded numbers
Type of home	*1996*	*2001*
Residential[1]	200	305
Nursing[2,3]	140	110
Total homes[4]	345	415

[1] Residential data are for Gloucestershire unitary authority.
[2] Nursing data are for Gloucestershire health authority.
[3] Nursing data include general nursing homes, mental nursing homes and private hospitals and clinics.
[4] Totals may not equal the sum of parts due to rounding.
Sources:
For 1996—Department of Health RAC 5 and K036 returns. For 2001—Department of Health RA and RH(N) returns.

The Commission for Social Care Inspection (CSCI) produces data on the number of care homes and places registered as at 31 March each year, beginning with 2003. There are some definitional differences between this data and that for the years up to 2001.

I understand from the chair of CSCI that the numbers of residential and nursing care homes, as at

31 March 2005, in Gloucester and South Gloucester local authorities are as shown in table 2. Data are not available at constituency level.

Table 2: Numbers of registered care and nursing homes in Gloucester and South Gloucester local authorities, as at 31 March 2005

Local authority	*Gloucester*	*South Gloucester*	*Total*
Residential care	276	97	373
Nursing	64	23	87
Total	340	120	460

Source:
CSCI registration and inspection database.

Ormskirk Hospital Site

Rosie Cooper: To ask the Secretary of State for Health which out-patient clinics are delivered from the Ormskirk hospital site; and with what frequency each occurs. [85326]

Ms Rosie Winterton: The information requested is not held centrally. It can be obtained directly from the Southport and Ormskirk Hospital National Health Service Trust.

Rosie Cooper: To ask the Secretary of State for Health whether the new Independent Sector Treatment Centre scheduled for the Ormskirk Hospital site will be available to provide care to the residents of *(a)* West Lancashire and *(b)* the North-West. [85485]

Ms Rosie Winterton: The Ormskirk Hospital site is one of several locations, named by the preferred bidder, from which services will be provided as part of the Cheshire and Merseyside electives surgery scheme, part of the next phase of the procurement in the independent sector treatment centre (ISTC) programme. The scheme is still currently being negotiated.

As stated in "The NHS in England: the operation framework for 2006/07", patient choice will be extended to include any national health service foundation trust and any nationally procured ISTC, and any other subsequently centrally accredited independent-sector providers.

Rosie Cooper: To ask the Secretary of State for Health whether the medical interventions planned at the Independent Sector Treatment Centre scheduled for the Ormskirk Hospital site require support from *(a)* an intensive care unit and *(b)* a high dependency unit. [85486]

Ms Rosie Winterton: The case mix planned for the Cheshire and Merseyside electives surgery scheme includes gynaecology, ear, nose and throat, gastroenterology, orthopaedics, general surgery and plastics. Detailed discussions are still in progress between the bidder and the Southport and Ormskirk National Health Service Trust but at this stage, it is anticipated that, if required, the independent sector treatment centre will follow the protocol established at Ormskirk Hospital, which is to use intensive care and high dependency facilities at Southport Hospital.

Osteoporosis

Laura Moffatt: To ask the Secretary of State for Health what advice and assistance is made available to encourage GPs to take advantage through practice-based commissioning of programmes to identify patients at risk of osteoporosis; and if she will make a statement. [81621]

Andy Burnham: To maximise the benefits of practice-based commissioning (PBC), the Department has resourced and put in place a comprehensive programme providing training, support, and guidance material for general practitioner (GP) practices and primary care trusts (PCTs).

This includes publication of the document "Practice based commissioning: early wins and top tips", which contains tips to support PBC and suggestions as to how it can be used to redesign care pathways. This publication is available on the Department's website at www.dh.gov.uk/assetRoot/04/12/82/74/04128274.pdf and has been issued directly to all GP practices.

This document does not specifically encourage GPs to take advantage of programmes to identify patients for their risk of osteoporosis. However, the document does encourage GP practices to take the principles of the case studies featured and extend these to providing services tailored to a particular practice's local population.

Oxygen Supplies

Dr. Vis: To ask the Secretary of State for Health what recent assessment she has made of whether the companies which hold Home Oxygen therapy contracts are meeting the required service levels. [83992]

Andy Burnham: The transfer of patients to new suppliers is taking place over a six-month transitional period that ends on 31 July 2006. Working with the national health service, we are closely monitoring each company's capacity to deliver the required standard of service to all patients using oxygen therapy in the home. During this period, there is continuous assessment of suppliers with regular meetings to discuss suppliers' reports on progress and action to tackle emerging issues.

Paediatric Special Care

Greg Mulholland: To ask the Secretary of State for Health what steps she is taking to ensure that sick babies receive the special care they require. [86014]

Mr. Ivan Lewis: The Department has facilitated the development of 24 neonatal managed clinical networks to provide the safest and most effective service for mothers and babies. Since April 2003 over £70 million additional funding has been made available to support the development of networks. It is for individual networks to ensure there is an appropriate level of provision, including special care, to meet prevalent local demand.

Payment by Results

Mr. Stewart Jackson: To ask the Secretary of State for Health what plans she has to review the policy of payment by results in respect of the treatment and care of premature babies in the NHS; and if she will make a statement. [85724]

Ms Rosie Winterton: There are currently no tariffs for neonatal intensive care. Critical care is outside the scope of payment by results, and funding for the service continues to be locally negotiated between commissioners and providers. The range of services covered by payment by results is kept under review.

Prescription Charges (Exemptions)

Rosie Cooper: To ask the Secretary of State for Health when the list of foods and medicines exempt from prescription charges for those with certain medical conditions will be reviewed. [84886]

Andy Burnham: Certain foods are listed in part XV of the drug tariff in order that they may be prescribed. We have no plans to extend the existing list of medical conditions that give exemption from prescription charges.

Prescription charges are currently being looked at by the Health Committee as part of its inquiry into national health service charges.

Primary Care Trust Budgets

Mr. Willis: To ask the Secretary of State for Health whether funding for specialist myalgic encephalomyelitis/encephaliopathy and chronic fatigue syndrome services is contained within the baseline budget of primary care trusts. [85325]

Mr. Ivan Lewis: I can confirm that funding for specialist chronic fatigue syndrome/myalgic encephalomyelitis services is included in the baseline budgets for primary care trusts.

Waiting Time Target

Mr. Lansley: To ask the Secretary of State for Health (1) how many category A projects have so far been established, as described on page 26 of her Department's document "18 Week Patient Pathway: Delivery Resource Pack", where they have been established in each case; for which medical procedures they have been established; what conclusions have so far been drawn from the projects; when she expects the projects to conclude; and if she will make a statement; [84418]

(2) which pioneer sites to assess the prospects for delivery of the 18-week waiting time target amongst category B procedures deemed high risk have so far been established; on which procedures they are concentrating in each case; where they are situated; and if she will make a statement. [84419]

Andy Burnham: The areas of greatest challenge identified in the delivery resource pack in relation to 18 weeks are orthopaedics, endoscopy, echocardiography and audiology. National projects are required in these category 'A' areas.

In orthopaedics, a co-ordinating group of key stakeholders has been established, and a musculoskeletal services framework was published on 12 July 2006 on the Department's and the 18 week patient pathway websites. Work continues to identify and then tackle local performance levels.

In endoscopy, work is well under way to identify performance levels and best practice, building on the work begun by the NHS Modernisation Agency. In cardiology, the project is identifying those tests that present the greatest challenge in terms of intervention rates and performance, including echocardiography.

In audiology, most adult hearing services are accessed directly from primary care, and are therefore provided outside of the pathways covered by the 18-week target. However, waiting times for adult hearing services are too long and do need to be tackled, not least to ensure that referrals to such services are not diverted via ear, nose and throat departments (which are covered by 18 weeks) to benefit from the 18-week maximum wait that will apply by December 2008. Work is under way at official level, with stakeholders to be involved, and a plan will be published in due course, following ministerial approval.

In terms of the high risk, category B areas, the eight 18-week pioneer health communities will soon turn their attention from developing the mechanisms by which whole pathways will be measured to redesigning pathways in the high risk areas identified in the delivery resource pack. The table shows the specialties being addressed by each of the pioneers. Magnetic resonance imaging, computerised tomography and non-obstetric ultrasound diagnostic tests are being addressed as part of these pathways.

Pioneer health community	*Delivery solutions being addressed*
East Kent	General surgery, gastroenterology, orthopaedics, cardiology
Huntingdonshire	Orthopaedics, endoscopy, neurology, dermatology
North Nottinghamshire	Gastroenterology, gynaecology, rheumatology, diabetes
Devon and Exeter	Cardiology, oral surgery, diabetes, plastic surgery
Gateshead	Orthopaedics, cardiology, rheumatology
King's	Orthopaedics, audiology, respiratory medicine
North East Sector of Greater Manchester	Trauma and orthopaedics, general surgery, general medicine
South Bedfordshire	Urology, ears, nose and throat, cardiology, ophthalmology

Mr. Lansley: To ask the Secretary of State for Health (1) whether she has identified an 18-week pathway clinical lead; and what the role of the clinical lead will be; [84456]

(2) what progress she has made in establishing the stakeholder group to support delivery of the 18-week waiting time target. [84458]

Andy Burnham: Dr. David Colin-Thomé has been appointed clinical lead for the 18 weeks programme in addition to his role as national clinical director for primary care, as announced in "Tackling Hospital Waiting: The 18 Week Patient Pathway—An Implementation Framework" (paragraph 3.4). Dr. Colin-Thomé's role on 18 weeks is to lead engagement with the clinical community, act as national lead for the clinical leads of particular specialty areas, co-chair the 18-week stakeholder group and provide advice on implementation issues as they arise.

The 18-week pathway stakeholder group is made up of nominees from a range of national organisations, senior clinicians, managers and patients. It is intended that the group should normally meet monthly, alternating between the full group and a subset made up of the strategic health authority leads for 18 weeks. The subset met for the first time in June. The full group should meet for the first time in September.

Mr. Lansley: To ask the Secretary of State for Health (1) what challenges to delivering the 18-week waiting time target have so far been identified by her Department; and which of these challenges are being used in the campaign to highlight key challenges from May; [84468]

(2) what key messages have been agreed to support delivery of the 18-week waiting time target, as stated on page 22 of her Department's document, "18 Week Patient Pathway: Delivery Resource Pack", published on 10th May 2006. [84486]

Andy Burnham: Key areas of challenge to delivering the 18-week waiting target were outlined in section two of the publication, "Tackling Hospital Waiting: The 18 Week Patient Pathway—An Implementation Framework". Since publication, national projects have begun in orthopaedics and endoscopy, and the national project in cardiology is in development. Work is under way at official level on an audiology action plan and this will be published in due course following ministerial approval. The 18-week programme team and the Department have highlighted the key challenges at numerous events in the past few months, including the NHS Confederation conference. The team will shortly be holding events in each of the new strategic heath authorities to help prepare for delivery.

This publication, which is available in the Library and on the Department's website at: www.dh.gov.uk/assetRoot/04/13/46/69/04134669.pdf also sets out the key messages for all groups involved in the delivery of 18 weeks, including the key actions required by various parties.

Written Answers to Questions

Tuesday 18 July 2006

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Harper: To ask the Secretary of State for International Development what his suggested alternatives are for income generation for poppy growers in *(a)* Helmand province and *(b)* other Afghan provinces. [85758]

Hilary Benn: After decades of conflict, the lack of investment in basic infrastructure, poor governance and drought, much of Afghanistan's productivity has been lost or re-directed towards poppy cultivation and drug trafficking. As 70 per cent. of the population are rural, agriculture provides the best opportunity for alternative income generation.

Helmand province was once one of the most agriculturally advanced and productive areas in Afghanistan. It might have the potential to be so again. For examples, the DFID-funded research into alternative livelihoods programme (RALF) is looking at the export potential of grapes, tomatoes, mushrooms egg plants and okra in Helmand and has made contacts with raisin importers, which involves organic and fair trade. The programme is also evaluating at least 10 different small scale agri-processing industries such as tomato paste production.

Growth in small and medium enterprises and construction has the potential to bring new employment opportunities in all 34 provinces of Afghanistan. DFID supports the micro finance investment support facility programme, which provides much needed credit for investment in agriculture, manufacturing, retail and service industries. To date, the programme has brought financial services for some 161,000 people in and around half of the provinces of Afghanistan.

The development of Afghanistan's natural resources could also provide alternative jobs. Afghanistan possesses energy and mineral resources, many of which are underdeveloped, such as coal, gas, oil, precious metals and semi-precious stones. DFID is funding the British Geological Survey to strengthen the Afghan Geological Survey to develop and promote the mining sector.

Angola

Jeremy Corbyn: To ask the Secretary of State for International Development what support is *(a)* provided and *(b)* planned for (i) land mine clearance and (ii) transport infrastructure developments in Angola. [85537]

Hilary Benn: DFID has provided over £1.1 million for land mine clearance work in Angola since 2003. A further £400,000 will be spent this year to support land mine clearance activities in the country.

DFID is currently funding the work of two mine action NGOs operating in Angola—the Halo Trust and the Mine Awareness Group. Most of this work is taking place in areas where humanitarian operations are ongoing in order to allow UN Agencies such as the World Food Programme to access populations in need, and to do so safely.

DFID's aid programme in Angola is focused on providing support to meet urgent humanitarian needs. Funding for transport infrastructure has been made in the context of support provided for humanitarian programming. DFID provided £1.15 million to the WFP last year to support the construction of bridges to enable quicker humanitarian access to populations in need. This support has also reduced costs because aid can now travel by road instead of only by air transport.

Support for infrastructure development in southern Africa has been identified as a priority area in DFID's southern Africa regional plan. Angola will benefit from this work, which is currently at the design stage.

Darfur

John Bercow: To ask the Secretary of State for International Development if he will place in the Library a copy of the joint UN-African Union technical assessment mission report on Darfur. [85341]

Hilary Benn: The United Nations-African Union technical assessment mission recently returned from Darfur. Their report has yet to be released, though it is expected before the end of July. We expect that it will make recommendations on how the UN can support the African Union, and ultimately take over in Darfur. We do not know yet what form the report will take. It may be an oral briefing, a letter from Kofi Annan or a formal written report. Assuming any written report is made public, I will arrange for copies to be placed in the Libraries of the House.

Malawi

Lynne Featherstone: To ask the Secretary of State for International Development what funding the Government are providing for water and sanitation projects in Malawi. [85916]

Hilary Benn: DFID is co-financing a Concern Universal project with the European Union Water Facility. The project is in two districts of Malawi and will deliver 550 boreholes, household sanitation, and training, and help build capacity in the districts. DFID is contributing £620,000 over five years, which is 25 per cent. of the overall funding.

DFID has agreed to co-finance a project in 13 districts of Malawi if the NGO consortium involved can secure European Union Water Facility funding. The consortium of six NGOs is led by Concern Universal and also includes Oxfam, Emmanuel International and World Vision. This project will work with local government and is expected to deliver over 3,000 functioning boreholes and safe sanitation for

250,000 people. DFID has agreed to contribute £860,000 over five years which is 25 per cent. of the overall funding.

DFID is funding WaterAid to complete a nationwide digital map showing who has and does not have access to a safe water supply. This tool will help the Government and others to concentrate their efforts on supplying water to those who have no access at present. DFID is spending £65,000 on this work.

As part of support to primary education, DFID has been funding improvements to primary school water supply and sanitation for the past nine years. In 2005, DFID spent approximately £1,000,000 on primary school water supply and sanitation in Malawi. Apart from their health benefits, the availability of latrines and their sensitive siting is one of a number of factors that can help keep girls at school.

Somalia

Jeremy Corbyn: To ask the Secretary of State for International Development what aid programmes are supported by his Department in Somalia; and by which local administrations aid is delivered. [85004]

Hilary Benn: DFID has a rising aid programme in Somalia. Subject to political and other developments within Somalia, this year we plan to disburse approximately £15.5 million, of which around 40 per cent. is likely to be spent in Somaliland. This is planned to rise further next year, again with a substantial portion benefiting Somaliland—either as support for specific Somaliland activities or as part of a Somalia-wide programme.

Our programmes in Somalia are focused around three objectives agreed:

i. To help achieve a just and viable political settlement in Somalia. Programmes include a Dialogue for Peace project and Democratisation project through WSP International.

ii. To work with others to establish the basis for effective development assistance, with an initial focus on improving governance and service delivery. Programmes include a partnership agreement with UNICEF and the United Nations Educational, Scientific and Cultural Organisation (UNESCO) for support to primary education and a United Nations Development Programme (UNDP) Rule of Law Programme supporting re-establishment and strengthening of police services and justice systems.

iii. To ensure timely provision of humanitarian relief. For example, we provided approximately £13 million in response to the recent drought in the Horn of Africa, specifically for relief in Somalia.

We do not provide bilateral aid directly to any Somali authority; however, projects under the objectives above, undertaken by the UN and NGOs, involve collaboration with local and regional authorities and the Transitional Federal Government in their delivery.

SOLICITOR-GENERAL

Foreign Travel

Philip Davies: To ask the Solicitor-General how much was spent on foreign travel by the Law Officers' Departments in each of the last eight years. [76066]

The Solicitor-General: The Law Officers' Departments have spent the following amounts on foreign travel in the last eight years. Figures are rounded to the nearest thousand, or hundred if under 1,000. All foreign travel by Ministers and officials is undertaken in accordance with the Ministerial Code and the Civil Service Management Code.

£

	Crown Prosecution Service	*Revenue and Customs Prosecutions Office*	*Serious Fraud Office*	*Treasury Solicitor's Department*	*Attorney General's Office*	*HM Crown Prosecution Service Inspectorate*
1998-99	25,000	[1]—	55,000	8,000	21,000	—
1999-2000	39,000	[1]—	114,000	200	15,000	—
2000-01	77,000	[1]—	191,000	600	25,000	—
2001-02	151,000	[1]—	203,000	5,000	28,000	—
2002-03	166,000	[1]—	110,000	7,000	61,000	—
2003-04	281,000	[1]—	204,000	8,000	82,000	—
2004-05	135,000	[1]—	186,000	12,000	23,000	1,000
2005-06	166,000	20,000	[2]317,000	14,000	63,000	—

[1] RCPO was established on 18 April 2005.
[2] Provisional figures pending finalisation of 2005-06 accounts.

Law Officers Departmental Report

Mr. Amess: To ask the Solicitor-General how many copies of the Law Officers departmental report 2006, were produced; at what cost; to whom copies were sent; at what cost; who was consulted prior to publication; how members of the public can obtain copies; at what cost; and if he will make a statement. [78601]

The Solicitor-General: The Stationery Office produced 780 copies of Cm 6821, "Law Officers' Departments Report 2006". Of the 780 copies, the Law Officers' Departments received 320 copies at a cost of £4,248. The 320 were allocated as follows:

	Number of copies allocated
Attorney-General's Office	20
Crown Prosecution Service (CPS)	180
HM Crown Prosecution Service Inspectorate	20

	Number of copies allocated
Revenue and Customs Prosecutions Office	50
Serious Fraud Office	25
Treasury Solicitor's Office	25

Copies of the report are circulated within departments, including the 42 CPS geographical areas, and to criminal justice system partners. No central records are kept of individual recipients or cost of distribution.

The report is prepared within all the Law Officers Departments. Treasury and other CJS Departments are consulted during preparation.

A hard copy of the report can be obtained through the Stationery Office priced £14.75. It is also available on the Law Officers departments websites.

TRANSPORT

A303

Paul Holmes: To ask the Secretary of State for Transport what estimate his Department has made of the level of traffic flow on the A303 during the 2012 Olympics. [86099]

Gillian Merron: The Olympic Delivery Authority (ODA) will be responsible for identifying the roads to be included in the Olympic route network and considering their impact on traffic flows, as well as on the roads adjoining them. The ODA will also consider the general traffic flow caused by Olympic spectators.

Paul Holmes: To ask the Secretary of State for Transport what estimate his Department has made of the economic effects on the south-west region of the implementation of the published scheme for improvements to the A303 at Stonehenge in the first year after construction. [86100]

Dr. Ladyman: Our estimate of the economic benefits of this scheme does not distinguish between the economic benefits to the south-west and to other regions.

Air Traffic Control

Mr. Brazier: To ask the Secretary of State for Transport what reports he has received on the possible effects of wind turbines and wind farms on air traffic control radars; and what recent discussions he has had with representatives of the Civil Aviation Authority on the matter. [86264]

Gillian Merron: On 3 July 2006, the Civil Aviation Authority (CAA) issued a Civil Aviation Publication (CAP 764) entitled "Policy and Guidelines on Wind Turbines". This guidance provides assistance to aviation stakeholders when addressing wind energy related issues and includes a description of the various areas of aviation, including radar, which have the potential to be affected by wind turbine developments. The guidance is available on the CAA website at www.caa.co.uk/cap764

We have regular meetings with various stakeholders, including representatives from the CAA, to discuss a range of issues.

Asylum Seekers

David T.C. Davies: To ask the Secretary of State for Transport how many asylum seekers have applied for *(a)* full and *(b)* provisional driving licences in the last year for which figures are available. [85102]

Dr. Ladyman: The Driver and Vehicle Licensing Agency does not retain the information requested.

Automatic Identification System

Mr. Brazier: To ask the Secretary of State for Transport what plans he has to tackle the vulnerability of automatic identification systems to pirates. [86263]

Dr. Ladyman: The Department has already advised masters of UK and Red Ensign Group registered shipping that they may temporarily cease broadcasting automatic identification system signals when in open waters, if they judge that the security of the vessel is being compromised by them. More detailed advice to masters on this issue is contained in the Department's counter piracy note issued to mariners, published in November 2005, as Marine Guidance Note 298.

The Department has also reached an agreement with an internet provider of AIS information to introduce a package of risk mitigation measures including a time delay and a reduction in the quantity of information accessible from the site.

Cycling

Jeremy Corbyn: To ask the Secretary of State for Transport what assessment he has made of the merits of the introduction of regulations requiring all *(a)* new bicycles to be fitted with operational lights and *(b)* purchasers to be provided with safety helmets; and if he will make a statement. [85529]

Derek Twigg: No formal assessment has been made of the merits or otherwise of introducing regulations to require all new bicycles to be fitted with operational lights and all purchasers to be provided with safety helmets.

Existing regulations require the use of lights on pedal cycles between sunset and sunrise: non-compliance is an offence. Requiring the fitment of operational lights at point of sale would not ensure that the lights were thereafter maintained in working order, nor would it ensure that riders turned them on. However, such regulation would deprive cyclists of choice, as there are several legally acceptable varieties of cycle lights, ranging from dynamo to battery-operated and steady to flashing, from which cyclists are currently free to choose.

Our policy on cycle helmets is to persuade cyclists to protect themselves by using them, but providing helmets with each new bicycle would not guarantee

that they would be used. The Government will keep their policies in this—as in all areas—under review in the light of discussion in Parliament and elsewhere.

Jeremy Corbyn: To ask the Secretary of State for Transport what steps are being taken to promote cycling in cities outside London; and how much was paid in grants supporting the promotion of cycling in each of the last five years. [85530]

Derek Twigg: Funding for cycling outside London is primarily provided through the local transport plan system which funds local highway authorities. We do not have a breakdown between cities and other areas. Expenditure on cycling outside London for the past five years is set out in the following table:

LTP spend on cycling schemes as reported by local highway authorities

	Spend on cycling (£000)
2001-02	29,583
2002-03	39,889
2003-04	32,128
2004-05	39,891
2005-06	35,387

In addition, we created Cycling England in March 2005 with a budget of £5 million per annum to work with local authorities and others to co-ordinate the development of cycling. The Secretary of State recently announced a doubling of its annual budget to £10 million per annum for the next three years. Cycling England is investing £8.4 million over three years in six cycle demonstration towns—Aylesbury, Brighton, Darlington, Derby, Exeter and Lancaster.

In addition the Department has spent over £12 million on the links to school programme between 2003-04 and 2004-05. We also provided £4.47 million between 2002-03 and 2003-04 through our cycling projects fund to support nearly 300 local cycling projects across England.

Bus Routes

Mr. Chope: To ask the Secretary of State for Transport (1) how many applications *(a)* to change and *(b)* to modify bus routes have been made to the traffic commissioners in each area of England in each of the last three years for which figures are available; [85372]

(2) on how many occasions the traffic commissioners have intervened *(a)* to prevent and *(b)* to modify a change to a bus route of which they had been notified in each of the last three years for which figures are available. [85373]

Gillian Merron *[holding answers 14 July 2006]:* The traffic commissioner must accept all properly completed applications to register or vary a local bus service. New registrations can only be refused where the operator concerned has a condition on their licence which prevents them from providing the service as applied for.

Information on the number of new and varied local bus service registrations is published in the traffic commissioners annual report. Copies of the publications are available in the House of Commons Library and can also be found on the DFT website at: http://www.dft.gov.uk/stellent/groups/dft_control/documents/contentservertemplate/dft_index.hcst?n=9759&l=3

Child Seats (Cars)

Chris Grayling: To ask the Secretary of State for Transport what plans he has for publicising the new regulations on the use of child seats in cars. [84828]

Dr. Ladyman: Advertising consisting of press, online, and radio activity will commence on 24 July and will run until mid-September explaining the change to the law and encouraging people to ring our campaign hotline for further information.

PR activity will run from week commencing 17 July beginning with the GMTV car safety week with features on TV each morning. Thereafter, we shall continue to target national and local press and broadcast media, online media and magazines until the end of September, encouraging features as children return to school.

Road safety officers in local authorities will also be raising awareness of the new regulations. Stakeholder and brand partner materials have been developed for local use including posters, leaflets and online creative, full details of which are available on the THINK! road safety website—www.thinkroadsafety.gov.uk—along with full details of the new regulations.

Commercial partners are also lending support—Mothercare, Halfords and Toys R Us will be raising awareness of the new regulations and disseminating literature to their customers.

Congestion (Liverpool)

Mrs. Ellman: To ask the Secretary of State for Transport what steps he is taking to relieve congestion in the Hall lane strategic gateway; and if he will make a statement. [86093]

Dr. Ladyman: The local highway authority, Liverpool city council, is responsible for tackling congestion and the delivery of improvements in the Hall lane strategic gateway.

We provisionally approved the Hall lane improvement scheme for funding through the local transport plan programme in 2000 and the Edge lane west scheme in 2004. It is for the city council to obtain the necessary statutory powers for the implementation of these schemes before seeking final funding approval from the Department.

Correspondence

Chris Grayling: To ask the Secretary of State for Transport what the reason is for the delay in his reply to the letter of 24 April 2006 from Wiltshire county council about rail services in Wiltshire. [85215]

Derek Twigg: My officials replied on 12 July. I apologise for the delay.

Crossrail

Mr. Rob Wilson: To ask the Secretary of State for Transport how much has been spent on the Crossrail project in each year since 2004-05. [84606]

Derek Twigg: The amounts spent on the Crossrail project in each year since 2004-05 are shown in the following table. The figures provided set out expenditure by both Cross London Rail Links Ltd, and the Department for Transport.

		£ million
Financial year	*CLRL costs*	*DfT costs*
2004-5	44.4	2,657,209
2005-06	41.4	3,664,948
2006-07 (to June 06)	21.1	944,571

Dart Harbour and Navigation Authority

Mr. Steen: To ask the Secretary of State for Transport pursuant to the answer of 26 June 2006, *Official Report*, column 33W, on the Dart Harbour and Navigation Authority, when he expects to provide the substantive reply. [86440]

Dr. Ladyman: Our intention is to determine this case and issue the substantive reply before August.

Detrunking

Chris Grayling: To ask the Secretary of State for Transport pursuant to his answer of 6 July 2006, *Official Report*, column 1267W, on detrunking, what additional funds have been provided to each local authority in the 2006-07 financial year to meet the cost of maintaining the detrunked roads; what proportion of that authority's total allocated funds for its local transport plan the additional amount represents; and if he will make a statement. [85047]

Dr. Ladyman: The data required to make the calculation can be found on the Department's website.

The breakdown of routine maintenance funding for 2006-07 for each local authority in England with a detrunked road can be found in the maintenance of roads grant determination 2006. The grant information is available on the Department's website at: http://www.dft.gov.uk/stellent/groups/dft_roads/documents/page/dft_roads_611492.hcsp

The additional capital maintenance funding provided to each of these local authorities for their detrunked roads can be found in the local transport plan settlement decision letters, issued in December 2005. The letters also contain details of each authority's local transport capital settlement for financial year 2006-07. These letters are also available on the Department's website at: http://www.dft.gov.uk/stellent/groups/dft_localtrans/documents/divisionhomepage/610730.hcsp.

Digital Tachographs

Chris Grayling: To ask the Secretary of State for Transport when driver cards for digital tachographs will be available in the UK. [84834]

Dr. Ladyman: Driver cards for digital tachographs have been available in this country for over a year. The Driver and Vehicle Licensing Agency issued its first such card on 5 July 2005.

Driving Licences

Jim Dowd: To ask the Secretary of State for Transport what facilities there are for non-UK nationals to obtain a driving licence from a local Driver and Vehicle Licensing Agency. [85164]

Dr. Ladyman: The agency operates a premium checking facility at four local offices located at Wimbledon, Glasgow, Nottingham and DVLA reception area in Swansea. It is available to holders of full EEA, Gibraltar and designated countries driving licences exchanging their licences for a UK one. The designated countries are:

Australia, Barbados, British Virgin Islands, Canada, Falkland Islands, Hong Kong, Japan, Monaco, New Zealand, Republic of Korea[1], Singapore, South Africa, Switzerland and Zimbabwe.

Applicants opting to use this service must hold a current passport from one of the countries referred to above. In these circumstances staff will check their application for accuracy and completeness and return their passport to them over the counter. A fee of £4 is levied for this service.

[1]Motorcycle entitlement from the Republic of Korea is not exchangeable.

First Great Western

Mr. Drew: To ask the Secretary of State for Transport when he was first informed of First Great Western's plans for increases in peak-time travel prices. [84097]

Derek Twigg: The Department was first informed of First Great Western's intended fares strategy in its franchise bid received in September 2005. First Great Western has already implemented a new range of fares which offer significantly lower prices than anything previously available for both first and standard class travel for passengers who book ahead. In addition, since the commencement of the franchise in April, First Great Western has obtained secure station accreditation status at a further five stations as part of a continuing programme and have also signed two major contracts worth nearly £150 million which will significantly improve the interiors and technical reliability of the high speed train fleet over the next 18 months.

Foreign Vehicle (Road Traffic Offences)

Mr. Spellar: To ask the Secretary of State for Transport what action his Department is taking to ensure that owners of foreign vehicles guilty of traffic offences in the UK pay their fines. [85687]

Dr. Ladyman: The Government are aware that it can be too easy for non-UK resident drivers to avoid paying fines when found guilty of traffic offences. We are determined to address this and enabling provisions for a new system of graduated fixed penalties are contained in the Road Safety Bill currently before Parliament. These provisions will also allow enforcement agencies to take an immediate cash

deposit, equal to a fixed penalty notice or court-imposed fine, from foreign drivers who commit offences, bringing us into line with our continental neighbours.

The graduated fixed penalties and deposit scheme, could be in place during next year and should improve compliance through increased deterrence as well as providing for more effective enforcement.

Freight Containers

Chris Grayling: To ask the Secretary of State for Transport pursuant to the answer of 6 July 2006, *Official Report*, column 1268W, on freight containers, what proportion of the containers in use on the UK's roads will be affected by these changes. [84862]

Dr. Ladyman: Directive 96/53/EC effectively prohibits the carriage of conventional 45ft ISO deep sea containers. In 2004 there were an estimated 142,000 of these containers in circulation worldwide—around 1.4 per cent. of the deep sea container market—but we have no data on the numbers that may be in use on UK roads.

As the directive includes a 10-year derogation until 31 December 2006 which permits the carriage of such containers on oversize vehicles in service before implementation, there are expected to be few in number, and that those containers still in circulation can be used elsewhere other than on the EU road network.

Government Car Fleet

Mr. Amess: To ask the Secretary of State for Transport what safety considerations are taken into account when choosing Government vehicles; and if he will make a statement. [85168]

Dr. Ladyman: The Department for Transport is a member of the European new car assessment programme (EuroNCAP). Performance against the EuroNCAP tests is one of the criteria the Government Car and Despatch Agency uses when choosing suitable official cars.

Heysham M6 Link

Geraldine Smith: To ask the Secretary of State for Transport whether the Heysham M6 Link has received funding approval. [86397]

Dr. Ladyman: We are currently considering Lancashire county council's business case for the inclusion of the Heysham to M6 link road in the Department's programme of major schemes. A decision on programme entry for this scheme and funding from the Department will only be taken once we have resolved a number of appraisal issues. Should the scheme be approved for programme entry, our response of 6 July to the north-west region on Regional Funding Allocations confirms that we would expect to provide funding for this scheme during the period 2009-10 to 2015-16 but only subject to it securing all necessary statutory approvals.

High Occupancy Vehicle Lanes

Chris Grayling: To ask the Secretary of State for Transport whether it is his policy to prevent coaches from using high occupancy vehicle lanes. [84832]

Dr. Ladyman: The issue of whether to allow coaches to use high occupancy (HOV) lanes is still being considered. Coaches are clearly high occupancy vehicles but they are speed restricted, which could therefore impede the flow of traffic in the HOV lane. A key consideration is whether the proposed HOV lane is on the outside of the motorway (as proposed for M1 junction 7 to 10) or the inside of the motorway (as proposed for M62/M606).

A final decision will only be made once we have finalised the exact details of each scheme and we have satisfied ourselves that the lanes will operate safely.

Left-hand Drive Vehicles

Jo Swinson: To ask the Secretary of State for Transport what his most recent estimate is of the percentage of left-hand drive vehicles on British roads; what estimate he has made of the proportion of road accidents which involved left-hand drive vehicles in the last 12 months; and if he will make a statement. [84836]

Dr. Ladyman: Information on the number or percentage of left-hand drive vehicles on British roads is not available. In 2005, there were 1,760 personal injury road accidents reported to the police involving left-hand drive foreign registered vehicles. The total number of personal road injury accidents was 198,735. The proportion of road accidents involving left-hand drive foreign registered vehicles was just under 1 per cent.

Rail Services

Mr. Gordon Prentice: To ask the Secretary of State for Transport whether the east coast main line south of York will be operating at full capacity when additional train paths are allocated to GNER on the Leeds to London section; and if he will make a statement. [85014]

Derek Twigg: A route utilisation strategy for the east coast main line is being prepared by Network Rail. The analysis that will underpin this strategy will include an assessment of the capacity of the route, and an assessment of the most effective use of that capacity. The consultation draft for this strategy is expected to be published before the end of this year.

Lynne Jones: To ask the Secretary of State for Transport what work he has commissioned on the development of a high speed rail link from London to Scotland. [85236]

Derek Twigg: The Government made a manifesto commitment to look at the feasibility and affordability of a new north-south high speed link. The Government have committed to take this forward in the development of a long-term strategy for the railways, drawing on Sir Rod Eddington's advice on the

long-term impact of transport decisions on the UK's productivity, stability and growth. In so doing the Department will draw on a range of evidence and commissioned work.

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the answer of 27 June 2006, *Official Report*, column 264W, on South West Trains, when he expects to respond to the letter from the South Hampshire Rail Users Group; and if he will place a copy of his response in the Library. [85278]

Derek Twigg: The letter was replied to on 13 July, and a copy has been placed in the Libraries of the House.

Mr. Greg Knight: To ask the Secretary of State for Transport for what reason and upon whose authority King's Cross station was closed for several days recently following a fire on a nearby building site; what provisions are in place to ensure that major transport routes into London are not prematurely or unnecessarily closed; and if he will make a statement. [85285]

Derek Twigg: These are operational matters for Network Rail, as the owner and operator of the national rail network. The hon. Member should contact Network Rail's chief executive at the following address for a response to his question:

Mr. John Armitt
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE

Jeremy Corbyn: To ask the Secretary of State for Transport what plans he has to authorise the transfer of railway interchange stations in London from Network Rail to Transport for London; and if he will make a statement. [85531]

Derek Twigg: The Department for Transport is currently involved in discussions with Transport for London regarding the manner in which rail interchange stations within London are operated in the future. As these stations are Network Rail's assets, the final arrangements for any transfer would be a matter for Transport for London and Network Rail.

Jeremy Corbyn: To ask the Secretary of State for Transport what advice he has given to Transport for London in respect of the operation of services on the East London line after the proposed extension has been completed. [85532]

Derek Twigg: The operation of services on the East London line is a matter for Transport for London.

Chris Grayling: To ask the Secretary of State for Transport how much his Department has spent on Crossrail; and how much he expects to spend by the end of the 2007-08 financial year. [85565]

Derek Twigg: The then Secretary of State allocated £154 million to CLRL for Crossrail in 2001. The amount spent by CLRL is shown in the table, as well as expenditure within the Department for Transport since 2003-04, when the Crossrail hybrid Bill was introduced. In December 2005, the then Secretary of State allocated a further £100 million for the continued development of the project and support of the hybrid Bill. The Department is discussing with CLRL what further sums would be needed for the period to Royal Assent, which is hoped for during 2007.

Financial year	*CLRL costs (£ million)*	*DfT costs (£)*
2001-02	5.3	—
2002-03	25.2	—
2003-04	31.5	1,445,019
2004-05	44.4	2,657,209
2005-06	41.4	3,664,948
2006-07 (to June 2006)	21.1	944,571

Mr. Carmichael: To ask the Secretary of State for Transport how many incidents of people riding on the outside of moving trains were reported to the British Transport police in *(a)* 2004 and *(b)* 2005; how many have been reported in 2006; what measures are being taken to prevent such incidents; and if he will make a statement. [85813]

Derek Twigg: This information is not held by the Department for Transport. Information relating to incidents of people riding on the outside of moving trains and reported to the British Transport police is held by the force who can be contacted at:

British Transport Police
25 Camden Road
London NW1 9LN
E-mail: general.enquiries@btp.pnn.police.uk

Road Safety

Mr. Davey: To ask the Secretary of State for Transport how many road accidents were caused *(a)* directly and *(b)* indirectly by the driver using a mobile phone in the last period for which figures are available. [85414]

Dr. Ladyman: The information available relates to factors that are judged by the police as having contributed to a road accident in which someone was injured. The number of personal injury road accidents reported to the police that have "Driver using mobile phone" assigned as a contributory factor in 2005 was 429.

Mr. Kemp: To ask the Secretary of State for Transport how many *(a)* fatalities and *(b)* injuries in road accidents there were in (i) Sunderland city council area and (ii) Houghton and Washington, East constituency in each year since 1997. [85423]

Dr. Ladyman: The number of *(a)* fatalities and *(b)* injuries in personal injury road accidents reported to the police in (i) Sunderland local authority and (ii) Houghton and Washington, East constituency in each year from 1997 to 2005 are shown in the table. Constituency level data for 2005 are not yet available.

	Sunderland local authority		Houghton and Washington, East constituency	
	(a) Killed	(b) Injured	(a) Killed	(b) Injured
1997	15	1,460	8	454
1998	11	1,344	5	456
1999	11	1,295	9	421
2000	4	1,342	1	454
2001	8	1,307	6	449
2002	10	1,245	5	406
2003	8	1,338	6	442
2004	8	1,228	5	402
2005	10	1,091	—	—

Roads

Chris Grayling: To ask the Secretary of State for Transport which road repair project being carried out by the Highways Agency has been allocated the most funding. [85490]

Dr. Ladyman: The M25 Holmesdale tunnel refurbishment project has a total forecasted cost of £70 million. It comprises repairs to the existing road, the tunnel structure and associated mechanical and electrical equipment.

Roadside Checks

Mr. Amess: To ask the Secretary of State for Transport how many roadside checks have been carried out on defective brakes during each of the past 24 months; what the nature is of such tests; and what conclusions he has drawn from the results. [85167]

Dr. Ladyman: The Vehicle and Operator Services Agency (VOSA) is responsible for roadside enforcement. Greater detail on the results of their work is published in its effectiveness report which is available on-line at www.vosa.gov.uk.

The following table is based on financial year and amalgamates roadside checks and fleet checks. The data cannot be broken down further without disproportionate cost.

	2004-05	2005-06
Prohibitions issued in relation to brakes	24,955	25,357
Percentage of vehicle encounters that resulted in such prohibitions	14.4	13.9

Although visual inspection will identify the majority of potential defects, VOSA staff can also utilise temperature checks and roller brake tester equipment.

Brake defects are in the top 10 fail items for heavy goods vehicles, trailers and passenger service vehicles at roadside and fleet checks and annual test. Defects in braking systems are a concern.

Stansted Airport

Mr. Brazier: To ask the Secretary of State for Transport what discussions he has had with the new owners of the British Airports Authority on the continued development of a second runway at Stansted airport; and if he will make a statement. [86266]

Gillian Merron: The Secretary of State for Transport has met the chairman of Grupo Ferrovial SA to discuss their plans for BAA.

On 6 July, ADI, the consortium led by Ferrovial, confirmed its commitment to developing a second runway at Stansted as soon as possible although it would review the costs and plans for the second runway. A press release on this announcement can be found on BAA's website.

Transport Direct

Mr. Carmichael: To ask the Secretary of State for Transport what assessment he has made of the value for money of the Transport Direct portal. [85818]

Dr. Ladyman: The original business case for Transport Direct recorded three key value for money measures:

Achieve one million user sessions in the first year of service.

Achieve 10 million user sessions by the end of 2006.

10 per cent. of users reassess their travel habits as a result of the information provided by Transport Direct.

Of these measures:

The one millionth user session was achieved ten months after soft-launch of the service (soft-launched in July 2004, achieved in May 2005)

We are on course to achieve our ten millionth user session by the end of 2006.

Early results of user surveys have indicated that 64 per cent. of those who completed our surveys were considering a change of travel mode preference.

Mr. Carmichael: To ask the Secretary of State for Transport what assessment has been made of the impact of the Transport Direct portal on journey decisions, including modal shift. [85820]

Dr. Ladyman: The portal service includes a self-completion feedback questionnaire that has been designed to form part of the independent evaluation framework for the portal. The analysis of the first 1,002 forms (December 2005) indicates that:

64 per cent. of users who responded indicated a change of original travel mode preference for at least part of the journey.

In 33 per cent. of cases the respondent had made the journey previously and of these 51 per cent. indicated a change in original mode preference.

Mr. Carmichael: To ask the Secretary of State for Transport how many visitor hits Transport Direct has received; and what its advertising expenditure has been since it became operational. [85821]

Dr. Ladyman: Transport Direct usage is recorded in "user sessions". A user session is defined as:

"One continuous dialogue with the Transport Direct Portal through one browser window".

By the end of June 2006 Transport Direct had recorded 6,055,702 user sessions. The current rate is around 150,000 user sessions a week, viewing an average of seven to eight pages each.

Advertising costs across the financial years 2004-05 to 2005-06 were £1,063,000.

Mr. Carmichael: To ask the Secretary of State for Transport why the default setting for the cost of car travel on the Transport Direct portal is for fuel costs. [85822]

Dr. Ladyman: The portal provides the user with two choices for assessing the costs of car travel. One is "fuel costs"; including exceptional costs such as tolls, ferry charges and congestion charges, and the other is 'total running costs' which take into account the cost of owning a car.

Transport Direct's purpose is to give users an impartial series of travel options and to enable them to select choices that meet their needs. Market research strongly indicates that motorists are overwhelmingly interested in seeing information about the 'point of use' of costs of their car. Therefore the default is to display the fuel costs and other direct costs. Showing full costs as the default would result in this functionality not being used by the majority of motorists, thus negating any potential effect on their travel choice.

Users do have the option to select an estimate of the total running costs. This is based on advice and information provided by the major motoring organisations and provides a figure which reflects the total cost of motoring, on a per mile basis. If the user chooses this option, then fuel costs, the exceptional costs and the total ownership costs are displayed.

Chris Grayling: To ask the Secretary of State for Transport how much it cost to construct www.transportdirect.info; and how much it has cost to operate a month on average. [82210]

Dr. Ladyman: The information is as follows:

Construction of www.transportdirect.info.

Overall capital spend on the Transport Direct portal design, build and operate (DBO) contract has been as follows:

Period	*£ million*
2002-03	1.3
2003-04	9.3
2004-05	9.6
2005-06	7.3
2006-07	0.4
Total to end March 2006	27.9

These figures represent the sums paid to Atos Origin (the DBO contractor) for all aspects of the DBO contract excluding non-capital elements.

The DBO contract has been just one part of the overall Transport Direct programme. Whilst the portal DBO contract cost more than we originally estimated, the overall programme budget under spent.

Operational costs are in the region of £225,000-£250,000 per calendar month, while data supply costs are in the region of £100,000 per month.

Vehicle Excise Duty Licences

Chris Huhne: To ask the Secretary of State for Transport how many vehicle excise duty licences were paid in each band, including goods vehicles, for the most recently available year; and how many licences in each band were paid for by *(a)* private individuals and *(b)* incorporated businesses. [83959]

Dr. Ladyman: DVLA estimates the number of vehicle licences issued within each band for the "Private and Light Goods" tax class, as the following table:

Estimate of licences issued for Private and Light Goods vehicles, 2004-05

Class	*Licences issued*
Band A	543
Band B	392,320
Band C	4,710,235
Band D	3,907,106
Band E	3,039,718
Band F	2,945,879
Band G	1,618,549
Cars registered before 1 March 2001	22,388,865
Total	39,003,215

Additionally, 554,153 licences were issued for heavy goods vehicles in 2004-05. No statistical information is available to indicate how many licences in each band were paid for by *(a)* private individuals and *(b)* incorporated businesses.

Written Answers to Questions

Tuesday 18 July 2006

SCOTLAND

Carbon Emissions

Chris Huhne: To ask the Secretary of State for Scotland what recent estimate he has made of the carbon emissions of his Department; what commitment he has made to reducing such emissions; and if he will make a statement. [81054]

David Cairns: The Scotland Office subscribes to the energy efficiency policies adopted by the Department for Constitutional Affairs.

I refer the hon. Member to the reply given by the Under-Secretary of State, my hon. Friend the Member for Lewisham, East (Bridget Prentice), on 10 July 2006, *Official Report*, column 1615W.

Departmental Travel

Mr. Laws: To ask the Secretary of State for Scotland what plans he has to ensure that all flights undertaken by Ministers and officials in his Department are carbon neutral; and if he will make a statement. [81381]

David Cairns: The Scotland Office subscribes to the principles of environmental performance adopted by the Department for Constitutional Affairs.

I refer the hon. Member to the reply given by the Under-Secretary of State, my hon. Friend the Member for Lewisham, East (Bridget Prentice), on 6 July 2006, *Official Report*, column 1344W.

Environmental Management

Chris Huhne: To ask the Secretary of State for Scotland whether his Department *(a)* is committed to the achievement of environmental management to ISO 14001 standard and *(b)* has been externally certified as in compliance with that standard; and if he will make a statement. [81189]

David Cairns: The Scotland Office subscribes to the environmental management principles adopted by the Department for Constitutional Affairs.

I refer the hon. Member to the reply given by the Under-Secretary of State, my hon. Friend the Member for Lewisham, East (Bridget Prentice), on 13 July 2006, *Official Report*, column 1992W

Private Members' Bills

Mr. Amess: To ask the Secretary of State for Scotland which Private Members' Bills were drafted by his Department in each session since 1997; and which subsequently received Royal Assent. [78840]

David Cairns: Since the Scotland Office was established on 1 July 1999, one private Member's Bill has been drafted and has subsequently received Royal Assent—my Sunday Working (Scotland) Act 2003.

Mr. Amess: To ask the Secretary of State for Scotland if he will list those Private Members' Bills in respect of which his Department has adopted a policy of neutrality in each session since 2001-02; and if he will make a statement. [72484]

David Cairns: The Scotland Office has not adopted a policy of neutrality on any of the private Members' Bills since session 2001-02 for which it had the lead interest.

Scottish Affairs Select Committee

Mr. Amess: To ask the Secretary of State for Scotland what action has been taken by his Department to implement Scottish Affairs Select Committee recommendations since the 2001-02 session; and if he will make a statement. [78843]

David Cairns: The Government have responded to the Scottish Affairs Select Committee's recommendations in the period in question in the following published memoranda:

Session 2001-02

The Drinks Industry in Scotland: Response by the Government and the Scottish Executive (HC 696), published on 18 March 2002.

Customs Services in Scotland: Response by the Government (HC 1287), published on 5 November 2002

Session 2002-03

Employment in Shipbuilding on the Clyde: Response by the Government (HC 199), published on 19 December 2002

Homeworkers in Scotland and the Minimum Wage: Response by the Government (HC 816), published on 19 June 2003

Session 2003-04

The Coincidence of Parliamentary Constituency Boundaries in Scotland and the Consequences of Change: Response by the Government (HC514), published on 7 April 2004

The Proposed Whisky Strip Stamp: Response by the Government (HC 822), published on 5 July 2004

Session 2005-06

Meeting Scotland's Future Energy Needs: Government Response (HC 579), published on 24 October 2005

Each memorandum stated whether the Government accepted the recommendations in the relevant report.

NORTHERN IRELAND

Access to Work Scheme

Roger Berry: To ask the Secretary of State for Northern Ireland how many disabled staff in his Department received support through the Access to Work scheme *(a)* in each of the last five years and *(b)* in 2006-07. [82231]

Paul Goggins: The table provides information on the numbers of NIO staff with disabilities for whom NIO requested support through the Access to Work scheme. This relates to the provision of workplace assessments to identify individual needs and recommend special aids and equipment and, where applicable, the provision of assistance with the cost of providing reasonable adjustments. While the scheme also assists with the cost of travel to work, the Department has no knowledge of assistance provided for NIO staff, as individuals must apply direct to the scheme.

	Number
2001-02	2
2002-03	2
2003-04	2
2004-05	4
2005-06	1
2006-07	[1]

[1] To date.

Building Regulations

Mark Durkan: To ask the Secretary of State for Northern Ireland what measures are in place to assess compliance with building regulations in Northern Ireland. [80954]

Mr. Hanson: Northern Ireland Civil Service Departments do not hold this information. Enforcement of building regulations is the responsibility of district councils. Having written to district councils I can confirm that Building Control employ professionally qualified and trained staff to carry out independent and impartial plan assessments and detailed inspection of all sites to ensure compliance. Applicants must notify Building Control at various stages of projects, and if remedial action is necessary, it is always carried out prior to the issue of the completion certificate.

Mark Durkan: To ask the Secretary of State for Northern Ireland how many homes built in the last 10 years in Northern Ireland do not comply with environmental building regulations. [80953]

Mr. Hanson: Northern Ireland civil service departments do not hold this information. Enforcement of building regulations is the responsibility of district councils. Having written to district councils I can confirm that no homes built in the last 10 years contravene the environmental building regulations.

Further Education

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what provision for those with *(a)* mental health difficulties and *(b)* learning disability is offered by further education colleges in the Province. [83728]

Maria Eagle: The Department for Employment and Learning is unable to provide the information in the format requested but can confirm that in 2004-05, the last year for which figures are available, further education colleges in Northern Ireland enrolled 14,231 students with learning difficulties and/or disabilities on a range of mainstream courses and, where more appropriate, on courses designed specifically for students with learning difficulties. FE colleges have also been provided with additional resources to make such physical adjustments as may be required to assist those with disabilities and learning difficulties.

Prisons

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the cost was of providing assistance to prisoners in Northern Ireland to cease smoking in each of the last three years. [78738]

Paul Goggins: The information requested is not available for 2003 and 2004.

In 2005 the cost of providing nicotine replacement patches under prescription to prisoners was £12,082.09 and for the period 1 January to 31 May 2006 the cost was £4,692.45.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many prisoners have absconded from custody in Northern Ireland in each of the last five years. [80444]

Paul Goggins: The Northern Ireland Prison Service undertakes a thorough risk assessment prior to decisions being taken in respect of prisoner release, and has a low incidence of absconds.

The Northern Ireland Prison Service classifies absconds as prisoners released from lawful custody under Rule 27(2), who are accompanied outside the confines of the prison establishment.

Numbers of prisoners absconding from custody - 2001 to date

Total	9	4	3

Road Improvements

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what improvements are planned for the A26 road between Ballymena and Coleraine over the next two years. [85725]

David Cairns: The Acting Chief Executive of Roads Service, Mr. Geoff Allister, has been asked to write to the hon. Gentleman in response to this question.

Letter from Geoff Allister, dated 18 July 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding what improvements are planned for the A26 road between Ballymena and Coleraine over the next two years.

As this issue falls within my responsibility as Acting Chief Executive of Roads Service, I have been asked to reply.

I have to advise that there are no planned improvements for the A26 between Ballymena and Coleraine over the next two years.

Statutory Instruments

Mr. Amess: To ask the Secretary of State for Northern Ireland on what occasions a statutory instrument sponsored by his Department has been reported by the Joint Committee on Statutory Instruments as defective since October 2005. [85180]

Mr. Hain: Two statutory instruments sponsored by my Department since October 2005 have been reported by the Joint Committee on Statutory Instruments as defective. Details are as follows:

(a) The Prison and Young Offenders Centre (Amendment) Rules (Northern Ireland) 2005 (S.R. 2005/153). See the Fourth Report of the Joint Committee on Statutory Instruments for session 2005-06, published on 19 October 2005; and

(b) The Pollution Prevention and Control (Amendment) and Connected Provisions (No. 2) Regulations (Northern Ireland) 2005 (S.R. 2005 No. 285). See Sixth Report of the JCSI for 2005-06, published on 26 October 2005.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Flu

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to his answer of 8 June 2006, *Official Report*, column 1341W, on avian influenza, when and in what manner the discussion took place between a departmental official with Mr. Steve Moon at which an offer was extended to Mr. Moon, or another representative of the Association of Local Government Ecologists, to participate in the avian influenza stakeholder group; and who the official was. [81142]

Mr. Bradshaw: There appears to have been some misunderstanding over this matter. A Defra official has written to Mr. Moon to express regret for this. I have also written to the Secretary of the Association of Local Government Ecologists inviting the association to participate in the AI Stakeholder Group.

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs what his policy is on the vaccination of domestic birds against avian influenza; and if he will make a statement. [85232]

Mr. Bradshaw: The advice from the Chief Veterinary Officer (CVO) is that we should not vaccinate poultry in advance of an avian influenza outbreak, or as an immediate disease control response. Although currently available vaccines are able to reduce mortality, it is possible that some vaccinated birds would still be capable of transmitting the disease if they become infected, but might not display symptoms of disease. This would increase the time taken to detect and eradicate the virus. High standards of surveillance and biosecurity, early reporting of suspect cases and culling remain the most effective ways of preventing avian influenza and tackling an outbreak.

However, as I informed the House on 11 July, in order to be fully prepared we have invited tenders to supply us with a further 10 million doses of avian influenza vaccine for potential use in poultry and other captive birds. This is not a change in policy. The CVO has recommended this step as part of sensible contingency planning in the light of uncertainties about the future spread and nature of the virus, and the possibility of as yet unforeseen circumstances. The vaccine would only be used if a risk assessment and scientific evidence indicated it would help to prevent disease spread.

Fisheries

Mr. MacNeil: To ask the Secretary of State for Environment, Food and Rural Affairs what the status is of the investigation into possible blackfish landings of pelagic fish. [86438]

Mr. Bradshaw: This is an issue for the Scottish Executive. As it is an ongoing investigation we are unable to comment.

Fly-tipping

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs how many fly-tipping incidents were recorded by Flycapture in 2004-05, broken down by local authority area. [85710]

Mr. Bradshaw: Data on fly-tipping incidents recorded by each local authority on the Flycapture database between April 2004 and March 2005 have been placed in the Library of the House.

Waste

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs if he will estimate how many *(a)* mobile telephones and *(b)* printer cartridges were (i) recycled, (ii) reused overseas and (iii) disposed of within the waste stream in the last 12 months. [84068]

Mr. Bradshaw: This Department does not collect information on the recycling or reuse of mobile phones or printer cartridges. The mobile phone industry estimates that 18 million handsets are replaced every year and that in 2003 and 2004, about five million handsets were collected by mobile phone recycling and refurbishment companies in the UK. The industry estimates that about 60 per cent. of these were refurbished and the remaining 40 per cent. were sent for materials recycling.

TRADE AND INDUSTRY

Administrative Savings

Mr. Maude: To ask the Secretary of State for Trade and Industry what administrative savings have been made by his Department in each of the last eight years. [34937]

Jim Fitzpatrick: The Department's annual reports contain information on departmental management and public service delivery, including on measures taken to improve efficiency and value for money.

For the years 1997-98 and 1998-99, value for money and efficiency savings were not reported separately in the Department's annual reports but were contained within the chapters on the management of the Department.

During the period covered by the 1998 Comprehensive Spending Review (1999-2002), the Department had a strategic efficiency target to achieve savings of 2.5 per cent. of its running costs each year. In 1999-2000 DTI achieved a saving of 2.6 per cent. of running costs (£10.6 million on projected costs of £406.6 million); and in 2000-01 a saving of 4.6 per cent. (£19.3 million on projected costs of £418.8 million).

The CSR98 efficiency target was replaced for the 2000 Spending Review period (2001-04) by a Public Service Agreement Target to "achieve value for money improvements of 2.5 per cent. a year across the Department", which was carried over into the 2002 Spending Review (2003-06). In 2001-02 value for money improvements under this target amounted to 3.79 per cent. (£16 million on projected costs of £422.3 million); and in 2002-03 amounted to 4.5 per cent. (£20.2 million on projected costs of £449.9 million).

Value for money improvements related to administration under the SR2002 PSA12 value for the money target amounted to £35.4 million in 2003-04 and £351.7 million in 2004-05. The Department's performance for 2005-06 against this PSA target will be covered in the 2006 departmental report, which was due to be published in spring 2006.

In the 2004 Spending Review the Department committed to achieve annual efficiencies of at least £380 million by 2007-08. The 2005 Autumn Performance Report, published last December, provides the most recent assessment of the Department's performance against this target. £27.97 million efficiency gains related to administration spend were achieved by the end of Quarter 2.

Airbus

Nick Harvey: To ask the Secretary of State for Trade and Industry what Government grants were awarded to BAE Systems for the purchase of shares in Airbus in 1979. [82416]

Margaret Hodge: The Department has no record of grants being given to either British Aerospace or its successor BAE Systems for the purchase of shares in Airbus.

Andrew Miller: To ask the Secretary of State for Trade and Industry what the cost *(a)* gross and *(b)* net after loan repayments was of support by the UK Government to Airbus programmes in each year since 1985. [83570]

Margaret Hodge: Launch investment is a risk-sharing Government investment in the design and development of civil aerospace projects in the UK. It is not a loan. The investment is repayable at a real rate of return, usually via levies on sales of the product.

The amounts paid to Airbus in launch investment and the amounts received from Airbus in repayment of launch investment in each of the years from 1984-85 to 2005-06 inclusive are set out in the following table, with the net figures (Receipts-Payments) in the final column.

£ million

	Payments	Receipts	Net
1984/85	46.5	0.0	-46.5
1985-86	73.0	0.0	-73.0
1986-87	86.0	0.0	-86.0

1991-92	73.5	55.4	-18.1
1992-93	28.6	40.9	12.3
1993-94	0.0	29.4	29.4
1994-95	0.0	19.2	19.2
1995-96	0.0	29.3	29.3
1996-97	0.0	42.7	42.7
1997-98	0.0	85.4	85.4
1998-99	0.0	134.6	134.6
1999-2000	0.0	167.4	167.4
2000-01	0.0	119.7	119.7
2001-02	136.0	103.4	-32.6
2002-03	139.0	88.7	-50.3
2003-04	255.0	78.3	-176.7
2004-05	0.0	91.7	91.7
2005-06	0.0	110.5	110.5
Total	1,226.4	1,240.5	14.1

Businesses (Peterborough)

Mr. Stewart Jackson: To ask the Secretary of State for Trade and Industry how many businesses in *(a)* Peterborough constituency and *(b)* the Peterborough city council area (i) started up and (ii) ceased trading in each of the last nine years; and if he will make a statement. [85970]

Margaret Hodge: I refer the hon. Member to the answer I gave on 16 June 2006, *Official Report*, columns 1484-85, which contains data for each year starting nine years ago up to the latest available.

Canatxx

Mr. Wallace: To ask the Secretary of State for Trade and Industry whether *(a)* he has and *(b)* Ministers in his Department have received official hospitality from Canatxx Ventures Ltd and Canatxx UK and its associated companies in the last four years. [85272]

Jim Fitzpatrick: No DTI Ministers have received official hospitality from Canatxx UK Ltd, Canatxx Energy Ventures Ltd or any of its associated companies in the last four years.

Civil Service Secondees

Dr. Iddon: To ask the Secretary of State for Trade and Industry how many people from science and technology backgrounds have been seconded into the civil service in his Department in each of the last three years. [48412]

Jim Fitzpatrick: The DTI has had and continues to have people seconded who have science and technology backgrounds. Where an S and T background is an

essential requirement for a secondment we will take the appropriate steps to check the applicant's qualifications.

The DTI has had a number of people seconded from science and technology backgrounds in the last three years, although we do not hold this information centrally. As the Department dedicated to maximising the contribution of the science and technology fields to the UK's economic development—and the quality of our lives—we are delighted to have such expertise within the DTI.

Miners' Compensation

Sir Peter Soulsby: To ask the Secretary of State for Trade and Industry which solicitors have received payments under the *(a)* vibration white finger and *(b)* chronic obstructive pulmonary disease conditional fee agreement for coal health compensation claims for claims registered by claimants living in Leicester, South constituency; and whether Vendside Ltd has received any payment from his Department for coal health compensation claims registered by claimants living in that constituency. [84113]

Malcolm Wicks: Conditional fee agreements do not form part of either the vibration white finger (VWF) or chronic obstructive pulmonary disease (COPD) schemes. Solicitors are paid according to a tariff set out in the respective Claims Handling Agreement. The tables list the solicitors, including Vendside/UDM, that have received payments in accordance with those tariffs for representing claimants from the Leicester, South constituency:

VWF

Solicitor	*Costs paid (£)*
Ashton Morton Slack Solicitors	757
Beresfords Solicitors	470
Moss Solicitors	4,678
Oxley and Coward Solicitors	2,697
Vendside / UDM	1,351
Watson Burton LLP	737
Total	10,690

OPD

Solicitor	*Costs paid (£)*
Ashton Morton Slack Solicitors	1,770
Atteys	3,393
Avalon Solicitors	10,495
Beresfords Solicitors	8,543
Blackett Hart and Pratt Solicitors	1,223
BRM Solicitors	4,175
Browell Smith and Co.	6,059
Delta Legal	2,586
Bac Solicitors	2,977
Dodds and Partners	2,888
Gorman Hamilton Solicitors	5,451
Hugh James	15,562
Irwin Mitchell Solicitors	2,079
Kidd and Spoor Harper Solicitors	1,834
Mark Gilbert Morse	9,066
Marrons Solicitors	1,090
Moss Solicitors	46,148

OPD

Solicitor	*Costs paid (£)*
O. H. Parsons and Partners Solicitors	3,055
Proddow and Mackay Solicitors	2,963
Raleys Solicitors	1,792
Thompsons Solicitors	5,659
Vendside Ltd	10,557
Watson Burton LLP	23,393
Wilson Browne incorp. Holyoak and Co.	3,055
Total	175,814

In addition, Vendside have been paid an additional £2,333 in costs for handling claims for Industrial Deafness for Leicester, South constituents which are dealt with under common law.

John Mann: To ask the Secretary of State for Trade and Industry which mining contractors have signed the chronic obstructive pulmonary disease claims handling agreement with his Department. [85431]

Malcolm Wicks *[holding answer 14 July 2006]:* I refer my hon. Friend to the answer I gave him on 12 May 2006, *Official Report*, columns 576-77W.

Departmental Expenditure

Mr. Francois: To ask the Secretary of State for Trade and Industry how much has been spent in each year since 1997 by his Department on salaries paid to civil servants. [41589]

Jim Fitzpatrick: The Department's expenditure on civil servants' salaries for 1998-99 to 2004-05 is detailed as follows. Figures from 1999-2000 are taken from the Department's Resource Accounts, which are published annually by the Stationery Office. Total resource budgets for 2002-03 and 2003-04 included exceptional provisions to reflect accounting adjustments in respect of the Department's liabilities. Prior to 1998-99, figures were not produced on the same basis and comparable figures are not available other than at disproportionate cost.

Financial year	*£000*	*Percentage of total resource budget*
1998-99	198,857	7.0
1999-2000	197,643	7.0
2000-01	211,943	4.8
2001-02	207,108	4.8
2002-03	217,359	3.0
2003-04	243,155	2.2
2004-05	232,200	4.6

Energy Review

Mr. Dai Davies: To ask the Secretary of State for Trade and Industry which external consultants were contracted to process submissions to the energy review; what criteria were adopted in choosing the consultants; whether the contract was subject to competitive tender; what the total value was of each contract; what responsibility each consultant was given; and what the length was of each contract. [85540]

Malcolm Wicks: AEA Technology Environment were contracted, by competitive tender, to support the analysis of the submissions to the Energy Review consultation exercise.

Their report is on the DTI website at http://www.dti.gov.uk/files/file31631.pdf

Enterprise

Mr. Carmichael: To ask the Secretary of State for Trade and Industry pursuant to his oral statement of 4 May 2006, *Official Report*, column 537WH, on Enterprise, on what date the manufacturing day during enterprise week will be held. [85684]

Margaret Hodge: Enterprise Week is to be held from 13 to 19 November 2006. On 14 November there will be a strong focus on the manufacturing sector, with regional events taking place led by industry.

Enterprise Insight

Mr. Carmichael: To ask the Secretary of State for Trade and Industry in which local authorities Enterprise Insight will be establishing local campaign hubs; on what basis these areas were selected; and how other local authorities can apply for campaign hubs to be based in their locality. [85679]

Margaret Hodge: Local Enterprise Campaign Hubs are being set up in Coventry, Liverpool, Lowestoft, Tees Valley and Wakefield. The local authorities looking after these areas are Coventry city council, Liverpool city council, Waveney district council, Redcar and Cleveland borough council and Wakefield metropolitan district council respectively.

These areas were selected as they have low levels of entrepreneurial activity, and high levels of deprivation.

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what independent assessment has been made of the effectiveness of money spent by the Enterprise Insight campaign. [85682]

Margaret Hodge: Enterprise Insight employs a variety of monitoring tools to assess the effectiveness on the campaign.

These include an annual survey that monitors young people's attitudes across the country and tracks changing levels of awareness of the campaign.

Enterprise Insight is currently commissioning an independent organisation to develop monitoring and evaluation systems for each enterprise campaign hub as it is rolled out. In early 2008, this organisation will produce an evaluation that will assess the impact of the campaign hubs.

Enterprise Insight has put in place a number of more specific monitoring tools that:

(a) Capture through on-line reporting all the events taking place during Enterprise Week.

(b) Independently, through 'Growth from Knowledge—National Opinion Polls', run a post Enterprise Week survey of all organisations that ran activities during Enterprise Week.

(c) Independently monitor the level and range of media coverage.

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what *(a)* salary and *(b)* benefits are paid to the Chief Executive of Enterprise Insight; and what salary was advertised when this position was last vacant. [85683]

Margaret Hodge: Enterprise Insight is an independent organisation, founded and run by the four main business organisations (Institute of Directors, British Chambers of Commerce, CBI and Federation of Small Businesses), with support from DTI.

The DTI's Small Business Service co-funds Enterprise Insight, but the Enterprise Insight Board independently determines its staff remuneration levels.

Equal Pay

Ms Katy Clark: To ask the Secretary of State for Trade and Industry how many *(a)* women and *(b)* men are employed in the Department; what the average pay was for (i) women and (ii) men in the Department in (A) 1997 and (B) 2006; what women's average pay is as a percentage of men's average pay; and how many (1) women and (2) men the Department employed in each of the last five years, broken down by grade. [67780]

Jim Fitzpatrick: The Cabinet Office collects and publishes annually statistical information on the civil service by Department. This includes data on the employment of men and women. Information on the numbers of women and men employed in the civil service broken down at 31 December 2005 is available in the Libraries of the House and on the civil service website at:

www.civilservice.gov.uk/management/statistics/employment/index.asp

It should be borne in mind that the figures for DTI published by Cabinet Office include additional staff such as those employed in Executive agencies.

The Department of Trade and Industry (including UK Trade and Investment and Small Business Service, but excluding Executive agencies) employs *(a)* 1,682 women (1,596.3 full-time equivalent) and *(b)* 2,176 men (2,165.3 full-time equivalent) at 9 November 2005.

DTI measures equal pay for those not in the senior civil service as part of a regular and ongoing equal pay review programme. Equal pay is measured for the senior civil service by the Cabinet Office.

The average pay was for (i) women and (ii) men in the Department in (A) 2000-01 and (B) 2005-06 and what women's average pay is as a percentage of men's average pay are shown in the following table.

2000-01 is the earliest period for which an accurate comparison can be provided.

	2005-06	*2000-01*
Women	25,740	20,011
Men	29,070	24,968
Women's pay as percentage of men's	88.5	80.2

The number of (1) women and (2) men the Department employed in three of the last five years, broken down by grade, is shown in the following table. Data for 2001, 2003 and 2005 are readily available having previously been used for other purposes. Data for 2002 and 2004 can be provided, but at disproportionate cost.

Permanent staff by responsibility level and gender: 2001, 2003 and 2005—Department of Trade and Industry (core staff including UKTI and SBS)

[1] This table shows staff in their substantive responsibility level, and therefore ignores the effect of temporary promotions.
[2] Part-time staff are recorded according to the proportion of full-time hours worked.

Fuel Bills

Chris Huhne: To ask the Secretary of State for Trade and Industry what the *(a)* mean and *(b)* median household (i) gas and (ii) electricity bill was in the last period for which figures are available; and if he will estimate the bill paid at each decile of income distribution in each case. [84736]

Malcolm Wicks: The Expenditure and Food Survey conducted by the Office for National Statistics showed that in 2004-05 the mean amount spent on gas was £287 per annum, while the mean amount spent on electricity was £313.

The median spend on gas was £271, while the median spend on electricity during 2004-05 was £276.

The amount of spend for the top of each decile in the distribution is shown for both gas and electricity in the table:

£

Decile (top of):	Annual spend on fuel according to position in spend decile (2004-05) Gas	Electricity
1	0	44
2	0	156
3	130	199
4	221	241
5	271	277
6	325	317
7	373	373
8	445	456
9	577	574

Source: Office for National Statistics

Those in the lowest deciles of gas spend will pay nothing for their fuel due to a lack of connection to the gas network.

The amount spent on gas and electricity by each decile in the income distribution is as follows:

£

Income decile	Annual spend on fuel per income decile[1] Gas	Electricity
Lowest	177	219
Second	219	250
Third	240	266
Fourth	266	287
Fifth	287	308
Sixth	292	318
Seventh	308	344
Eighth	339	360
Ninth	349	370
Tenth	417	428

Family Spending: A Report on the 2004-05 Expenditure and Food Survey (ONS: 2005)

Fuel Poverty

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry what steps his Department is taking to eliminate fuel poverty in vulnerable households in England by 2010. [85461]

Malcolm Wicks: Responsibility for tackling fuel poverty in England is shared between the Department of Trade and Industry, and the Department for Environment, Food and Rural Affairs. Following the Energy Review, we will be taking forward work with energy suppliers and other key players to examine how the continuing challenge of fuel poverty can be best addressed. The Energy Review also commits us to looking hard at how we can maximise the contribution made by our existing schemes. The Department of Trade and Industry will play an important role in this analysis.

The Department for Environment, Food and Rural Affairs leads on the Warm Front scheme in England. The Warm Front scheme has resulted in improvements to the energy efficiency of the housing of those on a range of qualifying benefits and has provided assistance to over a million vulnerable households since 2000.

The Department of Trade and Industry itself has a number of policies to tackle the issue of fuel poverty. It has liaised closely with energy suppliers on the development of the Home Heat Helpline, which provides vulnerable customers and their representatives with a central point of information relating to the help available from their energy supplier and Government. It has encouraged the introduction of social tariffs and price freezes for fuel poor and low income customers.

The Department's Design and Demonstration Unit is a team of private sector secondees that works in support of Energy White Paper objectives. As part of the Unit's work, it has designed and delivered projects to provide gas connections to deprived communities, and it is now developing community projects utilising renewable technologies.

Fuel Prices

Chris Huhne: To ask the Secretary of State for Trade and Industry what his estimate is of the difference in the average price of a litre of petrol in rural and non-rural areas in each year since 1997; and if he will make a statement. [85880]

Malcolm Wicks: I am not aware of any data source that provides information on rural and non-rural petrol prices. There is anecdotal evidence that petrol prices in rural areas are likely to be higher than non-rural areas.

There are a variety of reasons why this is likely to be the case. These include:

Fuel throughput, in that the higher the throughput the lower the retail margin required to give a return on the investment. Rural garages are likely to have lower throughputs.

Bulk delivery charges, many sites have relatively small storage tanks since they are cheaper to install. However, they require more frequent replenishment and this results in some sites paying higher delivery charges. Again smaller tanks are likely to be more prevalent is smaller, rural petrol stations.

Competition; large, particularly supermarket sites in close proximity to one another in urban areas do tend to lead to lower prices.

Regional petrol prices are available on the AA website at http://www.theaa.com/motoring_advice/fuel/index.html.

Home Computing Initiative

Peter Luff: To ask the Secretary of State for Trade and Industry what discussions he has had with representatives of the home computing industry about the consequences of the abolition of the Home Computing Initiative. [63837]

Mr. Darling: I would like to apologise to the hon. Member for the delay in replying to the matter raised. In response to his query I can confirm that the DTI has regular discussions with the industry on all matters of concern relevant to their sector.

Peter Luff: To ask the Secretary of State for Trade and Industry on what date the Home Computing Initiative was made available to staff in his Department; and how many staff had *(a)* applied for and *(b)* expressed interest in the scheme before the Budget. [63838]

Mr. Darling: The Home Computing Initiative was made available to staff in DTI and Insolvency Service (an executive agency of DTI that is participating in the DTI scheme) on 15 March 2006 as part of a wider scheme incorporating computers, childcare and bikes.

Over 400 staff in DTI expressed an interest in the scheme when it was initially contemplated in mid-2005.

Sixty-four people had registered for computers in the period 15 to 22 March (Budget day) and approximately 240 had registered by the computer closing date of 30 March. These figures include staff from DTI and Insolvency Service.

Peter Luff: To ask the Secretary of State for Trade and Industry if he will place in the Library the communications from his officials to HM Treasury on the home computing initiatives relating to the abolition of the tax exemption in the Budget. [66512]

Mr. Darling: I would like to apologise to the hon. Member for the delay in replying to the matter raised. In response to his query I can confirm that the DTI have regular discussion with the Treasury on budgetary initiatives.

Peter Luff: To ask the Secretary of State for Trade and Industry what the cost was of setting up his Department's Home Computing Initiative scheme, including consultancy and administrative costs. [66513]

Mr. Darling: I refer the hon. Member to the answer given to the hon. Member for South-West Hertfordshire (Mr. Gauke) on 20 April 2006, *Official Report*, column 762W.

Jo Swinson: To ask the Secretary of State for Trade and Industry when he was first informed by the Treasury of the withdrawal of the tax exemption for loaned computer equipment under the Home Computing Initiative Scheme. [64166]

Mr. Darling: *[holding answer 18 April 2006]:* I would like to apologise to the hon. Member for the delay in replying to the matter raised. In response to her query the DTI have regular discussions with the Treasury on budgetary issues.

Home Working

David Simpson: To ask the Secretary of State for Trade and Industry how many people in his Department have been enabled to work from home in each of the last three years; and if he will make a statement. [67998]

Jim Fitzpatrick: All members of staff with an appropriate job are allowed to work from home subject to their line manager's approval. Laptops have been provided to staff that allow access to the Department's IT Systems. Many of these were configured to allow staff to share them.

2003-04

1,400 Laptops were in use for secure remote access. The shared facility enabled up to 2,200 staff to use these machines if approved to do so.

2004-05

1,550 Laptops were in use for secure remote access. The shared facility enabled 2,550 staff to use these machines if approved to do so.

2005-06

1,550 Laptops were in use at the start of the year but this reduced to 1,200 by end-March 2006, as a consequence of the efficiency programme and reduction in staff numbers. A corresponding reduction in shared usage was applicable.

Ministerial Visits

David Simpson: To ask the Secretary of State for Trade and Industry on how many occasions he has visited each region in an official capacity in the last 12 months. [84009]

Margaret Hodge: The Secretary of State for Trade and Industry has visited the North West twice and the North East, South East and East Midlands once.

Nuclear Energy

Paul Flynn: To ask the Secretary of State for Trade and Industry pursuant to paragraph 5.134 of the Energy Review, Cm 6887, whether the Environment Agency will be able to recover *(a)* in full and *(b)* in part from any company putting forward proposals to build new nuclear plants the costs of the pre-licensing work. [86082]

Malcolm Wicks: Paragraph 5.9 of the Environment Agency submission to the Energy Review stated that:

"We will need to recover the costs associated with pre-authorisation/licensing assessments. There are legal provisions in the EA 95 to enable our costs to be recovered."

Mr. Dai Davies: To ask the Secretary of State for Trade and Industry whether it is his policy to replace those nuclear stations that he identifies in the Energy Review as coming to the end of their operational lives. [86114]

Malcolm Wicks: Any new power stations would be proposed, developed, constructed and operated by the private sector. It is for the private sector to make judgements on the future relative costs of different generating technologies, within the market framework established by Government. Developers will make their proposals for new generating capacity based on these judgments.

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry what estimate his Department has made of the level of government subsidies likely to be required to stimulate the commissioning of new nuclear generating stations by energy companies. [85568]

Malcolm Wicks: It will be for the private sector to initiate, fund, construct and operate any new nuclear power station, and also meet full decommissioning costs and their full share of long term waste management costs.

Nuclear Materials (Transportation)

Mr. Carmichael: To ask the Secretary of State for Trade and Industry whether vessels transporting nuclear material are escorted by the Royal Navy. [84866]

Malcolm Wicks *[holding answer 13 July 2006]:* All shipments of civil nuclear material on a UK flagged vessel are carried out in accordance with the Nuclear Industries Security Regulations (NISR) 2003 which are administered and enforced by the Government's independent security regulator, the Office for Civil Nuclear Security (OCNS). Before any shipment can commence, OCNS must be satisfied that the overall security measures are adequately robust to prevent the theft or sabotage of the material being transported.

British flagged transport vessels carrying nuclear material are not routinely escorted by the Royal Navy, but, where appropriate, prior coordination with the Royal Navy will be an important factor in the assessment of a Transport Security Plan. The ships will carry an escort unit of the Civil Nuclear Constabulary's (CNC) Marine Escort Group, which provides armed security for nuclear materials in transit. The Marine Escort Group has been specially trained to a high standard by the Royal Navy.

Offshore Transmission Regime

Danny Alexander: To ask the Secretary of State for Trade and Industry pursuant to paragraph 5.57 of the Energy Review, what the scope is of the work being conducted on developing an offshore transmission regime; and if he will make a statement. [85723]

Malcolm Wicks *[holding answer 17 July 2006]:* Following my announcement on 30 March 2006 that the Government had decided to extend the regulated price control model to offshore transmission, DTI and Ofgem are working with industry to develop that new regime.

Ofgem issued a scoping document setting out the main issues that need to be considered on 3 April 2006. The document can be found at:

http://www.ofgem.gov.uk/temp/ofgem/cache/cmsattach/14533_6006.pdf

Further information about the project to deliver the new regime including project structure, governance and timetable can be found at:

http://www.dti.gov.uk/energy/sources/renewables/policy/offshore-transmission/page28604.html

and

Post Office Closures

Daniel Kawczynski: To ask the Secretary of State for Trade and Industry if he will make a statement on the closure of the Shrewsbury post office. [85484]

Jim Fitzpatrick: I understand that the directly managed office in Shrewsbury is to be relocated to premises 50 yards away under a franchising agreement and customers will benefit from extended opening hours and have access to the same full range of services. Decisions on individual offices are an operational matter for Post Office Ltd. The 500 directly managed post offices made combined annual losses of some £50 million in 2005-06 and Post Office Ltd are seeking more cost-effective ways of providing main post office services to the public.

Recruitment

Mr. Jenkins: To ask the Secretary of State for Trade and Industry how much *(a)* his Department and *(b)* its agencies spent on recruitment, search and selection agencies in each of the last five years. [68337]

Jim Fitzpatrick: Expenditure on recruitment for the past three financial years has been extracted from the Department's finance system. Information for the other years requested is not readily available on a consistent basis and would be available only at disproportionate cost.

The following table shows the breakdown on recruitment, search and selection agencies by DTI and its agencies.

Financial year	*Expenditure on recruitment, search and selection agencies (£000)*
2003-04	1,427
2004-05	784
2005-06	1,009

Renewable Energy

Chris Huhne: To ask the Secretary of State for Trade and Industry what assessment he has made when benchmarking UK performance of the proportion of *(a)* energy and *(b)* electricity in other EU countries which is supplied from renewable sources. [84956]

Malcolm Wicks: According to data published by Eurostat in 2004 the United Kingdom ranked 17th of the 25 member states of the EU in terms of the share of electricity from renewable energy to gross electricity consumption. In 1995 the UK ranked 19th and if all countries meet their 2010 targets the UK will move up to 15th. It should be noted that the countries that rank highest (Austria, Latvia and Sweden) have significant and well developed hydro resources and plentiful supplies of biomass (mainly wood).

The International Energy Agency (IEA) produces statistics that exclude hydro generation from the renewables share of electricity production, but this is available for only 19 of the 25 EU member states that are also IEA members. On this basis the UK ranked 13th out of 19 in the latest available year (2003) with Denmark the highest ranking because of its well-developed wind power sector.

The IEA also produces statistics on the contribution of renewable sources to total primary energy supply for the 19 EU member states. Here the UK ranked 17th out of 19 in 2003.

The spring 2006 edition of the "Ernst and Young Renewable Energy Country Attractiveness Indices", which provide scores for national renewable energy markets, support mechanisms, renewable energy infrastructures and their suitability for individual technologies, placed the UK fifth most attractive in the world (third in Europe) of all countries http://www.ey.com/global/content.nsif/International/ECU_Library

The UK has a target that by 2010, 10 per cent. of all UK electricity produced will come from renewable sources. It was recently announced in the Energy Review (2006) that, in order to further boost investors' confidence, the Renewables Obligation would be extended to 20 per cent.

Restriction of Hazardous Substances

Mr. Greg Knight: To ask the Secretary of State for Trade and Industry what representations he has received on the Restriction of Hazardous Substances regulations from small business and sole traders; and if he will make a statement. [85583]

Malcolm Wicks: The DTI consulted on the Restriction of Hazardous Substances Directive on three separate occasions before the regulations were laid before Parliament. On each occasion we received representations from a wide range of stakeholders including small businesses, sole traders and trade bodies representing these interests.

Russia

Mr. Hoyle: To ask the Secretary of State for Trade and Industry (1) how much gas his Department estimates the UK will import from Russia in *(a)* 2006, *(b)* 2010 and *(c)* 2020, (i) as a percentage of total consumption and (ii) in cubic metres; and what percentage of that gas his Department estimates will be (A) produced by Gazprom and (B) transported through Gazprom's pipeline network; [85082]

(2) what assessment his Department has made of the impact on the security of gas supply to the UK of the law passed by the Russian State Duma on Gazprom's control of gas exports from Russia; [85083]

(3) what his assessment is of the impact on UK businesses of the proposed amendments to Russia's Subsoil Law on foreign participation in Russian oil and gas projects; [85084]

(4) what his assessment is of the impact on security of energy supplies to the UK of the Russian Federation's *(a)* level of compliance with the provisions of the Energy Charter Treaty and *(b)* policy on the Transit Protocol to the Energy Charter Treaty; [85085]

(5) what assessment his Department has made of the impact on UK investments in Russia of the Russian Federation's level of compliance with the Energy Charter Treaty; [85086]

(6) what plans he has to make representations to his Russian counterpart about the proposed amendments to Russia's Subsoil Law on foreign participation in Russian oil and gas projects. [85088]

Malcolm Wicks: The UK's gas import dependence is set to rise to 80-90 per cent. by 2020, of which a significant proportion is expected to be imported from the European mainland through existing and planned interconnection capacity. The International Energy Agency forecast that the EU will import 25 per cent. of its gas needs from Russia by 2030. It is, therefore, possible that some Russian gas will be imported into the UK, albeit indirectly and commingled with gas from other sources (such as Norway, the Netherlands and LNG from outside Europe) as part of the European gas system.

The contractual origin of imports into the UK is a decision for companies operating in the UK's liberalised gas market, taking into account elements such as cost, reliability, availability and the need for a diverse range of sources to provide security of supply. Given that there is no direct physical interconnection capacity with Russia and contractual flows do not necessarily follow physical flows, estimates of the type requested are not made.

Given that the UK does not import directly from Russia, any impact on the UK from Russia's legislation or compliance with international agreements such as the Energy Charter Treaty will be felt most directly through its effect on European markets. As such, the UK will continue to press for open, competitive and liberalised European energy markets.

In the short term, we expect the Russian gas export laws to have very little real effect on European security of supply, as Gazprom's already holds a defacto monopoly on exports by virtue of their network ownership. Longer-term effects are unclear; however, should gas transit through Russia become too commercially unattractive, Caspian and Central Asian

producers will begin to seek alternative supply routes for their products to European and global markets.

The proposed legislative changes surrounding Russia's subsoil law continue to be subject to discussion in the Russian government. The DTI and FCO are in contact with UK businesses involved in the Russian Energy market, in order to remain updated on the impact that any final series of laws may have.

The UK, with other EU member states, will continue to encourage Russia to liberalise its domestic markets and provide fair and open access to its resources and pipelines in order to foster further competition in energy supplies into Europe and to ensure best use is made of its finite resources.

The UK, with other G7 members, has encouraged Russia to move forward during its G8 presidency and ratify the Energy Charter Treaty, of which it is already a signatory and applies on a provisional basis. We would envisage that these Global Energy Security discussions will continue during the Russian presidency of the G8.

Russia has called for the negotiations on the Transit Protocol to be completed before it can ratify the full Treaty. Through the EU, we continue to work with Russia towards an agreed text for the Transit Protocol while at the same time emphasising to Russia the importance of open, transparent, efficient and competitive markets at all stages of the energy supply chain as the key to global energy security..

Whilst the absence of ratification may bring some uncertainty to the rights of both foreign and domestic investors, it is important to note that the UK has a separate bi- lateral investment Treaty with Russia that protects the investment of UK firms.

Sir Alistair Graham

Mr. Spellar: To ask the Secretary of State for Trade and Industry when Sir Alistair Graham was appointed to the Independent Committee for the Supervision of Standards of the Telephone Information Services; when he took up his position; and what his rate of remuneration is. [85541]

Margaret Hodge: Sir Alistair Graham was appointed as Chairman of ICSTIS on 2 February 2006. Sir Alistair took up his appointment on 1 June 2006 and he receives an annual salary of £45,000.

Small Change Big Difference

Anne Milton: To ask the Secretary of State for Trade and Industry what steps his Department and its agencies have taken following the launch of the Government's Small Change Big Difference Campaign. [72015]

Jim Fitzpatrick: None specifically. The Department already promotes healthier lifestyles by providing its employees with gym facilities; healthier eating choices and fresh fruit are always available in the staff canteen.

Staff Development

David Simpson: To ask the Secretary of State for Trade and Industry what the total cost was of *(a)* staff away days and *(b)* staff team building exercises in his Department in each of the last three years. [69005]

Jim Fitzpatrick: This information is not readily available and can be obtained only at disproportionate costs.

Uranium

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry what analysis his Department has undertaken of the security and sustainability of the UK's supply of uranium for civil use. [85462]

Malcolm Wicks: In addition to responses to the Energy Consultation the Department analysed the following:

OECD Nuclear Energy Agency and the International Atomic Energy Agency, "Uranium 2005—Resources, Production and Demand". OECD Publications, Paris, June 2006.

OECD Nuclear Energy Agency and the International Atomic Energy Agency, "Uranium 2003—Resources, Production and Demand". OECD Publications, Paris, July 2004.

Sustainable Development Commission, "The role of nuclear power in a low carbon economy—Paper 8: Uranium Resource Availability". March 2006.

Morgan Stanley, Supply/Demand Outlook: Uranium Oxide—Inventory Cycle Coming to an End, "Basic Materials: Global Insights". December 15, 2004, pp 47-52

Morgan Stanley, Uranium Oxide—Gaining Momentum on a Forecast Supply Deficit, "Metals & Mining: Global Insights"—April 6, 2005 pp 16-19

TradeTech, LLC's Uranium Information web site: http://www.uranium.info/ind.ex.html

World Nuclear Association, Resources and Uranium Market: http://www.world-nuclear.org/info/info.htm#resourcesumarket

Welsh Energy Policy

Mr. Dai Davies: To ask the Secretary of State for Trade and Industry which aspects of energy policy in Wales are *(a)* devolved to the Welsh Assembly Government and *(b)* reserved matters for the United Kingdom Government. [86423]

Malcolm Wicks: In energy policy the Welsh Assembly Government are responsible for the areas of fuel poverty, energy efficiency and some aspects of planning.

The Energy Review document, "The Energy Challenge" provides detail about which areas of planning are devolved, and which are reserved.

This information can be found on pages 138-141 of the above document, which can be accessed on the DTI website: www.dti.gov.uk/energy/review.

FIFA World Cup

Mr. Hands: To ask the Secretary of State for Trade and Industry how many complimentary tickets his Department has received for games taking place at the FIFA World Cup 2006 in Germany. [63907]

Jim Fitzpatrick: We have not been notified of any employees receiving complimentary tickets for World Cup matches that took place in Germany this summer.

COMMUNITIES AND LOCAL GOVERNMENT

Local Government Projects

Bob Russell: To ask the Secretary of State for Communities and Local Government how much funding her Department provided to 4ps in each of the last five years; and how much funding has been allocated for 2006-07. [86252]

Angela E. Smith: The Government paid the following amounts of Revenue Support Grant to the Public Private Partnerships Programme:

	£
2001-02	1,109,000
2002-03	1,250,000
2003-04	2,875,000
2004-05	2,947,000
2005-06	3,947,000
2006-07	4,447,000

In addition, the Department's predecessors paid the 4ps the sum of £80,250 for the development of a procurement pack for Joint Service Centre PFI projects, of which £35,250 was paid in 2002-03 and £55,000 in 2003-04.

Bob Russell: To ask the Secretary of State for Communities and Local Government what role 4ps has in the decision-making process during procurement; and if she will make a statement. [86253]

Angela E. Smith: Subject to their legal duties, including the duty of best value and public procurement law, local authorities are responsible for taking their own decisions on procurement. In conjunction with other change agents, such as the regional centres of excellence, 4ps offers support to local authorities, including through the national efficiency and strategic procurement skills programme.

Bob Russell: To ask the Secretary of State for Communities and Local Government what guidance her Department has issued to 4ps about its responsibilities under the Freedom of Information Act 2000 to make available, on request, its reports on projects which it has considered. [86254]

Angela E. Smith: 4ps is an independent company owned by the Local Government Association. The Department for Communities and Local Government (DCLG), alongside other bodies, provides 4ps with funding to meet the capacity building needs of local authorities. DCLG has not issued guidance to 4ps on its responsibilities under the Freedom of Information Act 2000.

Consultation Papers

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government to what extent her Department stores responses to consultation papers *(a)* electronically and *(b)* solely in hard copy. [85707]

Angela E. Smith: Where responses to consultation papers are received electronically, they are stored in that format, but they are made available in hardcopy where requested. Where responses are received as hardcopy we do not normally convert to electronic format, although the need to do so may be considered on a case by case basis.

The Department for Communities and Local Government welcomes consultation responses in any format as consultation is a key part of the policy making process. All public consultations are subject to the Consultation Code of Practice.

Council Tax

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what estimate the Government has made of the proportion of an average Band D council tax bill in England that funds *(a)* domestic waste collections and *(b)* domestic waste disposal. [85714]

Mr. Woolas: It is not possible to say how much of council tax income can be attributed to pay for any particular service. This is because it is not possible to say whether any item of revenue expenditure is funded from council tax or from the government grants and business rates that also finance revenue expenditure.

Domestic waste collection and disposal costs for local authorities in England in 2004-05 are estimated at £1.3 billion and £1.4 billion respectively. This is 1.4 per cent. and 1.5 per cent. respectively of net current expenditure by local authorities in England.

Departmental Websites

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what websites come under her Department's responsibility; and what the *(a)* cost and *(b)* number of visitors to those sites were in 2005-06. [83099]

Angela E. Smith: I refer the hon. Lady to the answer given to the hon. Member for Wealden (Charles Hendry) on 4 July 2006, *Official Report*, column 958W for the list of websites under the Department's responsibility and the cost of those sites. Visitor figures are shown as follows for DCLG sites April 2005-March 2006. DCLG websites are hosted on a number of platforms with different methodologies for evaluating usage. I have listed those sites for which visitor figures are available. Where estimated, figures are based on averages or projections of available data where hosting arrangements changed during the year.

	Visitor figures
Main corporate site (odpm.gov.uk and subdomains)	[1]2,271,208
Planning portal (planningportal.gov.uk)	834,432
Renewal net (renewal.net)	752,190
Women and equality unit (womenandequality.gov.uk)	[1]272,400
Info4local (info4local.gov.uk)	246,500
Neighbourhood renewal unit (neighbourhood.gov.uk)	164,137
Supporting people (spkweb.org.uk)	137,579
Fire Kills (www.firekills.gov.uk)	316,813
Other DCLG sites for which statistics are available	246,714

[1] Estimated

Employment Opportunities (Ethnic Minorities)

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government what steps are being taken to promote opportunities for *(a)* women and *(b)* men of ethnic minority origin to gain employment in (i) Coventry, South and (ii) the West Midlands. [83418]

Mr. Jim Murphy: I have been asked to reply.

We are committed to helping all those who may be disadvantaged in the labour market. Specifically, we have a public service agreement target to

'Increase the employment rate of ethnic minorities and significantly reduce the difference between the overall employment rate and that of ethnic minorities'.

Support for people from ethnic minorities is provided locally through Jobcentre Plus, which offers employment services to all people of working age. For those furthest from the labour market and who are not using Jobcentre Plus services, our Ethnic Minority Outreach programme also offers the opportunity for people to find and keep work. Since its introduction Ethnic Minority Outreach has achieved over 10,000 successful job outcomes.

On 11 July we announced the launch of a new independent body to help ethnic minorities find work. The Ethnic Minority Advisory Group, which is made up of 22 representatives from across the ethnic

community, has been set up as part of the Government's welfare reform agenda to boost employment opportunities for ethnic minorities.

The new advisory group will be a way of getting to the heart of the community and finding out the best ways to close the employment gap. To do this, we will work in partnership, focussing on what will work for local communities.

Housing Act

David Taylor: To ask the Secretary of State for Communities and Local Government when she next plans to discuss the operation of section 21 (4a) of the Housing Act 1988 with local authority representatives. [82709]

Angela E. Smith: My Department has never received any requests from local authorities or their representative bodies to discuss with them section 21 (4a) of the Housing Act 1988. This is the section that allows private landlords, by giving two months notice, to regain possession of their property following the end of a contracted fixed term or during a periodic tenancy provided it is six months after the start of the original tenancy.

Swindon Council

Mr. Wills: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effectiveness of the meetings held by officials from her Department with Swindon borough council in 2004 and 2005 to improve the performance of the councillors running Swindon borough council. [86001]

Angela E. Smith *[holding answer 17 July 2006]:* Meetings between officials from the then ODPM and Swindon borough council during 2004 and 2005 were intended to encourage a sustained focus by the Council on overall improvement of its performance. By December 2005, Swindon had improved from a Comprehensive Performance Assessment rating of "poor" to achieve a rating of two stars and "improving well". In the light of this improved performance, ODPM's close engagement with Swindon borough council ceased in early 2006 as it was considered to have achieved its objectives. Swindon continues to receive support, where necessary, from the Government Office for the South West.

EDUCATION AND SKILLS

Autism

Mr. Stewart Jackson: To ask the Secretary of State for Education and Skills what guidance is given to local authorities to assist them in developing best practice on the disabled children's module of the National Service Framework 2004 when identifying autistic spectrum disorder; and if he will make a statement. [85008]

Mr. Dhanda: Standard 8 of the National Service Framework (NSF) for Children, Young People and Maternity Services, targeted at local authorities and others, is for disabled children and young people and those with complex health needs. Children and young people receive co-ordinated, high-quality child and family-centred services that are based on assessed needs, promote social inclusion and, where possible, enable them and their families to live ordinary lives.

The NSF has been supported by a number of exemplars, including one on autism. This sets out an optimal pathway for a boy with autism, beginning at the age of three, from initial concern and contact with primary care, through a developmental and a multi-agency assessment, the drawing up of a family support plan and early educational intervention and on to the transitions between primary and secondary school and secondary school and adult life.

Local authorities have a duty under the Education Act 1996, where necessary, to identify, assess and make suitable provision for children with special educational needs (SEN), including those with autistic spectrum disorders. When doing so, local authorities have to have regard to the SEN Code of Practice. "Autistic Spectrum Disorders: Good Practice Guidance" (2002, Department for Education and Skills and Department of Health) is also available for local authorities. It includes pointers to good practice on identification.

Buddhism

Mr. Hancock: To ask the Secretary of State for Education and Skills pursuant to his Department's list of organisations consulted on religious issues affecting matters concerning his Department, what assessment he has made of the extent to which the Network of Buddhist Organisations is representative of that faith's adherents; and if he will make a statement. [86280]

Jim Knight: The DfES has made no such assessment. The Network of Buddhist Organisations is one of the organisations that the Department consults on relevant issues.

Bullying

Mr. Hoyle: To ask the Secretary of State for Education and Skills what the incidence of bullying in schools was in each of the last three years. [86419]

Jim Knight: We are unable to provide this information as we do not collect these data centrally. However, in our anti-bullying guidance, we encourage all schools to record incidents of bullying and there is a requirement to record all racist incidents.

CAFCASS

Mr. Drew: To ask the Secretary of State for Education and Skills (1) how many private law cases were completed by CAFCASS in *(a)* 2004-05 and *(b)* 2005-06; [83252]

(2) what the average yearly work load was for a guardian ad litem in each of the last five years. [83256]

Mr. Dhanda: These are matters for the Children and Family Court Advisory and Support Service, CAFCASS. Anthony Douglas, the chief executive, has

written to the hon. Member with this information and a copy of his reply has been placed in the House Library.

Letter from Anthony Douglas, dated 14 July 2006:

Parliamentary Questions Concerning CAFCASS

I am writing to you in response to the two parliamentary questions that you tabled recently.

PQ83252—how many private law cases were completed by CAFCASS in (a) 2004-05 and (b) 2005-06.

Private law reports completed by CAFCASS were as follows:

	Number
2004-05	29,761
2005-06	25,290

PQ83256— what was the average yearly workload for a Guardian ad Litem in each of the last five years.

CAFCASS practitioners cover public and private law cases. Some other work, such as adoption cases, can be the subject of either a public or a private law case.

Based on previous years calculations, the average workload for each individual practitioner at any one time is as follows:

	Number
Care (public)	
	10
	8
	6
	4
	0
Other non-care (private)	
	0
	6
	13
	20
	26

The duration for each care case (from application to final order) will affect the number at any one time. For the purpose of this comparison, a care case is assumed to take 52 weeks. The Public Law Judicial Protocol aims to see all cases completed within 40 weeks, and this target will be supported by the recommendations of the recent review of Care Proceedings, once implemented.

Average workloads in CAFCASS are changing considerably due to changes in working practices underway, such as the rapid rise in the amount of practitioner time going into dispute resolution work in private law cases. Other reforms, such as writing shorter more analytical reports, also aim to increase productivity and the number of cases a practitioner can deal with at any one time within a reasonable caseload.

Annette Brooke: To ask the Secretary of State for Education and Skills (1) what staff redundancies in the Children and Family Court Advisory and Support Service are projected during 2006-07; [83057]

(2) what savings the Children and Family Court Advisory and Support Service will be making during 2006-07; and what assessment has been made of the impact of these savings. [83058]

Mr. Dhanda *[holding answer 6 July 2006]:* These are matters for the Children and Family Court Advisory and Support Service, CAFCASS. Anthony Douglas, the Chief Executive, has written to the hon. Member with this information and a copy of his reply has been placed in the House Library.

Letter from Anthony Douglas, dated 14 July 2006:

I am writing to you in response to the two parliamentary questions that you tabled recently.

PQ83057—what staff redundancies in CAFCASS are projected during the current financial year.

CAFCASS has no plans for redundancies in the current financial year. I anticipate that savings targets can be achieved through increased productivity and efficiency savings.

PQ83058—what savings CAFCASS will be making during the current financial year; and whether there has been an assessment of the impact of these savings.

CAFCASS's budget in the current financial year has the same baseline as last year. Savings of £4.5 million will need to be made to balance the budget. We have received an extra £4.7 million funding from DfES for this financial year only, to help with our change programmes. This will help us to develop our IT systems, to roll out our new case management information system across all our offices, and to reform our working practices where this is needed. The bulk of savings will be made through efficiency measures, such as procurement savings and more efficient working of cases.

The impact of savings targets and measures is being kept under constant review, both at Board and Executive level.

Mr. Llwyd: To ask the Secretary of State for Education and Skills (1) what plans he has to upgrade IT systems within the Children and Family Court Advisory and Support Service in 2006-07; [83403]

(2) what plans he has for the Children and Family Court Advisory and Support Service training budget for 2006-07; [83404]

(3) what the average time taken to complete a Section 7 report in private law was in the Children and Family Court Advisory and Support Service in the latest period for which figures are available; [83405]

(4) how many cases are on the waiting list in public law in the Children and Family Court Advisory and Support Service, broken down by region; [83521]

(5) what average length of time was taken to complete a Section 7 case with private law in the Children and Family Court Advisory and Support Service in each of the last 12 months. [83522]

Mr. Dhanda *[holding answer 10 July 2006]:* These are matters for the Children and Family Court Advisory and Support Service, CAFCASS. Anthony Douglas, the Chief Executive, has written to the hon. Member with this information and a copy of his reply has been placed in the House Library.

Letter from Anthony Douglas, dated 14 July 2006:

Parliamentary Questions Concerning CAFCASS

I am writing to you in response to the five parliamentary questions that you tabled recently.

PQ83403—what plans he has to upgrade IT systems within the Children and Family Court Advisory and Support Service in 2006-07.

During 2006/07 CAFCASS will be upgrading its IT network and moving to a more up to date Internet Protocol Over Virtual Private Network system which will improve functionality and allow for further development across a range of IT-enabled initiatives. This will support the roll out of our new Case Recording System, document management systems and will support mobile/flexible working. This is a major development

programme with a detailed implementation plan. Completion of all programmes is expected by April 2007.

PQ83404—what plans he has to freeze the Children and Family Court Advisory and Support Service training budget for 2006-07.

An additional £500,000 has been put into the CAFCASS training budget in 2006-07, thereby increasing spend on training to £1.22 million. This does not include staff time, which is an additional support at both the national and regional levels.

PQ83405—what the average time taken to complete a Section 7 report in private law was in the Children and Family Court Advisory and Support Service in the latest period for which figures are available.

This figure is not kept as a statistic or performance indicator. The notional average for purposes of workload calculation is 25 hours, though with the complexity of cases increasing, this is likely to be an underestimate. A great number of cases that were once the subject of s7 reports are now dealt with earlier and quicker in our dispute resolution programmes. This in turn means the fewer cases subject to s7 reports are those much harder to resolve, and consequently, they take longer. In practice, the variation in cases is large, between 20 hours at the lower end and over 100 hours for the hardest cases.

PQ83521—how many cases are on the waiting list in public law in the Children and Family Court Advisory and Support Service, broken down by region.

Our latest figure for this, at the end of May 2006, was as follows:

CAFCASS Public Law Unallocated Cases Snapshot, End May 2006

Region	*Public Law Unallocated Cases*	*Total Workload*	*Percentage of Total Workload*
East Midlands	0	621	0.0
Eastern	30	962	3.1
Greater London	89	2,358	3.6
North East	32	663	4.8
North West	21	1,444	1.5
South East	42	838	5.0
South West	6	989	0.6
Southern	6	868	0.7
West Midlands	37	1,289	2.9
Yorkshire and Humberside	11	1,301	0.8
National Total	274	11,333	2.4

Our Key Performance Indicator for this is that no more than 3% of public law cases should be unallocated at month end.

PQ83522—what average length of time was taken to complete a Section 7 case with private law in the Children and Family Court Advisory and Support Service in each of the last 12 months.

In respect of cases received and completed during the period 1 January 2006 to 31 May 2006, the average duration of a s7 Report (working days) by regions was as follows:

Region	*Number of Days*
East Midlands	75
Eastern	65
North East	63
North West	45
South East	68
South West	58
Southern	90
West Midlands	71
Yorkshire	64

Giving a National Average of 63 days.

We do not keep statistics of how many weeks or months these days represent. Cases vary in the length they take for a range of reasons, such as their complexity, and the requirements of all the other cases an individual practitioner holds on their caseload at any given time.

Child Care

Dr. Cable: To ask the Secretary of State for Education and Skills what the total cost of the Child Care Affordability Programme (CCAP) has been in each year of its existence; and what estimate he has made of the cost of the introduction of the CCAP to all other local authorities. [85795]

Beverley Hughes *[holding answer 17 July 2006]:* The Childcare Affordability Programme launched in November 2005 is jointly funded by the London Development Agency (£22 million over 2005-08) and the DfES (£11 million over 2006-08). The DfES contribution is £5 million for 2006-07 and £6 million for 2007-08. DfES is also funding the evaluation of the Programme at a cost of £300,000.

It is too early in the Programme to consider its extension to other local authorities.

Disability Awareness

Bob Russell: To ask the Secretary of State for Education and Skills what provision is made within the school curriculum for awareness of physical, medical and mental disabilities; and if he will make a statement. [86346]

Jim Knight: There are many opportunities in the school curriculum for raising awareness of physical, medical and mental disabilities. Through the non-statutory Personal, Social and Health Education framework and statutory National Curriculum Citizenship Education, pupils are taught that differences and similarities between people arise from a number of factors, including disability, and about the need for mutual respect and understanding. Pupils are encouraged to reflect on spiritual, moral, social, and cultural issues, using imagination to understand other people's experiences. They are taught about the causes, symptoms and treatments for stress and depression, and to identify strategies for prevention and management and how to seek professional advice confidently and find information about health. National Curriculum Science also examines how human health is affected by a range of environmental and inherited factors.

Examiners

Sarah Teather: To ask the Secretary of State for Education and Skills how many people are employed as *(a)* GCSE and *(b)* A-level examiners in England. [86432]

Jim Knight: No central database is kept of examiner numbers. However, the Qualifications and Curriculum Authority (QCA) estimates that the three English-based unitary awarding bodies (AQA, OCR and Edexcel) contracted approximately 56,000 people as examiners and moderators for GCSEs, A-levels and related qualifications in 2005/06.

GCSEs

Chris Huhne: To ask the Secretary of State for Education and Skills what proportion of students achieved five or more GCSEs grade A*-C in rural comprehensive secondary schools of *(a)* fewer than 100 students, *(b)* 100-199 students, *(c)* 200-299 students, *(d)* 300-399 students, *(e)* 400-499 students, *(f)* 500-599 students, *(g)* 600-700 students and *(h)* over 700 students in the last year for which figures are available; and if he will make a statement. [85972]

Jim Knight: The information requested can be found in the following table:

GCSE and equivalent achievement of pupils[1] at the end of Key Stage 4 by the end of 2004/05[2] in comprehensive schools[3], by size of school

Total number of pupils in school	*Number of pupils at end of Key Stage 4*	*Number of pupils at end of Key Stage 4 achieving 5+ A*-C at GCSE or equivalent*	*Percentage of pupils at end of Key Stage 4 achieving 5+ A*-C at GCSE or equivalent*
(a) <100	9	2	22.2
(b) 100-199	319	155	48.6
(c) 200-299	474	233	49.2
(d) 300-399	1,493	539	36.1
(e) 400-499	5,599	2,398	42.8
(f) 500-599	14,043	6,621	47.1
(g) 600-699	20,568	10,323	50.2
(h) >=700	480,379	265,650	55.3

[1] Number of pupils on roll at the end of Key Stage 4 in the 2004/05 academic year.
[2] Includes achievements by these pupils in previous academic years.
[3] Including City Technology Colleges and Academies.

Pupils' Travel

Chris Huhne: To ask the Secretary of State for Education and Skills what average distance a pupil travels to school in *(a)* rural and *(b)* non-rural areas; what steps the Government have taken to lower the cost of travel to school for students in rural areas; and if he will make a statement. [85943]

Jim Knight: The Department does not routinely collect information on the average distance pupils travel to school, and an answer to this question could be provided only at disproportionate cost. However, data derived from pupil level annual school census returns in 2005 showed the following pattern in secondary schools by region[1].

[1] Source PLASC 2005. Includes pupils aged five to 15 attending maintained secondary schools (excluding middle deemed), CTCs and academies. Distances are measured on a straight line basis.

Region	*Distance (Miles)*
North East	1.53
North West	1.60
Yorkshire and Humberside	1.69
East Midlands	1.99
West Midlands	1.64
East of England	2.14
London	1.55
South East	2.13
South West	2.17
England	1.83

The Education and Inspections Bill includes provisions that extend entitlement to free home to school transport for low-income families, and will enable a small number of local authorities to propose pathfinder schemes to test innovative arrangements supporting choice, and increasing the proportion of pupils travelling by sustainable means.

SATS

Robert Key: To ask the Secretary of State for Education and Skills what guidance his Department offers schools on *(a)* the allocation of extra time for certain pupils in the SATS testing regime and *(b)* the criteria which should be applied in such cases; how the allocation of extra time across the country is monitored and assessed; and if he will make a statement. [86273]

Jim Knight: Additional time is among the access arrangements available in the National Curriculum tests to enable children to take those tests on an equal footing. The circumstances in which pupils may be allowed additional time are set out in the "Assessment and reporting arrangements" booklets published by the Qualifications and Curriculum Authority. These are sent to schools in October each year and are available from the website www.naa.org.uk/tests. The arrangements are monitored through the requests for permission for allowing additional time made by schools to local authorities and the National Assessment Agency, and in the routine monitoring of test administration undertaken by local authorities and the National Assessment Agency.

School Premises

Mr. Willetts: To ask the Secretary of State for Education and Skills what the total area of land was taken up by school premises in England in each year since 1996. [86434]

Jim Knight: Data on areas of school sites were supplied to my Department by local education authorities in 2001 and 2003. However, the completeness and quality of the data is not good enough to accurately assess the total area of land taken up by school premises.

Science and Engineering Graduate Scheme

Mr. Boris Johnson: To ask the Secretary of State for Education and Skills how many international students participated in the Science and Engineering Graduate Scheme in 2005; and what estimate he has made of the number of international students who will participate in the scheme in 2006. [83158]

Mr. Byrne: I have been asked to reply.

2,889 international students participated in the Science and Engineering Graduate Scheme in 2005.

Between 1 January 2006 and 30 June 2006 a total of 2,000 international students participated in the Science

and Engineering Graduate Scheme. On that basis it is estimated that this figure will rise to over 4,000 before the end of 2006.

This information has not been quality assured, and is not a National Statistic. It should be treated as provisional management information and may be subject to change.

Student Funding

Chris Huhne: To ask the Secretary of State for Education and Skills what the average amount of funding per student is in comprehensive secondary schools of *(a)* fewer than 100, *(b)* 100-199, *(c)* 200-299, *(d)* 300-399, *(e)* 400-499, *(f)* 500-599, *(g)* 600-700 and *(h)* over 700 students in *(i)* rural areas and (ii) non-rural areas in 2006-07; and if he will make a statement. [85948]

Jim Knight: The available information is contained within the following table:

Comprehensive secondary budgeted expenditure[1] per pupil[2] in urban and rural schools[3] by school size in England during the 2006-07 financial year.

Size of school	*[3]Urban schools*	*[3]Rural schools*
(a) less than 100 pupils	4,790	
(b) 100 up to, but not including, 200	4,700	6,340
(c) 200 up to, but not including, 300	5,580	5,830
(d) 300 up to, but not including, 400	5,150	4,320
(e) 400 up to, but not including, 500	4,990	4,220
(f) 500 up to, but not including, 600	4,790	3,990
(g) 600 up to, but not including, 700	4,590	3,810
(h) 700 and above	4,120	3,830
All school sizes	4,170	3,850

[1] Budgeted expenditure includes total budget share plus Schools Standards Grant, School Development Grant, Other Standards Fund Allocation, Devolved School Means grant, Threshold and performance pay and Support for schools in financial difficulty. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure. This is drawn from the 2006-07 Section 52 Budget Statement (Table 2). Schools that are proposed to close according to Edubase (the DfES database of educational establishments) in the 2006-07 financial year have been excluded.
[2] Pupil numbers are taken from Table 2 of Section 52 Budget, FTE Pupils (including LSC pupils).
[3] The urban/rural classification is drawn from the Edubase.
[4] No schools.
Notes:
1. Figures are rounded to the nearest 10. Cash terms figures as reported by local authorities as at 13 July 2006.
2. Data remain provisional and are subject to change by local authorities.

Teachers

Chris Huhne: To ask the Secretary of State for Education and Skills what assessment his Department has made of the availability of trained specialist school teachers in *(a)* English, *(b)* mathematics, *(c)* science, *(d)* modern languages and *(e)* information and communication technology in rural areas; and if he will make a statement. [84746]

Jim Knight: The information is not available in the format requested.

The following tables provide the information available on the recruitment, training and teachers in service by subject specialism. This information is not available for rural areas only.

Table 1 provides the number of students recruited to initial teacher training courses by phase and subject for academic years 2001/02 to 2005/06.

Table 1: Recruitment to initial teacher training courses[1]—Academic years 2000/01 to 2005/06 by phase and subject specialism, England

'-' = zero or less than 0.5.

[1] Where a teacher has more than one post A-level qualification in the same subject, the qualification level is determined by the highest level reading from left (Degree) to right (Other Qual.). For example, teachers shown under PGCE have a PGCE but not a degree or BEd in the subject, while those with a PGCE and a degree are shown only under Degree.

[2] Teachers are counted once against each subject which they are teaching.

[3] Includes higher degrees but excludes BEds.

[4] Teachers qualified in combined/general science are treated as qualified to teach biology, chemistry, or physics. Teachers qualified in biology, chemistry or physics are treated as qualified to teach combined/general science.

[5] Teachers qualified in other/combined technology are treated as qualified to teach design and technology or information and communication technology. Teachers qualified in design and technology or information and communication technology are treated as qualified to teach other/combined technology.

[6] Information and Communication Technology is abbreviated as ICT and Personal, Social and Health Education is abbreviated as PSHE.

[7] 'Other' not included in total percentages.

Secondary Schools Curriculum and Staffing Survey 2002.

Chris Huhne: To ask the Secretary of State for Education and Skills how many *(a)* vacancies and *(b)* temporary replacements there are for head teachers in (i) rural and (ii) non-rural areas; and if he will make a statement. [84747]

Jim Knight: The information is not available in the format requested.

The following table provides the number of full-time head teacher vacancies and temporarily filled vacancies in January 2006 (provisional), the latest information available.

Full-time head teacher vacancies and full-time temporarily filled head teacher posts in local authority maintained schools in England, January 2006[1]

	All maintained schools	*Maintained secondary schools*
Full-time head teacher vacancies	180	30
Full-time temporarily filled head teacher posts[2]	660	80

[1] Provisional.

[2] Temporarily-filled full-time permanent appointments. The definition used is wider than the vacancy definition (bullet points b and c below are in addition to the normal vacancy definition). A post is included in this row of the table: a. where there is no incumbent who is expected to return to the post; b. whether or not filled on a temporary basis, i.e. either without a contract or on a contract of less than one year; c. whether or not advertised; d. where an appointment has been made but not yet taken up.

Note:
Figures are rounded to the nearest 10.

Source:
Survey of teachers in service and teacher vacancies, (618g).

Mr. Evennett: To ask the Secretary of State for Education and Skills how many vacancies there were for *(a)* infant, *(b)* primary and *(c)* secondary school (i) teachers and (ii) head teachers in (A) Greater London and (B) the London borough of Bexley in the most recent 12 months for which figures are available. [85987]

Jim Knight: The following table provides the number of full-time primary and secondary school vacancies for head and other teachers in the London Government Office Region and Bexley local authority in January 2005. Vacancies are those that existed at the

survey date and not for the full 12 month period. Infant school vacancies are included with primary schools and are not available separately.

Vacancy information for 2006 at local authority and regional level by phase of education will be published in September.

Full-time vacancy[1] numbers in London government office regions and Bexley local authority by grade and phase of education, January 2005

	Nursery and primary	Secondary
London		
Head teachers	14	11
Other teachers[2]	233	357
Total	247	368
Bexley		
Head teachers	0	2
Other teachers[2]	17	21
Total	17	23

[1] A vacancy refers to full-time appointment of at least one term's duration that, on the survey date in January, had been advertised but not filled. Vacancies include those filled on a temporary basis unless filled by someone with a fixed term contract of one term or more.
[2] Includes vacancies for deputy and assistant head teachers, ASTs and post threshold and other qualified classroom grade teachers.

Annual survey of teachers in service and teacher vacancies, (618 g)

Venture Capital Funds

Mr. Francois: To ask the Secretary of State for Education and Skills how many locally based venture capital funds have been set up since 1999. [84790]

Margaret Hodge: I have been asked to reply.

DTI does not operate locally based venture capital funds. To discover the number of funds run by others, including local authorities, would incur disproportionate cost.

The Small Business Service has invested in nine Regional Venture Capital Funds and three Early Growth Funds with a regional focus.

MINISTER FOR WOMEN

Ethnic Minority Employment Task Force

Ms Butler: To ask the Minister for Women and Equality what progress has been made with the work of the Ethnic Minority Employment Task Force. [82484]

Mr. Jim Murphy: I have been asked to reply.

The Ethnic Minority Employment Task Force (EMETF) has met regularly since its inception in 2003. Details of its work to fulfil the recommendations of the Strategy Unit's report, "Ethnic Minorities and the Labour Market" (March 2003), have been presented annually to the Economic Affairs, Productivity and Competitiveness (EAPC) by the Secretary of State for Work and Pensions and are available at www.emetaskforce.gov.uk and copies have been placed in the Library.

In 2005, the Task Force was also given responsibility for taking forward the main conclusions of the National Employment Panel's report: "Enterprising People: Enterprising Places" (May 2005). Current priorities include work on the City Strategy; developing an outreach service to focus on non-working ethnic minority partners in low income households; expanding the data and research evidence base; and developing the opportunities presented by the Olympics to raise ethnic minority employment.

The third EMETF annual report will be published later this year and will include the findings of the independent review to be undertaken in the Autumn. The EMETF is supported and advised by the Ethnic Minority Advisory Group (EMAG) which has a membership comprising members of the ethnic minority voluntary, business and training sectors, faith groups, academics and its chair sits on the EMETF.

CONSTITUTIONAL AFFAIRS

Biometrics

Mrs. Spelman: To ask the Minister of State, Department for Constitutional Affairs what guidance the Information Commissioner has given to *(a)* local education authorities and *(b)* local authorities on the collection and the use of biometric identification, including fingerprint recognition, for the provision of local authority services. [85547]

Vera Baird: I understand that the Information Commissioner has received inquiries from a range of public authorities about the use of biometrics for the delivery of services, and that he has provided guidance in response to the specific inquiries. He has not issued generic guidance on the use of biometric identification.

Care Cases

Mr. Andrew Smith: To ask the Minister of State, Department for Constitutional Affairs what steps her Department is taking to increase the proportion of care cases being completed in the courts within 40 weeks by 10 per cent. by 2009-10. [85456]

Ms Harman: DCA is working with DfES, the Welsh Assembly, the judiciary, local authorities and other delivery agencies to increase the proportion of cases completed in 40 weeks by implementing the

recommendations of the "Review of the Child Care Proceedings System in England and Wales" (published May 2006). This work seeks to reduce delay by focusing on seven key areas:

Ensuring families and children understand proceedings

Exploration of safe and appropriate alternatives to court proceedings

Improved consistency and quality of s 31 (care proceedings) applications to court

Improved case management

Inter-agency working/communications

Judicial allocation/use of court facilities

Experts

Revised statutory guidance for local authorities and new practice directions/protocols for courts will underpin case management processes.

Actions in the past year which are expected to affect the proportion of cases completed in 40 weeks include;

installation of video conferencing equipment in care centres enabling experts to give evidence remotely,

establishment of local family justice councils who have held conferences to identify how local agencies can best work together to reduce delay

piloting of family courts centres (co-located county court and family proceedings courts) allowing for the more efficient management and allocation of court business at local level

piloting the use of case progression officers in family courts

allowing nominated recorders and district judges (county courts) to hear care cases.

Chelmsford Court (PFI)

Mr. Burns: To ask the Minister of State, Department for Constitutional Affairs what the status is of the Chelmsford magistrates/coroner's court private finance initiative scheme; when she expects work *(a)* to commence and *(b)* to be completed on the building project; and if she will make a statement. [84847]

Ms Harman: The Essex magistrates court scheme, of which Chelmsford is part, continues to be within the programme of new court projects. My Department is still finalising investment plans, as part of the development of a Business and Estates Strategy for Her Majesty's Court Service (HMCS). A further announcement will be made once spending plans have been agreed with Treasury. In March 2006 HMCS purchased a site for the new courthouse in Chelmsford and outline planning approval has been obtained.

Disputes Resolution

Mr. Andrew Smith: To ask the Minister of State, Department for Constitutional Affairs what steps her Department is taking to increase the advice and assistance available to help people resolve their disputes earlier and more effectively. [85455]

Vera Baird: In line with the strategy set out in the recent "Getting Earlier, Better Advice to Vulnerable People" document my Department is encouraging closer working among advice leads across Whitehall. This will ensure more effective referral networks are in place so that people get the service they need regardless of their point of access to the system.

My Department is supporting the Legal Services Commission as it implements its new community legal service strategy. In 2005-06 over 708,000 new civil legal aid cases were started by the Legal Services Commission, the highest at any point since 2000.

The DCA also provides funding to the LawWorks project, which aims to increase the delivery of free legal advice to individuals and communities in need.

Incapacity Benefit

Mr. Heald: To ask the Minister of State, Department for Constitutional Affairs pursuant to the answer of 4 July 2006, *Official Report*, column 970W, what assumption for planning purposes she has made of the number of incapacity benefit appeal cases *(a)* by the end of 2006-07 and *(b)* in each of the subsequent two years. [83882]

Vera Baird: The latest work load forecasts for incapacity benefit appeals are as follows. The Government have recently announced plans to replace incapacity benefit through measures in the Welfare Reform Bill currently before Parliament which could have an impact on those figures.

	Intake
2006-07	63,698
2007-08	62,149
2008-09	61,714

Special Advocates

Keith Vaz: To ask the Minister of State, Department for Constitutional Affairs how many statements have been made on behalf of *(a)* murder and *(b)* manslaughter victims by special advocates. [84527]

Ms Harman: The scheme applies to such cases where a charge is brought on or after 24 April 2006 in one of the five pilot areas. None has yet come to trial or resulted in a guilty plea.

CULTURE, MEDIA AND SPORT

Slave Trade

Mrs. Ellman: To ask the Secretary of State for Culture, Media and Sport what plans she has to commemorate in Liverpool the bicentenary of the Act to abolish the British slave trade. [86289]

Mr. Lammy: My Department is committing £250,000 per year towards the running costs of National Museums Liverpool's new International Slavery Museum, which will open on 23 August 2007. National Museums Liverpool is a partner in the understanding slavery initiative museums education project, which supports the teaching of slavery in the classroom. National Museums Liverpool are part of the cross government advisory group on the bicentenary, which is chaired by the Deputy Prime Minister.

Gambling

Mr. Laurence Robertson: To ask the Secretary of State for Culture, Media and Sport whether she plans to take steps to *(a)* regulate and *(b)* place advertising restrictions on betting operators not licensed in the UK; and if she will make a statement. [86105]

Mr. Caborn: The Advertising Standards Authority is working with the Gambling Commission to draw up new codes for gambling advertising, on which it will begin consulting shortly. The Secretary of State also has reserve powers under the Gambling Act 2005 to make regulations with regard to the form, content, timing and location of gambling advertising. She will not hesitate to use these powers if it becomes clear that self-regulation is not sufficient to protect children and vulnerable people from exploitation. Both the ASA codes and any Secretary of State regulations will apply to all non-broadcast advertising by gambling operators, wherever they are licensed.

Ofcom will continue to set, review and revise standards for broadcast advertising by gambling operators. In doing so Ofcom must consult with the Gambling Commission, and reflect any relevant regulations made by the Secretary of State.

Under the Gambling Act 2005 the Gambling Commission has the power to attach a condition to the licences it issues making provision for how gambling facilities may be advertised or described.

In addition, Section 331 of the Gambling Act prohibits any gambling operator based outside the European Economic Area or Gibraltar from advertising in the UK unless a specific exemption has been made for that jurisdiction under sub-section 331(4).

Historic Environment Sites

Mr. Andrew Smith: To ask the Secretary of State for Culture, Media and Sport what progress has been made towards increasing the numbers visiting designated historic environment sites by 3 per cent. by 2008. [85457]

Mr. Lammy: We are working closely with English Heritage, the National Trust and others on a broad range of policies and programmes to increase participation in the historic environment by the priority groups.

Performance is measured by the "Taking Part" survey and interim results indicate that currently 47 per cent. black and minority ethnic people, 58 per cent. of people with limiting disabilities and 57 per cent. of people from lower socio-economic groups have visited at least one type of historic environment site during the past year. Final baselines will be available at the end of the year, but performance against the target will not be assessed until the end of the target period in 2008.

Libraries

Mr. Mark Field: To ask the Secretary of State for Culture, Media and Sport what progress has been made since the wider efficiency review into libraries carried out by the accountants and consultants PKF in June 2005. [86216]

Mr. Lammy: The PKF report recommended that there were particular efficiencies to be found within the stock procurement systems. The Museums, Libraries and Archives Council (MLA) therefore commissioned PricewaterhouseCoopers to undertake a detailed study of the potential for efficiencies in this area and to develop a model to realise them. PwC will report on its proposals shortly. Work will then follow to implement its proposed model.

We envisage that the work on stock procurement will provide lessons that could be transferred to other areas of public library management and service delivery—for example, in increased joint working and procurement of services such as marketing materials and reading promotions.

PKF also recommended that library authorities should review staff management and staff structures towards optimum efficiency. Although this recommendation was directed at individual authorities, MLA is seeking to encourage the adoption of efficient working practices through current programmes such as peer reviews and through a number of proposed activities in the new 2006-08 "Framework for the Future" action plan.

Mr. Mark Field: To ask the Secretary of State for Culture, Media and Sport what percentage of the funding of public libraries was spent on books in the last period for which figures are available; and what the planned figure is for 2006-07. [86217]

Mr. Lammy: According to the Public Library Statistics for 2004-05, published by the Chartered Institute for Public Finance and Accountancy (CIPFA), the 149 library authorities in England spent £69,010,676 on books and pamphlets and a further £6,201,131 on newspapers, periodicals and magazines out of total revenue expenditure of £912,620,958. These are the latest "actuals" figures available.

Planned expenditure figures for 2006-07 are not held centrally.

Mr. Mark Field: To ask the Secretary of State for Culture, Media and Sport how the role of the Advisory Council for Libraries will differ from that of the Museums, Libraries and Archives Council. [86219]

Mr. Lammy: The Advisory Council on Libraries (ACL) is currently being re-constituted. When this process is complete there will be an equal number of serving public librarians and non-librarians with knowledge or expertise relevant to the work of public libraries. The ACL will advise DCMS Ministers and officials, and also Museums, Libraries and Archives Council (MLA) officials, on a range of public libraries issues. The ACL will meet two or three times a year.

The MLA also advises DCMS and its Ministers as the full-time lead strategic agency for museums, libraries and archives. Working in partnership with its nine regional agencies, the MLA works to improve people's lives by building knowledge, supporting learning, inspiring creativity and celebrating identity. The MLA Partnership acts collectively for the benefit of the sector and the public, leading the transformation of museums, libraries and archives for the future.

Current improvement programmes for public libraries include the various work strands of the Framework for the Future Action Plan, such as the leadership programme, peer reviews and the stock procurement project. It is also leading on work to review the Public Library Service Standards and Impact Measures.

Mr. Mark Field: To ask the Secretary of State for Culture, Media and Sport what is the planned annual budget of the Advisory Council for Libraries. [86220]

Mr. Lammy: The Advisory Council on Libraries (ACL) is currently being re-constituted. When this process is complete there will be 12 members with an equal number of serving public librarians and non-librarians with knowledge or expertise relevant to the work of public libraries.

The ACL will not have an annual budget as its members will be unremunerated, receiving only reasonable travelling and subsistence expenses. These will be paid from DCMS running costs.

London Olympics

Mark Durkan: To ask the Secretary of State for Culture, Media and Sport in what ways she expects Northern Ireland to benefit from the 2012 Olympic Games. [85441]

Mr. Caborn: The Government are determined that the whole of the UK, including Northern Ireland, can contribute to and benefit from the games in 2012.

Anticipated benefits include: increased interest and participation in sport, employment and business opportunities generated by hosting pre-event training camps, volunteering opportunities, an increase in tourism throughout the whole of the UK and the cultural festivities relating to the Cultural Olympiad.

A Nations and Regions Group (NRG), has been established to provide leadership and strategic direction in ensuring that the whole of the UK is engaged with these benefits. Each nation and region, including Northern Ireland, is represented on the NRG and has been tasked with developing a delivery plan to ensure that the many opportunities are realised for their nation or region.

Northern Ireland has established its own task force to drive forward this agenda. The group chaired by the permanent secretary of the Department of Culture, Arts and Leisure (DCAL), includes representation from sport, culture, tourism, Invest NI, local government and other interested bodies who will be responsible for delivering the benefits for Northern Ireland.

Paul Holmes: To ask the Secretary of State for Culture, Media and Sport what estimate her Department has made of the number of tourists visiting the South West region during the 2012 Olympics. [86098]

Mr. Woodward: My Department has made no estimate of the number of tourists who will visit the South West region during the 2012 Olympics.

Public Appointments

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport how many public appointments are within her patronage; what *(a)* salary and *(b)* other emoluments are attached to each; and what the comparable figures were in (i) 1976, (ii) 1986 and (iii) 1996. [83190]

Tessa Jowell: Details of public appointments to public bodies sponsored by the Department for Culture, Media and Sport (DCMS) can be found in Public Bodies, copies of which are in the Library. Public Bodies has been published annually since 1980 and the most recent edition provides figures for 2005. Public Bodies includes remuneration levels for all public appointments between 1980 and 2001, and remuneration levels for chairs for 2002-05.

Information for 1976 in respect of bodies now sponsored by DCMS, and additional information on remuneration and emoluments which is not contained in the most recently published version of Public Bodies could be provided only at disproportionate cost.

Small Businesses

David Simpson: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 3 July 2006, *Official Report*, columns 719-20W, on advertising expenditure, what assessment she has made of the effectiveness of the information campaign targeted at small independent businesses. [84670]

Mr. Lammy: In early June 2005, my Department launched a licensing communications campaign including PR, advertising and direct mail which targeted small independent businesses. The awareness-raising campaign proved highly effective and, together with the efforts of local authorities, trade associations and other stakeholders, helped increase the overall rate of applications from less than 5 per cent. in May 2005 to an estimated 98 per cent. of expected applications having been made by the time the new regime came into effect on 24 November.

Swimming Pools

Mr. Stewart Jackson: To ask the Secretary of State for Culture, Media and Sport how many 50 metre swimming pools there are in England; and where each is located. [85991]

Mr. Caborn: There are currently 37 50 metre swimming pools in England. The table details where they are located:

	Location
North West	
Indoor	Manchester (two)
	Stockport
	Wigan
East	
Indoor	Norwich

	Location
Outdoor	Cambridge
South East	
Indoor	St. Michael School, Sevenoaks
	Crawley
	High Wycombe
	Aldershot
Outdoor	Guildford
	Chalfont, Buckinghamshire
	Portsmouth
	Oxford
	Hitchin, Hertfordshire
	Letchworth, Hertfordshire
	Newbury
East Midlands	
Indoor	Loughborough
Outdoor	Peterborough
South West	
Indoor	Bath
	Millfield
Outdoor	Penzance
	Plymouth
	Torbay
	Cheltenham
	Lymington Spa
London	
Indoor	Crystal Palace
	Ealing
Outdoor	Brockwell
	Charlton
	Haringey
	Parliament Hill
	Tooting Bec
	Royal Parks (Serpentine)
West Midlands	
Indoor	Coventry
Yorkshire	
Indoor	Leeds
	Sheffield

A further three 50 metre indoor pools are under construction and another is at the planning stage.

Theatre Funding

John McDonnell: To ask the Secretary of State for Culture, Media and Sport how much of the grant-in-aid to Arts Council England was allocated to theatre in each year from 1997 to 2005. [85331]

Mr. Lammy: The following figures supplied by Arts Council England provide a breakdown of the information requested.

Arts Council England grant in -aid funding—theatre

	£000
1996-97	47,899
2001-02	58,612
2002-03	71,669
2003-04	85,501
2004-05	90,692
2005-06	94,937

Prior to the merger of the Arts Council of England and the regional Arts Boards, funding for theatre was distributed nationally by the Arts Council and regionally by the Arts Boards. For this reason it is not possible to provide an accurate figure for overall national funding for theatre before 2002-03. Figures for 1996-97 and 2001-02 are therefore indicative.

John McDonnell: To ask the Secretary of State for Culture, Media and Sport how much of the Arts Council England allocation to subsidised theatre in each year from 1997 to 2005 was paid to *(a)* actors, *(b)* musicians and *(c)* writers. [85332]

Mr. Lammy: Arts Council England does not analyse expenditure by subsidised theatre organisations in the detail requested.

However, Arts Council England's 2004-05 annual survey of regularly funded organisations provides information about income and expenditure on artistic programme costs and staff.[1]

In 2004-05, £152.7 million was spent on artistic programme costs, including £67.5 million (44 per cent.) on artistic staff including actors, musicians and writers.

During this period, theatre organisations employed 805 permanent artistic staff and 7,825 freelance/ contractual staff.

[1] In 2004-05, valid survey returns were received from 216 theatre organisations, representing approximately 80 per cent. of Arts Council England's full theatre portfolio. Data from the 2004-05 survey are currently unpublished.

John McDonnell: To ask the Secretary of State for Culture, Media and Sport what representations she has received from *(a)* theatre managers, *(b)* orchestras and *(c)* entertainment trade unions on the impact on theatre of the comprehensive spending review for 2008 and 2011. [85333]

Mr. Lammy: Arts Council England (ACE), in its role as lead body for the arts in England, has consulted the wider arts sector in formulating its contribution to the Comprehensive Spending Review (CSR) process to date. I have also met with representatives from the theatre and orchestral unions to discuss potential impacts of the CSR.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 5 July 2006, *Official Report*, column 1150W,

on Afghanistan, what the *(a)* name and *(b)* job description is of each of the UK-funded advisers who are members of the Provisional Reconstruction Team. [85425]

Dr. Howells: The UK is funding the provision of advisers working in the fields of governance, police reform and justice/rule of law to the UK-led Provincial Reconstruction Team (PRT) in Lashkar Gah, Helmand Province. All will work to promote the development of effective and transparent provincial governance in line with the Afghan Government's administrative reform processes. This will include helping to build capacity to plan, co-ordinate and implement the provision of basic public services and to exercise the rule of law. It will focus on helping local governance institutions, including the governor's office, provincial departments of line Ministries, the Provincial Council and Provincial Development Committee, to design and deliver the activities required to fulfil their mandates. The advisers will seek to facilitate the roll-out of current programmes from the national level to Helmand.

The governance adviser will aim to strengthen provincial public administration and representative and planning institutions. The police adviser will co-ordinate UK activities in southern Afghanistan in support of the Afghan police, building contacts with and the capacity of provincial and district police chiefs. The justice/rule of law adviser will aim to strengthen the criminal justice system, identifying ways to address linkages between informal and formal justice sector institutions, and to strengthen dispute-resolution mechanisms.

Mr. Ellwood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* UN and *(b)* EU officials are based in the Provisional Reconstruction Team in Helmand Province; and what the purpose is of each. [85473]

Dr. Howells: There are no UN or EU officials currently based in the Provincial Reconstruction Team in Helmand Province.

I refer the hon. Member to the reply I gave to him on 5 July 2006, *Official Report*, column 1150W.

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps her Department is taking to promote the equal application of law to women and men in Afghanistan; and what assessment she has made of women's access to legal representation in Afghanistan. [86483]

Dr. Howells: The Afghan constitution states that "the citizens of Afghanistan have equal rights and duties before the law". The "Justice for All" Action Plan provides the basis for the reform of the Afghan justice sector over the next 12 years. The Plan is divided into five areas of activity: law reform, institution building, and access to justice programs, traditional justice and co-ordination. The Global Conflict Prevention Pool (the Foreign and Commonwealth Office (FCO), Ministry of Defence and the Department for International Development funded) has provided US $500,000 in support of this Action Plan. In addition, the FCO, through the Global Opportunities Fund is sponsoring a number of projects specifically designed to increase women's access to justice, improve their living standards, promote women's equal participation in governance, create a professional network of women's rights organisations and promote access to information through the radio.

The UK fully supports the equal application of law in Afghanistan to women and men.

BBC World Service

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations the UK Government have made to the Chinese Government regarding transmission in China of the BBC World Service websites and broadcasts. [85036]

Dr. Howells: The Government are concerned about restrictions on media freedom in China. We regularly raise our concerns with the Chinese Government about China's jamming of BBC World Service broadcasts in Chinese and blocking of the BBC World Service website; most recently our Ambassador in Beijing raised this with the State Council Information Office on 11 July. The then Minister of State for Trade, Investment and Foreign Affairs, my hon. Friend the Member for Dudley, South (Ian Pearson), raised this issue with the Chinese Government on 7 April. The Government are in regular contact with the BBC over this issue and have expressed their wish to see this issue resolved prior to the Beijing Olympics in 2008.

British Prisoners

Lynne Featherstone: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British citizens imprisoned abroad are *(a)* awaiting trial and *(b)* serving a custodial sentence. [85953]

Dr. Howells: On 31 March 2006, British Consular officials were aware of 2,255 British Nationals detained in overseas prisons. This includes those awaiting trial as well as those serving custodial sentences. We do not maintain separate records of the numbers of British nationals awaiting trial or serving custodial sentences. As information on British nationals in prison overseas is held on case files, it would incur disproportionate cost to provide this information.

Burma

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she has had with *(a)* Tanzania, *(b)* Ghana and *(c)* Republic of Congo in their capacity as members of the Security Council regarding United Nations resolutions on Burma. [85891]

Mr. McCartney: I refer the hon. Member to the answer I gave the hon. Member for Buckingham (John Bercow) on 26 June 2006, *Official Report*, column 172W.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what

representations she has made to the government of *(a)* France, *(b)* Austria, *(c)* Germany, *(d)* Italy and *(e)* Spain regarding investments in Burma. [85892]

Mr. McCartney: We have made no such representations to the governments of these countries. The EU Common Position on Burma prohibits investment by EU member states in listed state-owned companies with links to the Burmese military. All EU member states are bound by the Common Position.

The latest EU Common Position, agreed on 27 April 2006, can be found on the EU website at:

http://europa.eu.int/eurlex/lex/LexUriServ/site/en/oj/2006/l_116/l_11620060429en00770097.pdf

I shall arrange for a copy of the EU Common Position to be placed in the Library of the House and for a copy to be sent to the hon. Member.

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions she has had with the government of Burma on *(a)* the Karen people in Eastern Burma and *(b)* other issues relating to Burma; and if she will make a statement. [86015]

Mr. McCartney *[holding answer 17 July 2006]:* My right hon. Friend the Foreign Secretary has had no discussions with the Government of Burma.

On 15 June, I summoned the Burmese Ambassador to raise our concerns about the human rights abuses suffered by ethnic groups, including the Karen; forced labour; restrictions on religious freedom; the use of sexual violence and the exploitation of children. I also repeated our call for the release of Aung San Suu Kyi and that of all other political prisoners held in Burma.

On 5 July, I wrote to the Burmese Foreign Minister, reiterating the points I made to the Burmese Ambassador. I shall arrange for a copy of my letter to be placed in the Library of the House and for a copy of the letter to be sent to the hon. Member.

We shall continue to take every opportunity to express the Government's concern to the regime and its representatives.

Darfur

Mr. Leigh: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will make a statement on progress with the implementation of the Darfur Peace Agreement. [80225]

Mr. McCartney *[holding answer 27 June 2006]:* The Darfur Peace Agreement was signed on 5 May. Implementation has been slow. There has been less fighting between the two parties to the agreement: the Sudanese government and the main rebel faction. But overall levels of violence in Darfur remain high. We are providing practical support to the African Union and the parties to help them with implementation. And we are encouraging those who have not yet signed the agreement to support it.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of the allegation that Chinese-supplied weapons have been discovered in Darfur; and if she will make a statement. [80521]

Mr. McCartney *[holding answer 27 June 2006]:* We are aware of reports that Chinese weapons have been found in Darfur. The UN has an arms embargo on the Darfur region, which prohibits the movement of arms into Darfur unless specifically authorised by the UN beforehand. We are also actively encouraging China to support work towards an arms trade treaty which would end the irresponsible trade in conventional arms.

I have raised with the Chinese ambassador the huge challenges that Africa must meet in terms of peace and stability, sustainable development and good governance and encouraged China to play a positive role as a responsible and leading member of the international community.

Democratic Republic of the Congo

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions she has held with the governments of *(a)* Rwanda, *(b)* Uganda, *(c)* Congo Brazzaville and *(d)* Angola on (i) the security situation in Democratic Republic of the Congo and (ii) the presence of non-Congolese irregular forces; and if she will make a statement. [84947]

Dr. Howells: The security situation in the Democratic Republic of the Congo (DRC) remains fragile, especially in the east and north-east. Officials from our missions in the Great Lakes region regularly discuss the security situation in the DRC and its border areas with the governments to which they are accredited.

We continue to remind regional governments of the need to respect Congolese territorial sovereignty and to work together to resolve the issue of the foreign armed groups in the region. We underline that there must be no external support for Congolese armed groups that try to disrupt the peace process and that the DRC must take action to deal with the armed groups on its soil. UN Security Council Resolution 1653 reinforced this message. We support the US-facilitated Tripartite Plus Commission which brings Ugandan, Rwandan, Burundian and Congolese Foreign Ministers together to find solutions to issues affecting the region.

Energy Charter Treaty

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what plans she has to make representations to her Russian counterpart on the provisions of the Energy Charter Treaty; [85079]

(2) what plans she has to make representations to her Russian counterpart on the Transit Protocol of the Energy Charter Treaty; [85080]

(3) what assessment her Department has made of the impact on the likelihood of the Russian Federation signing the Transit Protocol of the Energy Charter Treaty of the law passed by the Russian State Duma on Gazprom's control of gas exports from Russia; [85081]

(4) what assessment her Department has made of the Russia Federation's progress towards compliance with the Energy Charter Treaty; [85116]

(5) what recent representations the British Government have made to the Russian Federation on its compliance with the Energy Charter Treaty; [85117]

(6) what recent representations the British Government have made to the Russian Federation on the Transit Protocol of the Energy Charter Treaty. [85118]

Malcolm Wicks: I have been asked to reply.

The UK, with other G7 members, has encouraged Russia to move forward during its G8 presidency and ratify the Energy Charter Treaty, of which it is already a signatory and applies on a provisional basis.

We would envisage that these Global Energy Security discussions will continue during the Russian presidency.

The UK is concerned that the proposed Russian Gas Export law would appear to contradict several of the major provisions of the Energy Charter Treaty, including the provisions on Transit. Through the EU, we continue to work with Russia towards an agreed text for the Transit Protocol while at the same time emphasising to Russia the importance of open, transparent, efficient and competitive markets at all stages of the energy supply chain as the key to global energy security.

Engaging with the Islamic World Group

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs who is reponsible for the policy of the unit Engaging with the Islamic World in relation to radical Islam. [86291]

Dr. Howells: The Engaging with the Islamic World Group in the Foreign and Commonwealth Office reports to me, as the Minister responsible for our relations with the Muslim world.

Eritrea

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will make a statement on the human rights situation in Eritrea. [85329]

Dr. Howells: The UK remains deeply concerned about Eritrea's human rights record. The detention without charge by the Eritrean government of members of minority religious groups, journalists, leading political figures and members of civil society is unacceptable and contravenes international human rights agreements to which Eritrea is a party. We raise our concerns with the Eritrean government at every suitable opportunity. Our new Ambassador in Asmara has done so during his introductory meetings with the Eritrean authorities since his arrival in April 2006. We also work with our EU partners in reminding Eritrea of its human rights obligations including through the ongoing EU/Eritrea Political Dialogue.

Extradition Treaty

Mr. Clegg: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to her answer to the hon. Member for Vauxhall (Kate Hoey), of 28 June 2006, *Official Report*, column 435W, on the Extradition Treaty, if she will place a copy of the reply in the Library. [85646]

Dr. Howells: The US Secretary of State has not replied formally to my right hon. Friend the then Foreign Secretary's letter of 20 April.

Gaza

Mr. Roger Williams: To ask the Secretary of State for Foreign and Commonwealth Affairs what action she has taken in response to the humanitarian situation in Gaza following the recent Israeli military action. [84958]

Dr. Howells: We have serious concerns about the humanitarian situation in Gaza. Restoring electricity and water supplies and access for humanitarian organisations are a vital priority. On 25 June and 6 July, my right hon. Friend the Foreign Secretary raised our concerns about the current situation with Israeli Foreign Minister Livni and Palestinian President Abbas. On 10 July, our Ambassador in Tel Aviv raised our concerns about the destruction of infrastructure with Israeli Prime Minister Olmert's Foreign Policy Advisor. We have also raised this with the Israel Defence Force.

The Israeli Cabinet agreed on 2 July to take steps to ease the humanitarian situation, including by opening the Karni commercial crossing point between Gaza and Israel for 150 trucks a day carrying food, fuel and medical supplies, and providing power through Israeli grids. We urge Israel to take further such action and allow the full provision of basic services to the Palestinian people.

Haiti

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will make a statement on the human rights situation in Haiti. [85328]

Mr. Hoon: We have a number of concerns about the human rights situation in Haiti, many of which are linked to the political instability and violence that the country has experienced in recent years. Several of the allegations of abuse relate to actions by the police and the judicial system. These include excessive use of force, involvement in kidnappings, detainment without trial, existence of political prisoners and violence against women. Supporting the reform of the police, prisons and judicial system is therefore a major priority for the UN Stabilisation Mission in Haiti. The determination expressed by the recently elected President Préval to tackle human rights problems in Haiti has been encouraging.

Mexico

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what observation of the recent elections in Mexico was undertaken by her Department *(a)* directly and *(b)* through the EU;

what the cost was of (i) the observation and (ii) the UK contribution to it; where the observers were deployed; and what conclusions were reached. [84945]

Mr. Hoon: The Foreign and Commonwealth Office has not been involved in formal election observation of the recent elections in Mexico, although 10 officials from our embassy in Mexico City and one from our consulate in Monterrey registered as Foreign Visitors with the Mexican Federal Electoral Institute. They did not observe any significant irregularities.

The EU undertook a formal Electoral Observation Mission (EOM) to Mexico for the recent elections. They had around 80 observers from 21 members states (including one from the UK). The EU observers were deployed to 31 states and the federal district in Mexico. The EOM issued a preliminary declaration on 3 July and a press statement on 7 July which, among other things, makes clear the electoral institutions in Mexico have behaved with professionalism, transparency and independence. The EOM will remain in Mexico until 20 July and will then produce a final report. The budget allocated to this EOM to Mexico under the European Initiative for Democratisation and Human Rights (EIDHR) budget is €2,474,034. The UK contribution to the EIDHR budget is approximately 17 per cent.

Middle East

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK plans to participate in the United Nations fact-finding mission headed by the Special Rapporteur on the situation of human rights in the Palestinian territories which was agreed at the UN Human Rights Council on 6th July. [85874]

Dr. Howells: The UN Secretariat will assist the fact-finding mission being carried forward by John Dugard, Special Rapporteur on the situation of human rights in the Palestinian territories. As the mission will not be an intergovernmental process, the UK will not be participating.

North Korea

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of the recent missile testing by North Korea. [84969]

Dr. Howells: I refer the hon. Member to the answer I gave to my hon. Friend the Member for Hartlepool (Mr. Wright) on 14 July 2006, *Official Report*, columns 2138-39W.

Sierra Leone

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will make a statement on the human rights situation in Sierra Leone. [85327]

Dr. Howells: In the fragile peace following its brutal civil war, the human rights situation in Sierra Leone is slowly improving. However, many of the root causes of conflict, including abject poverty, corruption and a lack of access to justice remain. These continue to have an impact on the spectrum of human rights.

The government continue to rebuild its institutions and UK programmes to retrain and restructure the armed forces and police have made a big impact on security, to the extent that UN peacekeepers left at the end of 2005. But Sierra Leoneans are still denied many basic rights, notably in the justice sector, which is inefficient and corruptible. We support a Justice Sector Development Programme aiming to tackle this and an Anti-Corruption Commission to tackle wider malfeasance. There is a free press, but the government can still react harshly to criticism.

We worked hard, with other partners, to achieve the transfer of Charles Taylor to the Special Court for Sierra Leone, which is a major success for defending human rights and ending impunity in the region. We want to ensure that the trial continues to have wide coverage in Sierra Leone so that the people feel that they retain ownership of the process.

The democratic principles of the government will be put to the test by the run-up to 2007 elections, which the UK will both help prepare for, through a UN basket fund, and assist in monitoring.

Somalia

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate her Department has made of the number of Somali people living in exile in *(a)* Ethiopia and *(b)* Kenya. [84950]

Dr. Howells: Estimates are difficult because both Kenya and Ethiopia have large indigenous Somali speaking populations and many unregistered Somali exiles in addition to registered refugees. The UN High Commissioner for Refugees estimates for Somali refugees in Kenya in 2005 were around 160,000, plus 30,000 to 50,000 unregistered, and in Ethiopia around 12,000, plus 15,000 to 40,000 unregistered.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions have been held with the Somali Transitional Government on recognition and diplomatic support; and if she will make a statement. [85005]

Dr. Howells *[holding answer 17 July 2006]:* My noble Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs, Lord Triesman of Tottenham, met President Yusuf at the African Union Summit in Banjul on 1-2 July. With the rest of the international community we are engaging with the Transitional Federal institutions as the best process for restoring stability and good governance in Somalia.

The latest fighting in Mogadishu and more widely undermines efforts to restore peace and stability. We call on all parties immediately to end fighting and observe fully the ceasefire agreed between representatives of the Transitional Federal Government and the Islamic Courts in Khartoum on 22 June. We urge the Transitional

Federal Government and the Islamic Courts' Union to engage constructively in the next round of talks in Khartoum on 15 July.

Statutory Instruments

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs on what occasions a statutory instrument sponsored by her Department has been reported by the Joint Committee on Statutory Instruments as defective since October 2005. [85187]

Mr. Hoon: There have been none.

Uganda

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of the need for *(a)* a special envoy and *(b)* a panel of experts on Northern Uganda. [85342]

Dr. Howells: On 26 April the UN Secretariat briefed the UN Security Council on the threat posed by the Lord's Resistance Army (LRA). Along with Security Council and EU partners we welcomed the initial recommendations made. These included encouraging the Government of Uganda to accept the appointment of a Special Envoy with a regional focus and establishing a panel of experts to look at the sources of LRA funding. The UN Secretariat is now preparing a written report.

We think these proposals could support wider efforts to end the long-running conflict in northern Uganda and we look forward to receiving the written report shortly.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs when she plans to issue a response to the publication of the UN Secretary General's report to the UN Security Council on the conflict in Northern Uganda. [85343]

Dr. Howells: The UN Secretary General's report pursuant to resolutions 1653 (2006) and 1663 (2006) on how the UN agencies and missions could more effectively address the problem of the Lord's Resistance Army is expected to be issued shortly.

We will then consider the recommendations and discuss with other members of the UN how best to take them forward.

Xu Shuang fu/Li Maoxing/Wang Jun

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will make representations to the Chinese government on the cases of *(a)* Xu Shuang fu, *(b)* Li Maoxing and *(c)* Wang Jun. [85140]

Dr. Howells: Xu Shuangfu, Li Maoxing and Wang Jun are members of an unconventional underground Christian group, the Three Grades of Servants, who have been accused of murdering 20 leaders from a rival religious group. The information we have from non-governmental organisations gives a cautious assessment of the group's activities and status. We continue to monitor developments closely, but are unable to make representations to the Chinese Government on these cases until we receive evidence that their convictions are based on false grounds.

The Government have lobbied the Chinese Government in general terms to limit, and ultimately abolish, their use of the death penalty, and improve its provision of proper legal defence in criminal trials.

Zimbabwe

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of the United Nations Secretary General's withdrawal as a peace-broker within Zimbabwe. [85037]

Dr. Howells: We welcomed the UN secretary-general's willingness to visit Zimbabwe to address the gathering crisis there. We regret Mugabe's apparent rejection of this offer. Zimbabweans are suffering, and urgently need their government to undertake significant economic and political reform. We will continue work with our international partners, including at the UN, to ensure effective international pressure on the Mugabe regime.

DEFENCE

Afghanistan

Dr. Fox: To ask the Secretary of State for Defence what assessment he has made of the frequency, scale and sophistication of Taliban attacks on British forces in Helmand Province. [84562]

Nick Harvey: To ask the Secretary of State for Defence what his most recent assessment is of the *(a)* strength and *(b)* fighting capability of (i) the Taliban and (ii) other illegal armed groups in Afghanistan. [84896]

Des Browne: We continuously monitor and assess all known threats to our forces. The frequency and scale of attacks against our forces has increased as we have deployed the Helmand Taskforces to the south of Afghanistan. These attacks vary in sophistication. However, disclosure of details would, or would be likely to, prejudice the security of the armed forces. Neither the Taliban, nor the range of illegally armed groups, currently pose a threat to the long-term stability of Afghanistan.

Mr. Harper: To ask the Secretary of State for Defence if he will estimate the average extra flying hours for *(a)* attack and *(b)* support helicopters in Afghanistan since flying hours were extended; and by what methods these increased flying hours were achieved. [85110]

Des Browne: Flying hours are allocated on a monthly basis and were first extended in June. The increased hours are achieved by servicing the aircraft more frequently.

Hours have been increased by up to 39 per cent. depending on aircraft type. It would not be appropriate

to go into the detail of how many hours this constitutes as to do so would give unnecessary advantage to enemy forces and put the lives of our personnel at risk.

As I announced on 10 July, a further uplift in both fixed wing and helicopter support is planned. There are a number of other helicopter assets operating in Southern Afghanistan, including Helmand province that the UK can draw on for support.

Mr. Harper: To ask the Secretary of State for Defence whether *(a)* ISAF and *(b)* British forces have (i) provided intelligence for specific anti-narcotics operations in Afghanistan, (ii) air-lifted and provided secure transport for Afghan forces taking part in anti-narcotics operations and (iii) provided protective cordons for Afghan forces taking part in anti-narcotics operations. [85754]

Des Browne: A key element of both the International Security Assistance Force (ISAF) and Operation Enduring Freedom (OEF) mission is to support the Government of Afghanistan and its security forces. British forces, along with ISAF forces operating in other parts of Afghanistan, have and will continue to support the Afghan forces in a number of ways. As well as the ongoing mentoring process, this includes the sharing of intelligence, provision of transport and protective cordons where appropriate.

Armed Forces Compensation Scheme

Mr. Harper: To ask the Secretary of State for Defence what mechanisms are in place for evaluation of the armed forces compensation scheme; and what evaluation is made of this scheme in relation to patients suffering from mental health issues. [85113]

Mr. Watson: The armed forces compensation scheme was introduced on 6 April 2005 to provide compensation for personnel injured, made sick or killed through service on or after that date. An evaluation of the first year of operation is currently being carried out involving interested parties, including ex-service organisations and the three services. The evaluation will be in the light of experience and evidence of cases arising so far, including those who have suffered from mental health issues and will include discussions with charities which operate in this arena.

Armed Forces Doctors and Dentists

Mr. Streeter: To ask the Secretary of State for Defence when he plans to implement the pay award for armed forces doctors and dentists recommended by the Armed Forces Pay Review Body. [86031]

Des Browne: The Government are currently considering the recommendations of the independent Armed Forces Pay Review Body's 2006 supplementary report on the pay of service medical and dental officers. We hope to make an announcement soon.

Armoured Vehicles

Dr. Fox: To ask the Secretary of State for Defence how many tanks were in service in each year since 1997. [84543]

Mr. Ingram: The following table provides details of the numbers of Main Battle Tanks in-service with the armed forces during the period 1997-2006:

	Equipment	
	Challenger 1 (CR1 MBT)	*Challenger 2 (CR2 MBT)*
1997	426	47
1998	426	131
1999	412	237
2000	338	309
2001	248	386
2002	160	386
2003	64	385
2004	11	385
2005	3	385
2006	3	385

BL755 Cluster Munition

Nick Harvey: To ask the Secretary of State for Defence what reports *(a)* he and *(b)* his Department has received which indicate that the BL755 failure rate may be higher than 6 per cent. in actual combat use. [83985]

Mr. Ingram: No reports have been received which suggest that the BL755 cluster bomb failure rate increases when deployed on operations.

Broadcasting

Andrew George: To ask the Secretary of State for Defence what the cost was of *(a)* Services Sound and Vision Corporation and *(b)* its subsidiary British Forces Broadcasting Service in each of the last six years. [85019]

Mr. Watson: The Ministry of Defence has a number of contracts with the Services Sound and Vision Corporation (SSVC), which provide services to the armed forces ranging from the broadcasting of British Forces Broadcasting Service (BFBS) Television overseas to operating the British Defence Film Library (BDFL). BFBS is the designation of some of the services operated on behalf of the MOD by SSVC.

	Costs (£ million)
2000-01	17.86
2001-02	21.10
2002-03	25.16
2003-04	27.17
2004-05	28.48
2005-06	31.04

Challenger Tank

Paddy Tipping: To ask the Secretary of State for Defence how many of the 14 allocated days have been used in training for the firing of the 120 mm Challenger tanks at the Warcop range in each year since 2001. [85383]

Mr. Watson: None of the allocated days have been used for firing of the Challenger tank 120 mm guns

since 2001. However, as there are only two other ranges suitable for main battle tank (MBT) use—Lulworth and Castlemartin—and given the critical requirement for MBT crews to fire during pre-deployment training, the Warcop facility remains a strategic reserve asset for use in the event of one of the other ranges being unusable.

Combat Stress/Mental Illness

Mr. Harper: To ask the Secretary of State for Defence how many armed forces personnel who served in the 1991 Gulf War have been diagnosed with mental illnesses in each year since that conflict; and how many were referred to *(a)* Combat Stress and *(b)* NHS mental health services. [84855]

Mr. Watson: Information on mental illnesses reported by veterans of the 1990-91 Gulf conflict while still serving is not held centrally. The Ministry of Defence does not hold records of mental illnesses reported after an individual has left the services. The NHS is responsible for the health care of ex-service personnel but information on referrals of Gulf veterans is not available. For those Gulf veterans still serving, Defence Medical Services are responsible for providing treatment for all medical conditions, including mental health problems but again we do not hold referral information according to the operations on which personnel were deployed.

Combat Stress have received 853 patient referrals who served in the 1990-91 Gulf conflict, but the same patients may have served in other deployments, so the origin of the mental health problem may not be clear.

Defensive Aids Suites

Mr. Hancock: To ask the Secretary of State for Defence pursuant to his answer of 3 July 2006, *Official Report*, column 704W, on defensive aids suites, when the infra red counter measure was discontinued as a defensive aid suite; on what basis the decision was made; and if he will make a statement. [84420]

Mr. Ingram: Infra red counter measures have not been discontinued.

Forces (Discharges)

Mr. Carmichael: To ask the Secretary of State for Defence how many people discharged before January 2000 from *(a)* the Army, *(b)* the Royal Navy and *(c)* the RAF because of their sexual orientation are awaiting compensation payments; how many people have received compensation payments in each of the last six years; what the (i) average, (ii) minimum and (iii) highest payments made in these cases has been; how many former servicemen and women have rejected payments offered; and if he will make a statement. [85917]

Mr. Watson: There are 62 claims against the Ministry of Defence from ex-service personnel who allege that they were dismissed from the armed forces as a result of their sexual orientation that remain to be settled. Of these 27 are ex-Army, 19 ex-RAF and 16 ex-Royal Navy personnel. Initial offers of compensation have been made in 29 of these cases, but rejected; negotiations are ongoing.

The following table shows that 24 claims were settled over the last six years. The highest settlement figure was £115,405 and the lowest settlement figure was £10,000. The average settlement award of £35,435.

Financial year	*Claims settled*	*Compensation/legal costs paid (£)*
2006-07 (to date)	4	119,000
2005-06	3	52,000
2004-05	0	0
2003-04	9	192,350
2002-03	5	370,860
2001-02	3	116,250

Helicopters

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* actual and *(b)* required figures are for helicopter crew personnel for each relevant squadron of the (i) Fleet Air Arm and (ii) Royal Air Force. [84544]

Mr. Ingram: The actual and required figures for helicopter crew personnel (excluding ground crew) for each relevant squadron of the Fleet Air Arm and Royal Air Force are shown in the following tables:

Fleet Air Arm

	Squadron (Sqn)	*Actual (held)*	*Required (establishment)*
Sea King Mk 4	845 Naval Air Squadron (NAS)	49	45
Sea King Mk 4	846 NAS	48	45
Sea King Mk 4	848 NAS	29	33
Lynx AH7	847 NAS	15	18
Lynx Mk 3/8	702 NAS	22	24
Lynx Mk 3/8	815 NAS	60	70
Merlin Mk 1	700 NAS	9	11
Merlin Mk 1	814 NAS	32	33
Merlin Mk 1	820 NAS	29	33
Merlin Mk 1	824 NAS	48	72
Merlin Mk 1	829 NAS	19	21
SKASaC Mk 7	849 NAS	15	15
SKASaC Mk 7	849 A Flt	14	15

Fleet Air Arm

	Squadron (Sqn)	Actual (held)	Required (establishment)
SKASaC Mk 7	849 B Flt	13	15
Sea King Mk 5 Search & Rescue	771 Sqn	42	42
Sea King Mk 5 Search & Rescue	GANNET	20	20

Royal Air Force

	Squadron	Actual (held)	Required (establishment)

Twin Squirrel	32 Sqn	3	3
Griffin HAR2	84 Sqn	11	11
Squirrel HT1, Griffin HT1	60(R) Sqn—Defence Helicopter Flying School	47	46

Interpreters

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many interpreters are employed by the UK military in *(a)* Iraq and *(b)* Afghanistan. [85018]

Des Browne: As at 1 July 2006, the UK military employed 476 interpreters in Iraq (of which 116 are administered on behalf of Australian forces) and 156 interpreters in Afghanistan.

Iraq

Dr. Fox: To ask the Secretary of State for Defence what assessment he has made of the level of violence being carried out by militia groups in Multi-National Division South East; and if he will make a statement. [84561]

Des Browne: I receive regular assessments of the level of violence in Multi-National Division South including that carried out by militia groups.

Mr. Moore: To ask the Secretary of State for Defence pursuant to the answer of 22 May 2006, *Official Report*, column 1321W, on Iraq, whether progress has been made on resuming full co-operation between Maysan Provincial Council and multi-national forces. [85621]

Des Browne: We continue to make progress towards resumption of formal co-operation with the Maysan Provincial Council with a number of positive developments in recent weeks. Co-operation with the provincial authorities has continued at working level and the Maysan Battlegroup has trained and mentored the Iraqi Security Forces throughout this period.

Merlin Helicopters

Dr. Julian Lewis: To ask the Secretary of State for Defence what future roles are planned for the 12 Royal Navy Merlin helicopters not included in the scheduled Lockheed Martin upgrade programme; and what the scheduled out-of-service dates are for these helicopters. [85381]

Mr. Ingram *[holding answer 17 July 2006]:* There are 12 Royal Navy Merlin Mk1 helicopters not currently included in the Lockheed Martin upgrade programme (known as the Merlin Capability Sustainment Programme). A decision is currently expected to be made in late 2008 as to whether to add 8 of these 12 to the programme. Should a decision be taken not to add these aircraft to the programme they would remain in the RN Merlin fleet and a decision would be taken on their out-of-service date around 2015. Inclusion in the programme would extend their out-of-service date to 2029.

There are no plans to add the other four RN Merlin Mk1 helicopters to the Merlin Capability Sustainment Programme. These are currently used as trials aircraft either based at Agusta Westland Ltd. at Yeovil, Somerset or at RNAS Culdrose. A decision on the out-of-service date of these four aircraft is also expected to be taken around 2015.

Military Vehicles

Mr. Hancock: To ask the Secretary of State for Defence how many *(a)* RG-31 vehicles, *(b)* mine-protected vehicles and *(c)* Cougar vehicles, and variants thereof, are in service; and where they are based. [81599]

Mr. Ingram: There are no RG-31 vehicles currently in service with UK forces. There are eight of the current Mine Protected Vehicle in service, which is based on an early version of the Force Protection Inc. Cougar, including a number in Afghanistan.

Mr. Paterson: To ask the Secretary of State for Defence what assessment he has made of whether the improvised explosive device attack at Haditha, Iraq in

2006, on the amphibious assault vehicle operated by the US Marine Corps has implications for *(a)* the design of British armoured personnel carriers and *(b)* other British Army force protection measures. [82513]

Mr. Ingram: We have established links with coalition partners in Iraq to exchange details of terrorist incidents, successful or otherwise, in order to identify lessons for tactics, platform design and capability development. We do not comment publicly on specific incidents or conclusions for reasons of operational security.

Dr. Fox: To ask the Secretary of State for Defence what steps have been taken since September 2004 to enhance the provision of electronic counter measures for military vehicles operating out-of-base in Iraq or Afghanistan. [84534]

Des Browne: The threat from Improvised Explosives Devices is constantly evolving and responding to it is one of our highest priorities. Over the past two years we have spent £120 million on protection for ground forces in Iraq, including on electronic counter measures. In addition, the British Army constantly reviews its training, tactics and procedures to minimise the risks to which our troops are exposed. It would not be appropriate to comment on the details as disclosure would, or would be likely to, prejudice the effectiveness and security of the armed forces.

Dr. Fox: To ask the Secretary of State for Defence what steps have been taken since September 2004 to enhance ballistic protection to side doors, footwells and forward bulkheads of Snatch vehicles deployed in Iraq and Afghanistan. [84542]

Des Browne: I refer the hon. Member to the answer I gave on 7 June 2006, *Official Report*, column 624W.

Non-Combat Deaths

Lembit Öpik: To ask the Secretary of State for Defence how many non-combat army deaths there have been in the British armed forces in each year since 1997; how many were firearms-related in each year; and if he will make a statement. [82250]

Mr. Watson *[holding answer 6 July 2006]:* Details on annual non-combat army deaths in each year since 1997, including firearms-related deaths, are shown in the following table.

Deaths in the regular armed forces (Army only): showing non-combat and firearms-related deaths, 1997-2005

	Non-combat injury related deaths	*of which: Non-combat firearms related deaths*
All	590	40
1997	68	3
1998	70	1
1999	62	3
2000	68	7
2001	61	7
2002	73	7
2003	55	5
2004	74	5
2005	59	2

Nuclear Deterrent

Mr. Laws: To ask the Secretary of State for Defence what expenditure his Department has *(a)* incurred and *(b)* approved in respect of the upgrading or replacement of the UK's nuclear deterrent; and if he will make a statement. [83969]

Des Browne *[holding answer 12 July 2006]:* It is not practicable, except at disproportionate cost, to assess historic expenditure on upgrading or replacing the UK's nuclear deterrent since its inception in the 1950s.

We routinely undertake work to maintain the capability of our existing nuclear deterrent system over its current planned design life. The cost of this work is included within the overall running costs of the Trident system, which have varied between three and 4.5 per cent. of the defence budget since it came into service, up to and including 2005-06.

In terms of expenditure in support of the possible retention by the UK of a nuclear deterrent capability beyond the planned life of the current system, I refer the hon. Gentleman to the answer I gave to the hon. Member for Twickenham (Dr. Cable) on 22 May 2006, *Official Report*, column 1322W. In addition to the expenditure referred to in that answer, we have previously spent a total of around £9 million.

Jeremy Corbyn: To ask the Secretary of State for Defence what expenditure has been incurred on research into a new generation of nuclear warheads in each of the last five years. [85534]

Des Browne: There is no programme to develop a new United Kingdom nuclear warhead. As was stated in the 1998 Strategic Defence Review, we retain a minimum capability to design and manufacture a new warhead, should one be required. It is not possible precisely to distinguish between expenditure to support retention of that capability and that required to support the current warhead.

Overseas Operations

Andrew Rosindell: To ask the Secretary of State for Defence how many members of the British armed forces are serving on operations overseas. [83116]

Mr. Ingram: Location statistics may be compiled based on posted location or deployed location. Posted location is where an individual is permanently based. Deployed location is where an individual is physically located at a particular point in time and is typically used for short tours of duty.

The numbers of personnel posted to each location abroad are shown in Tri Service Publication 6, Global Location of UK Regular Forces (TSP 6). Copies of

TSP 6 are held in the House of Commons Library and are also available at www.dasa.mod.uk.

Figures for the number of Regular and Reserve Service personnel deployed on operations are shown in the following tables, as is the percentage of deployed personnel against the total UK Regular and Reserve Force.

Number and percentage of UK Regular Forces[1] deployed at 1 May 2006

	All Services	Naval Service	Army	RAF
Total trained strength	[2]176,490	[2]34,760	[2]96,660	[2]45,080
Total deployed[3]	16,330	2,570	11,740	2,030
Percentage deployed	[2]9.3	[2]7.4	[2]12.1	[2]4.5

[1] Figures are for trained UK Regular Forces, and therefore exclude Gurkhas, Full-Time Reserve Service personnel, the Home Service battalions of the Royal Irish Regiment, mobilised reservists and Naval Activated Reservists.
[2] Denotes provisional. Naval Service trained and untrained split, and Army Officer figures are provisional pending investigation. Due to the introduction of a new Personnel Administration System for RAF, all RAF data from 1 April 2006 are provisional and subject to review.
[3] Figures for deployment are shown at the 2 May 2006.
Note:
Data are rounded to the nearest 10 to prevent disclosure of sensitive information. Percentages are calculated from unrounded figures.
Source:
DASA (Tri-Service).

Number and percentage of trained UK Reserve Forces mobilised at 1 May 2006

	All Services	Naval Service	Army	RAF
Total Reserve strength[1,2,3,4,5,6]	86,540	12,770	64,220	9,550
Regular Reserve[1,2,3,4,5]	50,570	10,400	32,060	8,100
Volunteer Reserve[1,3,4,6]	35,970	2,360	32,150	1,450
Total mobilised Reserves[7]				
Number[7]	1,480	30	1,340	110
Percentage[7,9]	1.7%	0.2%	2.1%	1.1%
Mobilised Regular Reserve[7]				
Number[7]	260	[9]—	260	[9]—
Percentage[7]	0.5%	[9]—	0.8%	[9]—
Mobilised Volunteer Reserve[7]				
Number[7]	1,220	30	1,090	110
Percentage[7]	3.4%	1.2%	3.4%	7.4%

[1] Reserve strength figures are at 1 April 2006.
[2] Figures exclude full-time Reserve Service personnel.
[3] Naval Service excludes University RN units. Army excludes non-regular permanent staff, Officer Training Corps and full-time Reserve Service. RAF excludes University Air Squadrons.
[4] It is not possible to identify whether Volunteer Reserves are trained, hence figures show total Volunteer Reserve.
[5] It is not possible to identify from central sources which reserves are mobilised overseas. Consequently figures show all mobilised reservists, irrespective of location, including those on pre-deployment training and post-operational leave.
[6] Percentage of total Reserve strength.
[7] Percentage of Regular Reserve strength.
[8] Percentage of Volunteer Reserve strength.
[9] Denotes zero or a percentage rounded to zero.
Note:
Data are rounded to the nearest 10 to prevent disclosure of sensitive information. Percentages are calculated from unrounded figures.
Source:
DASA (Tri-Service).

Premature Voluntary Releases

Mr. Harper: To ask the Secretary of State for Defence how many premature voluntary release exits there were from the *(a)* Army, *(b)* Navy, *(c)* Royal Marines and *(d)* Royal Air Force in each year since 1997. [85759]

Mr. Watson: Voluntary Outflow figures are published in Tri-Service Publication (TSP) 5—UK Regular Forces Outflow from Trained Strength to Civil Life.

TSP 5 is published monthly; the most recent publication shows the numbers of service personnel at 1 May 2006.

Copies of TSP 5 are held in the House of Commons Library and are also available at www.dasa.mod.uk.

TSP 5 includes data for the naval service as a whole. The breakdown between Royal Navy and the Royal Marines is shown in the following table:

Naval service voluntary outflow from trained strength to civil life

		Number
Financial year	*Royal Navy*	*Royal Marines*
1996-97	1,690	320
1997-98	1,650	280
1998-99	1,450	420
1999-2000	1,610	300
2000-01	1,240	250
2001-02[1]	1,780	420
2002-03	1,400	350
2003-04	1,510	340
2004-05	1,640	380
2005-06	1,460	430

[1] For all naval service VO applications received on or after 1 June 2000, the maximum time period between date of application and exit was reduced from 18 months to 12. This effectively compressed 18 months of exits into the financial year 2001-02.
Notes:
1. The term premature voluntary release (PVR) has been changed to voluntary outflow (VO) although the methodology remains the same.
2. VO is defined as all applications and exits from trained personnel which are generated by the individual before their time expiry.
3. Figures show all trained voluntary outflow from the naval service including recalled reservists.
4. Figures have been rounded to nearest 10. When rounding to the nearest 10, numbers ending in 5 have been rounded to the nearest multiple of 20 to prevent systematic bias.
Source:
DASA (Tri-Service)

Royal Air Force

Mr. Harper: To ask the Secretary of State for Defence how many serving *(a)* engineers and *(b)* medical personnel there are in the Royal Air Force; and what the requirement is for each category. [85752]

Mr. Watson: The most recent available figures are:

	Requirement	*Trained strength*
Engineer	20,630	21,360
Medical	1,765	1,520

Notes:
1. As at 6 March 2006.
2. All figures have been rounded to the nearest 5.
3. Figures include officers and non-commissioned personnel.
4. Medical figures exclude dentists and dental trades.

Strathmore Estates

Paddy Tipping: To ask the Secretary of State for Defence what payments have been made to the Strathmore Estates for training use of their land within the Warcop byelawed area in each year since 2001. [85384]

Mr. Watson: Payments are made by this Department to the Strathmore Estate according to the licence agreement, and reviewed every three years. I am unable to provide the amounts as this would prejudice our position commercially with other landowners in the area with whom we have similar agreements.

UK Bases

Norman Baker: To ask the Secretary of State for Defence what rules govern the use of UK bases at *(a)* Diego Garcia and *(b)* RAF Fairford by the United States to launch military action against a sovereign state. [85506]

Des Browne: The presence of the United States Air Force at RAF Fairford is, as with all bases made available to United States visiting forces in the United Kingdom, governed by the NATO Status of Forces Agreement 1951 and additional confidential arrangements.

Her Majesty's Government have to be fully consulted and agree before any UK-based US forces are deployed operationally. The Joint Churchill-Truman Communiqué of January 1952 stated:

"Under arrangements made for the common defence, the United States has the use of certain bases in the United Kingdom. We reaffirm the understanding that the use of these bases in an emergency would be a matter for joint decision by H. M. Government and the U.S. Government in the light of the circumstances prevailing at the time."

The use of the US military facility at Diego Garcia is governed by an Exchange of Notes between the US and UK which requires the US to seek prior approval for any operations that they wish to undertake from Diego Garcia.

Veterans

Mr. Harper: To ask the Secretary of State for Defence what discussions he has had with the Secretary of State for Communities and Local Government regarding housing for veterans; and what plans he has to improve access to housing for *(a)* single veterans and *(b)* veterans with families. [84830]

Mr. Watson: There have been no recent discussions with the Secretary of State for Communities and Local Government about housing for veterans. However, frequent contact is maintained between officials from the Ministry of Defence and the Department for Communities and Local Government regarding veterans housing matters. Our main focus is on improving access to housing for Service personnel while they are still serving or are at the point of leaving the Service. This applies to both single Service personnel and those with families, and is intended to facilitate a smooth transition to civilian life. Measures already in place to assist all personnel leaving the Services include the provision of comprehensive information and advice on housing options and the MOD Nominations Scheme, which facilitates access for Service leavers to housing with 43 registered social landlords and councils across the UK. In recognition of their specific needs, the Single Persons Accommodation Centre for the Ex-Services provides an advice and placement service for single Service leavers.

Through the Veterans Agency helpline and website, liaison with the ex-Service charities and other agencies, and various communications initiatives, we aim to increase awareness among veterans of the support available and improve access to help on housing and other matters. We also support a number of initiatives to prevent and tackle homelessness among existing veterans.

TREASURY

Bank Accounts

Mr. Graham Stuart: To ask the Chancellor of the Exchequer how many and what proportion of adults in *(a)* Beverley and Holderness and *(b)* the East Riding of Yorkshire who do not have access to a bank account are over the age of 65; and if he will make a statement. [86333]

Ed Balls: The most recent data available that allow assessment to be made of the number of households with no access to a bank account are to be found in the Family Resources Survey from 2002-03. This indicates that 8 per cent. of households in the United Kingdom had no bank account of any kind. This equated to 1.9 million households containing around 2.8 million adults. The data are broken down to Government office regional level. This shows 9 per cent. of households in Yorkshire and the Humber were unbanked. The data can also be broken down by the age of the household reference person (the owner of the household or the one with the highest income). This shows that 27 per cent. of unbanked households had a household reference person over the age of 65.

In December 2004, the Government and the banks agreed to work together towards the goal of halving the number of adults in households with no access to a bank account of any kind and of making significant progress within two years. The Financial Inclusion Taskforce has been asked to monitor progress. The taskforce recently made its first annual report, which concluded that steady progress has been made towards the goal but also encouraged banks to continue to address the difficulties faced in opening a bank account.

Mr. Carmichael: To ask the Chancellor of the Exchequer what proportion of people living in Scotland had a bank account in each of the last five years; what steps he is taking to increase the number of people with bank accounts; and if he will make a statement. [86408]

Ed Balls: The most recent data available that allows assessment to be made of the number of households with no access to a bank account are to be found in the Family Resources Survey from 2002-03. This indicates that 8 per cent. of households in the United Kingdom had no bank account of any kind. This equated to 1.9 million households containing around 2.8 million adults. The data are broken down to Government office regional level. This shows 8 per cent. of households in Scotland were unbanked. The figures for previous years are: 2001-02—9 per cent.; 2000-01—14 per cent.; 1999-2000—13 per cent.; 1998-99—14 per cent.

In December 2004, the Government and the banks agreed to work together towards the goal of halving the number of adults in households with no access to a bank account of any kind and of making significant progress within two years. The Financial Inclusion Taskforce has been asked to monitor progress. The taskforce recently made its first annual report, which concluded that steady progress has been made towards the goal but also encouraged banks to continue to address the difficulties faced in opening a bank account.

Benefit Fraud

Mr. Francois: To ask the Chancellor of the Exchequer what the conclusions were of the Taskforce on Benefit Fraud announced in the 1999 Pre-Budget Report; what the recommended plan of action consisted of; and what progress has been made with its implementation. [84819]

Mr. Plaskitt: I have been asked to reply

In 1999, Lord Grabiner QC, was asked to chair a task force bringing together the Treasury, the Inland Revenue, Customs and Excise, the Department of Social Security and the Employment Service to conduct an investigation into the informal or hidden economy. His report, "The Informal Economy—A Report by Lord Grabiner QC", was published in March 2000 and is available in the Library. DWP has successfully acted on all the key recommendations applicable to this Department.

Business Secondment (Schools)

Mr. Hoban: To ask the Chancellor of the Exchequer how many employees of businesses have been seconded to schools in each year since 1997; and how much tax relief employers claimed in respect of such secondments in each year. [85554]

Jim Knight: I have been asked to reply.

No information is available on employees of businesses who have been seconded to schools and on the tax relief claimed by employers in respect of employees seconded to schools.

We welcome links between schools and businesses and the Government make available £25 million a year through the Learning and Skills Council (LSC) to promote closer links between schools and business.

Child Benefits

Mr. Frank Field: To ask the Chancellor of the Exchequer whether copies of birth certificates are valid for parents registering for child tax credit and child benefit. [85721]

Dawn Primarolo *[holding answer 14 July 2006]:* Child benefit office and tax credit office will accept copies of birth certificates only if the original has been seen and the copy certified as a true copy by two officers of HM Revenue and Customs, or the Department of Work and Pension or the Department for Social Development.

Disabled People

Danny Alexander: To ask the Chancellor of the Exchequer what discussions he has had with the Secretary of State for Work and Pensions on the overall approach to reinvestment of future savings in the benefits budgets and growth in revenue resulting from increased participation of disabled people in the workforce; what agreements have been reached in principle; and if he will make a statement. [84349]

Mr. Timms: We expect the Pathways to Work programme to generate significant long-term benefit savings.

As the savings and effectiveness of the Pathways to Work programme are demonstrated, we will consider additional funding for the Department for Work and Pensions for further welfare reform measures. Any such funding will be allocated in the light of potential value for money, including future Exchequer benefits.

ECOFIN

Mr. Laws: To ask the Chancellor of the Exchequer pursuant to his answer of 6 July 2006, *Official Report*, column 1283W, on the ECOFIN meeting, on what date his diary secretary was informed that he would be attending the ECOFIN meeting on 7 June. [85906]

John Healey: Dates for ECOFIN meetings are confirmed seven months in advance of each presidency.

Education and Training Expenditure

Mr. Willetts: To ask the Chancellor of the Exchequer what cash figures were used to calculate spending on education and training as a percentage of GDP in Table 3.4 of the Public Expenditure Statistical Analyses 2005 for *(a)* schools, *(b)* tertiary education and *(c)* other training programmes for England. [86433]

Mr. Timms: Table 3.6 of Public Expenditure Statistical Analyses (PESA) 2005 presents UK Total Expenditure on Services (TES) by sub-function for 1999-2000 to 2004-05, consistent with Table 3.4. The sub-functions presented include schools, tertiary

education and training spending. For earlier years we do not hold a consistent series with Table 3.4 at the detailed sub-function level and so the information is not available. The methodology used to produce the high-level functional series back years in Table 3.4 is available on the HMT website at:

http://www.hm-treasury.gov.uk/media/777/D4/historical_funtion_series_method_note.pdf

Total Expenditure on Services by country and region is available in chapter 8 of PESA 2005 (chapter 7 of PESA 2006). These regional spending statistics use the concept of 'identifiable' spending where Government spending is allocated to the region or country that benefits from the spending. Some spending cannot be allocated to a region or country as it is for the benefit of the UK as a whole (e.g. defence spending). Tables 8.5 to 8.10 present England spending on Education and Training for 1999-2000 to 2004-05 on this identifiable, who benefits, basis. We do not currently produce these regional analyses at a sub-function level, although it is something we are considering for the future. Paragraph 3.59 of the response to the PESA reader consultation published this year sets this out:

http://www.hm-treasury.gov.uk/economic_data_and_tools/finance_spending_statistics/pes_publications/pespub_consult.cfm

The GDP figures used to produce Table 3.4 are as stated in footnote 1 to the table.

Inheritance Tax

Mr. Byers: To ask the Chancellor of the Exchequer what the effect on income from inheritance tax would be if the threshold for payment was raised to *(a)* £500,000, *(b)* £1 million and *(c)* £2.5 million. [85375]

Dawn Primarolo *[holding answer 14 July 2006]:* Raising the inheritance tax threshold with effect from 2007-08 would have the following effect on forecast revenue:

£ billion

	Reduction in receipts from raising threshold to		
	(a) £500,000	*(b) £1 million*	*(c) £2.5 million*
2007-08	0.7	1.2	1.6
2008-09	1.6	2.7	3.4
2009-10	1.7	3.1	3.8
2010-11	1.8	3.3	4.1

Local Government

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer what discussions are planned between officials of the Office for National Statistics and those of the Department for Communities and Local Government on the local government financial settlement for 2007-08, in relation to population changes caused by immigration from EU accession countries; and if he will make a statement. [85007]

John Healey: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 18 July 2006:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking what discussions are planned between officials of the Office for National Statistics and those of the Department for Communities and Local Government on the local government financial settlement for 2007-08, in relation to population changes caused by immigration from EU accession countries. (85007)

The Department for Communities and Local Government (DCLG) and ONS are in regular contact at a working level to discuss a range of statistical issues around population. None of these discussions will be about the local government financial settlement which is the responsibility of DCLG and not a matter for ONS. In addition the ONS' National Statistics Centre for Demography hosts the Central and Local Government Information Partnership (CLiP) Population Subgroup. This is the forum ONS uses to discuss statistical issues pertaining to the estimation of population with central and local government. DCLG are represented on this group.

ONS produces the mid year population estimates on a consistent basis, for all local authorities in England and Wales. These are the best available estimates at the time of their publication. They are based on the UN definition of a long term migrant i.e someone who changes their country of usual residence for a period of at least a year. The 2005 Mid Year Estimates, due to be published on 24 August 2006, will include an estimate of the number of long term immigrants from the EU accession countries.

Network Banking Scheme

Mr. Paice: To ask the Chancellor of the Exchequer which banks have signed up to be part of the network banking scheme with the Post Office. [85137]

Jim Fitzpatrick: I have been asked to reply.

Network banking constitutes commercial arrangements between Post Office Ltd and high street banks allowing their current account customers to access their accounts at post office branches. Currently customers of Alliance and Leicester, Bank of Ireland, Barclays (England and Wales only), Clydesdale Bank, The Co-operative Bank, Lloyds TSB (England, Scotland and Wales only) and Nationwide Building Society can access their current accounts at post offices. Current accounts of the Internet banks Cahoot, First Direct (Scotland only) and Smile are also accessible at post offices.

In addition to the commercial network banking arrangements, universal banking services at post offices were introduced on 1 April 2003 to enable those who wish to do so to continue to access cash and benefits at post office counters following the migration from order books to direct payment. Under these arrangements, The Abbey, Alliance and Leicester, Bank of Ireland, Bank of Scotland, Barclays, Clydesdale Bank, The Co-operative Bank, First Trust Bank, Halifax, HSBC, Lloyds-TSB, Nationwide Building Society, Natwest, Northern Bank, Royal Bank of Scotland, Ulster Bank and Yorkshire Bank each have a basic bank account product accessible at post offices.

Registration On-line Computer System

Mr. Djanogly: To ask the Chancellor of the Exchequer what the cost to date has been of the purchase and installation of the Registration on-line computer system at registry offices. [86034]

John Healey: The information requested falls within the responsibility of the Registrar General, who has been asked to reply.

Letter from Karen Dunnell, dated 18 July 2006:

As Registrar General for England and Wales, I have been asked to reply to your recent Parliamentary Question concerning the cost to date of the purchase and installation of the Registration ON-line computer system at registration offices. (86034)

Central government expenditure on the purchase and installation of the Registration ON-line computer system for the period to the end of June 2006 is £5,108,000.

Mr. Djanogly: To ask the Chancellor of the Exchequer what plans the Government have to extend the implementation of the Registration on-line computer system at registry offices across England and Wales. [86035]

John Healey: The information requested falls within the responsibility of the Registrar General, who has been asked to reply.

Letter from Karen Dunnell, dated 18 July 2006:

As Registrar General for England and Wales, I have been asked to reply to your recent Parliamentary question asking what plans the Government have to extend the implementation of the Registration ON-line computer system at registry offices across England and Wales. (86035)

The Registration ON line (RON) system currently used by registrars in England and Wales to record civil partnership registrations will be extended later this year to include birth and death registrations. RON will first be piloted in four registration districts in November, and then extended to a further nine areas in December. Subject to both pilot phases proceeding successfully, RON for births and deaths will be rolled out across England and Wales in February 2007. The roll-out of the marriages module will follow as soon as possible thereafter.

Sunglasses

Lorely Burt: To ask the Chancellor of the Exchequer what the cost to the Treasury would be of reducing the rate of VAT to *(a)* 5 per cent. and *(b)* 0 per cent. on (i) children's sunglasses and (ii) all sunglasses. [85969]

Dawn Primarolo: HM Revenue and Customs does not have sufficient data to estimate the cost of a reduced or zero rate of VAT for these products.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer (1) how many disputed tax credit overpayment requests have been received in each quarter since April 2004; how many requests have been upheld; and if he will make a statement; [75746]

(2) how many overpayments of tax credits have been written off due to acceptance by his Department of official error since April 2003; and if he will make a statement; [75747]

(3) how many tax credit claimants have *(a)* returned form TC 846 and *(b)* otherwise been recorded as requesting the write-off of their overpayments on grounds of official error for each month since April 2003; and if he will make a statement; [75754]

(4) what his latest estimate is of the proportion of tax credit overpayments due to official error in each year since 2003-04; and if he will make a statement; [75755]

(5) how many people have appealed against tax credits overpayments recovery in each month since April 2003; how many appeals have been successful; and if he will make a statement; [75775]

(6) what proportion of tax credits overpayments have been written off for *(a)* 2003-04, *(b)* 2004-05 and *(c)* 2005-06. [75776]

Dawn Primarolo: For the number of disputed tax credit overpayments the Tax Credit Office (TCO) received, and the number written off between May 2004 (when the Department began recording disputes received) and January 2006, I refer the hon. Member to the answer I gave the right hon. Member for Birkenhead (Mr. Field) on 1 March 2006, *Official Report*, column 727W and the answers I gave him on 19 January 2006, *Official Report*, columns 1496-97W and 6 July 2005, *Official Report*, column 437W.

The TCO received around 39,000 disputed overpayments in February 2006, around 33,000 in March 2006 and around 26,500 in April 2006.

The number of overpayments where the overpayment was successfully disputed, that is, where the overpayment was written off in full or in part by the TCO because of official error, was around 2,000 in February 2006, around 1,500 in March 2006 and around 100 in April 2006.

The figures for overpayments written off do not directly relate to those disputes that were received in the same month.

The figures for May 2006 are not yet available.

Mr. Laws: To ask the Chancellor of the Exchequer (1) how many compensation payments have been made by the tax credits section of his Department in each reporting period since April 2003; what the value of each payment was; and if he will make a statement; [75769]

(2) how many compensation payments for maladministration and poor service have been made by the tax credits section of his Department for each month from April 2003 to May 2006; and if he will make a statement. [75789]

Dawn Primarolo: The circumstances in which the former Inland Revenue and Her Majesty's Revenue and Customs will make compensation payments to its customers are explained in the Department's code of practice 1, "Putting Things Right', which is available at:

www.hmrc.gov.uk/leaflets/cop1.pdf

The Department will pay compensation for reasonable costs incurred as a direct result of their mistakes or delays and to recognise worry and distress caused by those mistakes and delays. A breakdown of the reasons why payments are made is not available.

For 2003-04, 2004-05 and the period April to September 2005 inclusive, I refer the hon. Member to the answers I gave him on 7 February 2005, *Official Report*, columns 1244-45W and 15 November 2005,

Official Report, column 1212W. A monthly breakdown for the period April to December 2003 is not available.

The number of payments made in each month from October 2005 and May 2006 (inclusive) were:

	Number
2005	
October	1,099
November	1,087
December	1,218
2006	
January	1,240
February	1,012
March	884
April	366
May	661

Information about the value of each payment is available only at disproportionate cost.

Mr. Laws: To ask the Chancellor of the Exchequer what his latest estimate is of the cost of the £2,500 tax credits income disregard in *(a)* 2004-05 and *(b)* 2005-06; and if he will make a statement. [75780]

Dawn Primarolo: Estimating the cost of the disregard would require estimates of behavioural effects associated with the disregard and estimates of the cost of the recovery of the additional overpayments that would have been incurred in the absence of the disregard. Neither of these are available.

However, as stated in the NAO Standard Report of the HM Revenue and Customs 2005-06 Accounts Trust Statement we estimate that the final aggregate entitlement to child and working tax credits for 2004-05 would have been about £700 million lower without the £2,500 income increase disregard.

No reliable equivalent estimate for 2005-06 is yet available, as most 2005-06 tax credit awards have not yet been finalised.

Mr. Laws: To ask the Chancellor of the Exchequer how many staff there were in the Tax Credits Directors Complaints Team in each quarter since April 2003. [76470]

Dawn Primarolo: Separate information on the number of staff that worked on the Tax Credits Director's Complaint's Team is not available.

Mr. Laws: To ask the Chancellor of the Exchequer how many tax credit awards were terminated as a consequence of couples separating in each quarter since April 2003; and if he will make a statement. [76870]

Dawn Primarolo: By 3 April 2006, 435,000 tax credit awards had ceased as a result of couples reporting a separation. The analysis by each quarter is as follows:

Quarter in which separation occurred	*Number of awards ceased as at 3 April 2006 (Thousand)*
6 April 2003 to 5 July 2003	28
6 July 2003 to 5 October 2003	36
6 October 2003 to 5 January 2004	32
6 January 2004 to 5 April 2004	30
6 April 2004 to 5 July 2004	30
6 July 2004 to 5 October 2004	40
6 October 2004 to 5 January 2005	42
6 January 2005 to 5 April 2005	47
6 April 2005 to 5 July 2005	36
6 July 2005 to 5 October 2005	42
6 October 2005 to 5 January 2006	38
6 January 2006 to 3 April 2006	34
Total	435

Mr. Davidson: To ask the Chancellor of the Exchequer on how many occasions HM Revenue and Customs have intervened where they suspect a claim by an individual from another EU country claiming tax credits in the UK may be *(a)* wrong and *(b)* fraudulent. [77591]

Mr. Laws: To ask the Chancellor of the Exchequer what estimate he has made of *(a)* tax credit overpayments to migrant workers who have returned to their home country and *(b)* the proportion of these monies which will be recovered; and if he will make a statement. [78153]

Danny Alexander: To ask the Chancellor of the Exchequer how many cases of tax credit fraud on the basis of non residency have been uncovered in each of the last five years; what the cost has been in each year of this fraud; what estimate his Department has made of the extent of undiscovered fraud of this kind; and if he will make a statement. [80559]

Dawn Primarolo: The information requested is not available in the format requested.

Kate Hoey: To ask the Chancellor of the Exchequer (1) whether child tax credit call centres are obliged to inform claimants that they need to complete an application form in order to have their change of circumstances logged; whether staff at child tax credit call centres automatically send the relevant application form to claimants who call in order to have their circumstances changed; if he will take steps to enable child tax credit claimants who did not receive the tax credit due to not being informed by the call centres that they needed to complete an application form to claim their full tax credit; and if he will make a statement; [77661]

(2) if he will take steps to enable child tax credit claimants who did not receive the benefit due to not being informed by the call centres that they needed to complete an application form to claim their full benefit; and if he will make a statement. [85504]

Dawn Primarolo: Tax credits claimants are encouraged to notify changes in their circumstances by providing details over the phone to the tax credits Helpline although changes may also be notified in writing to the Tax Credit Office. No prescribed form is required.

Mr. Laws: To ask the Chancellor of the Exchequer (1) how many tax credit awards were made to *(a)* people subject to immigration control, *(b)* asylum seekers, *(c)* foreign students, *(d)* illegal immigrants and *(e)* foreigners on expired visas in each quarter from April 2003 to June 2006; what the cost of these awards was in each case; and if he will make a statement; [77895]

(2) what estimate he has made of the cost of the easement of tax credit verification rule 12 Residency Criteria not met between March 2003 and December 2004; and if he will make a statement; [77897]

(3) how many tax credit applications failed verification rule 12 Residency Criteria not met but were allowed to proceed to being processed in each month from April 2003 to January 2005; and if he will make a statement; [77898]

(4) in how many tax credit cases failures of verification rule 12 Residency Criteria not met were *(a)* investigated and *(b)* not investigated in each month since December 2004; [77899]

(5) which categories of tax credit claimant fail verification rule 12 Residency Criteria not met; and if he will make a statement; [77900]

(6) how many applications for tax credits failed verification rule 12 Residency Criteria not met between April 2002 and April 2003; and if he will make a statement; [77901]

(7) how many tax credit claims failed verification rules in each *(a)* month and *(b)* quarter since April 2002; and if he will make a statement; [78159]

(8) which *(a)* Minister and *(b)* official (i) recommended and (ii) approved the easement of tax credit verification rule 12 Residency Criteria not met in 2003; for what reasons it was introduced; and if he will make a statement; [78033]

(9) if he will place in the Library copies of each HM Customs and Revenue newsboard item relating to tax credits; and on what date each was posted; [79502]

(10) how many tax credit verification rules have been *(a)* suspended and *(b)* eased since August 2002; and for what (i) reasons and (ii) period in each case; [79503]

(11) whether the easement of tax credit verification rule 12 (residency criteria not met) meant that the provisions in the Tax Credit (Immigration) Regulations 2003 were not implemented; and if he will make a statement; [79504]

(12) what factors were taken into account when deciding not to investigate cases where tax credit verification rule 12 Residency Criteria not met was failed; [79505]

(13) whether an assessment of the *(a)* cost and *(b)* staffing levels required to meet the volumes of claims failing verification rule 12 Residency Criteria not met was made prior to the decision to ease the rule from April 2003 to December 2004; and if he will make a statement; [79506]

(14) how many awards of tax credits to people failing residency rules between April 2003 and December 2004 have been *(a)* recovered and *(b)* written off; [80154]

(15) what advice he received on the easement of tax credit residency rules; and on what dates the advice was given. [81746]

Dawn Primarolo: Tax credits follows the policy set by the Home Office, that those who have not established their right to remain permanently in the UK should not have welfare provision on the same basis as those whose citizenship or status here gives them an entitlement to benefits and assistance when in need.

For this reason, apart from specified circumstances set out in the Tax Credits (Immigration) Regulations 2003, persons subject to immigration control are not eligible for tax credits.

The cost of the easement is included within tax credit remissions disclosed in HMRC's published accounts. Where the department has identified payments made in error, it has terminated the award so there will be no future payments.

Code of practice 26 sets out HMRC's established practice not to recover amounts paid out due to official error where the claimant could reasonably have assumed the payment was correct.

The remaining information requested could be produced only at disproportionate cost.

Lynne Jones: To ask the Chancellor of the Exchequer what difference the latest changes in the disregard for increases in income will make in tax credit entitlement of a family whose income has risen by *(a)* £2,500 and *(b)* £25,000; and what the criteria are for allowing the respective disregards. [80067]

Dawn Primarolo: From 2006-07, a family's annual income can rise up to £25,000 between one year and the next without affecting their tax credit entitlement in the first year of increase.

The previous income disregard amount was £2,500.

Mr. Laws: To ask the Chancellor of the Exchequer how many of his Department's targets for tax credit administration were *(a)* met and *(b)* not met in each reporting period from 2003-04 to 2006-07; and if he will make a statement. [82831]

Dawn Primarolo: HM Revenue and Customs reports its performance against targets annually. Details can be found in the Board's Annual Reports for the relevant year. These are available at:

www.hmrc.gov.uk/about/reports.htm

Indicative results for 2006-07 will be available in the spring Report which will be published in 2007.

Rosie Cooper: To ask the Chancellor of the Exchequer (1) how many recipients of tax credits in West Lancashire constituency are involved in disputes relating to overpayment; [83459]

(2) whether the tax credits MPs' hotline is able to make outgoing calls on request to contact constituents who are suffering problems with their tax credits; and how many cases of disputed tax credit payments there have been in West Lancashire since tax credits were introduced. [83644]

Dawn Primarolo: For information about the hon. Members' hotline I refer the hon. Lady to the answer I gave the right hon. Member for Birkenhead (Mr. Field) on 16 November 2005, *Official Report*, column 1237W.

Information about disputed tax credit payments and overpayments are not held at constituency level.

Mr. Hollobone: To ask the Chancellor of the Exchequer what assessment he has made of the level of fraud in the tax credit system in the last 12 months. [84929]

Dawn Primarolo *[holding answer 13 July 2006]:* I refer the hon. Member to the statement I made to the House on 11 July 2006, *Official Report*, columns 1281-2. Also to the HMRC publications "Child and Working Tax Credits: Error and fraud statistics 2003-04" and "Tackling error and fraud in the Child and Working Tax Credits" available on the HMRC website at:

www.hmrc.gov.uk/news/index.htm

Unemployment Statistics

Mr. Amess: To ask the Chancellor of the Exchequer what the rate of *(a)* male and *(b)* female unemployment is in new towns in the United Kingdom. [85392]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 18 July 2006:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment in all the new towns in the United Kingdom. (85392)

The Office for National Statistics (ONS) compiles statistics of unemployment for local areas from the Annual Population Survey following International Labour Organisation definitions. However, data are not available for towns. Table 1, attached, shows the unemployment rates, for males and females aged 16 and over, resident in the local authorities in Great Britain which contain recognised New Towns for the 12 months ending December 2005.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 2, attached, shows the proportions of males (aged 16 to 64) and females (aged 16 to 59) of working age, resident in local authorities in the United Kingdom which contain recognised New Towns, claiming JSA in June 2006.

Table 1: Male and female unemployment rates; 12 months ending December 2005

Percentage

New town	Local authority	Unemployment rate Male	Female
England			
Aycliffe	Sedgefield	5.7	5.2
Basildon	Basildon	4.9	4.0

Valuation Office Agency

Mrs. Spelman: To ask the Chancellor of the Exchequer which companies and organisations have supplied the Valuation Office Agency with geographic data in the last three years. [83009]

Dawn Primarolo: The Valuation Office Agency (VOA) receives geographic data from Ordnance Survey through its membership of the Pan Government Agreement on Mapping Products. In addition it takes 'X-Y Co-ordinates' from the National Land and Property Gazetteer (NLPG).

Information received but neither incorporated into the VOA database nor used in VOAs Automated Valuation model are flood plain "polygons" from the Environment Agency and ACORN™ data from CACI™ Information Solutions.

Venture Capital Funds

Mr. Francois: To ask the Chancellor of the Exchequer how much has been allocated to regional venture capital funds in each year since 1999; and on what basis such allocations were made. [84791]

Margaret Hodge: I have been asked to reply.

Allocations to the Regional Venture Capital Funds were £37.375 million in the financial year 2001-02, £31 million in 2002-03 and £6 million in 2003-04. The allocations were made as a result of a competitive bidding exercise in each English region.

Mr. Francois: To ask the Chancellor of the Exchequer how much of the £20 million fund allocated to aid the start-up of high tech venture capital funds has been spent in each year since 1999; and if he will make a statement. [84794]

Margaret Hodge: I have been asked to reply.

The Government's total investment commitment to the UK High Technology Fund was drawn down in the financial year 2000-01 (£12 million in 2000 and a further £8 million in early 2001).

Mr. Francois: To ask the Chancellor of the Exchequer how much high tech venture capital funds have been set up in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland in each year since 1999 as a result of the start-up funding announced in the 1999 Budget. [84795]

Margaret Hodge: I have been asked to reply.

The UK High Technology Fund was established in 1999 and has invested in nine existing high technology-based venture capital firms based in the UK. All of these funds can invest across the UK.

HEALTH

Health Inequalities

15. **Meg Hillier:** To ask the Secretary of State for Health what progress is being made in tackling health inequalities and variations in life expectancy. [85853]

Caroline Flint: Life expectancy is improving across England for all but is currently improving more slowly in the spearhead areas with the worst deprivation. Some spearhead areas are on track to meet the 2010 health inequalities target and we are working to ensure this best practice is spread not only to enable more people to live longer but to narrow the health inequalities gap.

Waiting Times

16. **Mr. Bone:** To ask the Secretary of State for Health how many patients normally resident *(a)* in England, *(b)* in Wales and *(c)* elsewhere have been waiting more than six months for an NHS in-patient operation at English hospitals. [85854]

Andy Burnham: The following table details the number of patients who had been waiting more than six months for in-patient admission within English national health service provider trusts at the end of May 2006. The data are split to show the country in which the patient's general practitioner practice is located.

	Number
Total	862
Of which:	
England	34
Wales	825
Guernsey	3

Colchester General Hospital

17. **Bob Russell:** To ask the Secretary of State for Health if she will visit Colchester to discuss the provision of health facilities at Colchester General Hospital. [85855]

Andy Burnham: My right hon. Friend the Secretary of State has no immediate plans to visit Colchester general hospital. However, should the chair of the hospital board wish to invite a Minister to visit it would be given due consideration.

Bob Russell: To ask the Secretary of State for Health pursuant to her answer of 26 June 2006, *Official Report*, columns 221-2W, on Colchester general hospital, whether discussions have taken place with *(a)* the Essex Rivers Healthcare Trust and *(b)* the private sector partner since that date; and if she will make a statement. [86161]

Andy Burnham: To date no discussions have taken place between the Department, the Essex Rivers healthcare national health service trust and the former preferred private finance initiative bidder.

Mental Health Institutions

18. **Dr. Gibson:** To ask the Secretary of State for Health what arrangements are in place to ensure the safety of female patients in NHS mental health institutions. [85857]

Ms Rosie Winterton: There have been increasing steps to improve the safety and privacy of women when they are admitted to in-patient units, and there are now more acute in-patients services that provide either self-contained women-only wards, or solely single-sex wards, reflecting the clear preference of the majority of women service users.

Mental Health Services

19. **Mark Pritchard:** To ask the Secretary of State for Health if she will make a statement on mental health services in the West Midlands. [85858]

Ms Rosie Winterton: Total investment in mental health services within the new West Midlands strategic health authority has increased to over £499 million in 2005-06. This represents an increase of 5.1 per cent. from the £475 million investment in the three former strategic health authorities in 2004-05.

Eastbourne District General Hospital

20. **Norman Baker:** To ask the Secretary of State for Health if she will make a statement on the delivery of services by the Eastbourne district general hospital. [85859]

Caroline Flint: The Eastbourne district general hospital, part of the East Sussex Hospitals NHS Trust, provides a full range of acute services for the residents of Eastbourne and the surrounding areas.

Mesothelioma

21. **Paul Rowen:** To ask the Secretary of State for Health if she will make a statement on the National Institute for Health and Clinical Excellence's recent decision regarding the provision of Alimta for people with mesothelioma. [85860]

Andy Burnham: The National Institute for Health and Clinical Excellence (NICE) published its final appraisal determination on pemetrexed disodium (Alimta) for mesothelioma on 26 June. Consultees were given until 10 July to lodge an appeal against NICE's determination. NICE will not issue final guidance to the NHS until any appeals have been heard.

Alzheimer's Disease

23. **Mr. Bellingham:** To ask the Secretary of State for Health when she next expects to meet representatives of the National Institute for Health and Clinical Excellence to discuss drugs for people with Alzheimer's disease. [85862]

Andy Burnham: I have no meetings planned with representatives of NICE on this issue. I am due to meet with the chair and chief executive of NICE on 20 July for a general discussion about the Institute's work.

Community Hospitals

24. **Mr. Blizzard:** To ask the Secretary of State for Health what contribution she expects community hospitals to make to the provision of patient care closer to where they live. [85863]

Mr. Ivan Lewis: I expect community hospitals to make a significant contribution to the provision of convenient, high quality and local care for patients. As such we are evaluating the contribution community hospitals can make to shifting care as part of the Care Closer to Home Demonstration Project. Furthermore "Our Health Our care Our Community: Investing in Community Hospitals and Services" set out our programme for the future of community hospitals and their role in the provision of local and convenient patient care.

Assisted Reproductive Technology

Mr. Greg Knight: To ask the Secretary of State for Health how many babies have been born in each region in England through assisted reproductive technology in each year since 1997. [85321]

Caroline Flint *[holding answer 17 July 2006]:* The information requested is not collected centrally. The Human Fertilisation and Embryology Authority (HFEA) does collect data on live births reported to it by HFEA licensed clinics resulting from treatment cycles involving in vitro fertilisation and donor insemination. Data, by region, are shown in the table.

Live births resulting from in vitro fertilisation (IVF) and donor insemination (DI) treatment cycles from 1997 to 2004[1]

District[2]	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
East Midlands	892	717	840	763	789	782	738	786
East of England	563	510	539	577	628	621	777	727
London	2,631	2,751	2,801	3,115	3,197	2,838	3,359	3,205
North East	300	323	352	412	360	450	334	409
North West	758	789	767	892	893	867	1,013	1,151
South East	758	651	772	702	639	764	805	768
South West	429	445	403	458	443	489	516	582
West Midlands	849	905	843	770	777	900	851	937
Yorkshire and Humber	809	908	1,065	898	879	945	910	1,045

[1] 2004 is the most recent year for which information is available.
[2] The table identifies the total number of babies born according to their date of birth. HFEA has used the "Patients Guide To Infertility" of regions, which relates to the location in which the IVF or DI treatment took place. This is not necessarily the location of the birth or the place of residence of the patient.

Human Fertilisation and Embryology Authority

Canary Wharf Walk-in Centre

Mr. Galloway: To ask the Secretary of State for Health (1) what the total value is of the contract awarded to Atos Origin to run the NHS walk-in centre at Canary Wharf; and what the cost is in each of the five years of the contract; [82638]

(2) whether the value of the contract for the walk-in centre at Canary Wharf changes according to throughput; whether it is *(a)* a fixed price block contract, *(b)* a cost and volume contract and *(c)* a payment by results contract with a fixed sum per case seen; [82640]

Caroline Flint: The value of the contract depends on use of the service as the contract price is a combination of fixed cost elements and a price per patient. The total value of the contract is commercial in confidence.

Mr. Galloway: To ask the Secretary of State for Health when Tower Hamlets primary care trust will have to fund the contract for the walk-in centre at Canary Wharf. [82639]

Caroline Flint: This national health service walk-in centre is intended to provide services for commuters and local people. It is now funded centrally by the Department and our intention is that, in time, it should be funded locally, with costs shared between the primary care trusts whose patients use it. That is not possible yet and we have guaranteed central funding for at least three years.

Mr. Galloway: To ask the Secretary of State for Health how many patients have been seen in each week since the walk-in centre at Canary Wharf was opened; and how many of those seen were *(a)* Tower Hamlets residents and *(b)* those who commute into the area to work. [82641]

Caroline Flint: Information on the weekly number of episodes of care provided at the Canary Wharf national health service walk-in centre is shown in the following table.

Week commencing	*Episodes of care*
2006	
17 April	6
24 April	69
1 May	97
8 May	171
15 May	173
22 May	184
29 May	177
5 June	250
12 June	272
19 June	316
26 June	272

Notes:
1. The Canary Wharf walk-in centre commenced services on 21 April 2006.
2. Data for April and May, the latest available, indicates that 58 per cent. of the people using the service are local to the area of Tower Hamlets primary care trust.

Carbon Emissions

Chris Huhne: To ask the Secretary of State for Health what recent estimate she has made of the carbon emissions of her Department; what commitment she has made to reducing such emissions; and if she will make a statement. [81058]

Mr. Ivan Lewis: In 2004-05, the Department's estimated carbon emissions from the buildings on its London administrative estate were 1,916,133 kilogrammes of carbon (kgC) (weather corrected). Our estimated emissions from cars used for official business was 31,397 kgC.

The Department is committed to reducing its carbon emissions. We have a policy to renew plant and equipment with more energy efficient models. We also purchase energy from renewable sources wherever possible. The Carbon Trust has recently undertaken an energy survey of our three main London buildings, and we will seek to implement its recommendations where practicable.

We have also taken steps to reduce the requirement for staff to travel to meetings, by providing video conferencing facilities in all our buildings. We have also recently terminated the contract for a shuttle bus that provided staff transport between buildings, saving London mileage of 90 miles per day. Staff are now being encouraged to use public transport, or to walk.

Chlamydia Screening

Mr. Lansley: To ask the Secretary of State for Health (1) what proportion of primary care trusts offer chlamydia screening as part of the national chlamydia screening programme; [84012]

(2) what percentage of primary care trusts is participating in the chlamydia screening programme; and when she expects 100 per cent. geographical coverage to be achieved. [84467]

Caroline Flint: By the end of June, 36 per cent of primary care trusts were offering chlamydia screening as part of the national chlamydia screening programme (NCSP).

The White Paper, "Choosing Health: Making healthier choices easier", a copy of which is available in the Library, announced an accelerated timetable to achieve national roll out of the NCSP by March 2007.

The Health Protection Agency is now leading the roll out of the programme and is supporting local areas to drive up the number of people screened.

Correspondence

Hugh Robertson: To ask the Secretary of State for Health when she will reply to the letters of 30 *(a)* March , *(b)* May and *(c)* June 2006, from the hon. Member for Faversham and Mid Kent, about a constituent, Mrs. Maton. [85374]

Caroline Flint *[holding answer 14 July 2006]:* We have no record of receiving the letters of March and May. The letter of June 2006 was replied to on 14 July 2006.

Credit Unions

Chris Ruane: To ask the Secretary of State for Health if her Department will provide information and membership forms for credit unions to its employees. [79939]

Mr. Ivan Lewis: The Government welcome the contribution made by the various savings institutions in providing for greater choice and diversity in the financial services sector.

The Government's guiding principles are to ensure impartiality and to help create a level playing field for all providers of financial services in order that their specific attributes can be properly harnessed.

It would therefore be inconsistent for a Government Department to favour credit unions above other financial institutions.

Employees are of course free to join in credit unions if they meet their relevant membership criteria and Departments may provide appropriate levels of support if employees wish to set up a credit union.

Dentistry

Greg Mulholland: To ask the Secretary of State for Health what steps have been taken to facilitate the transition of denturists from a system of self-regulation to one of licensed regulation with the General Dental Council, following the Dentists Act 1984 (Amendment) Order 2005. [86160]

Ms Rosie Winterton: Individuals who have been practising denturism in the United Kingdom (UK) have been doing so illegally and therefore there cannot be transitional provisions which allow them to enter the register on the basis of their UK experience. The legislation just approved allows them to practice legally in future if they now qualify.

Individuals who wish to register as clinical dental technicians (CDTs) will need to undertake a General Dental Council (GDC)-approved CDT qualification unless they already hold a qualification comparable to the ones the GDC will now recognise.

Departmental Travel

Mr. Laws: To ask the Secretary of State for Health what plans she has to ensure that all flights undertaken by Ministers and officials in her Department are carbon neutral; and if she will make a statement. [81407]

Mr. Ivan Lewis: All central Government ministerial and official air travel is being offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

Carbon emissions from all of the Department's official air travel are included in the Government's carbon offsetting commitment. Carbon emissions from flights taken after 1 April 2006 will be recorded and offset.

Diamorphine

Paul Flynn: To ask the Secretary of State for Health what steps she is taking to ensure adequate supplies of diamorphine to hospitals. [86154]

Andy Burnham: The Department is working closely with the NHS Purchasing and Supply Agency (NHS PASA) and the manufacturers to manage the shortage of diamorphine injection. We continue to monitor the supply situation closely.

NHS PASA provides updates on the supply situation to hospital procurement pharmacists. The Department issued guidance in December 2004 to prescribers and other healthcare professionals to ensure supplies are used effectively.

Food Standards Agency

Ian Lucas: To ask the Secretary of State for Health what programme of consumer education the Food Standards Agency is planning to implement to support the multiple traffic light food signposting scheme. [83885]

Caroline Flint: The Food Standards Agency (FSA) has published information aimed at raising consumer awareness and understanding of traffic light colour coded signposting on its website at www.eatwell.gov.uk and will be developing this advice further over coming months.

The FSA is also working closely with businesses who are using traffic light coloured signposting schemes and consumers and public health groups to ensure that clear and consistent advice is available to consumers to help them use signpost information to make healthier choices about the food that they buy.

Foundation Trusts

Mr. Burstow: To ask the Secretary of State for Health how *(a)* employees and *(b)* elected representatives of NHS foundation trusts can obtain information concerning staff discipline. [83222]

Mr. Ivan Lewis: National health service foundation trusts have independent status within the NHS. They are free from Secretary of State's powers of direction and can determine their own human resources (HR) policy and procedures to facilitate the innovative development of the work force. Specific aspects concerning HR policy will be available from the respective organisations.

General Food Regulations

Chris Huhne: To ask the Secretary of State for Health how many prosecutions there have been under the General Food Regulations 2004 for not informing the competent authorities of non-compliance with food safety requirements set out in article 14 of the EC regulations 180/2002; how many of these have resulted in convictions; what penalties have been imposed; which competent authority brought each case; and if she will make a statement. [84991]

Caroline Flint: I am advised by the Food Standards Agency (FSA) that the information requested is not available centrally.

The latest available information on food law enforcement by local authorities is for the financial year 2004-05. For that year, local authorities have reported to the FSA that, across all of the United Kingdom, they took 902 prosecutions against 570 food establishments. 458 of those 570 food establishments were convicted.

Health Trusts

Mr. Hancock: To ask the Secretary of State for Health pursuant to the answer of 16 June 2006, *Official Report*, column 1548W, on health trusts (Hampshire), what the 2005-06 provisional out-turn was for *(a)* Salisbury Health Care Trust, *(b)* Frimley Park Hospital and *(c)* Royal Surrey County Hospital. [79876]

Caroline Flint: The table shows provisional out-turn for the financial year 2005-06 of Salisbury Health Care NHS Trust and Royal Surrey County Hospital NHS Trust.

Organisation name	*2005-06 provisional out-turn under/(over) spend (£000)*
Salisbury Health Care NHS Trust	0
Royal Surrey County Hospital NHS Trust	276

I am informed by the chairman of Monitor (the statutory name of which is the independent regulator of NHS foundation trusts) that Frimley Park Foundation Trust achieved an unaudited £3.5 million surplus in 2005-06 and that audited accounts for each NHS foundation trust for 2005-06 are due to be laid before Parliament this summer.

Healthcare Commission

Dr. Starkey: To ask the Secretary of State for Health (1) how many cases submitted to the Healthcare Commission have waited longer than 12 months before the investigation started; and in how many cases submitted the investigation has not yet started; [84679]

(2) how long on average has elapsed between a case being submitted to the Healthcare Commission and the investigation starting. [84681]

Andy Burnham: I understand from the chairman of the Healthcare Commission that the Commission does not collect information in the format requested.

The Healthcare Commission assumed responsibility for the independent review of national health service complaints at the end of July 2004. Between then and 14 July 2006, the Commission received 15,765 requests for review. Of these, 5,615 were closed within six months and 3,670 within 12 months, with a further 1,310 taking over 12 months. Of the remainder, 2,141 have yet to be allocated to a case manager. Of these, 1,041 are over six months old; none are over 12 months old. Of cases currently under review, 882 are over six months old and 805 over 12 months old.

Independent Providers (Elective Procedures)

Andrew George: To ask the Secretary of State for Health whether her Department has made an assessment of the extent to which primary care trusts have paid independent providers of elective procedures for services which *(a)* were not provided in 2005-06 and *(b)* have not yet been provided in the first quarter of 2006-07. [81953]

Mr. Ivan Lewis: Individual contracts' performances are monitored to ensure facilities are utilised. Providers are not paid for activity that they do not deliver, but under the terms of the contract may receive payments when referrals are lower than expected to ensure a continuity of service.

The Department expects that over the life of the contract we will achieve the full value; it is therefore too early to suggest any money has been lost. A final

reconciliation of payments and activity will take place at the end of the contract to ensure that providers have delivered the full value of activity specified in their contracts.

Andrew George: To ask the Secretary of State for Health what assessment her Department has made of whether the independent healthcare provider Capio has been paid by the NHS for operations and procedures which have not taken place. [81954]

Mr. Ivan Lewis: Capio and national health service sponsors are working to ensure that the full value of activity is delivered over the contract period. The Department expects that over the life of the contract we will achieve the full value; it is therefore too early to suggest any money has been lost. Contract utilisation is monitored on a monthly basis; a final reconciliation of payments and activity will take place at the end of the contract.

Neonatal Care

Mr. Stewart Jackson: To ask the Secretary of State for Health what steps are being taken to increase the level of recruitment of neonatal nursing staff; and if she will make a statement. [85731]

Ms Rosie Winterton: The national health service ensures the maintenance of adequate staffing levels through local delivery plans. "Delivering the NHS Improvement Plan: the Workforce Contribution" highlights strategic work force issues, which primary care trusts and strategic health authorities are asked to ensure are considered in their local delivery plans. This includes maintaining adequate staffing levels as well as achieving greater productivity. It is for local hospital trusts to ensure that there are appropriate nursing levels within neonatal units.

New Hospitals

Mr. Boswell: To ask the Secretary of State for Health what the proportion of *(a)* multi-bed and *(b)* single-bed wards is in new build hospitals (i) constructed since 2000 and (ii) proposed in the next five years. [85141]

Andy Burnham: The data for multi-bed and single-bed wards are not collected in the format requested.

The Department collects bed data retrospectively across the existing estate by national health service trust, not by individual hospital. Based on 2005-06 data 74.2 per cent. of beds are in multi bedrooms and 25.8 per cent. in single bedrooms.

Newham PCT

Lyn Brown: To ask the Secretary of State for Health (1) by how much Newham Primary Care Trust was under its weighted capitation target in each financial year between 1997-98 and 2005-06; and by how much she expects it to be under its weighted capitation target in financial year 2006-07; [82067]

(2) when she expects Newham Primary Care Trust to reach its weighted capitation target; and if she will make a statement. [82071]

Andy Burnham: Revenue allocations were first made to primary care trusts (PCTs) in 2003-04, prior to this funding was allocated to health authorities. The distances from target for Newham PCT for the period 2003-04 to 2007-08 are provided in the table.

Newham PCT—distances from target (DFT) 2003-04 to 2007-08

	Distances from target
2003-04	-8.7
2004-05	-8.0
2005-06	-6.0
2006-07	-3.2
2007-08	-3.2

Revenue allocations to PCTs are made on the basis of a weighted capitation formula, which directs funding to those areas of greatest need.

The weighted capitation formula calculates a PCTs' target share of available resources. Once the target is set by the formula, the speed at which PCTs reach their target is determined by the pace of change policy.

For the 2006 to 2008 revenue allocations, the policy is to move PCTs more quickly towards their target share of funds. In 2003-04, the most under target PCT was 22 per cent. target and by the end of 2007-08, no PCT will be more than 3.5 per cent. below its fair share.

NHS Beds

Mr. Lansley: To ask the Secretary of State for Health what the *(a)* bed occupancy rates and *(b)* bed availability numbers for England for (i) all bed types (ii) general and acute beds, (iii) acute beds, (iv) geriatric beds, (v) mental illness beds, (vi) learning disabilities beds and (vii) maternity beds were in each year since 1988. [84027]

Andy Burnham: The information requested is shown in the tables.

Average daily number of available beds and bed occupancy rates, by sector, England, 1987-88 to 2004-05

	All specialties (excluding day only)—available	*All specialties (excluding day only)—occupied*	*All specialties (excluding day only) —occupancy rate (percentage)*	*General and acute —available*	*General and acute —occupied*	*General and acute —occupancy rate (percentage)*

NHS Finance

Norman Lamb: To ask the Secretary of State for Health if she will make a statement on how the market forces factor formula is used in determining payments to hospital trusts; what assessment she has made of its appropriateness; and whether she plans to review its operation. [82346]

Andy Burnham: For activity within the scope of payment by results, national health service trusts are

paid by their commissioners according to the national tariff. These payments are adjusted by the relevant market forces factors (MFF). The MFF is intended to reflect unavoidable variations in costs directly related to location.

The MFF is kept under constant review, and its development has been overseen by the advisory committee on resource allocation (ACRA). As part of its work for the Department, ACRA will review the MFF and make recommendations to Ministers in 2007-08.

Mr. Lansley: To ask the Secretary of State for Health which variables are included in the weighted capitation formula for primary care trust allocations; and from what data sources figures for each variable are determined. [84026]

Andy Burnham: "Resource Allocation: Weighted Capitation Formula (Fifth Edition)" lists the variables included in the weighted-capitation formula and their data sources. A copy of this document is available in the Library.

Mr. Leigh: To ask the Secretary of State for Health what the latest forecast year-end gross NHS deficit is for 2006-07. [85856]

Ms Hewitt: The 2005-06 provisional outturn is the most recently published data on the national health service financial position. This data shows that provisionally the NHS reported a gross deficit of just under £1.3 billion, and a net deficit of £512 million. I intend to publish the first quarterly finance report for the NHS for 2006-07, on 11 August 2006.

NHS Performance

Andrew George: To ask the Secretary of State for Health what measures her Department plans to take in respect of those primary care trusts which *(a)* failed to achieve in 2005-06 and *(b)* fail to achieve in 2006-07 the proposed target of the purchase of 15 per cent. of the budget for all planned elective procedures from the private and independent sector. [81980]

Andy Burnham: The figure of 15 per cent. is not a target but a level of service that the independent sector might be providing by 2008. The number of procedures in any one year will vary depending on the actual case mix that is required by the local national health service. Contracts are designed to allow for this flexibility and therefore no action is required by the Department.

Andrew George: To ask the Secretary of State for Health pursuant to her oral statement of 7 June 2006, *Official Report*, column 264, on NHS performance, what assessment she has made of the impact on primary care trusts (PCTs) of *(a)* social and economic deprivation, *(b)* the proportion of elderly people living in the community, *(c)* the demands of a rural economy and *(d)* the market forces factor where each factor has the greatest (i) positive and (ii) negative impact; and what assessment she has made of the average impact of each element on PCTs. [82500]

Andy Burnham: Our initial analysis on a range of factors relating to the 2005-06 financial positions of national health service organisations has shown that there is no strong relationship between NHS financial performance and any single factor.

Oakhill Secure Training Centre

Mr. Lancaster: To ask the Secretary of State for Health what access young offenders at Oakhill Secure Training Centre in Milton Keynes have to a clinical psychologist; and whether she expects this level of access to change when the full-time posts have been disestablished. [85597]

Mr. Sutcliffe: I have been asked to reply.

Health care services at Oakhill are provided by Milton Keynes Primary Care Trust under contract to the centre's operator, Group 4 Securicor. The primary care trust currently employs a clinical psychologist and an assistant at the centre. Psychology provision at the centre is currently being reviewed by the primary care trust and a 30-day consultation period with holders of the psychology posts at Oakhill is in progress. The consultation period ends on 27 July. The Youth Justice Board is monitoring developments closely. The level of service that the board requires at Oakhill has not changed and the board will monitor performance to ensure that that level of service continues to be delivered.

Obstetrics (Insurance Costs)

Lynne Jones: To ask the Secretary of State for Health what information her Department collects on the cost of insurance as a proportion of the tariff for *(a)* a normal birth, *(b)* a delivery with complications and *(c)* a caesarean section; what allowance is made for the cost of the insurance premium in allocating tariffs for obstetrics; and if she will make a statement. [81531]

Andy Burnham: The national tariffs for a normal birth, a delivery with complications and a caesarean section are calculated from data on the average costs of these services as reported by NHS trusts, foundation trusts and primary care trusts, which are used to inform the reference cost index. The reference costs collection is based on a full absorption costing methodology and therefore includes the cost of insurance. However, the cost of insurance is not separately identifiable within the tariff.

We do, however, recognise that insurance premiums are proportionately high for maternity services, which is why we have made it clear in our reference costs guidance 'Reference costs 2006 collection: Costing and activity guidance and requirements' that trusts should reflect this in the relevant cost pool(s) when determining the unit costs of all types of maternity activity. This guidance is available on the Department's website at www.dh.gov.uk/PbR

Osteoporosis

Laura Moffatt: To ask the Secretary of State for Health (1) what submissions her Department received on the inclusion of osteoporosis indicators in the

quality and outcomes framework of the GP contract which came into effect in April 2006. [81596]

(2) why indicators for osteoporosis were not included in the quality and outcomes framework of the GP contract which came into effect in April 2006; and if she will make a statement. [81745]

Caroline Flint: As part of the negotiations for the new general medical services contract for April 2006 an expert panel was engaged by NHS Employers to receive and review submissions on clinical areas for possible inclusion in the quality and outcomes framework (QOF). The number of submissions to the panel for the inclusion of osteoporosis totalled seven out of 514. All submissions were considered and the expert panel produced reports which have been published on the University of Birmingham website.

During the negotiations many clinical conditions were considered. The key criteria for inclusion in QOF were:

an evidence base for the effectiveness of intervention in primary care;

the health benefits likely to result from improved primary care; and

Government health priorities for investment through the contractual arrangements with general practitioners.

Due to technical problems with the proposed indicators and the degree of priority attached to other changes to the QOF, the proposals for osteoporosis were not taken forward for the 2006 contract changes. As part of the continuing development of the framework, indicators will be reviewed in the light of emerging evidence and in terms of value for money.

Premature Babies

Mr. Stewart Jackson: To ask the Secretary of State for Health (1) what plans she has to review the policy of not centrally collating information on the movement between neonatal networks of premature babies; and if she will make a statement; [85686]

(2) what action she is taking to reduce the incidence of closure to admissions of level three intensive care units for neonatal care of premature babies; and if she will make a statement. [85730]

Mr. Ivan Lewis: The Department has supported the development of 24 neonatal managed clinical networks to provide the safest and most effective service for mothers and babies. Since April 2003 over £70 million additional funding has been made available to support the development of networks. The closure to admissions of level three neonatal intensive care units is a matter for local networks. It is for networks to ensure there are appropriate levels of care available to meet prevalent local demand.

The Department has no plans to review the policy of not centrally collating information on the movement of babies between neonatal networks for the reasons outlined in my reply to the hon. Member on 2 June 2006, *Official Report*, column 22W.

Primary Care Trusts

Chris Huhne: To ask the Secretary of State for Health what the *(a)* overall cost and *(b)* cost per head of population in each area is of the reorganisation of the primary care trusts in (i) Hampshire and (ii) England; whether this cost is to be met from (A) existing budgets and (B) new allocations; and if she will make a statement. [84881]

Andy Burnham: The costs of the changes that were announced on the 16 May will depend on a number of factors, including the location of new organisations being created, the number of people in the new organisations, and new pay ranges for very senior managers as well as changes in estate costs following reconfiguration.

These arrangements are currently being worked up and discussed with trade unions and staff. Until those discussions have been concluded and the detail of new arrangements agreed it is not possible to confirm or accurately forecast costs.

"Commissioning a patient-led NHS" is designed to deliver at least £250 million savings from administration costs through streamlining for reinvestment in frontline services. The savings are expected to be realised by the end of 2007 and then every year for reinvestment beginning in 2008-09.

Private Finance Initiative Projects

Grant Shapps: To ask the Secretary of State for Health what percentage of private finance initiative projects for which her Department is responsible has been completed *(a)* over budget and *(b)* late in each of the last five years. [79612]

Andy Burnham: Information on completed private finance initiative (PFI) projects which have gone over budget or opened late is not routinely collected centrally. To provide such information for each of the past five years would incur disproportionate costs.

A key aspect of PFI is the transfer of risk of projects going over budget. Therefore, any cost overruns will be borne by the private sector provider, not the public sector. The private sector is only paid once the facility is built and operational to the agreed standard and is subject to penalties and deductions if services falls below agreed standard.

Smoking

Mr. Laurence Robertson: To ask the Secretary of State for Health when she expects to make regulations concerning the prohibition of smoking in enclosed public places; and if she will make a statement. [86006]

Caroline Flint *[holding answer 17 July 2006]:* The Department published a consultation on proposed regulations to be made under part one, chapter one of the Health Bill titled "Smoke-free premises and vehicles: Consultation on proposed regulations to be made under powers in the Health Bill" on 17 July 2006. Copies of the consultation document are available in the Library, or on the Department's website at: www.dh.gov.uk/consultations/liveconsultations.

The "Smoke-free premises and vehicles" consultation will run between 17 July and 9 October 2006. Regulations will be laid after the consultation has ended and responses considered.

James Brokenshire: To ask the Secretary of State for Health if she will undertake an assessment of the safety implications for health service staff arising from the recently introduced ban on smoking on health service property. [85330]

Caroline Flint: In the "Choosing Health" White Paper published in 2004, we set out our decision that national health service buildings would be smoke-free by the end of 2006, ahead of the requirements set out in the Health Bill, which will see virtually all enclosed public places and workplaces become smoke-free from summer 2007.

The removal of smoking from NHS buildings will not only result in protection from the harms associated with secondhand smoke for staff, patients and visitors to NHS buildings, but will result in greater safety, for example, by the reduction in the danger of fire. Consideration of the detailed safety implications at individual NHS properties will be for local managers.

The safety benefits of the smoke-free provisions of the Health Bill are referred to in the regulatory impact assessment published alongside the Bill, on its website at: www.dh.gov.uk/PublicationsAndStatistics/Legislation/RegulatoryImpactAssessment/RegulatoryimpactAssessmentArticle/fs/en?CONTENT_ID=4121917&chk=sUauD/

Telephones (Hospitals)

Tim Farron: To ask the Secretary of State for Health (1) what guidelines her Department provides to hospital trusts on charges for *(a)* outgoing and *(b)* incoming telephone calls from hospital bedside units; [82271]

(2) what the average cost per minute for *(a)* outgoing and *(b)* incoming telephone calls from hospital bedside units in each hospital trust was in each year since 1997; [82272]

(3) what assessment her Department has made of the financial impact of telephone charges from bedside units on patients. [82273]

Andy Burnham: Three private companies are licensed to provide bedside entertainment systems in England. These are hospital telephone services (HTS), Patientline and Premier Managed Payphones. Patientline was the only supplier of the service prior to the NHS Plan announcement in 2000 and subsequent licensing of the suppliers.

The cost of outgoing calls has remained constant at 10 pence per minute (minimum 20 pence), for local and national calls.

The incoming call charges have remained constant for Patientline and Premier at 39 pence per minute off peak and 49 pence per minute peak.

HTS charges per minute were; 14 pence in 2002, 17 pence in 2003, 20 pence in 2004 and they currently charge 35 pence.

International calls and calls to mobile phones vary.

The licence documentation contains guidance on acceptance charging strategies within the national health service.

No assessment has been made of the financial impact of telephone charges from the bedside units on patients.

Bedside telephones represent an enhanced service, providing additional choice for patients. Patients not wishing to use these services remain free to use hospital payphones as they have always been able to in the past.

Veterans (Health Care)

Mr. Harper: To ask the Secretary of State for Health what steps she is taking to ensure that NHS employees are informed of the health needs of *(a)* war pensioners and *(b)* veterans. [84825]

Mr. Ivan Lewis: When a member of the armed forces with a current and ongoing health problem prepares to re-enter civilian life, it is the responsibility of the Ministry of Defence (MOD) to engage with the primary care trust of future residence as early as possible to ensure the seamless transfer of care from the Defence Medical Services to the national health service. Thereafter, it is the duty of the attending NHS clinician to asses the changing health needs of the individual taking account of all relevant factors, including occupation and associated exposures and experiences.

Standing guidance on arrangements between the MOD and the NHS, as well as guidance on the right of war pensioners to generally receive priority treatment in NHS hospitals in respect of the condition or conditions for which they receive a pension or received a gratuity, is published on the Department's website at www.dh.gov.uk.

WORK AND PENSIONS

50-plus Workers

Mr. Laws: To ask the Secretary of State for Work and Pensions what steps his Department is taking to increase the number of people in work aged 50 years and over in Yeovil constituency. [82190]

Mr. Jim Murphy: Like all other customers, people aged 50 and over can benefit from the range of services provided by Jobcentre Plus, including access to jobs and help and support to find work.

Additional help is provided to older people who do not find work quickly. New deal 50 plus is a voluntary programme that provides people with advice and guidance from personal advisers, and access to in-work financial help through the 50 plus element of the working tax credit. Since April 2000, the programme has been successful in helping more than 150,000 older workers into employment, including 200 people in Yeovil. Once in work, new deal 50 plus customers can claim a training grant of up to £1,500 for training of which up to £300 can be used for life-long learning.

People aged 50 and over, including those in Yeovil, are also eligible for help from new deal 25 plus. People who have been claiming jobseeker's allowance (JSA) for 18 months and who have not previously participated on new deal 25 plus, are already required to attend the gateway stage of the new deal 25 plus programme. This

is a period of up to four months of intensive job search and specialist help and support to improve job prospects. This is followed by the intensive activity period (IAP) which is currently voluntary for people aged 50 and over. The IAP provides further support and pre-work training to help people return to work.

Since April 2004, we have been piloting mandatory participation in the New deal 25 plus IAP for people aged 50-59 who have been claiming JSA for 18 months. Yeovil was included in the pilot which offered people in this age group more extensive help back to work. Interim results are positive and, as announced in our Welfare Reform Green Paper, we intend to commence a phased national rollout.

Between 1979 and the mid 1990s, the number of people on incapacity benefits trebled. Since then, growth in the caseload has since slowed significantly and, in November 2005, there were 2.71 million people claiming incapacity benefits, a fall of 61,000 over the year. 46 per cent. of those claiming incapacity benefits are aged between 50 and state pension age although, between 2000 and 2005, the number of people in this age group fell by 52,000. This has contributed to the overall reduction in the incapacity benefits case load.

We still clearly have more work to do and, like other age groups, people aged 50 and over will be able to benefit from the rollout of the successful Pathways to Work service across the whole country which will be completed by 2008. Pathways offers new incapacity benefit (IB) customers early support from skilled personal advisers and direct access to a 'Choices Package' of employment programmes and clear financial incentives to make work pay. Any IB customer will be able to access the support and help available on a voluntary basis. Pathways has already begun helping people in the Yeovil area, having rolled out there in April 2004.

Through our Age Positive Campaign we are working with employers and others to promote the business benefits of an age diverse workforce and best practice on age in recruitment, training and promotion. In May 2005 we launched the 'Be Ready' national information campaign to raise employer awareness of, and ability to adopt, flexible employment and retirement opportunities to support the recruitment and retention of older workers in advance of age legislation due in October 2006.

Access to Work

Danny Alexander: To ask the Secretary of State for Work and Pensions how much was paid from the Access to Work scheme to other Central Government Departments for adjustments for disabled workers in each of the last five years, broken down by Department. [85802]

Mrs. McGuire: The information is not available broken down by employer and could be provided only at disproportionate cost.

Action for Employment Ltd.

Danny Alexander: To ask the Secretary of State for Work and Pensions pursuant to his answer of 10 July 2006, *Official Report*, columns 1565-66W, on Action for Employment Ltd., whether the fee paid to Action for Employment Ltd. per customer was the same in the case of a customer choosing a post office card account and bank account. [85890]

Mr. Plaskitt: Action for Employment Ltd. received a single fee for the completion of outreach work, regardless of whether the customer chose a post office card account or a bank account.

Average Income

Philip Davies: To ask the Secretary of State for Work and Pensions what the average household income for *(a)* retired and *(b)* unemployed households was in (i) the UK as a whole and (ii) each parliamentary constituency in each of the last eight years. [85471]

Mr. Jim Murphy: Specific information regarding median incomes for Great Britain is available in "Households Below Average Income (HBAI) 1994/95-2004/05", available in the Library. The main source for HBAI is the Family Resources Survey (FRS). The information shown is for Great Britain only.

Average household income is defined as median household income which is the main measure used in HBAI.

The data source does not allow us to provide robust estimates at a parliamentary constituency level. Information for the UK is not available for the last eight years.

The following tables show the median income in Great Britain in each of the last eight years for *(A)* retired households and *(B)* unemployed (workless) households.

Table A: Median household income for the retired[1] in each year's prices, Great Britain, 1997-98 to 2004-05

		£ per week equivalised
	Before housing costs	*After housing costs*
1997-98	215	193
1998-99	221	201
1999-2000	235	213
2000-01	244	224
2001-02	257	238
2002-03	267	247
2003-04	279	258
2004-05	300	276

[1] Retired is defined as individuals who are state pension age or above (females aged over 60 and males aged over 65). This category also includes individuals in a couple where one is below and one above state pension age.

Source:
FRS

Table B: Median household income for workless households[1] in each year's prices, Great Britain, 1997-98 to 2004-05

	Working-age adults: £ per week equivalised	
	Before housing costs	*After housing costs*
1997-98	157	111
1998-99	164	116
1999-2000	174	123
2000-01	179	130
2001-02	190	138
2002-03	194	144

Table B: Median household income for workless households[1] in each year's prices, Great Britain, 1997-98 to 2004-05

	Working-age adults: £ per week equivalised	
	Before housing costs	After housing costs
2003-04	202	147
2004-05	212	158

[1] Workless households are defined as households where all individuals, of working age, that are eligible for employment are not in employment.

Source:
FRS

Child Support Agency

Ian Stewart: To ask the Secretary of State for Work and Pensions (1) what arrangements the Child Support Agency has for ensuring the prompt payment of child support recovered by bailiffs to its outsourced finance handling company Liberata; [83837]

(2) what Liberata's target is for the time taken to make payments collected from bailiffs to parents with care; and in what percentage of cases Liberata has met this target. [83842]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the Chief Executive. He will write to my hon. Friend with the information requested.

Letter from Stephen Geraghty, dated 18 July 2006:

In reply to your recent Parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You also asked the Secretary of State for Work and Pensions, what Liberata's target is for the time taken to make payments collected from bailiffs to parents with care; and in what percentage of cases Liberata has met this target.

The Department of Work and Pensions contract with Liberata requires the Agency to utilise their services for the payment of invoices, court charges and some manual payments to clients.

Liberata do not deal with the payment of child support monies collected by a bailiff company. This is solely an Agency function.

I hope this information is helpful.

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what bonuses relating to performance were paid to staff managing the EDS contract at the Child Support Agency in each of the last four years for which figures are available. [77970]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Hilary Reynolds, dated 18 July 2006:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is out of the country, I am responding on his behalf.

You asked the Secretary of State for Work and Pensions, what bonuses relating to performance were paid to staff managing the EDS contract at the Child Support Agency in each of the last four years for which figures are available.

All people employed by the Department for Work and Pensions may qualify for performance related pay. The performance related pay arrangements operate on a sliding scale with over 90% of employees receiving a payment at the end of the performance year.

In addition, the Department operates a "Special Bonus" scheme, which rewards employees for exceptional achievements outside the requirements of their key work objectives.

The table below shows special bonus payments paid to people involved in managing the EDS contract. However, managing the EDS contract forms only part of their roles and responsibilities.

These payments arose from when the new child support computer system went live in March 2003.

Financial year	Amount of payment (£)
2003-04	1,600.00
2004-05	0
2005-06	500.00

I hope you find this response helpful.

Mrs. Moon: To ask the Secretary of State for Work and Pensions how many Child Support Agency cases have been dealt with as clerical cases due to administrative errors on the part of his Department since January 2005. [81998]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the chief executive. He will write to my hon. Friend with the information requested.

Letter from Stephen Geraghty, dated 18 July 2006:

You asked the Secretary of State for Work and Pensions, how many Child Support Agency cases have been dealt with as clerical cases due to administrative errors on the part of his Department since January 2005.

Cases are taken off the new computer system (CS2) and progressed clerically if a technical fault occurs and the case cannot be progressed on the system.

If an administrative error is found to have occurred, then Agency staff will look to resolve that error while the case is still being operated on CS2. The case would only be progressed clerically if a technical fault subsequently occurred.

The total volume of cases being clerically progressed in each month from March 2005 to March 2006 is available in table 19 of the latest edition of the Agency's Quarterly Summary of Statistics (QSS), a copy of which is available in the House library, as well as on the internet at http://www.dwp.gov.uk/asd/csa.asp.

For convenience, these figures are attached.

I recognise that the figures given here differ from those given in response to PQ 21451. This is due to improvements in management information which now allows us to provide a more accurate picture of the Agency's clerical caseload.

I hope you find this helpful.

Volume of cases being progressed clerically in each month from the CS2 system

	Number of new system clerical cases
2005	
March	10,000
April	11,000
May	12,000
June	13,000
July	13,000
August	14,000
September	14,000
October	15,000

Volume of cases being progressed clerically in each month from the CS2 system

	Number of new system clerical cases
November	16,000
December	16,000
2006	
January	17,000
February	17,000
March	19,000

Notes:
1. The above figures show the number of new and old scheme cases from CS2 that were being processed clerically, in the main due to technical IT problems that prevented them from being progressed on the CS2 system itself.
2. Note that the figures for later months are provisional, and may be subject to minor retrospective revisions.
3. Figures are rounded to the nearest thousand.
4. Due to limitations in management information, we are unable to include the number of cases that are being progressed clerically off the old system (CSCS).

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Work and Pensions (1) when the Parliamentary Under-Secretary of State will reply to the letter from the hon. Member for West Worcestershire on the assessment of student grants; [81931]

(2) when the Parliamentary Under-Secretary of State will reply to the letter from the hon. Member for West Worcestershire on non-biological parents being assessed for the student grant loan of a biological child of their partner. [81956]

Mr. Plaskitt: The Department wrote to the hon. Member on 28 June advising him that the matters raised in his letter are the responsibility of the Department for Education and Skills, that his letter had been passed to that Department and that they would reply to the hon. Member directly.

Environmental Management

Chris Huhne: To ask the Secretary of State for Work and Pensions whether his Department *(a)* is committed to the achievement of environmental management to ISO 14001 standard and *(b)* has been externally certified as in compliance with that standard; and if he will make a statement. [81179]

Mr. Plaskitt: The Department is committed to the achievement of environmental management to ISO 14001 and has in place an environmental management system, based on this standard, which covers the Department and its agencies, business impacts, staff and buildings. An Environmental Management System certified to ISO 14001-2004 run by the Department's facilities management provider, Land Securities Trillium, covers the estates impacts of the Department.

In addition, Jobcentre Plus South East operates an Environmental Management System externally certified to ISO 14001 since 13 January 2004, covering 85 sites and 5,262 staff. The Health and Safety Executive, an executive agency for which the Department has responsibility, has an Environmental Management System certified to ISO 14001 that covers 38 sites.

The Department will continue to operate its Environmental Management Systems in line with the new sustainable operations targets that were launched on 12 June 2006.

Ethnic Minority Outreach

Mrs. Ellman: To ask the Secretary of State for Work and Pensions what assessment he has made of the merits of *(a)* provider and *(b)* Job Centre Plus-led ethnic minority outreach activities in Liverpool; and if he will make a statement. [73206]

Mr. Jim Murphy *[holding answer 23 May 2006]:* The Ethnic Minority Outreach (EMO) programme is delivered by private or voluntary and community sector providers on behalf of Jobcentre Plus. It is not, therefore, possible to assess the merits of Jobcentre Plus-led ethnic minority outreach activities in Liverpool, or elsewhere. We have, however, evaluated the programme nationally to assess the merits of voluntary/community sector-led EMO. These included:

success in engaging with ethnic minorities who otherwise may make little use of mainstream Jobcentre Plus services and in helping them into employment;

close links with the ethnic minority communities they are attempting to help;

specialist knowledge of the employment issues faced by people from ethnic minorities.

a highly personalised service and intense level of support;

working in ways which respected cultural sensitivities; and

provision available in the places where ethnic minority communities lived and socialised and in non-threatening and user-friendly venues.

Fuel Direct

Mark Lazarowicz: To ask the Secretary of State for Work and Pensions how many successful applications there were to each energy supplier for Fuel Direct for *(a)* gas and *(b)* electricity in (i) each region of England, (ii) Scotland and (iii) Wales in the last full year for which figures are available. [84380]

Mr. Plaskitt: The information is not available in the format requested. A breakdown by supplier is not available. Information for the number of instances where Fuel Direct deductions were being made from income support, jobseeker's allowance or pension credit claimants in each quarter during 2005 have been placed in the Library.

Household Incomes

Lynne Featherstone: To ask the Secretary of State for Work and Pensions what the *(a)* median and *(b)* mean household income was in each London borough in each of the last five years. [83677]

Mr. Jim Murphy: The data source does not allow us to provide robust income estimates below a regional level. Therefore we do not produce information for individual London boroughs.

Information is presented in the table for London as a whole. This is consistent with the latest publication of the 'Households Below Average Income 1994-95 to 2004-05'.

The data are from Households Below Average Income (HBAI). The main source for HBAI is the Family Resources Survey (FRS).

Money values for the median and mean of household income distribution in average 2004-05 prices: London

£ per week equivalised	1998-99 to 2000-01	1999-2000 to 2001-02	2000-01 to 2002-03	2001-02 to 2003-04	2002-03 to 2004-05
Before housing costs					
Median	352	368	383	389	387
Mean	475	507	528	532	527
After housing costs					
Median	278	294	307	315	314
Mean	385	416	439	443	443

Note:
Figures are provided using three-year moving averages, as single-year estimates do not provide a robust guide to year on year changes. Hence, figures are not consistent with previously published single-year estimates and there may be differences in changes over time.
Source:
Family Resources Survey

Housing Benefits

Mr. Love: To ask the Secretary of State for Work and Pensions what estimate he has made of the *(a)* number and *(b)* proportion of housing benefit claimants with non-dependant deductions who are (i) elderly and (ii) disabled. [85607]

Mr. Plaskitt: The most recent available information is in the following table:

Housing benefit households with non-dependant deductions by client type: Great Britain: May 2004

	Number	Proportion of client type (Percentage)
Aged 60+ and disabled	[1]—	[1]—
Aged 60+ and not disabled	59,000	3.8
Aged under 60 and disabled	27,000	3.1

[1] Denotes nil or negligible.
Notes:
1. Figures are rounded to the nearest thousand.
2. Figures are based on a 1 per cent. sample and are therefore subject to a degree of sampling variation.
3. HB figures exclude any extended payment cases.
4. The data refers to benefit units, which may be a single person or a couple.
5 "disabled" means one of the disability premiums has been awarded.
Source:
Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample, taken in May 2004.

Mr. Love: To ask the Secretary of State for Work and Pensions what research he has commissioned to establish whether changes have occurred in the level of the shared room rate available to under 25 year olds in the local housing allowance Pathfinder areas. [85608]

Mr. Plaskitt: The Department has commissioned a comprehensive and independent evaluation of the Local Housing Allowance (LHA) Pathfinders that will include consideration of any changes in the LHA rates in the Pathfinder areas over the two year Pathfinder period. This includes an assessment of the LHA shared room rate.

Four interim evaluation reports have already been published and copies are available in the Library. The final evaluation reports are expected to be published between the autumn of this year and spring of next year.

Pensions

Mr. Waterson: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 21 March 2006, *Official Report*, column 235W, on pensions, if he will place in the Library a copy of the advice he has received attributing £60 million of this increase in the Pension Protection Fund levy to changes in the level of schemes' assets, together with the effect of changes to the relevant market interest rates on the liabilities and £220 million to changes in the mortality assumptions which reflected similar changes to the assumptions used by insurance companies when setting buy-out terms, together with the detail of the assumptions, including mortality tables and interest rates, used in making that attribution. [73779]

James Purnell: There has been no increase in the PPF levy estimate. We cannot provide all the details requested on the increase in the estimate produced by the Government Actuary's Department (GAD). I refer the hon. Member to the reply I gave on 2 May 2006, *Official Report*, columns 1528-529W, which set out the difficulties of doing so. However, a summary of the GAD update will be placed in the Library shortly.

Jenny Willott: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost to fully compensate, with index-linking, all former Allied Steel and Wire workers who lost occupational pension savings; and if he will make a statement. [78293]

James Purnell: The estimated cost of compensating all ASW scheme members in full is £250—£450 million in cash terms and £120—£210 million in net present value, based on limited information on the ASW scheme

Personal Capability Assessment

Mr. Ruffley: To ask the Secretary of State for Work and Pensions whether the Department proposes to pilot the proposed new Personal Capability Assessment referred to in the Green Paper "A new deal for welfare"; and if he will make a statement. [75385]

Mr. Jim Murphy: We will not use formal 'piloting' powers for the revised PCA. However, we are committed to testing the new regime by running it in parallel with the current assessment to compare outcomes—we are calling this 'dummy runs' of the revised PCA using live assessments. This will play no part in deciding entitlement to incapacity benefit, but will allow us to test the new assessment and make any subsequently required adjustments.

Retirement

Danny Alexander: To ask the Secretary of State for Work and Pensions what assumptions were made about the employment rate for *(a)* men and women between the ages of 20 and 64, *(b)* men and women between the ages of 20 and 68 and *(c)* the state pension

age in (i) 2010, (ii) 2020, (iii) 2030, (iv) 2040 and (v) 2050 in calculating the old-age dependency ratio for the chart on page nine of the pension White Paper, Security in Retirement. [85838]

James Purnell: The chart on page nine of the pensions White Paper: "Security in retirement: towards a new pensions system" does not make assumptions about the employment rate or changes in state pension age.

HOME DEPARTMENT

Antisocial Behaviour

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department how many offenders were found guilty of *(a)* drunken and disorderly behaviour and *(b)* drunken and aggravated disorderly behaviour in (i) England, (ii) Peterborough constituency and (iii) the Peterborough city council area in each year since 1997. [76623]

Mr. Sutcliffe: Data from the court proceedings database held by the Office for Criminal Justice Reform on the number of offenders found guilty for drunkenness with aggravation (which includes drunk and disorderly) in England, and Peterborough Local Justice Area, 1997—2004 are given in the following table. It is not possible to identify those convicted in Peterborough constituency, or Peterborough city council, as the data are not collected at this level of detail. Court statistics for 2005 will be available in autumn 2006.

In addition to this, the penalty notice for disorder scheme was brought into effect in all police forces in England and Wales during 2004. Under the scheme the police are able to issue persons committing specified minor offences with a fixed penalty notice. No admission of guilt is required and payment of the penalty discharges all liability for the offence. In 2004 25,591 penalty notices were issued in England for the offence of being drunk and disorderly. Provisional data for 2005 show that 34,238 penalty notices were issued in England for this offence. It is not possible to identify the number of penalty notices issued in Peterborough as centrally held data are not collected at that level of detail.

Number of offenders found guilty at all courts for offences relating to drunkenness in England 1997 to 2004[1,2]

	Drunkenness with aggravation[4]
1997	22,474
1998	23,864
1999	22,764
2000[3]	22,078
2001	21,468
2002	22,741
2003	23,893
2004	17,550

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts, police forces and other agencies. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Staffordshire police force were only able to supply a sample of data for magistrates courts proceedings covering one full week in each quarter for 2000. Estimates based on this sample are included in the figures, as they are considered sufficiently robust at this high level of analysis.

[4] Includes the offence of "drunk and disorderly" [Criminal Justice Act 1967 s4c.91] and other miscellaneous offences of drunkenness with aggravations.

Source:
Office for Criminal Justice Reform

Antisocial Behaviour Orders

Mr. Fiello: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been issued in *(a)* Stoke-on-Trent and *(b)* England. [85267]

Mr. Coaker *[holding answer 17 July 2006]:* The number of ASBOs, as reported to the Home Office by the court service, where restrictions are imposed in the local authority area of Stoke-on-Trent city council, from 1 June 2000 to 30 September 2005 (latest available) is 54. The number issued in England during the same period is 6,922.

Appointments Booking System

David Davis: To ask the Secretary of State for the Home Department to what extent the Appointments Booking System software has been modified to prevent counter officers by-passing the normal process; whether override audit trails are maintained and checked; and if he will make a statement. [73712]

John Reid: I am advised that the Appointments Booking System software was upgraded on 6 April. The software has been specifically designed to prevent staff from overriding the system without management approval. An audit trail is maintained and is checked on a daily basis.

Asylum/Immigration

Mrs. Moon: To ask the Secretary of State for the Home Department what assessment he has made of the *(a)* opposition to and *(b)* potential impact of the extension of the voucher system for asylum seekers. [71888]

Mr. Byrne: Vouchers are used to support failed asylum seekers under section 4 of the Immigration and Asylum Act 1999 who would otherwise be destitute and for whom there is a temporary barrier to leaving the UK.

Officials, through the NASS Forum, National Consulting Group and Voluntary Sector Chief Executives' group have discussed impacts. These have been considered carefully and taken into account. The Commons Clearance of Lords' Amendments stage of the Bill also provided an opportunity to debate their use.

This is a rightly limited form of support, which should not act as an incentive for asylum seekers to remain in the UK once they have exhausted their appeal rights.

Section 43(7) of the Immigration, Asylum and Nationality Act 2006 does not extend the voucher system, but ensures flexibility to meet additional needs of those supported under section 4. This is a new provision which should be welcomed.

My hon. Friend the Minister for Policing, Security and Community Safety (Mr. McNulty) asked officials to review longer term impacts, which they are currently in the process of doing with interested parties.

Jim Cousins: To ask the Secretary of State for the Home Department what his policy is on the use of luncheon vouchers for the purposes of support under section 4 of the Immigration and Asylum Act 1999; how many such vouchers were issued to residents of the City of Newcastle upon Tyne in each of the last four quarters of 2005-06; and what the total value was of the vouchers so issued. [75212]

Mr. Byrne: Where support under section 4 is provided in self-catering accommodation, vouchers to the value of £35 per week are issued to purchase food and essential toiletries. The type of voucher issued is not a matter of policy. The vouchers issued by accommodation providers are primarily luncheon vouchers, supermarket payment cards and supermarket vouchers.

Information on the number and types of voucher issued is not recorded centrally.

Mr. Hurd: To ask the Secretary of State for the Home Department how many asylum seekers who have been given indefinite leave to remain in *(a)* the past 12 months and *(b)* the past five years have served a prison sentence in the UK while waiting for a decision on their application to stay in the UK. [75365]

Mr. Byrne: The information requested is not collected centrally and would require an examination of individual case files at disproportionate cost.

Damian Green: To ask the Secretary of State for the Home Department how many asylum seekers who have spent time in detention have been granted temporary release in each of the last five calendar years. [75787]

Mr. Byrne: This information is not available.

Mr. Binley: To ask the Secretary of State for the Home Department pursuant to his answer of 8 May 2006, *Official Report*, column 71W, on asylum/immigration, how many of the applicants had their last known address in Northamptonshire. [73415]

Mr. Byrne: 16 had their last recorded address in Northamptonshire.

Mr. Hurd: To ask the Secretary of State for the Home Department pursuant to the Answer of 18 April 2006, *Official Report*, column 282W, on asylum/immigration, what definition his Department uses of a particularly serious crime. [75349]

Mr. Byrne: Article 33(2) of the Refugee Convention allows an asylum seeker or recognised refugee to be removed even if they have a well-founded fear of persecution, where they represent a threat to national security, or where, having been convicted of a particularly serious crime, they constitute a danger to the community.

Section 72 of the Nationality, Immigration and Asylum Act 2002 provides an interpretation of Article 33(2) of the 1951 Convention and defines the term 'particularly serious crime' for the purposes of Article 33(2) as one for which the person concerned has received a sentence of imprisonment of at least two years, or has been convicted of an offence specified by order of the Secretary of State, whatever the length of sentence imposed. An automatic presumption is made, which is rebuttable, that such a person poses a danger to the community.

Grant Shapps: To ask the Secretary of State for the Home Department pursuant to his answer of 19 June 2006, *Official Report*, columns 1666-68W, on asylum/immigration, how many individuals were held in each immigration holding, reception and removal centre in each year since 2004-05. [82699]

Mr. Byrne: Quarterly snapshots are published by the Immigration Nationality Directorate's (IND's) Research, Development and Statistics (RDS) Directorate in the quarterly asylum statistics bulletin showing the number of people detained on the last Saturday of each quarter under Immigration Act powers in immigration removal centres.

Citizenship

Andrew Selous: To ask the Secretary of State for the Home Department whether a mother can require a DNA test to be undertaken to prove the paternity of her child in relation to citizenship. [84295]

Mr. Byrne *[holding answer 11 July 2006]:* There are no powers in the nationality legislation to this effect.

Andrew Selous: To ask the Secretary of State for the Home Department whether a British father is required to supply his details to enable his child to be registered as a British citizen where the mother wishes this to happen. [84296]

Mr. Byrne *[holding answer 11 July 2006]:* Where an application for citizenship is based on a parent's nationality or immigration status, the Home Secretary has to be satisfied on a balance of probabilities about the child's parentage and that the relevant parent has the appropriate status. In some cases there is also a statutory requirement, or an expectation, that both parents will indicate their consent to the child being registered as a British citizen. There is no power under nationality legislation, however, for the Home Secretary or one parent to compel the provision of certain information or consent by the other.

Correspondence

Paddy Tipping: To ask the Secretary of State for the Home Department when he will reply to the letter from the hon. Member for Sherwood dated 28 April about the immigration status of Josephine Mundirwa. [81048]

Mr. Byrne *[holding answer 3 July 2006]:* I replied to my hon. Friend on 11 July 2006.

Mr. Malins: To ask the Secretary of State for the Home Department when the Minister of State for Immigration will respond to the letter from the hon. Member for Woking of 28 June 2006 concerning a constituent, Mr. C. Imran Ali (Home Office Ref: H/65545/98/PR). [83443]

Mr. Byrne: I wrote to the hon. Member on 13 July 2006.

Clare Short: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter of 6 June 2006 from the right hon. Member for Birmingham, Ladywood on behalf of Mohammed Kashif Zahoor (Home Office reference Z1040405, acknowledgement reference B14821/6). [83891]

Mr. Byrne: I wrote to the right hon. Member for Birmingham, Ladywood on 3 July 2006.

Mr. Winnick: To ask the Secretary of State for the Home Department when he will reply to the letter of 31 May from the hon. Member for Walsall, North regarding a constituent, reference M13279/6. [84302]

Mr. Byrne *[holding answer 11 July 2006]:* I wrote to my hon. Friend on 11 July 2006.

Custodial Education

Chris Ruane: To ask the Secretary of State for the Home Department what the cost of education was for children and young adults in custody in each of the last 30 years; what proportion of the total cost of their detention was represented by spending on their education in each such year; and what was the per capita spending on education in each such year. [86204]

Mr. Sutcliffe: This information could be obtained only at disproportionate cost.

Custody

Chris Ruane: To ask the Secretary of State for the Home Department if he will consider the merits of establishing a public inquiry into *(a)* the deaths of children in custody and *(b)* the role of sentencing policy in such cases; and if he will make a statement. [86229]

Mr. Sutcliffe: Any death of a child or young person in custody is thoroughly investigated. (Fortunately such deaths are comparatively rare.) The main form of public inquiry into any death is the inquest. Developments in case law in recent years have greatly extended the scope of inquests into deaths in custody, so that they can now inquire into a wide range of possible contributory factors (although sentencing policy will rarely, if ever, be a directly contributory factor to a death in an individual case). In addition, the Prisons and Probation Ombudsman conducts his own independent inquiry into any death of a young person in a young offender institution or a secure training centre; and the Local Safeguarding Children's Board is likely to commission a serious case review under Part 8 of the joint Department for Education and Skills/ Home Office/Department of Health guidance Working Together to Safeguard Children (1999). Many of the young people who become involved in serious or persistent offending are at risk of self-harm, whether or not they are in custody. It is not possible to quantify how many young people's health, including mental health, has been positively assisted by care received while in custody. There is no reason to believe that sentencing policy is increasing the rate of mortality of young people under 18.

Departmental Staff

Mr. Wallace: To ask the Secretary of State for the Home Department how many foreign nationals work for his Department in the UK. [73625]

Mr. Byrne: The Home Office, which includes the Immigration and Nationality Directorate and the Prison Service but not its other Agencies, is currently employing one foreign national under the terms of the 1955 Aliens' Employment Act.

Mr. Wallace: To ask the Secretary of State for the Home Department how many staff changes there have been in the private offices of Departmental Ministers of State in each year since 1999. [73672]

Mr. Byrne: This information is not held centrally and could be obtained only at disproportionate costs.

David Simpson: To ask the Secretary of State for the Home Department pursuant to the answer of 7 June 2006, *Official Report*, column 732-34W, on departmental staff, how many staff in his Department have had two or more periods of sick leave of less than five days in two or more of the years for which he has provided figures. [84036]

Mr. Byrne: I am advised that the number of staff in his Department that have had two or more periods of sick leave of less than five days in two or more years are show in the following table.

Staff who have taken two or more periods of sick leave of less than five days in the last three years

	Number of staff
Home Office (including Immigration and Nationality Directorate)[1]	
2002-03	5,515
2003-04	7,180
2005-06	6,113
Identity and Passport Service[2]	
2003-04	1,438
2004-05	1,389

Staff who have taken two or more periods of sick leave of less than five days in the last three years

	Number of staff
2005-06	1,463
HM Prison Service[3]	
2003-04	10,756
2004-05	9,950
2005-06	9,438

[1] Data are provided on the basis of staff having on average* two or more days per spell of sickness. The figures for 2002-03 and 2003-04 are based on calendar days, those for 2005-06 on working days.
[2] IPS figures show periods of less than five working days.
[3] HMPS figures show periods of less than five calendar days.
* 'On average' indicates a spell which includes staff who had a mean average of two days sick and not just two or more days in (each and every) spell of sickness in the period provided.
Note:
Because the material needed to be provided from archived reports run across the periods concerned on a particular basis (that of average values across the period) it was not possible to answer the question in the more precise form without disproportionate cost, in the time scale available.

Deportations

Peter Luff: To ask the Secretary of State for the Home Department what guidance he issues to staff escorting deported foreign nationals back to their country of origin on the way in which these deportees are *(a)* handled and *(b)* treated; and if he will make a statement. [68798]

Mr. Byrne: Staff escorting deported foreign nationals back to their country of origin are certificated Detainee Custody Officers, who are fully trained in the appropriate handling and treatment of those detainees in their care.

The conduct of the escorts is governed by the contractor's own operating procedures. These are approved by the Contract Monitor, a Crown Servant, who closely reviews the contractor's performance.

Mr. Hayes: To ask the Secretary of State for the Home Department how many foreign criminals undergoing consideration for deportation require a translator; and at what cost. [69563]

Mr. Byrne: The information as requested in each answer is not currently available in the format requested and can be provided only at disproportionate cost.

EU Legislation

Michael Gove: To ask the Secretary of State for the Home Department what EU legislation the UK has opted *(a)* out of and *(b)* into in the areas of (i) asylum, (ii) legal migration, (iii) visa and border controls and (iv) civil law under the rules governing Title IV of the Treaty establishing the European Community. [73168]

Mr. Byrne: For legislation opted into in the areas of asylum and immigration, I refer the hon. Member to the answer that my right hon. Friend the Member for Kilmarnock and Loudoun (Des Browne) gave to the right hon. Member for Wells (Mr. Heathcoat-Amory), on 7 March, 2005, *Official Report*, column 1596W, and to the answer that my right hon. Friend the Member for Paisley and Renfrewshire, South (Mr. Alexander) gave to the hon. Member for Hemel Hempstead (Mike Penning) on 1 December 2005, *Official Report*, column 737W.

Since 1 December 2005 the UK has opted into the following two measures in asylum: a recommendation for a council decision authorising the Commission to negotiate a readmission agreement between the European Community and Russia; and a proposal by the Council establishing a Mutual Information Procedure. The UK has not opted into the following proposals in the area of Civil Law: proposal for a Council Regulation on jurisdiction, applicable law, recognition and enforcement of decisions and cooperation in matters relating to maintenance obligations; and a proposal for a European Parliament and Council Regulation on the law applicable to contractual obligations.

There has been no legislation to decide to opt into since 1 December 2005 in legal immigration or visa and border controls.

Failed Asylum Seekers

Mr. Gerrard: To ask the Secretary of State for the Home Department if he will list those local authorities who have withdrawn support and accommodation from failed asylum seeker families in addition to those councils piloting implementation of section 9 of the Asylum and Immigration Act (Treatment of Claimants etc.) 2004. [79292]

Mr. Byrne: Support may have been withdrawn by local authorities supporting families under the Interim Provisions where the authority identified that a family had been granted indefinite leave to remain (ILR) under the Family ILR concession or had otherwise been granted leave to remain; mainstream support is available in such cases. There have been no withdrawals of asylum support under section 9 since December 2005 when the pilot commenced its evaluation phase.

Foreign Criminals

David Davis: To ask the Secretary of State for the Home Department (1) how many foreign national offenders there were in UK prisons in each year since 1997; and what percentage this represents of the total prison population; [68720]

(2) how many offenders whose nationality is unknown are in UK prisons; and how many offenders whose nationality was unknown there were in *(a)* 2001, *(b)* 2002, *(c)* 2003, *(d)* 2004 and *(e)* 2005; [68728]

(3) how many foreign national offenders there are in UK prisons; what their country of origin is; and for what offences they are imprisoned. [68733]

John Reid: Information on the population in prison establishments by nationality is published in annual and quarterly Home Office statistical publications. The figures have been drawn from the prisons administrative IT systems. Although care is taken when

processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system.

Information on the number of foreign nationals and those with nationality not recorded, for the years 2001 to 2005, held in prison establishments in England and Wales is given in table 8.4 and 8.4a of Offender Management Caseload Statistics 2004.

Information on the nationality of foreign nationals held in prison establishments in England and Wales is given in table 2.14 of Offender Management Caseload Statistics Quarterly Brief October to December 2005.

The number of sentenced foreign nationals in prison establishments in England and Wales for each offence group is given in table 8.29 of Offender Management Caseload Statistics 2004.

Information from these tables is given as follows.

Information on Scotland and Northern Ireland is a matter for my colleagues in the Scottish Executive and Northern Ireland Office.

Population in prison establishments[1] by nationality, England and Wales as at 30 June each year

Number of persons

	2001	*2002*	*2003[2]*	*2004*	*2005[3]*	*2006[4]*
Males and females						
All nationalities	66,403	71,218	72,286	74,488	76,190	77,677
British nationals	58,732	62,553	62,417	64,379	65,670	65,907
Foreign nationals	6,926	7,719	8,728	8,941	9,651	10,834
Percentage of total population	10	11	12	12	13	14
Unrecorded nationality[5]	745	946	1,142	1,168	869	936

[1] Excludes police cells. Includes Immigration Removal Centres at Dover, Haslar and Lindholme managed by the Prison Service on behalf of IND. Includes remand, sentenced and non criminals.
[2] As at 28 February 2003.
[3] Further quality assurance of the population data was undertaken in 2005 resulting in revised figures from June 2005 onwards. This has affected the statistics on nationality. The number with unrecorded nationality has decreased by 400, the number of British nationals has increased by 300 and the number of foreign nationals has increased by 100 from previously published figures.
[4] As at 31 May 2006.
[5] 0.3 per cent. of the immediate custodial sentenced population has an unrecorded nationality.

Sources:

The figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system, and so is not necessarily accurate to the last whole number as shown here.

Damian Green: To ask the Secretary of State for the Home Department how many foreign prisoners who have served custodial sentences and who have been recommended for deportation were held in immigration detention centres on 20 June 2006. [83082]

Mr. Byrne: The Immigration and Nationality Directorate does not collate information in the format requested and it could only be produced in the format requested at disproportionate cost. However, I am able to advise the hon. Member that 469 former prisoners who had completed their sentence were detained in immigration detentions centres, pending deportation, on 17 June 2006. This figure rose to 497 on 24 June 2006.

Foreign Students

Damian Green: To ask the Secretary of State for the Home Department if he will set up a sponsors register for academic institutions to allow foreign students to come to the UK to study. [83087]

Mr. Byrne: We intend to introduce a register of sponsors for academic institutions as part of Tier 4 of the Points-Based System for Managed Migration.

HM Prison Service

Mr. Bellingham: To ask the Secretary of State for the Home Department what proportion of senior operational managers in HM Prison Service in each area achieved an exceed rating on their staff performance and development record in each of the last five years; and if he will make a statement. [85479]

Mr. Sutcliffe: The following table shows information from the Corporate Database on the proportion of performance levels recorded as "exceeded" for senior operational managers in each year from 2001-02 to 2004-05. Comprehensive information on performance levels for 2005-06 is not yet available and could be obtained only at disproportionate cost.

Performance levels recorded for senior operational managers

Percentage

Area	*2004-05*	*2003-04*	*2002-03*	*2001-02*
High Security Prisons	61	71	79	78
East Midlands	75	61	65	56
Eastern	47	14	33	58
Kent	36	45	56	47
London	86	58	50	67
North East	91	50	44	38
North West	77	44	57	70
South West	64	57	87	72
Surrey and Sussex	40	43	63	50
Thames Valley and Hampshire	64	77	52	50
Wales	67	80	50	57
West Midlands	36	63	56	71
Yorkshire and Humberside	86	77	83	78
HQ	54	52	56	43
Total	60	56	59	56

Note:

Senior operational managers are senior manager grades A to D. Percentages are calculated as proportion of all recorded SPDR markings for those grades. Where no marking is recorded the data are omitted.

Identity Checks (Licensed Premises)

Mr. Graham Stuart: To ask the Secretary of State for the Home Department what assessment he has made of the risk of identity theft when identity is requested and taken by door staff at licensed premises; and if he will make a statement. [79529]

Mr. Coaker: No assessment has been made of this specific risk. However, since 11 April 2005 all door supervisors working on licensed premises have been required to be licensed by the Security Industry Authority. This requires them to undertake training and a criminality check from the Criminal Records Bureau. If an applicant is found guilty of identity theft it is highly likely that he will be refused a licence. If a licensed door supervisor is subsequently found guilty of identity theft then it is also highly likely that his licence will be revoked.

Illegal Immigrants

David Davis: To ask the Secretary of State for the Home Department how many illegal immigrants have been employed on Home Office premises in each of the last five years. [77073]

John Reid: I am advised that of such records that are held locally, two members of staff were detected as not having valid leave to remain in the United Kingdom at the time of their employment. One in 2004, and one in 2005.

In addition, 12 contracted workers have been identified as having worked on Home Office premises illegally: eight this year, two in 2005, one in 2004 and one in 2002.

Mr. Carswell: To ask the Secretary of State for the Home Department what estimate he has made of the number of foreign-born prisoners who *(a)* entered and *(b)* remained in the UK illegally. [64268]

Mr. Byrne: The Immigration and Nationality Directorate does not currently record the information requested. The provision of this information could therefore be obtained only at disproportionate cost.

Mr. Carswell: To ask the Secretary of State for the Home Department what percentage of prisoners who *(a)* entered and *(b)* remained in the UK illegally have been recommended for deportation on completion of their sentences. [64269]

Mr. Byrne: The provision of this information could only be obtained through review of individual case files and could be supplied only at disproportionate cost.

Mr. Oaten: To ask the Secretary of State for the Home Department what guidance his Department provides to police forces on processing illegal immigrants when an Immigration Service official is unable to attend; and if he will make a statement. [84092]

Mr. Byrne: Police will be provided with advice by the relevant local enforcement office in the event that resources do not permit attendance in person by an Immigration Service official.

Mr. Hayes: To ask the Secretary of State for the Home Department on how many occasions in the past 12 months his Department has received information pertaining to illegal residency in the UK; and on how many occasions such information led to a deportation. [84253]

Mr. Byrne: Data on the number of separate pieces of information about illegal residency received by the Home Office are not currently recorded centrally and therefore not available.

Immigration (EEA) Regulations

Mr. Heathcoat-Amory: To ask the Secretary of State for the Home Department if he will list the ways in which the Immigration (EEA) Regulations 2006 *(a)* impact on the deportation of (i) European Economic Area (EEA) nationals and (ii) members of EEA nationals' extended families and *(b)* change the relevant processes in place previously. [73427]

Mr. Byrne: EEA nationals and their family members may be deported if their removal is justified on the grounds of public policy, public security or public health. The principles to be applied to such deportation cases are set out in regulation 21 of the 2006 Regulations. The deportation provisions in the 2006 Regulations will only apply to an "extended family member" of an EEA national if the United Kingdom has issued entry or residence documentation to the extended family member under the Regulations.

The deportation provisions in the 2006 Regulations are in most respects similar to those in the previous Regulations but introduce different tests for deportation where EEA nationals and their family members have acquired permanent residence in the UK or where an EEA national has resided in the UK for at least 10 years or is under 18. The 2006 Regulations also update the list of diseases relevant to deportation decisions taken on public health grounds and provide some opportunity for a person to leave voluntarily when facing deportation.

Immigration and Nationality Directorate

Mr. Carswell: To ask the Secretary of State for the Home Department how many case files have been lost by the Immigration and Nationality Department *(a)* temporarily and *(b)* permanently in each of the past five years. [63967]

Mr. Byrne: The information is not available in the format requested.

Mr. Wallace: To ask the Secretary of State for the Home Department how many vacancies there are at the Immigration and Nationality Department. [73621]

Mr. Byrne: There are currently 427 (2.4 per cent.) posts in the Immigration and Nationality Department that are vacant, according to the figures reported on the computerised resource reporting system called Adelphi.

David Davis: To ask the Secretary of State for the Home Department who will lead the inquiry into the allegations made in *The Observer* on 21 May regarding malpractice in the Immigration and Nationality Directorate; when the inquiry will report; if the report will be published; what the terms of reference are; from whom the inquiry will take evidence; and if he will make a statement. [73687]

John Reid: An internal disciplinary investigation has taken place, as a result of which a member of IND staff has been dismissed. A criminal investigation continues.

David Davis: To ask the Secretary of State for the Home Department whether the Director General of the Immigration and Nationality Directorate compiled an action plan to take forward the recommendations made by Mr. Gbedemah; and if he will place a copy in the Library. [73688]

John Reid: I am advised that an action plan was initiated immediately upon the publication of Mr. Gbedemah's report. The action plan is an internal working document and as such it would not be appropriate to place it in the public domain.

David Davis: To ask the Secretary of State for the Home Department what disciplinary action he has taken against officials in the Immigration and Nationality Directorate following Mr. Gbedemah's report. [73689]

John Reid: I am advised that 13 separate disciplinary investigations were commissioned following Mr. Gbedemah's report. Disciplinary action has been completed in respect of seven members of staff and is ongoing in respect of the remaining six.

David Davis: To ask the Secretary of State for the Home Department how many people referred to the Immigration and Nationality Directorate by the Department for Work and Pensions for having suspect immigration documents in *(a)* the last six months, *(b)* the last 12 months and *(c)* each of the last five years have been (i) investigated and (ii) prosecuted. [75704]

John Reid: This information could be obtained only by individually searching IND databases for the outcome of each referral received, which would have significant resource implications.

Mr. Clegg: To ask the Secretary of State for the Home Department whether his Department plans to reduce the charges for leave to remain applications once the deficit identified by the Immigration and Nationality Directorate associated with the processing of chargeable applications during 2003-04 and 2004-05 has been recovered. [76924]

John Reid: The fees for leave to remain are set to recover the full costs of the leave to remain service. These include not only the recovery of past deficits but also the direct and indirect costs associated with processing the application, including overheads and appeal costs. Our fees are set at a level appropriate for the costs of managing the service in an area of fluctuating volumes and we will continue to review this in the future.

Mr. Clegg: To ask the Secretary of State for the Home Department at what point he expects the deficit identified by the Immigration and Nationality Directorate which occurred in processing chargeable applications for leave to remain during 2003-04 and 2004-05 to have been recovered as a result of increases to leave to remain fees from 1 April 2005. [76925]

John Reid: Deficits identified by the Immigration and Nationality Directorate are being recovered through the fee for leave to remain in 2005-06. The accounts for the financial year 2005-06 are still being finalised and are yet to be audited by the National Audit Office. Until these accounts have been finalised I am unable to state whether the deficits referred to have been recovered.

Mr. Clegg: To ask the Secretary of State for the Home Department what the total running costs were of the Department that handles further leave to remain charges within the Immigration and Nationality Directorate in each year since their introduction. [76926]

John Reid: The published resource accounts for the fiscal year 2003-04 show that full costs of service provision for leave to remain applications totalled £44.985 million.

The published resource accounts for the fiscal year 2004-05 show that full costs of service provision for leave to remain applications totalled £74.588 million.

The resource accounts for the financial year 2005-06 are still being finalised and are yet to be audited by the National Audit Office.

Mr. Clegg: To ask the Secretary of State for the Home Department how much was raised through further leave to remain charges in each year since their introduction. [76927]

John Reid: The resource accounts for the fiscal year 2003-04 show that £44.157 million were received as income from leave to remain charges.

The resource accounts for the fiscal year 2004-05 show income of £60.927 million in respect of fee income from leave to remain charges.

The resource accounts for the financial year 2005-06 are still being finalised and are yet to be audited by the National Audit Office.

David Davis: To ask the Secretary of State for the Home Department for which projects external consultants were hired for work for the Immigration and Nationality Directorate in the last financial year; who the consultants were in each case; and how much was paid in each case. [77071]

John Reid: Detailed information in the format requested is not available centrally and can be obtained only at disproportionate cost. In 2005-06 a total of £20.1 million (subject to audit) was spent by the

Immigration and Nationality Directorate on all external professional services, including consultancy support for projects.

David Davis: To ask the Secretary of State for the Home Department how much was paid to external consultants for work for the Immigration and Nationality Directorate in each year since 1997. [77072]

John Reid: I am advised that IND's expenditure on all external professional services comprising payments made to management, IT and accommodation consultants in the last three years was as follows:

	£ million
	Payments to external consultants
2005-06[1]	20.1
2004-05	17.7
2003-04	32.7

[1] Provisional figures, subject to audit.

Figures for earlier years are not available on a comparable basis.

David Davis: To ask the Secretary of State for the Home Department what recent guidance he has issued to the Immigration and Nationality Directorate's Security and Anti-Corruption Unit on developing a more proactive strategy for combating fraud and corruption. [73709]

John Reid: One of the recommendations in Tim Gbedemah's report on the investigation into the Public Enquiry Office (PEO) in Croydon was that the IND should consider giving its Security and Anti-Corruption Unit (SACU) sole responsibility for investigating allegations of corruption across the whole of IND and tasking the unit with developing a more proactive strategy for combating fraud and corruption. Ministers accepted all of the recommendations in the report.

David Davis: To ask the Secretary of State for the Home Department to what extent the Immigration and Nationality Directorate's Security and Anti-Corruption Unit is responsible for investigating allegations of corruption across the whole of the IND; and when it was given this role. [73710]

John Reid: IND's Security and Anti-Corruption Unit was given sole responsibility for investigating allegations of corruption made against all IND staff on 1 April 2006.

David Davis: To ask the Secretary of State for the Home Department how many people are employed in the Immigration and Nationality Directive at *(a)* senior management and *(b)* junior management level. [77403]

John Reid: I am advised that IND records show the number of people employed by the Immigration and Nationality Directorate in senior, middle and junior management grades are shown in the following table:

	FTE	*Headcount*
Junior Manager		
Immigration Officer	3,439	3,562
Executive Officer	2,683	2,831
Higher Executive Officer	1,542	1,606
Chief Immigration Officer	813	847
Total	8,477	8,846
Middle Manager		
Senior Executive Officer	616	641
Grade 7	374	387
Grade 6	98	99
Immigration Inspector		212
Total	1,300	1,347
Senior Manager		
Senior Civil Servant	45	45
Total	45	45

David Davis: To ask the Secretary of State for the Home Department how many employees from an ethnic minority the Immigration and Nationality Directorate has, broken down by category of staff. [77397]

John Reid: The information requested is presented in the following table. The collection of diversity data is intended to enable IND to monitor the effectiveness of its HR policies and processes. The provision of such data by employees is voluntary and information is held currently for just under 60 per cent. of our staff. Specific activities are under way to increase this figure to help ensure robust monitoring.

Ethnic minority staff employed in IND by grade—number and percentage

	Number	*Percentage*
SCS	0	0
G6/G7	27	8.08
SEO	69	15.40
HEO	234	22.12
EO	624	33.58
HMI	16	10.74
CIO	68	12.78
IO	453	23.72
AO	717	36.60
AIO	147	41.18
AA	278	39.15
Other	96	33.90

Total ethnic minority staff employed in IND—number and percentage

Total number of ethnic minority staff	2,729
Total as percentage of IND staff	28.25

Notes:
1. The figures are based on a 59.79 per cent. data set. We are taking active steps to improve these data; one Directorate specific manual exercise has been undertaken recently, these data returns will be reflected in the June 2006 figures and a small self-service electronic pilot exercise will be completed by September 2006 for inclusion in that quarter's figures.
2. The category "other" includes research officers and librarians.

David Davis: To ask the Secretary of State for the Home Department how many immigration officers employed by his Department were born outside the UK, broken down by country of origin. [77398]

John Reid: The information requested is not held centrally and could be obtained only at disproportionate cost.

Immigration Cases

Sir Michael Spicer: To ask the Secretary of State for the Home Department when the Parliamentary Under-Secretary of State responsible for immigration matters will respond to the representations of the hon. Member for West Worcestershire on behalf of his constituent, Mr. Matthew Pretorius, on permanent settlement status. [83526]

Mr. Byrne: I wrote to the hon. Member for West Worcestershire on 10 July 2006.

Juvenile Custody

Chris Ruane: To ask the Secretary of State for the Home Department how many members of staff were employed in the *(a)* private and *(b)* public sector in the care of vulnerable and at-risk children and young adults in custody in each of the last 20 years. [86384]

Mr. Sutcliffe: This information is not available centrally and could be obtained only at disproportionate cost.

London Bombings

Mr. Ellwood: To ask the Secretary of State for the Home Department what the value was of each payment which *(a)* has been made and *(b)* is planned by the Government to (i) survivors and (ii) families of those affected by the London bombings on 7 July 2005; and to whom each payment was made. [76981]

Mr. Sutcliffe: Applications to the Criminal Injuries Compensation Authority (CICA) are confidential as between the claimant and the Authority and no details of a claim can be released to any third party without the consent of the claimant.

CICA are, however, able to provide some details of claims lodged and payments made provided this does not enable individual claimants to be identified.

On this basis, information about numbers of final awards offered and accepted up to 30 June is given in the following table. This shows the tariff level for the main injury suffered.

Some of the award recipients may have received compensation over and above the tariff level indicated because they received tariff compensation for a second or third injury under the serious multiple injury formula, and/or additional compensation for loss of earnings and special expenses.

A number of substantial interim awards have also been made to seriously injured victims where the final prognosis for recovery is unclear and where CICA still have to make a final assessment of a claim for financial loss.

Many victims will also have received substantial payments from the London Bombings Relief Charitable Fund, to which the Government donated a further £2.5 million in June 2006. Payments from the Fund, in the form of charitable grants, are made at the discretion of the Fund's trustees.

London Bombings—Final awards offered and accepted (to 30 June 2006)

Tariff band/level	*Tariff amount (£)*	*Number of final awards offered and accepted*
1	1,000	79
2	1,250	11
3	1,500	3
4	1,750	4
5	2,000	4
6	2,500	10
7	3,300	5
8	3,800	6
9	4,400	27
10	5,500	49
12	8,200	13
13	11,000	2
15	16,500	3
17	22,000	1
Total		217

Manor Lodge, Berkshire

Adam Afriyie: To ask the Secretary of State for the Home Department how many offenders living at Manor Lodge Approved Premises, Old Windsor, Berkshire are sex offenders. [84937]

Mr. Sutcliffe *[holding answer 13 July 2006]:* As I have previously advised the hon. Member, the number of sex offenders accommodated at any one time in any approved premises, (formerly bail and probation hostels) varies. Statistical information about the type of offences committed by offenders residing at an approved premises at any one time is not collected centrally.

National Asylum Support Service

Mr. Clegg: To ask the Secretary of State for the Home Department how many citizens from each of the countries which joined the EU in May 2004 are being supported by the National Asylum Support Service. [79017]

John Reid: I am advised that the information available is set out in the table.

Number of asylum seekers (including dependants) supported by NASS from countries that joined the EU in May 2004 as at the end of March 2006

Nationality	*Subsistence only*	*In dispersed accommodation*	*Total*
Cyprus	—	—	—
Estonia	—	—	—
Hungary	—	—	—
Latvia	•	—	•
Lithuania	—	5	5
Malta	—	—	—
Poland	5	—	5
Slovakia	—	—	—

Number of asylum seekers (including dependants) supported by NASS from countries that joined the EU in May 2004 as at the end of March 2006

Nationality	Subsistence only	In dispersed accommodation	Total
Slovenia	—	—	—
Czech Republic	—	10	10
Total	10	10	20

'*'= 1 or 2. Figures are rounded to the nearest 5 and may not sum due to rounding.

NASS provides this support only to EU nationals who are, or have been, asylum seekers, whose claim is either outstanding or their circumstances are such that they are at present neither able to work nor to return home.

New Criminal Offences

Mr. Clegg: To ask the Secretary of State for the Home Department if he will list the criminal offences created in legislation sponsored by his Department since April 2005, broken down by Act. [76910]

John Reid: Home Office legislation since 1 April 2005 contains 50 criminal offences, tabled as follows:

Act	Number
Drugs Act 2005	2
Serious Organised Crime and Police Act 2005	26
Identity Cards Act 2006	6
Racial and Religious Hatred Act 2006	6
Terrorism Act 2006	8
Immigration, Asylum and Nationality Act 2006	2

Non-custodial Sentences

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to the answer of 3 July 2006, *Official Report*, columns 880-82W, on non-custodial sentences, for what reasons reparation is not included in orders other than the action plan order and the reparation order. [86415]

Mr. Sutcliffe: The table referred to in my answer of 3 July 2006, *Official Report*, columns 880-82W, gave general descriptions of the community sentences available for dealing with young offenders. Reparation, victim awareness and repairing the harm caused by offending are common threads running throughout the community sentencing framework. In practice all community orders offer the sentencer the flexibility to attach elements of reparation either within the order itself or in combination with another order.

Passports (Secure Storage)

David Davis: To ask the Secretary of State for the Home Department what recent instructions he has issued to ensure that *(a)* passports and *(b)* other key documents are never left unsupervised and are always held in secure storage. [73704]

John Reid: Instructions were issued to all asylum staff in February of this year in relation to retaining documents. The relevant instruction is APN 02/2006 and can be found on the IND external website.

Police Stations

Mr. Pelling: To ask the Secretary of State for the Home Department how many holding cells there are in police stations in each London borough; and how many of these cells are closed for refurbishment. [84663]

Mr. McNulty: The provision and closure of cells are operational matters for the Commissioner of the Metropolitan Police and the City of London Police, the Metropolitan Police Authority and the City of London.

Prisons

Mr. Andrew Turner: To ask the Secretary of State for the Home Department how many people who have been released on licence from each prison on the Isle of Wight are no longer in touch with the authorities monitoring their whereabouts. [67931]

Mr. Sutcliffe *[holding answer 4 May 2006]:* The information requested is not held centrally and to obtain it would incur disproportionate cost.

All offenders released on licence are subject to six standard licence conditions: three of which require them to 'keep in touch with your supervising officer', 'permanently to reside at an address approved by your supervising officer' and 'notify him or her in advance of any proposed change of address or proposed stay (even for one night) away from that approved address'. In the event that any such licence conditions are breached, the offender is liable to be recalled to prison upon the recommendation of the probation officer in order to protect the public. Once the licence is revoked and the offender recalled, the police are notified, in order to ensure a swift return to custody.

Mr. Lidington: To ask the Secretary of State for the Home Department how many new places in *(a)* closed prisons and *(b)* young offender institutions his Department is planning to bring onstream during the 2006-07 financial year; and if he will make a statement. [74796]

Mr. Sutcliffe: 300 additional places in closed adult male establishments are planned for delivery in 2006-07 under the National Offender Management Service building programme.

In addition, the Youth Justice Board has commissioned and funded a 14-place juvenile unit at Her Majesty's prison Foston Hall which will shortly be available for use.

David Davis: To ask the Secretary of State for the Home Department how many foreign prisoners are detained in open prisons. [77121]

John Reid: Towards the end of May 2006 there were around 300 prisoners in open prisons in England and Wales with a foreign nationality. The figures have been drawn from the prisons' administrative IT systems.

Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system.

Foreign nationals are subject to the same risk assessment process as any other prisoner before allocation to open conditions. The overriding purpose of the security classification must be to ensure that prisoners are retained in custody with a level of security that is consistent with the need to protect the public. Following a review of the criteria for the categorisation of foreign national prisoners and their allocation to open conditions in May 2006, the Prison Service concluded that no changes were required of the policy. However, Governors have been instructed to take into account the impact of recent public statements regarding the likelihood of deportation on the risk of absconding when considering foreign national prisoners for Category D status and allocation to open conditions.

All life-sentenced foreign nationals and those sentenced for serious offences were returned from open conditions to closed during May and have been subject to an individual risk assessment in consultation with the Immigration and Nationality Directorate before a final decision as to whether or not they are suitable to return to open conditions.

Nick Herbert: To ask the Secretary of State for the Home Department pursuant to his answer of 8 June 2006, *Official Report*, column 819W, on prisons, what category of offences had been committed by each of the non-foreign national prisoners who absconded from Ford prison in 2006; what the term of the prison sentence was in each case; on what date each escaped; and whether the prisoner remains at large in each case. [77859]

Mr. Sutcliffe *[holding answer 15 June 2006]:* The detailed information requested may be obtained only at a disproportionate cost. However, I can advise that, as at 18 July, only two of the non-foreign national prisoners who absconded from Ford open prison in 2006 remain unlawfully at large.

Mr. Garnier: To ask the Secretary of State for the Home Department pursuant to the answer of 3 May 2006, *Official Report*, column 1623W, to the hon. Member for North-West Norfolk (Mr. Bellingham) on prisons, when the report on reconviction analysis being conducted by the Research, Development and Statistics Unit will be published. [84673]

Mr. Sutcliffe: The report will be published on the RDS website (http://www.homeoffice.gov.uk/rds/onlinepubs1.html) by the end of 2006.

David T.C. Davies: To ask the Secretary of State for the Home Department what the budget is per person per day for meals for prison inmates. [85100]

Mr. Sutcliffe: There is no set budget for prisoner meals. Governors have the freedom to decide what proportion of the budget allocated to them should be spent on food for prisoners. For 2004-05, the latest period for which data is available, the average public sector Prison Service daily food cost was £1.87.

Private Security Industry Act

Mr. Harper: To ask the Secretary of State for the Home Department what estimate his Department made of the number of people that might request each type of licence under the Private Security Industry Act 2001 prior to the start of applications. [76850]

Mr. Coaker: As stated in the Government's White Paper (Proposals for Regulation of the Private Security Industry in England and Wales, CM 4254) in March 1999, accurate statistics on the size of the private security industry have always been difficult to obtain. The most recent estimate contained in the White Paper was that in 1994 there were 162,000 licensable people, based on research by the Policy Studies Institute.

In their 2004-05 business plan the Security Industry Authority (SIA) estimated that the total licensable population was just over 221,000. The SIA has continued to update its estimates in the light of operational experience and the current estimate is that about 183,000 individuals require a licence. The majority of this change is due to the revision of the estimated size of the door supervisor sector. A breakdown of these figures by each type of licence is in the following table.

Sector	*2004-05 business plan estimates*	*Latest estimate*
Door supervisors	95,000	62,000
Security guards	125,000	120,000
Vehicle immobilisers	1,200	1,200
Total	221,200	183,200

Probation Service

Mark Williams: To ask the Secretary of State for the Home Department when he expects to be in a position to introduce legislation to reform the probation service. [86353]

Mr. Sutcliffe: We set out our plans for the probation service in "Working with probation to protect the public and reduce re-offending" which was published on 30 March. We will introduce the necessary legislation as soon as parliamentary time allows.

Public Enquiry Office

David Davis: To ask the Secretary of State for the Home Department what recent instructions he has issued for CCTV coverage of the Public Enquiry Office counter to be improved. [73706]

John Reid: The recommendation has been accepted and consideration of implementation is ongoing.

David Davis: To ask the Secretary of State for the Home Department what steps he has taken since the publication of the report on investigations into allegations about the Public Enquiry Office in Croydon to find out the views of asylum applicants on the allegations made by Mr. Pamnani. [73696]

John Reid: The recommendation has been accepted and consideration of implementation is ongoing.

David Davis: To ask the Secretary of State for the Home Department what guidance he issued to Mr. Tim Gbedemah concerning the persons from whom he should take evidence during the investigation into allegations about the Public Enquiry Office in Croydon. [73698]

John Reid: I am advised that Mr. Gbedemah's terms of reference are set out at paragraph two of his report. No specific guidance was given to Mr. Gbedemah as to whom he should and should not interview.

David Davis: To ask the Secretary of State for the Home Department what plans he has to introduce a new code of conduct for PEO staff; when he will publish it; what *(a)* training and *(b)* guidance has been given to PEO staff on the new code; to what extent the Immigration and Nationality Directorate's Security and Anti-Corruption Unit is delivering the training; and what guidance the code will contain on non-work related contact with applicants. [73711]

John Reid: The recent investigation into events at the PEO, carried out by David Stephens and Tim Gbedemah, made a number of recommendations, including that consideration be given to putting in place a code of conduct for PEO staff.

This recommendation was accepted, and is currently being acted upon. We hope to have a draft code of conduct available for consultation with staff in July. The document will contain guidance on non-work related contact with applicants. The detail is currently being developed.

IND's Security and Anti-Corruption Unit and PEO managers will jointly deliver the training to new and existing staff.

Road Accidents (Mobile Telephones)

Grant Shapps: To ask the Secretary of State for the Home Department how many *(a)* deaths, *(b)* serious incidents and *(c)* other accidents have been caused by persons driving while using hand-held mobile telephones since 1 December 2003, broken down by police force area. [83519]

Dr. Ladyman: I have been asked to reply.

The information available relates to factors that are judged by the police as having contributed to a road accident in which someone was injured. The table shows the number of personal injury road accidents reported to the police in 2005 that have "Driver using mobile phone" assigned as a contributory factor, broken down by severity, as well as the resulting fatalities. This information is not available for earlier years.

Fatalities in, and the number of, accidents where "Driver using a mobile phone" was reported as a contributory factor: 2005

	Fatalities	*Fatal accidents*	*Serious accidents*	*Slight accidents*

Road Safety

Chris Grayling: To ask the Secretary of State for the Home Department how many motorists have *(a)* three, *(b)* six and *(c)* nine penalty points on their licences. [82442]

Mr. Coaker: The information is not collected by my Department.

I have been advised that it is available only at disproportionate cost from the Driver and Vehicle Licensing Agency (DVLA).

Schlumberger Sema Ltd.

Mark Fisher: To ask the Secretary of State for the Home Department how many times his departmental officials have met Schlumberger Sema Ltd. [11150]

Mr. Byrne: Departmental officials in the Home Office Immigration and Nationality Directorate (IND) and Schlumberger Sema Ltd have had a series of commercial relationships since 1996.

Security Industry Authority

Dr. Kumar: To ask the Secretary of State for the Home Department what his estimate is of the number of unregistered door supervisors and security guards operating in *(a)* each English region and *(b)* the Tees Valley. [63132]

Mr. Coaker: It is not possible to calculate the numbers of licensed or unlicensed security guards and door supervisors on a regional basis. The national figures for England and Wales are as follows. The Security Industry Authority (SIA) estimate that there are about 183,000 people who require a licence to work in the private security industry. As of 5 July, the SIA had accepted 162,452 complete applications, granted 119,653 licences, and refused 4,231. The remaining 38,568 applications were in the SIA's processing system. On that date there were also 213 companies with Approved Contractor status legally able to deploy about 15,450 of their staff while their licence applications were being processed.

Mr. Beith: To ask the Secretary of State for the Home Department what his latest estimate is of the number of people employed and working in the security industry who have not yet received a Security Industry Authority licence. [71953]

Mr. Coaker: The Security Industry Authority's (SIA's) most recent estimate is that about 183,000 individuals require a licence to work in the private security industry. As at 5 July, the SIA had accepted 162,452 complete applications, granted 119,653 licences, and refused 4,231. The remaining 38,568 applications were in the SIA's processing system. On that date there were also 213 companies with Approved Contractor status legally able to deploy about 15,450 of their staff while their licence applications were being processed.

David T.C. Davies: To ask the Secretary of State for the Home Department what recent assessment he has made of the effectiveness of the Security Industry Authority in awarding licences to security personnel; and if he will make a statement. [74129]

Mr. Coaker: The Security Industry Authority (SIA) estimate that there are about 183,000 people who require a licence to work in the private security industry. As of 5 July, the SIA had accepted 162,452 complete applications, granted 119,653 licences, and refused 4,231. The remaining 38,568 applications were in the SIA's processing system. On that date there were also 213 companies with Approved Contactor status legally able to deploy about 15,450 of their staff while their licence applications were being processed.

Paul Holmes: To ask the Secretary of State for the Home Department what estimate he has made of the number of contracted security guards that are currently working without licences. [79301]

Mr. Coaker *[holding answer 21 June 2006]:* The Security Industry Authority's (SIA's) most recent estimate is that about 183,000 individuals require a licence to work in the private security industry. As at 5 July, the SIA had accepted 162,452 complete applications, granted 119,653 licences, and refused 4,231. The remaining 38,568 applications were in the SIA's processing system. On that date there were also 213 companies with Approved Contractor status legally able to deploy about 15,450 of their staff while their licence applications were being processed.

Paul Holmes: To ask the Secretary of State for the Home Department what the average length of time taken to process licence applications for operatives working in the private security industry was from the date the application was submitted to the date the licence was issued, in each month since April 2005. [79304]

Mr. Coaker *[holding answer 21 June 2006]:* The Security Industry Authority (SIA) do not calculate the average processing times for applications. Some, such as those involving overseas criminal records checks, unavoidably take a considerable time. The SIA have a published target of processing 80 per cent. of all applications within six weeks, measured from the date that a properly completed application enters the processing system to the date that a licence is issued.

Since September 2005, there has been a backlog of applications that have been waiting to enter the system. These have added an additional time of between four and six weeks to the process, so it is now taking up to 12 weeks to process most applications.

Paul Holmes: To ask the Secretary of State for the Home Department how many of the licence applications submitted by operatives working in the private security industry *(a)* are currently being processed, *(b)* have been granted and *(c)* were returned to the applicants because they were completed incorrectly. [79305]

Mr. Coaker *[holding answer 21 June 2006]:* On 5 July, the Security Industry Authority (SIA) had 38,568 applications in their processing system, and had granted 119,653 licences. Over the past six months, the average monthly number of incomplete applications returned to applicants has been about 2,800.

Mr. Pickles: To ask the Secretary of State for the Home Department how many licence applications were held for processing by the Security Industry Authority on 1 March. [62302]

Mr. Coaker: 23,413 licence applications were held in the Security Industry Authority's processing system on 1 March 2006.

Greg Clark: To ask the Secretary of State for the Home Department what the average length of time taken was to process applications for Security Industry Authority licences in the latest period for which figures are available. [82490]

Mr. Coaker *[holding answer 4 July 2006]:* The Security Industry Authority (SIA) do not calculate the average processing times for applications. Some, such as those involving overseas criminal records checks, unavoidably take a considerable time. The SIA have a published target of processing 80 per cent. of all applications within six weeks, measured from the date that a properly completed application enters the processing system to the date that a licence is issued.

Since September 2005, there has been a backlog of applications that have been waiting to enter the system. These have added an additional time of between four and six weeks to the process, so it is now taking up to 12 weeks to process most applications.

Greg Clark: To ask the Secretary of State for the Home Department how many applications for Security Industry Authority licences are being processed. [82491]

Mr. Coaker *[holding answer 4 July 2006]:* As of 5 July, the Security Industry Authority had 38,568 applications in its processing system.

Greg Clark: To ask the Secretary of State for the Home Department what steps he is taking to allow applicants for Security Industry Authority licences to work if the processing of their licences is delayed. [82492]

Mr. Coaker *[holding answer 4 July 2006]:* Applicants who have been trained and whose applications are being processed by the Security Industry Authority can be legally deployed under the Licence Dispensation arrangements available to approved contractors. On 5 July there were approximately 15,450 people who could be legally deployed under Licence Dispensation.

Somalia

Martin Linton: To ask the Secretary of State for the Home Department how many Somali nationals arriving on flights from *(a)* Nairobi and *(b)* Addis Ababa claimed asylum at Heathrow in 2005. [84813]

Mr. Byrne: Only locally collated management information, which might be subject to change and does not represent national statistics, is available.

In 2005, a total of 29 persons claiming to be Somali nationals arrived at Heathrow and claimed asylum, of whom 25 travelled to the United Kingdom from Nairobi and four travelled from Addis Ababa.

Staff Discipline

David Davis: To ask the Secretary of State for the Home Department how many officials in his Department *(a)* have been suspended, *(b)* have been dismissed and *(c)* have had their responsibilities significantly changed in each of the last three months. [77076]

John Reid: The data available in respect of *(a)* and *(b)* are set out in the following table. Data for *(c)* could be obtained only at disproportionate cost.

2006	*Suspended*	*Dismissed*
April	4	7
May	8	12
June	2	3

Figures are as of 14 June 2006 and include staff in the central Home Office and the Immigration and Nationality Directorate.

The figures for HMPS could not be obtained except at disproportionate cost.

Staff Misconduct

Mr. Clegg: To ask the Secretary of State for the Home Department how many allegations of staff misconduct have been *(a)* received and *(b)* investigated in each directorate of his Department in each year since 1997; and if he will make a statement. [76919]

John Reid: I am advised that available figures are as follows:

	Directorate		
	Central HO	*IND*	*HMPS*
1997	n/a	n/a	n/a
1998	n/a	n/a	n/a
1999	n/a	n/a	n/a
2000	1	n/a	n/a
2001	14	n/a	1,174
2002	15	n/a	1,373
2003	18	n/a	1,475
2004	13	n/a	1,393
2005	6	114	1,360
2006	10	47	317

Student Visas

Jim Cousins: To ask the Secretary of State for the Home Department how many overseas student visa holders there were in the UK in each of the last five years; and in how many cases in each year the student *(a)* (i) did not register and (ii) failed to attend a course and *(b)* worked more than 20 hours a week. [75224]

Mr. Byrne: The Home Office does not hold central records of student offenders.

Superannuation Liability

Mr. Philip Hammond: To ask the Secretary of State for the Home Department what total amount of employers' normal contributions accruing superannuation liability charge has been accounted for by his Department in each of the last five years for which data are available. [61364]

Mr. Byrne: The amount of employers' accruing superannuation liability charges (ASLC) in respect of members of the Principal Civil Service Pension Scheme is detailed as follows, for the last four years. The figures represent the total ASLC paid by the Home Office, its agencies, non-departmental public bodies and all other public bodies on the Home Office payroll.

The Home Office changed its payroll system during the 2001-02 financial year. To collate ASLC figures for this year would require more manual checking and verification using paper records from the previous payroll system. The information for this year could therefore be provided only at disproportionate cost.

2003-04	226,228,555.12
2002-03	205,645,836.05

Note:
From 1 October 2002 new entrants have been able to opt for a partnership pension account, a stakeholder arrangement with an employer contribution element. Employers' contributions to partnership pension accounts are not included in the above figures.

Translation Services

David Davis: To ask the Secretary of State for the Home Department what the cost was of translation and interpreting services for foreign nationals *(a)* in prisons in England and Wales and *(b)* supervised by the probation service. [77415]

John Reid: Neither the Prison Service nor the probation service separately record this category of expenditure.

Worker Registration Scheme

Mr. Davidson: To ask the Secretary of State for the Home Department pursuant to the answer of 8 February 2006, *Official Report*, column 1280W, on the Worker Registration Scheme, how many workers from EU accession countries are legally working in the UK, without being registered under the Worker Registration Scheme. [75813]

Mr. Byrne: Nationals of the EU accession countries (other than Cyprus and Malta) are not working legally in the UK unless they are registered under the Worker Registration Scheme or are exempt from the requirement to do so. They are exempt if, for example, they have been working legally in the UK for 12 months or if they are working in a self-employed capacity, or are working for less than 30 days.

Mr. Davidson: To ask the Secretary of State for the Home Department how many workers from EU accession countries have *(a)* applied and *(b)* been accepted under the Worker's Registration Scheme since 1 May 2004. [77602]

Mr. Byrne: The latest published Accession Monitoring Report covers the period May 2004 to March 2006 and sets out the number of citizens from the EU Accession countries (A8 nationals) who have applied to register with the Worker Registration Scheme (WRS) during this period. This report is available on the Home Office website at:

http://www.ind.homeoffice.gov.uk/aboutus/reports/accession_monitoring_report

World Cup Tickets

Mr. Don Foster: To ask the Secretary of State for the Home Department how many prosecutions there have been in relation to the touting of tickets to England World Cup 2006 matches *(a)* in England and Wales and *(b)* via internet sites based in England and Wales; how many of these have resulted in convictions; and if he will make a statement. [84971]

Mr. Coaker: This information is not available centrally. Arrest data for ticket-touting offences during 2005-06 football season are currently being collated and will be published later this year. Measures within the Violent Crime Reduction Bill will extend coverage of ticket touting offences to the internet when the unauthorised sale of tickets for a regulated football match takes place within England or Wales.

Young Offenders

Mr. Drew: To ask the Secretary of State for the Home Department (1) how many young people aged 15 to 18 years are in young offender institutions because of breach of an antisocial behaviour order, broken down by institution; [76021]

(2) how many 15 to 18-year-olds are in each young offender institution as a result of breaching an antisocial behaviour order. [81627]

Mr. Sutcliffe: Information is not available in the form requested.

Mr. Garnier: To ask the Secretary of State for the Home Department pursuant to the answer of 4 July 2006, *Official Report*, column 1066W, on young offenders, what mechanisms he uses to assess the progress of arrangements within young offender institutions designed to promote family contact. [84672]

Mr. Sutcliffe: Key policy requirements in relation to maintaining family contact through social visits, correspondence and by telephone are subject to review through local and national audit processes. In addition, establishments are, on occasion, subject to thorough inspection by Her Majesty's Inspectorate of Prisons. Independent monitoring boards are also able to highlight good practice or areas of concern in their annual reports to the Secretary of State. Units accommodating under 18-year-olds are subject to monitoring by the Youth Justice Board for England and Wales.

Detailed information on the arrangements made by individual young offender institutions to promote and evaluate family contact is not held centrally.

Youth Offending Initiatives (Funding)

Ann Coffey: To ask the Secretary of State for the Home Department (1) how much of the £500,000 allocated in June 2005 to fund individual support orders has been spent; [78400]

(2) how many youth offending teams have submitted plans to the Youth Justice Board for 2006-07 which include provision for individual support orders in the budget; and what guidance he plans to issue to the Youth Justice Board on plans which do not include such provision. [78404]

Mr. Sutcliffe *[holding answer 21 June 2006]:* The £500,000 allocated in June 2005 was available to the Youth Justice Board (YJB) until 31 March 2006 to fund individual support orders (ISOs) delivered by local youth offending teams (YOTs) to support juveniles with antisocial behaviour orders. 31 applications for funding in respect of ISOs have been received by the YJB for a total of £62,000 to 31 March 2006.

As part of their plans for using the £45 million prevention budget for the period to March 2008, seven YOTs have included specific schemes for ISO interventions. All YOTs, however, are required to support interventions in support of ISOs whether or not there is a specific scheme. Such support may be delivered through another programme being funded through an allocation from this budget, such as a youth inclusion programme or a youth inclusion and support panel, or it may be provided through an existing programme. The use of ISOs is being actively promoted by the YJB and the Home Office, as an aid to helping YOTs fulfil their role in tackling antisocial behaviour, and action is in hand to ensure a better uptake.

Youth Rehabilitation Programmes

Mr. Lancaster: To ask the Secretary of State for the Home Department what his Department's budget is for rehabilitation programmes for youth offenders in 2006-07. [84889]

Mr. Sutcliffe: In 2006-07 the Youth Justice Board for England and Wales (YJB) will receive a total of £96 million from the Home Office to be directed towards rehabilitation programmes. This sum comprises £34 million for intensive supervision and surveillance programmes (ISSP) and intensive fostering, £19.5 million for substance misuse programmes, £8.5 million for community education programmes and approximately £34 million for education programmes across the whole of the custodial estate.

Youth offending teams (YOTs) are primarily funded locally by their statutory partners as well as by the YJB and a proportion of that local funding will also be directed to rehabilitation programmes.

Written Answers to Questions

Wednesday 19 July 2006

LEADER OF THE HOUSE

House of Lords

Mr. Amess: To ask the Leader of the House on how many occasions the Government were defeated in the House of Lords during this Session; on how many occasions the effect of defeats involving legislation were reversed by this House; and if he will make a statement. [85391]

Mr. Straw: There were 51 such occasions up to 14 July in the current Session. This figure covers Divisions in which Government Tellers were appointed.

There is no clear definition of a reversal of the effect of a defeat, since the response from this House, as well as outright acceptance or rejection of a Lords amendment, includes a range of possibilities such as partial acceptance or related amendments elsewhere in the Bill.

Parliamentary Answers

Mr. Andrew Turner: To ask the Leader of the House what steps he has taken since his appointment to improve the *(a)* timeliness and *(b)* content of parliamentary answers; and what information he collects on the percentage of answers which are given later than (i) the day named and (ii) the conventional deadline for written questions. [86593]

Mr. Straw: Since my appointment I have made clear to the House the importance I attach to the timeliness and quality of responses to parliamentary questions tabled in the House. As I have indicated to the House, I have raised the matter directly with ministerial colleagues.

Ministers recognise their obligation under the ministerial code to give accurate and truthful information to Parliament and to be as open as possible with Parliament. Ministers also recognise the requirements that a written question tabled for a named day should receive an answer on that day and an ordinary written question should receive a substantive response within a working week of it being tabled.

My office offers guidance to other Departments about the handling of responses to parliamentary questions. Departments are responsible for keeping their own records on the timeliness of answers and provide this information to the House when requested by the Select Committee on Public Administration or through Members' questions. I also intend regularly to monitor these statistics from the start of the next Session.

Short Money

Mr. Dismore: To ask the Leader of the House (1) how many members of staff are paid for out of Short money on behalf of the Leader of the Opposition; how many staff were paid for from this allowance in each of the previous four years; and if he will make a statement; [86152]

(2) for what purposes Short money may be used; and if he will make a statement. [86153]

Mr. Straw: Short money is given to Opposition parties to help them to carry out their parliamentary business. This can include research associated with Front-Bench duties, developing and communicating alternative policies to those of the Government and shadowing the Government's Front Bench. There is specific provision for meeting costs necessarily incurred in running the office of the Leader of the Opposition. Each Opposition party has to provide a certificate from an independent auditor each year to the effect that all the expenses claimed were in respect of the party's parliamentary business. No information is available to me about the number of staff employed by the Leader of the Opposition who are paid from Short money.

HOUSE OF COMMONS COMMISSION

Parliamentary Website

Mrs. Spelman: To ask the hon. Member for North Devon, representing the House of Commons Commission if he will ensure that the parliament.uk website advanced search function displays all document types that have been published since May; and what steps are being taken to remedy technical problems with the site. [85659]

Nick Harvey: As the advisory notice on the advanced search page makes clear, accurate searches of all document types since May cannot currently be guaranteed, although the general search facility is fully operational. Only the content of the *Official Report* is affected, and remedial work is under way to restore full functionality to the advanced search function in the near future.

World Squares for All Group

Mr. Greg Knight: To ask the hon. Member for North Devon, representing the House of Commons Commission on what basis staff from the Parliamentary Works Directorate sit as members of the client team of the World Squares for All group; what remit staff have been given in connection with this work; and under whose authority staff are members of the group. [85958]

Nick Harvey: The World Squares for All steering group overseeing the feasibility study on Parliament Square includes representatives from a number of bodies who have an interest in Parliament Square and its environs. All the bodies are represented by officials rather than elected members.

Those represented include Westminster City Council, the Greater London Authority, English Heritage, the Royal Parks Agency, the Parliamentary Estate, Transport for London, the Cabinet Office and Westminster Abbey.

The Director of Estates represents the Parliamentary Estate on the World Squares for All steering group. His role is to act as liaison between the parliamentary authorities and the steering group. He ensures that the steering group is made aware of the impact of any proposals or potential issues and their impacts and effects on the Parliamentary Estate, ensuring these are fully understood by the group and their consultants.

TRANSPORT

Biofuels

Anne Snelgrove: To ask the Secretary of State for Transport what support his Department is making available for home-grown biofuel production in Swindon. [86293]

Dr. Ladyman: I refer my hon. Friend to the answer I gave her on 27 June 2006, *Official Report*, columns 257-8W.

Diesel Spills

Anne Snelgrove: To ask the Secretary of State for Transport if he will discuss with oil companies and retailers measures that could be taken to reduce the risk of diesel spills to motorcycle users. [86274]

Dr. Ladyman: The Government's Motorcycling Strategy sets out how we are working closely with a range of interested organisations to develop a clear understanding of the road safety risk of diesel spillage and to develop solutions. This is being taken forward in the Motorcycle Technical, Engineering and Environmental task group and the Traffic Management, Planning and Transport Policy task group, within which motorcycle users are already involved. I would welcome the involvement of oil companies and retailers and will ask the groups to see how this could be encouraged.

Driving Standards Agency

Mr. Carmichael: To ask the Secretary of State for Transport what guidance his Department has issued to the Driving Standards Agency in the last two years. [85808]

Dr. Ladyman: The Department for Transport has given guidance on the following topics to the Driving Standards Agency within the last two years:

Business Planning

Performance Management

Risk Management

Value for Money

Legal advice

Driving Tests

Mr. Carmichael: To ask the Secretary of State for Transport what the *(a)* original estimate was and *(b)* most recent estimate is of the cost of the planned driving test supercentres. [85823]

Dr. Ladyman: The costs of the Multi-Purpose Test Centres project were originally estimated at £60 million; the latest version of the business case shows that they have reduced to £55 million.

Mr. Carmichael: To ask the Secretary of State for Transport what progress has been made with the programme of new driving test supercentres; how many are planned; how many are open; in which locations; and what the timetable is for future sites for which land purchases are required. [85824]

Dr. Ladyman: A total of 68 Multi-Purpose Test Centres (MPTCs) are planned throughout England, Wales and Scotland. To date, sites have been acquired for seven new MPTCs at Shrewsbury, Newport, East Lothian, Gloucester, Ipswich, Upminster and Swansea.

Nineteen sites are forecast to become operational before 31 March 2007. None of the new test centres has yet opened, but the centre at Quedgeley in Gloucester will become operational during September 2006.

All the remaining sites are planned to be operational by October 2008. This will meet the implementation date of the European Community Directive 2000/56/EC.

Mr. Carmichael: To ask the Secretary of State for Transport how many driving test appointments were *(a)* kept, *(b)* cancelled by the test centre and *(c)* cancelled by those taking the test in each of the last five years (i) in total and (ii) broken down by (A) region and (B) test centre. [85811]

Dr. Ladyman: The following table shows the number of driving test appointments kept and cancelled by the Driving Standards Agency (DSA) for the last five years, for each DSA region and nationally. We do not hold records of volumes of tests cancelled at test centre level or those cancelled by customers.

	Applications	*Cancelled*	*Kept*
2001-02			
Nationally	1,504,892	21,469	1,483,423
London	359,256	7,018	352,238
Midlands	396,310	6,307	390,003
Wales	264,601	3,215	261,386
Northern	365,006	3,964	361,042
Scotland	120,042	965	119,077
2002-03			
Nationally	1,633,249	32,404	1,600,845
London	375,495	5,783	369,712
Midlands	436,990	14,211	422,779
Wales	295,995	4,371	291,624
Northern	396,944	6,811	390,133
Scotland	127,825	1,228	126,597

	Applications	Cancelled	Kept
2003-04			
Nationally	1,483,423	56,222	1,427,201
London	352,238	12,134	340,104
Midlands	390,003	21,461	368,542
Wales	261,386	7,116	254,270
Northern	361,042	13,826	347,216
Scotland	119,077	1,685	117,392
2004-05			
Nationally	2,019,042	50,921	1,968,121
London	449,034	20,390	428,644
Midlands	546,874	13,411	533,463
Wales	362,470	5,261	357,209
Northern	518,532	11,144	507,388
Scotland	142,132	715	141,417
2005-06			
Nationally	2,184,289	43,391	2,140,898
London	490,474	18,733	471,741
Midlands	585,842	10,233	575,609
Wales	399,346	6,441	392,905
Northern	548,673	6,737	541,936
Scotland	159,954	1,247	158,707

All test types are included, except for 2003-04 and 2005-06 when Approved Driving Instructor qualifying tests are excluded. This is because DSA's targets for keeping appointments did not distinguish between test types in the other years.

Mr. Carmichael: To ask the Secretary of State for Transport what estimate he has made of the costs associated with the cancellation of a driving test appointment. [85812]

Dr. Ladyman: During the year 2005-06, the average compensation payment made by the Driving Standards Agency (DSA) for cancelling a car test was about £35. The total paid in compensation was some £311,000.

Mr. Carmichael: To ask the Secretary of State for Transport what discussions he has had with the Driving Standards Agency on the hazard perception test; and if he will place in the Library copies of correspondence with the agency in relation to this issue. [85807]

Dr. Ladyman: Department for Transport Ministers have frequent meetings with Driving Standards Agency officials, as with officials from other parts of the Department, to discuss a range of issues.

Mr. Carmichael: To ask the Secretary of State for Transport what research his Department has conducted into the effectiveness of the hazard perception test as part of the driving test. [85809]

Dr. Ladyman: In advance of the introduction of the hazard perception test the Department commissioned extensive research, including the following:

1998—The effects of hazard perception training on the development of novice driver skills. DETR Road Safety Research Report No. 4.

2000—Novice drivers' safety. DETR Road Safety Research Series No.2.

2002—The development of hazard perception testing. TRL Report TRL558.

Copies of the two DETR reports have been placed in the Libraries of the House. All reports are available from the DfT website (www.dt.gov.uk).

The Department is currently conducting further research which will evaluate the effectiveness of the hazard perception test.

Eurostar

Chris Grayling: To ask the Secretary of State for Transport where the unused regional Eurostar trains are stored; and what the cost to public funds has been of the unused trains. [82342]

Derek Twigg: The regional Eurostars are not in store. Five are in the course of modification and the other two are being used for testing of the Channel Tunnel Rail Link.

Hastings to Bexhill Link Road

Gregory Barker: To ask the Secretary of State for Transport what assessment he has made of the environmental impact of the proposed Hastings to Bexhill link road. [86516]

Dr. Ladyman: All major schemes are assessed against the Government's five overarching objectives of safety, environment, economy, integration and accessibility. The environmental impact of this scheme was considered before provisionally approving the Bexhill to Hastings link road in the December 2004 local transport capital settlement.

Overseas HGVs

Mr. Hoyle: To ask the Secretary of State for Transport what recent estimate he has made of the number of heavy goods vehicles from overseas using roads in England and Wales. [86120]

Dr. Ladyman: Estimates of the number of foreign registered heavy goods vehicles on roads in Britain are not available. However, estimated numbers leaving the UK are published in table 1 of the quarterly bulletin, "Road Goods Vehicles Travelling to Mainland Europe". A copy of this bulletin is available on the DFT website at:

http://www.dft.gov.uk/stellent/groups/dft_transstats/documents/page/dft_transstats_611744.hcsp

Transport Operational Command Unit

Mr. Davey: To ask the Secretary of State for Transport how many arrests by the Metropolitan Police's Transport Operational Command Unit have led to successful prosecutions. [85475]

Mr. McNulty: I have been asked to reply.

An accurate figure showing the number of successful prosecutions resulting from Transport Operational Command Unit (TOCU) specific arrests is not available.

The TOCU covers all London boroughs. In the 2005-06 planning year TOCU police officers arrested 7,952 suspects. They were all processed through one of the 32 Borough Operational Command Unit criminal justice units covering the areas of arrest.

Railways

Chris Grayling: To ask the Secretary of State for Transport which stations will have fewer stopping services *(a)* under new franchise agreements completed by his Department since it took over responsibility for franchising from the Strategic Rail Authority and *(b)* under the specifications for new franchise agreements which are currently subject to a tendering process. [82308]

Derek Twigg: The Department for Transport completed franchise agreements for the Great Western, Thameslink/Great Northern and Integrated Kent franchises in December 2005.

Present service levels are contained in the National Rail timetable published by Network Rail. Service levels to be provided under the Greater Western franchise with effect from December 2006 are set out in the consultation timetable published by First Great Western in January 2006, as amended by the operator in announcements on 3 April and 15 June 2006. No changes to Thameslink/Great Northern services are proposed. Future changes to services in the Integrated Kent franchise are set out in briefing documents published on the Department's website.

The South Western franchise tenders have been received. The detailed specification for this is available on the Department's web site.

The specification for the new Cross Country, West Midlands and East Midlands franchises is still being prepared and will not be finalised until October 2006.

Chris Grayling: To ask the Secretary of State for Transport what the average age is of the rail rolling stock operated by each train operating company. [85564]

Derek Twigg: I refer the hon. Member to my answer of 24 January 2006, *Official Report*, columns 1990-2W to the hon. Member for Rochdale (Paul Rowen). The average age has not changed materially since this date.

Chris Grayling: To ask the Secretary of State for Transport what estimate he has made of the potential total saving from the Government's decision to specify a reduction in the number of services on some lines and to some stations in the First Great Western franchise area as part of the franchise renewal process. [85569]

Derek Twigg: The subsidy/premium profile for the Greater Western franchise has been published on the Department's website. This can be compared with the subsidy and premiums associated with the former constituent franchises (First Great Western, First Great Western Link and Wessex Trains) in 2005-06, published by the Office of Rail Regulation in its document "National Rail Trends Yearbook" and is available on its website.

Mr. Lancaster: To ask the Secretary of State for Transport how many and what percentage of trains in each franchise were delayed in the last year for which figures are available; and what average number of trains per day were delayed in each franchise. [85804]

Derek Twigg: The information is not held by the Department in the format requested.

Mr. Carmichael: To ask the Secretary of State for Transport how many *(a)* incidents there were of and *(b)* prosecutions there were for (i) vandalism and (ii) trespass on railway lines in each British Transport police area in relation to (A) adults and (B) juveniles in each of the last five years. [85814]

Derek Twigg: This information is not held by the Department for Transport. Information relating to vandalism and trespass on railway lines is held by the British Transport police who can be contacted at: British Transport police, 25 Camden Road, London NW1 9LN, e-mail: general.enquiries@btp.pnn.police.uk.

Mr. Carmichael: To ask the Secretary of State for Transport how many incidents of arson on the railways there have been since April 2003, broken down by *(a)* train operating company and *(b)* route. [85815]

Derek Twigg: This information is not held by the Department for Transport. Information relating to arson on the railways is held by the British Transport police who can be contacted at: British Transport police, 25 Camden Road, London NW1 9LN, e-mail: general.enquiries@.btp.pnn.police.uk.

Mr. Carmichael: To ask the Secretary of State for Transport how many *(a)* incidents there were of and *(b)* prosecutions there were for (i) criminal damage and malicious mischief and (ii) trespass on rail lines in relation to (A) adults and (B) juveniles in each of the last five years, broken down by region. [85816]

Derek Twigg: This information is not held by the Department for Transport. Information relating to criminal damage and trespass on railway lines is held by the British Transport police who can be contacted at: British Transport police, 25 Camden Road, London NW1 9LN. E-mail: general.enquiries@btp.pnn.police.uk.

Road Safety

Sir Peter Soulsby: To ask the Secretary of State for Transport how many road deaths there have been in the Leicester city council area in each of the last five years. [86141]

Dr. Ladyman: The number of fatalities in personal injury road accidents in the City of Leicester in each year from 2001 to 2005 is shown in the following table.

Fatalities in City of Leicester: 2001-05

	Number
2001	10
2002	4
2003	7
2004	11
2005	10

Sir Peter Soulsby: To ask the Secretary of State for Transport how many speed cameras there are in *(a)* the Leicestershire county council area and *(b)* in Leicester city. [86142]

Dr. Ladyman: The table shows the number of speed camera sites, broken down by type, which are operated by the Leicestershire Safety Camera Partnership.

	Leicestershire	Leicester city	Total
Fixed	8	7	15
Mobile	43	22	65
Total	51	29	80

There may be several camera housings contained within one site. The police have the discretion to enforce speed limits outside the national safety camera programme, and this could happen anywhere on the road network.

Mr. Evennett: To ask the Secretary of State for Transport how many people were *(a)* killed and *(b)* injured in road traffic accidents in (i) the London borough of Bexley and (ii) Greater London in each of the last five years. [86223]

Dr. Ladyman: The number of *(a)* fatalities and *(b)* injuries in (i) the London borough of Bexley and (ii) Greater London resulting from personal injury road accidents reported to the police[1] in each of the last five years is given in the following table.

Number of fatalities and injuries in personal injury road accidents[1] in Bexley and Greater London: 2001-2005

	Bexley		Greater London	
	Fatalities	Injured[2]	Fatalities	Injured[2]
2001	8	892	300	44,322
2002	8	976	281	41,227
2003	4	762	272	38,205
2004	2	730	216	34,365
2005	6	660	214	31,691

[1] Reported to the police
[2] Includes serious and slight injuries.

Street Lighting

Mr. Drew: To ask the Secretary of State for Transport what research his Department has *(a)* undertaken and *(b)* commissioned on the impact on road safety of removing or restricting the use of street lighting in rural and semi-rural areas. [85886]

Dr. Ladyman: Research has not been undertaken or commissioned by this Department specifically on the impact on road safety of removing or restricting the use of street lighting in rural or semi-rural areas.

The Highways Agency is currently reviewing the technical standard that sets the criteria for provision of road lighting on the strategic road network, including the road safety benefits.

Train Overcrowding

Mr. Hancock: To ask the Secretary of State for Transport what steps he is taking to reduce overcrowding on trains; and if he will make a statement. [77469]

Derek Twigg: We are currently seeing huge growth in the railways, with more than 1 billion passengers carried last year, and this is set to continue. To help meet this challenge we are investing record amounts in the network.

Focus is being given to improving timetabling, infrastructure maintenance and renewals and other factors that can impact on reliable delivery of train services, which in turn will impact on crowding levels. We are also considering different measures to increase the capacity of the network, from train layout and length, turnaround times and infrastructure improvements. Major investment programmes such as the West Coast Main Line modernisation project have already seen capacity improvements.

It is for the train operating companies to take decisions about the deployment of rolling stock. We will continue to review train counts and train plans to assess whether resources are being deployed effectively.

Transport Innovation Fund

Mr. Geoffrey Robinson: To ask the Secretary of State for Transport what role the Transport Innovation Fund will play in generating sustainable increases in national productivity. [84375]

Dr. Ladyman: Through its productivity strand the Transport Innovation Fund will support national, inter-regional, regional, inter-urban (and exceptionally local) transport schemes which are expected to make a substantial and sustainable contribution to national productivity.

Wide Loads

Mr. Hoyle: To ask the Secretary of State for Transport (1) what guidelines his Department has issued to *(a)* police constabularies and *(b)* the Highways Agency regarding the movement of wide loads on roads; [86124]

(2) if he will introduce guidelines to police constabularies and the Highways Agency that wide loads should not be moved during peak times on motorways and major trunk roads. [86125]

Dr. Ladyman: The Department has not issued any specific guidelines.

We have published a code of practice on the self-escorting of abnormal loads, prepared jointly by the Department, the Highways Agency, the police and haulage associations. It encourages scheduling movements at off-peak times when there is less traffic.

The Highways Agency and the police would normally restrict the movement of wide loads that have a significant impact on other road users to times which cause minimum disruption. However, disruption to other road users is not the only consideration. Other factors, such as safety, security and environmental issues (such as noise and disturbance in residential areas) can influence the timetabling of movements.

As there is already a general acceptance that loads should be moved at off-peak times I do not feel that there is a need to issue any specific guidelines. However, this remains under review.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what criteria he has agreed with the greyhound racing industry in order to allow it to self-regulate in terms of animal welfare; and if he will make a statement. [86588]

Mr. Bradshaw: DEFRA has set up a Greyhound Working Group to examine the welfare aspects of greyhound racing and to offer advice to Ministers and officials on future regulations and a code of practice.

The group has yet to make any recommendations. Our preference is that, whenever possible, welfare standards should be regulated by the industry. Self-regulation must be open and auditable, with the standards set and the effectiveness of the enforcers monitored by central Government.

Diversity Action Plan

Philip Davies: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent on the Countryside Agency's Diversity Review; how much he expects the consultation "Outdoors for All?" draft diversity action plan will cost; and how much has been allocated to the running costs of the diversity action plan for each year of its planned duration. [85470]

Barry Gardiner: Between 2002 and 2005 the Countryside Agency spent some £1.74 million on the diversity review. In 2006-07 spending on the consultation exercise on the draft diversity action plan is expected to be in the region of £1 million.

No firm figures are available on costs from 2007 onwards. A draft action plan is currently the subject of a public consultation exercise, and until that has been completed no conclusions can be reached about the activities to be undertaken during the 10-year life of the plan or their cost. The agency has estimated that the cost of pursuing the draft action plan might be in the region of £25 million over its 10-year life.

Energy Efficiency

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the effect on energy consumption of energy efficiency measures over the last 10 years. [79694]

Ian Pearson: Figures for the effect on energy consumption within the UK by energy-saving measures for this particular period are not readily available. However, for the climate change programme review, we prepared estimates of the effects on carbon emissions for the household sector in the 1990s and separately for the present decade.

The Government estimate that energy efficiency improvements in the household sector in the 1990s would have contributed around 4.5 million tonnes of carbon (MtC) of emissions reductions, that is, some 12 per cent. of 1990 emissions. At the same time, growth in demand for underlying energy services—warmer homes, hot water—would have increased emissions by 11.5 MtC; the increase in the use of gas for generating electricity instead of coal in the 1990s, which reduced emissions from power stations, and so reduced the associated emissions from electricity use in homes, businesses, etc, would have decreased emissions by 8 MtC; and smaller factors, mainly fuel switching by householders and changes to external temperatures, would have contributed a further 1 MtC of reductions. The overall effect on emissions was a net reduction of around 2.5 MtC.

In the present decade, before the effects of policies are included, we estimate that background energy efficiency would save a further 4.5 MtC. Increasing demand for energy services, together with the effects of the other factors described earlier, means that the net overall reduction in this period would be approximately 0.3 MtC.

The estimated effect of all the energy efficiency policies for households set out in the new UK climate change programme 2006, is an additional reduction of 4.8 MtC by 2010. Most of these savings are expected to be delivered between 2005 and 2010, through tighter building regulations and further activity under the energy efficiency commitment.

Data are not available to conduct similar analyses for the industry and service sectors, but the contribution of energy efficiency is expected to be similar in percentage terms.

Environment Agency

Dr. Desmond Turner: To ask the Secretary of State for Environment, Food and Rural Affairs what the Environment Agency's outstanding borrowing is under sections 48 to 50 of the Environment Act 1995; and how much of that borrowing is in relation to meeting obligations related to its navigation responsibilities. [86362]

Barry Gardiner: The Environment Agency has no outstanding borrowing. Its financial memorandum is very restrictive as to the circumstances under which its borrowing powers can be exercised and those powers have not been exercised. Therefore, there is no outstanding borrowing relating to the agency's navigation function.

Fisheries

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs why the Environment Agency has reduced the fish movement enforcement budget. [84680]

Mr. Bradshaw: The fisheries grant in aid was increased by £3 million a year from 2002, and since 1997 the Government have given around £60 million to the Environment Agency to support its fisheries activities. At present, every Government Department is under instructions to make efficiency savings. This generally involves a fundamental review of the work to be done, and a reprioritisation of our responsibilities and how we manage them. Consequently, the Environment Agency GIA was reduced this year by £400,000.

Of the £5.8 million in GIA, £600,000 is spent on compliance checking and enforcement of fish movements. A reduction in GIA therefore necessitated a reduction in funding for work in this area by £150,000. If sales of rod licences are above target this year the agency may be able to make good part or all of this cut.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs why the Environment Agency has reduced funding for the salmonid improvement project. [84677]

Mr. Bradshaw: The fisheries grant in aid was increased by £3 million a year from 2002, and since 1997 the Government have given around £60 million to the Environment Agency to support its fisheries activities. At present every Government Department is under instructions to make efficiency savings. This generally involves a fundamental review of the work to be done, and a reprioritisation of our responsibilities and how we manage them. As a result the Environment Agency has had its fisheries grant in aid (GIA) reduced this year by £400,000.

Consequently, since the majority of the £5.8 million GIA is spent on salmonid work, a reduction in GIA necessitated a reduction in work in this area and the agency reduced its salmonid improvement project by half, to £250,000.

Recreational Boaters

Dr. Desmond Turner: To ask the Secretary of State for Environment, Food and Rural Affairs which recreational users receive services provided by the Environment Agency on its inland and coastal waterways. [86361]

Barry Gardiner: In line with the Government's policies on health, recreation and social inclusion the Environment Agency has a duty to have regard for all recreational users.

Waste Incineration Directive

Mr. Chaytor: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance he has issued to the Environment Agency concerning the enforcement of the Waste Incineration Directive in relation to the burning of tallow; and if he will make a statement. [86399]

Ian Pearson *[holding answer 18 July 2006]:* I refer my hon. Friend to the answer given on 13 July 2006, *Official Report*, column 1956W.

General guidance on the waste incineration directive's scope, regulatory and technical requirements was updated in June this year and is available at the following address:

http://www.defra.gov.uk/environment/ppc/wasteincin/pdf/wid-guidance-edition3.pdf.

Water Companies

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what the projected rate of return on capital allowed under agreed plans for 2005-10 with Ofwat is for each water company; and what rate of return on capital was achieved by each company in each of the last five years. [81090]

Ian Pearson: Ofwat publishes pre-tax rates of return—measured as operating profit as a percentage of regulatory capital value—in its annual report "Financial performance and expenditure of the water companies in England and Wales". Post-tax returns have not previously been published. The figures in the table have been calculated as operating profit less current tax, as a percentage of regulatory capital value.

At the 2004 price review, Ofwat set a real terms post-tax return of 5.1 per cent. When comparing this to actual returns the comparable rate is the "Vanilla WACC (Weighted Average Cost of Capital)". This is on a real basis and assumes a pre-tax cost of debt and post-tax cost of equity—on this basis the return that Ofwat set was 5.8 per cent.

Water only companies were allowed a premium on the return of 0.3—0.9 per cent.

At price limits, Ofwat takes companies' particular levels of debt into account before allowing for tax.

Post tax return

SOLICITOR-GENERAL

Departmental Publications

Mr. Amess: To ask the Solicitor-General if he will list in date order the *(a)* Green and *(b)* White Papers produced by the Law Officers' Departments since October 2005. [81643]

The Solicitor-General: None.

Identity Theft

Miss McIntosh: To ask the Solicitor-General pursuant to the answer of 16 March 2006, *Official Report*, column 1602, on identity theft, what recent discussions he has had with the Home Secretary on the prosecution of cases of identity theft. [73782]

The Solicitor-General: I have had no recent discussions.

TRADE AND INDUSTRY

Carbon Capture

Lynne Jones: To ask the Secretary of State for Trade and Industry, what research he has commissioned on advanced coal technologies and carbon capture and storage since 1997; and what the cost was of such research. [85228]

Malcolm Wicks: The UK's Cleaner Coal Technology programme started in 1999. Under this programme we have supported 48 collaborative R and D projects on advanced coal technologies through four calls to the value of £13 million as well as a significant number of small R and D projects in collaboration with British Coal Utilisation Research Association for which some £150,000 per year was allocated. In all 174 Cleaner Coal projects have been supported to date, with an additional £3.5 million provided for collaborative Cleaner Coal Technology projects with the USA since then. Under the Department's New Technology programme (the successor to the Cleaner Coal programme) £3.5 million was set aside for carbon abatement (including carbon capture and storage) R and D projects during 2005-06.

We published two reports produced internally investigating carbon capture and storage and the results of these can be found in "The Review of Carbon Capture and Storage in the UK" and "The Carbon Abatement Technology (CAT) Strategy for Fossil Fuel Use", both of which can be found in the Libraries of the House. Both reports can also be found on the DTI Website at

http://www.dti.gov.uk/energy/coal/cfft/co2capture/review.pdf

http://www.dti.gov.uk/energy/coal/cfft/cct/pub/catreportlinked.pdf.

Coal Industry

Mr. Dai Davies: To ask the Secretary of State for Trade and Industry what opportunities will be available via the Coal Forum proposed in the Energy Review to discuss development and export opportunities for clean coal and carbon capture from coal-fired generation. [86420]

Malcolm Wicks: As stated in the "Energy Review Report" further information about the Forum's remit and particulars will be announced shortly. We will need to take views on how the participants in the Coal Forum will wish to address the clean coal and CCS part of their remit.

Departmental Redundancies

Mr. Amess: To ask the Secretary of State for Trade and Industry what plans he has for *(a)* voluntary and *(b)* compulsory redundancies in his Department during the (i) 2006-07 and (ii) 2007-08 financial years; what discussions he has had with the Treasury about providing funding for this; what discussions he has had with trade unions representing officials in his Department about such redundancies; how many officials in his Department have (A) taken voluntary severance and (B) been made redundant in each month since January, broken down by (1) Directorate and (2) grade; what discussions he has had with the Treasury about head count reduction in his Department; when he expects to reach agreement with the Treasury about the next Comprehensive Spending Review; if he will place in the Library copies of advice his Department provides to officials on taking voluntary redundancy; and if he will make a statement. [81239]

Jim Fitzpatrick: This answer applies to the "core" DTI and excludes UKTI and all Executive agencies. The Department has just completed a voluntary early severance/retirement scheme and is currently considering whether any further schemes may be needed in the future to support further reductions in posts.

No formal discussions have been held with HM Treasury about funding of redundancy schemes.

The Department holds regular meetings with the departmental trade union side to discuss potential staff surpluses and proposals for early severance schemes

and is currently discussing with the unions implications for staff of meeting the Department's reduced administration budget.

The following table sets out the number of officials who have taken voluntary severance/retirement and compulsory redundancy since January 2006:

2006	Grade	Voluntary early severance or retirement	Redundancy
January	Range 5 (Executive Officer)	1	—
February	Range 3 (Administrative Officer)	1	—
	Range 6 (Executive Officer)	1	—
	Range 10 (Grade 7)	1	—
March	Range 2 (Administrative Assistance)	4	
	Range 3	1	—
	Range 4 (Administrative Officer)	2	—
	Range 5	2	—
	Range 6	1	15
	Range 7 (Higher Executive Officer)	3	—
	Range 8 (Higher Executive Officer)	2	1
	Range 9 (Senior Executive Officer)	—	2
	Range 10	3	1
	Range 11 (Grade 6)	1	—
April	Senior Civil Service	1	—
June	Range 2	1	—
	Range 3	2	—
	Range 4	1	—
	Range 9	1	—
Total		29	19

Group	Voluntary severance/retirement	Compulsory redundancy
Business/Innovation	13	19
Energy	3	—
Services	7	—
Fair Markets	1	—
Legal	3	—
UKTI	2	—
Total	29	19

The Department is working closely with HMT colleagues on preparations for the next Comprehensive Spending Review which should be resolved by summer 2007. Early discussions with the Treasury have focused on how the Department can make savings across all its budgets, including in the administration of the Department.

Staff considering voluntary early departures are able to access the Cabinet Office pensions website which explains the benefits available under the Civil Service Compensation Scheme, and those accepting are invited to attend either a pre-retirement course or a course covering job search, setting up a business and pursuing self-employment.

Droit de Suite

Keith Vaz: To ask the Secretary of State for Trade and Industry what estimate he has made of the total sum to be paid in 2006 to *(a)* artists and *(b)* artists' families as a result of the Droit de Suite law. [85365]

Jim Fitzpatrick: Artist's resale right is a new right in the UK and it is not possible accurately to predict the amount of royalties that will be paid this year. However, a study conducted before the directive was implemented, based on 2001-02 figures, estimated that, had the right existed during this period, approximately £1.8 million would have been paid to artists for sales of their works. A later study based on the period of March 2003 to February 2004 indicated that the total would be approximately £1.4 million.

In 2006 no money will be paid to the families of artists as the UK has used a derogation within the directive and the right does not currently apply to works where the artist is deceased.

Ethnic Diversity

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry what steps his Department is taking to promote ethnic diversity in the workplace. [85492]

Jim Fitzpatrick: The Department of Trade and Industry (DTI) has a public service agreement (shared with the Department for Work and Pensions) to significantly increase the employment rate of ethnic minorities. DTI is part of the Ethnic Minority

Employment Task force—the Government-wide group tasked with increasing ethnic minority employment.

The DTI also brought in regulations outlawing workplace discrimination on the grounds of religion or belief.

DTI funds ACAS and BusinessLink who both provide advice to businesses on equality issues and increasing ethnic diversity in the workforce.

FIFA World Cup

Mr. Hands: To ask the Secretary of State for Trade and Industry which matches *(a)* he and *(b)* other Ministers in his Department attended at the FIFA World Cup 2006 in Germany in their ministerial capacity; at what cost to public funds; and with what contributions from third party organisations. [83631]

Jim Fitzpatrick: Neither my right hon. Friend the Secretary of State nor any of the Ministers in his Department attended FIFA World Cup 2006 matches in Germany.

Fuel Poverty

Chris Huhne: To ask the Secretary of State for Trade and Industry how many households in *(a)* rural and *(b)* non-rural areas were classified as being in fuel poverty in each year since 1997; and what each figure represents per 1,000 total households. [85941]

Malcolm Wicks: The numbers of urban, suburban and rural households in fuel poverty in England are presented for all available years since 1996 using the current fuel poverty methodology. The analyses for the years 2003 and 2004 have been done using the respective combined years' datasets of the English House Condition Survey.

Note that all figures are quoted to the nearest 100,000 households. Because of rounding, totals may not sum to the official fuel poverty statistics. Small inter-year variations may also be due to rounding and may not be statistically significant.

Number of fuel poor households

Thousand

	1996	*2001*	*2003*	*2004*
Urban	1200	500	400	300
Suburban	3000	800	500	600
Rural	1000	500	300	300

Number of fuel poor households per 1000 total households

	1996	*2001*	*2003*	*2004*
Urban	282	93	70	68
Suburban	253	72	48	50
Rural	258	110	76	74

National Grid

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what recent discussions he has had with *(a)* the Scottish Executive, *(b)* Ofgem and *(c)* the National Grid company regarding undersea connector cables linking Orkney and Shetland to the National Grid; and when he anticipates these connections being in place. [86410]

Malcolm Wicks: None.

The provision of a cable connection to the Orkneys and the Shetland Islands is a matter for the transmission licensee for the relevant area—in this case Scottish and Southern (SHETL). It is the responsibility of Ofgem to ensure that any expenditure incurred in constructing the cable is economically and efficiently incurred.

Officials from this Department have held discussions with the Scottish Executive and Ofgem on the most appropriate way of facilitating those connections.

Nuclear Power

Mr. Andrew Smith: To ask the Secretary of State for Trade and Industry what representations his Department has received from commercial energy companies regarding *(a)* whether Government subsidies would be required to make the construction and operation of new nuclear generating stations viable and *(b)* the level of subsidy which would be required per nuclear generating station. [85593]

Malcolm Wicks: All responses to the energy review consultation exercise, which closed on 14 April 2006, have been posted on the DTI website at http://www.dti.gov.uk/energy/review/consultation-submissions/page27883.html.

Paul Flynn: To ask the Secretary of State for Trade and Industry what plans he has to discuss with directors of *(a)* the Nuclear Installations Inspectorate and *(b)* the Office for Civil Nuclear Security the adequacy of safety and security inspectors in the event that private operators come forward with proposals to build new nuclear power plants. [86088]

Malcolm Wicks: Issues relating to the allocation of existing regulatory staff, or the recruitment of additional staff to deal with proposals for new nuclear power plants, will be a matter for the directors of the respective independent regulators.

The availability of regulatory resources is one issue amongst many that would feature in any future discussions that the Department held on such proposals.

Postal Services

Mr. Hoyle: To ask the Secretary of State for Trade and Industry if he will make a statement on the future of the Post Office network. [86227]

Jim Fitzpatrick: The DTI is backing the efforts of the management of Post Office Ltd. to turn the business around and create a network appropriate for the 21st century. We have invested over £2 billion in total since 1999 to help them to do so.

We want to see a Post Office network that meets the needs of today and the future and not those of 20 or 30 years ago. The DTI are discussing with other Government Departments and Post Office Ltd. how we can best achieve this.

Mr. Dai Davies: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact on employment in *(a)* Blaenau Gwent and *(b)* other local economies of the closure of local post offices. [84952]

Jim Fitzpatrick: The Government are committed to a viable Post Office network and have invested more than £2 billion to help maintain it. We continue to support the rural post office network with annual Social Network Payments of £150 million until 2008 and the policy of preventing avoidable closures of rural post offices remains in place. The Department is in discussion with Post Office Ltd. and other Government Departments about the future of the network. Decisions will be taken after proper consideration of all the issues.

Mr. Keetch: To ask the Secretary of State for Trade and Industry what discussions have taken place between *(a)* Ministers and *(b)* officials from his Department and Royal Mail on the new pricing system due to be introduced on 21 August; and if he will make a statement. [85769]

Jim Fitzpatrick: None. This is a matter for Postcomm, the independent regulator for postal services.

Postcomm's decision to introduce pricing in proportion followed extensive consultations and detailed discussions with Royal Mail.

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what recent discussions he has had with the Post Office on the accuracy of post box collection times; and how many *(a)* early and *(b)* late collections were recorded in the latest period for which figures are available. [85914]

Jim Fitzpatrick: None. This is an operational matter for Royal Mail. Adam Crozier, the Chief Executive of Royal Mail has been asked to reply direct to the hon. Member.

Royal Mail

Mr. Hoyle: To ask the Secretary of State for Trade and Industry what discussions have taken place between Royal Mail and officials from his Department about the percentage of shares to be retained by the Government after the proposed employee share scheme. [86225]

Jim Fitzpatrick: Royal Mail has submitted proposals on an employee share ownership scheme and these proposals are currently under consideration by the Department. Ministers and officials meet Royal Mail representatives on a regular basis and have discussed these proposals with them. No decisions have been made on whether to introduce a share scheme.

Mr. Hoyle: To ask the Secretary of State for Trade and Industry what recent discussions have taken place between his Department and Royal Mail on possible job losses in the Royal Mail group. [86226]

Jim Fitzpatrick: The Government have given the Royal Mail group greater commercial freedom and have established an arm's length relationship so that the board can operate the business as it decides best to meet the challenges of market development and changing customer needs.

The Department has held discussions with Royal Mail about its plans to modernise the business through the introduction of new technology and equipment. It is for the Royal Mail management to decide on the appropriate size of the Royal Mail work force as a result of this modernisation.

Mr. Hoyle: To ask the Secretary of State for Trade and Industry how much Government funding has been provided to the Royal Mail in each of the last five years; and how it has been allocated. [86228]

Jim Fitzpatrick: Government support has been provided by permitting Royal Mail and POL to utilise accumulated profits held in reserves on the Royal Mail balance sheet and direct funding from Government. These amount to £2 billion since 1998. The direct funding related to the urban reinvention programme and Your Guide were provided as follows:

£000

	Urban Reinvention	*Your Guide*
2001-02	—	—
2002-03	10,896	25,000
2003-04	72,359	—
2004-05	72,812	—
2005-06	17,869	—

In 2003, loan facilities amounting to £1,044,000 were put in place but Royal Mail has not drawn down on these.

Small Arms Trade

Dr. Cable: To ask the Secretary of State for Trade and Industry if he will bring forward legislation to control the overseas brokering of small arms by UK citizens and UK registered companies. [86375]

Malcolm Wicks: Controls on the trafficking and brokering of military goods were introduced in 2004. Trafficking and brokering of small arms done overseas by UK persons already requires a UK trade licence when the goods are being transferred to an embargoed destination (and a licence would normally be refused).

I am planning next year to review the effectiveness of the controls introduced in 2004 and would be happy at that stage to consider the scope of their application.

South East England Development Agency

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry what the annual expenditure of the South East England Development Agency in each *(a)* county and *(b)* unitary authority in the south-east of England was in each year since its inception. [86258]

Margaret Hodge: I refer the hon. Member to the question answered on 17 July 2006, *Official Report*, Columns 43-44W.

CULTURE, MEDIA AND SPORT

Slave Trade

Jeremy Corbyn: To ask the Secretary of State for Culture, Media and Sport what discussions she has had on establishing a national slavery memorial day. [86345]

Mr. Lammy: There is already a UN International Day for the Remembrance of the Slave Trade and its Abolition on 23 August. Some cities in the UK, such as Liverpool, already mark this with a significant range of events and activities. With the bicentenary of the abolition of the slave trade approaching in 2007, some members of the Deputy Prime Minister's Advisory Group, and others, have asked for a memorial day specific to Britain. There are differences of opinion about which date is most appropriate, and whether the focus should be on a day or other commemorative activities. Our aim is to ensure that all communities are able to mark this important event in ways that they feel are most appropriate.

Tourism (South West)

Paul Holmes: To ask the Secretary of State for Culture, Media and Sport how many tourists have visited the South West region in each year since 1997. [86096]

Mr. Woodward *[holding answer 18 July 2006]*: The following tables set out the number of visits to the South West region from (i) overseas and (ii) the UK where this included an overnight stay. Information is provided between 2000 and 2005; equivalent data prior to this period are not available.

Inbound visits to the South West by year

	Visit (all)
2000	2,042
2001	1,689
2002	1,852
2003	1,885
2004	2,033
2005	[1]2,137

[1] 2005 data are provisional. *Source*: International Passenger Survey (ONS).

Domestic overnight trips to the South West by year

	Visit (all)
2000	24,700
2001	25,200
2002	26,000
2003	22,800
2004	[1]20,500
2005	[2]21,280

[1] VisitBritain believes the old UKTS methodology significantly underreported 2004. [2] In 2005 an improved methodology was introduced for UKTS so direct comparison with previous years is not appropriate. *Source*: UK Tourism Survey (National Tourist Boards)

In addition, the South West region receives a substantial number of day visitors; the last Leisure Day Visitors Survey in 2002-03 recorded a total of 48 million day visitors to the region.

INTERNATIONAL DEVELOPMENT

Burma

Mr. Laurence Robertson: To ask the Secretary of State for International Development what humanitarian aid his Department is providing to people displaced from eastern Burma; and if he will make a statement. [86016]

Mr. Thomas: There are three types of internally displaced people (IDPs) in eastern Burma. These are (with the latest available numbers, from October 2005): (i) people in temporary settlements in ceasefire areas administered by ethnic nationalities (340,000); (ii) villagers who have been evicted by the Burmese Government and moved into designated relocation sites (108,000); and (iii) civilians hiding from the Burmese Army in areas most affected by armed conflict (92,000).

The recent military offensive against the Karen people has swelled the number of civilians hiding in conflict areas by at least 15,000. DFID's approach to providing emergency assistance to these IDPs has been to work through local community groups inside Burma. This is a complementary approach to the use of relief teams operating cross-border from Thailand, and it enables access to IDPs who would not be reached by any other means, and through a mechanism which is much less-well supported by other donors. The development of civil society within the country is also a fundamental step in a successful transition to democracy.

The number of IDPs that we can reach from inside the country is limited. Access is difficult, and the small local groups with whom we are working do not currently have the capacity to deliver greater volumes of emergency relief—although we are working to strengthen their ability to do more. Those delivering assistance to IDPs cross-border from Thailand face similar challenges. Therefore, we recognise the importance of maintaining co-ordination with all donors (both those delivering assistance cross border, and those working inside the country) to ensure that together we manage to reach as many IDPs as possible.

DFID also provides support to IDPs in temporary settlements in ceasefire areas in eastern Burma through the International Committee of the Red Cross (ICRC), to which we provide £500,000 a year, of which approximately 75 per cent. is attributable to work with displaced people in this area.

In addition, our health, education and rural livelihood projects provide assistance in eastern Burma, and support internally displaced people in temporary settlements and designated relocation sites there, as well as other vulnerable people.

DFID is also providing support to non-governmental organisations (NGOs) working among displaced Burmese people in the refugee camps on the Thai side of the Thai-Burma border—as a grant to the Thai Burma Border Consortium (TBBC) of £1.8 million over three years. In addition, the UK contributes approximately the same amount again as its share of the EC's support to the TBBC. The British Embassy in Bangkok advocates on behalf of Burmese refugees living in Thailand through the United Nations

High Commission for Refugees (UNHCR) to improve the situation in the refugee camps in Thailand and to bring about a relaxation of the regulations prohibiting freedom of movement and employment outside the camps.

In parallel, the Government fully support international efforts, particularly through the UN, to bring about tangible progress in restoring democratic freedoms and full respect for human rights. The UK has co-sponsored successive highly critical UN resolutions on Burma and played a leading role in drafting the resolution most recently adopted at the UN General Assembly in December 2005. This expressed grave concern at the attacks by military forces in violation of cease-fire agreements and called on the regime to end the systematic violations of human rights, including enforced displacement.

UN Security Council members last discussed the situation in Burma on 16 December under 'Any Other Business'. In this discussion, the UK highlighted the on-going human rights abuses, the detention of political prisoners, internal conflicts and the spread of HIV/AIDS and other diseases. Though there was no consensus to issue a presidential statement or other formal report, the discussions reflected the concern felt in many parts of the international community over the regime's failure to make progress towards democracy and to respect international human rights norms. At present there is no agreement within the Security Council, including among the permanent members, to add Burma to the Council's formal agenda, but the UK, through the Foreign and Commonwealth Office, will continue to co-ordinate closely with the UN and partners in the Security Council and the region in considering how best to maintain pressure for positive change in Burma.

Child Labour

Mr. Jim Cunningham: To ask the Secretary of State for International Development what assessment his Department has made of the extent of the use of child labour in *(a)* Tunisia, *(b)* Cameroon and *(c)* Tanzania. [86022]

Hilary Benn: DFID has not carried out assessments in these countries but helps to support the work of the International Labour Organisation (ILO), the leading international body which sets and monitors labour standards including child labour. In their global report on child labour published in May this year, the ILO reported an 11 per cent. fall in child labour globally since 2000. However, progress has been slowest in sub-Saharan Africa where 26 per cent. of children are economically active.

In its national strategy for growth and poverty reduction, the Government of Tanzania identifies child labour as a key challenge. DFID is providing over £110 million this year to support implementation of the overall national strategy. In addition, DFID is supporting multilateral organisations such as the ILO and United Nations Children's Fund (UNICEF) as well as civil society organisations to reduce and prevent child labour in Tanzania.

DFID does not have a programme in Tunisia and only a limited programme in Cameroon, which is focused on forestry.

Hospices

Mr. Fabian Hamilton: To ask the Secretary of State for International Development what steps he has *(a)* taken and *(b)* plans to take to help improve access to hospice and palliative care in resource-poor countries; and if he will make a statement. [85396]

Mr. Thomas: The UK is committed to the development of health services that respond to the broad health needs of the population, and palliative care clearly has a vital place in this. DFID support is largely directed at countries where the health spend is less than $10 per person per year and often far less. The public spend in the Congo is $2, in Ethiopia $1.50 and in Burundi $0.70. Clearly these countries are not able to deliver the range of services that they would wish and realistically are unlikely to invest significant public budgets in palliative care. We support countries to deliver their health programmes and the priority interventions defined in their national health plan. Increasingly we provide resources through various forms of flexible budget support.

DFID officials have met staff from the hospice community on a number of occasions, most recently during a public consultation on a revised DFID health strategy. Many committed groups lobby DFID to make greater efforts on what they see as neglected areas in the international health response. Recent communications have challenged DFID to do more on palliative care, cancer services, neglected tropical diseases, blindness, disability, malnutrition and non-communicable diseases. DFID accepts that palliative care services need to be better reflected in national health plans and budgets and that realistically support needs to be provided through home-based rather than institutional settings.

Iraq

Mr. Laurence Robertson: To ask the Secretary of State for International Development what steps his Department is taking to provide emergency medical supplies for children in Iraq; and if he will make a statement. [86007]

Hilary Benn: The Iraqi health care system faces enormous challenges which long pre-date the 2003 conflict. In the early 1980s, Iraq enjoyed some of the best health care in the Middle East. However, by 2000, international health indicators for Iraq were comparable with some of the poorest countries in Africa. Under-five mortality had increased from 50 per 1,000 in 1990 to 133 in 2001. One in four children under five were chronically malnourished. Hospitals, clinics and water and sanitation plants suffered from chronic lack of maintenance.

DFID has given most of its assistance to the Iraqi health sector through financial contributions to international organisations that have particular expertise in health. These contributions include:

£5 million to the World Health Organisation (WHO), which has helped to fund the delivery of emergency medical supplies,

supported clinics and hospitals in Baghdad and Basra, and supports the Iraqi Government's Health Sector Working Group. More information can be found at http://www.who.int/en.

£32 million to the International Red Cross for immediate humanitarian assistance

£70 million to the United Nations and World Bank multi-donor trust funds for Iraq. These trust funds finance reconstruction in a number of areas including health. The UN trust fund has approved 10 health and nutrition projects, in total valued at $96 million. The World Bank trust fund also has a $25 million health rehabilitation project which finances priority emergency services, including basic medical equipment and essential drugs. More information on both trust funds can be found at http://www.irffi.org

However, many challenges still remain and DFID and the international community will continue to work with the Iraqi authorities to help them to rebuild the health sector.

Important progress has been made: health care spending across Iraq is up more than 30 times on pre-war levels; 5 million children have been vaccinated, and diseases such as polio, measles and malaria have declined; 240 hospitals and 1,200 primary health centres are functioning; and 20 hospitals are being rehabilitated and a paediatric hospital is being built in Basra.

EDUCATION AND SKILLS

Child Care

Dr. Cable: To ask the Secretary of State for Education and Skills if he will estimate the total cost of allowing close relatives to become registered under the childcare approval scheme so that working parents would then be entitled to *(a)* working tax credit and *(b)* employer assisted childcare; and if he will make a statement. [85796]

Dawn Primarolo: I have been asked to reply.

The information requested is not available without incurring disproportionate cost.

Children with Difficulties

Mr. Soames: To ask the Secretary of State for Education and Skills how many children in *(a)* West Sussex and *(b)* Mid Sussex are classified as having emotional, social or behavioural difficulties. [85834]

Mr. Dhanda *[holding answer 17 July 2006]:* The information is given in the following table.

Maintained primary and secondary and all special schools[1,2]: number and percentage of pupils at School Action Plus or with statements of SEN who are classified as having emotional, behavioural and social difficulties[3,4,5]. January 2006. West Sussex local authority and Mid Sussex parliamentary constituency

	West Sussex local authority		Mid Sussex parliamentary constituency	
	Number	Percentage[6]	Number	Percentage[6]
Maintained primary	775	16.8	99	20.1
Maintained secondary	1,241	32.1	109	22.4
All special schools	219	14.8	44	15.8

[1] Includes middle schools as deemed.
[2] Includes maintained and non-maintained special schools. Excludes general hospital school.
[3] Pupils at School Action Plus and those pupils with a statement of SEN provided information on their primary need and, if appropriate, their secondary need. Information on primary need only is given here. Data are not collected on pupils at School Action.
[4] Excludes dually registered pupils.
[5] There are a number of sensitivities about categorising pupils by their type of need. It is important that anyone using the data should be aware of the concerns and also understand the limitations of the data's reliability and validity. There are a range of factors which may affect the data recorded: (i) definitions of each type of need are necessarily limited in scope and some are more difficult to establish; (ii) many children have a number of needs and it is sometimes difficult to decide which is the major need; (iii) professionals from education and health fields may classify some children differently and there is some evidence that parental background may sometimes affect diagnosis; (iv) the levels of identification of SEN and the levels of School Action, School Action Plus and statementing within SEN are very varied between local authorities—this is likely to affect some types of need more than others; (v) in some authorities funding policies may effect SEN identification.
[6] Number of pupils with emotional, behavioural and social difficulties expressed as a percentage of the total number of pupils at School Action Plus or with a statement of SEN.

Schools Census

Departmental Chief Accounting Officer

Chris Huhne: To ask the Secretary of State for Education and Skills what the *(a)* name, *(b)* professional and academic qualifications and *(c)* relevant experience are of the chief accounting officer of his Department. [76793]

Mr. Dhanda: The chief accounting officer of the Department for Education and Skills is the Permanent Secretary, David Bell.

Mr. Bell has a Master of Arts and a Master of Education (Glasgow), and a Postgraduate Certificate of Education (Jordanhill College of Education).

He began his career in teaching where he became a primary head teacher in Essex. He has also held the posts of Director of Education at Newcastle city council and chief executive of Bedfordshire county council, before being appointed Her Majesty's Chief Inspector of Schools by Her Majesty in Privy Council. He became chief inspector in 2002. David took up his current post on 1 January 2006.

The role of accounting officer is one that the Permanent Secretary combines with his personal responsibility for the overall organisation, management and staffing of the Department and for Department-wide procedures in financial and other matters.

The accounting officer is assisted in the discharge of these duties by suitably qualified and experienced senior managers, such as the Director General of Finance.

Departmental Staff/Teacher Numbers

Mr. Hayes: To ask the Secretary of State for Education and Skills what the percentage change in *(a)* his Department's staff and *(b)* the number of teachers was in each year since 1997. [84258]

Mr. Dhanda: The information is set out in the following tables:

(a) Departmental staff

Year[1]	FTE staff numbers	Percentage change
1997	4,480	—
1998	4,500	+0.4
1999	4,560	+1.3
2000	4,970	+9
2001	5,430	+9.3
2002	4,820	-11.2
2003	5,020	+4.1
2004	5,130	+2.2
2005	4,550	-11.3
2006[2]	4,166	-8.4

[1] The numbers recorded are from April in each year. [2] At 1 July 2006

The information for 1997 to 2001 relates to the former Department for Education and Employment.

(b) Teachers

Year[1]	FTE teacher numbers (thousand)	Percentage change
1997	399.2	—
1998	397.7	-0.4
1999	401.2	+0.9
2000	404.6	+0.9
2001	410.2	+1.4
2002	419.6	+2.3
2003	423.6	+0.9
2004	427.7	+1.0
2005	431.9	+1.0
2006 (provisional)	435.4	+0.8

[1] The numbers recorded are from January in each year.

Early-years Provision

Mrs. Maria Miller: To ask the Secretary of State for Education and Skills how many *(a)* nursery, *(b)* playgroup and *(c)* day-care providers charged a fee in 2005-06 to make up the difference between the money received from Government to fund provision for three and four-year-olds and the cost of provision. [86389]

Beverley Hughes: The information requested is not collected centrally.

The entitlement should be made available free at the point of delivery. It is not acceptable for parents to have to pay a fee or for there to be any conditions attached to the free entitlement. This would restrict the choice of provider for some families and, in some cases, deny children access to the free entitlement. Charges for care beyond the hours of the free entitlement are a private matter between the provider and parent.

From April 2006, funding for the free nursery education entitlement to local authorities has been provided through the Dedicated Schools Grant (DSG). Local authorities have discretion over the rate at which they fund settings for delivery of early years provision.

The code of practice on the provision of free nursery education places for three and four-year-olds says that local authorities should fund provision delivered in different sectors on a fair and equitable basis, taking into account local needs and circumstances.

Mrs. Maria Miller: To ask the Secretary of State for Education and Skills how many children are *(a)* taking up and *(b)* eligible for the free (i) nursery, (ii) playgroup and (iii) day-care provision for three and four-year-olds in 2006-07. [86390]

Beverley Hughes: The information is not collected in the form requested.

Since April 2004 all three and four-year-olds have been entitled to a free, good quality, part-time early education place. The free entitlement consists of a minimum of 12.5 hours per week for 38 weeks of the year and will be extended to 15 hours a week by 2010. By that time, parents who wish to do so will also be able to access the free entitlement flexibly across a minimum of three days.

Some local authorities may additionally offer subsidised childcare places but information on this is not collected centrally.

The available information on the number of three and four-year-olds taking up free early education places is shown in table 1.

Provisional figures for January 2006 show that all four-year-old children receive some form of free entitlement. The figure for three-year-olds is 96 per cent. This covers all maintained, private, voluntary and independent providers and represents 538,800 three-year-olds and 558,200 four-year-olds.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release 17/2006 "Provision for children under five years of age in England—January 2006 (provisional)" in April, which is available on my Department's website www.dfes.gov.uk/rsgateway/.

Final figures for January 2006 will be published in Statistical First Release "Provision for children under five years of age in England—January 2006 (final)" at 9:30 am on 31 August 2006, which will also be made available on my Department's website www.dfes.gov.uk/rsgateway/.

Table 1: Number of three and four-year-olds taking up nursery education places[1, 2, 3] by type of early education provider, England 2002-06[4], position in January each year

	2002	2003	2004	2005	2006 provisional
Private and voluntary providers[5]

Number taking up free places	1,012,000	1,100,900[6, 8]	1,107,500[8]	1,103,400[6, 8]	1,097,000[9, 10]
Percentage of population[7]	85	94	97	98	98

— = less than 0.5 per cent.
[1] Headcount of children aged three and four at 31 December in the previous calendar year, rounded to the nearest hundred.
[2] Numbers of three and four-year-olds in schools may include some two-year-olds.
[3] Any child attending more than one provider may have been counted twice.
[4] Provisional
[5] Includes some Local Authority providers (other than schools) registered to receive Nursery Education Grants; excludes independent schools and providers not registered to receive nursery education grants.
[6] Scaled up from the data as returned by providers to all providers of early years education.
[7] Numbers of three and four-year-olds taking up places expressed as a percentage of the three and four-year-old population.
[8] Providers returned the number of places for three and four-year-olds for which they had received or expected to receive funding.
[9] Local Authorities returned the number of funded three and four-year-olds for which they expected to receive funding.
[10] Scaled up from the data as returned by Local Authorities to all providers of early years education.
[11] Includes direct grant nursery schools.
[12] Includes reception and other classes not designated as nursery classes.
[13] Includes general hospital schools.
[14] Excludes pupils who are also registered elsewhere.
[15] Rounding of components may cause discrepancies in totals.

Mrs. Maria Miller: To ask the Secretary of State for Education and Skills (1) what the total budget is in 2006-07 for the free *(a)* nursery, *(b)* playgroup and *(c)* day-care provision for three and four-year-olds; [86391]

(2) what average funding his Department provided per head to local authorities for free *(a)* nursery, *(b)* playgroup and *(c)* day-care provision for three and four-year-olds in 2005-06. [86392]

Beverley Hughes: For 2005-06, funding for children under five within the total of Schools Formula Spending Shares (FSS) was £2,886 million and the average unit of funding was £3,220 across all settings.

From 2006-07, Dedicated Schools Grant (DSG) replaced Schools FSS: £82 million was added to the total of DSG for 2006-07 to fund the expansion of the early years entitlement from 33 weeks to 38 weeks per year. Funding for under fives is not identified separately within DSG, and there is a single guaranteed unit of funding for each authority, the average of which is £3,640.

Extended Hours

Sarah Teather: To ask the Secretary of State for Education and Skills (1) how many *(a)* primary and *(b)* secondary schools have indicated they intend to operate extended hours from the start of the 2006 autumn term in (i) each London borough and (ii) each region of England; [86158]

(2) how many *(a)* primary and *(b)* secondary schools in each London borough operate extended hours; [86156]

(3) how many *(a)* primary and *(b)* secondary schools operate extended hours in each region of England; [86157]

(4) what guidance he has issued to schools on the charges they can make to pupils for attending extended school hours. [86430]

Beverley Hughes *[holding answer 18 July 2006]:* We have a target for 2,500 schools to be providing a core offer of extended services by September 2006. This includes access to a varied menu of activities, parenting support, childcare 8am to 6pm, swift and easy referral to specialist services and wider community access. Currently, we have over 9,000 schools engaged with their local authority on the extended schools agenda with a representative split of primary and secondary schools. This is encouraging progress against our September target. We do not currently have data on the total number of schools operating extended hours broken down by borough or region. However, we do have data from a baseline survey of maintained schools published in September 2005. This survey showed that 61 per cent. of secondary schools and 40 per cent. of primary schools offer childcare or activities before school. The survey suggested that more schools offered activities after school hours—a total of 87 per cent. of primary, and 95 per cent. of secondary schools. In future we will be able to draw on data from the school census, which will include information about the extended services that schools are providing.

This Government have published guidance for schools and local authorities on planning and funding extended schools, including charging for extended opportunities, on 5 June 2006. It is intended to help schools plan and fund their extended opportunities in ways that will best support children, young people and their families; reflect local needs and circumstances; and build on existing provision offered by the voluntary and private sectors.

The guidance includes advice on what schools may and may not legally charge for. It describes some typical extended activities and how they might be funded. The guidance emphasises the need for schools to ensure free access to extended activities for the most disadvantaged children and young people.

Institutes of Enterprise

Mr. Hoban: To ask the Secretary of State for Education and Skills how much was spent in each year since 1998 to encourage Institutes of Enterprise; how many new institutes were endowed in each year; how many students attended institutes in each year; and if he will make a statement. [85553]

Jim Fitzpatrick: I have been asked to reply.

Science Enterprise Centres (SECs)—sometimes known as Institutes of Enterprise—were created under the Science Enterprise Challenge Programme. The first round, which covered the academic years 1999/2000 and 2000/01, allocated £28,900,000 to fund the creation of 12 SECs across the UK. The second round, for academic years 2001/02, 2002/03, awarded £14,500,000, as continuation funding to six of the existing SECs and to create one further SEC, brining the total number of SECs to 13.

Student attendance for the four years of the Science Enterprise Challenge Programme is as follows[1]:

	Number
1999-2000	2,923
2000-01	11,998
2001-02	11,975
2002-03	24,397

[1] One of the SECs reported its student numbers as a percentage of the total student body, rather than as an absolute figure, these percentage figures are not included in the above totals.

After 2003 enterprise education became a devolved matter and, in England, was subsumed into the Higher Education Innovation Fund, under which individual HEIs have the choice where to focus their activities.

Language Learning

Mr. Graham Stuart: To ask the Secretary of State for Education and Skills (1) how many GCSE pupils in *(a)* England and *(b)* the East Riding of Yorkshire studied a foreign language in each of the last nine years; and if he will make a statement; [81445]

(2) how many A-level pupils in *(a)* England and *(b)* the East Riding of Yorkshire studied a foreign language in each of the last nine years; and if he will make a statement. [81446]

Jim Knight: Figures for the number of pupils who were entered for a GCSE foreign language in *(a)* England and *(b)* East Riding of Yorkshire in each of the last nine years are given in the following table.

15-year-old pupils[1] entered for a GCSE foreign language[2]

	England	*East Riding of Yorkshire*
	Number	
1996/97	434,054	3,471
1997/98	442,130	3,427
1998/99	499,897	3,325
1999/2000	454,574	3,530
2000/01	468,487	3,588
2001/02	456,805	3,547
2002/03	449,376	3,551
2003/04	430,397	3,429

15-year-old pupils[1] entered for a GCSE foreign language[2]

Number

	England	*East Riding of Yorkshire*
2004/05	365,320	2,854

Figures for the number and percentage of pupils who achieved grade A*-C in a GCSE foreign language are given in the following table.

15-year-old pupils[1] achieving grade A-C in a GCSE foreign language[2]*

	England		*East Riding of Yorkshire*	
	Number	*Percentage*	*Number*	*Percentage*
1996/97	201,266	46	1,420	41
1997/98	204,683	46	1,559	45
1998/99	219,314	44	1,504	45
1999/2000	220,544	49	1,661	47
2000/01	231,884	49	1,700	47
2001/02	228,372	50	1,621	46
2002/03	214,336	48	1,342	38
2003/04	218,039	51	1,359	40
2004/05	210,895	58	1,653	58

Figures for the number and percentage of pupils who achieved grade A*-G in a GCSE foreign language are given in the following table.

15-year-old pupils[1] achieving grade A-G in a GCSE foreign language[2]*

	England		*East Riding of Yorkshire*	
	Number	*Percentage*	*Number*	*Percentage*
1996/97	418,977	97	3,337	96
1997/98	434,701	98	3,379	99
1998/99	445,061	89	3,288	99
1999/2000	447,319	98	3,478	99
2000/01	460,725	98	3,554	99
2001/02	449,451	98	3,497	99
2002/03	439,066	98	3,502	99
2003/04	421,496	98	3,379	99
2004/05	360,528	99	2,828	99

[1] Pupils aged 15 at the start of the academic year, i.e. 31 August.
[2] Maintained institutions only.

2004/05 GCSE examinations saw the first pupils for whom modern foreign languages were not compulsory.

Figures for the number of pupils who were entered for an A-level foreign language in *(a)* England and *(b)* East Riding of Yorkshire in each of the last nine years are given in the following table.

Pupils entered for an A-level foreign language

Number

	England[1]	*East Riding of Yorkshire*[2]
1996/97	41,750	181
1997/98	36,568	155
1998/99	34,484	145
1999/2000	30,997	142
2000/01	30,905	123
2001/02	28,252	116
2002/03	27,475	91
2003/04	27,052	85
2004/05	26,665	98

Figures for the number of pupils who achieved an A-E grade in at least one A-level foreign language are given as follows, and are given as a proportion of all candidates entered for an A-level foreign language.

Pupils entered for an A-level foreign language

	England[1]		*East Riding of Yorkshire*[2]	
	Number	*Percentage*	*Number*	*Percentage*
1996/97	37,200	89	151	83
1997/98	33,606	92	131	85
1998/99	31,883	92	118	81
1999/2000	28,763	93	120	85
2000/01	28,673	93	103	84

2003/04	26,540	98	81	95
2004/05	26,222	98	98	100

[1] All schools.
[2] Maintained institutions only.

School Sports

Mr. Hoyle: To ask the Secretary of State for Education and Skills what measures he is taking *(a)* to increase participation in sporting activities at schools and *(b)* to widen the number of sporting activities that are available to pupils while at school. [86418]

Jim Knight: The Government are investing over £1.5 billion (including lottery funding) in the five years to 2008 to implement the national school sport strategy. The Departments for Education and Skills and for Culture, Media and Sport share a public service agreement target to increase the percentage of five to 16-year-olds who spend a minimum of two hours each week on high quality physical education and school sport to 75 per cent. by 2006 and 85 per cent. by 2008. The long-term ambition—by 2010—is to offer all children four hours of sport. Spearheading action is the creation of a national network of sports colleges and school sport partnerships.

Good progress is being made. Currently 80 per cent. of schools in England are within a school sport partnership and all schools will be by September 2006. The 2004/05 school sport survey found that 69 per cent. of pupils in schools within a partnership were spending at least two hours in a typical week on high quality physical education and sport, an 11 per cent. increase on 2003/04. The survey also found that partnership schools offer on average almost 15 different sports. Copies of the 2003/04 and 2004/05 survey reports have been placed in the House Library.

Slave Trade

Jeremy Corbyn: To ask the Secretary of State for Education and Skills what representations he has received on including teaching on the slave trade as part of the national curriculum; and if he will make a statement. [86344]

Jim Knight: Members of the Deputy Prime Minister's Advisory Group on the 2007 Bicentenary of the Abolition of the Slave Trade have raised this issue on a number of occasions. I am also aware that there have been a large number of letters on the issue addressed to the lead officers at the Qualifications and Curriculum Authority who are responsible for

developing the national curriculum. Although we are reducing the amount of detailed prescription in the national curriculum, I am keen to see what can be done to ensure that this important part of our nation's history is properly understood. The £910,000 of funding that my Department is providing for the understanding slavery initiative (www.understandingslavery.com), in partnership with the Department for Culture, Media and Sport, is an important part of this.

Special Schools

Tim Farron: To ask the Secretary of State for Education and Skills what advice his Department provides to local education authorities on the role of special schools in the teaching of students with *(a)* special educational needs and *(b)* behavioural, emotional and social difficulties. [86011]

Mr. Dhanda *[holding answer 17 July 2006]:* Our SEN strategy "Removing Barriers to Achievement" makes clear that we see a vital and continuing role for special schools. The Government believe that special schools have an important role to play within the overall spectrum of provision for children with special educational needs—educating some children directly and sharing their expertise with mainstream schools. We are promoting the participation of special schools in the Department's diversity programmes, including the Specialist Schools Programme, to make the most of the skills and expertise in the special sector, by promoting collaboration, outreach, training and other activities.

Special schools are specially organised to make provision for pupils with special educational needs, so all special schools will teach pupils with special educational needs. There is a wide spectrum of special educational needs that are frequently inter-related. Needs fall broadly into four areas: communication and interaction; cognition and learning; behaviour, emotional and social development; and sensory and/or physical.

The Department through its National Primary and Secondary Strategies provides materials designed to raise standards in teaching and learning for both special and mainstream schools.

Mr. Hoyle: To ask the Secretary of State for Education and Skills what recent assessment he has made of the work of special schools; and what role he plans for such schools in the provision of education for children with special needs. [86417]

Mr. Dhanda: In 2003 we published the 'The Report of the Special Schools Working Group' which mapped out a future programme for the special schools sector. The report proposed that special schools should increasingly cater for the population of children with severe and complex needs; that they should be outward-looking centres of expertise and work more collaboratively with mainstream schools.

Our SEN strategy "Removing Barriers to Achievement" made it clear that we see a vital and continuing role for special schools. Special schools have an important role to play within the overall spectrum of provision for children with special educational needs educating some children directly and sharing their expertise with mainstream schools. We are promoting the participation of special schools in the Department's diversity programmes, including the Specialist Schools Programme, to make the most of the skills and expertise in the special sector, by promoting collaboration, outreach, training and other activities.

Statutory Instruments

Mr. Amess: To ask the Secretary of State for Education and Skills on what occasions a statutory instrument sponsored by his Department has been reported by the Joint Committee on Statutory Instruments as defective since October 2005. [85185]

Mr. Dhanda: Statutory instruments produced by the Department for Education and Skills were reported by the Joint Committee on Statutory Instruments for defective drafting on six occasions during the period in question.

Sure Start

Sir Peter Soulsby: To ask the Secretary of State for Education and Skills how many children have participated in Sure Start in Leicester South constituency since its introduction. [86143]

Beverley Hughes: Three Sure Start Local Programmes (SSLPs) covering 1,640 children under four and their families were set up in the Leicester South constituency between 2000 and 2003. All SSLPs are becoming Sure Start children's centres and will offer services to children under five years of age and their families. There are three Sure Start children's centres up and running in the Leicester South constituency covering 2,050[1] children under five and their families. Two of these centres build on existing SSLPs.

[1] 2,050 children include 771 children previously served by the two SSLPs that have become children's centres.

NORTHERN IRELAND

Abortion

Mr. Amess: To ask the Secretary of State for Northern Ireland when he expects to publish the Department of Health, Social Services and Public Safety's guidance on abortion in Northern Ireland; which *(a)* individuals and *(b)* organisations were involved in drawing up the draft guidance; what the timetable is for the consultation; and if he will make a statement. [85219]

Paul Goggins: The aim is to publish guidance on abortion in Northern Ireland early next year. In developing the guidance the Department has taken on board the views of representatives from a wide range of professional and specialty backgrounds including nursing and midwifery, obstetrics and gynaecology, public health, psychiatry, clinical genetics, family

planning doctors and general practitioners. It is proposed to issue draft guidance to interested parties for consultation in September.

Mr. Amess: To ask the Secretary of State for Northern Ireland who the members of the working party on guidance on abortion in Northern Ireland are; what relevant specialist qualifications each holds; what the career of each has been to date; what criteria were used in selecting them; how many and what percentage are on the public record as *(a)* supporting and *(b)* opposing abortion; when the working party has met; what the (i) location and (ii) duration of each meeting was; whether a record of each meeting was kept; who attended each meeting; if he will list public meetings organised by the working party; who addressed each meeting; at what cost; who attended each public meeting; whether a record of each public meeting was kept; what the cost was of each public meeting, broken down by (A) administrative costs, (B) costs of refreshments and (C) other costs; and if he will make a statement. [85222]

Paul Goggins: Members of the working party were not asked about their personal views on abortion as the intention was that the working party should comprise individuals from a wide range of professional and specialty backgrounds including nursing and midwifery, obstetrics and gynaecology, public health, psychiatry, clinical genetics, family planning doctors and general practitioners.

The working party has met twice. The first time was 4 May 2005 at The Mount in Belfast and the second time was on 19 December 2005 at Castle Buildings, Stormont. The meeting on 4 May was exploratory in nature, and to enable a free and frank exchange of views no formal record was taken. Minutes of the meeting on 19 December at Castle Buildings will be placed in the Library. This document includes details of members of the working party.

No public meetings have been held by the working party.

Adoption

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the decision to allow civil partnership couples the right to adopt children in Northern Ireland. [85090]

Paul Goggins: No one has the "right" to adopt and the proposed new legislation will continue to uphold this principle. However, the law must establish basic criteria which a person must satisfy in order to be eligible to apply to adopt. Under Northern Ireland's existing adoption legislation, the Adoption (Northern Ireland) Order 1987, a single person of either sex, irrespective of their sexual orientation, may apply to adopt a child. Only married couples may apply to adopt a child jointly. Civil partners, however, are unable to adopt either jointly or singly.

On 4 July I launched a public consultation "Adopting the Future", which outlines a proposed strategy for adoption services in Northern Ireland. One of the proposals designed to increase the opportunities for children to be adopted is that civil partners and unmarried couples (whether of different sexes or the same sex) living as partners in an enduring family relationship should be eligible to adopt jointly.

As is currently the case, where persons are eligible to adopt, they will be required to undergo a rigorous assessment of their suitability before any placement or adoption can take place. Every child deserves a safe and happy childhood. Where this is not possible within their own family or extended family, it is essential that every effort is made to secure permanence for the child as early as possible. If a couple in an enduring partnership can demonstrate that they can provide a child with a secure and happy home, where that child can thrive and be cared for into adulthood and beyond, the law should at least allow the couple to be assessed.

I am aware that this is a sensitive issue and would reiterate that these proposals are part of a consultation process. Everyone who has a contribution to make is welcome to do so and all views will be taken into consideration.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what precautions will be put in place by social services when children are placed for adoption in civil partnership settings. [85091]

Paul Goggins: In order to be approved as adoptive parents, any prospective adopter or couple is required to undergo a stringent assessment process carried out by an adoption agency over a period of several months. The assessment includes:

Checks on medical history and police checks
Current conditions in the applicant's lives
Relationship stability
Motives for adoption
Knowledge and experience of children
Capacity for the parenting role
Expectations concerning the child
Identity and culture
Relations and other social networks
Personality and interests
Religion and attitude to life
Openness to individual difference

Proper assessment is the key to ensuring that only suitable people are ultimately able to adopt. There is a range of qualities a single person or a couple need to demonstrate before they can be approved as adoptive parents.

Where an adoption agency has decided that adoption of a child by a particular person or couple would be in that child's best interests, social services are required to monitor the placement and ongoing support is available until an adoption order is made. Ultimately, the court will decide whether or not to make the adoption order.

Arson

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many arson attacks have been recorded on *(a)* homes, *(b)* commercial premises and *(c)* industrial premises in each of the last three years. [78505]

Paul Goggins: The information requested is contained in the following table:

	Dwelling premises[1]	*Commercial premises*[2]	*Industrial premises*[3]
2003-04	637	173	45
2004-05	538	167	34
2005-06	686	212	46

[1] Dwelling includes houses (occupied and unoccupied) and caravans used as dwellings.
[2] Commercial premises include buildings such as shops, banks, licensed premises, restaurants, and petrol stations.
[3] Industrial premises include buildings such as factories, warehouses, and haulage depots.

Incapacity Benefit Recipients

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps the Department of Social Development has taken to assist those receiving incapacity benefits to get back into work in rural areas in Northern Ireland; and if he will make a statement. [86306]

Maria Eagle: The Department for Employment and Learning (DEL) helps employers fill vacancies and assists jobseekers to find employment through a network of 35 Jobs and Benefits offices (JBOs) and JobCentres located in towns and cities throughout Northern Ireland.

Within the JBOs, personal advisers carry out 'work-focused interviews' to help those on working age benefits, including incapacity benefit (IB), identify any barriers to work and encourage them to address these, assess 'job-readiness' and assist clients into work or training programmes or towards other support which will improve their options and capability for work. The process has recently been improved through the introduction of action plans for people who are ill, have a disability or are lone parents.

The Department has been piloting the Pathways to Work initiative in three areas (Ballymoney, Lurgan and Magherafelt) since 3 October 2005 and in Newtownabbey, Enniskillen and Newry since April 2006. The initiative builds on existing provision and offers early, sustained support from specially trained personal advisers with the aim of helping IB recipients consider a return to work. The support package includes innovative health rehabilitation programmes with a work focus, to help clients understand and manage their health condition. New financial incentives include a £40 a week return to work credit to help "make work pay" for those moving into a job paying less than £15,000 per annum.

The pilot will be expanded to a further four offices by the end of 2006, covering 30 per cent. of clients making a fresh claim to incapacity benefit. The choice of pilot locations has taken account of the rural/urban mix and the potential impacts on the client group in rural areas. It is recognised that the costs of attending mandatory interviews are likely to be greater for those living in rural areas so travel costs are paid and interviews are arranged at a time to suit the client.

Beta Blockers

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps the Department of Health, Social Services and Public Safety is taking *(a)* to inform users of beta blockers of the proposed gradual withdrawal of this drug without causing distress or anxiety and *(b)* to ensure that general practitioners withdraw beta blockers gradually from patients with high blood pressure. [84941]

Paul Goggins: The National Institute for Health and Clinical Excellence (NICE) recently produced clinical guidelines on the management of high blood pressure in adults; this includes new guidance relating to the use of beta-adrenoceptor blockers. Beta blockers are also used for a number of other clinical conditions. Beta blockers are not being withdrawn and remain a licensed medicine for use in Northern Ireland.

I recently announced the establishment of a formal link between NICE and the Department of Health, Social Services and Public Safety, and will shortly confirm the arrangements for determination of the applicability of NICE guidelines to the HPSS in Northern Ireland. The Department will give specific consideration to the communication of information contained in this particular guidance

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many people prescribed beta blockers in Northern Ireland in the last 12 months have ailments other than high blood pressure. [84974]

Paul Goggins: Information is only available on the total number of beta-adrenoceptor blocking drug items dispensed in primary care in the past 12 months. Information is not available on the actual number of individuals that this relates to or the ailment for which the drug has been dispensed.

Table 1: Number of beta-adrenoceptor blocking drugs dispensed

2005	907,553

Source:
Prescription cost analysis, Central Services Agency

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many patients prescribed beta blockers for high blood pressure in Northern Ireland are over the age of 55; and if he will make a statement. [84975]

Paul Goggins: The information is not available for the clinical condition of high blood pressure or for the age group requested but only on the total number of beta-adrenoceptor blocking drug items dispensed in primary care in the past 12 months.

	Number of blocking beta-adrenoceptor drugs dispensed
2005	907,553

Prescription Cost Analysis, Central Services Agency

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland were prescribed beta blockers for high blood pressure in the last 12 months, broken down by board area. [84976]

Paul Goggins: Information is only available on the total number of beta-adrenoceptor drug items dispensed in primary care in the past 12 months. This information is not readily available by health board

area, nor is information available on the actual number of individuals that this relates to.

	Number of beta-adrenoceptor blocking drugs dispensed
2005	907,553

Source
Prescription Cost Analysis, Central Services Agency.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the total cost has been of beta blockers in the Northern Ireland health budget in each of the last three years. [84977]

Paul Goggins: The information is shown in the following table:

Total ingredient cost for beta-adrenoceptor blocking drugs

	(£)
2003	6,451,614
2004	6,879,635
2005	6,806,766

Notes
1. Total ingredient cost refers to gross cost before discount, except for drugs listed in the Northern Ireland drug tariff that have already had discount applied.
2. The costs provided only cover drugs dispensed in primary care. Costs of drugs prescribed and dispensed in hospital cannot be captured central due to the use of different hospital IT systems.

Source
Prescription Cost Analysis, Central Services Agency.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the potential effects on costs arising from the transfer of patients from using beta blockers to other drugs available for high blood pressure; and how long the transfer will take to implement. [84978]

Paul Goggins: Information is not available for the clinical condition of blood pressure. It is anticipated that pharmacological costs may rise due to the transfer of patients from beta-adrenoceptor blocking drugs to ACE inhibitors. Cost impact assessments made by NICE indicate however that full implementation of the NICE guideline achieved over a number of years might produce some savings as a result of reduced numbers of strokes and ischaemic heart disease. No estimate has been made of possible corresponding savings that might occur in Northern Ireland.

The timescale for implementation of this change is dependent upon the needs of individual patients. It is particularly important that patients do not stop using their medication without seeking professional advice.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many people have experienced *(a)* side effects and *(b)* life-threatening side effects as a direct result of being prescribed beta blockers for high blood pressure in each of the last five years, broken down by board area. [84979]

Paul Goggins: As beta-adrenoceptor drugs can be prescribed for a number of conditions it is not possible to tell from existing information if a person was prescribed beta blockers for high blood pressure. As with other medicines, there are a number of known side effects with beta blockers. All serious adverse drug reactions suspected to be related to any medicine, or combination of medicines, should be reported directly to the Medicines and Healthcare Products Regulatory Agency.

The Department has no data on admission to hospital as a direct result of side effects/life threatening side effects as a result of the providing of beta blockers for high blood pressure.

Brothels

David Simpson: To ask the Secretary of State for Northern Ireland how many brothels he estimates there are in *(a)* Northern Ireland and *(b)* each police district command unit. [83913]

Paul Goggins: The Police Service of Northern Ireland has advised that it would be inappropriate to disclose the number of brothels they believe to be active as this could compromise ongoing operations aimed at disrupting such activities and bringing about successful prosecutions.

The PSNI continues to gather intelligence and information about such activities across Northern Ireland.

In September 2005 South Belfast DCU set up a drugs and vice team after analysis indicated problems related to sex crimes. In that DCU the PSNI have successfully closed down 20 brothels and charged 12 persons in connection with offences under the Sexual Offences Act 2003.

Dangerous Dogs

Dr. Alasdair McDonnell: To ask the Secretary of State for Northern Ireland whether there has been a review of the Dangerous Dogs (Northern Ireland) Order 1991 since the legislation was implemented; and whether there are plans to review *(a)* the legislation and *(b)* enforcement of it. [86576]

David Cairns: The Dangerous Dogs (Northern Ireland) Order 1991 has not been formally reviewed. However, on 19 May 2006 the Department of Agriculture and Rural Development wrote to all district councils seeking their views on the operation of the legislation with particular emphasis on any difficulties preventing effective enforcement.

The Department is currently considering the responses from councils and will meet in the near future with council representatives and other interested organisations to discuss the issues raised.

Departmental Expenditure

David Simpson: To ask the Secretary of State for Northern Ireland, pursuant to the answer of 17 May 2006, *Official Report*, column 1009W, on departmental expenditure, what accounted for the increases in expenditure by *(a)* employment and learning, *(b)* health, social services and public safety and *(c)* the Northern Ireland Office on advertising between 2003-04 and 2004-05; and if he will take steps to reduce the amount spent on advertising. [77217]

Mr. Hanson: Further to my answer of 17 May 2006, *Official Report*, column 1009W, I have informed the

hon. Member in writing that figures provided for four Departments in 2004-05 were incorrect. This answer is based on the corrected figures given on 4 July 2006.

The increase in expenditure by *(a)* employment and learning is accounted for by the Essential Skills Campaign to address the problems of literacy and numeracy. The corrected figures show that spending by *(b)* health, social services and public safety decreased during the period. The increase in expenditure by *(c)* the Northern Ireland Office was due to the recruitment advertising of NIO posts locally and nationally. The corrected figures also show that expenditure by environment increased during the period. This is due to additional funding for newly launched road safety campaigns in respect of motorbikes, speeding and drugs and to increase airtime for the anti-drink driving campaign at certain times of the year such as Christmas and bank holidays.

Steps have already been taken to reduce the amount spent on advertising. A fundamental review of how Government procure and manage advertising has been completed. The review report, published in April 2006 and available in the House of Commons Library, sets out a series of recommendations which will contribute to an overall reduction in the amount spent on advertising and an increase in effectiveness.

Fertility Treatment

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many women over the age of 55 years are undergoing IVF treatment on the NHS in Northern Ireland; and if he will estimate the average cost of each programme of treatment. [85050]

Paul Goggins: There are no women over the age of 55 years undergoing IVF treatment on the NHS in Northern Ireland. In-Vitro Fertilisation (IVF) is only available to couples where the female partner has not passed her 38th birthday.

The Royal Group of Hospitals estimate the current cost for a cycle of IVF treatment to be £2,875. This includes the cost of outpatient attendances, drugs, scans and consultant time.

Festivals

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland which 10 community festivals in Northern Ireland received the most public funding in each of the last two years. [82878]

Maria Eagle: The 10 community festivals which received the most public funding in each of the last two years are shown in the following tables:

2004-05

Festival	*Funding provided (£)*
Feile an Phobail	360,037.95
Maiden City Festival	82,700.63
Ardoyne Fleadh Cheoil	75,080
Greater New Lodge	43,110
Tommy Makem International Festival of Song	23,000
Belleek and Fiddlestone Arts and Cultural Festival	15,783.19
William Kennedy Piping Festival	15,000
The Hills above Drumquin Townland: Festival	14,914.81
Armagh City and district council Mall Events Project	14,900
Living History Festival	13,097.40

2005-06

Festival	*Funding provided (£)*
Feile an Phobail	273,768.01
North West Rural Development Maritime Festival 2006	101,681
Maiden City Festival	84,150
Ardoyne Fleadh Cheoil	66,405
Greater New Lodge	36,660
Panarts (Belfast Nashville Songwriters Festival)	18,500
Armagh Festival of International Folk and Song	17,500
William Kennedy Piping Festival	15,000
Country Comes to Town	12,000
The Irish Country Lifestyle Festival	11,113.17

Notes:
For the purpose of this answer, a community festival is defined as follows:
"a concentrated and orchestrated series of events with a common theme and within a defined period"
This definition is taken from the 'Community Festivals Fund Policy and Guidance Framework' launched in February 2006.
The answer does not include information on funding allocated to speciality arts and sports festivals.

Fuel Poverty

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many people in *(a)* rural and *(b)* non-rural areas in Northern Ireland are estimated to be living in fuel poverty; and if he will make a statement. [86316]

Mr. Hanson: The 2004 Interim House Condition Survey collected fuel poverty information on a household and not an individual basis and has indicated that the number of households in fuel poverty in rural areas of Northern Ireland is 61,470 and the number in non-rural areas is 92,060.

The Department for Social Development, the Northern Ireland Housing Executive and all the public, voluntary and community organisations concerned with fuel poverty will continue to bring forward and promote a range of measures to address this important issue, particularly in vulnerable households.

Housing

Mark Durkan: To ask the Secretary of State for Northern Ireland what recent assessment he has made of *(a)* house prices and *(b)* trends in social housing stock in Northern Ireland; and what steps he is taking to assist first-time buyers in Northern Ireland. [85436]

Mr. Hanson: The Department for Social Development publishes information on houses prices and trends in social housing in its Northern Ireland

Housing Statistics report. The following tables from the 2004-05 report set out the relevant information:

Table 1: Estimated median house price and percentage increase by purchasing group, October to December 2003 to October to December 2005[1]

Purchasing group	*Period October to December*	*Estimated median house price (£)*	*Percentage increase*
First Time Buyers	2003	66,666.67	38.1
	2005	92,076.40	
Home Movers	2003	94,366.20	37.9
	2005	130,136.99	

[1] Estimate derived from data provided to DSD, Statistics and Research Branch by the Council of Mortgage Lenders (CML).

Table 2: Trends in social housing stock 2002-05

Thousand

	NIHE stock	*Housing Associations stock*	*Total stock*
2002	113.4	19.7	133.1
2003	105.8	20.5	126.3
2004	94.6	21.0	115.6
2005	96.6	[1]21.3	[1]117.9

[1] The figure for 2005 is currently provisional.

The Northern Ireland Housing Executive also annually publishes a report on the Northern Ireland Housing Market—"Review and Perspectives". The report covering the period 2006-09, which provides a range of housing statistics and analysis, was published in February 2006. A copy is available on its website at www.nihe.gov.uk and can be found under the Publications/Reports/ Housing Market Reviews. I will arrange to have a copy placed in the Library.

The review indicates that since 1979 the Housing Executive has sold more than 110,000 dwellings to sitting tenants accounting for almost a quarter (24 per cent.) of the owner-occupied sector and 16 per cent. of the housing market as a whole. The 2001 House Condition Survey provided the first reliable estimate of what proportion of these had been resold on the open market. In March 2001, some 94,000 dwellings had been sold and approximately 18,000 (19 per cent.) of these had been resold on the open market: two thirds to new owner-occupiers and the remaining one third to private landlords, reflecting the fact that they generally provide a good source of high-quality affordable homes, particularly for first-time buyers and landlords who see them as a sound investment. Between 2000 and 2004 the annual house sales figure remained at over 5,000 but in 2004-05 the number of dwellings sold fell by 24 per cent. to 3,135. The reduction reflected the introduction of major revisions to the House Sales Scheme and it is envisaged that house sales will remain at between 2,500 and 3,000 over the next three year period. Annual research carried out by the University of Ulster in relation to sold Housing Executive dwellings confirms that they continue to perform well on the open market.

The co-ownership shared equity scheme remains the Department's main measure for providing assistance to first time buyers experiencing affordability problems. The scheme has been very successful assisting over 19,000 households since 1978. In recognition of this success, Government increased their funding by £23 million over the 3-year period to 2008 to provide almost £39 million and this will help support around 2,400 applicants over this period. A series of changes to the scheme have also just been introduced to make it more accessible for people on lower incomes: the basis of calculation of the co-ownership rental charge will reduce from 3.5 per cent. to 2.75 per cent. As a result a typical co-ownership home buyer with a £100,000 property on a 50:50 basis will see their monthly rental reduce from £160 to £126. The professional fees associated with buying a home through co-ownership are also being reduced from £400 to £250.

Given the sharp increase in house prices, the value limits that apply to properties eligible for purchase through co-ownership have been reviewed. The limit for the greater Belfast and Derry city council areas has increased from £115,000 to £135,000 and from £102,500 to £115,000 elsewhere.

The Department has also been examining recent initiatives which were introduced to address affordability in the rest of the UK. The Chancellor, in his last budget, announced an increase in the stamp duty threshold to £125,000, and this will specifically assist first-time buyers.

Illegal Dumping

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what progress has been made in deterring illegal dumping in Northern Ireland, with particular reference to border areas; and if he will make a statement. [86299]

David Cairns: The Environment and Heritage Service (EHS) continues to work closely and successfully with other enforcement agencies, including those in the Republic of Ireland. This has resulted in improved communication and intelligence, allowing joint action to tackle serious incidents and serious offenders.

EHS, through its environmental crime team, has disrupted the activities of those engaged in the illegal waste trade. As a result, large illegal dump sites are being discovered less frequently. Officers are also discovering increasing amounts of shredded material, treated in this way to mask the point of origin.

On the evidence provided by EHS, the Public Prosecution Service took 47 successful prosecution cases to the end of June 2005, compared with 58 for all of 2005, and 24 in 2004. The 129 successful prosecutions to date have generated fines in excess of £210,000. Around 100 further cases have been scheduled for hearing in the courts.

Jobcentres

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many jobcentres are operating in *(a)* non-rural and *(b)* rural areas of Northern Ireland; and if he will make a statement. [86318]

Maria Eagle: The Department helps employers fill their vacancies and assists jobseekers to find employment through a network of 35 offices (25 Jobs and Benefits offices, JBOs where a joint work-focused

service is provided with the Social Security Agency, and 10 jobcentres) located in towns and cities throughout Northern Ireland.

There are eight offices serving the city of Belfast, two in Londonderry, and one each in the cities of Armagh, Lisburn and Newry. The remaining 22 offices are located in each of the main rural towns of Northern Ireland.

In order to deliver the Government's policy on welfare-to-work the Department is working in partnership with the Social Security Agency to provide a joined-up work-focused jobs and benefits service. Some 25 of the planned 35 offices have been rolled out as JBOs. It is expected that rollout of the remaining 10, Andersonstown, Ballymena, Ballynahinch, Bangor, North Belfast, Cookstown, Downpatrick, Newcastle, Newtownards and Strabane, will be complete by March 2008.

MI5 Headquarters

Mark Durkan: To ask the Secretary of State for Northern Ireland what costs have been incurred for the new MI5 headquarters in Northern Ireland; what the projected total cost is; and to which budget the funding has been allocated. [85444]

Mr. McNulty: I have been asked to reply.

It has been the established policy of successive Governments not to comment on such matters.

Police

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many police officers are allocated to the Ards area of Strangford. [85089]

Paul Goggins: The police strength for Ards DCU is as follows:

Regular—143.75

Full-Time Reserve—20

Part-Time Reserve and Con part-time combined—56

Public Appointments

Mr. Amess: To ask the Secretary of State for Northern Ireland how many public appointments are within his patronage; what *(a)* salary and *(b)* other emoluments are attached to each; and what the comparable figures were in (i) 1976, (ii) 1986 and (iii) 1996. [83169]

Mr. Hain: Details of the public appointments to public bodies sponsored by the Northern Ireland Office and the Northern Ireland departments can be found in "Public Bodies", copies of which are in the Library. "Public Bodies" has been published annually since 1980 and the most recent edition provides figures for 2005. Each edition of "Public Bodies" contains details on the number of public appointments and remuneration details for that particular year. Comparable information for 1976 in respect of the Northern Ireland Office and the Northern Ireland departments could only be provided at disproportionate cost.

More detailed information about the chairs and members of Northern Ireland Office public appointments is published each year in the NIO departmental report. Similar information for those sponsored by Northern Ireland's eleven government departments is published in their annual public appointments' annual report. Copies of the latest versions of both these reports are available from the Library of the House and can be found on the internet at:

www.nio.gov.uk/nio_departmental_report_2006.pdf and www.ofmdfmni.gov.uk/public-appointments .

Rape Crisis Centre

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will take steps to ensure the continued operation of the Rape Crisis Centre in Belfast; and if he will make a statement. [86319]

Paul Goggins: Government are committed to funding high-quality services which provide the best possible support for victims of rape and sexual violence in Northern Ireland.

The Department of Health, Social Services and Public Safety has previously highlighted to the Rape Crisis and Sexual Abuse Centre (NI) Ltd. concerns regarding the failure of the organisation to comply with the terms and conditions of grant funding. These concerns included the keeping of proper records, sound financial accountability and proper corporate governance arrangements.

The latest financial verification report indicates a continuing failure to address the long-standing issues raised and the Department has now advised the organisation that it is mindful to cease funding and invited any comments it wishes to make on this matter within 14 days.

The decision to cease funding for any organisation which provides a service to vulnerable people is never taken lightly. However, in view of the continued failure of this organisation to meet Government accounting requirements, the Department has been left with no other option but to cease funding.

The funding that would have been directed to the Rape Crisis Centre will be allocated to other support services for victims of rape and sexual violence.

Road Maintenance

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many motorists have submitted claim forms for damage done to their vehicles due to pot holes on roads in the last three years; and how many received compensation for damages. [86388]

David Cairns: The number of vehicle damage compensation claims related to potholes received by the Department for Regional Development over the last three years and the number for which vehicle compensation was paid are set out in the following table.

	Pothole claims received	Compensation paid
2003-04	940	586
2004-05	667	429
2005-06	668	364

Sexual Health

Mr. Amess: To ask the Secretary of State for Northern Ireland how much his Department gave to the Belfast Brook Advisory Centre in each year since its opening; and what the rates of sexually transmitted infections were in Northern Ireland in each year over the same period. [85221]

Paul Goggins: Information is only available from 1997. Health and Social Services Boards have provided the following funding to Brook in each year since 1997.

	£
1997-98	52,702
1998-99	52,596
1999-2000	62,786
2000-01	83,356
2001-02	75,112
2002-03	79,347
2003-04	88,961
2004-05	107,469
2005-06	107,831

In addition the Department of Health, Social Services and Public Safety has provided one-off funding to the organisation as follows.

	£
1997-98	nil
1998-99	1,875
1999-2000	10,000
2000-01	6,450
2001-02	9,000
2002-03	4,000
2003-04	nil
2004-05	nil
2005-06	nil

The incidence rates of sexually transmitted infections is not available. However, information is available on the total number of episodes (for selected diagnoses of sexually transmitted infection), seen for care at GUM clinics, in Northern Ireland since 1995. This is shown in the following table.

Calendar year	Number of sexually transmitted infections
1995	2,076
1996	[1]—
1997	[1]—
1998	2,650
1999	3,118
2000	3,504
2001	3,494
2002	3,741
2003	3,873
2004	3,930
2005	4,393

[1] Incomplete data

Notes:

Figures represent new treatment episodes of sexually transmitted infections occurring in the specified age groups, and not individual people. An individual may have contributed more than one episode of a particular diagnosis and to more than one diagnosis. Selected diagnoses for 1995 are: Postpubertal uncomplicated Chlamydia; Postpubertal uncomplicated gonorrhoea; Infectious syphilis; Anogenital herpes simplex (first attack) and Anogenital warts (first attack). Selected diagnoses and codes for 1998 and onwards are: Uncomplicated genital Chlamydia; Uncomplicated gonorrhoea; Primary and secondary infectious syphilis; Anogenital herpes simplex (first attack) and Anogenital warts (first attack).

KC60 return, Genito-Urinary Medicine clinics.

Speed Cameras

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland which areas will be targeted by the Police Service of Northern Ireland to test the SPECS3 cameras to apprehend speeding cars; and if he will make a statement. [85052]

Paul Goggins: The cameras are to be trialled on the Kempstones Road between Dundonald and Newtownards. This is for the purposes of scientific testing only.

Stephen Murtagh

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the Stephen Murtagh case. [85057]

Paul Goggins: My hon. Friend the Member for St. Helens, South (Mr. Woodward), met Stephen Murtagh in April and decided that a review of the published papers associated with the circumstances leading to the death of Mr. Murtagh's wife, Janine, would be appropriate. The Permanent Secretary of the Department of Health, Social Services and Public Safety is conducting the review and will report to me in the autumn.

Street Lighting

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether the Department of Regional Development has plans to remove restrictions on the number of street lights in rural areas. [86303]

David Cairns: The Acting Chief Executive of Roads Service (Mr Geoff Allister) has been asked to write to the hon. Lady in response to this question.

Letter from Mr Geoff Allister, dated 19 July 2006:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding whether the Department of Regional Development has plans to remove restrictions on the number of street lights in rural areas.

As this issue falls within my responsibility as Acting Chief Executive of Roads Service, I have been asked to reply.

The main criterion for providing street lighting in rural areas is based on the density of housing although we also take

cognisance of night time injury accident statistics which indicate that the provision of lighting would contribute to a reduction in such accidents.

In June 2006, Roads Service Board agreed an extension to the rural lighting criteria to ensure a consistent approach to the lighting of important junctions on the strategic network. This additional criterion will apply when new junctions are provided, and existing junctions that meet the criterion shall be lit retrospectively over a number of years subject to the availability of funds.

However, in the course of its considerations, Roads Service has to seek a balance on the demand for additional lighting against the effects of increased urbanisation of the countryside and the environmental impact on wildlife, flora and the night sky.

Students

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many full-time students resident in the Irish Republic attended *(a)* further and *(b)* higher education colleges in Northern Ireland in 2005; at what total cost to the education budget in that year; and what proportion of this cost was paid by the Government of the Irish Republic. [84934]

Maria Eagle: The number of full-time students resident in the Irish Republic attending further education colleges in Northern Ireland in the 2004-05 academic year was 1,010. The cost of this to the further education budget in that year was in the region of £3.5 million. No element of the cost of the further education budget was paid by the Government of the Irish Republic.

The number of full-time students resident in the Irish Republic attending higher education colleges in Northern Ireland in the 2004-05 academic year was 2,249. The approximate cost of this to the higher education budget in that year was £7.8 million. No element of this cost was paid by the Government of the Irish Republic.

Suicide

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what provision he has made to assist families affected by suicides within the *(a)* East Belfast, *(b)* North Down and *(c)* Ards/Castlereagh area of Strangford; and if he will make a statement. [85051]

Paul Goggins: The Ulster Community and Hospitals Health and Social Services Trust provides a range of mental health intervention and strategies to support the families of suicide victims, including counselling for bereavement in conjunction with specialised agencies such as CRUSE.

Since February 2004, the Trust has been operating a Crisis Response and Home Treatment Team, which is available 365 days per year to provide an appropriate response to individuals who have attempted self-harm or are suicidal.

In addition to this service, members of this team assess any patient who presents to the A&E department of the Ulster Hospital, Dundonald, suffering from mental health problems. Furthermore, the Trust has recently trained three staff in Applied Suicide Intervention Skills Training and arrangements are presently being made for suicide awareness sessions in local sports and community clubs.

South and East Belfast Trust offer the primary care route of referral for assessment of mental health and will offer bereavement counselling through Community Psychiatric Nursing and Social Work services. They can also offer to support families in a crisis through involvement with their Crisis Response and Home Treatment Team. South and East Belfast Trust also signpost individuals and families to voluntary organisations such as CRUSE who offer straightforward bereavement counselling.

Regionally, a Families Forum is to be established. This forum will nominate representatives to sit on the forthcoming Suicide Strategy Implementation Body and will allow those bereaved by suicide to have a major say in the implementation of the Strategy.

Vaccination

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the most recent take-up rate is of MMR vaccine, broken down by council district in Northern Ireland. [85729]

Paul Goggins: Information on the take-up of MMR vaccine broken down by council district area is not collected centrally. However, the Department collects information from health and social services (HSS) boards on the immunisation status of each board's resident children with regard to several conditions including MMR.

The latest available information on MMR immunisations by HSS Boards is detailed in the following table, which shows the percentage of children resident in each board's administrative area that completed a primary course of MMR immunisations at any time before their second birthday, which occurred during the year ending 31 March 2005.

Board of Residence	*MMR (Percentage)*
Eastern	86.2
Northern	89.3
Southern	90.1
Western	88.2
Northern Ireland	88.4

Valuation and Lands Agency

Mrs. Spelman: To ask the Secretary of State for Northern Ireland pursuant to the answer to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 21 June 2006, *Official Report*, column 1872W, on the Valuation and Lands Agency, when the documentation will be placed in the Library. [85448]

Mr. Hanson: These documents were placed in the Library on 28 June 2006.

Wind Turbines (Hospitals)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland pursuant to his answer of 26 June 2006, *Official Report*, column 216W, on wind turbines (acute hospitals), whether other acute hospitals have expressed an interest in having a wind turbine constructed at their sites in the next 12 months. [85727]

Paul Goggins: Causeway Hospital, Coleraine, has expressed an interest in developing a wind turbine installation on the site within the next 12 months.

PRIME MINISTER

G8 Summit

Mr. Hoyle: To ask the Prime Minister if he will raise the issue of the Russian Federation's level of compliance with the Energy Charter Treaty and its transit protocol with President Putin at the forthcoming G8 Summit in St. Petersburg. [85092]

The Prime Minister: I refer my hon. Friend to my statement of 18 July 2006, *Official Report*, columns 151-54.

Honours

Mr. Austin Mitchell: To ask the Prime Minister if he will ensure that *(a)* individuals who use tax havens and *(b)* directors whose firms are involved in (i) exploitation of cheap labour at home or overseas, (ii) tax avoidance or price fixing and (iii) health and safety violations are not considered for honours. [83379]

The Prime Minister: Guidance for nominating potential recipients of honours and the criteria for consideration for awards of honours are available on the Cabinet Office website (www.honours.gov.uk) and in the Library of the House.

Ministerial Behaviour

Mr. Gordon Prentice: To ask the Prime Minister what recent discussions he has had with Sir John Bourn on matters concerning the behaviour of Ministers; and if he will make a statement. [85015]

The Prime Minister: I refer my hon. Friend to the answer I gave the hon. Member for Maldon and Chelmsford East (Mr. Whittingdale) during my evidence to the Liaison Committee on 4 July.

WORK AND PENSIONS

Atos Medical Services

Mr. Rooney: To ask the Secretary of State for Work and Pensions whether he plans to review *(a)* the contract with Atos Medical Services as part of the Welfare Reform Programme and the Disability Equality Duty scheme and *(b)* the training requirements for Atos medical staff. [84388]

Mr. Jim Murphy *[holding answer 12 July 2006]:* The contract between the Department and Atos Origin is reviewed on an on-going basis to ensure it delivers services that are fully compliant with all current relevant legislation.

Each year a programme of continuing medical education is agreed with Atos Origin that identifies training need priorities for all Atos medical practitioners. Participation is mandatory and ensures medical knowledge and expertise is kept up to date. Implementation is monitored through an established governance framework. Any changes or amendments to the contracted service arising from changes in business requirements include a review of the training requirements for doctors.

Benefit Claimants

Chris Huhne: To ask the Secretary of State for Work and Pensions what steps his Department has taken to tackle the perceived stigma of claiming benefits by people in rural areas; and if he will make a statement. [84955]

Mr. Jim Murphy: The Commission for Rural Communities (CRC) is currently undertaking its annual monitoring of the rural proofing of Government policy. The CRC has appointed a team of consultants who will be interviewing officials from each Government Department on selected subjects. One subject selected for the DWP is the payment of benefits. The interviews are expected to take place this month.

The Department also produces an internal annual Rural Proofing Report for the Countryside Agency; this includes examples of how the Department has addressed service delivery issues in rural areas. A copy of the Countryside Agency's Rural Proofing Report for 2004-05 is available in the Library.

A fundamental element of our plans for the future is the need to transform the way customers access and use the services of Jobcentre Plus so we can release resources to focus on customers who need more help. Customers are no longer required to attend our offices to make claims for benefits, undertake jobsearch activities or to enquire about their benefit payments. As we transform our services, other more efficient channels are now available to our customers, such as Jobseeker Direct, Interactive TV, or the Jobcentre Plus website, and these new options will greatly assist our customers living in rural areas.

Mr. Marsden: To ask the Secretary of State for Work and Pensions what assessment he has made of the likely impact in each region of introducing a lower rate of benefit for young people under the age of 25 claiming the proposed employment and support allowance. [78108]

Mr. Jim Murphy: The proposal in the Green Paper was to align the basic rate of the employment and support allowance with jobseeker's allowance basic rates. In the main phase, a work-related activity component or support component would be added on top.

During the consultation period, stakeholders raised concerns that this would penalise disabled young people. Therefore, in our consultation report we announced that we will not proceed with plans for a young person's rate during the main phase. Claimants will get the same benefit rate, regardless of age, once on the main phase of the benefit. We believe that this provides the best balance between aligning rates until the medical assessment is completed, and making sure

we provide an appropriate level of support for all people with health conditions or disabilities.

The Green Paper consultation report (CM6859) is available in the Library.

Incapacity Benefit

Fiona Mactaggart: To ask the Secretary of State for Work and Pensions which local authorities had an increase in the numbers of incapacity benefit claimants between 2001 and 2005. [86398]

Mrs. McGuire *[holding answer 18 July 2006]:* The information has been placed in the Library.

Job Vacancies (Hartlepool)

Mr. Iain Wright: To ask the Secretary of State for Work and Pensions how many job vacancies were listed at Jobcentre Plus in Hartlepool constituency in each year since 1997. [77176]

Mr. Jim Murphy: *[pursuant to the reply, 26 June 2006, Official Report,* column 54W]: Information on Jobcentre Plus vacancy data at parliamentary constituency level is only available from April 2004 and is set out in the following table.

Hartlepool Parliamentary Constituency

Period	*Vacancies notified to Jobcentre Plus*	*Average number of 'live' unfilled vacancies on any given day*
2004 (from April)	5,040	1,150
2005	5,080	1,120

Source: Jobcentre Plus Labour Market System

Pensioners

Mr. Laws: To ask the Secretary of State for Work and Pensions what his estimate is of the amount spent by his Department, including the costs spent on administration costs, responding to requests from pensioners who live abroad and have their pensions frozen in each year since 2001-02; and if he will make a statement. [83378]

James Purnell: Information that is available is in the following tables. We are unable to provide costs prior to 2004-05.

Costs for 2004/05 and 2005-06

	2004-05	*2005-2006*	*£million Total*
Frozen state pension paid to pensioners living abroad	870.58	900.17	1770.75
Direct costs to administer frozen state pensions for pensioners who live abroad.	3.6	3.8	7.4
Total	874. 18	903.97	1778.15

Costs For The First Three Months Of The Financial Year 2006-07

	£million 2006-07
Frozen state pension paid to pensioners living abroad	232.69
Direct costs to administer frozen state pensions for pensioners who live abroad.	1.0
Total	233.69

Mr. Hoban: To ask the Secretary of State for Work and Pensions what pilot projects have been funded as part of the initiative announced in the 1997 pre-Budget report to encourage the improved take-up of benefits by pensioners; how many projects were given long-term funding; and how many pensioners were involved in the pilot projects. [85560]

James Purnell: The information is not held centrally and could be obtained only at disproportionate cost.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions pursuant to the answer of 11 July 2006, *Official Report,* column 1754W, on pensions reform, if he will add a column to the table provided in the answer showing comparable data assuming the Pension Commission's proposals were implemented in total. [86518]

James Purnell: The figures presented in the 11 July 2006, *Official Report,* column 1753W refer to people reaching state pension age. They consequently will not be affected by including the assumption of the full implementation of the Pensions Commission proposals—i.e. to include the payment of a full basic state pension to all people aged 75 and over.

Mr. Salmond: To ask the Secretary of State for Work and Pensions how many people are in receipt of *(a)* state pension and *(b)* pension credits in each nation and region of the UK; and what total spending was on each benefit in the latest period for which figures are available. [86512]

James Purnell: Information that is available relating to the state pension caseload and number of individual beneficiaries of pension credit in Great Britain on 31 November 2005 is in the following table. Information relating to Northern Ireland is the responsibility of my hon. Friend the Secretary of State for Northern Ireland.

Government office region	*State pension caseload*	*Pension credit—individual beneficiaries*
North East	481,080	193,790
North West	1,252,520	432,360
Yorkshire and the Humber	926,680	321,090
East Midlands	799,720	241,310
West Midlands	990,990	345,030

Government office region	State pension caseload	Pension credit—individual beneficiaries
East of England	1,052,410	274,090
London	950,070	344,550
South East	1,520,840	336,510
South West	1,073,570	273,700
Wales	588,310	197,990
Scotland	942,970	337,800

Source: DWP Work and Pensions Longitudinal Study

The total estimated spending on state pensions and pension credit in 2005-06 is in the following table.

	£ million, nominal terms, estimated outturn
Basic state pension	43,029
Additional state pension	8,243
Non-contributory state pension	31
Total state pension expenditure	51,303
Pension credit - guarantee credit	5,402
Pension credit - savings credit	1,019
Total pension credit expenditure	6,420

Notes:
1. Caseload figures are rounded to the nearest 10 and some additional disclosure control has been applied.
2. Expenditure figures are rounded to the nearest million pounds.
3. Totals may not sum due to rounding.
4. The number of individual beneficiaries includes both claimants and their partners.

Source:
DWP Expenditure tables

Mr. Salmond: To ask the Secretary of State for Work and Pensions what estimate he has made of total spending on the *(a)* basic state pension and *(b)* pension credit in each (i) country and (ii) region of the UK in (A) 2024, (B) 2034 and (C) 2044 (1) under the current arrangements and (2) under the Government's proposed pension reforms. [86514]

James Purnell: The information is not available in the format requested. Tables 1 and 2 show the total expenditure on basic state pension and pension credit respectively for the UK.

Under our reforms, more people will be getting state pensions based on their national insurance records, and there will be a more generous basic state pension due to the restoration of the earnings link. This provides a solid foundation for private saving. Incentives are further enhanced by reducing the growth of the savings credit.

Increase in the basic state pension leads to higher incomes for pensioners and as a consequence reduces the spending on pension credit. The reduction in pension credit as a result of the overall reform package can be seen in table 2. Column 2 of the table shows the level of spending without the White Paper reforms while column 3 shows spending after reforms.

Table 1 shows total expenditure under current basic state pension policies, and under the proposed reforms.

Table 1: Expenditure on basic state pension

	£ billion, 2006-07 prices	
	Without reform	With reform
2024	62.5	77.5
2034	75.9	109.7
2044	81.0	137.7

Table 2 shows total expenditure under different pension credit policies, all of which assume the stated policy of uprating the standard guarantee with earnings until 2008: the current system projected forward with the standard guarantee uprated by prices after 2008; the same scenario but with the standard guarantee uprated with earnings after 2008; and the projected outcomes under the White Paper reforms.

Table 2: Expenditure on pension credit

	£ billion, 2006-07 prices		
	Without reform, standard guarantee price-linked from 2008	Without reform, standard guarantee earnings-linked from 2008	With reform
2024	1.9	13.0	5.9
2034	1.1	21.2	3.8
2044	0.9	36.1	4.6

Notes:
1. Costs or savings presented in the table are based on long-term projections of United Kingdom benefit expenditure consistent with the Budget report 2006, and estimated expenditure effects of the proposed reforms.
2. Table 2 estimates of expenditure are dependent on projections of numbers receiving pension credit in the future. These projections are subject to a range of uncertainties and a number of factors including policies on uprating different benefits and assumptions on rates of take-up. The assumptions applied here are consistent with those that underpin published long-run expenditure projections.
3. Table 1 includes, in the 'With reform' column, earnings uprating the basic state pension, improving coverage, and the effects of state pension age increases.
4. Table 2 includes, in the 'With reform' column, continued earnings uprating of the standard guarantee; the savings credit maximum is uprated by earnings from 2008 and then by prices from 2015; earnings uprating of the basic state pension from 2012; measures to improve coverage of the basic state pension and reforms to the state second pension described in the White Paper.
5. Figures exclude the effect of personal accounts.
6. Figures include the effects on expenditure on the basic state pension and on pension credit arising from increases in the state pension age as set out in the White Paper.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 20 June 2006, *Official Report*, column 1716W, on Afghanistan, how many *(a)* ministerial and *(b)* official-level meetings on Afghanistan have taken place between the three Departments since January. [81738]

Margaret Beckett: There are regular ministerial and official meetings on Afghanistan. Since January, seven ministerial meetings and 16 senior official meetings specifically on Afghanistan have been held. At the official level there is daily contact between Foreign and Commonwealth Office, Department for International Development and Ministry of Defence personnel.

Brazil

Mr. Roger Williams: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she had with the Brazilian Government regarding *(a)* human and animal health, *(b)* human rights and *(c)* environmental issues relating to Brazilian beef imports during her recent official visit. [84359]

Mr. Hoon: My right hon. Friend the Foreign Secretary did not discuss these issues in detail during her recent visit to Brazil. However, we regularly raise such matters with the Government of Brazil, bilaterally and with our European partners.

Recently, at the Human Rights Council, my right hon. Friend the Minister of State for Trade, Investment and Foreign Affairs discussed with Paulo Vannuchi, Brazilian State Secretary for Human Rights, ways in which our countries could deepen co-operation. In April, on his visit to Brazil, my noble Friend the Under-Secretary of State for Foreign and Commonwealth Affairs, also raised human rights with Paulo Vannuchi and agreed that the protection of human rights defenders was one of the key areas in which Brazil and the UK could co-operate.

Animal health is an issue taken seriously by the UK and the EU. In August last year, the European Commission's Food and Veterinary Office sent an inspection mission to Brazil. The findings were discussed in the Standing Committee on the Food Chain and Animal Health in Brussels and the committee was satisfied that no additional restrictions on imports were justified at that stage.

The UK has initiated a high-level dialogue on sustainable development with the Brazilian Government to promote action on sustainable development challenges—including deforestation, whether it is caused by soya production or cattle farming. The Government actively supports efforts in Brazil to promote agricultural practices that reduce environmental impact and levels of deforestation. For example, the UK, through the Foreign and Commonwealth Office's Global Opportunities Fund, is supporting an Amazon Deforestation Soya Certification Project which aims to combat deforestation by developing and implementing an independent certification scheme for "forest-friendly" soya.

Burma

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of investment channels through British Overseas Territories to Burma. [85893]

Mr. McCartney: We have made no such assessment, however, Overseas Territories are required to give effect to the EU Common Position on Burma sanctions.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations she has made to the European Union on securing a United Nations resolution on the Government of Burma. [85894]

Mr. McCartney: The proposal for a UN Security Council Resolution on Burma was raised at the General Affairs and External Relations Council on 12 June. All EU member states represented on the Security Council gave their support for a debate and resolution on Burma.

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations she has made to the Government of India regarding its trade and investment policy towards Burma. [85895]

Mr. McCartney: We have not made any specific representations to the Government of India regarding trade and investment in Burma. We do, however, have dialogue with the Indian Government about their policy towards Burma and have highlighted international concern about human rights and democracy in that country.

In my discussions with the Indian Deputy Foreign Minister in the margins of the Human Rights Council on 20 June, I asked the Government of India to use its influence to encourage the Burmese Government to respect human rights and bring about political change.

Colombia

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of proposals for demobilisation of paramilitaries and guerrillas in Colombia. [75044]

Mr. Hoon: The EU General Affairs and External Relations Council Conclusions of October 2005 made it clear that we and other EU member states consider that the effective and transparent implementation of the Law on Justice and Peace will have a positive impact on peace-building in Colombia.

On 18 April, the Government announced the completion under this law of the formal process of paramilitary demobilisation which saw over 30,000 paramilitaries demobilise. The challenge now for the Government of Colombia is to reintegrate the ex-combatants successfully into society, while addressing the rights of the victims of the internal armed conflict to truth, justice and reparation.

The Colombian Government is also actively involved in talks with the National Liberation Army, a left-wing guerrilla group. The latest round of talks took place in Cuba in April. The Colombian Government's recent efforts to begin preliminary talks with the Revolutionary Armed Forces of Colombia, the country's biggest illegal guerrilla group, have been consistently rejected by the guerrillas. We continue to monitor the situation.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations she has made to the Government of Colombia on the impact on political stability of reductions in the international drugs trade. [75045]

Mr. Hoon: We have regular discussions with the Colombian Government at official level over our counter-narcotics co-operation. This co-operation is

ongoing and is part of our commitment, together with international partners, to help the Government of Colombia tackle the scourge of drug production and drug trafficking which have such a devastating impact on many thousands of innocent Colombians. Clearly, we also have a strong interest in helping Colombia fight the illegal drugs trade, not least because an estimated 80 per cent. of the cocaine coming into Britain originates from Colombia. All the three major illegal armed groups in Colombia have been proven to be actively involved in the illegal drugs trade which fuels the internal armed conflict in the country, undermines political stability and contributes to human rights abuses. Furthermore, the vast international income from cocaine leads to extensive money laundering. Corruption and intimidation backed up by violence is rife in Colombia.

With international assistance, Colombia is taking great steps towards tackling the international trade in drugs and other associated crimes. The counter-narcotics strategy adopted by the current Government seeks to reinforce existing judicial measures to hit drug traffickers and confiscate assets, and tackles the interconnected problems of violence, social and economic inequality, and abuse of human rights.

Conscription (Children)

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she has had with the United Nations about child conscription into state armies in developing countries. [84469]

Margaret Beckett: The Foreign and Commonwealth Office has identified child rights as one of its top three human rights priorities. One important focus for this work is addressing the issue of children affected by armed conflict, including the recruitment of children into armed forces and armed groups. The UK has supported the establishment of a UN monitoring and reporting mechanism on this issue and is actively involved in the UN Security Council Working Group on Children and Armed Conflict to ensure that action is taken to follow up reports from this mechanism. The UK welcomes the efforts of the UN Secretary-General's Special Representative on Children and Armed Conflict to advocate the rights of children affected by armed conflict. The UK also promotes ratification of the UN Convention on the Rights of the Child and its Optional Protocol on the involvement of children in armed conflict through its network of diplomatic posts.

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate she has made of the number of children conscripted into armies for military action in *(a)* Asia, *(b)* Africa and *(c)* Latin America. [84470]

Margaret Beckett: The Foreign and Commonwealth Office has made no estimate of the number of children recruited by armed forces and armed groups in these countries. A number of studies exist in this area, including some by non-governmental organisations, as well as statistics on the numbers of children involved in disarmament, demobilisation and reintegration programmes. The picture of the numbers affected is complicated by the many ways in which children can be affected by conflict, for example as porters, messengers, spies or cooks, as well as active combatants. The UN Special Representative of the Secretary-General for Children in Armed Conflict said in a report to the General Assembly in September 2005 that over 250,000 children continue to be exploited as child soldiers. The Coalition to Stop the Use of Child Soldiers estimated in its 2004 Global Report that up to 100,000 children in Africa remained involved in hostilities and also provided estimates for situations in specific countries in Asia and Latin America. This report is accessible most easily at the following website:

http://www.child-soldiers.org/resources/global-reports

Mrs. James: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent estimate she has made of the number of children conscripted into armies in *(a)* Sierra Leone, *(b)* the Philippines, *(c)* Colombia, *(d)* Burundi, *(e)* Democratic Republic of Congo, *(f)* Liberia, *(g)* Somalia, *(h)* Afghanistan, *(i)* Burma and *(j)* Uganda; what recent representations she has made on the conscription of children into the army of each country; and if she will make a statement. [84497]

Margaret Beckett: The Foreign and Commonwealth Office has made no estimate of the number of children recruited by armed forces and armed groups in these countries. A number of studies exist in this area, including some by non-governmental organisations, as well as statistics on the numbers of children involved in disarmament, demobilisation and reintegration programmes. The picture of the numbers affected is complicated by the many ways in which children can be affected by conflict, for example as porters, messengers, spies or cooks, as well as active combatants. One helpful source in this area is the Child Soldiers Global Report 2004, produced by the Coalition to Stop the Use of Child Soldiers which provides estimates for the countries listed. This document is accessible most easily at the following website:

http://www.child-soldiers.org/resources/global-reports

Ministers and officials have made representations on this issue. For example, my right hon. Friend the Minister for Trade has raised our concerns on a number of issues in Burma including the recruitment of child soldiers with the Burmese ambassador in London, and in writing to the Burmese Foreign Minister. During 2005, officials were active in a series of EU démarches in countries where the use of child soldiers is a particular problem. Démarches were conducted in Burundi, Colombia, Côte d'Ivoire, the Democratic Republic of Congo, Liberia, Nepal, Sudan and Uganda. The UK has also sought to ensure that disarmament, demobilisation and reintegration programmes are sustainable and make appropriate provision for the particular needs of children. This has included specific assistance in a number of the countries listed, for example the Ministry of Defence's assistance in reforming recruiting practices in the Sierra Leone army.

Departmental Emissions

Chris Huhne: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent estimate she has made of the carbon emissions of her

Department; what commitment she has made to reducing such emissions; and if she will make a statement. [81059]

Mr. Hoon: In 2004-05, the Foreign and Commonwealth Office's (FCO) carbon emissions from energy on the UK estate totalled 3,374 tonnes. We are committed to reducing our emissions and are taking the following actions:

we are in the process of implementing the Carbon Trust's Carbon Management Programme to help us identify opportunities to reduce our use of energy;

we are upgrading the energy control systems at Hanslope Park, our rural site in Buckinghamshire, and in our Main Building. We have commenced a programme of replacing inefficient light fittings across the estate;

we monitor our performance against targets for energy reduction, among other environmental issues, through an externally certified Environmental Management System, in line with the Framework for Sustainable Development on the Government estate;

we apply the Building Research Establishment Environmental Assessment Method (BREEAM), which includes forecast energy consumption, to new builds and major refurbishments;

we actively encourage staff and contractors to follow good practice in using energy efficiently and effectively through, for example, an Energy and Recycling Campaign in February 2006;

we are installing software on the next generation of the FCO's global IT network, due to start roll out early in 2007, to power down workstations automatically out of hours.

In addition, the FCO is offsetting the carbon dioxide and other emissions generated by the air travel of Ministers and officials based in the UK starting with our 2004 emissions—one year ahead of the requirement of Government Departments to offset air travel by April 2006. We encourage our posts to apply good environmental management and are running a pilot project on environmental management at nine posts to determine how best we might introduce the principles of formal environmental management to our wider network.

Departmental Publications

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will list the Unnumbered Command Papers produced by her Department in each Session since 1976; by what means *(a)* hon. Members and *(b)* members of the public can (i) inspect and (ii) obtain copies; and if she will make a statement. [81303]

Mr. Hoon: A list of Foreign and Commonwealth Office Unnumbered Command Papers since 1992 can be obtained from the Library of the House and I will arrange for a copy of the list to be sent to the hon. Member. Previous years could be listed only at disproportionate cost.

Copies of unnumbered Command Papers from the 2001 and 2005 Parliaments are available to hon. Members via the Library of the House and to members of the public via the Public Record Office.

Diplomatic Service (School Fees)

Ian Lucas: To ask the Secretary of State for Foreign and Commonwealth Affairs what the policy of her Department is on the payment of school fees for the children of staff employed in the diplomatic service abroad when those children attend *(a)* international schools abroad or *(b)* fee-paying schools in the UK. [86064]

Mr. Hoon: It is a condition of their employment that members of the diplomatic service must be prepared to serve anywhere in the world at any time during their career, sometimes at very short notice. Those with children also have a legal obligation as parents to ensure that their children receive full-time education from the age of five years. The Foreign and Commonwealth Office (FCO) therefore helps staff meet these potentially conflicting obligations in two circumstances:

Children who accompany their parents on postings overseas are expected to use free state schooling if it is available locally and is of a suitable standard. At posts where no suitable schooling is available free-of-charge locally, the FCO refunds the cost of local school fees to enable children to receive the level of education to which they would be entitled in the UK.

Staff are liable to move at regular intervals, every 12-48 months, often to locations where schools offering English language education are unavailable or inadequate. Providing continuity of education can therefore pose real problems, particularly during the important examination years. The FCO therefore provides an accountable allowance to enable children to board at school in the UK, while their parents remain subject to the worldwide mobility obligation.

Dr. Laurence Jones

Alistair Burt: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will take urgent steps to enable Dr. Laurence Jones to return to the UK from Australia; for what reason his retrieved passport could not be temporarily validated for travel back to the UK; for what reason his replacement passport was not issued within the initial 20-day period; and for what reason it was not issued within the subsequent two-week period of which notice was given by her Department. [86162]

Dr. Howells *[holding answer 18 July 2006]:* We regret the inconvenience caused to Dr. Jones and apologise for the delay to the issue of his passport, which was caused by an unfortunate administrative error. The passport was despatched to him by courier on 17 July from our high commission in Canberra. It is expected to be delivered to him in Darwin on 19 or 20 July. The passport section in our high commission in Canberra has advised Dr. Jones of this development directly. He has also been informed that we will reimburse all telephone expenses incurred by him with regard to his application.

Export Licences

Greg Mulholland: To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications for a standard individual export licence were referred to her Department by the Export Licensing Organisation (ELO) in 2005; how many of these applications were considered by the Human Rights, Democracy and Good Governance Group; in

how many of these applications the Group initially advised against the granting of a licence; how many were the subject of written submissions from the Group; and in how many cases where an initial recommendation for refusal was issued by the Human Rights, Democracy and Good Governance Group her Department recommended to the ELO refusing that licence. [86519]

Dr. Howells: The Foreign and Commonwealth Office received 7,381 standard individual export licence applications in 2005. It is not possible to give a further breakdown of departmental assessment of applications since this information is not recorded. All applications are assessed against the Consolidated EU and National Export Licensing Criteria, including against criterion 2, which deals with human rights concerns. Should there be a clear risk that the equipment on the application is a risk to human rights in the recipient country, the licence will not be issued. Human Rights, Democracy and Governance Group are asked to advise on applications where specific human rights concerns arise. Ministerial decisions are sought for finely balanced cases.

Extradition Treaties

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs with which countries the UK has extradition treaties; how many people were extradited *(a)* to each country from the UK and *(b)* to the UK from each country in the latest year for which figures are available. [83822]

Joan Ryan: I have been asked to reply.

The Extradition Act 2003 divides the UK's extradition partners into two categories. Part 1 territories are those EU member states who, like the UK, operate the European Arrest Warrant (EAW) procedure. These are:

Austria; Belgium; Cyprus; Czech Republic; Denmark; Estonia; Finland; France; Germany; Greece; Hungary; Ireland; Italy; Latvia; Lithuania; Luxembourg; Malta; the Netherlands; Poland; Portugal; Slovakia; Slovenia; Spain; and Sweden

Part 2 territories include those Members of the Council of Europe who are not in the EU and are party to the European Convention on Extradition; Commonwealth territories; and bilateral extradition treaty partners, such as the United States. These are:

Albania; Andorra; Antigua and Barbuda; Armenia; Argentina; Australia; Azerbaijan; The Bahamas; Bangladesh; Barbados; Belize; Bolivia; Bosnia and Herzegovina; Botswana; Brazil; Brunei; Bulgaria; Canada; Chile; Colombia; Cook Islands; Croatia; Cuba; Dominica; Ecuador; El Salvador; Fiji; The Gambia; Georgia; Ghana; Grenada; Guatemala; Guyana; Haiti; Hong Kong Special Administrative Region *; Iceland; India; Iraq; Israel; Jamaica; Kenya; Kiribati; Lesotho; Liberia; Liechtenstein; the Former Yugoslav Republic of Macedonia; Malawi; Malaysia; Maldives; Mauritius; Mexico; Moldova; Monaco; Nauru; New Zealand; Nicaragua; Nigeria; Norway; Panama; Papua New Guinea; Paraguay; Peru; Romania; Russian Federation; Saint Christopher and Nevis; Saint Lucia; Saint Vincent and the Grenadines; San Marino; Serbia and Montenegro; Seychelles; Sierra Leone; Singapore; Solomon Islands; South Africa; Sri Lanka; Swaziland; Switzerland; Tanzania; Thailand; Tonga; Trinidad and Tobago; Turkey; Tuvalu; Uganda; Ukraine; United States of America; Uruguay; Vanuatu; Western Samoa; Zambia and Zimbabwe.

In 2005, under the EAW procedure, the UK extradited 77 people to other EU member states and had 66 people returned to this country. Under part 2 of the 2003 Act, the UK extradited 62 people last year and had 11 people returned to this country.

This information is shown in the following table:

UK extradition statistics for 2005

Part 1 *Country*	*Surrendered by UK*	*Returned to UK*
Austria	0	0
Belgium	8	1
Cyprus	0	1
Czech Republic	0	0
Denmark	3	0
Estonia	0	0
Finland	2	0
France	4	7
Germany	8	6
Greece	0	4
Hungary	0	0
Ireland	11	4
Italy	0	1
Latvia	0	1
Lithuania	27	0
Luxembourg	0	0
Malta	0	0
Netherlands	3	10
Poland	4	0
Portugal	3	1
Slovakia	0	0
Slovenia	0	0
Spain	3	29
Sweden	1	1

Part 2 *Country*	*Surrendered by UK*	*Returned to UK*
Albania	1	0
Australia	2	0
Canada	2	1
Cayman Islands	0	1
Croatia	1	0
Czech Republic[1]	4	1
Estonia[1]	1	0
France[1]	6	0
Germany[1]	7	1

Switzerland	1	0

Part 2 Country	Surrendered by UK	Returned to UK
Turkey	1	0
USA	14	1

[1] Indicates an EU member state where all or some of the extradition requests were made/received before the date the State began operating the Framework Decision on the European Arrest Warrant.

Human Cloning

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 July 2006, *Official Report*, columns 1519-20W, on human cloning, if she will place in the Library copies of the instructions sent to the UK delegation; if she will list the *(a)* Departments, *(b)* organisations and *(c)* individuals (i) she consulted and who (ii) made representations to her Department; if she will place in the Library copies of any representations received; and if she will make a statement. [86126]

Mr. McCartney: As I explained in my answer to the hon. Member on 10 July 2006, *Official Report*, columns 1519-20W, the instructions sent to the UK delegation covered a range of options for possible votes on different draft resolutions or motions. Publication of instructions to Foreign and Commonwealth Office (FCO) posts could be damaging to our international relations. It would not therefore be appropriate to place a copy in the Library of the House. The FCO consulted the Department of Health, which takes the lead on the issue, the Office of Science and Technology, as it then was, the Department of Trade and Industry, the Medical Research Council, the Biotechnology and Biological Sciences Research Council and the Royal Society. We lobbied other governments in capitals and in New York and received a range of views in response. These discussions were held in confidence. We do not have copies of oral representations received from others. The chief executive of the British Bioindustry Association wrote to my right hon. Friend the then Foreign Secretary on 12 October 2004, strongly supporting the UK position. Copies of this letter and my right hon. Friend's reply will be placed in the Library of the House.

The Government's views were set out in New York on several occasions, including in statements by the UK Permanent Representative to the UN General Assembly in October 2004 and March 2005. Copies of these statements will also be placed in the Library of the House. I will also send the hon. Member copies of the letters and statements to be placed in the Library of the House.

Israel (F16 Military Aircraft)

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what investigations *(a)* she and *(b)* her officials have undertaken into the use of F16 Israeli military aircraft during airstrikes into (i) Gaza since the start of May 2006 and (ii) Lebanon since 12 July 2006; and what the results of those investigations have been. [86515]

Dr. Howells: Our embassy in Tel Aviv is monitoring the situation closely. It has confirmed reports that Israel is using F16s in its incursions into Gaza and Lebanon.

Middle East

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations she has received from the EU Commissioner for External Relations regarding the outcome of her recent visit to Israel and the Palestinian Territories; and if she will make a statement. [81730]

Margaret Beckett: I have had no specific discussions with EU Commissioner Ferrero-Waldner regarding the outcome of her visit, but we have remained in close contact with the European Commission on a number of issues relating to her visit, such as the temporary international mechanism.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 12 June 2006, *Official Report*, column 1003W, on the Middle East, what recent assessment she has made of the effectiveness of existing security arrangements in the Gulf; and if she will make a statement. [84141]

Margaret Beckett: Security of the Gulf is vital to our interests. We support a number of initiatives in the region, such as the International Institute of Strategic Studies' regional "Gulf Dialogue". Cabinet level delegations have attended the two conferences in Bahrain in 2004 and 2005. If any initiative is to be successful, leadership must come from the region.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what investigations she is undertaking to ascertain whether military equipment or components supplied directly or indirectly from the UK are being used by Israel in the military action it has been taking inside Lebanon since 12 July. [86592]

Dr. Howells: In common with all of our diplomatic posts, our Embassy in Tel Aviv monitors local developments closely and notes any information which comes to light that military equipment supplied by the UK has been used in a manner inconsistent with the Consolidated Criteria. The Government will take this into consideration when assessing any future export licence applications. The Government may also revoke relevant licence(s) and ask the authorities in the country concerned to investigate.

All export licence applications from the UK are rigorously assessed on a case-by-case basis against the Consolidated EU and National Export Licensing Criteria, taking full account of the prevailing circumstances at the time of application.

Nomenclature

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs what her Department's policy is on changes in nomenclature of foreign place names in official documents following linguistic

revisions by foreign governments, with particular reference to *(a)* India, *(b)* Burma and *(c)* China; and if she will make a statement. [84234]

Mr. Hoon: The Foreign and Commonwealth Office (FCO) consults the Permanent Committee on Geographical Names (PCGN) on issues concerning foreign geographical names. The PCGN is an interdepartmental body, whose principal function is to advise the Government on policies and procedures for the proper writing of geographical names for places and features outside the United Kingdom, excluding those of the Antarctic. The final decision on the appropriate name to use, however, rests with the lead section on geographical names within the FCO.

The policy for the application of geographical names is to follow the practice of the supreme administering authority of the country concerned. It is the FCO's policy to recognise changes of geographical name where these fall within the sovereign competence of a particular foreign government. For example, in India the name change from Madras to Chennai has been made according to due processes within the Government of India and requires appropriate acknowledgement within the FCO. The name Madras would therefore now be considered a former name for this city, in the same way that Salisbury is a former name for Harare.

However, there will be a number of occasions where a geographical name within the sovereign competence of a particular foreign government is already known in a traditional form in the English language and it would not be unusual for this form to be used within the FCO for ease of recognition. For example, the Burmese geographical name Yangon has long been known in the English language as Rangoon, and that form continues to be acceptable today. However, the use of English-language terms can also alter over time. This could be considered to have occurred in the case of Beijing, where the name Peking is today rarely encountered as the English-language name.

North Korea

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what her assessment is of the effectiveness of efforts to limit the illicit flow of nuclear material to North Korea; and if she will make a statement. [81729]

Margaret Beckett: We are not aware of any flow of illicit nuclear material. North Korea's graphite-moderated reactor at Yongbyon has been fuelled using indigenously produced natural uranium fuel.

Pakistani scientist Dr. A. Q. Khan has admitted to having supplied uranium enrichment technology to North Korea, although North Korea denies having a uranium enrichment programme.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment she has made of the potential for proliferation of *(a)* nuclear weapons material and technology and *(b)* missile technology from North Korea to state or non-state actors. [81731]

Margaret Beckett: North Korea's willingness to supply to others ballistic missile systems and technology is well established. Given the complexity of ballistic missiles and the necessary support systems, we believe it is extremely unlikely any non-state actor would seek to procure them.

While North Korea might be willing in principle to supply nuclear weapons material and technology to others, we do not currently assess this to be a significant risk. We and our allies, however, are monitoring continuously for any indication North Korea might be considering such a transfer.

Pastor Zhang Rongliang

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs whether she intervened in the case of Pastor Zhang Rongliang, sentenced to imprisonment in China. [85128]

Mr. McCartney: The Government are very concerned about human rights abuses in China. We have raised the case of Pastor Zhang Rongliang with the Chinese Government on a number of occasions, including at the last round of the UK-China Human Rights Dialogue on 3 July. The Chinese Government gave no new information about Pastor Zhang and we have received no official confirmation of recent reports of his sentencing. We will continue to raise our concerns about the harassment and imprisonment of religious practitioners in China and to closely monitor Pastor Zhang's case.

Public Appointments

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs how many public appointments are within her patronage; what *(a)* salary and *(b)* other emoluments are attached to each; and what the comparable figures were in (i) 1976, (ii) 1986 and (iii) 1996. [83180]

Mr. Hoon: Details of the public appointments to public bodies sponsored by the Foreign and Commonwealth Office (FCO) can be found in "Public Bodies", copies of which are in the Library of the House or at the following website:

www.civilservice.gov.uk/other/agencies "Public Bodies" has been published annually since 1980 and the most recent edition provides figures for 2005. Each edition of "Public Bodies" contains details on the number of public appointments and remuneration details for that particular year. Comparable information for 1976 in respect of the FCO could only be provided at disproportionate cost.

A summary of the FCO's latest information on public appointments to public bodies is as follows:

Diplomatic Service Appeal Board

Chair: Vacant

Remuneration: £0

Deputy Chair: Diana Ratzer

Remuneration: £0

Notes:

Remuneration is only paid when the Board meets. The Board last sat in 2004.

The Government Hospitality Advisory Committee for the Purchase of Wine

Chair: Sir David Wright

Remuneration: £0

Secretary: Robert Alexander

Remuneration: £0 Civil Servant

Notes:

None

Wilton Park Academic Council

Chair: Dr Farhan Nizami

Remuneration: £0

Secretary: Jane Rawbone

Remuneration: £0 Civil Servant

Notes: The Wilton Park Academic Council (WPAC) oversee the conference themes and academic independence of Wilton Park Conferences, an Executive Agency of the Foreign and Commonwealth Office. Wilton Park is responsible for organising WPAC meetings and members are unremunerated.

British Association for Central and Eastern Europe

Chair: The right hon. Lord Radice

Remuneration: £0

Director: Nicholas Jarrold

Remuneration: £48,000 per annum

Notes: The Chair is appointed by the British Association for Central and Eastern Europe with the approval of the Secretary of State for Foreign and Commonwealth Affairs.

The British Council

Chair: Lord Kinnock

Remuneration: £0

Chief Executive: Sir David Green

Remuneration: £149,576

Notes:

None

Great Britain-China Centre (The)

Chair: Peter Batey, OBE

Remuneration: £0

Notes:

The Chair is elected by the Executive Committee, with the approval of the Secretary of State for Foreign and Commonwealth Affairs. All new members of the Executive Committee are elected by the Executive Committee.

Marshall Aid Commemoration Commission

Chair: Jonathan Taylor

Remuneration: £0

Executive Secretary: Dr John Kirkland

Remuneration: £0

Notes:

None

Westminster Foundation for Democracy (The)

Chair: Hugh Bayley, MP

Remuneration: £0

Chief Executive: David French

Remuneration: £99,066 per annum

Notes:

Government funding is by FCO Grant in Aid. Other expenditure is from special purpose grants.

BBC World Service (Including BBC Monitoring) (BBCWS)

Director BBCWS: Nigel Chapman

Remuneration: £228,000 per annum

Chairman:

Remuneration: £0

Notes:

Chair, Deputy and members are the same as those for the BBC, and are listed only under that body (Department for Culture, Media and Sport Public Corporation) to avoid double-counting. The total gross expenditure figure shown above is gross expenditure from WS accounts plus BBCM accounts.

Foreign Compensation Commission

Chairman (part-time): Dr John Barker

Remuneration: Fee-paid on a daily basis. Budget allocation is £20,000 per annum

Secretary and Chief Examiner (part-time): Barrie England

Remuneration: £11,200 per annum

Notes:

None.

Ad Hoc Advisory Groups

All of the information that follows refers to Boards chaired by Officials or Ministers:

Caribbean Board

Chair: Colleen Harris and Pat Ramsey/Marilla Logan (job-share)

Notes:

The Caribbean Board provides advice and runs projects.

Consular Strategy Board

Chair: Rob Macaire, Director of Consular Services

Notes:

The aim and remit of the Board is to develop the Consular Strategy: In partnership, to investigate and debate the key challenges identified in that Strategy and the National Audit Office report on Consular Services, and to help Consular Directorate identify emerging trends and advise on potential difficulties of any proposed policies.

Public Diplomacy Strategy Board

Chair:

Notes:

This group ceased operation on 30 January 2006 following Lord Carter's review of Public Diplomacy and was replaced by new Public Diplomacy Board, with the same status but different membership (see below).

Public Diplomacy Board

Chair: Lord Triesman

Notes:

The aim of the Public Diplomacy Board is to improve public diplomacy effectiveness by:

Setting the strategic direction of UK public diplomacy;

Monitoring and evaluating the outcomes;

Making recommendations on resource allocation.

Travel Advice Review Group

Chair: Rob Macaire, Director of Consular Services

Notes:

The Travel Advice Review Group (TARG) was set up at the request of my right hon. Friend the former Foreign Secretary (Mr. Straw) following completion of the Review of FCO Travel Advice in 2004. The group comprises mainly the stakeholders to the review, i.e. those from all walks of the travel and tourism industry as well as insurance, airlines, non-governmental organisations, the Confederation of British Industry and travel publications. The purpose of the TARG is to discuss issues relating to FCO travel advice that are of common interest.

UK India Round Table

Chair: Right hon. Lord Barnes CH

Notes:

Members of the UK India Round Table are invited by my right hon. friend the Foreign Secretary to become members. Current members are:

Sir Tim Lankester

Bryan K. Sanderson CBE

Professor Dame Sandra Dawson DBE

Sir Mark Tully

Ms Patience Wheatcroft

Karan F. Bilimoria CBE DL

Richard Lambert

Dr Tidu Maini BSc ACGI DIG PhD

Nick Pearce

Jon Snow

Malcolm Chalmers

Members receive no remuneration apart from expenses.

Sudan

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what role her Department has played in engaging the international community to provide additional support to the African Union force in Darfur; what progress has been made; and what contribution the UK has made to the provision of such support. [84213]

Margaret Beckett: The UK has played a leading role in supporting the African Union Mission in Sudan (AMIS). We have committed £20 million for this financial year, bringing our total contribution to AMIS since its inception to £52 million. The money has provided vehicles, logistical support and other practical assistance.

We are also playing a leading role in efforts to secure further support for AMIS. We regularly lobby our EU and other international partners to provide additional assistance. The US, the EU and certain other donors have already made substantial contributions. We expect further pledges to be made at the forthcoming AMIS Donors Conference in Brussels on 18 July.

Treaties

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs by how many international treaties the United Kingdom is bound; and if she will make a statement. [85390]

Mr. Hoon: Foreign and Commonwealth Office (FCO) treaty records, which began in 1835, list 6,826 bilateral and multilateral treaties to which the United Kingdom became party and which entered into force for the United Kingdom. The authoritative "Index of British Treaties", published by HM Stationery Office in 1970, contains 1,498 such treaties for the period 1101 to 1835, thus giving a total of 8,324 treaties to-date.

This figure relates to treaties that have not been expressly terminated or otherwise recorded as no longer in force for the United Kingdom. FCO treaty records are held in electronic format and comprise both modern elements and information derived from 19th century records. The number of treaties stated above is the most accurate figure possible based on the finding-aids available.

UN Conference on Small Arms

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of why it was not possible to get an agreement on stricter controls at the UN Conference on Small Arms; what opportunities there are for revisiting this issue; and if she will make a statement. [86517]

Dr. Howells: It was very disappointing that the UN Small Arms Review Conference failed to agree an outcome document, particularly as the UK had succeeded in agreeing a consensus text on the need for work at the national, regional and global levels to strengthen transfer controls. Fortunately, as the achievement of a consensus text indicates, all countries now recognise the need to address the issue of transfer controls within the UN Programme of Action. Over 100 states at the Review Conference expressed support for strengthening transfer controls. The UK will continue to work with all states to build support for agreement on common guidelines for small arms and light weapons transfers, building on the progress made at regional level in the past three years under the UK's Transfer Controls Initiative. The UK is also keen to work with Canada on its proposal for an informal meeting of states in 2007 focused on transfer controls.

DEFENCE

BL755 Cluster Munition

Nick Harvey: To ask the Secretary of State for Defence (1) what assessment he has made of *(a)* the failure rate of the BL755 cluster munition and *(b)* its reliability for use in combat situations; [83981]

(2) by what method his Department assesses BL755 failure rates; and if he will make a statement; [83982]

(3) whether the classified reports which support the Department's assessment of the failure rate for the BL755 cluster munition contain evidence derived from combat use; [83983]

(4) whether an assessment has been made of the failure rate for the BL755 cluster munition based solely on evidence from combat use. [83984]

Mr. Ingram: I refer the hon. Member to the answer I gave on 17 March 2006, *Official Report*, column 2515W, to my hon. Friend for Stroud (Mr. Drew).

Information on the failure rate of the BL755 cluster bomb used by the RAF is collected during regular in-service surveillance trials. These trials are carried out by the Design Organisation (Lockheed Martin UK Insys Ltd.) on behalf of the Ministry of Defence.

The results of these trials are used to confirm the reliability of the BL755 cluster bomb for operational use. Some analysis of the accuracy and performance of BL755 cluster bombs used during operations has been

undertaken; however, the reliability of individual weapons was not specifically addressed as part of this analysis.

Efficiency Savings

Mr. Gerald Howarth: To ask the Secretary of State for Defence how the *(a)* Royal Navy, *(b)* Royal Air Force, *(c)* Army and *(d)* Defence Procurement Agency will meet the 2.5 per cent. reductions as part of the Ministry of Defence's 2.5 per cent. departmental efficiency savings. [87042]

Des Browne: The Ministry of Defence's 2.5 per cent. efficiency savings target equates to a total of £2.8 billion of annual efficiency gains across the department by the end of the three-year Spending Review 2004 period. A breakdown of how the MOD intends to achieve this target can be found in the MOD efficiency technical note, which is published on the Department's website at www.mod.uk.

Gulf War Illnesses

Lynne Featherstone: To ask the Secretary of State for Defence how many *(a)* former and *(b)* serving British soldiers have been diagnosed with Gulf war-related illnesses. [85951]

Mr. Watson: Information on all the illnesses reported by veterans of the 1990-91 Gulf conflict while still serving is not held centrally, as the Ministry of Defence does not hold records of all medical conditions reported after an individual has left the services. The NHS is responsible for the health care of ex-service personnel but information on diagnoses does not differentiate Gulf veterans. For those Gulf veterans still serving, Defence Medical Services are responsible for providing treatment for all medical conditions. We do not, however, hold diagnostic information specific to the operations on which personnel were deployed.

Helicopters

Mr. Ancram: To ask the Secretary of State for Defence how many *(a)* medium and *(b)* heavy lift helicopters are in service with the (i) Royal Air Force and (ii) Army, broken down by make. [85793]

Mr. Ingram *[holding answer 17 July 2006]:* The numbers of medium and heavy lift helicopters, in service in the Forward Fleet as at May 2006, broken down by type, are given in the following table:

Medium Lift

Type	*Number in service*
Puma HC1	26
Sea King Mk 3/3a	17
Merlin Mk 3	14

Heavy Lift

Type	*Number in service*
Chinook Mk2/2a	28

All medium and heavy lift helicopters in service in the Forward Fleet are owned by the Joint Helicopter Command. There are no medium and heavy lift helicopters operated by the Army. In addition to the figures shown in the table, the Royal Navy operate 30 Sea King Mk 4 medium lift helicopters.

Iraq

Mr. Waterson: To ask the Secretary of State for Defence on which occasions Ministers in his Department have *(a)* met the bereaved families of British soldiers killed in Iraq and *(b)* visited in hospital British soldiers wounded in Iraq. [86416]

Des Browne: Defence Ministers frequently visit members of the armed forces injured in Iraq. Since February, Defence Ministers have visited injured personnel on the following occasions:

Secretary of State:

Visited the Field Hospital at Shaibah Logistics Base in Iraq on 17 May 2005

Visited the Field Hospital at Shaibah Logistics Base in Iraq on 2 December 2005

Visited Headley Court and Royal College of Defence Medicine at Selly Oak on 20 January 2006

Visited the Field Hospital at Shaibah Logistics Base in Iraq on 18 March 2006

Visited the Field Hospital at Shaibah Logistics Base in Iraq on 18 May 2006

Minister for the Armed Forces:

Visited the Field Hospital at Shaibah Logistics Base in Iraq on 6-9 March 2005

Visited Royal College of Defence Medicine at Selly Oak on 14 June 2005

Visited 7th Armoured Brigade in Germany on 8-9 May 2006

Visited Headley Court on 10 July 2006

Minister for Defence Procurement:

Visited the Field Hospital at Shaibah Logistics Base in Iraq on 7 July 2005

Visited Royal College of Defence Medicine at Selly Oak on 18 November 2005

Under Secretary of State:

Visited Royal College of Defence Medicine at Selly Oak on 21 February 2005

Visited Royal College of Defence Medicine at Selly Oak on 8 September 2005

Visited Royal College of Defence Medicine at Selly Oak on 16 June 2006

For details of visits prior to those above, I refer the hon. Member to an answer given by my predecessor, the then Secretary of State for Defence, on 2 February 2005, *Official Report*, column 899W, to the hon. Member for Perth and North Perthshire (Pete Wishart).

Relatives of personnel killed in Iraq have also met the Defence Secretary at a repatriation ceremony at RAF Lyneham on 8 February 2005 and at a Remembrance Service at Salisbury Cathedral on 20 May 2005. The Minister for the Armed Forces attended a repatriation ceremony on 18 May 2006 at RAF Brize Norton.

In addition to the specific visits identified above, Ministers have on numerous occasions visited personnel in Iraq and in the UK once they have returned from operational duty. On some of these

occasions, Ministers will have met with personnel and their families. As it was not the main focus of these visits, the exact details have not been recorded.

Military Equipment

Nick Harvey: To ask the Secretary of State for Defence what the level of stocks of surplus clothing held by each of the armed forces was in each of the last five years. [85775]

Mr. Ingram: The armed forces hold sufficient stocks of clothing to meet their requirements as determined by Defence Planning Assumptions. Any surplus clothing (e.g. due to a change in the requirement) is disposed of through the Disposals Services Agency. Information on surplus clothing stock levels is not held centrally and could only be provided at disproportionate cost.

Armoured Vehicles

Mr. Paterson: To ask the Secretary of State for Defence (1) if he will reconsider the purchase of the armoured Pinzgauer vehicles on order for troops in Afghanistan; [82515]

(2) what the performance specifications are of the new patrol vehicle Vector; what type of vehicle it is; and how its armour protection compares with the *(a)* Snatch Land Rover and *(b)* RG-31; [82573]

(3) what assessment he has made of the level of protection afforded to troops by the *(a)* RG-31 vehicle and *(b)* Snatch Land Rover. [84311]

Des Browne: Vector is the name of the programme to buy a new, Pinzgauer based, protected patrol vehicle to supplement the current Land Rover Snatch vehicle. The programme is on contract for delivery of vehicles in 2007. The key performance requirements for Vector are improved mobility, payload and capacity compared to Snatch. We do not comment on levels of armour protection, as disclosure would, or would be likely to, prejudice the security of our armed forces.

Nuclear Test Veterans

Mr. Maude: To ask the Secretary of State for Defence what recent discussions he has had with representatives from *(a)* the USA, *(b)* Canada, *(c)* Australia and *(d)* New Zealand on nuclear test veterans and sharing of best practice. [86144]

Mr. Watson: I have had no discussions with these countries on nuclear test veterans and sharing of best practice. MOD officials maintain contact with these countries on a wide range of veterans' issues, mainly under the auspices of the Senior International Forum. We are of course aware of the recent Australian and New Zealand Reports on the health of nuclear test veterans. We are studying these carefully and have been in touch with officials from both countries with respect to their findings.

Operation Mountain Thrust

Mr. Harper: To ask the Secretary of State for Defence whether *(a)* NATO commanders and officials and *(b)* British (i) commanders and officials and (ii) Ministers were consulted by (A) US commanders and (B) the US Administration before Operation Mountain Thrust in Afghanistan. [82854]

Des Browne *[holding answer 6 July 2006]*: I can confirm that NATO/UK commanders and officials, and British Ministers, discussed Operation Mountain Thrust with US commanders and the US Administration.

Veterans

Mr. Harper: To ask the Secretary of State for Defence what assessment he has made of the possible barriers that veterans face when attempting to access *(a)* housing and *(b)* employment on leaving the armed forces. [84858]

Mr. Watson: We are working closely with the Department for Committees and Local Government to enable service personnel to qualify under the "local connection" provisions of the Housing Act 1996, in order to overcome the barriers common to both servicemen and their civilian counterparts in access to affordable or social housing. The Joint Service Housing Advice Office offers advice and information about mortgages and affordable home ownership solutions including shared equity schemes. For those single personnel in danger of homelessness, it can facilitate access to temporary accommodation.

The success of Service leavers who use the career transition partnership as part of their resettlement preparation in securing employment after discharge—over 50 per cent. within one month of discharge, rising to over 95 per cent. six months after departure—suggests that there are few barriers to employment of most service personnel. Coaching provided by the Partnership often gives service leavers a competitive edge over other candidates and many of the personal attributes inherent in service culture are highly prized by civilian employers.

The Career Transition Partnership has an effective marketing arm that carefully targets prospective employers who can offer quality jobs to service leavers. Its marketing strategy includes dispelling negative misconceptions about service personnel and their ability to adapt to the civilian workplace. Employers who engage service leavers are seldom disappointed and tend to seek more when vacancies arise.

Individuals who depart under early service leaver arrangements may face more of a challenge. Those that discharge from recruit and basic professional training establishments before completing courses of instruction are unlikely to have gained the transferable competencies and professional qualifications of those service personnel who have entered productive military service. They therefore are more likely to have to contend with the same barriers to employment as confront civilians with a comparable lack of marketable skills. However, on discharge all ex-regular

military personnel, regardless of age, have immediate access to the Department of Work and Pensions new deal, which includes occupational and basic skills training.

HEALTH

Acute Hospital Services

Tim Farron: To ask the Secretary of State for Health whether her Department has accepted the recommendations of the 2002 Royal College of Physicians working party on isolated acute medical services. [85594]

Andy Burnham *[holding answer 14 July 2006]:* At the time of publication, the Government noted this report, which was based on a survey conducted in spring 2001 and made a valuable contribution to the development of best practice in this area.

Advertising Campaigns

Mr. Hayes: To ask the Secretary of State for Health what advertising campaigns her Department has run since July 2004; and what the *(a)* date and *(b)* cost was of each. [81924]

Mr. Ivan Lewis: The table sets out the advertising campaigns commissioned by the Department's communications directorate since July 2004, showing the date and cost.

2004-05

Campaign	*Date*	*Advertising cost (£ million)*
Drugs (joint campaign with the Home Office)	July, December 2004 February, March 2005	0.99
Flu	October, November 2004	1.50
NHS including nurse recruitment	September 2004 February 2005	5.84
Sexual health	January, February 2004	1.26
Social care/worker recruitment	January, March 2005	2.14
Smoking testimonial campaign	July to September, November 2004	7.90
Emotional consequences and local NHS Stop Smoking	January to March 2005	8.75
Second hand smoke - children	—	—
Motivations that matter - young adults (smoking)	—	—
Second hand smoke - adults	—	—
Local NHS stop smoking	—	—
Testimonials and local NHS Stop Smoking	—	—
Winter (Get the right treatment)	November 2004	0.59
E111	April 2004 until March 2005	0.32

2005-06

Campaign	*Date*	*Advertising cost (£ million)*
Drugs (joint campaign with the Home Office)	October, December 2005 February, March 2006	1.70
Flu	October, November 2005	1.85
NHS including nurse recruitment	September 2005	0.24
Sexual health	—	0.00
Social care/worker recruitment	February, March 2006	2.44
Smoking testimonial campaign	December 2005	0.56
Emotional consequences and local NHS Stop Smoking	—	—

Motivations that matter - young adults (smoking)	July to August 2005	4.32
Second hand smoke - adults	September to October 2005	4.25
Local NHS stop smoking	September to November 2005	0.79
Testimonials and local NHS Stop Smoking	February to March 2006	5.53
Winter (Get the right treatment)	October, November 2005	0.59
E111	May 2005 to March 2006	1.37

Alliance Medical

Mr. Davey: To ask the Secretary of State for Health if she will make a statement on progress in reviewing the scans carried out by Alliance Medical. [85465]

Mr. Ivan Lewis: Scan quality is independently audited every six months by the clinical guardian of the contract, Professor Adrian Dixon, national health service sponsors and Alliance Medical Ltd.'s head of clinical governance. In addition, two audits have been produced by the Royal College of Radiologists in conjunction with the Department. The audits are available at the Royal College of Radiologists website at:

www.rcr.ac.uk/docs/radiology/pdf/MR_CG_Audit_Apri!2006.pdf

and at:

www.rcr.ac.uk/docs/newsroom/pdf/MRI_AUDIT_REPORT_FINAL_17505.pdf

The second audit, which was published in April 2006, again found that there was little overall difference in the clinical opinion between independent service provider (Alliance Medical Ltd.) and the NHS reports and, that there was little overall difference in the technical quality of the magnetic resonance examinations between the two services overall.

Quality is monitored consistently throughout the contract as an integral part of the clinical governance framework. Any discrepancies or concerns are audited on a case by case basis by the clinical guardian of the contract.

Alzheimer's Disease

Mr. Carswell: To ask the Secretary of State for Health what estimate she has made of the likely effect on costs to *(a)* local authority social services and *(b)* the NHS of caring for patients with mild Alzheimer's disease of the National Institute for Health and Clinical Excellence's proposal to restrict treatment for such patients. [86973]

Mr. Ivan Lewis: No such estimate has been made. The National Institute for Health and Clinical Excellence (NICE) appraisal of these drugs has not yet concluded. Until NICE issues revised guidance to the national health service, its original guidance issued in 2001 continues to apply.

Social Care

Mr. Stephen O'Brien: To ask the Secretary of State for Health if she will take steps to ensure that voluntary, private and public providers of care receive the same levels of fee and remuneration for publicly-funded care places. [85864]

Mr. Ivan Lewis: The principles for contracting for care services set out in "Building Capacity and Partnerships in Care" include fairness to all service providers and the encouragement of fair competition.

Rosie Cooper: To ask the Secretary of State for Health (1) how many people employed in the care of elderly and vulnerable people in West Lancashire have subsequently been found to have criminal records and to be unsuitable for such employment; and what steps she has taken to remedy this situation; [83460]

(2) what steps her Department takes to ensure that private companies providing care in West Lancashire for *(a)* the elderly and *(b)* vulnerable adults ensure that all their employees are checked by the Criminal Records Bureau before commencing employment. [83464]

Mr. Ivan Lewis: I understand from the Criminal Records Bureau that figures for people with criminal records found to be unsuitable for employment in the care of elderly and vulnerable people specifically in West Lancashire are not available.

The Criminal Records Bureau estimates that in 2005 some 25,000 unsuitable people were prevented from working with children and vulnerable adults as a direct result of Criminal Record Bureau checks.

All care homes, domiciliary care agencies, adult placements schemes and nurses agencies in England are regulated by the Commission for Social Care Inspection (CSCI), which is the independent regulator for social care. The CSCI is responsible for registering and inspecting the regulated social care sector in accordance with statutory regulations and national minimum standards to ensure consistency and improve the quality of life and level of protection for the most vulnerable people in society.

Regulated social care providers are required to conduct rigorous pre-employment checks on prospective staff including obtaining a Criminal Records Bureau Disclosure. Since 26 July 2004, there has also been a requirement for prospective employees in these areas to be checked against the protection of vulnerable adults list before starting work.

The CSCI takes appropriate enforcement action where there is a breach of the regulations.

Information about the reasons for enforcement action by the CSCI is not collected centrally.

Andrew Rosindell: To ask the Secretary of State for Health what steps she *(a)* is taking and *(b)* plans to take to ensure that people who have (i) multiple sclerosis and (ii) other long-term and fluctuating conditions receive access to social care at an early stage in the progression of their condition. [86235]

Mr. Ivan Lewis: The national service framework for long-term conditions, published in March 2005, has as a key quality requirement the need to ensure people living with long-term conditions are offered a timely integrated assessment of their individual health and social care needs.

Andrew Rosindell: To ask the Secretary of State for Health what recent assessment she has made of the uniformity of access to social care in different parts of the country. [86238]

Mr. Ivan Lewis: The Department has not made any recent assessment of the uniformity of access to social care in different parts of the country. Fair access to care services (FACS) is designed to deliver uniformity of access within council areas, not between councils. Decisions about eligibility for services are made by individual councils in response to local need and according to criteria set out in the FACS guidance "Fair Access to Care Services Guidance on Eligibility Criteria for Adult Social Care". The guidance is contained in local authority circular (2002)13 and available on the Department's website at: www.dh.gov.uk/assetRoot/04/01/96/41/04019641.pdf

A copy has been placed in the Library.

Andrew Rosindell: To ask the Secretary of State for Health if she will increase the amount spent on equipment used by social care workers to care for individuals with *(a)* multiple sclerosis and *(b)* other conditions resulting in mobility problems. [86239]

Mr. Ivan Lewis: It is for primary care trusts and councils to decide, locally, how best to allocate resources and provide appropriate mobility equipment for their population.

Central Budget Review

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Portsmouth, South (Mr. Hancock) of 20 March 2006, *Official Report*, column 175W, on section 64, when the central budget review will be completed. [63119]

Mr. Ivan Lewis: The central budget review for 2006-07 was completed at the end of April 2006. Final central budget allocations were issued to directors at the start of June. The allocations have been subject to minor reductions to cover a small number of pressures that were considered inescapable.

Community Hospitals

Mr. Gray: To ask the Secretary of State for Health how many *(a)* letters and *(b)* other representations her Department has received on Chippenham community hospital. [85497]

Mr. Ivan Lewis: Due to the way data is collected, the Department is unable to provide the number of letters received in relation to Chippenham community hospital.

Dental Laboratories

Mr. Walter: To ask the Secretary of State for Health how many dental laboratories there were in *(a)* England and *(b)* North Dorset in December 2005; and what estimate she has made of the number of dental laboratories which have closed in each area since this date. [86094]

Ms Rosie Winterton: Between December 2005 and July 2006, the number of dental laboratories registered under the medical devices directive in the United Kingdom increased from 3,090 to 3,104. We do not have any more detailed information on numbers of laboratories, as dental laboratories are private enterprises with which the national health service has no contractual relationship.

Drug Addiction

Mr. Greg Knight: To ask the Secretary of State for Health what assessment she has made of the relative *(a)* efficiency and *(b)* effectiveness of (i) naltraczone, (ii) Subutex and (iii) methadone in treating drug addiction; whether such drugs are to be made more widely available; and if she will make a statement. [86255]

Caroline Flint: The Department recognises the key role that effective pharmacotherapies, including substitute opiate prescribing and medications such as naltrexone to assist relapse prevention, may play in the management of opiate dependence. The Department published its evidence-based Clinical Guidelines, "Drug misuse and dependence—guidelines on clinical management", in 1999, on the advice of an independent expert group and in conjunction with relevant professional bodies. The 1999 Clinical Guidelines address the use of methadone, buprenorphine (more recently with a marketing authorisation for use as Subutex) and naltrexone. The guidelines discuss the relative effectiveness of buprenorphine and methadone, but as naltrexone is licensed only for use to support relapse prevention, no direct comparison is feasible with the opiate substitute methadone and buprenorphine. The guidelines do support the use of all these drugs as potentially effective opiate misuse treatments when used appropriately. The Department's clinical guidelines are due to be updated in 2006-07 and this will take into account planned guidance on the use of all these drugs due to be published in 2007 by the National Institute for Health and Clinical Excellence (NICE).

The Department of Health has asked NICE, within a package of work that they will be undertaking on drug treatment, to carry out a technology appraisal on oral methadone and sublingual buprenorphine as opiate substitute treatments. This appraisal will evaluate the clinical effectiveness and cost-effectiveness of these drugs as substitute opiates for the management of opiate misusers. The Department also asked at the same time for a similar technology appraisal for "naltrexone as a treatment for relapse prevention" for opiate misuse. This will include appraisal of its clinical effectiveness and cost-effectiveness. Both these technology appraisals are scheduled for publication in March 2007.

All three of these drugs are currently prescribed for management of opiate dependence. Given that the NHS are obliged to implement guidance produced by NICE, the outcome of their work on drug treatment will be an important support in enhancing the effectiveness of drug treatment and in particular substitute prescribing.

Hospital-acquired Infections

Mr. Vara: To ask the Secretary of State for Health what progress has been made in combating the spread of MRSA in hospitals. [82249]

Andy Burnham *[holding answer 5 July 2006]:* Combating methicillin-resistant Staphylococcus aureus (MRSA) and other health care associated infections (HCAIs), continues to be a priority for Government. A target to reduce the number of MRSA bloodstream infections by half by April 2008 is in place and each trust has its own target. The total number of these infections in 2004-05 was 7,212, compared with 7,684 in 2003-04. Figures for 2005-06 will be published later this month.

All acute trusts have signed up to a "Saving Lives" package of best practice measures. The Department continues to engage those trusts facing the most significant challenges and it will seek to work with trusts most likely to benefit from support tailored to their organisational needs. Additionally, the Health Act, which received Royal Assent on 19 July, intends through the new code of practice, to give a statutory footing to what is already accepted as best practice—thus driving up standards of hygiene and infection control.

Leg Ulcers

Mr. Oaten: To ask the Secretary of State for Health (1) what plans she has to introduce a preventative programme to reduce the prevalence of leg ulcers; and if she will make a statement; [86505]

(2) what the cost to the NHS was of the treatment of leg ulcers in each of the last three years; and if she will make a statement; [86506]

(3) how many people were treated for leg ulcers in England in each of the last three years; and if she will make a statement; [86507]

(4) what the location is of each specialist leg ulcer clinic in England; and if she will make a statement. [86508]

Mr. Ivan Lewis: The most common cause of leg ulcers is poor circulation triggered by high blood pressure, diabetes, and coronary heart disease. Obesity and smoking are also known to increase the risk of leg ulcers.

The Department's preventive programme is aimed at the effective management of these underlying medical conditions through the quality and outcomes framework component of the new general medical services contract for general practices introduced in April 2004, as well as public health campaigns to raise awareness of the health risks associated with smoking and clinical obesity.

Local health bodies have the responsibility to provide services for the treatment of leg ulcers. The Department does not collect information on the location of specialist leg ulcer clinics.

Information on the number of people treated for leg ulcers, and the cost of providing this treatment, is not collected.

ME Services

Mr. Amess: To ask the Secretary of State for Health what steps she plans to take to ensure that primary care trusts continue to provide specialist myalgic encephalomyelitis and encephalopathy services after their reconfiguration in October 2006; and if she will make a statement. [85773]

Mr. Ivan Lewis: We have no plans to address specifically the provision of services for those living with chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME) during the forthcoming reconfiguration of primary care trusts (PCTs).

The reconfigured PCTs will be expected to provide the same level of health and social care provision as existing trusts. PCTs have the freedom to decide how best to provide health and social care for those with CFS/ME, either in existing services or in a specialist centre.

Ministerial Visits

Mr. Harper: To ask the Secretary of State for Health which health service facilities in the geographical area covered by the new strategic health authority for the South West *(a)* she and *(b)* her Ministers plan to visit; and when. [84856]

Mr. Ivan Lewis: My right hon. Friend the Secretary of State for Health plans to visit the geographical area covered by the new strategic health authority for the South West on 25 July 2006. She will visit a number of health facilities (yet to be confirmed) in Shepton Mallet, Cirencester and Bath. The Minister with responsibility for care services will also visit the area in September although specific details are yet to be arranged.

National Programme for Information Technology

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 16 June 2006, *Official Report*, column 1558W, on the National Programme for Information Technology, what the total level of savings are which have been achieved by NHS organisations where national programme systems and services have been delivered ahead of time; and in which NHS organisations these savings were achieved. [80307]

Caroline Flint: Comprehensive information of the kind requested is not collected centrally. However, the most obvious example of savings of the kind described is when new systems, paid for under the programme, have replaced systems that local national health service bodies have previously been paying for. Across the whole of the NHS, and over the 10-year life of the national programme, these savings will be very substantial. In the case of the local service provider contracts, local savings are expected to offset nearly half the local costs over the lives of the contracts; a saving of some £2.5 billion.

In the case of picture archiving and communications (PACS) systems, local savings are expected fully to offset the local costs of £684 million. Smaller savings are also expected in other areas, for example, where local NHS bodies use N3 or NHSmail to replace services for which they are currently paying. The business case for NHSmail estimated such savings at £185 million.

Further savings as a consequence of safety and organisational improvements will also be cash-releasing, and are highlighted in the recent National Audit Office report into the national programme.

NHS Finance

Mr. Clifton-Brown: To ask the Secretary of State for Health what the outcome was of capital spending against budget for *(a)* Avon, Wiltshire and Gloucestershire strategic health authority and *(b)* the Cotswold and Vale primary care trust for each of the last five years. [85078]

Mr. Ivan Lewis: The information requested is shown in the following table for the years that the organisations have been in existence. The latest year for which information is available is 2004-05.

			£ thousand
	2002-03	*2003-04*	*2004-05*
Avon, Wiltshire and Gloucestershire strategic health authority (SNA)			
Net capital resource outturn	815	174	201
Capital resource limit	943	186	270
Underspend against capital resource limit	128	12	69
Cotswold and Vale primary care trust (PCT)			
Charge against the capital resource limit	772	909	417

			£ thousand
	2002-03	2003-04	2004-05
Capital resource limit	788	1,803	1,272
Underspend against capital resource limit	16	894	855

NHS IT

Mr. Stephen O'Brien: To ask the Secretary of State for Health what assessment she has made of the efficiency of the roll-out of the NHS IT programme to genito-urinary medicine clinics; what representations she has received on this matter; and what response she has given. [80982]

Caroline Flint: National and local systems and services continue to be rolled out across the country in ever-increasing numbers, and every national health service location has already benefited under the national programme from delivery of software, hardware or the broadband connections that enable these to be accessed. We are on track to complete the national programme, as planned, by 2010.

In parallel with the deployment of national systems, thousands of local systems have now been delivered and serve more than 240,000 users. This includes many acute sector departmental systems supporting clinical specialties, though no systems designed specifically to support genito-urinary medicine (GUM) clinics, or other sexual health services, have yet gone live. We are not aware of any representations specifically on this matter. However, the programme's national "Do Once and Share" project, under the directorship of Professor Muir Gray, has engaged GUM and other sexual health clinicians, and consulted them on their future information management and technology needs. The results are being shared nationally with the support of the IM and T group of the British Association of Sexual Health and HIV.

We recognise that it is of enormous importance that systems and services delivered through the national programme should guarantee the very particular information security and confidentiality requirements of patients accessing GUM and sexual health services. Stringent security controls and safeguards have been incorporated to prevent unrestricted or uncontrolled access to personal information. Access is controlled via a unique user identity, involving a pass code and smart card, which can only be obtained on verification of identity and through a formal user registration process.

Osteoporosis

John Austin: To ask the Secretary of State for Health (1) what proportion of *(a)* hospital trusts, *(b)* primary care trusts, *(c)* general practitioner services and *(d)* intermediate care services have undertaken medicine utilisation reviews or other medicine review initiatives to ensure patients suffering from osteoporosis are prescribed the most appropriate medicine type and dosage; [85578]

(2) what consideration her Department has given to the inclusion of osteoporosis in the development of the "Life Check" scheme; [85579]

(3) what assessment her Department has made of the merits of nurse-led fracture liaison services to support patients suffering from osteoporosis. [85580]

Mr. Ivan Lewis: The Department has not assessed the merits of nurse-led fracture services to support people living with osteoporosis.

Information is not held centrally on medicine reviews for patients with specific conditions, including osteoporosis.

The content of the "Life Check" assessments at each life stage is yet to be determined and agreed, but will include the major lifestyle risk factors relevant to each life stage, such as smoking, physical activity and diet.

Overview and Scutiny Committees

Mr. Drew: To ask the Secretary of State for Health pursuant to the answer of 22 June 2006, *Official Report*, column 2106W, on overview and scrutiny committees, why hon. Members cannot be co-opted onto OSCs. [81316]

Ms Rosie Winterton: As stated in my previous reply, overview and scrutiny committees (OSCs) have powers set out in the Local Government Act 2000 to co-opt non-voting members onto OSCs. These co-opted members can be:

a member of a committee of the county council or another local authority, for the purposes of relevant functions of the committee in relation to the county council; or

a member of a committee of the county council, for the purposes of relevant functions of the committee in relation to another local authority.

Therefore, hon. Members cannot be co-opted onto an OSC.

Parliamentary Questions

Mr. Amess: To ask the Secretary of State for Health how many parliamentary questions tabled to her Department were awaiting a reply on 10 July 2006; which of those had been waiting longer than *(a)* two and *(b)* three weeks for a reply; and what the reason for the delay was in each case. [85206]

Mr. Ivan Lewis: The available information is as follows.

As at 17 July, 13,280 parliamentary questions have been tabled this session on Department of Health matters. Some 573 were awaiting answer, of which 21 were outstanding for more than two weeks but less than three weeks, and 68 for more than three weeks. We aim to ensure that Members receive a substantive response to their named day question on the named day and endeavour to answer ordinary written questions within a working week of being tabled. Unfortunately, this is not always possible, but this Department makes every effort to achieve these time scales.

Pre-CSR Report

Dr. Cable: To ask the Secretary of State for Health what discussions she has had with *(a)* the Treasury and *(b)* the Cabinet Office regarding the pre-comprehensive spending review report; and if she will make a statement. [82840]

Mr. Ivan Lewis: My hon. Friend, the Secretary of State for Health has had and will continue to have wide-ranging and regular discussions with the Chief Secretary about preparations for the "2007 Comprehensive Spending Review", as a matter of key importance to the Department's medium and long-term planning.

Smoking

Janet Anderson: To ask the Secretary of State for Health what level of fine will be imposed on individual licensees in England and Wales for not enforcing the smoking ban in their public houses; and what research her Department has undertaken on the level of fines in other jurisdictions. [80921]

Caroline Flint: Penalties for offences within chapter 1, part 1 of the Health Bill, on smoke-free premises, places and vehicles, will be set out in regulations.

Through the passage of the Health Bill, Ministers have clearly set out the Government's intentions for fine levels for offences under smoke-free legislation, and propose that a person who is found guilty of an offence under clause 8 of the Health Bill (offence of failing to prevent smoking in a smoke-free place) will be liable on summary conviction to a fine not exceeding level four on the standard scale.

The levels of penalties for offences under chapter 1, part 1 of the Health Bill were the subject of public consultation in 2005, as part of the Consultation on the smoke-free elements of the Health Improvement and Protection Bill published by the Department.

Proposals for levels of penalties reflect the feedback from this consultation process, as well as advice received from other bodies including the Home Office.

Proposed penalties for the offence of failing to prevent smoking in a smoke-free place are consistent with those in Scotland's smoke-free legislation, with the exception that a penalty notice for this offence can be issued by an authorised officer of an enforcement authority in Scotland.

Speech Therapy

Mr. Evennett: To ask the Secretary of State for Health what representations she has received on speech and language therapy services in the London borough of Bexley; and if she will make a statement. [84876]

Mr. Ivan Lewis: No representations have been received by my hon. Friend the Secretary of State for Health on speech and language therapy services in the London borough of Bexley.

TREASURY

Demographics

Mr. Stewart Jackson: To ask the Chancellor of the Exchequer what the population of Peterborough was in each year between 1997 and 2005; what the population is estimated to be in 2006; and what estimate has been made of future population trends. [85994]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 19 July 2006:

As National Statistician, I have been asked to reply to your question asking what the population of Peterborough was in each year between 1997 and 2005; what the population is estimated to be in 2006; and what estimate has been made of the future population trends. (85994)

Mid-2005 population estimates for England and Wales are due to be published on 24 August 2006. The attached table therefore provides the requested data for the years 1997 to 2004 and 2003-based projections for 2005 and 2006. In addition, projections for 2007 to 2028 are also shown to indicate the future projected trend.

Mid-year population estimates and projections for Peterborough

	Number
Population Estimates	
1997	156,400
1998	155,900
1999	156,500
2000	156,600
2001	157,400
2002	157,600
2003	158,800
2004	159,100
Population Projections[1]	
2005	160,300
2006	161,000
2007	161,800
2008	162,600
2009	163,400
2010	164,300
2011	165,100
2012	166,000
2013	167,000
2014	167,900
2015	168,800
2016	169,800
2017	170,700
2018	171,600
2019	172,600
2020	173,500
2021	174,400
2022	175,300
2023	176,100
2024	176,900
2025	177,700
2026	178,500
2027	179,300
2028	180,000

[1] The population projections data shown are taken from the 2003-based subnational population projections, the latest set of projections currently available. Therefore they may not be consistent with the 2004 mid-year estimate.

Note:
Data are rounded to the nearest 100.

Office for National Statistics.

Electronic Auctions

Martin Horwood: To ask the Chancellor of the Exchequer what *(a)* procedure and *(b)* criteria were used to add suppliers to the list of electronic auction

framework agreements by the Office of Government Commerce; and what recent assessment his Department has made of the developing market in intellectual copyright related to electronic auctions. [86020]

John Healey: The electronic reverse auctions framework agreements were awarded in accordance with the restricted procedure as set out in the EC procurement directives, using the "most economically advantageous tender" criterion.

No suppliers have been added to the list of those awarded electronic auction framework agreements. No recent assessments have been made of the market for intellectual property rights in the functionality of software that enables reverse auction services.

FSA Fines

Mr. Drew: To ask the Chancellor of the Exchequer how the money collected by the Financial Services Authority in fines is allocated. [86561]

Ed Balls: The Financial Services and Markets Act 2000 (FSMA) provides that penalties levied on firms are allocated to the fee-block or blocks to which the activities relate—fee blocks group fee payers conducting similar activities. This ensures that the costs of undertaking enforcement actions are matched, as far as possible, with any penalties they might generate.

FSMA sets out that the Financial Services Authority (FSA) must not take account of any sums it has received, or may receive, by way of penalties when fixing the level of its fees. This means that the FSA does not take financial penalties into account when calculating the level of its annual funding requirement and the fee rates resulting from the AFR. Neither does the FSA treat financial penalties as income—rather, they are a liability owed to fee payers.

The FSA's rules in this area were set out in a policy statement in May (see annex 4 in particular): http://www.fsa.gov.uk/pubs/policy/ps06_03.pdf

Household Incomes

Dr. Cable: To ask the Chancellor of the Exchequer (1) what the *(a)* median and *(b)* mean gross household income was in the last year for which information is available; and if he will make a statement; [85778]

(2) what the lower limit of the top decile for gross household earnings was in the last year for which information is available; and if he will make a statement. [85779]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 19 July 2006:

As National Statistician, I have been asked to reply to your recent questions asking what the (a) median and (b) mean gross household income was in the latest year available and what the lower limit of the top decile is for gross household earnings for the latest year (85778, 85779).

These estimates are based on the ONS analyses "The effects of taxes and benefits on household income" which is published annually. The latest analysis for 2004/05 was published on the National Statistics website on 12th May 2006 at http://www.statistics.gov.uk/taxesbenefits. It is based on the Expenditure and Food Survey, which has a sample covering approximately 7,000 households in the UK. The analysis for 2005/06 is due to be published on the National Statistics website in May 2007.

Gross incomes include income from employment, self-employment, pensions, investment income, and cash benefits. The median gross household income in 2004/05 was £24,700 per year. The mean household gross income (which appears in table 14, appendix 1) was £31,884 per year.

Analyses of the distribution of household income are based on equivalised household incomes. These equivalised incomes are standardised to take into account the different size and composition of households. The lower limit of the top decile for equivalised household gross income in 2004/05 was £53,239 per year.

Separate figures are published on the earnings of employees although they are not directly comparable with these figures on household income, which cover all sources of income (not just income from employment) and all households in the population.

Life Expectancy

Mr. MacNeil: To ask the Chancellor of the Exchequer what average life expectancy was in *(a)* 1994 and *(b)* 2004 in each country in the UK, broken down by (i) local authority and (ii) health board area; and what projections for average life expectancy are in each area in (A) 2024, (B) 2034 and (C) 2044. [86586]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 19 July 2006:

As National Statistician, I have been asked to reply to your recent question asking what average life expectancy was in (a) 1994 and (b) 2004 in each country in the UK, broken down by (i) local authority and (ii) health board area; and what projections for average life expectancy are in each area in (A) 2024, (B) 2034 and (C) 2044. (86586)

Figures on life expectancy at birth for males and females at national and sub-national level are published annually by ONS based on three-year rolling averages. Results from 1991-93 to 2002-04, are available on the National Statistics website at:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk=8841

Period and cohort life expectancies at birth and five-yearly age intervals for the years 1981 to 2054 for the United Kingdom and its constituent countries, calculated using historic mortality rates and projected mortality rates from 2004-based national population projections, can be accessed from the GAD website at:

http://www.gad.gov.uk/Life_Tables/Period_and_cohort_eol.htm

An explanation of period and cohort expectations of life is also available on the GAD website. Sub-national life expectancy projections are not available.

Mr. Salmond: To ask the Chancellor of the Exchequer what average life expectancy was in *(a)* 1994 and *(b)* 2004 in each country in the UK, broken down by (i) local authority and (ii) health board area; and what projections for average life expectancy are in each area in (A) 2024, (B) 2034 and (C) 2044. [86587]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 19 July 2006:

As National Statistician, I have been asked to reply to your recent question asking what average life expectancy was in (a) 1994 and (b) 2004 in each country in the UK, broken down by (i) local authority and (ii) health board area; and what projections for average life expectancy are in each area in (A) 2024, (B) 2034 and (C) 2044. (86587)

Figures on life expectancy at birth for males and females at national and sub-national level are published annually by ONS based on three-year rolling averages. Results from 1991-1993 to 2002-2004, are available on the National Statistics website at:

http://www.statistics.gov.uk/statbase/Productasp?vlnk=8841

Period and cohort life expectancies at birth and five-yearly age intervals for the years 1981 to 2054 for the United Kingdom and its constituent countries, calculated using historic mortality rates and projected mortality rates from 2004-based national population projections, can be accessed from the GAD website at:

http://www.gad.gov.uk/Life_Tables/Period_and_cohort_eol.htm

An explanation of period and cohort expectations of life is also available on the GAD website. Sub-national life expectancy projections are not available.

Maritime and Aviation Intelligence Team

Mr. Drew: To ask the Chancellor of the Exchequer why the Maritime and Aviation Intelligence Team has been disbanded; and what its replacement is. [86562]

Dawn Primarolo: The intelligence arm of HM Revenue and Customs was re-organised in early 2006 to create a national structure focused on key risk areas. This involved the re-forming of teams, including the Maritime and Aviation Intelligence Team. The staff and their expertise have been retained, in teams that focus on risks posed by different types of transport, and in teams that deal with intelligence gathered from local sources of information.

Oil Prices

Chris Huhne: To ask the Chancellor of the Exchequer what effects his Department's econometric model predicts of a sustained $10 per barrel rise in the world oil price in each of the five subsequent years compared with a base forecast on *(a)* gross domestic products (GDP), *(b)* GDP growth, *(c)* consumer price inflation, *(d)* the unemployment rate, *(e)* the employment rate, *(f)* Government borrowing as a percentage of GDP, *(g)* policy interest rates, *(h)* balance of trade as a percentage of GDP, *(i)* the current account of the balance of payments as a percentage of GDP, *(j)* public debt at end year as a percentage of GDP, *(k)* the effective exchange rate and *(l)* the real effective exchange rate; and what other economic assumptions are made in each case. [86640]

John Healey: The effects on the UK economy of a sustained $10 rise in oil prices would depend on the factors driving oil prices—for example, the extent to which prices increased due to demand pressures or supply constraints.

The Chancellor of the Exchequer announced in the Budget that, because of continuing oil market volatility, the annual inflation-only increase in main fuel duties would be deferred until 1 September 2006.

Oil has been trading in recent weeks in a range of $66-$78 per barrel. The risk of oil price volatility remains high, and the Government will not therefore go ahead with the planned inflation-only increase in main road fuel duties on 1 September—and related increases for rebated oils, biofuels and road fuel gases—and will review the position again at the time of the pre-Budget report.

Parliamentary Questions

Mr. Soames: To ask the Chancellor of the Exchequer when he will provide a substantive answer to question 82306 on visits to Malawi tabled for named day answer on 4 July by the hon. Member for Mid Sussex. [86448]

John Healey: I answered the hon. Gentleman's question on 17 July 2006.

Red Diesel (Marine Vehicles)

Mr. Drew: To ask the Chancellor of the Exchequer what progress has been made with negotiations on the derogation from the EU directive on the use of red diesel by marine vehicles. [86393]

John Healey: As required under the energy products directive, the European Commission issued a communication on 4 July stating its position on derogations due to expire at the end of this year, and noting that member states may apply under the normal procedures for renewal of derogations. As announced by Chancellor of the Exchequer at the Budget, the UK will be submitting an application for renewal of the derogation enabling pleasure boats to use red diesel. This application will be informed by the case that the Government set out in the partial RIA published at the Budget and is continuing to build with the cooperation of the boating industry.

Tax Credits

Mr. Laws: To ask the Chancellor of the Exchequer how many tax credit award notices have been issued in each month since July 2005; and if he will make a statement. [75783]

Dawn Primarolo: Award notices are issued at the following points in the tax credits cycle:

An initial award notice, following a successful claim.

An amended award notice when a claimant notifies HMRC of a change of circumstances or income during a year.

A finalised award notice following the completion of the renewal process.

Where payments are continuing following a finalised award for one year, an award notice is issued to advise of the provisional payments HMRC will be making for the subsequent year.

Award notices issued each month since July 2005 are as follows:

	Award notices issued
2005	
July	3,388,000
August	3,698,000
September	4,340,1600
October	3,423,000
November	2,007,000
December	2,467,000
2006	
January	2,276,000
February	2,923,000
March	1,697,000
April	1,118,000
May	4,515,000

Mr. Laws: To ask the Chancellor of the Exchequer how much of the overpayment of tax credits in *(a)* 2003-04, *(b)* 2004-05 and *(c)* 2005-06 was due to software and other computer problems; and if he will make a statement. [76432]

Dawn Primarolo: For 2003-04 I refer the hon. Member to the answer I gave him and the hon. Member for Edinburgh, West (John Barrett) on 27 October 2005, *Official Report,* columns 496-497W.

For 2004-05 I refer the hon. Gentleman to the Inland Revenue 2004-05 Accounts published on 10 October 2005 which are available on the internet at: www.hmrc.gov.uk/about/ir-report2005.pdf

Information for 2005-06 is not yet available.

Mr. Laws: To ask the Chancellor of the Exchequer (1) how many interviews at home about tax credit fraud have been carried out by claimant compliance officers in each quarter since April 2002; [78376]

(2) how many face-to-face interviews for Living Together as Husband and Wife tax credit claims have been held in each quarter by claimant compliance officers since April 2002. [78377]

Dawn Primarolo: I refer the hon. Gentleman to the reply I gave on 31 January 2006, *Official Report,* column 413W to the hon. Member for Newport, West (Paul Flynn).

Mr. Laws: To ask the Chancellor of the Exchequer if he will make a statement on the pre-payment automated risk rules in the tax credits system. [81150]

Dawn Primarolo: All tax credit claims are subject to an automated risk assessment process which looks at the features of a claim against known risks. These risk rules work in combination to identify those claims that are high risk and require further consideration, with the highest risk cases looked at by a compliance team who may undertake a full compliance examination before an award is made.

It would be inappropriate to give specific details as this could aid those seeking to gain through fraud.

Mr. Carmichael: To ask the Chancellor of the Exchequer if he will list in date order the written ministerial statements on tax credits which have been made since 1997. [86510]

Dawn Primarolo: Written ministerial statements made by Treasury Ministers, and indeed oral statements and other announcements made in the House of Commons, are a matter of public record.

Valuation Office Agency

Mrs. Spelman: To ask the Chancellor of the Exchequer how many full-time equivalent press officers the Valuation Office Agency employed in 2005-06. [86841]

Dawn Primarolo: In 2005-06 the Valuation Office Agency employed the equivalent of one full-time press officer to deal with media inquiries

MINISTER FOR WOMEN

Prize Money

Mr. Sarwar: To ask the Minister for Women and Equality if she will introduce legislation making it illegal for sporting bodies in the UK to award prize moneys that are different for men and women. [84890]

Meg Munn: The Government are committed to promoting equality between women and men, but there are no plans to introduce legislation on this specific issue. A review of Great Britain's discrimination law is currently under way, covering the Sex Discrimination Act and the Equal Pay Act. We will publish our findings around the turn of the year.

CONSTITUTIONAL AFFAIRS

British Democracy

Mr. Austin Mitchell: To ask the Minister of State, Department for Constitutional Affairs what form her response to "Power to the People: An Independent Inquiry into Britain's Democracy" will take. [86057]

Bridget Prentice: The response to this report took the form of Baroness Ashton's speech at the House of Lords debate on the Power Inquiry on 15 June 2006.

Deportation Appeals

Mr. Carmichael: To ask the Minister of State, Department for Constitutional Affairs how many appeals against deportation orders to Asylum and Immigration Tribunals have been made in each year since their creation; in how many appeals the Asylum and Immigration Tribunal allowed the appeal; and in how many cases where the appeal was allowed the Home Office appealed that decision. [86060]

Bridget Prentice: The Asylum and Immigration Tribunal (AIT) does not currently collate information on the volume of appeals it receives from notices of intent to deport, the number of these appeals allowed nor the number of allowed appeals where the Home Office applies for the Tribunal to reconsider its decision.

Checks made with the Immigration and Nationality Directorate (IND) of the Home Office confirm that this type of information could be obtained only at disproportionate cost by examination of individual case records.

Mr. Carmichael: To ask the Minister of State, Department for Constitutional Affairs (1) in how many cases before Asylum and Immigration Tribunals applications for bail pending termination of the appeal were made in each of the last five years; and in how many cases where a bail application had been made pending a deportation order the Home Office opposed the application for bail in each of the last five years; [86061]

(2) To ask the Secretary of State for the Home Department, in how many cases before asylum and immigration tribunals applications were made for bail pending termination of the appeal in each of the last five years [86062]

Bridget Prentice: Information shows that in each of the last five financial years the Asylum and Immigration Tribunal (AIT) and its predecessor the Immigration Appellate Authority (IAA) received the following volume of bail applications:

	Number of applications
2005-06	4,144
2004-05	2,711
2003-04	2,135
2002-03	2,236
2001-02	3,093

The AIT does not collate information on the volume of bail applications arising from particular appeal types nor the number of applications opposed by the Home Office. Such information could be obtained only by incurring disproportionate costs.

Electoral Review

Mr. Austin Mitchell: To ask the Minister of State, Department for Constitutional Affairs (1) what opportunities there will be for public consultation and involvement following the publication of her Department's Review of Electoral Systems; [86056]

(2) what the next stage of the Government's electoral reform policy will be following the publication of the review of electoral systems; [86071]

(3) whether her Department's review of electoral systems will be placed in the public domain. [86074]

Bridget Prentice: The DCA internal review of voting systems introduced for the devolved administrations, the European Parliament and London Assembly elections being conducted by officials within my Department is under way. The review is desk based and is examining a range of existing publications and materials. Any decisions on next steps including publication and consultation will be taken in due course.

Mr. Austin Mitchell: To ask the Minister of State, Department for Constitutional Affairs (1) when her Department's review of electoral systems is expected to report; [86067]

(2) what progress has been made with her Department's Review of Electoral Systems. [86073]

Bridget Prentice: Work is ongoing on the Department's internal review of voting systems of the new electoral systems introduced for the devolved Administrations (the Northern Ireland Assembly, the National Assembly for Wales and the Scottish Parliament), the European Parliament and Greater London Assembly. Decisions on any next steps will be taken in due course.

Mr. Austin Mitchell: To ask the Minister of State, Department for Constitutional Affairs what form her review of electoral systems took; and what evidence was submitted by interested organisations. [86365]

Bridget Prentice: The Department for Constitutional Affairs internal review of voting systems is desk based and is examining a range of existing publications and materials. No submissions have been sought.

Youth Court

Mr. Wallace: To ask the Minister of State, Department for Constitutional Affairs how many 10 to 17 year olds have appeared at the youth court in Lancashire in each year since 1997. [81761]

Mr. Sutcliffe: I have been asked to reply.

Data from the Court Proceedings Database held by the Office for Criminal Justice Reform showing the number of 10 to 17 year olds prosecuted for all offences at youth courts in Lancashire from 1997 to 2004 are provided in the table.

Figures for 2005 will be available in the autumn of 2006.

Number of people aged 10 to 17 prosecuted for all offences in the Lancashire youth courts, from 1997 to 2004[1]

	Proceeded against
1997	3,808
1998	4,037
1999	4,061
2000	4,635
2001	4,743
2002	5,156
2003	4,805
2004	4,080

[1] These data are on the principal offence basis.

RDS—Office for Criminal Justice Reform.

DUCHY OF LANCASTER

IT Projects

8. **Dr. Cable:** To ask the Chancellor of the Duchy of Lancaster what progress the Government are making in reducing cost overruns and delays in its IT projects; and if she will make a statement. [86196]

Mr. McFadden: Like Governments in all major economies, the Government are investing in IT on a large scale to improve services to the public and to ensure they are more focused on the needs of service users.

The Transformational Government Strategy published last November included a number of changes to improve performance management of IT projects.

These include:

strengthened scrutiny of the most important programmes, including the appointment of Non Executive Directors to their Boards;

the establishment of the Government IT profession; and

closer work with the IT industry association to improve supplier performance in Government IT contracts.

Voluntary Workers

10. **Ms Diana R. Johnson:** To ask the Chancellor of the Duchy of Lancaster what recent assessment she has made of the proportion of people who do voluntary work; and if she will make a statement. [86198]

Edward Miliband: The recently published Citizenship survey confirms that there are increased numbers of adults volunteering regularly, 20.4 million in 2005 compared to 18.4 million in 2001. There is also increased Government investment in the volunteering infrastructure—£68 million in 2007-08 compared to £17 million in 1997-08.

Disadvantaged People

11. **Ms Keeble:** To ask the Chancellor of the Duchy of Lancaster what steps she is taking to combat pockets of disadvantage. [86199]

Hilary Armstrong: The Government have made substantial progress on tackling social exclusion. This has, however, made the most excluded stand out even more starkly.

I am, therefore, spearheading a renewed drive across Government to address the most socially excluded in our society and will be publishing an action plan in the autumn setting out how we plan to address some of the remaining, deep-seated, exclusion.

Office of the Deputy Prime Minister

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster what the floor space is of the new Office of the Deputy Prime Minister in 26 Whitehall. [85669]

Edward Miliband: The Office of the Deputy Prime Minister occupies 389 m^2 of office space in 26 Whitehall.

Official Residence

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster if she will place in the Library a copy of the Cabinet Office contract for the maintenance of the official residences in Admiralty House. [85666]

Edward Miliband: The contract is a legal document and is covered by a commercial confidentiality clause, which prevents its publication.

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster how much was spent on the Old Admiralty Building on *(a)* security, *(b)* utilities, *(c)* facilities management and *(d)* general maintenance in the most recent year for which figures are available. [85670]

Mr. Hoon: I have been asked to reply.

The Foreign and Commonwealth Office spent £465,106 on utilities, £241,875 on facilities management and £646,185 on general maintenance for the Old Admiralty Building in financial year 2005-06. The security measures in force at the Old Admiralty Building are reviewed regularly to ensure they are commensurate with the threat; the costs are kept under review.

DEPUTY PRIME MINISTER

Ministerial Travel

9. **Bob Russell:** To ask the Deputy Prime Minister when he last used the London Underground in connection with his official duties. [86197]

The Deputy Prime Minister: My duties frequently involve travel around the country and for this purpose I use public transport on a regular, weekly basis. I last used the London Underground in connection with official duties towards the end of last year.

Angela Watkinson: To ask the Deputy Prime Minister whether his office has chartered aircraft in connection with his official duties since 5 May 2006. [84925]

The Deputy Prime Minister *[holding answer 13 July 2006]:* All my overseas travel costing over £500 will be accounted for in the annual list, which will be disclosed to Parliament in the usual way.

Gambling

12. **Sir Nicholas Winterton:** To ask the Deputy Prime Minister what role he has in relation to Government policy on gambling and planning. [86200]

The Deputy Prime Minister: I refer the hon. Member to the answer I gave to the hon. Member for Surrey Heath (Michael Gove) today at column 302.

Defence

13. **Mark Pritchard:** To ask the Deputy Prime Minister what steps he is taking to oversee the efficient development of defence policy. [86201]

The Deputy Prime Minister: I play a full and active part in discussions on these matters in Cabinet and the relevant Cabinet Committees.

Post Office

14. **Mr. Carmichael:** To ask the Deputy Prime Minister what steps he is taking to secure the future of the Post Office network. [86202]

The Deputy Prime Minister: As the hon. Member may be aware, I chair the Cabinet Committee on the future of the Post Office network.

The Government remain committed to a viable Post Office network, and to ensuring that communities have access to the services they need, including Post Office services. That is why we have committed £300 million over the period 2006-08 to support the rural network, on top of £450 million in 2003-05.

Equal Pay

15. **Lynda Waltho:** To ask the Deputy Prime Minister what steps he has taken to co-ordinate Government policy on equal pay across the public sector; and if he will make a statement. [86203]

The Deputy Prime Minister: This important issue has been considered recently by a Cabinet Committee, which I chair. I am working to ensure the necessary action is taken across Departments, to add to the action we have already taken since 1997 to combat all forms of discrimination.

Departmental Budget

Sir Paul Beresford: To ask the Deputy Prime Minister pursuant to the answer of 3 July 2006, *Official Report*, column 787W, on the departmental budget, in which Department's annual report his office will be included. [84864]

The Deputy Prime Minister *[holding answer 13 July 2006]:* My own.

Ministerial Office and Staff

Angela Watkinson: To ask the Deputy Prime Minister pursuant to the answer of 3 July 2006, *Official Report*, columns 788-89W, on his ministerial office and staff, what percentage of the staff in his private office is *(a)* female and *(b)* from ethnic minorities. [85061]

The Deputy Prime Minister *[holding answer 13 July 2006]:* Where the information requested results in figures of less than five this is not released in order to protect the privacy of individuals.

Websites

Mr. Heald: To ask the Deputy Prime Minister pursuant to the answer to the hon. Member for Wealden (Charles Hendry) of 22 June 2006, *Official Report*, column 2131W, on websites, what the budget is for the creation of his new website; and whether the website is being constructed using *(a)* civil service staff and *(b)* external contractors. [83226]

The Deputy Prime Minister: Expenditure will be accounted for in the Department's annual report and accounts, in the usual way. The website is being constructed by civil servants.

COMMUNITIES AND LOCAL GOVERNMENT

Competent Persons Scheme

Mr. Swayne: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 3 July 2006, *Official Report*, column 754W, on the competent persons scheme, what delays have been caused to the competent persons scheme by the absence of officials; and if she will make a statement. [83713]

Angela E. Smith: Seventeen new competent person schemes came into operation following the publication of the Building and Approved Inspectors (Amendment) Regulations 2006 on 6 April 2006.

There has been a delay in issuing authorisations for these schemes. Officials met the Competent Persons Forum on 11 July to discuss authorisations and will meet with those directly affected to seek to resolve the issues on Monday 17 July.

Council Tax

Mark Williams: To ask the Secretary of State for Communities and Local Government what proportion of properties in *(a)* Northumberland county council, *(b)* Cornwall county council, *(c)* Shropshire county council and *(d)* Cumbria county council are in each council tax band. [86349]

Mr. Woolas: The numbers of dwellings liable for council tax in Cornwall, Cumbria, Northumberland, and Shropshire county councils as at 19 September 2005 and in each council tax band are shown in the following table:

	Council tax band									
	A-	*A*	*B*	*C*	*D*	*E*	*F*	*G*	*H*	*Total*
Cornwall										
Caradon	16	6,801	10,496	8,020	6,012	3,990	1,235	474	23	37,067
Carrick	14	6,863	9,275	9,463	6,708	4,640	2,090	1,126	110	40,289
Kerrier	14	11,503	10,537	9,132	5,722	2,775	964	426	28	41,101
North Cornwall	23	8,885	8,158	7,234	7,272	4,680	1,504	748	36	38,540
Penwith	3	7,182	8,801	6,246	5,111	2,503	962	285	8	31,101
Restormel	23	10,871	11,245	9,220	6,476	3,050	1,062	459	15	42,421
Total for Cornwall	93	52,105	58,512	49,315	37,301	21,638	7,817	3,518	220	230,519

	Council tax band									
	A-	*A*	*B*	*C*	*D*	*E*	*F*	*G*	*H*	*Total*
Cumbria										
Allerdale	29	21,236	6,720	6,446	4,756	2,570	1,008	457	18	43,240
Barrow-in-Furness	44	18,687	5,373	4,384	2,112	858	223	71	3	31,755

Tynedale	15	7,877	4,273	4,165	3,485	2,750	1,850	1,382	129	25,926
Wansbeck	98	19,051	3,566	2,306	1,762	501	112	70	4	27,470
Total for Northumberland	221	66,676	21,637	17,360	13,803	9,046	5,803	3,581	358	138,485
Shropshire										
Bridgnorth	17	3,220	4,604	5,238	2,849	2,245	2,089	1,327	118	21,707
North Shropshire	13	4,480	6,181	4,431	3,753	3,184	1,643	737	38	24,460
Oswestry	15	4,935	4,311	2,743	2,498	1,464	321	122	11	16,420
Shrewsbury and Atcham	24	7,094	13,023	9,660	5,551	3,490	1,613	1,193	61	41,709
South Shropshire	12	3,190	3,871	3,756	3,424	2,787	1,367	581	38	19,026
Total for Shropshire	81	22,919	31,990	25,828	18,075	13,170	7,033	3,960	266	123,322

The data are as reported by local authorities on the annual CTB1 return. Dwellings that are subject to the Council Tax (Reductions for Disabilities) Regulations 1992, as amended, are charged council tax at the rate of one band lower than that on the Valuation Office valuation list. Council tax for a Band A dwelling is charged at 5/9 of the council tax of a Band D dwelling; Band A dwellings are charged at 6/9 of the council tax of a Band D dwelling.

Departmental Premises (Security Guards)

Mr. Andrew Turner: To ask the Secretary of State for Communities and Local Government whether her Department has *(a)* directly and *(b)* indirectly employed illegal immigrants as security guards. [80810]

Angela E. Smith: The Department for Communities and Local Government has not employed illegal immigrants either directly or indirectly as security guards.

Environmental Regulations

Chris Huhne: To ask the Secretary of State for Communities and Local Government whether her Department is committed to the achievement of environmental management to ISO 14001 standard; and if she will make a statement. [81064]

Angela E. Smith: The Prime Minister and the Secretary of State for Environment, Food and Rural Affairs launched new sustainable operations targets for the Government estate on 12 June.

The new targets included a commitment that all Government Departments should have an environmental management system (EMS) in place, based, or modelled upon, a recognised system, such as ISO 14001, or the European regulation EMAS.

Previous target for EMSs for the Government estate, published in September 2002, had the same wording as the recently announced commitment.

Some 82 per cent. of the Department of Communities and Local Government staff, including executive agencies, work in three properties that are covered by an environmental management system (EMS) that have certified accreditation to ISO 14001:2004. Our other four significant buildings have an EMS in place and are working towards ISO 14001 accreditation.

In the small properties—in Barton, Glossop, Garston and Bootle—where it is considered that an EMS is not economically viable, the Department has worked with their local authority to minimise their environmental impact.

This answer does not include properties occupied by Government offices, which carry out functions on behalf of 10 Government Departments.

House Prices

Lynne Featherstone: To ask the Secretary of State for Communities and Local Government what the average house price was in each London borough in each of the last five years. [86837]

Angela E. Smith: Estimates of average house prices at local authority level, including each London borough, are available back to 1996 and are on Land Registry data. The figures for 1996 to 2005 are available on the Department for Communities and Local Government website as Table 585.

The web link for the information is:

http://www.communities.gov.uk/pub/159/Table585_id1156159.xls

Housing

Damian Green: To ask the Secretary of State for Communities and Local Government what public funds are available to improve energy efficiency standards for new housing built under the sustainable communities programme. [85883]

Angela E. Smith: The Government are committed to improving energy efficiency in all housing. The new Buildings Regulations Part L, taken with changes to strengthen the building regulations in 2002 and 2005, will improve energy efficiency standards by 40 per cent. from April 2002 levels. The new draft code for sustainable homes will also raise the environmental standard of housing further and will signal the future direction of building regulations.

To achieve the higher levels of housing growth set out in the sustainable communities plan new homes must be built in a sustainable way to reduce their environmental impact and carbon footprint. We have already committed around £400 million to the development of the three growth areas and £850 million for the Thames Gateway up to March 2008. This is to deliver on all aspects of a sustainable community, including environmental performance.

Identity Cards

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance the Government has given to *(a)* local education authorities and *(b)* local authorities on the collection and the use of biometric identification for the provision of local authority services. [85698]

Mr. Woolas: The Government have given no guidance to *(a)* local education authorities or *(b)* local authorities on the collection and use of biometric identification for the provision of local services.

Council Targets

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what plans she has to reduce the number of targets set for councils by central Government. [86029]

Angela E. Smith: The forthcoming comprehensive spending review will set public service agreements for delivery of public services. We are currently considering arrangements for the development of a new performance framework local government including the role of targets. We intend that further details of this will be reflected in the local government White Paper to be published after recess.

In the meantime, we are setting up a Lifting Burdens Task Force, which will identify and agree removal of the most burdensome and least value indicators and information requirements imposed by central Government.

Local Government Finance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what analysis will be undertaken prior to the allocation of funding to local authorities in 2007-08 of the impact on services provision of the immigration to the UK of people from accession countries in the EU since May 2004; and if she will make a statement. [81851]

Mr. Woolas: The Department for Communities and Local Government uses population data provided by the Office for National Statistics. These are the best data available on a consistent basis for all authorities. The formula grant distribution system was changed for 2006-07 and 2007-08 to take into account population projections. The projections includes net migration in local authority areas.

Outsourcing

Mr. Gauke: To ask the Secretary of State for Communities and Local Government what administrative functions for which her Department is responsible are outsourced overseas; and what assessment she has made of the merits of outsourcing further such functions overseas. [81551]

Angela E. Smith: No administrative functions for which the Department for Communities and Local Government is responsible have been outsourced overseas. No assessment has therefore been made of the merits of outsourcing such functions.

Post Office Contracts

Danny Alexander: To ask the Secretary of State for Communities and Local Government for which services *(a)* her Department and *(b)* its associated public bodies hold contracts with the Post Office; and what the (i) start and (ii) termination date is of each contract. [81546]

Angela E. Smith: The information is as follows.

	Contracts
(a) DCLG Centre	No contracts
(b) DCLG Executive agencies	
Planning Inspectorate	[1]
Fire Service College	[1]
Queen Elizabeth 2 Conference Centre	[1]
Executive non-departmental public bodies	
Audit Commission	No contracts
Standards Board for England	No contracts

	Contracts
Leasehold Advisory Service	The Leasehold Advisory Service have two contracts with the Post Office; as follows:
	Mail Re-direction
	(i) Start 21 October 2005
	(ii) End 21 October 2006
	Mail Collection (from business premises)
	(i) Start January 2006
	(ii) Ongoing
Housing Action Trust—Castle Vale	[2]—
Housing Action Trust—Liverpool	[2]—
Housing Action Trust—Stonebridge	No contracts
Housing Corporation	No contracts
London Thames Gateway Development Corp.	No contracts
Thurrock Thames Gateway Development Corp.	No contracts
West Northamptonshire Development Corp.	No contracts
Firebuy	No contracts
English Partnerships	No contracts
Independent Housing Ombudsman	No contracts
Architects Registration Board	The board has one contract with the Post Office to collect mail.
	(i) Start 2003
	(ii) Ongoing
Non-departmental public bodies—tribunals	
Northern Rent Assesment Panel	[3]—
Midland Rent Assessment Panel	[3]—
Eastern Rent Assessment Panel	[3]—
Southern Rent Assesment Panel	[3]—
London Rent Assessment Panel	[3]—

[1] DCLG's Executive agencies report no contracts.
[2] Castle Vale and Liverpool Housing Action Trusts have been wound up so provision of data are disproportionate.
[3] The Rent Assessment Panels report no contracts.

Business Rates

Mr. Pickles: To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of documents relating to the attendance of the head of the rating policy team at the Institute of Revenues Rating and Valuation conference on post revaluation and current issues on maintaining the business rates system in Blackpool on 11 to 12 May 2006. [78262]

Mr. Woolas: A copy of the slides for the presentation entitled business rates—post revaluation and current issues, given to this conference by the head of the business rates team in my Department are on the internet at:-

http://www.inr.tv/conference/enforcement/qwertyuiop/Speakers_Slides_CollEnf06_v1.pdf

and copies have also been placed in the Libraries of the House.

Regional Fire Control Centres

Judy Mallaber: To ask the Secretary of State for Communities and Local Government what is the timetable for the opening of regional fire control centres in *(a)* the East Midlands and *(b)* each of the other areas due to have such centres. [86043]

Angela E. Smith: It is currently forecast that the East Midlands Regional Control Centre will open in financial year 2008-09. A two-three year phased rollout will then follow for the remaining Centres. The roll out schedule will be finalised with the IT supplier, once appointed.

Sheltered Housing

Sandra Gidley: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the effectiveness of the Supporting People initiative for older people living in sheltered housing; and if she will make a statement. [86091]

Mr. Woolas: Supporting People is a programme that enables the local funding and provision of housing-related support services that help people to continue or move towards living independently in their own home and in the community. Through the programme, support is provided to a broad range of vulnerable groups and through a variety of service types.

Assessments to date of Supporting People, as carried out by the Audit Commission, have looked at either the programme as a whole or at the operation of the programme in specific local authorities. As such, there has been no specific assessment to date that looks only at the effectiveness of Supporting People for older people in sheltered housing. However, the Audit Commission's national report on Supporting People, issued in October 2005, concluded that the introduction of the programme has resulted in improved services for many vulnerable people.

Water Shortages

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment has been made by the *(a)* Valuation Office Agency and *(b)* Valuation Tribunal Service of whether a water shortage or drought may represent a physical change in infrastructure to a business that is dependent on water for its business and thereby affects its valuation and liability for business rates; and what guidance has been published. [85716]

Mr. Woolas: The information is as follows:

(a) the Valuation Office Agency provided written guidance in June to its valuation officers on whether the present water shortage and measures that have or may be introduced can affect rateable values. The Valuation Office Agency's advice is that the imposition of drought orders is a legal change that may restrict the

ability to use a property and this should be regarded as a matter affecting the physical enjoyment of the property. Whether this will affect the valuation will depend on the individual circumstances of any particular property. It is unlikely that the drought itself constitutes a physical change to a property's locality or infrastructure.

(b) the Valuation Tribunal Service has made no assessment on the impact of water restrictions on liability or valuations. Valuation tribunals are charged with determining rateable values on appeal when ratepayers and valuation officers disagree. Whether water restrictions impact on valuations is a matter for individual valuation tribunals to consider on the evidence presented in any particular case.

HOME DEPARTMENT

Alcohol-related Crime

Sir Peter Soulsby: To ask the Secretary of State for the Home Department how many alcohol-related crimes have *(a)* been reported and *(b)* resulted in convictions in Leicester, broken down by local government ward area in each of the last three years for which figures are available. [86371]

Mr. McNulty: From the information collected centrally, it is not possible to identify those offences which are alcohol-related. Such offences are not specifically defined by statute and details of the individual circumstances of offences do not feature in either the recorded crime or court proceedings data series.

Animal Welfare

Lynne Jones: To ask the Secretary of State for the Home Department how many White Papers were published by his Department in 2005; how many included an animal health or welfare component; and if he will make a statement. [68258]

Joan Ryan: My Department published 11 White Papers in the Command papers series during the calendar year 2005 and was lead author on two other jointly produced White Papers. A complete list of these has been provided to the Library .

Of these 13 White Papers one, Statistics of scientific procedures on living animals : Great Britain 2004, related to animal health or welfare.

Antisocial Behaviour Orders

Mr. Clegg: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been *(a)* issued and *(b)* breached in each local authority area in each year since their introduction. [85406]

Mr. Sutcliffe: A table giving the number of Antisocial behaviour orders (ASBOs) issued annually, as reported to the Home Office by the Court Service, where prohibitions have been imposed in each local Government authority area, up to 30 September 2005 (latest available), can be found on the Crime Reduction website at: www.crimereduction.gov.uk.

ASBO breach data are available at criminal justice system area level only.

Mr. Sanders: To ask the Secretary of State for the Home Department what percentage of people issued with antisocial behaviour orders have broken the terms of their conditions in each constituency in England since the scheme was introduced. [85514]

Mr. McNulty: The information is not available in the form requested.

Bail Applications/Bail Hostels

Mr. Carmichael: To ask the Secretary of State for the Home Department in how many cases before Asylum and Immigration Tribunals applications were made for bail pending termination of the appeal in each of the last five years. [86062]

Bridget Prentice: I have been asked to reply.

Information shows that in each of the last five financial years the Asylum and Immigration Tribunal (AIT) and its predecessor the Immigration Appellate Authority (IAA) received the following volume of bail applications:

	Number of applications
2005-06	4,144
2004-05	2,711
2003-04	2,135
2002-03	2,236
2001-02	3,093

The AIT does not collate information on the volume of bail applications arising from particular appeal types nor the number of applications opposed by the Home Office. Such information could be obtained only by incurring disproportionate costs.

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department pursuant to his answer of 6 July 2006, *Official Report*, column 1324W, on bail hostels, if he will take steps to ensure that the type of offences committed by offenders residing at an approved premises on a given date is collected centrally. [85345]

Mr. Sutcliffe: Consideration has been given on a number of occasions to the case for collecting centrally data on the type of offences committed by offenders residing at approved premises. Certain offenders are placed in approved premises, where they can be closely monitored by offender managers and by staff in approved premises. Since offenders are managed locally, it is appropriate that local offender managers should have comprehensive information on offenders, including the type of offence they have committed, it remains my view, therefore, that it is neither necessary, nor a prudent use of resources, for us to collect centrally data on the type of offence committed by residents in approved premises.

Chief Inspector of Prisons

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department if he will *(a)* review his decision to abolish the post of Chief Inspector of Prisons and *(b)* retain the present incumbent in post. [85302]

Mr. Sutcliffe: Part 4 of the Police and Justice Bill, currently before Parliament, will replace the existing five Chief Inspectors for the justice sector (police, Crown Prosecution Service, courts administration, prisons and probation) with a single Chief Inspector for Justice, Community Safety and Custody. We consider this reform essential to reflect recent reforms in the services inspected and to provide an inspection regime that is able to look more effectively at the system as a whole, especially at the joins where activities of agencies interface.

We recognise the special nature and importance of prisons inspection in safeguarding human rights. We have therefore placed a special and separate duty on the new Chief Inspector to inspect prisons and other similar forms of custody and report to the responsible Ministers on the treatment of prisoners and the conditions in prisons. This duty continues and enhances the present statutory role of the Chief Inspector of Prisons.

Transitional arrangements will ensure that the new Chief Inspector will not take over the prisons inspection duty from the Chief Inspector of Prisons until Ministers are quite satisfied that he or she is ready to do so effectively. My right hon. Friend the Home Secretary has recently extended the appointment of the present Chief Inspector of Prisons until April 2008.

We have, however, acknowledged concerns raised by the Joint Committee on Human Rights and expect to table some amendments to the Bill to address them.

Commercial Vehicle Drivers

Mr. MacDougall: To ask the Secretary of State for the Home Department how many *(a)* prosecutions there were of and *(b)* fixed penalty notices were issued to drivers of commercial vehicles in the last 12 months for which figures are available. [85791]

Mr. Sutcliffe *[holding answer 17 July 2006]:* Information collected centrally by the Home Department on motoring offences does not distinguish between the characteristics of the vehicles involved.

Community Police Officers

Mr. Greg Knight: To ask the Secretary of State for the Home Department what plans he has to extend the initiative of distributing in areas of high crime key fobs bearing the name, photograph and contact details of community police officers; and if he will make a statement. [85959]

Mr. McNulty *[holding answer 18 July 2006]:* The Home Office is committed to having neighbourhood policing teams embedded in every area in England and Wales by April 2008. As part of this, every member of the community will know how to contact their local neighbourhood policing team—whether officer, PCSO or other staff—by phone or by e-mail.

How this commitment is delivered is an operational matter for chief constables; the Home Office does not therefore intend to prescribe how police forces should publicise the contact details of local neighbourhood policing officers. The important thing is that people know how to contact their local officers and that they can do it quickly and easily.

Community Support Officers

Mrs. Iris Robinson: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of police community support officers in assisting regular police officers; and if he will make a statement. [86311]

Mr. McNulty: The effectiveness of police community support officers (PCSOs) is evaluated in "An Evaluation of the Impact of the National Reassurance Policing Programme" and "A National Evaluation of Community Support Officers" which were published on 26 January 2006. Copies are available in the Library of the House.

PCSOs are deployed with police officers in a team-based approach to deliver neighbourhood policing. They assist police officers and exercise their own role through regular patrolling, community engagement and tackling low-level crime and antisocial behaviour (ASB). This allows police officers to tackle more serious criminal behaviour. The evaluation shows that PCSOs have been well received by the public.

Consultants

John Bercow: To ask the Secretary of State for the Home Department how much was spent by *(a)* his Department and *(b)* the Identity and Passport Service on consultants working on (i) identity cards, (ii) e-passports and (iii) identity management in each of the last four years; and how much has been spent on each category in 2006-07. [85339]

Joan Ryan: Expenditure on consultancies by the Home Office and the United Kingdom Passport Service (up to 31 March 2006) and the Identity and Passport Service (from 1 April 2006) was as follows:

£000

	Identity cards (includes identity management)	*e-passports*
2003-04	232	467
2004-05	9,207	1,752
2005-06	21,148	2,319
2006-07 (April to June)	4,764	371

Convictions

Mr. Sanders: To ask the Secretary of State for the Home Department (1) how many people have been convicted of *(a)* rape and *(b)* sexual assault under the Sexual Offences Act 2003 in each constituency in England since the introduction of the Act; [85509]

(2) how many people have been convicted of common assault under the Criminal Justice Act 2003 in each constituency in England since the introduction of the Act; [85510]

(3) how many people have been convicted of inflicting bodily injury under section 20 of the Offences Against the Person Act 1861 in each constituency in England in the last 10 years; [85511]

(4) how many people have been convicted of wounding with intent to cause grievous bodily harm under the Offences Against the Person Act 1861 in each constituency in England in the last four years; [85515]

(5) how many people have been convicted of being drunk and disorderly in each constituency in England in each month of the last two years for which figures are available. [85517]

Mr. McNulty: It is not possible to identify the number of convictions for the offences specified, broken down by constituency area as the data are not centrally collected at that level of detail.

The offence of being drunk and disorderly can attract a Penalty Notice for Disorder (PND), however PND data are also not available at constituency level.

Criminal Records Bureau

Grant Shapps: To ask the Secretary of State for the Home Department in how many cases the Criminal Records Bureau has wrongly reported that a person has a criminal record in each year since its inception; on how many occasions in each year such cases related to offences involving children, broken down by offence; and if he will make a statement. [81418]

Joan Ryan: I refer the hon. Member to my written answer of 28 June 2006, *Official Report*, column 507W.

Information is not available to provide the number of occasions in each year such cases involved children, broken down by offence. Such information could be provided only by conducting an individual case search against the Police National Computer (PNC) and at disproportionate cost.

Custody

Chris Ruane: To ask the Secretary of State for the Home Department what measures are taken to liaise with the families of children and young adults in custody in order to better assess their vulnerability and risk of self-harm or suicide. [86221]

Mr. Sutcliffe: Under the Youth Justice Board's National Standards, youth offending teams have a duty to involve parents in the completion of the ASSET assessment form and pre-sentence report that must be compiled on a young person under 18 who appears in court. If the young person is sentenced to custody, there is a requirement under the national standards for parents to be invited to participate in the training planning process. Establishments are also required to consult and inform parents during the young person's stay is custody.

The Prison Service requires that local suicide and self-harm prevention strategies should set out procedures relating to receiving, recording and passing information coming into the establishment from families, agencies and other parties outside the establishment who have a concern for a person in custody who may be at risk of suicide or self-harm. Prison Service staff are encouraged to involve families in the care planning of at-risk prisoners.

Chris Ruane: To ask the Secretary of State for the Home Department what the approved methods of restraint are for children and young adults in custody; what safety instructions are issued to prison officers; how many incidents of harm resulting from unauthorised restraint have been recorded in the past five years; how many officers have been subject to disciplinary action arising from restraint incidents; and if he will review current practice. [86251]

Mr. Sutcliffe: The method of restraint authorised for use in young offender institutions is known as "Control and Restraint". All prison officers receive initial training and annual refresher training in the use of Control and Restraint. The method of restraint approved for use in secure training centres is known as "Physical Control in Care". Custody officers in secure training centres receive initial training and at least annual refresher training in these techniques. Secure children's homes are responsible for commissioning their own physical restraint training; these methods are not subject to approval by the Secretary of State. Full information on the number of incidents of harm resulting from unauthorised restraint, and on officers subject to disciplinary action arising from restraint incidents, is not collected centrally and could be obtained only at disproportionate cost.

The Youth Justice Board has undertaken a wide-ranging review of behaviour management and the use of physical restraint. In February 2006, the board issued a Code of Practice on Managing Children and Young People's Behaviour in the Secure Estate. All establishments have been assessed for performance against the code and have drawn up improvement plans. The board is closely monitoring compliance with the code. As part of its review, the board also reassessed the techniques approved for use in secure training centres and is piloting a modified system of Control and Restraint for use in young offender institutions for under 18-year-olds. The overall review is still in progress; the Youth Justice Board is currently working to improve the quality and range of data relating to behaviour management across the estate for children and young people.

Departmental Meetings

Mrs. Gillan: To ask the Secretary of State for the Home Department what meetings have been held between officials in his Department and *(a)* members of the National Assembly for Wales, *(b)* officials of the National Assembly for Wales, *(c)* members of the police authorities in Wales and *(d)* members of the police forces in Wales since 1 September 2005. [86164]

Mr. McNulty: Officials in the Home Office have held a number of discussions with representatives of Welsh police force, Welsh police authorities and the Welsh Assembly. The Head of Local Government Finance at the Welsh Assembly Government represented the Welsh Assembly Government on the Police Restructuring Finance Working Group.

Domestic Violence

Lynne Featherstone: To ask the Secretary of State for the Home Department how many deaths resulting from incidents of domestic violence have occurred in each *(a)* London borough and *(b)* constituency in each of the past five years; and if he will make a statement. [82985]

Mr. McNulty: The following data from the Metropolitan Police Service (MRS) gives the total number of victims of homicide which were identified as domestic violence related in all London boroughs from 2001-02 to 2005-06. I will write to the hon. Member with the data broken down by London borough when we receive it from MRS. MRS do not collect data at constituency level.

	Number
2001-02	35
2002-03	24
2003-04	42
2004-05	34
2005-06	34

MRS have attributed the increase in domestic violence related homicides from 2003-04 to the change in the force's definition of domestic violence to the Association of Chief Police Officer's definition which now includes family members (over 18) as well as partners and ex-partners.

Drink-driving

Mr. Sheerman: To ask the Secretary of State for the Home Department what steps he is taking to ensure that people charged of drink driving are tried soon after their arrest. [85898]

Mr. Coaker: A charge of drink driving will be made on the basis of results from an evidential breath test or from laboratory analysis of a specimen of blood or urine. We have taken steps to speed up this process by empowering the police to carry out evidential tests at the roadside rather than at a police station. Work is currently under way to enable suitable evidential equipment to be type approved for use by the police. Decisions as to prosecution and the subsequent timetabling of cases are matters for the Crown Prosecution Service and HM Courts Service.

Drug Intervention Programme

John Bercow: To ask the Secretary of State for the Home Department in how many cases in the five pilot areas of the Drugs Intervention programme *(a)* handling stolen goods *(b)* attenuated acquisitive crime and *(c)* begging was the trigger for a drugs test in 2004-05. [26658]

Mr. Coaker: I refer the hon. Member to the answer I gave on 1 March 2006, *Official Report*, column 811W.

Drugs

Chris Huhne: To ask the Secretary of State for the Home Department how many drug-related offences were committed by 16 to 24 year olds in *(a)* rural and *(b)* non-rural areas in each year since 1997; what proportion each figure represents of all offences committed by 16 to 24 year olds in each year; and if he will make a statement. [85939]

Mr. McNulty: The information requested is not collected centrally. The recorded crime statistics do not contain any information on the offender.

Paul Flynn: To ask the Secretary of State for the Home Department what research his Department has conducted into the relationship between street prices of heroin and cocaine and the level of acquisitive crime; and if he will make a statement. [85417]

Mr. Coaker: In 2002 it was estimated that 50 per cent. of acquisitive crime was drug related. There has been no equivalent estimate subsequently.

Extradition

Mr. Clegg: To ask the Secretary of State for the Home Department how many requests for extradition from the US to the UK have been made in each of the last five years; and how many *(a)* were successful, *(b)* were unsuccessful and (c) remain outstanding. [85408]

Joan Ryan: Figures are given in the following table. Rather than use terms like "successful" with reference to extradition requests, we show the number of cases which have resulted in surrenders and the number which have closed for other reasons. The figure does not include requests to Ministers in Scotland and Northern Ireland, who have devolved powers to make or grant requests.

US requests to England and Wales 2001-05

	Total	*Surrenders*	*Closed without surrender*	*Outstanding from the year*
2001	16	12	4	—
2002	9	3	5	1
2003	14	4	5	5
2004	34	20	2	12
2005	8	2	—	6

Firearms

Ian Lucas: To ask the Secretary of State for the Home Department how many *(a)* seizures and *(b)* disposals of firearms there were in each police authority area in England and Wales in each of the last three years for which records are available. [85313]

Mr. McNulty *[holding answer 14 July 2006]*: The requested data are not collected centrally.

Mr. Amess: To ask the Secretary of State for the Home Department on how many operations firearms were issued to police officers in England and Wales in each year since 1983; in how many of these operations shots were fired by police officers; and how many police officers were qualified to carry firearms in each of the last nine years. [85355]

Mr. McNulty: The number of operations in which firearms were authorised since 1983, the number of incidents when shots were fired using conventional firearms, and the number of Authorised Firearms Officers in police forces in England and Wales since 1996-97 are shown in the following tables. Statistics for 2005-06 are likely to be announced in October.

Number of operations in which firearms were authorised

	Number of operations
1983	3,180
1984	2,667
1985	2,488
1986	2,453
1987	2,185
1988	2,227
1989	2,583
1990	2,874
1991	3,722
1992	4,479
1993	5,625
1994-95	6,141
1995-96	8,726
1996-97	12,379
1997-98	11,842
1998-99	10,928
1999-2000	10,915
2000-01	11,109
2001-02	13,991
2002-03	14,827
2003-04	16,657
2004-05	15,981

Note

Figures for operations in which firearms were issued to officers are not available for the first three months of 1994

Number of incidents where conventional firearms were used

	Incidents
1996-97	5
1997-98	3
1998-99	5
1999-2000	7
2000-01	9
2001-02	11
2002-03	10
2003-04	4
2004-05	5

Number of authorised firearms officers (AFOs)

	Total
1996-97	6,738
1997-98	6,585
1998-99	6,308
1999-2000	6,262
2000-01	6,064
2001-02	5,776
2002-03	5,763
2003-04	6,096
2004-05	6,243

Football-related Violence

Lynne Featherstone: To ask the Secretary of State for the Home Department how many convictions there have been for football-related violence in each police authority area in each of the last five years; and if he will make a statement. [82920]

Mr. McNulty: The following table has been compiled from information provided by the Football Banning Orders Authority. It gives information on the number of football-related convictions for the seasons 2003-04 and 2004-05 in respect of each police authority area. Prior to 2003 information was only held centrally in respect of football-related arrests and the number of football banning orders imposed during each season.

Football-related convictions by police authority area

	Season	
Police authority area	*2003-04*	*2004-05*
Avon and Somerset	39	6
Bedfordshire	2	5
Cambridgeshire	10	6
Cheshire	52	24

Football Banning Orders Authority.

Foreign Prisoners

Mr. Hollobone: To ask the Secretary of State for the Home Department how many *(a)* non-British EU nationals and *(b)* non-EU foreign nationals are held in prisons in England and Wales, broken down by their country of origin. [79775]

Mr. Sutcliffe: Information on the nationality of foreign nationals held in prison establishments in England and Wales is given in the population in custody detailed table 2.14 of Offender Management Caseload Statistics Quarterly Brief October to December 2005, available at the following web address: http://www.homeoffice.gov.uk/rds/omcs.html

These figures have been drawn from administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system, and so is not necessarily accurate to the last whole number.

Mr. Blunt: To ask the Secretary of State for the Home Department how many of the foreign nationals detained at *(a)* Highdown and *(b)* Downview prisons on 1 July 2005 had been released by 1 April 2006; and how many of those released have subsequently been deported. [84102]

Mr. Sutcliffe *[holding answer 12 July 2006]:* Information on discharges is not available in the detail the hon. Gentleman requests.

Forensic Science Service

Mr. Amess: To ask the Secretary of State for the Home Department what percentage of tests by the Forensic Science Service in each region were completed within *(a)* four weeks, *(b)* six weeks, *(c)* two months and *(d)* three months in the last period for which figures are available; how many took more than three months; and if he will make a statement. [85354]

Joan Ryan: The percentage of cases completed by The Forensic Science Service (FSS) in each region within the timeframes specified is displayed in the attached tables, which distinguish between performance for the analysis of DNA suspect samples for inclusion on The National DNA Database, and scientific examinations conducted for forensic casework in respect of the range of offences investigated by police forces. The data is shown for 2005-06 and quarter one of 2006-07 (April to June 2006).

Table 1: 2005-06 percentage of tests completed by the FSS for forensic casework (exclusive of Road Traffic Alcohol cases)

Region	28 days	42 days	60 days	90 days	>90 days
London and South Region	70.2	82.2	89.9	95.8	4.2
comprising of:					
Metropolitan Police Service; City of London; Norfolk; Suffolk; Lincoln; Cambridgeshire; Hertfordshire; Essex; Bedfordshire; Kent; Surrey and Sussex.					
Midlands and Wales Region	85.9	94.3	97.5	99.2	0.8
comprising of:					
West Midlands; Warwick; West Mercia; Northamptonshire; Derbyshire; Leicestershire; Devon and Cornwall; Avon and Somerset; Dorset; Wiltshire; Gloucestershire; Hampshire; Thames Valley Police; Gwent; South Wales Police; Dyfed Powys Police.					
North and North West Region	78.8	91	96.7	99.3	0.7
comprising of:					
Lancashire; Greater Manchester Police; Merseyside; Cheshire; Cumbria; North Wales Police; Stafford; Nottinghamshire; North Yorkshire Police; West Yorkshire Police; South Wales Police; Northumbria; Humberside; Cleveland; Durham.					

Table 2: Quarter one 2006-07 (April to June 2006) Percentage of tests completed by the FSS for forensic casework (exclusive of Road Traffic Alcohol cases)

Region	28 days	42 days	60 days	90 days	>90 days
London and South Region	72.2	84.8	91.9	96.2	3.8
Midlands and Wales Region	88.7	95.2	98.1	99.4	0.6
North and North West Region	79.1	90.9	96.6	99.2	0.8

Table 3: 2005-06 Percentage of tests completed by the FSS for DNA suspect samples uploaded onto The National DNA Database

Region	28 days	42 days	60 days	90 days	>90 days
London and South Region	97.2	98.5	99.6	99.8	0.02
Midlands and Wales Region	98.8	98.9	99.5	99.6	0.04
North and North West Region	99.4	99.8	99.9	99.9	0.01

Table 4: Quarter one 2006-07 (April to June 2006) Percentage of tests completed by the FSS for DNA suspect samples uploaded onto The National DNA Database

Region	28 days	42 days	60 days	90 days	>90 days
London and South Region	97.9	99.9	100	100	0
Midlands and Wales Region	99.9	99.9	100	100	0
North and North West Region	99.9	100	100	100	0

GCHQ

Mr. Amess: To ask the Secretary of State for the Home Department what the conditions of service are of staff employed at GCHQ; and if he will make a statement. [85571]

Mr. Hoon: I have been asked to reply.

Government Communications Headquarters (GCHQ) is an autonomous Department under the ministerial responsibility of the Secretary of State for Foreign and Commonwealth Affairs. Staff at GCHQ are members of the Home Civil Service.

Terms of employment and conditions of service for GCHQ are laid out in the GCHQ Staff Handbook and are based upon the Civil Service Management Code produced by the Cabinet Office.

Highdown/Downview Prisons

Mr. Blunt: To ask the Secretary of State for the Home Department (1) how many prisoners were detained at *(a)* Highdown and *(b)* Downview prisons on 1 July 2005; how many of these were foreign nationals; and how many had not had their nationalities determined; [68060]

(2) how many foreign nationals are detained at *(a)* Highdown and *(b)* Downview prisons; when these detainees are due to be released; and how many will be considered for deportation. [84101]

Mr. Sutcliffe: Information on the prison population at Highdown and Downview as at 30 June 2005 is given in the following table.

There were approximately 190 foreign national prisoners in Highdown, and 130 foreign national prisoners in Downview, at the end of May 2006.

The figures have been drawn from the prisons administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Information on release dates of individual prisoners is not issued publicly.

As my right hon. Friend the Home Secretary made clear in his written ministerial statement of 23 May 2006, *Official Report*, column 79WS, all non-EEA nationals who are given a custodial sentence should face deportation; and deportation should happen as early as possible in that sentence. He set out the eight priority areas in this area to achieve this objective which he has asked management to address.

	Highdown	Downview
Total population	740	240
Foreign nationals	220	n/a
Unrecorded nationality on prison IT system	n/a	n/a

HM Prison Service

Mr. Bellingham: To ask the Secretary of State for the Home Department what guidance is available to commissioning authorities of investigations within HM Prison Service to ensure that investigating officers do not have personal interests in the outcome of the investigations they are commissioned to conduct. [85478]

Mr. Sutcliffe: Guidance to commissioning authorities on the appointment of investigating officers is contained in Section 3.B of Prison Service Order (PSO) 1300—Investigations.

In particular it states that

"Investigators must have no significant conflicts of interest with the matter or persons under investigation. Should such conflicts arise within the course of an investigation the matter must be immediately referred to the commissioning authority".

This is a mandatory requirement and commissioning authorities must ensure that this requirement is met.

Human Trafficking

Mr. Hague: To ask the Secretary of State for the Home Department if he will expand specialised training to include screening and referral of potential trafficking victims for all front-line responders within the law enforcement, immigration, medical, educational and social services; and if he will make a statement. [80350]

Mr. Coaker: We are currently in the process of considering the responses to the consultation paper with the aim of producing a final UK action plan later in the year which will provide an end-to-end approach of tackling the problem of trafficking in human beings.

One of the areas being looked into is how to ensure an effective multi agency strategy including a review of the training requirements of all involved staff.

This will build on the work undertaken so far within the Immigration Nationality Directorate (IND) which is in the process of providing specialised training to 600 immigration officers at ports; the production of an online toolkit for all immigration officers; the establishment of the Airline Liaison Officer Network; the establishment of social work teams at five ports and asylum screening units principally to identify the particular needs of unaccompanied asylum seeking children and to safeguard their welfare.

Additionally, IND recently ran a seminar on tackling human trafficking for senior and specialist IND staff, plus representatives from the National Crime Squad, the Metropolitan police and other key stakeholders which identified the challenges we face in this area and recommendations for taking forward work to deal with these challenges.

Lynne Featherstone: To ask the Secretary of State for the Home Department how many human trafficking incidents have been *(a)* reported and *(b)* successfully prosecuted in each London borough in each of the last five years; and if he will make a statement. [82981]

Mr. Coaker: Statistics for trafficking are not broken down for each of the London boroughs but are provided for London as a whole.

There are currently two pieces of legislation which criminalise trafficking. The Sexual Offences Act 2003, which came into force in May 2004 and the Asylum and Immigration (Treatment of Claimants etc.) Act 2004 which came into force on 1 December 2004.

Prior to the introduction of this legislation there was only one conviction for a trafficking offence under the Immigration Act 1971 and this was in London.

Following the commencement of the dedicated trafficking offences in 2004, the convictions in London are as follows:

	Number
2004	1
2005	9
2006 (to date)	[1]—

[1] No convictions.

To date there have been no convictions for trafficking for labour exploitation.

Mr. Vara: To ask the Secretary of State for the Home Department pursuant to the answer of 3 July 2006, *Official Report*, column 877W, on human trafficking, how many people were convicted for offences related to human trafficking in each of the last five years, broken down by category of offence. [84928]

Mr. Coaker *[holding answer 13 July 2006]:* Dedicated trafficking offences came into force in 2004 under the Sexual Offences Act and then the Asylum and Immigration (Treatment of Claimants etc.) Act 2004. Prosecutions were made under offences in the Immigration Act 1971. There was one conviction in 2003 under that piece of legislation.

In 2004 three people were convicted of related trafficking offences; these offences included:

Trafficking into and within the UK
Controlling a child prostitute
Living off immoral earnings
Possession of a false instrument
Causing to become a prostitute
Rape
False imprisonment

In 2005 32 people were convicted of related trafficking offences; these offences included:

Trafficking into and within the UK
Conspiracy to traffic in prostitution
Exercising control over prostitution
Living on prostitution
Rape
Conspiracy to kidnap
Money laundering
False imprisonment
Causing or inciting prostitution for gain
Keeping a brothel
Theft of passport
Conspiracy to facilitate unlawful immigration
Conspiracy to forge

2006 12 people were convicted of related trafficking offences these offences included:

Inciting prostitution
Trafficking into and within the UK
Controlling prostitution
Trafficking within the UK
Manslaughter
Perverting the course of justice
Facilitation managing a brothel
Forged and counterfeit documents

Mr. Steen: To ask the Secretary of State for the Home Department if he will set up a national police taskforce to tackle trafficking of *(a)* women for the sex trade and *(b)* children used for (i) begging, (ii) child labour and (iii) as prostitutes. [80659]

Mr. Coaker *[holding answer 27 June 2006]:* We fully recognise the need for a coherent nationwide strategy to combat the trafficking of human beings.

To this end we launched the United Kingdom Human Trafficking Centre (UKHTC) on 21 June. The establishment of UKHTC came as a result of the success of Operation Pentameter, a national police led

multi-agency operation which aimed to tackle trafficking for sexual exploitation and which led to 234 people being arrested. Of these, 132 people have been charged, to date, with offences connected to trafficking.

Following on from the success of Operation Pentameter the UKHTC will support the overarching aim of moving the United Kingdom to a leading position in relation to the prevention and investigation of trafficking in human beings. It will also become a central point for the development of police expertise and operational co-ordination.

Identity Cards

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what progress is being made in introducing identity cards; and if he will make a statement. [85527]

Joan Ryan: The Identity Cards Act 2006 provides the statutory basis for a national identity cards scheme and received Royal Assent on 30 March 2006. The Government are committed to the rapid introduction of identity cards but, as we have always made clear, this is an incremental process. Identity cards will be implemented in a phased way, starting with biometric residence permits for foreign nationals in 2008 and rolling out to United Kingdom nationals thereafter.

Mr. Clegg: To ask the Secretary of State for the Home Department pursuant to his Answer to the hon. Member for Orkney and Shetland (Mr. Carmichael), of 15 February 2006, *Official Report*, column 2128W, on the cost of identity cards, how much has been spent in each financial year. [85645]

Joan Ryan: Total figures in each financial year for the costs of developing the identity cards scheme are as follows:

	£ million
2003-04	1.03
2004-05	12.38
2005-06	27.70
2006-07	[1]5.30

[1] Provisional expenditure in April and May 2006.

Identity Fraud

Gregory Barker: To ask the Secretary of State for the Home Department how many people were charged with identity fraud in each of the last 10 years; and how many were convicted. [86262]

Joan Ryan: The Government takes the problem of identity fraud very seriously. There is no single offence of identity fraud. On 7 June 2006 we brought into force sections 25 and 26 of the Identity Cards Act 2006 which created new criminal offences of being in possession or control of false identity documents. These offences relate to a wide range of identity documents, including passports, driving licences, ID cards and immigration documents. The maximum penalty is 10 years imprisonment for an offence of possession with intent to use the document for establishing registrable facts about another person, such as name, address, date of birth and other personal details, and two years imprisonment for possession without reasonable excuse. Investigation of offences under these provisions are already underway and statistics on the number of prosecutions and convictions will be published in due course.

There is also a range of other criminal offences to combat identity fraud. These include, for example, the offences in the Theft Acts of 1968 and 1978 of obtaining property by deception (property includes money), obtaining services by deception and obtaining a money transfer by deception. The number of these offences that were committed using a false or stolen identity is not recorded centrally. However, identity theft and identity fraud questions were incorporated into the British Crime Survey in 2005 and the results should give us more information on the number of victims and the types of fraud that are being committed.

Gregory Barker: To ask the Secretary of State for the Home Department what funding has been allocated to tackle identity fraud *(a)* in 2006 and *(b)* over the next five years. [86352]

Joan Ryan: There is a wide range of activity within the Home Office, Identity and Passport Service, other government departments, law enforcement agencies and the private sector to tackle identity fraud. This includes our plans for identity cards and the improvements we continue to make to the security of the UK Passport which are now issued with a digital facial image.

The Home Office established the Identity Fraud Steering Committee (IFSC) in 2003 to work with public and private sector organisations, to identify and implement cost-effective measures to counter identity fraud, and to co-ordinate the activity in this area.

In addition to all the above, in the current financial year, a budget of £200,000 has been specifically allocated within the Identity and Passport Service to fund identity fraud reduction activity, such as our campaign to raise awareness among the public of how they can protect themselves against identity fraud and what to do if they become a victim. Funding for future years has yet to be allocated.

Islamist Terrorism

Michael Gove: To ask the Secretary of State for the Home Department what steps he is taking to tackle Islamist terrorism; and if he will make a statement. [85477]

Mr. McNulty *[holding answer 17 July 2006]*: The United Kingdom faces a continuing threat from individuals who believe they can advance their aims by committing acts of terrorism here in the UK and against our citizens and interests abroad. The

Government's counter terrorism strategy—known as CONTEST—was published on 10 July and explains the framework we have implemented to tackle terrorism in the UK.

The key to preventing terrorism is not only improved security and legislative arrangements: these alone will not defeat terrorism. A key focus of Government are to engage in genuine and meaningful dialogue with the Muslim communities and to tackle difficult issues.

Mini Motorcycles

Mr. Burrowes: To ask the Secretary of State for the Home Department how many *(a)* cautions and *(b)* arrests were made for the illegal use of mini motorcycles in the London Borough of Enfield in each of the last three years; and how many such motorcycles were seized in the borough in each year. [85887]

Mr. McNulty: The information is not held centrally.

Ann Coffey: To ask the Secretary of State for the Home Department (1) how often the police have used their powers to seize unlicensed mini-motors being misused on public land under the Police Reform Act 2002 and the Road Traffic Act 1988; [85908]

(2) what assessment he has made of the merits of encouraging greater use of antisocial behaviour orders to tackle misuse of unlicensed mini-motors on public land; [85907]

(3) whether he has estimated how many young people possess a mini-motor or off-road vehicle. [85909]

Mr. McNulty: The information is not collected centrally.

Muslim Brotherhood

Mr. Brazier: To ask the Secretary of State for the Home Department which organisations with links to the Muslim Brotherhood received money from his Department in each of the last five years for which figures are available; and how much each organisation received. [86269]

Mr. McNulty: The information requested is held centrally and to provide it would incur disproportionate costs.

Online Passport Applications

Mr. Scott: To ask the Secretary of State for the Home Department what the reasons are for delays in processing online passport applications; and what average time a person applying online waited for the delivery of their new passport in the last 12 months. [84907]

Joan Ryan: On 16 May 2006, the Identity and Passport Service (IPS) introduced the second trial phase of its online passport application system, EPA2, from its Newport office.

Soon after its introduction, the EPA2 system encountered technical problems, making the online application process less effective than desired. The IPS invoked contingency plans on 5 June and suspended the system, replacing it with EPA1, the earlier version of IPS's online application system, which is operating well. To ensure customers received the best possible service levels, IPS wrote to those customers who had applied through EPA2 and were still waiting, to recommend that they submit replacement applications and IPS has generally issued passports to these customers within a two days.

Approximately 18,000 applications were received via EPA2 and all are expected to have been processed by 14 July. The IPS has issued 6.6 million passports this year.

The EPA1 system advises applicants to allow four weeks to receive their passport. However, on-line applications are included in the IPS operating target to turn round 99.5 per cent. of straightforward applications for the standard service within 10 working days once we receive the completed and signed application (which for an EPA1 case will have been prepopulated and sent to the applicant for completion.) The IPS annual report and accounts, expected to be published later this month, will show that this target was met for the financial year ended 31 March 2006.

Operation Pentameter

Mr. Steen: To ask the Secretary of State for the Home Department how many arrests have been made as a result of Operation Pentameter; what the countries of origin are of those *(a)* arrested and *(b)* trafficked; and if he will make a statement. [80658]

Mr. Coaker *[holding answer 27 June 2006]:* There have been a total of 232 arrests made as a result of Operation Pentameter which to date has resulted in 134 people being charged with trafficking related offences. The majority of those arrested for offences related to trafficking under this operation are British, Chinese, Asian, East European or from the Balkans. The majority of rescued victims come from Asia, the Far East and Eastern Europe.

Oxycondone

Lorely Burt: To ask the Secretary of State for the Home Department pursuant to the Answer of 6 July 2006, *Official Report*, column 1330W, on oxycodone, what estimate he has made of the effects on *(a)* the number of jobs and *(b)* the balance of payments if producers of oxycodone formulations moved the manufacture of these formulations to the Republic of Ireland from the UK. [86134]

Mr. Coaker: No such estimates have been made.

Paedophiles

Mr. Kemp: To ask the Secretary of State for the Home Department how many registered paedophiles are resident in the Northumbria police force area; what steps are taken by *(a)* the police and *(b)* other agencies to protect the public from re-offending by those registered; and if he will make a statement. [85421]

Mr. Sutcliffe: Details of the number of registered sex offenders in the community are incorporated into the multi-agency public protection arrangements (MAPPA) Annual Report for each police/probation area of England and Wales. The report for Northumbria shows that there were 851 registered sex offenders living in the in the area as at 31 March 2005. The data is not broken down by victim age.

The Multi-Agency Public Protection Arrangements (MAPPA) imposed a duty on each of the 42 police and probation areas in England and Wales to work together to protect the public from sexual and violent offenders. MAPPA brings together the police, probation and Prison Services into what is known as the MAPPA Responsible Authority. A number of other agencies are under a duty to co-operate with the Responsible Authority. These include local social care, health, education and housing services.

MAPPA provides for risk assessment which is more comprehensive, benefiting from a wide range of information; and better co-ordinated and more robust risk management planning, drawing upon interventions from the various agencies involved.

A sex offender who is required to register, must within three days of conviction or caution (or a relevant civil order being made), notify the police, in person and at a prescribed police station, of his name, address, date of birth and national insurance number. If the offender is in prison on the day that this requirement falls due then he must make his notification within three days of his release. If an offender fails to comply, they commit a criminal offence with a maximum penalty of five years' imprisonment.

Passport Fraud

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps his Department is taking to combat passport fraud; and if he will make a statement. [84849]

Joan Ryan *[holding answer 17 July 2006]*: The Identity and Passport Service (IPS) is engaged in a range of initiatives designed to enhance the security of the passport issuing process and the UK passport itself. Because of the nature of fraud and the way in which criminals operate in seeking to obtain passports illegally, IPS takes a holistic approach to enhancing security. The initiatives which are under way are therefore designed to ensure that each part of the passport operation contributes to the security of the whole system and ensures the integrity of the UK passport.

The IPS corporate and business plan for 2006-16 which was published on 21 April 2006 describes these initiatives and sets out its strategic objectives for fraud prevention. This programme of work includes:-

Introduction of more secure passports incorporating biometrics identifiers. The first UK e.Passport was issued on six March, and rollout to all customers should be completed by the end of August;

Introduction next year of mandatory interviews for first time adult passport applicants. Enhancement of management information, monitoring and sampling processes to enable the development of fraud reduction and identity authentication targets and objectives;

The application, from March of this year, of the social footprint approach to confirming an individuals identity through the personal identification process (PIP);

Using facial recognition technology to identify fraudulent duplicate applications;

Continuing to improve the arrangements for the reporting of lost, stolen and recovered passports, and the storage and the sharing of that data with UK Border Control, and Interpol, and other agencies;

Building on the 80 per cent. reduction in losses of passports in the post through the use of secure delivery, the implementation of measures including improved address management to further reduce losses;

Continued development of PIP to deliver a more comprehensive biographical footprint check including on line access to UK birth and death records, and naturalisation/registration records;

Further development of IT systems to build on the automatic checks of applications that already take place, to better link passport records to an individual; and

Planning for the introduction of fingerprints in passports by 2009 including use of this technology to detect fraudulent duplicate identities.

Data sharing and the positive validation of passport data is critical to the fight against fraud. The IPS has developed Omnibase which provides secure web access to passport information for FCO consular posts abroad, UK's Border Control authorities, The Driver Vehicle Licensing Agency, Criminal Records Bureau and other Government Departments. From July of this year, and building on successful pilots, IPS plan to extend this passport validation service (PVS) to financial institutions who receive passports as evidence of identity from customers opening bank accounts, seeking mortgages or undertaking other financial transactions. The pilots have already shown that PVS can support users in the identification of suspicious passports and prevent fraud.

Finally, supported by the powers in section 25 of the Identity Cards Act that target the misuse of identity documents, IPS is continuing to work closely with the police service, UK Border Control and other Government Departments in operations to tackle fraud.

Police

Daniel Kawczynski: To ask the Secretary of State for the Home Department if he will visit Monkmoor police station in Shrewsbury to meet local police officers. [58157]

Mr. McNulty: I will be very happy to consider such an invitation from any police force.

Mr. Amess: To ask the Secretary of State for the Home Department what the running cost was of each police force in England and Wales in each of the last three financial years; and what the estimated running costs are of each of the new proposed police forces in the next three financial years. [73281]

Mr. McNulty: Estimated net expenditure by police authority in each of the last three years is set out in the table.

Budget management for each police authority area is a matter for the authority and the chief officer, who are responsible for prioritising local needs.

£000

Police authority	Net expenditure 2003-04	Net expenditure 2004-05	Estimated net expenditure 2005-06
Avon and Somerset	215,885	228,655	240,632

[1] Figure for Hampshire in 2005-06 was unavailable and has been based by CIPFA on previous trends.

Source:
Chartered Institute of Public Finance and Accountancy (Police statistics—2003-04 and 2004-05 Actuals; 2005-06 Estimates)

Mr. Sanders: To ask the Secretary of State for the Home Department how many police officers per 100,000 residents there are in each police authority in England. [85513]

Mr. McNulty: The information requested is given in the following table.

Police Officer strength[1] in England as at 31 March 2005, by police force area and officers per 100,000 population[2]

Police force area	Total police ranks	Total officers per 100,000 population[2]
Avon and Somerset	3,398	225
Bedfordshire	1,232	215
Cambridgeshire	1,418	194
Cheshire	2,207	223
Cleveland	1,689	305
Cumbria	1,260	257
Derbyshire	2,082	213
Devon and Cornwall	3,399	212
Dorset	1,475	211
Durham	1,738	293
Essex	3,230	198
Gloucestershire	1,308	230
Greater Manchester	8,119	321
Hampshire	3,803	212
Hertfordshire	2,145	206
Humberside	2,252	255
Kent	3,630	227
Lancashire	3,585	251
Leicestershire	2,311	246
Lincolnshire	1,234	185
London, City of[2]	881	—
Merseyside	4,339	318
Metropolitan Police[2]	31,073	433
Norfolk	1,554	192
Northamptonshire	1,289	201
Northumbria	4,088	294
North Yorkshire	1,561	206
Nottinghamshire	2,522	245
South Yorkshire	3,307	260
Staffordshire	2,309	220
Suffolk	1,323	195
Surrey	1,959	184
Sussex	3,094	205
Thames Valley	4,189	198
Warwickshire	1,012	195
West Mercia	2,380	203
West Midlands	8,154	316

Police Officer strength[1] in England as at 31 March 2005, by police force area and officers per 100,000 population[2]

Police force area	Total police ranks	Total officers per 100,000 population[2]
West Yorkshire	5,671	271
Wiltshire	1,229	198

[1] This table contains full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding there may be an apparent discrepancy between totals and the sums of constituent items. Figures include those officers on career breaks or maternity/paternity leave.
[2] Officers per 100,000 population for City of London and Metropolitan Police are combined.

Police Complaints Authority

Mr. Spellar: To ask the Secretary of State for the Home Department pursuant to the Answer from the Chancellor of the Duchy of Lancaster to Question 80515, how many days a year were expected from Sir Alistair Graham as a member of the Police Complaints Authority. [85989]

Mr. McNulty: Sir Alistair Graham was originally appointed as chair of the Police Complaints Authority in 2000 on a full time basis, but moved to a part time working pattern of three days a week in 2002, with the Home Office's agreement. That equates to 168 days per year before annual leave and public holidays had been taken.

Police DNA Database

Mr. Crabb: To ask the Secretary of State for the Home Department how many records are held on the police DNA database. [82549]

Joan Ryan: As at 30 June 2006, there were approximately 3,457,000 DNA profiles of individuals retained on the National DNA Database. This figure includes 18,056 persons who have provided a DNA profile voluntarily.

In addition, there were 285,292 DNA profiles retrieved from unsolved crime scenes.

Police Force Restructuring

Rosie Cooper: To ask the Secretary of State for the Home Department what assessment he has made of *(a)* the compatibility of police computer systems and *(b)* the implications of computer system compatibility for force restructuring in the West Lancashire and Cumbria areas. [83655]

Mr. McNulty: Police forces and authorities in the North West region submitted a cost benefit analysis of the best options for police structures in the region, including estimated Information Communication and Technology (ICT) costs, to my right hon. Friend the then Home Secretary (Mr. Clarke) in December 2005. This analysis was reviewed by the Home Office and a statement given by the then Home Secretary on 3 March 2006, *Official Report*, column 44WS.

A joint Home Office, Association of Chief Police Officers (ACPO), Association of Police Authorities (APA) and Police Information and Technology Organisation (PITO) working group has been established to work in conjunction with police forces to ensure that all ICT requirements, and associated costs, are identified in the Reform Programme.

Police Houses

Mr. Dai Davies: To ask the Secretary of State for the Home Department what assessment he has made of the merits of the re-introduction of police houses on housing estates. [83673]

Mr. McNulty: No such assessment has been made.

Police Mergers

Mrs. Gillan: To ask the Secretary of State for the Home Department how many officials have been working on the potential merger of the Wales police forces since 1 September 2005, broken down by grade; and how much time each spent on the project. [86165]

Mr. McNulty: Since September 2005 there has been a team of approximately 10 FTE civil servants and seconded police staff working in the Home Office on police force mergers. Precise numbers and grades have fluctuated.

It is not possible to quantify how much of their time has been devoted solely to the merger of Welsh police forces.

Mrs. Gillan: To ask the Secretary of State for the Home Department what costs have been incurred by each *(a)* police force and *(b)* police authority in connection with the police merger proposals in Wales. [86166]

Mr. McNulty: This is a matter for the police forces and police authorities concerned and the information is not held centrally.

Daniel Kawczynski: To ask the Secretary of State for the Home Department if he will meet the Chief Constable for West Mercia to discuss his concerns over the proposed merger of West Mercia Police Authority with others in the West Midlands. [74338]

Mr. McNulty: I met the Chief Constable of West Mercia Police Force and the Chair of West Mercia Police Authority on 5 June 2006.

Mr. Borrow: To ask the Secretary of State for the Home Department what consultation his Department held with hon. Members from *(a)* Lancashire and *(b)* Cumbria before a decision was made not to assist with the harmonisation of council tax levels should the merger of Lancashire and Cumbria police take place. [86378]

Mr. McNulty: No discussions have been held with hon. Members on this specific question.

Policy on council tax is decided by the Government collectively.

Police National Computer

Mr. Amess: To ask the Secretary of State for the Home Department what categories of information are contained on the police national computer; and who has access to the information. [85356]

Mr. McNulty: The following categories of information are held on Police National Computer (PNC):

Vehicles—Both DVLA information and those suspected of being involved in crime.

Property—Certain specific categories of identifiable property such as plant, marine craft, firearms.

Persons—Any person who has been arrested for a recordable offence, convicted, reprimanded, or cautioned for a recordable offence, or is wanted or sought by the police.

The police have access to PNC data and limited access to certain data items is available to certain agencies who have a 'policing' responsibility. Any non police agency who has access to PNC data has had to apply for the access through an Association of Chief Police Officers group, which applies the guidelines agreed with the Information Commissioner.

Primates (Experiments)

Mr. Hancock: To ask the Secretary of State for the Home Department for what reasons his Department does not grant project licences for experiments on wild-caught primates; for what reasons exceptions are granted; and if he will make a statement. [85885]

Joan Ryan: In addition to the stringent requirements in the Animals (Scientific Procedures) Act 1986 regarding the use of non-human primates, the use of wild-caught non-human primates in scientific experiments is subject to supplementary additional considerations.

We announced in 1997 that we cannot foresee any circumstances under which we would be prepared to issue licences under the 1986 Act for programmes of work involving the use of Great Apes (chimpanzees, pygmy chimpanzees, gorillas and orang-utans), and that exceptional justification would be required for the licensed use of other types of non-human primates taken from the wild.

The 1986 Act provides that non-human primates, whether captive bred or wild-caught, can only be used when no other species are suitable for the purposes of the programme to be specified in the licence, or that it is not practicable to obtain animals of any other species that are suitable for those purposes. For the use of wild-caught primates to be exceptionally authorised, there must be no appropriate alternative, no suitable captive-bred animals available and the likely benefits of the programme of work would have to fully justify their use.

In respect of applications to use wild-caught non-human primates, the Animals (Scientific Procedures) Inspectorate and the Animal Procedures Committee provide advice on a case by case basis on whether and on what terms such use should be licensed. Application of these stringent criteria has meant that first time use of wild-caught non-human primates in scientific procedures has not been licensed in the UK for some years.

Prisons

Chris Ruane: To ask the Secretary of State for the Home Department how many nurses, doctors and other specialists in psychiatric and mental health care for vulnerable and at risk children and young adults have been employed by the Prison Service in each of the past 20 years. [86244]

Mr. Sutcliffe: Information on the number of staff employed by the Prison Service in the psychiatric and mental health care of vulnerable and at risk children is not held centrally and could only be provided at disproportionate cost.

Mr. Garnier: To ask the Secretary of State for the Home Department what assessment he has made of the impact on family contact for female prisoners of the re-roling of HMP Bulwood Hall as a male prison. [81200]

Mr. Sutcliffe: We have examined the impact of the change on the 100 women prisoners still in custody who were relocated from Bullwood Hall and their average distance from home is now in fact slightly less. It therefore seems unlikely that there will be a significant adverse impact on family contact. All women's prisons aim to maintain and promote family contact.

Mr. Bellingham: To ask the Secretary of State for the Home Department how much money was paid in bonus payments to *(a)* governor grade staff and *(b)* operational staff at each prison establishment for each of the last 36 months; who authorised the payments; and if he will make a statement. [85481]

Mr. Sutcliffe: Accurate information as to the amount of money paid to *(a)* governor grade staff and *(b)* operational staff in bonus payments is not held centrally and could only be obtained by reference to paper records held at individual prison establishments, which would incur disproportionate cost.

Mr. Bellingham: To ask the Secretary of State for the Home Department what changes have occurred to the service level agreement developed as part of the performance testing exercise at HM Prison Wandsworth since its acceptance in December 2004; and if he will make a statement. [85482]

Mr. Sutcliffe: Wandsworth prison was awarded a Service Level Agreement (SLA) from April 2005, following the successful performance test.

The SLA is a living document and has been reviewed to reflect priorities for 2006-07 and maintain the drive for improved performance. As a result, more demanding targets have been set in some key performance areas.

The area manager and the regional offender manager continuously monitor delivery of the SLA ensuring that performance levels are sustained.

Mr. Clegg: To ask the Secretary of State for the Home Department what percentage of prisoners currently detained were drug dependent on entering prison, broken down by age group. [85567]

Mr. Sutcliffe: Figures showing the percentage of prisoners who are drug dependent on entering custody are not held centrally. However, several research studies conclude that around 55 per cent. of those received into prison are problematic drug-users (PDUs) with 80 per cent. reporting some misuse. In certain prisons, up to 80 per cent. test positive for opiates on reception. A further study shows the breakdown of percentage drug misuse by age, in the 12 months prior to prison. It has also been reported that 76 per cent. of young men (18-21) were assessed as dependent on at least one drug.

Mr. Ian Austin: To ask the Secretary of State for the Home Department what *(a)* treatments and *(b)* support are provided in prisons for drug misuse problems. [85590]

Mr. Sutcliffe: For drug misusers in custody, a comprehensive range of treatment and support is available. These address low, moderate and severe drug dependency and consist of:

Clinical services (detoxification and/or maintenance prescribing programmes), available in all local and remand prisons;

CARATs (Counselling, Assessment, Referral, Advice and Throughcare services), available in all adult prisons;

Juvenile Substance Misuse Service available across the Juvenile estate

Drug Rehabilitation Programmes -116 drug rehabilitation programmes, 40 of which are the Short Duration Programme, running in 103 establishments.

Wider resettlement needs are addressed through the Drug Interventions Programme and for those released on licence by the Probation Service.

Chris Ruane: To ask the Secretary of State for the Home Department how many prison officers have been subjected to disciplinary action as a result of allegations of racism in each of the last three years; how many prison officers have been convicted as a result of a criminal prosecution; and how many officers have been *(a)* fined and *(b)* dismissed as a result of disciplinary proceedings. [86208]

Mr. Sutcliffe: Central records on disciplinary cases involving public sector prison staff are currently being revalidated by reference to records held in individual prisons. I will write to my hon. Friend once this exercise has been completed.

Mr. Clegg: To ask the Secretary of State for the Home Department what estimate he has made of the number of *(a)* remand and *(b)* sentenced prisoners with psychiatric disorders, broken down by severity of disorder. [85405]

Mr. Sutcliffe: Information on the number of prisoners with psychiatric disorders is not held centrally.

Private Security Companies

Paul Holmes: To ask the Secretary of State for the Home Department how many and what proportion of private security companies in England and Wales have been granted approved contractor status; and how many and what proportion of these have been granted a licence dispensation notice. [79265]

Mr. Coaker *[holding answer 20 July 2006]:* The Security Industry Authority (SIA) estimate that around 2,500 security firms in England and Wales are eligible to apply for Approved Contractor Status (ACS). Of these just over 200, or 8 per cent. have been granted Approved Contractor status since the scheme came into force on 20 March 2006. This means that at 3 July approximately 15,450 operatives may be legally deployed under licence dispensation. All firms approved to date have been authorised to use licence dispensation within specified limits and subject to ACS terms and conditions.

Private Security Industry Act

Mr. Harper: To ask the Secretary of State for the Home Department how many people requested a licence under the Private Security Industry Act 2001 in each month since April 2005, broken down by type of licence. [76846]

Mr. Coaker *[holding answer 19 June 2006]:* Valid applications that could be processed in each month since April 2005 are represented in the following table. The Security Industry Act do not produce specific reports for each month broken down by sector. A number of applications that were not valid (for example because key documents were not enclosed) have also been received.

	Number of valid applications received by the SIA
2005	
April	3,938
May	3,801
June	4,045
July	5,083
August	6,270
September	5,610
October	7,386
November	7,975
December	8,785
2006	
January	11,402
February	15,745
March	18,452
April	12,908
May	14,715
Total	126,115

Mr. Harper: To ask the Secretary of State for the Home Department how many people have requested an application for a licence under the Private Security Industry Act 2001 but have not yet received the application form, broken down by type of application. [77001]

Mr. Coaker *[holding answer 19 June 2006]:* This information is not available. However, the Security Industry Authority's (SIA's) despatch policy is that upon receipt of a telephone request the SIA sends out an application form within two days by first class post. There are two other methods for ordering application forms—companies can request via a bulk process and individuals via the website. These systems currently distribute applications within three to four days with delivery by data post and first class post respectively.

Probation Service

Mark Williams: To ask the Secretary of State for the Home Department what account he has taken of rurality in the consultation process on proposed reform of the probation service. [86396]

Mr. Sutcliffe: The consultation for the proposed reform of the probation service ran from October to December 2005, during which a number of respondents raised concerns about how locally specific arrangements would work. The new process for commissioning probation services will take account of the differing needs of differing areas. Through regional structures NOMS commissioners will engage stakeholders to inform their commissioning decisions on the range and volume of services that are needed and commissioned.

Racial Hatred

Mr. Winnick: To ask the Secretary of State for the Home Department whether he will investigate allegations of incitement to racial hatred at the *(a)* Hawza Ilmiyya College and *(b)* the Islamic College of Advanced Studies, Willesden, London; and if he will make a statement. [65775]

Mr. McNulty *[holding answer 25 April 2006]:* The decision to investigate allegations that individuals and organisations are using inflammatory language or messages is one for the chief officer of the police force concerned.

Sheriffs

Mr. Carswell: To ask the Secretary of State for the Home Department whether his Department has considered proposals for *(a)* elected and *(b)* appointed sheriffs to be established as part of measures to combat crime and antisocial behaviour. [84298]

Mr. McNulty: We have considered a wide range of options for making services more responsive and accountable to local priorities on issues of crime and antisocial behaviour. The review of the Crime and Disorder Act 1998 committed to strengthening the effectiveness of Crime and Disorder Reduction Partnerships (CDRPs) by setting national standards. These will require, among other things:

Elected local authority members responsible for community safety issues to play a full part in setting community safety priorities;

Subjecting CDRPs to periodic scrutiny by local authority Overview and Scrutiny Committees;

Requiring Basic Command Unit Commanders and senior representatives of other responsible authorities to hold regular Face the People sessions to respond to issues raised by local communities; and

The introduction of the Community Call for action to enable local communities to trigger intervention by the local authority scrutiny committee if community safety issues have not been adequately addresses by the police or their partners.

Setting out requirements on CDRPs/Community Safety Partnerships to consult, communicate and engage with their communities.

Statutory Instruments

Mr. Amess: To ask the Secretary of State for the Home Department on what occasions a statutory instrument sponsored by his Department has been reported by the Joint Committee on Statutory Instruments as defective since October 2005. [85189]

Mr. McNulty: Between the beginning of October 2005 and 5 July 2006, the only occasion when the Joint Committee on Statutory Instruments (JCSI) raised a question about the content of a Home Office SI was in relation to the Serious Organised Crime and Police Act 2005 (Commencement No. 1 and Transitional and Transitory Provisions) Order 2005 (S.I.2005/1521). This followed a decision by the divisional court that certain provisions in the Order were ultra vires. There has subsequently been a successful appeal against that decision in the Court of Appeal.

Reports from the JCSI contain full details of the statutory instruments which they have reported. SI 2005/1521 is considered in the Sixth Report of the JCSI for Session 2005-06.

Violent Crime (Licensed Premises)

Chris Huhne: To ask the Secretary of State for the Home Department how many violent offences in connection with licensed premises there have been in *(a)* non-rural and *(b)* rural areas in relation to (i) adults and (ii) under age people in (A) absolute terms and (B) per 1,000 population in each year since 1997; and if he will make a statement. [84630]

Mr. McNulty: The information is not available centrally.

World Cup

Mr. Iain Wright: To ask the Secretary of State for the Home Department how much additional funding has been made available to police forces during the period of the World Cup to help maintain law and order in town centres and other areas with high numbers of licensed premises. [78327]

Mr. McNulty: None. The Police Service in England and Wales has had a huge increase in funding in recent years. The use of these resources is a matter for each chief constable and police authority to determine in the light of local and competing priorities.

Young Offenders

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department pursuant to the answer of 26 June 2006, *Official Report*, Column 122W, on young offenders, how much of the additional £45 million funding allocated to youth offending teams has been received by Sefton council; how many additional members of staff will be recruited; where they will be located; what their primary duties are; and how their performance will be assessed. [85978]

Mr. Sutcliffe: Sefton Youth Offending Team (YOT) is receiving a total Youth Justice Board (YJB) prevention grant of £347,222 between November 2005 and March 2008, which it is using to fund its existing Youth Inclusion Programme (YIP) and a new Youth Inclusion and Support Panel (YISP). £177,222 of this comes from the additional 45 million funding and £170,000 is part of ongoing YIP funding.

Two additional YISP staff will be recruited. These will be in addition to the existing YIP staff. Both new posts are located in the Sefton Centre for Restorative Practice in Stanley Road, Bootle.

The primary duty of the YISP co-ordinator is to be responsible for the development and implementation of the work of the YISP, in order to ensure that the YISP delivers effective services to address the needs of children referred to the panel, within a restorative practice framework.

The YISP key worker will be responsible for the management of a caseload and overseeing the delivery of intervention designed to address the needs of those children.

The YOT has an effective workforce strategy to manage the performance of individual members of staff that is integrated with the council's performance management framework. The YIP and YISP programmes in Sefton will be monitored and supported through the YJB's performance management framework which ensures YOTs provide quarterly data returns to the YJB to gauge outputs and outcomes, includes monitoring by YJB staff, and provides for mechanisms for supporting individual YOTs should there be poor performance issues.

Written Answers to Questions

Thursday 20 July 2006

HOUSE OF COMMONS COMMISSION

Office Accommodation

Mr. Dismore: To ask the hon. Member for North Devon, representing the House of Commons Commission, what office accommodation in the parliamentary estate in terms of *(a)* square metres and *(b)* number of rooms is allocated to the Leader of the Opposition; what was allocated in each of the previous five years; and if he will make a statement. [86150]

Nick Harvey: Evidence on office space allocation and occupancy was submitted to the Administration Committee's inquiry into House of Commons Accommodation earlier this year. This evidence is published with that Committee's Third Report of the Session, HC 1279.

From 2001 to November 2003 the Shadow Cabinet accommodation was seven rooms totalling 216m^2. This included the Shadow Cabinet Meeting Room of 46m^2. In December 2003 the Official Opposition chose to move the Leader and his staff to eight rooms in Norman Shaw South, totalling 311m^2. On 30 June 2006 one of the Leader's rooms (24m^2) was re-allocated to an Opposition Member's staff. Other changes over the period in question have been minimal. The Leader of the Opposition and his staff currently occupy 287m^2. The Shadow Cabinet Room remains available for Shadow Cabinet Meetings.

All allocations are made by the Opposition Accommodation Whip out of the rooms available to him for his Members and their staff. The overall distribution of rooms for Members is agreed between the parties after the General Election.

Parliamentary Passes

Mr. Dismore: To ask the hon. Member for North Devon, representing the House of Commons Commission, how many parliamentary passes are allocated to the Leader of the Opposition's staff; how many were allocated in each of the last four years; and if he will make a statement. [86151]

Nick Harvey: Leaders of the Opposition are allocated 18 parliamentary passes. In the last four years Leaders of the Opposition have taken full advantage of this facility. Currently 17 passes are issued and one is pending issue.

LEADER OF THE HOUSE

Deputy Prime Minister

Mrs. Spelman: To ask the Leader of the House if he will estimate the value of the Exchequer contribution to the Deputy Prime Minister's pension in each year since 1997. [85663]

Mr. Straw: The pensions of Ministers and office-holders are derived from the Supplementary Scheme of the Parliamentary Contributory Pension Fund (PCPF). The Government Actuary conducts a triennial review of the fund to determine the Exchequer contribution required to meet the balance of the cost of future pension benefits. The Exchequer contribution for the Supplementary Scheme has been in the range of 6.8 per cent. to 24 per cent. between 1997 and March 2006.

The value of the Exchequer contribution to the Fund based on a Commons Cabinet Minister's salary, excluding that in respect of service as an MP, in each year since 1997 was as follows:

	Exchequer contribution (£)
1997-98 (part)	4,072
1998-99	4,192
1999-2000	4,823
2000-01	4,962
2001-02	5,111
2002-03	5,519
2003-04	17,143
2004-05	17,486
2005-06	17,976

Ministerial Offices

Sarah Teather: To ask the Leader of the House how many times his ministerial office has been decorated in each of the last five years. [87645]

Mr. Straw: As required by the terms of the lease conditions, set by Crown Estate, my office has been decorated once in the last five years. This took place in 2002. It still looks okay.

Sitting Dates

Paul Rowen: To ask the Leader of the House when he expects to publish the dates of sittings for the next Session. [85746]

Mr. Straw: I hope to publish the dates of the sittings for the next Session after the House returns in the autumn, and it has made a decision on the future of September sittings.

SCOTLAND

Advertising Campaigns

Lynne Featherstone: To ask the Secretary of State for Scotland what advertising campaigns the Department has run between 2000 and June 2004; and what the *(a)* date and *(b)* cost was of each. [87057]

David Cairns: I refer the hon. Member to the answer I gave the hon. Member for Monmouth (David T.C. Davies) on 13 July 2005, *Official Report*, column 1086W, which sets out all the information on advertising costs incurred by this office for the period in question.

Departmental Publications

Mr. Amess: To ask the Secretary of State for Scotland what his practice is regarding meeting, discussions with and taking into account the views and opinions of *(a)* private individuals and *(b)* representatives of organisations when drawing up and framing legislation to be introduced by his Department; and if he will make a statement. [81649]

David Cairns: The Scotland Office seeks a full range of views when drawing up and framing legislation. Consultation is a key part of the policy-making process—both informal and formal.

Since it was established in 1999, the only primary legislation which the Department has taken forward has been the Scottish Parliament (Constituencies) Act 2004. This was preceded by a public consultation which was issued in December 2001.

Departmental Websites

Charles Hendry: To ask the Secretary of State for Scotland how many websites there are within his responsibilities; and what the total cost of maintaining such websites was in the last year for which figures are available. [79066]

David Cairns: For the period 1 January-31 December 2005, there were two websites for which the Scotland Office was responsible:

Website	*Overall costs (£)*
www.scotlandoffice.gov.uk	4,640
www.arbuthnottcommission.gov.uk	176

The overall costs are based on the fees for hosting the site, and where appropriate include any additional fees for updates and design revisions.

Public Appointments

Mr. Amess: To ask the Secretary of State for Scotland how many public appointments are within his patronage; what *(a)* salary and *(b)* other emoluments are attached to each; and what the comparable figures were in (i) 1976, (ii) 1986 and (iii) 1996. [83161]

David Cairns: Details of the public appointments to bodies sponsored by the Scotland Office can be found in "Public Bodies", copies of which are in the Library. "Public Bodies" has been published annually since 1980 and the most recent edition provides figures for 2005. The only public body currently sponsored by this office is the Boundary Commission for Scotland. Information before 1999 will relate to the responsibilities of the former Scottish Office.

TRADE AND INDUSTRY

Arms Trade

Susan Kramer: To ask the Secretary of State for Trade and Industry what transit and trans-shipment licences have been issued since 2003 for the movement of military goods from Bosnia via the UK to other destinations; what type of goods was covered within each licence; and what the final destination of the goods was in each case. [84993]

Jim Fitzpatrick *[holding answer 13 July 2006]:* I refer the hon. Member to the reply I gave on 17 July 2006, *Official Report*, columns 129-130W.

Centre for Ecology and Hydrology

Mr. Willis: To ask the Secretary of State for Trade and Industry what estimate he has made of the costs of the restructuring proposals for the Centre for Ecology and Hydrology. [86548]

Jim Fitzpatrick: The Centre for Ecology and Hydrology (CEH) is wholly owned by the Natural Environment Research Council (NERC). Following consultation with stakeholders, NERC announced in March that it will implement plans to ensure that CEH can contribute to UK environmental science on a sustainable basis in the future. NERC has estimated that the costs involved will be £43 million over four years, including a £7 million investment in new facilities at the retained sites. Details of the NERC announcement are set out at http://www.nerc.ac.uk/publications/latestpressrelease/2006-13ceh.asp.

Droit de Suite

Keith Vaz: To ask the Secretary of State for Trade and Industry what assessment he has made of the impact of Droit de Suite on *(a)* the London and *(b)* the British art market; and if he will make a statement. [85363]

Jim Fitzpatrick: A study of the potential impact on the British art market was carried out prior to the implementation of the directive introducing Droit de Suite. The report of its findings and the Regulatory Impact Assessment which was prepared during the implementation are available on the Patent Office website. This study did not consider the London art market separately.

A further study is being commissioned to assess the actual impact following our implementation of the directive. This will be undertaken during 2006-07.

Energy Policy

Mr. Meacher: To ask the Secretary of State for Trade and Industry if he will place in the Library copies of the presentation made to him on energy policy options by the Department of Trade and Industry energy team on 15 May; which departmental officials were present at the presentation; and what reasons underlay the choice of graphs and bar charts posted on his Department's website on energy usage following the presentation. [78093]

Malcolm Wicks: The Energy Review reported on 11 July. Information relating to the review, including the review document "The Energy Challenge", is available on the DTI website at: www. dti.gov.uk/energy/review

Publishing details of the departmental officials present at the meeting on 15 May would risk exposing individual civil servants unfairly to public scrutiny, when they are unable to answer potential criticism.

Paul Flynn: To ask the Secretary of State for Trade and Industry if he will place in the Library *(a)* copies of the presentation made to him on energy policy options by the Department of Trade and Industry

energy team on 15 May and *(b)* details of the departmental officials present at the presentation; and what reasons underlay the choice of the graphs and bar charts on energy usage posted on his departmental website following the presentation. [75370]

Malcolm Wicks: The Energy Review reported on 11 July. Information relating to the review, including the review document "The Energy Challenge", is available on the DTI website at: www.dti.gov.uk/energy/review.

Publishing details of the departmental officials present at the meeting on 15 May would risk exposing individual civil servants unfairly to public scrutiny, when they are unable to answer potential criticism.

Waste Electrical and Electronic Equipment Directive

Paul Rowen: To ask the Secretary of State for Trade and Industry if he will make a statement on progress in implementing the Waste Electrical and Electronic Equipment Directive. [86609]

Jim Fitzpatrick: As a result of the review my right hon. Friend the Secretary of State announced in December 2005 progress has been made in engaging with stakeholder to identify the issues of concern and to develop practical solutions.

Conclusions for the dialogue are currently being drawn together into a consultation document, which we aim to publish in the near future.

The Department is anticipating that transposition of the WEEE Directive into the UK law will take place early in 2007.

Wind Turbines

Mr. Graham Stuart: To ask the Secretary of State for Trade and Industry what assessment he has made of the long-term visual impact of wind turbines on local communities; and if he will make a statement. [86608]

Jim Fitzpatrick: All section 36 wind farm applications that fall to my right hon. Friend the Secretary of State to consider will be accompanied by an environmental impact assessment which will cover the impact during both construction and operation of the station. Visual impact is obviously one of the impacts considered.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Hague: To ask the Secretary of State for International Development what procedures are in place for preventing waste and embezzlement of UK funds for reconstruction in Afghanistan. [81735]

Mr. Thomas: DFID as a whole has robust accounting and financial management procedures, governed primarily by HM Treasury's Government Accounting Manual and developed over 40 years of ODA/DFID experience. As a member of the OECD's Development Assistance Committee, DFID also complies with good international practice on aid management. We are applying both these systems and good practice in Afghanistan, and are also working closely with other Government Departments to ensure good practice and financial compliance in managing funds.

DFID currently channels around 75 per cent. of its £102 million programme to Afghanistan through the Government's budget. This helps the Government of Afghanistan to deliver essential public services and to strengthen its public financial management systems. Most of this goes through the Afghan Reconstruction Trust Fund (ARTF). DFID has committed £165 million to the ARTF over the next three years (2006-07 to 2008-09). The ARTF is administered by the World Bank. It reimburses the Government of Afghanistan for expenditures that meet strict eligibility criteria in order to reduce the risk of waste and corruption. The World Bank considers both the type of expenditures and the process by which the money was spent. An independent monitoring agent (currently PricewaterhouseCoopers) monitors and reports on this to ensure it is effective.

Africa (UK Assistance)

Mr. Jim Cunningham: To ask the Secretary of State for International Development what assistance the UK provides for organic cotton production in Africa. [86023]

Hilary Benn *[holding answer 19 July 2006]:* DFID has funded organisations such as Pesticide Action Network UK in support of organic cotton production in Africa. A study financed by DFID in 1998 highlighted positive developments in the organic cotton sector in Uganda. The UK also provides indirect support for organic cotton production in Africa through, for example, the European Union and its EU-Africa Partnership on Cotton.

DFID is supporting broader African agriculture in a number of ways, which include support for organic cotton production. Much of this support for individual countries is targeted at country their own priorities and plans. DFID is also assisting the Africa Union/New Partnership for Africa's Development (AU/NEPAD) Comprehensive Africa Agriculture Development Programme to boost agricultural growth.

Mr. Jim Cunningham: To ask the Secretary of State for International Development what assistance the UK aid programme offers to the development of links between rural and urban markets in Africa. [86024]

Hilary Benn *[holding answer 19 July 2006]:* Links between rural and urban markets are important for economic growth and for allowing the poor to participate in that growth. One of the key constraints is the poor state of infrastructure linking rural and urban areas.

DFID is helping a number of countries in Africa to improve their road networks to link rural and urban markets. This includes specific projects to improve roads and transport services in countries such as Nigeria and Ghana in addition to budget support for implementation of countries' own infrastructure plans.

DFID support for information and communications technology (ICT) is also helping to build effective links between rural and urban markets. For example, the DFID-supported Business Linkage Challenge Fund is helping to boost the outreach of mobile banking in Kenya.

The Infrastructure Consortium for Africa was launched in London as a multi-donor initiative in October 2005. This is addressing regional infrastructure constraints to connecting markets across Africa, which will impact on rural-urban links. The UK has committed US $20 million for the work of the consortium.

Post-Conflict Reconstruction Unit

Mr. Ellwood: To ask the Secretary of State for International Development what progress has been made in establishing the Post-Conflict Reconstruction Unit; and what its *(a)* composition, *(b)* budget and *(c)* line of accountability will be. [85474]

Hilary Benn: The Post-Conflict Reconstruction Unit (PCRU) was established at the end of 2004 to help improve the United Kingdom's capacity to contribute to achieving a stable environment in countries emerging from conflict. It seeks to do so by working closely with Government Departments and the military to help (a) facilitate joint military-civilian assessments of the immediate challenges and opportunities in such countries; (b) facilitate joint military and civilian planning; (c) share lessons to further improve the effectiveness of UK activities in helping to stabilise countries and (d) enhance Her Majesty's Government's capability to deploy civilians overseas to develop and oversee implementation of these plans during their initial stages.

In the year since it became operational, the PCRU's achievements include:

Facilitating an assessment and plan for the UK's engagement in Helmand Province in Afghanistan. It has provided seven staff and consultants over the last six months to support implementation of this plan in areas such as security, justice and governance, prior to the establishment of longer-term staffing by DFID and the Foreign and Commonwealth Office (FCO);

Providing the majority of the staff of the strategic delivery unit in the British embassy in Kabul which helps ensure the overall coherence of UK assistance in Afghanistan;

Providing the team leader and support staff for the UK-led provincial reconstruction team in Basra which co-ordinates and helps deliver UK, US and Danish capacity building assistance to the Iraqi Government in the south, focusing on Basra Province;

Providing advice in other areas such as UK security and justice sector work in Yemen and assisting the AU/AMIS in the development of an initial six month communications strategy for the Darfur Peace Agreement; and

working with the Permanent Joint Headquarters in military exercises to demonstrate the value of integrated civilian/military planning.

Currently, the PCRU has 28 personnel drawn from five Government Departments and agencies including DFID, FCO, the Ministry of Defence (MOD) and HM Treasury. In responding to requests for deployment this is supplemented by drawing on its database of 400 experts. The unit's £10 million budget for 2006-07 finances core staff, deployment of these staff and consultant experts, and associated vehicles and communications.

The unit's work is overseen by the Defence and Overseas Policy (Conflict Prevention and Reconstruction) Committee (DOP (CPR)). The DFID permanent secretary is accountable for staffing and finance.

Water

Ms Abbott: To ask the Secretary of State for International Development how many *(a)* foreign-owned and *(b)* British-owned businesses and consultancies have worked with his Department on water provision for the urban poor in the developing world since 1997. [85800]

Hilary Benn *[holding answer 19 July 2006]:* DFID does not maintain records of the ownership of businesses and consultancies that have worked with us in the urban water sector since 1997. Our investments are developed through close working with a range of stakeholders, such as national and local Governments overseas, other donors, civil society organisations and private sector companies.

We provided a total of £221 million of development assistance in 2003-04 for water and sanitation. £131 million Of that was bilateral expenditure, of which approximately one-fifth was spent on urban water supply, one-quarter on rural water supply and one-fifth on humanitarian assistance.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Drinking Water (Perfluorooctane Sulfonate)

9. **Mike Penning:** To ask the Secretary of State for Environment, Food and Rural Affairs what level of perfluorooctane sulfonate is allowed in drinking water. [86604]

Ian Pearson: In the light of current advice from the Health Protection Agency, the Drinking Water Inspectorate's view is that to safeguard human health, perfluorooctane sulfonate (PFOS) should not be present in drinking water supplies above three microgrammes per litre (micro).

Wildlife Habitats

15. **Greg Clark:** To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government monitor the loss of wildlife habitats in urban areas. [86613]

Barry Gardiner: The Government do not specifically monitor the loss of wildlife habitats in urban areas. However, the recently published report on progress under the UK Biodiversity Action Plan suggests that the last three years have seen more positive signs of progress. The list of priority species and habitats is also being reviewed to ensure that the UK Biodiversity Action Plan remains responsive both to new information and to conservation needs.

Market Towns

16. **Mrs. Dunwoody:** To ask the Secretary of State for Environment, Food and Rural Affairs how many market towns have participated in his Department's market town initiative. [86615]

Barry Gardiner: More than 230 towns have benefited from support through this initiative.

Recycling

17. **Mary Creagh:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the local government association on the setting of targets for recycling. [86616]

Mr. Bradshaw: We have had regular discussions with representatives of local government and others to discuss recycling and other waste matters. The LGA have also submitted a formal response to our current waste review.

Growth-promoting Hormones

18. **Mr. Gordon Prentice:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with non-EU countries on the use of growth-promoting hormones in raising livestock. [86617]

Mr. Bradshaw: None.

Warm Front Initiative

19. **Kitty Ussher:** To ask the Secretary of State for Environment, Food and Rural Affairs how many properties in Burnley have received funding from the Department's Warm Front initiative. [86618]

Ian Pearson: Some 5,530 households in Burnley have benefited from a range of financial support and help from the Government since the Warm Front programme began.

British Sugar Plant (Shropshire)

20. **Daniel Kawczynski:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will visit Shrewsbury to discuss with local sugar beet farmers the closure of the main British Sugar plant in Shropshire. [86619]

Barry Gardiner: My noble Friend Lord Rooker has already met growers' representatives at both national and local level to discuss the planned factory closures.

Biodiversity

Mr. Borrow: To ask the Secretary of State for Environment, Food and Rural Affairs what support his Department gives farmers to manage land in ways that promote greater biodiversity. [86614]

Ian Pearson: The Government provide over £300 million a year for farmers through agri-environment schemes such as Environmental Stewardship to promote greater biodiversity.

Correspondence

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs if he will reply to the letters from the Assistant Director for Planning of Bridgend county borough council (BCBC) dated 9 August 2005, 26 August 2005 and 19 October 2005, and from the Chief Executive of BCBC dated 7 December 2005, 11 January 2006 and 4 April 2006. [81145]

Mr. Bradshaw: The Secretary of State for Environment, Food and Rural Affairs replied to Kerrie Lewis, the Chief Executive of BCBC, on 27 June 2006.

This letter has been copied to both the hon. Member and the Assistant Director for Planning of BCBC.

CULTURE, MEDIA AND SPORT

2012 Olympics

Bob Russell: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the level of capital funding that local authorities intend to spend on sports facilities in the period leading up to the 2012 Olympics; and if she will make a statement. [86347]

Mr. Woolas: I have been asked to reply.

It is estimated that local authorities in England plan to spend £621 million on sports and recreation services in 2006-07. No estimates of planned local authority spending on sports facilities are available for later years.

Analogue Radio Spectrum

Derek Wyatt: To ask the Secretary of State for Culture, Media and Sport what plans there are to switch off the analogue radio spectrum. [86941]

Mr. Woodward: There are no current plans for a switchover to digital radio. However, section 67 of the Broadcasting Act 1996 requires the Secretary of State to keep under review the development of digital radio for the purposes of considering how long it would be appropriate for sound broadcasting services to be provided in analogue form. The first review in 2004 found that both the BBC and Ofcom agreed that it was premature to set a switchover date. We are, however, working with Ofcom and the industry to overcome the remaining potential barriers to digital radio.

Commonwealth Institute

Mr. Mark Field: To ask the Secretary of State for Culture, Media and Sport when she last visited the Commonwealth Institute building. [86218]

Tessa Jowell: I last visited the Commonwealth Institute building on 5 December 2002.

Departmental Emissions

Chris Huhne: To ask the Secretary of State for Culture, Media and Sport what recent estimate she has made of the carbon emissions of her Department; what commitment she has made to reducing such emissions; and if she will make a statement. [81327]

Mr. Woodward: The most recent estimate for carbon emissions produced by my Department's office estate is 799,616.74 kg in the year 2004-05.

We are fully committed to the cross-Government targets to reduce carbon emissions by 12.5 per cent. by 2010 and by 30 per cent. by 2020 (relative to 1999-2000 levels).

Food Advertising (Children)

Chris Ruane: To ask the Secretary of State for Culture, Media and Sport what steps Ofcom took to elicit responses to its consultation on television advertising for food products targeting children from those *(a)* in favour of and *(b)* opposed to restrictions. [87011]

Mr. Woodward: The matters raised are the responsibility of the Office of Communications as independent regulator. Accordingly, my officials have asked the Chief Executive of Ofcom to respond directly to my hon. Friend. Copies of the Chief Executive's letter will be placed in the Libraries of both Houses.

Outsourcing

Mr. Gauke: To ask the Secretary of State for Culture, Media and Sport what administrative functions for which her Department is responsible are outsourced overseas; and what assessment she has made of the merits of outsourcing further such functions overseas. [81549]

Mr. Lammy: None of the Department's administrative functions has been outsourced overseas, nor are there any plans to do so.

Sports Funding

Bob Russell: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the percentage of local authority *(a)* capital and *(b)* revenue funding that will be spent on sport in (i) 2006-07 and (ii) 2007-08; and if she will make a statement. [86356]

Mr. Woolas: I have been asked to reply.

The percentage of local authority *(a)* capital and *(b)* revenue net current expenditure that will be spent on sport in the current financial year is tabled as follows. The figures for 2007-08 are not yet available.

Financial year	*Capital*	*Percentage Revenue*
2006-07	3.6	0.7

The capital figures are based on forecast data from Capital Estimate Returns (CER) for 2006-07.

The revenue data are as reported by local authorities and are taken from Revenue Account budget (RA) returns for 2006-07.

The definition of council revenue net current expenditure used here is expenditure on employees and running expenses net of sales, fees and charges, internal recharges and other non-grant income (such as receipts from other authorities), but gross of expenditure funded by specific grants and interest receipts.

Comparisons across years may not be valid owing to changing local authority responsibilities and method of reporting the information. In particular, budget data for 2006-07 have been calculated on an FRS 17 basis. Hence, figures for different years may not be directly comparable.

Bob Russell: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the percentage of local authority *(a)* capital and *(b)* revenue funding that was spent on sport in each of the last five financial years; and if she will make a statement. [86357]

Mr. Woolas: I have been asked to reply.

The percentage of local authority *(a)* capital and *(b)* revenue net current expenditure that was spent on sport and recreation in each of the last five financial years is tabled as follows:

Financial year	*Capital*	*Percentage Revenue*
2001-02	3.2	0.9
2002-03	2.7	0.9
2003-04	2.1	0.7
2004-05	2.1	0.7
2005-06	2.8	0.7

The capital figures are based on final outturn data from Capital Outturn Returns (COR) for 2001-02 to 2004-05 and on provisional outturn data from Capital Payments Returns (CPR4) for 2005-06.

The revenue data are as reported by local authorities and are taken from Revenue Outturn (RO) and Revenue Summary (RS) returns for 2001-02 to 2004-05, and Revenue Account budget (RA) returns for 2005-06.

The definition of council revenue net current expenditure used here is expenditure on employees and running expenses net of sales, fees and charges, internal recharges and other non-grant income (such as receipts from other authorities), but gross of expenditure funded by specific grants and interest receipts.

Comparisons across years may not be valid owing to changing local authority responsibilities and method of reporting the information. In particular, the revenue outturn data for 2001-02 to 2002-03 have been calculated on a non-FRS (Financial Reporting Standard) 17 basis while the outturn data for 2003-04 to 2004-05 have been calculated on an FRS 17 basis. The budget data for 2005-06 are a mix of FRS 17 and non-FRS 17. This is because for their 2005-06 budget forms local authorities, after consultation, were given the option to complete their forms either on a non-FRS 17 basis or on an FRS 17 basis. Hence, figures for different years may not be directly comparable.

SOLICITOR-GENERAL
Information Technology

Chris Huhne: To ask the Solicitor-General what the *(a)* originally estimated, *(b)* most recently estimated and *(c)* outturn cost was in each of the five largest information technology contracts agreed with outside suppliers over the last five years. [71778]

The Solicitor-General: I am answering this question on behalf of the Crown Prosecution Service, the Treasury Solicitor's Department, the Serious Fraud Office, the Revenue and Customs Prosecutions Office and HM Crown Prosecution Service Inspectorate.

For the Crown Prosecution Service (CPS), the figures available are as follows (all figures include VAT):

The COMPASS programme

The COMPASS programme is a 10-year public finance initiative partnership between the CPS and LogicaCMG to modernise information technology within the CPS.

(a) When the COMPASS contract was awarded (December 2001 to begin April 2002) the value was estimated at approximately £240 million over the period of the contract, based on the parameters at the time such as the number of sites and users and the legislative environment.

(b) The estimated outturn cost to the end of the contract is £408 million.

(c) The outturn cost as at 31 March 2006 is £122 million.

The difference between the original estimate and the most recent estimate of the cost of the contract reflects: higher staff numbers, a larger number of locations where COMPASS is available, improvements in service levels and the development of a new system to support witness care units, none of which could have been anticipated when the contract was let.

Finance and accounting record management system (FARMS)

FARMS is the CPS's finance and accounting record management system.

(a) Original estimate for full life costs based on "best and final offer" September 2003: £9.723 million.

(b) Revised estimate for full life costs based as at March 2005: £10.195 million.

(c) Outturn to 31 March 2006: £6.103 million.

Managed service and support costs are indexed at 3 per cent. pa. The five-year managed service contract commenced in August 2004 and finishes in July 2009.

Other, smaller contracts (for example the payroll and HR systems and the corporate information system) began over five years ago and have subsequently been incorporated into the wider COMPASS programme.

For the Treasury Solicitor's Department the following table shows the originally estimated, most recently estimated and outturn cost of the five largest IT contracts agreed with outside suppliers over the last five years.

Table 1

	£000			
Contract	*Original estimate (a)*	*Most recent estimate (b)*	*Outturn cost (c)*	*Comments*
1. Practice and Case Management System Development	2,061	2,061	2,346	Contract for development of system concluded December 2004.
2. Lexis Nexis Legal Information Subscription Services	1,548	1,548	1,012	3-year index-linked subscription service contract, currently in 3rd year, hence reduced outturn cost. TSol recharges 77.5 per cent. of total cost.
3. Lawtel Legal Information Subscription Services	623	623	405	3-year index-linked subscription service contract, currently in 3rd year, hence reduced outturn cost. TSol recharges 77.5 per cent. of total cost.
4. OKS Accommodation Move Desktop Refresh	566	566	414	Includes cost of purchase of workstation equipment minus £20,000 buy-back on existing workstations.
5. Hardware Contract for Practice and Case Management System	547	401	384	Storage Area Network costs for implementation

The following table shows the five companies that the Serious Fraud Office has made the largest payments to from financial year 2001-02 to 2005-06 inclusive.

Total expenditure 2001-05

Company	£
Legal Inc	870,256
Computacentre	2,086,249
IBM UK	6,954,409
Logica	2,743,972
RWM Data	1,672,439

These contracts are all for ongoing IT or technology related services and not for discrete projects. Expenditure is controlled by purchase orders and annual budgets, so the question of estimated and outturn expenditure does not arise.

The Revenue and Customs Prosecutions Office was established as a new Department on 18 April 2005. Since its creation RCPO has procured the majority of its information technology services from HM Revenue and Customs. The outturn cost of these services during 2005-06 was £1.9 million. In addition to these services RCPO has used IT consultants in relation to specific

projects. Their total cost during 2005-06 was £0.13 million. The Department has recently created a new post, Head of Information Services, and this was filled on 3 May 2006 initially on a six-month contract by an IT professional with 18 years experience in the IT industry and with technical, project management and service delivery expertise. He also has considerable experience in working with UK central Government. As well as receiving a considerable amount of technical and professional training from a previous employee, IBM, he has a Diploma in Business Studies.

The information technology requirements of HM Crown Prosecution Services Inspectorate are provided through the services of CPS service desk and their provider Logica.

The only IT investment undertaken through our own budget relates to the design/development and improvement/updating of the HMCPSI website. Over the last four years a total of £22,264 (incl. VAT) has been spent on this work.

COMMUNITIES AND LOCAL GOVERNMENT

Concessionary Travel

Mr. Hoyle: To ask the Secretary of State for Communities and Local Government what guidance the Government have given to local authorities on the treatment of money allocated to councils for the concessionary travel scheme but not spent; and whether such under-spending should be returned to central Government. [86938]

Mr. Woolas: The Government have issued no guidance to local authorities on the treatment of money for concessionary fares.

Local authorities' responsibilities for concessionary fares are funded through general grant from Government (consisting mainly of Revenue Support Grant and re-distributed National Non-Domestic Rates) and through income generated by authorities, including council tax. General grant is not hypothecated to a particular service and councils are free to use the funding in line with the wishes of their electorate, taking into account their statutory responsibilities.

Council Tax

Mr. Hands: To ask the Secretary of State for Communities and Local Government, pursuant to the answer of 4 May 2006, *Official Report*, column 1800W to my hon. Friend the Member for Brentwood and Ongar (Mr. Pickles), on council tax, how many copies of council tax bills were received by *(a)* registered and *(b)* recorded post at (i) Eland House and (ii) 26 Whitehall; and how many of the written representations about council tax included copies of council tax bills. [87451]

Mr. Woolas: It is not possible to identify reliably which documents received by registered or recorded post by the Office of the Deputy Prime Minister were copies of council tax bills. Approximately 1,700 of the copies of council tax bills received came with a separate written representation enclosed.

Departmental Estate

Sarah Teather: To ask the Secretary of State for Communities and Local Government how many times her ministerial office has been decorated in each of the last five years. [87654]

Angela E. Smith: The Department for Communities and Local Government was created on 5 May 2006. Since that time the ministerial office of my right hon. Friend the Secretary of State for Communities and Local Government has not been decorated.

There is no redecoration programme in the DCLG HQ buildings, with all such work being carried out on an ad-hoc basis following routine inspections by the Facilities Management team. The dates of redecoration of any particular area during the last five years could be provided only at disproportionate cost.

Draft Legislation

Mr. Amess: To ask the Secretary of State for Communities and Local Government what her practice is regarding meeting, discussing and taking into account the views and opinions of *(a)* private individuals and *(b)* representatives of organisations, when drawing up and framing legislation to be introduced by her Department; and if she will make a statement. [81269]

Angela E. Smith: The Department always seeks a full range of views when drawing up and framing legislation. Consultation is a key part of the policy-making process; both informal and formal. The Department holds regular meetings with representatives of the principal stakeholder groups for our policy areas and with relevant experts. Organisations and individuals can also contribute to the Department's formal consultations which abide by the Code of Conduct on Consultation. Known stakeholders are generally alerted when a formal consultation is taking place. As required by the code, the Department then gives feedback on the responses received and on how the consultation process influenced the policy decision.

For example the 'Greater London Authority: Proposals for Additional Powers' consultation ran from 30 November 2005 to 22 February 2006. Copies of the consultation paper were circulated to over 400 organisations and individuals with an interest in London's governance, and to all main public libraries in London. The proposals were also made publicly available on the DCLG and GLA websites. In addition the Minister for London hosted two seminars as part of the overall review, attended by a range of stakeholders. DCLG received 337 consultation responses and a summary of responses was published on 13 July 2006 alongside our conclusions on what new powers the GLA should be given. Most of these will be enacted by primary or secondary legislation and we intend to undertake further consultation as part of the implementation process.

Hostels

Mr. Maude: To ask the Secretary of State for Communities and Local Government what assessment she has made of the impact of the judicial decision in Beasley *v.* National Council of YMCA's QBD (2000)

RA 429; and whether she plans to bring forward measures in response to the situation on the treatment of self-contained living quarters within hostels for council tax purposes. [86130]

Mr. Woolas: The Department for Communities and Local Government has made no assessment of the impact of the decision in Beasley *v.* National Council of YMCAs. The Valuation Office Agency takes account of all relevant case law when determining whether to band a dwelling separately for council tax purposes. The Government have no plans to amend the current legislation governing when a single property should be treated as more than one dwelling for council tax purposes.

Litter Collection (Swindon)

Mr. Wills: To ask the Secretary of State for Communities and Local Government how much funding has been allocated to Swindon borough council for litter collection in 2006-07. [86630]

Mr. Woolas: Waste collection is one of the district-level services included in the Environmental, Protective and Cultural Services (EPCS) block. The EPCS block is one of seven service blocks supported via Formula Grant. Formula Grant comprises Revenue Support Grant, Redistributed Business Rates and principal formula Police Grant. Formula Grant is an unhypothecated block grant: authorities are able to use the money for any service. This, together with the way in which Formula Grant is calculated, particularly the application of floor damping, means that it is not possible to say how much grant was provided for environmental, protective and cultural services.

Local Government

Anne Snelgrove: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effectiveness of newspaper advertising as a means of communicating information about proposals under the Local Authorities Traffic Orders (Procedure) (England and Wales) Regulations 1996. [86292]

Gillian Merron: I have been asked to reply.

A working group of representatives from national and local authorities has recently considered whether the procedures for advertising Traffic Regulation Orders should be streamlined. The group made several recommendations concerning the advertising of different types of order. We are considering the recommendations and will consult publicly on formal proposals arising.

Minimum Dig Working

Alison Seabeck: To ask the Secretary of State for Communities and Local Government (1) what steps she is taking to encourage local authorities *(a)* to join and *(b)* to participate in the activities of societies and other bodies associated with minimum dig working; [85029]

(2) what steps she has taken to ensure that local authorities inform their staff of the availability of trenchless technology for underground works on council services. [85054]

Gillian Merron: I have been asked to reply.

Decisions on highways maintenance are a matter for the individual highway authority.

The Department welcomes local authority participation in professional bodies which promote the adoption of best practice in highway maintenance. Through the UK Roads Board, my officials have regular contact with the County Surveyors Society and the local authority Technical Advisors Group, which represent engineers from a wide range of local authorities. Last year, the Board published 'Well-maintained Highways' (TSO, July 2005), a code of practice for highway maintenance management, which encourages both a focus on the needs of road users and continuous improvement in delivery (which includes effective staff training).

Parking

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what requirements councils are under to publish *(a)* their parking accounts and *(b)* a statement of their parking enforcement activities. [85673]

Gillian Merron: I have been asked to reply.

Councils are currently under no obligation to publish their parking accounts or a statement of their parking enforcement activities. The current public consultation "Better Parking—Keeping Traffic Moving", launched on 12 July 2006, proposes that English councils with decriminalised parking enforcement powers should publish annual reports containing financial and statistical data about their parking activities.

The consultation document is available in the Libraries of the House and on the Department for Transport website at

www.dft.gov.uk/stellent/groups/dft_roads/documents/divisionhomepage/612002.hcsp.

Population Estimates

Fiona Mactaggart: To ask the Secretary of State for Communities and Local Government what assessment she has made of the impact on local authorities of the mid-year population estimates; and if she will make a statement. [81982]

Mr. Woolas: Population data supplied by the Office for National Statistics are used throughout the formula grant distribution system. Both population projections and mid-year estimates are used in relative needs formula indicators. Population projections are also used to determine the relative needs amount, relative resource amount and central allocation as these are calculated on a per head basis. The distribution of formula grant is also affected by the social and economic characteristics of an area, a council's relative ability to raise council tax, and floor damping.

Department for Communities and Local Government officials have met a number of local authorities, including Slough, to discuss their concerns on their mid-year population estimates. However, the ONS population figures remain the best data available on a consistent basis for all authorities.

Public Appointments

Mr. Amess: To ask the Secretary of State for Communities and Local Government how many public appointments are within her patronage; what *(a)* salary and *(b)* other emoluments are attached to each; and what the comparable figures were in (i) 1976, (ii) 1986 and (iii) 1996. [83192]

Angela E. Smith: Details of public appointments to public bodies sponsored by the Department for Communities and Local Government can be found in 'Public Bodies', copies of which are in the Library. 'Public Bodies' has been published annually since 1980 and the most recent edition provides figures for 2005. Each edition of 'Public Bodies' contains details on the number of public appointments and remuneration details for that particular year. The Department for Communities and Local Government was created in May 2006 as a result of Machinery of Government changes; its predecessor, the Office of the Deputy Prime Minister, was formed in May 2002. Therefore comparable figures are not available.

Current details held centrally on the remuneration attached to each Chair and Board Member, correct at 31 March 2006, are set out in the following table. The information covers bodies that fall within the remit of the Commissioner for Pubic Appointments.

Advisory NDPBs

Public Body	*Chair (£)*	*Members (£)*	*Time Input*
Advisory Panel on Beacon Councils	213 pd	163 pd	25 dpy 15 dpy
Advisory Panel on Standards in the Planning Inspectorate	213 pd	163 pd	2 dpm 2 dpm
Building Regulations Advisory Committee	Unpaid	Unpaid	35 dpy varies
Community Forum	Unpaid	163 pd	4 dpy 12 dpy
Women's National Commission (recently transferred to DCLG)	10,000 pa	Unpaid	5 dpm 2 dpm (maximum attendance)

Executive NDPBs

Public Body	*Chair/Deputy Chair (£)*	*Members/Members with additional duties (£)*	*Time Input*
Audit Commission	57,896 pa	13,508 pa/18,011 pa	2 dpw 3 dpm/4 dpm
Commission for Racial Equality (recently transferred to DCLG)	128,625 pa	160 pd	5 dpw 20-30 dpy
English Partnerships	82,390 pa/35,864 pa	11,743 pa	3 dpw/2 dpw 3 dpm
Equal Opportunities Commission (recently transferred to DCLG)	96,600 pa/80,360 pa	160 pd	161 dpy/40 dpy 30 dpy
FireBuy	6,000 pa/4,000 pa	4,000 pa	3 dpm/2 dpm 2 dpm

Standards Board for England	40,000 pa/10,480 pa	7,130 pa	2 dpw/2.5 dpm 2 dpm
Thurrock Urban Development Corporation	46,690 pa/35,074 pa	11,805 pa	2 dpw/2 dpw 3 dpm
Valuation Tribunal Service	54,000 pa/262 pd	262 pd	3 dpw/20 dpy 15 dpy
West Northants Development Corporation	44,528 pa/33,450 pa	11,259 pa	2 dpw/2 dpw 3 dpm

Public Corporations

Public Body	*Chair/Deputy Chair (£)*	*Members (£)*	*Time Input*
Architects Registration Board	250 pd	250 pd	20 dpy

Key pa = per annum pd = per day dpw = days per week dpm = days per month dpy = days per year

Roads and Pavements

Mr. Carmichael: To ask the Secretary of State for Communities and Local Government what the budget of each local authority for road and pavement maintenance was in each of the last two years; and what the overspend or underspend of each was in each year. [85777]

Gillian Merron: I have been asked to reply.

Information on local authorities' highway maintenance budgets is not held centrally.

The Department provides capital maintenance funding for English local highways authorities outside London for investment in their highway network, including its structures and street lighting. It is for each local authority to determine how its allocations are spent, in line with its priorities.

Supporting People Strategy

Sandra Gidley: To ask the Secretary of State for Communities and Local Government when her Department plans to publish the Supporting People National Strategy; and if she will make a statement. [86092]

Mr. Woolas: I published an initial strategy paper for consultation, "Creating Sustainable Communities", in November of last year. Following extensive consultation, I published "Supporting Independence: Next Steps in our Supporting People Strategy" on the 11 July this year, which outlined a number of potential areas for development of the programme. A final strategy is currently being developed, and is planned for publication in the autumn.

Training Courses

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much her Department spent on training courses in the most recent year for which figures are available. [86832]

Angela E. Smith: DCLG central spent £3.92million on learning and development activities for the financial year 2005-06

Valuation Office Agency

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what representatives from the Valuation Office Agency attended the IRRV conference in Blackpool in May; and to what extent they participated. [83094]

Mr. Woolas: Ministers are responsible for Government policy. The actions of and the naming of individual civil servants are not matters for public discussion.

Valuebill Database

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment the Government have made of whether the planned valuebill database will hold sensitive personal data as defined by the Data Protection Act 1998. [86833]

Mr. Woolas: Valuebill aims to improve the electronic exchange of property information between local authorities and the Valuation Office Agency and to better link existing property databases through the provision of a unique property reference number. The information exchanges that Valuebill seeks to facilitate do not relate to sensitive personal information within the definition of the Data Protection Act.

DEFENCE

Afghanistan

Mr. Harper: To ask the Secretary of State for Defence what recent discussions he has had with his US counterpart regarding the draw down of US troops from Afghanistan and the security plans thereafter; and if he will make a statement. [85109]

Des Browne: I refer the hon. Member to the answer I gave on 10 July 2006, *Official Report*, column 1138, to the hon. Member for Woodspring (Dr. Fox).

Mr. Harper: To ask the Secretary of State for Defence pursuant to his oral statement of 10 July 2006, *Official Report*, columns 1131-48, on Afghanistan (troop levels), how many extra *(a)* medical and *(b)* logistical support personnel will be deployed as part of the additional deployment to Helmand Province; and when they will arrive. [85114]

Des Browne: On current plans, the enhancements to the Helmand Taskforce announced on 10 July will include around 15 additional medical support personnel and 150 logistics support personnel, all of whom will deploy around September.

Mr. Harper: To ask the Secretary of State for Defence what discussions he has had with the *(a)* Secretary of State for Foreign and Commonwealth Affairs and *(b)* Secretary of State for International Development regarding the reconstruction effort in Afghanistan. [85756]

Des Browne: I have regular discussions with my colleagues, the Secretary of State for Foreign and Commonwealth Affairs and the Secretary of State for International Development, on a wide range of issues.

Armed Forces Compensation Scheme

Mr. Harper: To ask the Secretary of State for Defence what assessment he has made of whether the Armed Forces Compensation Scheme tariff is being applied in the same way in relation to mental ill health and physical injury; and if he will make a statement. [85310]

Mr. Watson *[holding answer 14 July 2006]:* The Armed Forces Compensation Scheme is a tariff based scheme designed to provide compensation for service personnel injured, made ill or killed through service since 6 April 2005. The tariffs cover the full range of injuries, physical and mental, likely to affect service personnel. The Scheme is administered by the Veterans Agency which applies the same determination process to all conditions whether physical or mental. An evaluation of all aspects of the first year of operation of the Scheme is currently being carried out involving interested parties, one of which is Combat Stress. The evaluation will be in the light of experience and evidence of cases arising so far, including those who have suffered from mental health issues.

Colombia

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 3 July 2006, *Official Report*, column 703W, on Colombia, whether he has made an assessment of the extent to which the training given for the disposal of explosive devices is within the de-mining framework of the Human Rights Programme of the Colombian Vice-Presidency and the anti personnel mines observatory; and if he will make a statement. [85299]

Mr. Ingram: The explosive device disposal assistance provided to the Colombian armed forces by the MOD through its humanitarian de-mining training sits very well within the de-mining framework of the Human Rights Programme of the Colombian Vice-Presidency. The work of the latter is done through the Anti-Personnel Mines Observatory, as the Colombian Government's vehicle for the application of the Ottawa Convention.

The Observatory aims to achieve its goals by following an action plan that includes: the generation of knowledge and information on landmine issues, prevention, assistance to victims and removal of mines; promoting the solidarity of the international community for developing national actions in applying the Ottawa convention; education work to help prevention; promoting humanitarian de-mining; and regulating, disseminating, promoting, applying and monitoring various aspects of the De-mining National Plan, including the Regime of Collection and Destruction of anti-personnel mines.

MOD personnel providing de-mining training enter into consultation with personnel from the Anti-Personnel Mines Observatory to ensure the training we give ties in with their action plan. MOD humanitarian de-mining training affects the removal of mines, and promotes public education and awareness of landmine issues. Thus it is well positioned to meet a number of the Vice President's priorities.

The humanitarian de-mining training provided by the MOD in 2006 conformed to the International Mines Action Standards (IMAS) 2005. This is the acknowledged international standard approved by the UN and is used worldwide. We have an aspiration that for future courses Colombian students will gain IMAS accreditation through such training.

FEPOW Scheme

Mr. Harper: To ask the Secretary of State for Defence pursuant to the written statement of 30 January 2006, *Official Report*, columns 2-3WS, on Far East Prisoners of War and Civilian Internees (FEPOW Scheme), when he expects to announce the findings of Mr. Watkins' report; and if he will make a statement. [87006]

Mr. Watson: I refer the hon. Member to the written ministerial statement that I made on 19 July 2006, *Official Report*, columns 26-27 WS.

International Security Assistance Force

Nick Harvey: To ask the Secretary of State for Defence what recent discussions he has had with NATO allies on the provision of additional troops and resources to the International Security Assistance Force. [84898]

Des Browne: I refer the hon. Member to the answer I gave on 10 July 2006, *Official Report*, column 1143, to my hon. Friend the Member for Ilford, South (Mike Gapes).

Iraq

Mr. Paterson: To ask the Secretary of State for Defence whether an evaluation of the experience of dealing with the TMRP-6 mine in Bosnia has been carried out in the context of the emergence of explosively formed projectile mines in Iraq. [82572]

Mr. Ingram: The Ministry of Defence has an established process to review operational experiences, which provides the primary mechanism whereby we can translate lessons and best practice into enhanced capability. Lessons learned from our experience of the TMRP-6 have been evaluated and where appropriate implemented. However, we must be careful not to generalise conclusions drawn from one specific threat as the improvised threats we currently face on operations are not easily characterised.

Mr. Mullin: To ask the Secretary of State for Defence pursuant to the Answer by the Solicitor-General of 5 July 2006, *Official Report*, column 1111W, on Iraq, what investigations he has undertaken into the practice of wetting; how far up the chain of command knowledge of the practice extended; and what steps he has taken to ensure that the practice is not continued. [84361]

Mr. Watson: Wetting is not an official military procedure although the military chain of command is aware that this practice is alleged to have taken place in specific cases which have been individually investigated.

All officers and soldiers receive training in ethics throughout their careers. Training is first provided during Initial Training, when a soldier or officer joins the Army, with further training linked to rank and responsibility, usually when an officer or soldier is promoted. In addition, every officer and soldier receives refresher training on an annual basis through the Military Annual Training Tests which maintain Common Military Skills. This routine training is reinforced during Pre-Deployment Training where all soldiers and officers receive refresher training on the Values and Standards of the British Army, Equality and Diversity and the Law of Armed Conflict.

Where there are any allegations that soldiers have failed to act within the law or their rules of engagement, those allegations will be investigated and where appropriate, action will be taken against individuals.

Military Vehicles

Mr. Paterson: To ask the Secretary of State for Defence whether his Department has carried out an assessment of the design of the Force Protection MUV-R Joint Light Tactical Vehicle prototype for suitability as a tactical patrol vehicle for the British Army. [82494]

Mr. Ingram: We continually review new developments across the defence industry. We are aware of the Force Protection Inc. MUV-R and as the Secretary of State announced on 26 June we are conducting a review of the options for protected patrol vehicles to determine what can be done as soon as possible and in the longer term.

Mr. Paterson: To ask the Secretary of State for Defence what the official designation is of the Snatch Land Rover; when it was first produced for the British Army; how many versions have been produced; how many of each version have been produced; what levels of ballistic protection each version offers; and what the approximate cost per vehicle is of the current version. [82508]

Mr. Ingram: The original SNATCH Land Rover was produced in 1992 and a total of 991 were procured. There have been four different upgrades producing five variants as follows:

Version	*Official designation*	*Number*
1	Truck utility medium (TUM) hardtop with vehicle protection kit (VPK) Land Rover 1 10 V8 Petrol.	30
1.5	TUM hardtop with VPK Land Rover 1 10 V8 petrol (desertised).	[1]278
2	TUM high specification (TUM HS) hardtop with VPK left hand drive 12Volt with air conditioning unit refurbished 2005.	[2]77
2A	TUM HS hardtop with VPK 24Volt with air conditioning unit refurbished 2005.	[3]351
2B	TUM HS hardtop with VPK 24Volt refurbished 2005.	[4]225

[1] Refurbished from SNATCH 1
[2] Modified from SNATCH 1 and 1.5
[3] Programme to refurbish from SNATCH 1 and 1.5 currently ongoing
[4] Refurbished from SNATCH land 1.5

30 SNATCH have been removed from service leaving a current total of 961. The approximate cost of a SNATCH 2A is around £60,000. We do not comment on protection levels, as disclosure would, or would be likely to, prejudice the security of our armed forces.

Nuclear Deterrent

Dr. Julian Lewis: To ask the Secretary of State for Defence on what date he was first informed of the Chancellor of the Exchequer's public commitment to retention of the nuclear deterrent in the long term. [87096]

Des Browne: I have nothing further to add to the reply I gave the hon. Member on 5 July 2006, *Official Report*, column 1107W.

Review Board for Government Contracts

Mr. Harper: To ask the Secretary of State for Defence pursuant to the written statement of 22 June 2006, *Official Report*, column 99WS, on the report by the Review Board for Government Contracts, when he will place a copy of the report in the Library. [86493]

Mr. Ingram: Hard copies of the Review Board's 2006 Annual Review, published by The Stationery Office (TSO), will be placed in the Library this week. An electronic copy of the report is available on the main MOD website at the following address:

http://www.mod.uk/DefenceInternet/AboutDefence/CorporatePublications/Reports/ReportsForBusiness/ReviewBoardGovContracts/.

Submarines

Mr. Weir: To ask the Secretary of State for Defence what estimate he has made of the cost of the decommissioning of the Vanguard Class submarines. [86874]

Des Browne: Decommissioning of the Vanguard Class submarines is still some way off. Officials are investigating decommissioning costs as part of the work to prepare for decisions, which will be taken later this year, on the future of the United Kingdom's nuclear deterrent.

Mr. Weir: To ask the Secretary of State for Defence whether the Astute Class submarines have been considered as the launch platform for the next generation of Trident missiles. [86942]

Des Browne: Work is now under way to prepare for decisions on the future of the United Kingdom's nuclear deterrent, which will be taken later this year. Ministers have been briefed by officials on some of the relevant issues and have requested that further work be undertaken. It is too early to rule in or out any particular option.

Trident

Mr. Weir: To ask the Secretary of State for Defence what the annual maintenance cost of the Trident weapons system is expected to be in 2006-07; and what the cost was in each of the last five years. [86875]

Des Browne: The annual expenditure for capital and running costs of the Trident nuclear deterrent, including costs for the Atomic Weapons Establishment, is expected to be between 5 and 5.5 per cent. of the Defence budget in 2006-07. For the costs in the last five years, I refer the hon. Member to the reply I gave to the hon. Member for Hornsey and Wood Green (Lynne Featherstone) on 3 July 2006, *Official Report*, column 713W.

HOME DEPARTMENT

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter dated 27 March from the right hon. Member for Manchester, Gorton with regard to Mrs. M. Wood, transferred from the Department for Environment, Food and Rural Affairs. [79487]

John Reid: A reply was sent to my right hon. Friend on 5 May 2006. I will arrange for a copy of the reply to be sent to you.

Crime Statistics

Mr. Spring: To ask the Secretary of State for the Home Department how many people have been convicted of carrying a knife in a public place in Suffolk in each of the last five years. [82108]

Mr. Coaker: Data for the number of people convicted for offences relating to carrying a knife in a public place in Suffolk police force area, from 2000 to 2004, can be found in the following table. Court proceedings data for 2005 will be available in autumn of 2006.

Number of people convicted at all courts for offences relating to carrying a knife in a public place, in Suffolk police force area[1] 2000-04

Statute	Offence description	2000	2001	2002	2003	2004
Criminal Justice Act 1988 S.139 as amended by Offensive Weapons Act 1996 S.3	Having an article with blade or point in public place.	30	30	61	52	68
Criminal Justice Act 1998 S.319A (1)(5)(a) as added by Offensive Weapons Act 1996 S.4(1)	Having an article with blade or point on school premises	0	1	0	0	0

[1] These data are on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However it is important to note that these data have been extracted from large administrative data systems generated by the courts, police forces and other agencies. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

DNA Database

Lynne Featherstone: To ask the Secretary of State for the Home Department pursuant to the answer of 5 June 2006, *Official Report*, column 281W, on the National DNA Database, (1) if he will break down by country the number of requests made; [80870]

(2) how many of the requests were complied with; [80871]

(3) on what basis such information is provided; and if he will make a statement; [80872]

(4) for what reasons such requests have been *(a)* made and *(b)* granted; and what criteria are used to decide whether to grant such a request. [84088]

Joan Ryan *[holding answer 28 June 2006]*: The majority of requests for the exchange of DNA information between the United Kingdom and other countries are routed

through the United Kingdom National Central Bureau for Interpol (UK NCB) based at the Serious Organised Crime Agency (SOCA). Other channels may include bi-lateral direct liaison between law enforcement authorities and formal mutual legal assistance channels. Exchanges of DNA information via these channels will almost always be a response to the needs of a specific criminal investigation.

Requests from international law enforcement agencies for a search of the National DNA Database are only processed where it is clear that the request is in the interest of prevention and detection of crime, national security or the data subject. They are also subject to a risk assessment, taking into account the justification for and proportionality of disclosure of the information in line with human rights. If cleared for processing, a one-off speculative search of the Database is made by the Custodian and information fed back to UK NCB.

The UK NCB is not currently able to provide data on the number of requests received from other countries but only on the number of requests processed and dealt with by the Database Custodian. As indicated in the answer of 5 June 2006, *Official Report*, column 281W, 519 search requests have been dealt with by the Database Custodian since 2004 and responses provided back to UK NCB in each case (this includes searches of the UK DNA Database at the request of other countries as well as preparing profiles in order for UK law enforcement agencies to request searches overseas).

Data on the countries to which DNA profiles have been sent and on the number of profiles sent to other countries in pursuit of specific criminal investigations could only be provided at disproportionate cost as the majority of the data are not currently held electronically. This information will be available later this year following the introduction of a new data collection system (this will not apply to retrospective data). However, it is estimated that international DNA searches are requested on two to three occasions each week (this includes requests received from abroad and requests made by the UK for searches in other countries).

Data are not collected on the number of exchanges of DNA information which occur through direct liaison between law enforcement authorities or formal mutual legal assistance channels.

Mr. Crabb: To ask the Secretary of State for the Home Department how many people have had their DNA records removed from the police DNA database in each year since 2000. [82550]

Joan Ryan: The number of profiles relating to individuals removed from the National DNA Database in each year since 2000 is:

	Number of profiles relating to individuals removed
2000	66,149
2001	44,664
2002	14,589
2003	24,173
2004	19,194
2005	21,661
2006 (To 1 July)	8,868

Drugs

Mr. Burrowes: To ask the Secretary of State for the Home Department what the take-out quantities of class A drugs for the Concerted Inter-Agency Drug Action Group were in each year since collection began. [67893]

Mr. Coaker: CIDA agencies have been involved in the seizure of the following quantities of class A drugs:

	Cocaine (kg)	*Heroin (kg)*	*Ecstasy (tablets)*
2000-01	13,775	4,513	8,191,908
2001-02	10,931	3,379	8,682,768
2002-03	9,293	3,074	5,208,591
2003-04	23,000	2,828	9,968,098
2004-05	10,625	3,067	10,533,778

Foreign Criminal Releases

David Davis: To ask the Secretary of State for the Home Department what estimate he has made of the number of police hours taken to trace foreign criminals released without consideration for deportation since the issue was identified. [77123]

John Reid: The level of detail requested by the hon. Gentleman is not required under the annual data return that must be submitted to the Department by police forces in England and Wales. We would not wish to impose additional burdens on police forces by asking them to carry out such ad hoc surveys. The police continue to play a key role in working with all other relevant agencies to pursue those cases where foreign national prisoners were released without due consideration.

HM Inspectorate of Constabulary

Mr. Carmichael: To ask the Secretary of State for the Home Department if he will place a copy of the report produced by HM Inspectorate of Constabulary, entitled 'Mind the (level 2) gap', in the Library. [54055]

Mr. McNulty: This is a confidential report to Ministers only and, therefore, a copy will not be placed in the Library.

Human Trafficking

Mr. Hague: To ask the Secretary of State for the Home Department if he will set up a nationwide adoption of standardised protocols aimed at increasing human trafficking victims identification and protection in the UK; and if he will make a statement. [80351]

Mr. Coaker: The question of a national referral mechanism is one which is under consideration as part of the current discussions as a result of the responses received to our consultation paper "Tackling Human Trafficking". We recognise that prompt and accurate identification of victims of trafficking is essential to the provision of appropriate care and support services to the victims of human trafficking.

To this end we have both developed, in consultation with non-government organisations, a best practice toolkit for front line immigration and police officers and other professionals who may come into contact with potential victims, and continue to work in partnership with the voluntary and community sector to establish a framework of support for victims who have been trafficked into the UK for the purposes of sexual exploitation.

Additionally we launched on 21 June, the United Kingdom Human Trafficking Centre (UKHTC). The establishment of UKHTC came as a result of the success of operation Pentameter, a national police led multi-agency operation which aimed to tackle trafficking for sexual exploitation and which led to 234 people being arrested. Of these 132 people have been charged, to date, with offences connected to trafficking.

Following on from the success of Operation Pentameter the UKHTC will support the overarching aim of moving the United Kingdom to a leading position in relation to the prevention and investigation of trafficking in human beings. It will also become a central point for the development of police expertise and operational co-ordination.

Mr. Steen: To ask the Secretary of State for the Home Department what training is available for policemen to help them identify and detect victims of trafficking. [87078]

Mr. Coaker: We have developed an online people trafficking tool-kit to enable front line police among other relevant personnel to work appropriately and effectively with victims of trafficking.

Improvements in training for police in the identification and detection of victims of trafficking is currently under consideration as part of the discussions on the UK Action Plan against trafficking which is due to be published later in the year.

Mr. Steen: To ask the Secretary of State for the Home Department if he will take steps to ensure that each police force has an officer *(a)* trained and *(b)* designated to deal with trafficked children and women. [87081]

Mr. Coaker: The proposal that each force should have a trained and designated officer is one that is currently under consideration for inclusion in the UK Action Plan which is due to be published later in the year.

We recognise that there is a need for a more corporate response within the police service to tackling human trafficking. To this end we recently announced the establishment of the United Kingdom Human Trafficking Centre (UKHTC) which will become operational from 2 October 2006. It will be overseen by an ACPO/multi-agency group which will include representatives from non-governmental organisations.

Mr. Steen: To ask the Secretary of State for the Home Department if he will provide a substantive answer to question 85722, tabled on 11 July 2006 for answer on 14 July 2006, on Operation Pentameter; and if he will provide before the summer adjournment a substantive answer to that part of question 85722 which relates to the country of origin of trafficked minors. [86881]

Mr. Coaker: From the 12 minors rescued from Operation Pentameter three minors were repatriated to Latvia, Lithuania and Estonia. The other minors originated from Burundi, Cameroon, Sudan, Guinea, Ivory Coast and Kenya. The minors will receive support from social services for as long as is necessary.

Identity Register

John Bercow: To ask the Secretary of State for the Home Department what the timetable is for the procurement of the National Identity Register by the Identity and Passport Service; and if he will make a statement. [85340]

Joan Ryan: The Government are committed to the rapid introduction of identity cards and the establishment of the National Identity Register but, as we have always made clear, this is an incremental process and will be implemented in a phased way. Royal Assent to the Identity Cards Act 2006 and creation of the Identity and Passport Service have enabled the Government to begin firming up plans for the delivery of the identity cards scheme including plans for procurement of the National Identity Register.

We have actively engaged the industry in dialogue about our procurement approach/options and industry feedback has been valuable in informing our emerging thinking. We will be publishing the National Identity Scheme Procurement Strategy Market Soundings Feedback Report in August 2006 and will update the market further as our plans develop.

Parliament (Protests)

Mr. Clegg: To ask the Secretary of State for the Home Department how many people have been arrested for protesting within a mile of Parliament since 1 August 2005. [84110]

John Reid: The Commissioner of the Metropolitan Police has informed me that there have been 37 arrests for taking part in or organising an unauthorised demonstration in the designated area since 1 August 2005 and four arrests for failing to comply with conditions imposed by the Commissioner on a demonstration.

Passports

Mr. Burstow: To ask the Secretary of State for the Home Department pursuant to the answer of 6 July 2005, *Official Report*, columns 536-7W on passports, what estimate his Department has made of the number of *(a)* lost, *(b)* stolen and *(c)* unavailable passports in circulation in the UK in the last year for which figures are available. [81690]

Joan Ryan: IPS processed the following reports of *(a)* loss, *(b)* theft and *(c)* other, of a passport for the calendar year of 2005:

2005	Number
Lost	230,011
Stolen	45,709
Other[1]	11,268

Current figures for 2006:

2006	Number
Lost	118,157
Stolen	19,108
Other[1]	5,707
Total	142,972

[1] "Other" includes passports reported as damaged or destroyed.

Prisons

Mr. Garnier: To ask the Secretary of State for the Home Department how many *(a)* suicides and *(b)* incidents of non-fatal self-harm have occurred in (i) adult prisons, (ii) young offender institutions and (iii) juvenile custody units in England and Wales in each of the last nine years for which figures are available. [83360]

Mr. Sutcliffe: The information requested with respect to apparent self-inflicted deaths is shown in the following table.

Establishment type	1997	1998	1999	2000	2001	2002	2003	2004	Number 2005
Prison[1]	55	75	73	71	65	90	90	92	69
Young Offender Institution (YOI)	9	7	11	9	7	5	3	3	9
Juvenile custody[2]	1	0	0	0	0	0	0	1	0

[1] 'Prison' includes category B locals, male and female closed establishments, category C prisons, dispersal prisons, mixed locals, open prisons, semi-open prisons, remand centres and holding centres.
[2] Juvenile custody includes juvenile prisons, Secure Training Centres (STCs) and Secure Children's Homes (SCHs).
Note:
The table above shows the number of apparent self-inflicted deaths. This includes all deaths where it appears the individual acted specifically to take their own life, not only those that received a suicide or open verdict at inquest.

Prison type	1997	1998	1999	2000	2001	2002	2003	2004	Number 2005
Prison	1265	2719	3038	4182	6859	8912	14534	17346	19390
YOI	141	276	361	441	441	667	1118	1250	1434
Juvenile custody[1]	14	19	56	215	269	275	446	587	622

[1] Juvenile custody units run by the Prison Service use a wide definition of self-harm that includes all acts of self-injury, however serious (n.b. the same definition applies to the prison and YOI data). The data included from STCs and SCHs is mainly based on a definition of self-harm that includes self-harm incidents which represent significant events such that they are reportable under the Children's Homes Regulations. Two STCs and two SCHs, however, use a definition of self-harm similar to the Prison Service. Some STCs and SCHs were unable to provide this data for the earlier period covered by this Question because either the information was not collected, or only the total number of recorded incidents was collected (i.e. not only self-harm incidents; in which case it represented disproportionate cost to examine each incident report). In the future the YJB will provide clear definitions and recording requirements with respect to self-harm.
Note:
A new form specifically for reporting self-harm (the F213SH) was introduced in Prison Service establishments in December 2002 (i.e. in prisons, YOIs and juvenile prisons). The rise in reported self-harm from 2003 may therefore partly reflect improved reporting rather than an actual increase in self-harm incidents. Prior to December 2002. Self-harm was reported using the general incident reporting form (the F213), which resulted in significant under-reporting. The data from 2003 onwards cannot therefore be directly compared to earlier years.

Sentencing

Mr. Garnier: To ask the Secretary of State for the Home Department (1) what average length of custodial sentence was *(a)* handed out in each of the last nine years and *(b)* served by offenders released in each of the last nine years; [84400]

(2) what average length of custodial sentence was *(a)* handed out for and *(b)* served by those offenders convicted of (i) rape, (ii) murder, (iii) robbery, (iv) manslaughter, (v) sexual assault and (vi) non-fatal criminal assault with knives and bladed instruments who have been released in each of the last nine years; [84401]

(3) what average length of custodial sentence was *(a)* handed out and *(b)* served by those convicted of (i) possession with intent to supply Class (A) A, (B) B and (C) C drugs and (ii) simple possession of each category of drugs who were released in each of the last nine years; [84409]

(4) what average length of custodial sentence was *(a)* handed out and *(b)* served by those convicted of (i) grievous bodily harm with intent, (ii) grievous bodily harm, (iii) actual bodily harm and (iv) assault who were released in each of the last nine years. [84410]

Mr. Coaker: The tables set out the available information requested on average custodial sentence length imposed in England and Wales for the years 1996 to 2004, the latest year for which figures are currently available.

Figures on non-fatal criminal assault with knives and bladed instruments are not available centrally as details of the nature of the offence are not collected on the Home Office Court Proceedings database.

Average time served for life sentenced prisoners (mandatory and other lifers) released from prison on life licence between 1994 and 2004 is published in table 10.5 of Offender Management Caseload Statistics 2004.

Information on the average time served and average sentence length of prisoners discharged from determinate sentences in 2004 is published in tables 10.1 and 10.2 of Offender Management Caseload Statistics 2004. Statistics for the years 1997 to 2002 are given in tables 10.1 and 10.2 Offender Management Caseload Statistics 2003, and tables 3.13 and 4.11 of Prison Statistics England and Wales 1997 to 2002. The data, which are obtained from the prison IT system, are not shown separately for specific offences as accuracy at this level of detail cannot be guaranteed.

Although care is taken in collating and analysing the returns used to compile such figures, the data are of necessity subject to the inaccuracies inherent in any large-scale recording system.

We have started a programme of work in the Home Office looking at the quality of existing data on court sentencing and prisoners and how this might be improved.

Average custodial sentence length in months[1] for possession and possession with intent to supply of Class A, Class B and Class C drugs, 1996-2004

	Possession			Possession with intent to supply		
	Class A	Class B	Class C	Class A	Class B	Class C
1996	8.0	5.2	2.8	34.9	13.3	10.1
1997	6.5	4.4	2.6	35.7	13.2	8
1998	5.9	4.2	1.6	34.6	12.8	7.4
1999	5.2	3.1	3.6	35.9	12.9	6.2
2000	5.3	3.2	2.7	34.5	12.7	12.1
2001	5.2	3.5	4.6	34.2	15.2	11
2002	5.2	3.4	2.5	35.4	15.1	10.1
2003	6.2	4.0	1.2	37.6	13.6	17.7
2004	7.3	3.7	2.8	39.8	15.9	11.9

Average custodial sentence length in months for grievous bodily harm with intent, grievous bodily harm, actual bodily harm and assault, 1996-2004

	Grievous bodily harm with intent	Grievous bodily harm without intent	Actual bodily harm	Assault[2]
1996	45.8	15.6	7.8	2.6
1997	44.1	15.3	7.8	2.6
1998	43.9	15.1	7.5	2.6
1999	45.8	15	7.8	2.6
2000	45.0	15.6	8.0	2.7
2001	48.0	16.0	8.5	2.8
2002	46.5	17.0	9.2	2.8
2003	50.3	17.6	9.2	2.8
2004	48.6	17.7	9.6	2.9

Average custodial sentence length in months[1] for rape, murder, robbery, manslaughter[3] and sexual assault[4] 1996-2004

	Rape	Murder	Robbery	Manslaughter	Sexual assault
1996	77.8	[5]	38.1	60.9	24.0
1997	78.7	[5]	39.1	62.5	24.5
1998	79.8	[5]	35.3	58.0	24.8
1999	79.8	[5]	35.7	59.2	24.1
200C	83.2	[5]	36.1	60.2	24.6
2001	81.1	[5]	35.4	58.9	25.4
2002	83.7	[5]	38.9	65.4	26.3
2003	86.4	[5]	39.3	62.8	26.3
2004	84.4	[5]	38.4	64.5	27.4

Average custodial sentence length in months, all offences 1996-2004

	All offences
1996	12.8
1997	12.7
1998	11.8
1999	11.5
2000	11.4
2001	11.8
2002	12.6
2003	12.6

Average custodial sentence length in months, all offences 1996-2004

	All offences
2004	12.9

[1] Excluding life sentences
[2] Common assault and assault on a police officer
[3] Common Law Manslaughter and Manslaughter due to diminished responsibility
[4] Indecent assault on males and females
[5] Murder carries a mandatory life sentence

RDS NOMS 11 July 2006

TREASURY

Aquaculture Projects (Orkney and Shetland)

Mr. Carmichael: To ask the Chancellor of the Exchequer how many aquaculture projects pay rent to the Crown Estate in Orkney and Shetland; and what total annual income has been generated from such rents in each of the last three years. [86047]

John Healey: The Crown Estate has issued 28 aquaculture leases for Orkney and 187 aquaculture leases for Shetland. Total annual income figure generated from fish farming over the past three years is as follows:

Fish farming

£

Financial year	Orkney	Shetland	Total
2003-04	50,900	598,000	648,900
2004-05	111,000	885,100	996,100
2005-06	[1]132,000	518,000	650,000

[1] The Orkney fish farming rental income for 2005-06 includes a post-audit payment of £34,000 in settlement of outstanding rent from production of fish in 2003.

Carers (Barnsley)

Jeff Ennis: To ask the Chancellor of the Exchequer how many carers there are in *(a)* Barnsley East and Mexborough, *(b)* Barnsley and *(c)* Doncaster. [86382]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 20 July 2006:

As National Statistician, I have been asked to reply to your question asking how many carers there are in (a) Barnsley East and Mexborough (b) Barnsley and (c) Doncaster (86382).

The table below shows the number of people in (a) Barnsley East and Mexborough parliamentary constituency (b) Barnsley Local Authority District and (c) Doncaster Local Authority District on Census day (29 April 2001) who were providing unpaid care. The data for Barnsley East and Mexborough has been taken from table KS08 in the *2001 Census Report for Parliamentary Constituencies*. The data for both Barnsley and Doncaster has been taken from table KS08 in *Census 2001 Key Statistics for local authorities in England and Wales*. Both of these publications are available in the House of Commons Library.

Number of people in England and Wales

Area	Number of people	Number of people who provide unpaid care
Barnsley East and Mexborough PC	86,450	10,350
Barnsley LAD	218,063	26,109
Doncaster LAD	286,866	31,944

Source:
Table KS08 2001 Census Report for Parliamentary Constituencies and Table KS08 Census 2001 Key Statistics for local authorities in England and Wales

Carter Review

Mr. Arbuthnot: To ask the Chancellor of the Exchequer whether he has accepted the recommendations of the review by Lord Carter into HM Revenue Customs' Online Services; and if he will make a statement. [86873]

Dawn Primarolo: I refer the right hon. Gentleman to paragraph 5.81 of this year's economic and fiscal strategy report (HC 968), and the written statement I made on 18 July 2006, *Official Report*, column 11WS.

Civil Service Relocation

David Heyes: To ask the Chancellor of the Exchequer how many Civil Service posts have been transferred from London to the Greater Manchester area in the last 12 months; and how many posts are under consideration for such transfer. [85337]

Mr. Timms: In the 2005-06 financial year 96 posts were relocated to the Greater Manchester area bringing the total number of posts relocated to this area under the Lyons programme to over 300. Individual departments are responsible for deciding how best to meet their relocation target and full plans for the remaining 12,200 relocations are not yet finalised.

Consultants

Mr. Heald: To ask the Chancellor of the Exchequer pursuant to the answer to the right hon. Member for Leicester, East of 15 May 2006, *Official Report*, column 761W, on consultants, which Ministers in his Department made use of West Wing Writers in 2005-06; and what the title was of each speech to which they contributed in that year. [85498]

John Healey: Research material was provided for Treasury Ministers on international development and global issues including debt relief and G8, G20 and IMF related matters.

Mr. Heald: To ask the Chancellor of the Exchequer pursuant to the answer to the right hon. Member for Leicester, East of 15 May 2006, *Official Report*, column 761W, on consultants, how much was paid to *(a)* West Wing Writers, *(b)* Opinion Leader Research and *(c)* International Survey Research in each year from 1997-98 to 2004-05. [85499]

John Healey: The following sums were paid to these organisations:

£

	2002-03	2003-04	2004-05
International Survey Research	—	56,786.102	2,445.44
Opinion Leader Research Ltd.	—	—	20,000.00
West Wing Writers	3,500.00	5,500.22	6,250.00

As a result of changes in the accounting system in 2002-03 the cost of identifying details of payments, if any, in the earlier years would be disproportionate.

Crown Estate

Mr. Carmichael: To ask the Chancellor of the Exchequer what estimate the Crown Estate has made of the value of the seabed in each of the last five years. [86063]

John Healey: I refer the hon. Gentleman to page 15 of the Crown Estate annual report 2006 which was laid before Parliament on 13 July 2006.

Customs Officers

Julia Goldsworthy: To ask the Chancellor of the Exchequer how many customs officers have left HM Revenue and Customs on the grounds of ill-health in each year since 1997. [86053]

Dawn Primarolo: The total number of customs officers retired on the grounds of ill health in each calendar year since 1997 are:

	Number of ill health retirements
1997	172
1998	164
1999	148
2000	85
2001	67
2002	68
2003	48
2004	45
2005	44
2006 to date	18

FIFA World Cup

Mr. Hands: To ask the Chancellor of the Exchequer which matches *(a)* he and *(b)* other Ministers in his Department attended at the FIFA World Cup 2006 in Germany in their Ministerial capacity; at what cost to public funds; and with what contributions from third party organisations. [83624]

John Healey: Details of Treasury Ministers' attendance at FIFA World Cup 2006 matches were set out in the Chancellor of the Exchequer's written answer of 20 June to my hon. Friend the Member for Alyn and Deeside (Mark Tami) on 21 June 2006, *Official Report*, column 1899W.

The Chancellor travelled on 20 June to Brussels for a European meeting and then to Cologne where he met trilaterally with the German and Swedish Finance Ministers to discuss the European economy and a joint economic reform initiative.

As a guest of the German Government, which provided the ticket, the Chancellor also attended the England *vs.* Sweden FIFA World Cup 2006 match in Cologne on 20 June.

The Chancellor travelled by train from London to Brussels (cost of £174.50) and then by train to Cologne (£44.70). He returned by plane from Cologne (£282.30).

The Chancellor stayed overnight after attending the game and met his own accommodation costs.

Free ATMs

John Robertson: To ask the Chancellor of the Exchequer what steps the Government are taking to ensure that the free cash machine network is preserved. [86974]

Ed Balls: The Government takes seriously the issue of free access to cash, especially for those on low-incomes. According to the latest figures from LINK, there are now more than 33,000 free ATMs in the UK, accounting for 96 per cent. of withdrawals made at ATMs. During the first quarter of 2006, there has been a net increase of over 100 free ATMs across the UK.

The working group on ATMs, chaired by John McFall MP, is expected to look at the evidence on the location and growth of free and surcharging ATMs, in order to reach a shared analysis on this issue.

John Robertson: To ask the Chancellor of the Exchequer if the Government will take steps to ensure that clear signage indicating whether ATMs are free or fee charging is well placed for customers to see before they withdraw their cash. [86975]

Ed Balls: The Government believes that this is a matter for industry. LINK'S new transparency rules are a good step forward. It is expected that the ATM working group, chaired by John McFall, will consider issues related to the transparency of signage on ATMs.

John Robertson: To ask the Chancellor of the Exchequer if the Government will press for a commitment from all banks to ensure that they do not sell off any of their free ATM network. [86976]

Ed Balls: How banks manage their ATM networks is a commercial matter. The Government welcomes the fact that all the major banks have made a public commitment to their free ATM networks.

Leukaemia/Multiple Myeloma

Mr. Maude: To ask the Chancellor of the Exchequer what the death rate from *(a)* leukaemia and *(b)* multiple myeloma were in each decade from 1976 to date. [86209]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 20 July 2006:

As National Statistician I have been asked to reply to your recent question asking what the death rates from (a) leukaemia and (b) multiple myeloma were in each decade from 1976 to date. (86209)

Cancer death rates are published on the National Statistics website at:

http://www.statistics.gov.uk/downloads/theme_health/CancerTrendsUpdates.pdf

Marine Estate

Mr. Carmichael: To ask the Chancellor of the Exchequer what proportion of the income from the marine estate is paid to his Department; how many *(a)* disposals and *(b)* acquisitions have been made in the marine estate in each of the last five years; and what the total value is of these transactions. [86107]

John Healey: The proportion of the income from The Crown Estate's Marine Estate paid to HM Treasury in 2005-06 was 92.4 per cent.

Summary of contribution for the Marine Estate

Gross contribution (i.e. direct receipts minus direct expenditure) from the marine estate for the last five years:

	£ million
2005-06	34.1
2004-05	33.5
2003-04	32.1
2002-03	31.9
2001-02	31.0

Summary of marine acquisitions for 2002-06

Value of acquisitions and disposals including professional fees and stamp duty land tax for the past five years:

	Acquisitions		*Disposals*	
	Number	£	*Number*	£
2002	—	—	18	1,537,315
2003	—	—	28	610,979
2004	1	-4,000	11	88,082
2005	—	—	20	334,816
2006	—	—	47	501,248

Markets in Financial Instruments Directive

Michael Gove: To ask the Chancellor of the Exchequer how the Government voted when the Markets in Financial Instruments Directive was adopted on 21 April 2004 by the European Council. [86471]

Ed Balls: On 7 April, the Council adopted, by written procedure, the Markets in Financial Instruments Directive. The UK supported the adopted text.

Ministers (Personal Tax)

Mr. Hayes: To ask the Chancellor of the Exchequer what steps he has taken to ensure that Ministers do not receive special treatment in respect of their personal tax affairs. [87587]

Dawn Primarolo: HMRC is responsible for handling the personal tax affairs of Ministers and for ensuring that they pay tax in accordance with tax law, as for any other individual.

Nuclear Deterrent

Dr. Julian Lewis: To ask the Chancellor of the Exchequer whether the next generation of the nuclear deterrent will be *(a)* wholly and *(b)* partly financed by funding additional to the normal defence budget. [87095]

Mr. Timms: I refer the hon. Member to the answer given on 12 July 2006, *Official Report*, column 1842W.

Parliamentary Questions

Lynne Jones: To ask the Chancellor of the Exchequer (1) when he will reply to *(a)* Question 80066 and *(b)* Question 80067 on tax credits tabled on 20 June 2006 by the hon. Member for Birmingham, Selly Oak; [86341]

(2) when he will reply to Question number 80066, on tax credits, tabled by the hon. Member for Birmingham, Selly Oak on 20 June 2006. [87598]

Dawn Primarolo: I answered question 80067 on 18 July 2006, *Official Report*, column 364W, and hope to be in a position to answer question 80066 very shortly.

Scottish Salmon Farming (Crown Estate)

Mr. Carmichael: To ask the Chancellor of the Exchequer what steps the Crown Estate has taken to support sustainable salmon farming in Scotland. [86048]

John Healey: The Crown Estate has a three year programme of measures to support the Scottish salmon industry with investment of £600,000. The Crown Estate is also supporting the aquaculture industry through its Marine Stewardship Programme with £100,000 annual contributions to the Scottish Aquaculture Research Forum over the same period. In addition, the Crown Estate supports some individual research projects.

Smuggling

Mr. Drew: To ask the Chancellor of the Exchequer what plans he has to improve coastline surveillance on the South West coast to tackle smuggling of illegal drugs and firearms. [86465]

Dawn Primarolo: HM Revenue and Customs (HMRC) use risk assessment to deploy intelligence-led, flexible and mobile teams—including the HMRC Cutter fleet—to locations in the South West and throughout the UK where they will have the greatest impact on modern smugglers. HMRC also works in partnership with other agencies, including the UK immigration service and special branch, to provide a co-ordinated response to all frontier threats.

Subject Access Request

Mr. Gray: To ask the Chancellor of the Exchequer pursuant to the interim response of Mr. Michael Armstrong of HM Revenue and Customs (HMRC) Data Protection Unit, of 17 May, (reference SAR 2090/06), to the hon. Member's constituent Mr. Gerard Churchhouse's Subject Access Request, when the further documents are expected to be supplied; why further documents already obtained by HMRC have not been supplied to date; when Mr. Churchhouse may inspect the original files on which a decision was made; and if he will make a statement. [86743]

Dawn Primarolo: The search process is now being urgently completed and the Department will write to Mr. Churchhouse within the next 14 days, together with an apology for the delay.

Tax Credits

Mr. Paul Goodman: To ask the Chancellor of the Exchequer how many claimants were discovered to have given incorrect information *(a)* fraudulently and *(b)* by error in relation to a tax credit claim in each year for which figures are available, broken down by (i) type of tax credit and (ii) region; and what estimate he has made of the amounts incorrectly paid as a result. [43757]

Dawn Primarolo: I refer the hon. member to "Child and Working Tax Credits: Error and fraud statistics 2003-04" available on the HMRC website at www.hmrc.gov.uk/news/index.htm Reliable estimates at regional level are not available.

Mr. Laws: To ask the Chancellor of the Exchequer pursuant to his answer of 25 April 2006, *Official Report*, column 1050W, on tax credits, what information is available on the level of tax credit manual payments in 2005-06; and if he will make a statement. [75751]

Dawn Primarolo: I refer the hon. Member to the answer I gave him on 5 June 2006, *Official Report*, columns 188-89W. For the estimated value of manual payments made up to and including October 2005, I refer the hon. Member to the answer I gave him on 29 November 2005, *Official Report*, columns 343-44W.

The estimated value of manual payments (rounded to the nearest 100,000) made from November 2005 to March 2006 inclusive was:

	Estimated value of manual payments made (£000)
2005	
November	19,500
December	17,000
2006	
January	20,100
February	18,700
March	17,100

Mr. Laws: To ask the Chancellor of the Exchequer how many tax credit claimants were receiving regular manual payments as at *(a)* 31 March and *(b)* 31 May; and if he will make a statement. [75752]

Dawn Primarolo: The number of tax credits claimants receiving manual payments were around:

(a) 17,300

and

(b) 15,000

Mark Williams: To ask the Chancellor of the Exchequer (1) how many tax credit decisions on overpayment have been appealed to *(a)* the Regional Director, (b) the Independent Adjudicator and (c) the Ombudsman in (i) Ceredigion, (ii) Wales and (iii) the UK in each of the last five years; [76296]

(2) in how many tax credit decisions on overpayment in *(a)* Ceredigion, *(b)* Wales and *(c)* the UK the overpayment have been waived in each of the last five years. [76297]

Mr. Jenkins: To ask the Chancellor of the Exchequer (1) how many tax credit decisions on overpayment have been appealed to *(a)* the Regional Director, *(b)* the Independent Adjudicator and *(c)* the Ombudsman in (i) Tamworth, (ii) England and (iii) the UK in each of the last five years; [80129]

(2) in how many tax credit decisions an overpayment in *(a)* Tamworth, *(b)* England and *(c)* the UK the overpayment has been waived in each year since the scheme began. [80130]

Dawn Primarolo: Tax credits claimants have a right of appeal against decisions about their tax credit entitlement but HM Revenue and Custom's (HMRC) code of practice 26 'What happens if we have paid you too much tax credit' gives the reasons why claimants might be able to dispute an overpayment and how they should do this.

The Department began recording the intake of disputed overpayment requests in May 2004.

For the numbers of disputed overpayment requests HMRC's Tax Credit Office received and the number written off for Great Britain and Northern Ireland as a whole, I refer the hon. Members to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 18 July 2006, *Official Report*, column 360W.

The information requested is not available at constituency level, for Wales or at regional level.

For information about the Independent Adjudicator and the Ombudsman, I refer the hon. Members to the answer I gave the hon. Member for Wycombe (Mr. Goodman) on 30 January 2006, *Official Report*, column 143W.

The information requested at *(a)* and *(b)* is not available.

Mr. Laws: To ask the Chancellor of the Exchequer (1) by what date he estimates that Electronic Data Services will have made full payment of the £71.25 million owed in compensation to HM Revenue and Customs for tax credit system problems; and if he will make a statement; [76429]

(2) what payments have been made to date to his Department by Electronic Data Services in aggregate settlement of HM Revenue and Customs' claim in respect of tax credit IT; and if he will make a statement. [76431]

Dawn Primarolo: The terms of the agreement between HMRC and EDS to settle HMRC's claim for compensation are commercially sensitive and therefore confidential. Details were provided to the Public Accounts Committee in a closed session.

Mr. Kemp: To ask the Chancellor of the Exchequer what assessment he has made of the net effect on households in *(a)* Houghton and Washington East constituency and *(b)* Sunderland city council area of the introduction of tax credits since 1997. [87364]

Dawn Primarolo: The information requested is not available.

Miss McIntosh: To ask the Chancellor of the Exchequer if he will make a statement on the administration of tax credits in North Yorkshire. [87089]

Dawn Primarolo: Estimates for 2003-04 and 2004-05 of the numbers of in-work families with tax credits awards, including information on overpayments and underpayments by region, based on final family circumstances and incomes for 2003-04 and 2004-05 are published in "Child and Working Tax Credits. Finalised Awards 2003-04 Geographical Analysis" and the "Child and Working Tax Credits. Finalised Awards 2004-05 Geographical Analysis". These publications and provisional estimates for the number of in-work families by region with tax credit awards as at selected dates in 2005-06 are available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm.

David Heyes: To ask the Chancellor of the Exchequer (1) how many people in *(a)* the UK and *(b)* Ashton-under-Lyne have been overpaid working tax credits since their introduction; [84850]

(2) how many overpayments of *(a)* working and *(b)* child tax credit have been made to claimants in Ashton-under-Lyne since the credits were introduced; what the value of those overpayments was; how many of the overpayments have not been recovered; and what the value was of unrecovered overpayments. [84852]

Dawn Primarolo: For numbers of tax credit overpayments I refer my hon. Friend to the answer given to my right hon. Friend the Member for Birkenhead (Mr. Field) on 16 June 2006, *Official Report*, column 1421W.

We do not produce statistics separately for child and working tax credits.

In answer to the number of overpayments to claimants from Ashton-under-Lyne that have not been recovered, and their value, the information is not available in the format requested.

David Heyes: To ask the Chancellor of the Exchequer what measures his Department has taken to reduce poverty in Ashton-under-Lyne since 1997. [84851]

Ed Balls: The Treasury has, in partnership with other Government Departments, tackled poverty and promoted economic opportunity through:

Promoting macroeconomic stability

Supporting work for those who can and ensuring that work pays, through the new deals, a national minimum wage and the working tax credit

Providing financial support for groups at particular risk of poverty, such as child benefit and the child tax for families, and the pension credit for pensioners.

Across the UK, these measures have helped lift more than a million people out of poverty since 1997. Tax credits are benefiting more than 550,000 families in the North West, and in Ashton-under-Lyne claimant unemployment has fallen by 42 per cent. youth unemployment has fallen by 68 per cent. and long-term unemployment has fallen by 88 per cent.

David Heyes: To ask the Chancellor of the Exchequer how many payments have been made in *(a)* the UK and *(b)* Ashton-under-Lyne under HM Customs and Revenue's code of practice for (i) causing worry and distress to claimants, (ii) delay in answering queries and (iii) costs incurred by the claimant in making contact in each year since tax credits were introduced; and what the annual cost was of payments in each category in each area. [84853]

Dawn Primarolo: The circumstances in which the former Inland Revenue and HM Revenue and Customs (HMRC) will make compensation payments to its customers are explained in the Department's Code of Practice 1 'Putting things right' which is available at www.hmrc.gov.uk/leaflets/cop1.pdf. The Department will pay compensation for reasonable costs incurred as a direct result of their mistakes or delays and to recognise worry and distress caused by those mistakes and delays.

Information about the number of payments made under each category is not available.

For the total number of payments made in 2003-04 and their value I refer the hon. Gentleman to the answer I gave the hon. Member for Hamilton, South (Mr. Tynan) on 20 July 2004, *Official Report*, columns 191-92W.

For the total number of payments made in 2004-05 and their value I refer my hon. Friend to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 4 July, 2005, *Official Report*, columns 95-96W

In 2005-06 around 15,000 compensation payments were made with a value of around £1.1 million.

Information is not available at constituency level.

World Bank/IMF

Mr. Tom Clarke: To ask the Chancellor of the Exchequer what the salaries are of *(a)* the President of the World Bank and *(b)* the Managing Director of the International Monetary Fund; and if he will make a statement. [86835]

Ed Balls: The total annual remuneration of both the president of the World Bank and the managing director of the International Monetary Fund was $443,760 (£242,780)[1] in July 2004. The latest figures will be available in the 2006 annual reports of the World Bank and the IMF respectively.

[1] Dollar-Sterling spot market rate at close 18 July 2006

CONSTITUTIONAL AFFAIRS

Postal Voting

Mr. Jenkins: To ask the Minister of State, Department for Constitutional Affairs how many postal votes were issued by Tamworth borough council for the local elections in May; and what percentage were returned as valid votes. [86740]

Bridget Prentice: The total number of postal votes issued by the returning officer for Tamworth borough council local elections on 4 May 2006 was 5,323.

The percentage returned as valid postal votes was 66 per cent. (3,493).

Royal Commissions

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs what royal commissions there are; how many there were in *(a)* 1976, *(b)* 1986, *(c)* 1996 and *(d)* 2000; and what the expected duration of each existing commission is. [85239]

Vera Baird: There are currently no ad hoc royal commissions. In 1976, there were four. For the years 1986, 1996 and 2000, there were no ad hoc royal commissions. The average duration of an ad hoc royal commission is between two and four years. There are also a number of standing royal commissions, such as that on environmental pollution.

Mr. Amess: To ask the Minister of State, Department for Constitutional Affairs how many members there are on each royal commission; how many members on each are paid; and what the *(a)* total and *(b)* average remuneration is. [85240]

Vera Baird: There are currently no ad hoc royal commissions. Membership of a royal commission is set by Government and dependant on the subject matter. The cost of an ad hoc royal commission is usually published in its report. This includes payments to members, expenses paid to witnesses and the cost of printing and publishing the report and evidence.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment she has made of the position of women in Afghan politics, with particular reference to appointments to the Afghan Cabinet and Supreme Court. [86482]

Dr. Howells: Women are playing an increasingly important role in Afghan politics. Having been excluded from society by the Taliban, some 68 women (27 per cent. of the total number of MPs) were elected to the Lower House in September 2005, and 19 (19 per cent.) sit in the Upper House, 17 of them nominated to their seats by President Karzai. In March 2005, President Karzai appointed the first female Governor, Habiba Sorabi, to Bamiyan Province. He has also appointed a woman to be the head of the Afghanistan Independent Human Rights Commission.

President Karzai's previous Cabinet contained two women. The previous Supreme Court contained no female judges. The appointment processes for the new Cabinet and Supreme Court are not yet completed, but there are no women among the appointments so far confirmed.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations she has made to her Pakistani counterpart regarding cross-border terrorist activities in Afghanistan. [86699]

Dr. Howells: We take the issue of cross-border activities by terrorists, and cross-border co-operation between the authorities of Afghanistan and Pakistan, extremely seriously. This is discussed frequently with the Pakistani authorities by representatives of the Government. The issue was raised by my right hon. Friend the Prime Minister during his meeting with Pakistani Prime Minister Shaukat Aziz on 6 March and I followed up with Prime Minister Aziz on 7 March.

Anti-terrorism Capacity Building

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance programmes the Department has in place to support anti-terrorism capacity building in other countries; what funds are allocated to this task; and in which countries the programmes are located. [86702]

Dr. Howells: Through the Foreign and Commonwealth Office's Counter Terrorism (CT) Programme of the Global Opportunities Fund (GOF), the Department directly supports the Government's Counter Terrorism strategy as outlined in the Command Paper presented to the House on 10 July 2006. The aim of the strategy is to reduce the risk from international terrorism so that people can go about their daily lives freely and with confidence. The GOF CT programme focuses activity under four principal strands: prevent, pursue, protect and prepare.

Funding for financial year 2005-06 was £7.7 million and this financial year is £8.6 million. Since our programme contains classified elements, including the list of our priority assistance recipients, we are unable to give full information on all our assistance programmes. However, our work is focused in the following regions: the Middle East and North Africa; the East and Horn of Africa; South-East Asia and South Asia.

Typical projects include:

"operational CT assistance" primarily delivered bilaterally by UK counter terrorism experts in Government, the police and military; these are focused in areas such as CT law enforcement, forensic training, CT crisis management, aviation and maritime security training, hostage and crisis negotiation, VIP protection and bomb disposal;

"UN Security Council Resolution 1373 CT assistance" in support of the work of the UN CT Committee; assistance programmes are delivered to raise standards of CT capacity in the areas of CT legislation, combating the financing of terrorism, charity regulation, border control and counter proliferation.

EU Commission Budget

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is her Department's policy to support proposals from the Finnish EU presidency to reduce the EU Commission budget by €56 million over the next seven year budget period. [86741]

Mr. Hoon: The Government support the Council Draft EC Budget for 2007 established under the Finnish presidency, which aims to limit the growth of Commission administrative spending to 2.46 per cent. (€71 million), rather than the 5.08 per cent. (€158 million) proposed. This is in line with our belief that it is important to set EU institutions' administration budgets at a level which properly reflects the scope for economies of scale from enlargement and efficiency savings from investment in IT and buildings.

Iraq

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much funding has been allocated to the Iraqi Women's Ministry by the UK Government. [86484]

Dr. Howells: The Government do not allocate funding to Iraqi Government Ministries. We do maintain a regular dialogue with the Iraqi Women's Ministry and other Iraqi authorities about areas in which we can assist in the development of women's role in Iraqi society. For example, we have met the cost of visits by key Iraqi women, including Council of Representatives members, to the United Kingdom.

Nick Harvey: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions she has had with the Iraqi Prime Minister on the budget for the Iraqi Women's Ministry. [86485]

Dr. Howells: We have not discussed the budget for the Iraqi Women's Ministry with the Iraqi Prime Minister. We do, however, maintain a dialogue with the Ministry about areas in which we can help them raise the awareness of the role of women in Iraqi society.

Kifle Tigneh Abate

Mr. Steen: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to her answer of 15 May 2006, *Official Report*, column 687W, on Kifle Tigneh Abate, whether she has made further representations since 15 May; and when she expects to receive a report from Michael Ellman. [86155]

Dr. Howells *[holding answer 18 July 2006]:* We continue to make representations to the Government of Ethiopia about the trial of the Coalition for Unity and Democracy (CUD) leadership, including Kifle Abate, at every suitable opportunity. Most recently, officials from our embassy in Addis Ababa made representations to the Ministry of Justice about the ongoing trial of the CUD leadership on 12 July 2006.

Michael Ellman has not given any indication of when he will complete his report or when we would receive a copy.

Libya

Daniel Kawczynski: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance she is giving to British oil companies wishing to secure contracts in Libya. [86468]

Dr. Howells: Where oil companies have sought our assistance to secure contracts in Libya we have provided it and will continue to do so. Our embassy in Tripoli has for example, provided local advice and assistance with visiting delegations. Where appropriate, Ministers have and will lobby in support. United Kingdom Trade and Investment also provides a range of services to British companies seeking to export to Libya.

Non-proliferation (Norwegian Initiative)

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs if she will make a statement on progress in taking forward the aims of the Norwegian seven country initiative on non-proliferation; and in what form minutes or other records of the meetings of initiative members are made publicly available. [86929]

Dr. Howells: The UK continues to be engaged with this initiative and to further the seven-country agenda in accordance with the principles outlined in the July 2005 Ministerial Declaration made in New York.

There is only one official record, of a 9 June meeting held in the Norwegian embassy in London. A copy will be placed in the Library of the House. I will also arrange for a copy to be sent to my hon. Friend.

Sheikh Yusuf Al-Qaradawi

Mr. Clappison: To ask the Secretary of State for Foreign and Commonwealth Affairs what support her Department has given to Sheikh Yusuf Al-Qaradawi to attend functions funded by the Government; what assessment she has made of Sheikh Al-Qaradawi's views on *(a)* the use of force against UK forces in Iraq and *(b)* the use of suicide attacks elsewhere in the Middle East; and if she will make a statement. [86642]

Dr. Howells: Foreign and Commonwealth Office (FCO) facilitated and helped fund a "Muslims of Europe Conference" in Istanbul on 1-2 July which was organised and led by a steering group of European Muslim scholars and civil society representatives. The steering group set the agenda and chose the participants. A wide variety of international Muslim scholars attended, including Sheikh Al-Qaradawi. As with all other participants, the FCO paid for travel and accommodation costs.

Sheikh Al-Qaradawi has expressed views on the use of violence in the Middle East with which we certainly do not agree. Unless all leaders in society deliver a clear renunciation of violence as the solution to the problems in the Middle East, and a commitment to political processes to resolve conflicts, the cycle of hate will only continue. The FCO is working to bring influential leaders together to encourage the debate on the unacceptability of violence. The culminating Declaration of the Muslims of Europe Conference, which was agreed by all its participants, contained a strong renunciation of violence and terrorism. The full text is available on the following website: www.muslimsofeurope.com/topkapi.php.

PRIME MINISTER

Iraq

Mr. Waterson: To ask the Prime Minister on which occasions he has *(a)* met the bereaved families of British soldiers killed in Iraq and *(b)* visited British soldiers wounded in Iraq in hospital. [86932]

The Prime Minister: I have nothing further to add to the answer I gave the hon. Member for Forest of Dean (Mr. Harper) on 27 February 2006, *Official Report*, column 36W.

Ministerial Meetings

Mr. Gordon Prentice: To ask the Prime Minister (1) what recent discussions he has had with Sir Ghulam Noon concerning matters connected with *(a)* party funding and *(b)* the award of honours; [86693]

(2) what communications he has had with *(a)* Dr. Chai Patel and *(b)* Mr. Barry Townsley since his recommendation that they should be elevated to the peerage was rejected. [86694]

The Prime Minister: I refer my hon. Friend to the answer I gave the hon. Member for Clwyd, West (Mr. Jones) on 25 May 2006, *Official Report*, column 1982W.

Missile Defence

Mr. Gerald Howarth: To ask the Prime Minister what discussions he has had with the US Administration on missile defence in each of the last three years. [86669]

The Prime Minister: I refer the hon. Member to the answer I gave the hon. Member for Yeovil (Mr. Laws) on 4 July 2006, *Official Report*, column 961W.

Premiership Anniversary

Mr. Gordon Prentice: To ask the Prime Minister what events are planned to mark the tenth anniversary of his premiership; and if he will make a statement. [86695]

The Prime Minister: I refer my hon. Friend to the answer I gave the hon. Member for Lewes (Norman Baker) on 17 March 2006, *Official Report*, column 2581W.

DUCHY OF LANCASTER

Deputy Prime Minister

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster how much the Government Car Service has spent on providing a car and a driver to the Deputy Prime Minister in each year since 1997-98. [85717]

Dr. Ladyman: I have been asked to reply.

I refer the hon. Member to my answer of 15 June 2006, *Official Report*, column 1329W given to the hon. Member for Brentwood and Ongar (Mr. Pickles).

Information Commissioner

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster what plans the Cabinet Office has to appeal Information Commissioner ruling FS50086128. [85671]

Hilary Armstrong: The Information Commissioner has recently issued a decision in relation to Freedom of Information requests for this information. A copy of the Information Commissioner's decision notice and the Cabinet Office's disclosure in response to the decision is available on the Cabinet Office website at http://www.cabinetoffice.gov.uk/foi/pdf/murdoch.pdf and in the Library for the reference of Members.

Misc 33 Committee

Mr. Hoyle: To ask the Chancellor of the Duchy of Lancaster what the *(a)* purposes and *(b)* objectives are of the Misc 33 Committee. [86939]

Hilary Armstrong: The purpose of the Ministerial Committee on the Post Office Network (MISC33) is to allow collective consideration of, and decisions on, issues relating to the future of the Post Office network.

DEPUTY PRIME MINISTER

Casinos

Mr. Moss: To ask the Deputy Prime Minister which casinos he has visited in *(a)* the UK, *(b)* South Africa, *(c)* the USA *(d)* the Far East and *(e)* Australia in an official capacity since January 2003; and what the (i) date and (ii) time was of each visit. [84192]

The Deputy Prime Minister: I refer the hon. Member to the answer given to the hon. Member for Brentwood and Ongar (Eric Pickles) by my hon. Friend the then Parliamentary Under-Secretary of State at the Office of the Deputy Prime Minister (Jim Fitzpatrick) on 8 February 2006, *Official Report*, column 1243W.

Consultants

Sir Paul Beresford: To ask the Deputy Prime Minister how many consultants are working for *(a)* him and *(b)* his office; and what the cost of the consultants has been since May 2006. [84921]

The Deputy Prime Minister *[holding answer 13 July 2006]:* Staffing and expenditure will be accounted for in the Department's annual report and accounts in the usual way.

Departmental Budget

Mr. Atkinson: To ask the Deputy Prime Minister (1) what the total cost has been of providing new stationery for his private office since 5 May 2006; [84919]

(2) what the total cost of expenses for his private office was in each month since May 2006. [84920]

The Deputy Prime Minister *[holding answer 13 July 2006]:* Expenditure will be accounted for in the Department's annual report and accounts, in the usual way as with other Government Departments.

Mr. Atkinson: To ask the Deputy Prime Minister what has been the total cost has been of refurbishments to *(a)* his office and *(b)* the offices of his members of staff since 5 May. [85059]

The Deputy Prime Minister *[holding answer 13 July 2006]:* There has been no refurbishment.

Ministerial Anniversary

Mr. Carmichael: To ask the Deputy Prime Minister pursuant to his answer of 24 May 2006, *Official Report,* columns 1840-41W, to the hon. Member for Brentwood and Ongar, on the Ministerial Anniversary, what public funding has been allocated to events commemorating his 10 year anniversary as Deputy Prime Minister; when the nature of these events will be announced; and if he will make a statement. [85995]

The Deputy Prime Minister: None.

Ministerial Travel

Sir Paul Beresford: To ask the Deputy Prime Minister whether he will have the use of the proposed Government official aeroplane in fulfilling his official duties. [84922]

The Deputy Prime Minister *[holding answer 13 July 2006]:* All travel is undertaken in accordance with the guidance "Travel by Ministers".

WORK AND PENSIONS

Child Support

Mr. Steen: To ask the Secretary of State for Work and Pensions if he will direct the Territorial Army to provide the information requested by the Child Support Agency relating to *(a)* earnings from regular army duties and *(b)* reimbursements from Territorial Army activity for Sergeant Gould, currently stationed in the Gulf; and what the reasons have been for the time taken in dealing with this matter by the Territorial Army. [83527]

Mr. Plaskitt *[holding answer 10 July 2006]:* The administration of the Child Support Agency is the matter for the chief executive. He will write to the right hon. Member with the information requested.

Letter from Stephen Geraghty, dated 20 July 2006:

In reply to your recent Parliamentary Questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will direct the Territorial Army to provide the information requested by the Child Support Agency relating to (a) earnings from regular army duties and (b) reimbursements from Territorial Army activity for Sergeant Gould currently stationed in the Gulf; and what the reasons have been for the time taken in dealing with this matter by the Territorial Army.

As details about individual cases are confidential I have written to you separately about this case.

Ian Stewart: To ask the Secretary of State for Work and Pensions what charge Liberata levies for the making of an emergency payment to a parent with care at the request of the Child Support Agency. [83836]

Mr. Plaskitt: The administration of the Child Support Agency is the matter for the chief executive. He will write to the right hon. Member with the information requested.

Letter from Stephen Geraghty, dated 20 July 2006:

In reply to your recent Parliamentary question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what charge Liberata levies for the making of an emergency payment to a parent with care at the request of the Child Support Agency.

The contract with Liberata is part of a wider DWP contract. The charge for making an emergency payment is commercially sensitive and cannot be divulged.

I am sorry I am unable to be more helpful.

Miss McIntosh: To ask the Secretary of State for Work and Pensions how many absent parents under the Child Support Scheme have left the country to work abroad in each of the last five years. [84474]

Mr. Plaskitt: The information requested is not currently available.

Mesothelioma

Paul Rowen: To ask the Secretary of State for Work and Pensions whether he has any plans to extend *(a)* industrial injuries disablement benefit and *(b)* other relevant benefits to those who suffer from mesothelioma due to exposure to fibres brought home on the clothes of spouses, or other family members, exposed to asbestos at their workplace. [83757]

Mr. Jim Murphy *[holding answer 10 July 2006]:* The Industrial Injuries Disablement Benefit Scheme makes payments to people who have become disabled as a result of an accident at work or as a result of contracting an industrial disease in the workplace.

Spouses or other family members with mesothelioma can claim other state benefits such as incapacity benefit and disability living allowance or attendance allowance and can also seek redress through civil action in the courts.

The industrial injuries disablement benefit scheme is under review and we will publish a discussion document later this year, on which all interested parties, can comment.

New Deal Services

Mr. Touhig: To ask the Secretary of State for Work and Pensions (1) what criteria are used in *(a)* assessing bids and *(b)* letting contracts to providers of New Deal services; [74095]

(2) what the total value was of New Deal services from contracts let in Gwent by Jobcentre Plus in *(a)* 2003, *(b)* 2004 and *(c)* 2005; [74096]

(3) how many contracts to provide New Deal services were awarded to new providers in *(a)* 2003, *(b)* 2004 and *(c)* 2005; [74097]

(4) what the total value is of contracts in Wales to providers of New Deal services in the *(a)* charitable, *(b)* public and *(c)* private sectors. [74098]

Mr. Jim Murphy: The criteria for the award of New Deal contracts in 2006 included performance, delivery, organisation, capacity, and quality of management, staff, services, premises and facilities. These criteria were published as part of the Jobcentre Plus advice to potential contractors. Contracts were let through a fair and open competitive tendering process and were awarded to those organisations whose bids were judged best able to satisfy those criteria.

Information on the value of New Deal services contracts let in Gwent is not available. The available information is that in 2005 a total of £4,442,143 was paid to providers of New Deal services in the Eastern area of Jobcentre Plus' South Wales Valleys District. Information for earlier years is not available.

No new contracts for New Deal services were awarded during 2003, 2004 or 2005.

The total value of contracts in Wales for the New Deals, Programme Centres, and Basic Skills assessments for the financial year 2005-06 is £12,382,703, of this £4,152,480 is in the charitable sector, £5,171,324 in the public sector, and £3,058,899 in the private sector.

Older People (Skills Training)

David Simpson: To ask the Secretary of State for Work and Pensions (1) what *(a)* grants and *(b)* training schemes are available through his Department (i) for people over 55 years and (ii) for people in retirement to learn new job skills; [80753]

(2) what paid apprenticeship programmes are available through his Department *(a)* for people over 55 years and *(b)* for people in retirement; [80754]

(3) what assistance is available through his Department to people over 55 years who have *(a)* been made redundant and *(b)* been redundant for more than one year to assist them to find alternative employment; [80756]

(4) how many people in the UK over 50 years are economically inactive; and what measures he has put in place to tackle this; [80757]

(5) what plans he has to make *(a)* grants and *(b)* training schemes available for people (i) over 55 years and (ii) in retirement to learn new job skills; [80779]

(6) if he will take steps to make apprenticeship programmes available through his Department for people *(a)* aged over 55 years and *(b)* in retirement to receive on the job training. [80780]

Mr. Jim Murphy: There are now more people in work in the United Kingdom (UK) than ever before, up 130,000 in the last quarter and by 272,000 in the year to June 2006. At 28.94 million this is just over 2.5 million higher than 1997. There are fewer people out of work than in the last quarter and economic inactivity has fallen sharply, down by 121,000. There are currently 2,477,000 people between 50 and state retirement age who are recorded as economically inactive in the UK. When people over state pension age are included, this figure rises to 12,176,000.

Between 1979 and the mid 1990s, the number of people on incapacity benefits in Great Britain (GB) trebled. Growth in the caseload has since slowed significantly, and in November 2005, there were 2.71 million people claiming incapacity benefits, a fall of 61,000 over the year. Although 46 per cent. of those claiming incapacity benefits are aged between 50 and state pension age, between 2000 and 2005 the number of people in this age group fell by 52,000. This has contributed to the overall reduction in the incapacity benefits caseload.

Like other age groups, people aged 50 and over will be able to benefit from the rollout of the successful "Pathways to Work" service across Great Britain which will be completed by 2008. Pathways offers new incapacity benefits customers early support from skilled personal advisers and direct access to a "Choices Package" of employment programmes and clear financial incentives to make work pay. Any incapacity benefits customer will be able to access the support and help available on a voluntary basis.

Also like all other customers, eligible people aged 50 and over, including those above state pension age, can benefit from the range of services provided by Jobcentre Plus, including access to jobs and help and support to find work. This can include programmes such as new deal 25 plus (ND25 plus) which is mandatory for younger participants but can be accessed on a voluntary basis by people above state pension age who are in receipt of pension credit.

Additional help is provided to older people who do not find work quickly. new deal 50 plus is a voluntary programme for people who have been in receipt of benefits, including pension credit, for at least six months. It provides people in GB with advice and guidance from personal advisers, and access to in-work financial help through the 50 plus element of the working tax credit. Since April 2000, the programme has been successful in helping more than 150,000 older workers into employment. Once in work, new deal 50 plus customers can claim a training grant of up to £1,500 for training of which up to £300 can be used for life-long learning.

People aged 50 and over can also be eligible for help from ND 25 plus. People who have been claiming jobseeker's allowance (JSA) for 18 months, who have not previously participated on ND 25 plus, are required to attend the gateway stage of the ND 25 plus programme. This is a period of up to four months of intensive job search and specialist help and support to improve job prospects. This is followed by the intensive activity period (IAP) which is currently voluntary for people aged 50 and over. The IAP provides further support and pre-work training to help people return to work.

Since April 2004, we have been piloting mandatory participation in the ND 25 plus IAP for people aged 50-59 who have been claiming JSA for 18 months. The pilot has offered people in this age group more extensive help back to work. Interim results are positive and, as announced in our Welfare Reform Green Paper, we intend to commence a phased national rollout.

In terms of people facing redundancy, we work with employer and partner organisations, to provide access to a range of services aimed at helping people find alternative employment. The help provided will vary depending upon particular needs, not the age group of individuals, or the period of unemployment following redundancy. Typically, this involves the provision of information, advice and guidance about jobs and how best to secure alternative employment. In the case of large-scale redundancies that have a significant impact on the labour market, additional help, for example skills training analysis and job focused training can be provided through the rapid response service. This help is not age related but it is time bound to 12 weeks before and 12 weeks following someone being made redundant. In the event that these redundant workers have not found alternative work within this period they then access all the other Jobcentre Plus services stated. The rapid response service is available in England, Scotland and Wales although different processes apply within each country.

Through our Age Positive Campaign, we are working with employers and others to promote the business benefits of an age diverse workforce and best practice on age in recruitment, training and promotion. In May 2005 we launched the "Be Ready" national information campaign to raise employer awareness of, and ability to adopt, flexible employment and retirement opportunities to support the recruitment and retention of older workers in advance of age legislation due in October 2006.

The Department for Education and Skills has responsibility for apprenticeships and training grants. The development and delivery of programmes to help unemployed people in Northern Ireland into work is the responsibility of the Northern Ireland Office.

Pathways to Work

Mr. Rooney: To ask the Secretary of State for Work and Pensions what action he is taking to respond to the findings of his Department's research into the "Pathways to Work" pilots relating to the impact of the policy on those who report having one health problem of mental illness. [84387]

Mr. Jim Murphy *[holding answer 12 July 2006]*: The Department is committed to providing appropriate support for people with mental health conditions, which is why the Condition Management programme within Pathways has been developed. It is clear that Pathways is helping large numbers of people with a mental health condition to move from Welfare to Work. In our qualitative research both personal advisers and Condition Management practitioners have provided individual examples of progression for people with mental health conditions.

The Department will continue to monitor and assess the effectiveness of Pathways for those with a mental health condition. Evaluation findings will be fed into future developments for Pathways.

Post Office Card Account

Mr. Dai Davies: To ask the Secretary of State for Work and Pensions what recent assessment he has made of the likely impact on pensioners of the discontinuation of the Post Office card account. [85574]

Mr. Plaskitt: The Post Office card account has allowed some customers, including pensioners, to get used to the basics of banking. In practice, there is no real difference in accessing money at the post office via a bank account compared to a Post Office card account. Customers can collect the same money, on the same day as they do now at the post office, by using a plastic card and a personal identification number.

Around 90 per cent. of pensioners already have access to a bank account suitable for direct payment. In making use of existing bank accounts, or opening new ones, pensioners will have a wider choice about where and when they collect their money. They will have the opportunity to make savings on their fuel bills by paying them through direct debit, the option to pay in cash as well as cheques, and to receive interest on balances.

Poverty (Gravesham)

Mr. Holloway: To ask the Secretary of State for Work and Pensions what proportion of *(a)* adults and *(b)* children were living in poverty in Gravesham constituency in each year since 1997. [86681]

Mr. Jim Murphy: Child poverty information below regional level is not available.

Remploy and Interwork

Mr. Byers: To ask the Secretary of State for Work and Pensions how many directorships in respect of external organisations the chief operating officer of Remploy has sought leave *(a)* to retain and *(b)* to take up. [80451]

Mrs. McGuire: The chief operating officer of Remploy has sought leave from the Remploy Board to retain two existing directorships in respect of external organisations but has not sought leave to take up any further directorships.

Mrs. Riordan: To ask the Secretary of State for Work and Pensions what the average cost was to his Department of employing an employee in *(a)* Remploy and *(b)* Interwork in 2005-06; and if he will make a statement. [81844]

Mrs. McGuire: The information is in the table.

2005-06

	Average cost (£)
Employing a disabled person in Remploy	11,690
Employing a disabled person in a Remploy factory	19,472
Employing a disabled person in Remploy Interwork	3,120
Employing an employee, including non-disabled people, in Remploy	16,009
Employing an employee, including non-disabled people, in Interwork	2,950

EDUCATION AND SKILLS

Adult Education

Mr. Brady: To ask the Secretary of State for Education and Skills what the per capita budget for adult community learning is of each local authority area in England, listed in descending order. [81770]

Phil Hope: The exact makeup and distribution of learning provision at local level are matters for local Learning and Skills Councils and their partners in colleges and other providers, according to their assessment of local needs and priorities. Mark Haysom, the LSC's Chief Executive, has written to the hon. Member with more detailed information and a copy of his reply has been placed in the House Library.

Letter from Mark Haysom, dated 14 July 2006:

I write in response to your recent Parliamentary Question regarding the per capita budget for adult community learning.

The relevant data is attached. In the data, per capita budget figures for the academic year August 2005/July 2006 Adult and Community Learning (ACL) have been derived using each local LSC's total budget for all of the following funding lines of which ACL was comprised:

Main ACL

Family Learning

Family Literacy, Language and Numeracy (FLLN)

Neighbourhood Learning in Deprived Communities (NLDC)

Population statistics for people of 20 years and above have been used, as the category for 19 year olds includes 15-19 year olds.

Some local authorities do not receive ACL funding. Funds in some local authority areas are directly funded, by the LSC, to other types of organisation, such as further education colleges and voluntary and community providers. In some cases local authority area population statistics aren't easily connected to the range of organisations receiving the ACL funding in that area. Therefore the attached data shows each local authority area within its local LSC area. The per capita figures have then been derived from division of total budgets for each local LSC area, by aggregate population figures for local authorities within that local LSC area.

In providing this data we have tried to be as open as possible in providing you with useful information.

Mr. Holloway: To ask the Secretary of State for Education and Skills what the reasons are for the change in levels of funding for adult education in Gravesend; and if he will make a statement. [85869]

Bill Rammell: Since 1997 we have increased investment in further education (FE) by £2.5 billion—around 48 per cent. in real terms. Overall we are broadly maintaining funding for adults programmes at £2.9 million although this will increasingly be focused on our priorities. I announced on 21 October 2005 our priorities for post-16 learning which are: raising participation and achievement of young people; driving down the skills deficit in adult workforce; and ensuring a wide range of learning opportunities at Level 3. I also reaffirmed our commitment to safeguard the funding for personal and community development in mainstream FE and local authority funded adult education with a budget of £210 million in 2006/07.

The 2006/07 funding allocations for providers in the Gravesend area would have taken into account these priorities as well as local circumstances and need. It is essential that funding is prioritised on these areas if we are to address skills weaknesses and improve productivity.

Providers also have the opportunity, if they succeed in meeting employer needs, to access additional funding through Train to Gain, our new national employer training programme. If successful a provider's net funding position could therefore increase.

After-school Clubs

Sarah Teather: To ask the Secretary of State for Education and Skills what assessment he has made of parents' willingness to pay for children's after-school clubs. [86878]

Beverley Hughes: All schools must consult with parents before setting charges for their extended services, including after-school clubs; and must agree and publish charging and remissions policies.

My Department published guidance for schools and local authorities on planning and funding extended services, including after-school clubs, on 5 June 2006. The guidance is intended to help extended schools plan and fund their activities in ways that reflect local needs and circumstances; and build on existing provision offered by the voluntary and private sectors.

Many schools already charge for some after-school activities, offered either as 'stand alone' opportunities or as part of childcare provision. Working parents paying for childcare are eligible to apply for the childcare element of the working tax credit, which can recoup up to 80 per cent. of the costs. Our guidance encourages local authorities and schools to help parents to access working tax credits and benefits to which they may be entitled.

Building Schools for the Future

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills whether the criteria for involvement in the Building Schools for the Future pathfinder programme include whether the proposed school or schools admit pupils aged 11 to 16, 11 to 18 or 13 to 18 years. [86745]

Jim Knight: It is for the local authority to choose the secondary school to receive this investment, which must have high building need. The Department has not specified a particular secondary age range.

Bullying

Chris Huhne: To ask the Secretary of State for Education and Skills how many incidents of reported *(a)* racist and *(b)* homophobic bullying there have been in schools in (i) rural and (ii) non-rural areas in each year since 1997; and if he will make a statement. [85945]

Jim Knight: I refer the hon. Member to my previous answers dated 5 July 2006, *Official Report*, column 1120W and 28 June 2006, *Official Report*, column 466W, to the hon. Member of Brent, East (Sarah Teather)

Child Care Costs

Mrs. Maria Miller: To ask the Secretary of State for Education and Skills when his Department plans to publish the results of its research into numbers of nursery, playgroup and day-care providers whose actual costs of provision for three and four year olds exceed the sum received from Government. [86879]

Beverley Hughes: The Department carries out a nationally representative survey of all childcare providers annually to provide a range of data to help monitor progress towards meeting key government targets in the provision of childcare and early years services and to inform the strategic development of policy in this area. The nature of the data collection does not permit separate analysis of costs of provision for three and four year olds for each provider.

Fieldwork for the 2006 survey is currently under-way and will be completed in early September. Results from the survey will be published in spring 2007 and available on the DFES website at http://www.dfes.gov.uk/research. Findings from previous years' surveys are also published on the DFES website.

Future work is under way in the context of the Comprehensive Spending Review considering the impact on the cost of provision of extending the free entitlement to 15 hours per week and increasing flexibility by 2010. My Department has announced that it will be exploring how to extend the entitlement through pathfinders in a selection of local authorities from April 2007. The pathfinders will also consider the funding implications of extending the free entitlement. Evaluation of the pathfinders will be published in due course.

Child Support

Rosie Cooper: To ask the Secretary of State for Education and Skills what support services are available for children leaving care in West Lancashire constituency. [83458]

Mr. Dhanda: I refer my hon. Friend to the answer I gave on 17 July 2006, *Official Report*, column 167W.

Citizenship Education

Mr. Kidney: To ask the Secretary of State for Education and Skills (1) whether his review of the citizenship curriculum will include a study of the ways in which *(a)* Parliament and *(b)* local government can contribute to the delivery of the curriculum; [81744]

(2) if he will ensure that his review of the citizenship curriculum will include consideration of measures to improve the training available for teachers and other school staff responsible for delivering the curriculum. [81436]

Jim Knight: The Government consider citizenship education an important element of the National Curriculum. The current review of citizenship will focus on the content of the curriculum and the broad themes upon which it is based. We recognise the significant role that Parliament and local government have to play in the education of young people and encourage teachers to organise lessons to include active learning about these institutions. Specific guidance on how to do this has been sent to all schools by the Qualifications and Curriculum Authority. Training teachers in the effective delivery of citizenship is a priority and we are funding 1,200 places for the continuing professional development citizenship certification course over the next two years. This is in addition to the 1,000 specialist teachers who will be trained by the end of this year.

Direct Schools Grant

Mr. Willetts: To ask the Secretary of State for Education and Skills what estimate he used for pupil numbers in each local education authority for the purposes of calculating the direct schools grant for 2005-06; and whether these figures have been revised. [86447]

Jim Knight: Dedicated Schools Grant (DSG) was allocated for first time for 2006-07 and 2007-08, replacing the Schools Formula Spending Shares.

The DSG is calculated by multiplying each local authority's number of full-time equivalent pupils (aged three to 15) by the Guaranteed Unit of Funding as announced in December 2005. This is the sum that each authority knew it would receive for every pupil in its schools in January 2006 and in January 2007.

Indicative allocations of DSG were also issued in December 2005 for 2006-07 and 2007-08. As actual pupil numbers were not available at that time, the indicative allocations were based on forecast pupil numbers for January 2006 and January 2007. Forecasts were based on historical trends, further information can be found in the DSG Explanatory note on allocations and pupil projections at:

http://www.teachernet.gov.uk/docbank/index.cfm?id=9224.

Final allocations of DSG for 2006-07 are based on the actual numbers of pupils in the authority's schools on the January 2006 pupil count date. My Department made it clear that final DSG allocations would be based on actual January 2006 pupil numbers, and that they were advised to make their own predictions of pupil numbers for planning purposes, based on locally available data and as the January 2006 pupil data came in.

The Department issued final allocations of DSG for 2006-07, based on actual January 2006 numbers, on 1 June 2006. Revised forecasts for 2007-08 will be issued over the summer and the 2007-08 allocations of DSG will be finalised around the same time next year.

Examinations

Sarah Teather: To ask the Secretary of State for Education and Skills what percentage of examinations taken in *(a)* mathematics, *(b)* English, *(c)* science, *(d)* music, *(e)* French, *(f)* physical education and *(g)* leisure and tourism at (i) GCSE and (ii) A-level were set by Edexcel in the last year for which figures are available. [86747]

Jim Knight: The Joint Council for Qualifications (JCQ) publishes data on national results each year in August via its website at www.jcq.org.uk. The most recent examination series for which the data are

available is summer 2005. The following tables show the total number of results issued in each subject for the awarding bodies based in England which offer GCSE and A-level examinations, and the proportion of results that were issued by Edexcel.

GCSE (full course)[1]

Subject	Total number of results issued by English-based awarding bodies	Total number of results issued by Edexcel	Percentage
Maths	694,754	351,583	50.60
English Language	600,764	29,715	4.95
English Literature	492,906	23,392	4.75
Science (Double Award)	1,019,577	188,571	18.50
French	258,456	46,838	18.12
Music	54,279	2,334	4.30
PE	151,624	5,688	3.75
Leisure and Tourism (Applied GCSE)	17,071	8,222	48.16

[1] These data refer to full course entries only

GCE A-level[1]

Subject	Total number of results issued by English-based awarding bodies	Total number of results issued by Edexcel	Percentage
Maths	53,622	24,075	44.90
English Language	16,041	1,424	8.78
English Literature	45,928	8,698	18.94
Biology	48,207	8,956	18.58
Chemistry	34,804	8,956	25.73
Physics	25,780	8,030	31.15
French	12,019	5,726	47.64
Music	8,765	6,594	75.23
PE	21,084	3,368	15.97
Leisure and Tourism	[2]	[2]	[2]

[1] These data refer to A2 examinations only, not AS
[2] No data available—first certification summer 2006

Sarah Teather: To ask the Secretary of State for Education and Skills how many final grades at *(a)* GCSE and *(b)* A level were incorrectly awarded and subsequently corrected in each of the past five years. [86868]

Jim Knight: Data on the appeals process for the awarding bodies which set and offer GCSE, AS and A Level examinations in England are collected and published annually by the Qualifications and Curriculum Authority (QCA). The following tables show the information requested for 2003, 2004, and 2005. Comparable data are not available for previous years.

The information provided in the following tables is provided at a qualification level for GCSEs and at a unit level for AS and A Levels. These data cover the three English-based awarding bodies which provide these examinations.

GCSE	2003	2004	2005
Number of entries (qualifications)	523,8371	541,2338	533,6919
Enquiries as percentage of entries	0.70	0.80	0.83
Number of enquiries about results	36,686	43,207	45,439
Number of changes to final grades	9,374	9,810	10,628
Changes as percentage of entries	0.18	0.18	0.20

A level	2003	2004[1]	2005[1]
Number of entries (units)[2]	544,392	6,330,959	6,296,768
Enquiries as percentage of entries	0.95	0.78	0.78
Number of enquiries about results	51,519	49,520	48,828
Number of changes to final grades	6,107	7,263	5,355
Changes as percentage of entries	0.11	0.11	0.09

[1] The information on A Level examinations for 2004 and 2005 includes AS, A Level and Vocational Certificate of Education (VCE) examinations.
[2] The number of entries for A level examinations is the number of separate units awarded in the summer examination series, rather than the number of complete A level qualifications in that series, as each qualification comprises a number of units, and the final result of each unit can be queried or changed.

Sarah Teather: To ask the Secretary of State for Education and Skills how many appeals there were against final grades awarded at *(a)* GCSE and *(b)* A level in each of the past five years. [86869]

Jim Knight: Data on the number of appeals are collected annually by the Qualifications and Curriculum Authority (QCA) as the regulatory authority for the public examinations system in England. The appeals procedure can only be invoked once the Enquiries about Results (EAR) services has been exhausted.

The following table shows the information requested for 2003, 2004, and 2005 for the awarding bodies based in England which offer GCSE, AS and A Level qualifications. Comparable data are not available for previous years. It is not possible to provide a breakdown of this data by qualification.

	2003	2004	2005
Number of entries (qualifications)	6,946,999	7,221,124	7,200,647
Number of appeals	598	649	730
Appeals as percentage of entries	0.009	0.009	0.010
Number of successful appeals	89	206	100
Successful appeals as percentage of entries	0.001	0.003	0.001

Mr. Salmond: To ask the Secretary of State for Education and Skills what percentage of students in English schools taking GCSE *(a)* Art, *(b)* Drama and *(c)* Music achieved grades A* to C in the last period for which figures are available. [87010]

Jim Knight: The following table shows pupils[1] achieving a grade A*-C at GCSE in 2005 in *(a)* Art and Design, *(b)* Drama, and *(c)* Music, as a percentage of pupils who attempted the subject.

Subject	Number of pupils[1] (Thousand)	Percentage achieving A*-C
Art and Design	186.8	69
Drama	93.8	70
Music	52.7	70

[1] Pupils at the end of Key Stage 4 who attempted GCSE in the 2004-05 academic year

Free School Meals

Mr. Wills: To ask the Secretary of State for Education and Skills how many primary school pupils were eligible for free school meals in Swindon in each year since 1997; what percentage of the total this represented in each year; and how many took up their entitlement in each year. [86639]

Jim Knight: The available information is shown in the tables.

Maintained primary schools[1]: school meal arrangements 1997-2006[2]. Position in January each year. Swindon local authority and England

Swindon local authority area[3]

	Number on roll[4]	Number of pupils taking free school meals	Percentage taking free school meals	Number of pupils known to be eligible for free school meals	Percentage known to be eligible for free school meals
1998	18,047	2,223	12.3	2,768	15.3
1999	18,072	1,925	10.7	2,563	14.2
2000	17,928	1,830	10.2	2,372	13.2
2001	17,901	1,739	9.7	2,238	12.5
2002	17,626	1,638	9.3	2,104	11.9
2003	17,350	1,692	9.8	2,065	11.9
2004	17,249	1,641	9.5	2,134	12.4
2005	16,857	1,338	7.9	1,861	11.0
2006[2]	16,906	1,180	7.0	1,494	8.8

England

	Number on roll[4]	Number of pupils taking free school meals	Percentage taking free school meals	Number of pupils known to be eligible for free school meals	Percentage known to be eligible for free school meals
1998	4,460,128	727,838	16.3	886,069	19.9

Schools Census.

Higher Education

Andrew George: To ask the Secretary of State for Education and Skills (1) how many students from Cornwall were in *(a)* full-time and *(b)* part-time higher education in the UK excluding Cornwall in each year since 1990, broken down by (i) the socio-economic classifications of students' parents or guardians, (ii) sex and (iii) age; [85064]

(2) how many students were in *(a)* full-time and *(b)* part-time higher education in Cornwall in each year since 1990, broken down by (i) the socio-economic classifications of students' parents or guardians, (ii) sex and (iii) age. [85065]

Bill Rammell *[holding answer 13 July 2006]:* The latest available information is shown in the tables. Data for the years prior to 1996/97 are not held centrally.

Undergraduate students from the UK studying in Cornwall[1]

International Students

Mr. Boris Johnson: To ask the Secretary of State for Education and Skills what assessment he has made of the impact on the number of international students applying to English universities of the different rules on visa extensions which apply in England and Scotland; and if he will make a statement. [83591]

Bill Rammell: It is too soon to assess the impact of the Fresh Talent: Working in Scotland Scheme on international student numbers. This scheme was introduced in June 2005 as part of the Fresh Talent Initiative to help to address the ageing and declining population in Scotland. International students are able to stay in the UK following completion of their studies under the Science and Engineering Graduate Scheme. This scheme was extended in May to enable all international students, on completion of a postgraduate degree, or an undergraduate degree in a shortage sector, to work in the UK for up to 12 months. The numbers of international students coming to English higher education institutions to study increased by nearly 60 per cent. between 2000/01 and 2004/05, the latest date for which figures are available. The Government recognise the benefits that international students bring to institutions, to the economy and to the country more generally. We also recognise that the international education market has become more competitive. That is why on 18 April this year the Prime Minister announced the second phase of his international education initiative which is designed to secure the UK's position as a leader in the field of international education.

NUT

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what recent discussions he has had with the National Union of Teachers on education policies; and if he will make a statement. [86097]

Jim Knight: An introductory meeting between the Secretary of State and the General Secretary of the NUT took place earlier this month.

Official Communications (Schools)

Mr. Willetts: To ask the Secretary of State for Education and Skills how many *(a)* written and *(b)* electronic communications were sent to (i) primary and (ii) secondary schools by (A) his Department and (B) other official education bodies in 2005. [86445]

Jim Knight: The Department sent 20 emails automatically to all primary and secondary schools in 2005. These emails provided schools with a regular update on the information and resources available to them online and in hard copy.

The Department only sends hard copy publications automatically to schools in England in exceptional cases having stopped regular paper mailings in December 2004. Discussions with head teachers and detailed research showed that schools wanted to be able to choose the printed publications they needed, when they needed them, and to be able to order multiple copies. No hard copy publications were sent automatically to all schools in 2005.

Details relating to publications sent to all schools by NDPBs during the academic year 2004-05 can be found in the Department's annual section 38 report. The latest report, issued in October 2005, showed that 29 publications had been sent to all secondary schools and 22 to all primary between January 2005 and July 2005. Where a document has been sent to both primary and secondary schools it will appear in both figures.

The Department does not currently hold details of emails sent by NDPBs to all schools.

Qualification and Curriculum Authority

Sarah Teather: To ask the Secretary of State for Education and Skills what the annual cost to public funds was of the Qualification and Curriculum Authority in each of the last five years. [86713]

Jim Knight: The annual cost to public funds of the Qualifications and Curriculum Authority in each of the last five years was:

	£ million
2001-02	72.2
2002-03	79.3
2003-04	82.9
2004-05	119.2
2005-06	135.0

The increase in the annual cost to public funds in recent years is largely attributable to the costs of modernising the examinations system. This programme of work was announced by the Secretary of State for Education and Skills on 17 November 2003.

Research Assessment Exercise

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what assessment he has undertaken of the cost effectiveness of the operation of the research assessment exercise. [86169]

Bill Rammell: The Higher Education Funding Council for England has estimated the total cost of the 2008 research assessment exercise (RAE) as at least £45 million. Although that is not a disproportionate sum in view of the size of the budgets whose allocation the RAE informs, the bulk of those costs relate to the time that university staff spend preparing for the exercise. One of the main objectives of the consultation proposals on the reform of higher education research assessment and funding that my Department published on 13 June is to devise a system to replace the RAE which continues to promote high-quality research but frees researchers from the administrative burdens associated with the RAE, allowing more of their time to be spent on academic work.

School Closures

Sir John Stanley: To ask the Secretary of State for Education and Skills which *(a)* primary and *(b)* secondary schools in rural areas were approved for closure in 2005, broken down by local authority area. [86451]

Jim Knight: In 2005, eight rural schools were approved for closure. All of these were primary schools. The following table lists the schools by local authority area.

Decisions about school closures are taken locally. Since February 1998 there has been a presumption against the closure of rural schools. Although this does not mean that no rural school will ever close, decision makers must satisfy themselves that closure is clearly in the best interests of educational provision in the area.

Local authority	Name of school
East Riding of Yorkshire	Thorngumbald Junior school
Northumberland	Byrness First school
	Horncliffe First school
North Yorkshire	Womersley Church of England Primary school
Wakefield	Walton Junior school
Wiltshire	East Tytherton Maud Heath primary
	Parley All Saints Church of England primary school
Worcestershire	Stone C of E First school

Note: These figures exclude amalgamations where two schools have been replaced by one new school on an existing site.

School Toilets

Sarah Teather: To ask the Secretary of State for Education and Skills what the required toilet to *(a)* male and *(b)* female staff ratio is in (i) primary and (ii) secondary schools. [86982]

Jim Knight: Regulation 4 of The School Premises Regulations[1] requires that

> "In every school there shall be a washroom or washrooms which are adequate for the number of staff at the school".

There are no required toilet ratios for male and female toilets. The Workplace (Health, Safety and Welfare) Regulations 1992 provide a table of the minimum number of water closets and wash stations for different numbers of staff as follows:

[1] http://www.opsi.gov.uk/si/si1999/19990002.htm.

Number of people at work	Number of water closets	Number of wash stations
1-5	1	1
6-25	2	2
26-50	3	3

Sarah Teather: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary schools in (i) England, (ii) each region and (iii) each local education authority have outdoor toilets that are still in use. [86992]

Jim Knight: Information on numbers of outdoor toilets at schools is not held by my Department. In 1998-2000, £19 million was allocated to local authorities to ensure that every school had indoor toilet provision. Central Government capital support for investment in schools has increased from under £700 million in 1996-97 to £5.8 billion this year and will rise further to over £6.3 billion by 2007-08.

Progress is being made year-by-year in improving the quality of the school building stock. The bulk of schools capital is now allocated by formula to authorities and schools so that they can address their local priorities, including the replacement of outdoor toilets.

Sarah Teather: To ask the Secretary of State for Education and Skills how much was spent on repairing toilets in *(a)* primary and *(b)* secondary schools in the last 12 months. [86993]

Jim Knight: Decisions on how much is spent on repairing toilets in primary and secondary schools are not made centrally but by local authorities and their schools. The Department does not have records of expenditure at this level of detail.

Sarah Teather: To ask the Secretary of State for Education and Skills what has been done to improve accessibility to school toilets for disabled pupils. [86994]

Jim Knight: Statutory requirements have been put in place, along with non-statutory guidance and funding to assist local authorities, governing bodies and proprietors of schools in meeting their duties to improve access and provision for disabled pupils in schools. This includes the provision of accessible toilets for pupils with disabilities.

1. Local authorities, governing bodies and proprietors of schools have planning duties under The Disability Discrimination Act Part 4 Education 2001 to improve access to schools for disabled pupils. They should also comply with The Education (School Premises) Regulations 1999 (regulations 3 and 9), The Education (Independent School Standards) (England) Regulations 2003, The Building Regulations 2000 (as amended). The Department issues non-statutory guidance in the form of Building Bulletins and information issued on the Teachernet website www.teachernet.gov.uk/schoolbuildings.

2. Each year, Schools Access Initiative funding is allocated to authorities and schools so that they can improve buildings for the needs of disabled pupils. This funding is now £100 million each year, and can be augmented by funding from other sources. Some of this will be used for the provision of accessible toilets for pupils with disabilities where this is the local priority. Compliance with non-statutory guidance is usually required for all school buildings funded by the Department.

Science Centres

Charles Hendry: To ask the Secretary of State for Education and Skills (1) what financial support the Government have provided to science centres over the past five years; and if he will make a statement; [87025]

(2) what recent meetings he has held with representatives of science centres to discuss their future role and funding; [87027]

(3) what assessment he has made of the contribution science centres make to students choosing to pursue science-based university degrees and careers. [87028]

Bill Rammell: The DfES together with the DTI provided joint funding of £2 million to science centres in 2004-06 to help alleviate short-term funding problems.

Officials from both DfES and DTI met with ECSITE-UK, the umbrella body that represents the science and discovery centre network, in April to discuss their future role and funding. It is our aim that the centres should work to become viable without ongoing government support and should identify alternative sources of funding from local Learning and Skills Councils, Regional Development Agencies and any other sources at local and regional level. Although there has been no firm commitment from our Departments on future funding, ECSITE-UK have been asked to submit a proposal outlining how the centres will work together more collaboratively and pursue innovative ways of becoming more financially viable, and how the DfES and DTI can help them to achieve this.

No formal assessment has been made to gauge the contribution science centres make to students choosing to pursue science-based university degrees and careers.

Secondary School Pupils

David Heyes: To ask the Secretary of State for Education and Skills how many secondary school-age children there are expected to be in *(a)* Oldham metropolitan borough and *(b)* Tameside metropolitan borough in each of the next 10 academic years. [85334]

Jim Knight: Population estimates for Oldham and Tameside metropolitan borough areas are the responsibility of the Office for National Statistics. The 2003 based projections for children aged 11 to 18 in each area are given in the following table:

Projection of population aged 11 to 18 in Oldham and Tameside at mid-year

	Oldham	Thousand Tameside
2005	24.9	24.0
2006	24.6	23.7
2007	24.4	23.4
2008	24.4	23.1
2009	24.3	22.7
2010	24.1	22.2
2011	23.8	21.6
2012	23.4	21.2
2013	23.4	20.9
2014	23.4	20.7
2015	23.4	20.5
2016	23.3	20.4

Special Educational Needs

David Heyes: To ask the Secretary of State for Education and Skills what steps he plans to take in response to the report of the Education and Skills Select Committee on special educational needs, with particular reference to steps to address the recommendation regarding the facilitation and encouragement of collaborative arrangements between communities of schools. [85336]

Mr. Dhanda: The Government will be giving their formal response to the Select Committee's report in due course. They will address the points the Committee has made about encouraging collaborative working across communities of schools. The Government's special educational needs strategy "Removing Barriers to Achievement" (2004) encouraged greater collaboration between special and mainstream schools through involving special schools in mainstream programmes, such as the Specialist Schools and Building Schools for the Future programmes.

Student Finance

Dr. Cable: To ask the Secretary of State for Education and Skills how many graduates have been contacted by the Student Loans Company in circumstances where the Student Loans Company believes the individual should be making repayments on an income-contingent student loan but they are not; and if he will make a statement. [84694]

Bill Rammell: The Student Loans Company does not contact individual borrowers on this basis as it does not know what an individual's income is and consequently whether they should be making repayments or not. Income contingent loans are collected through the tax system. The SLC ensures that HM Revenue and Customs (HMRC) has the right information needed to match borrowers with taxpayer records so that employers can make deductions, and HMRC can collect repayments through the self assessment process, when a borrower is earning over £15,000.

Sure Start

David Heyes: To ask the Secretary of State for Education and Skills what assessment he has made of the effect of the Sure Start scheme on children in the Hollinwood ward of Oldham, with particular reference to educational attainment. [85335]

Beverley Hughes: Sure Start Hollinwood was set up in 1999 and became a children's centre in 2004. Sure Start Local Programmes (SSLPs) carried out their own evaluations assessing progress against a range of outcomes for children, including educational attainment, as part of their local level monitoring and evaluation. Sure Start Hollinwood's evaluation of its first three years of operation and its other reports can be obtained directly from the programme or from the National Evaluation of Sure Start website www.ness.bbk.ac.uk. The Three-Year Evaluation showed how the programme had developed regular 10 week family literacy courses for children and their carers; supported four independent community based pre-schools allowing them to improve their curriculum and ran a six week group for children aged between 12 and 18 months providing parents with ideas on how they could help their children's early communication and allowing them to borrow 'chat bags' containing a book, nursery rhyme tape and musical instrument.

The impact of Sure Start Local Programmes nationally on children is being assessed through a comprehensive National Evaluation of Sure Start (NESS). It is too early yet to see an impact on educational attainment as the children being tracked through the evaluation are only just three years old. However, this is being assessed and results on this will be available in due course.

NESS is also looking at if and how the characteristics of SSLP communities change over time and early analysis shows that achievement at Key Stage 2 in Maths and English and proportion of children achieving five GCSEs A*-C has improved for children in Round 1-4 SSLP areas faster than in England though this cannot be attributed to Sure Start.

HEALTH

Air Products

Ann Coffey: To ask the Secretary of State for Health what recent assessment she has made of the quality of the service provided by Air Products in Greater Manchester to patients dependent on home oxygen. [86394]

Andy Burnham *[holding answer 19 July 2006]:* A six-month transitional programme to transfer patients to new suppliers began on 1 February 2006. Action is continuing with Air Products to address the quality of service provision including issues of particular concern to patients. There is room for further improvement and we are closely monitoring progress in conjunction with the national health service. At this time, there is continuous assessment of all suppliers, including Air Products, with regular meetings to discuss suppliers' reports on progress and action to tackle emerging issues.

Ambulances

Mr. Gordon Prentice: To ask the Secretary of State for Health how many and what proportion of ambulances responding to a 999 call in Lancashire in the last 12 months had a paramedic on board; and if she will make a statement. [85528]

Ms Rosie Winterton: Information on paramedics on board ambulances responding to 999 calls is not collected centrally.

Each ambulance service should plan to provide appropriate resources to meet local demand. This may include resources in addition to traditional ambulance provision, for example rapid response vehicles and motorbikes, as well as utilising staff such as community paramedics or emergency care practitioners. Patients who need a traditional ambulance response will continue to receive one. The fleet mix will vary across the country depending on operational and geographical requirements.

Audiology

Mark Hunter: To ask the Secretary of State for Health what representations she has received in relation to the decision to exclude audiology from the 18-week waiting time target for treatment. [86800]

Mr. Ivan Lewis: Representations have been received from various stakeholders, including hon. Members, and there has been a great deal of correspondence on the topic.

Avian Influenza

Mr. Hands: To ask the Secretary of State for Health what recent assessment she has made of the potential threat of H5N1 avian influenza to the population of Great Britain. [84640]

Ms Rosie Winterton: European Union and United Kingdom (UK) controls are in place aimed at preventing the spread of bird flu. Nonetheless, it remains a remote possibility that bird flu could be introduced to poultry through the migration of wild birds, the illegal importation of dead chickens for consumption, the illegal importation

of live birds or the entry into the UK of a person who has acquired the illness in an infected area. The Department, in close collaboration with the Department for Environment, Food and Rural Affairs (DEFRA), maintains an on-going assessment of these risks.

DEFRA publishes and regularly updates risk assessments on the threat to the UK of the introduction of H5N1 from birds which is available in its latest publication, "Highly Pathogenic Avian Influenza H5N1 situation in Europe and potential risk factors for the introduction of the virus to the United Kingdom". It can be found at:

www.defra.gov.uk/animalh/diseases/notifiable/disease/ai/latest-situation/index.htm

The Department recently commissioned a report from the Health Protection Agency, "Addressing a Quantitative Microbiological Risk Assessment (QMRA) of the Risks Posed to UK Public Health by Highly Pathogenic Avian Influenza H5N1"

The risk of the H5N1 avian influenza virus acquiring the ability to spread more easily from person to person or to spread more readily from birds to people is constantly monitored by the World Health Organisation and its assessments are published on its website at:

www.who.int/csr/disease/avian_influenza/en/index.html

The Government have well-developed plans in place to act early in the event of any outbreak of avian influenza in poultry, to put in place measures to contain it, and to protect those workers involved in controlling it. DEFRA has published its contingency plan on its website at:

www.defra.gov.uk/animalh/diseases/notifiable/disease/avianinfluenza-contplan.htm

Breast Cancer

Anne Milton: To ask the Secretary of State for Health how much was spent on breast cancer screening in *(a)* Guildford and Waverley primary care trust, *(b)* Surrey and *(c)* England in each year since 1997. [84090]

Ms Rosie Winterton: Figures on the funding of local breast screening services are not held centrally. Funding for breast screening is in primary health care trust baselines and the Department estimates that the national health service breast screening programme costs around £172 million per year.

Dr. Blackman-Woods: To ask the Secretary of State for Health if the Government will lobby the World Health Organisation to change the International Classification of Diseases to reflect inflammatory breast cancer as a discrete type of disease. [84642]

Ms Rosie Winterton: We are not aware of a need for inflammatory breast cancer to be classified as a discrete type of disease and therefore will not be lobbying the World Health Organisation on this matter.

Capital Budget Underspends

Mr. Lansley: To ask the Secretary of State for Health which NHS organisations underspent on their capital budget in 2005-06; and by how much in each case. [85783]

Andy Burnham: The 2005-06 provisional outturn is the most recently published data on the national health service's financial position. The data show that the provisional capital underspend in 2005-06 was £1,162 million. Of the 566 NHS organisations in 2005-06, 494 underspent against their capital budget. A table containing this information is available in the Library.

Clostridium Difficile

Mr. Burrowes: To ask the Secretary of State for Health how many deaths have been caused by the bacterium Clostridium difficile in *(a)* Chase Farm Hospital and *(b)* North Middlesex Hospital in each of the last three years. [85889]

John Healey: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 20 July 2006:

As National Statistician I have been asked to reply to your recent question asking how many deaths have been caused by the bacterium Clostridium difficile in (a) Chase Farm Hospital and (b) North Middlesex Hospital in each of the last three years. (85889)

Special analyses of deaths involving Clostridium difficile are undertaken annually by ONS for England and Wales. These are published in Health Statistics Quarterly. The latest year for which such figures are available is 2004. Information on the numbers of deaths between 1999 and 2004 involving Clostridium difficile was published in "Health Statistics Quarterly" 30 in May 2006.[1] The number of deaths in NHS Hospitals where Clostridium difficile was a contributory factor in the years 2001 to 2004 was 6,168 out of a total of 1,178,776 deaths in NHS Hospitals. A breakdown of the figures by individual hospital could only be provided at disproportionate cost.

[1] Office for National Statistics (2005) Report: Deaths involving *Clostridium difficile*. England and Wales, 1999-2004. "Health Statistics Quarterly" 30, 56-60.

Community Hospitals

Mr. Drew: To ask the Secretary of State for Health what steps she is taking to ensure that community hospitals meeting the criteria laid down in "Our Health, Our Care, Our Say" are not adversely affected by financial deficits faced by primary care trusts. [83242]

Andy Burnham: The White Paper "Our Health, Our Care, Our Say: a new direction for community services" makes clear that community hospitals should not be lost in response to short-term budgetary pressures that are not related to the viability of the community facility itself.

The Department wrote to strategic health authorities (SHAs) on 16 February 2006 about the need for SHAs to assure themselves that all primary care trust (PCT) proposals for changes relating to community hospitals are consistent with the long-term strategy of the White Paper to move care closer to patients' homes and that local people are properly consulted. In addition, the Department held meetings with SHAs during March 2006 to discuss local plans for reconfiguration of community services.

Mr. Gray: To ask the Secretary of State for Health (1) pursuant to her oral statement of 5 July 2006, *Official Report*, column 819, on community hospitals, how many community hospitals in the Avon, Gloucestershire and Wiltshire strategic health authority area are based in Victorian workhouse facilities; [85676]

(2) pursuant to her oral statement of 5 July 2006, *Official Report*, column 826, how many community hospitals have *(a)* opened and *(b)* closed in the Avon, Gloucestershire and Wiltshire strategic health authority area since 1997; and how many are being considered for closure. [85677]

Andy Burnham: The information requested is not collected centrally.

Mr. Harper: To ask the Secretary of State for Health pursuant to her oral statement of 5 July 2006, *Official Report*, columns 816-7, on community hospitals, if she will ask the South West strategic health authority to assure itself that the proposals from *(a)* West Gloucestershire primary care trust to the close the Dilke Memorial hospital and the Lydney and District Community hospital and *(b)* the Gloucestershire Partnership Trust to close Colliers Court are not being made in response to short-term budgetary pressures. [85270]

Andy Burnham: The Department wrote to strategic health authorities (SHAs) on 16 February 2006 about the need for SHAs to assure themselves that all primary care trust (PCT) proposals for changes relating to community hospitals are consistent with the long-term strategy of the "Our health, Our Care, Our Say" White Paper. Copies of that letter area available in the Library. In addition, the Department held meetings with SHAs during March 2006 to ensure that any plans locally to reconfigure community services support the White Paper principles of providing modern health and social care in more local and community settings. These sentiments were repeated in paragraphs 3.7 and 3.8 of the Government's recently published document "Our health, our care, our community: investing in the future of community hospitals and services".

Continuing NHS Care

Mr. Burstow: To ask the Secretary of State for Health what plans her Department has to consult on the details of the *(a)* screening tool and *(b)* decision support tool for determining eligibility for continuing NHS care. [87668]

Mr. Ivan Lewis: We are consulting on the national decision support tool as part of the current national consultation on continuing care. A draft of this tool has been published, alongside the consultation documents. Comments and contributions are welcomed as is the case with all the consultation documents.

We are currently consulting on the principles behind the screening tool. Should it be decided to produce a screening tool, as an outcome of the consultation, it will undergo rigorous benchmarking.

Deaf-Blindness

Mr. Keetch: To ask the Secretary of State for Health (1) what specialist services are available in Herefordshire for children with deaf-blindness; [84166]

(2) what the Government's recommended time limit is for Herefordshire council to carry out assessments of children with deaf-blindness for specialist services. [84167]

Mr. Ivan Lewis: Information relating to specialist services in Herefordshire for children with deaf-blindness is not held centrally. Information on such services can be obtained from either Herefordshire county council or Herefordshire primary care trust.

There is no recommended time limit for the assessments of children with deaf-blindness for specialist services.

Dentistry

Mr. Hancock: To ask the Secretary of State for Health what her plans are for the provision of training for dental technicians in the south of England; and if she will make a statement. [85931]

Ms Rosie Winterton: As part of our major investment programme for the expansion of dental education, the university of Portsmouth opened a school of professionals complementary to dentistry in 2004 and, in January 2006, we announced that the university of Exeter and the university of Plymouth would be establishing a new Peninsula dental school. These universities are considering whether provision for the training of dental technicians could be incorporated into the expansion programme.

John Cummings: To ask the Secretary of State for Health how many NHS dentists there are in the Easington primary care trust area; and how many dentists have opted out of the NHS in the Easington primary care trust area. [84225]

Ms Rosie Winterton: As at 31 March 2006, there were 19 national health service dentists with a general dental services (GDS) or personal dental services (PDS) contract within Easington primary care trust (PCT).

Information on the number of dentists who have not signed the new contract is not available centrally. However, some provisional information that covers contracts is available. A contract may be for more than one dentist and cannot be broken down further to individual dentist level. Provisional management estimates show that in Easington PCT.

Contracts signed	
Number	10
Approximate units of dental activity (UDA) value	148,452
Contracts still in discussion	
Number	0
Approximate UDA value	0
Contracts rejected	
Number	0

Approximate UDA value	0
Percentage of UDAs	0.0
Contracts signed	
Number signed without dispute	5
Number signed in dispute	5
Percentage of disputes	50.0

Notes:
1. The information provided is not validated.
2. It represents a snapshot of the position in early April.
3. PCTs are working with dentists to resolve as many disputes as possible locally.

Charles Hendry: To ask the Secretary of State for Health how many foreign nationals married to an EEA or Swiss national have applied for full registration as dentists in the UK since 2004. [87046]

Ms Rosie Winterton: This information is not held by the Department. The General Dental Council is responsible for the registration of dentists who wish to practice in the United Kingdom.

Charles Hendry: To ask the Secretary of State for Health why different rules apply to the spouses of EEA/Swiss nationals applying for full registration as dentists in the UK from those that apply to spouses of UK citizens. [87048]

Ms Rosie Winterton: The General Dental Council, which is responsible for the registration of dentists practising in the United Kingdom, is bound by the provisions of European Union (EU) sectoral directive on dentistry, which governs recognition of dental qualifications. As with the directives relating to other professions, the intention is to facilitate the movement of professionals within Europe. Where an EU national and his or her spouse (who is not originally from the EEA) move between member states, the directive provides for an assessment as to whether the spouse's professional qualifications can be considered equivalent to a European qualification. EU law does not, however, allow such an assessment if they remain in the country in which they normally reside. A non-EEA national can still obtain full registration in the UK through the General Dental Council's international qualifying examination.

Mr. Davey: To ask the Secretary of State for Health what percentage of *(a)* children and *(b)* adults are registered with an NHS dentist in (i) Kingston and Surbiton, (ii) South West London and (iii) London. [85411]

Ms Rosie Winterton: The table shows the estimated percentage of children and adults registered with a national health service dentist in the specified areas as at 31 March 2006.

	Adults	*Child*	*Percentage Total*
England	46	60	49
London	40	50	42
South West London			
Strategic Health Authority	35	52	39
Of which:			
Kingston Primary Care Trust	31	59	37

Patient registration was part of the remuneration arrangements under the former system of general dental services up to 31 March 2006. Under the new system, the concept of registration no longer forms part of the remuneration system. The Department is therefore introducing a comparable means of monitoring the number of patients covered by NHS dental services, but the transition to the new arrangements has meant that it will be some months before the new measure is available.

Mr. Hancock: To ask the Secretary of State for Health what research she has *(a)* initiated and *(b)* evaluated on the reasons for the change in the level of (i) NHS denture work, (ii) NHS chrome work, (iii) NHS bonded chrome work, (iv) NHS veneer work and (v) NHS non-precious metal crown work since the implementation of the new dental contracts; and if she will make a statement. [85973]

Ms Rosie Winterton: The Department does not collect routine information on the quantity or type of dental appliances supplied but will be assessing, in conjunction with the implementation review group, the impact of the new contractual arrangements on this and other aspects of the services provided to national health service patients. It is for individual dentists working under general dental services contracts or personal dental services agreements to use their clinical judgement to determine the type and quality of any dental appliance required.

Mr. Burrowes: To ask the Secretary of State for Health how many NHS dentists have had their superannuation contributions *(a)* discontinued and *(b)* curtailed by their primary care trust in (i) England and (ii) Enfield since 31 March 2006. [85888]

Ms Rosie Winterton: Primary care trusts (PCTs) are not involved in calculating the superannuation contributions of dentists. Dental providers give details of superannuable pay for each of their dental performers to PCTs and the PCT then enters the relevant details onto the NHS Business Services Authority (BSA) payment systems. The BSA then deducts the superannuation amounts from the monthly payments to dental providers.

DXA Scanners

John Austin: To ask the Secretary of State for Health (1) what steps her Department is taking to provide revenue support for the introduction of new DXA scanning machines purchased with the fund allocated from the centrally held revenue budget; [85585]

(2) whether the budget allocated for the purchase of new DXA scanners is *(a)* available for capital expenditure only and *(b)* a ring-fenced fund; [85586]

(3) which strategic health authorities *(a)* have received and *(b)* will receive funding from the fund allocated from the centrally held revenue budget for the purchase of new DXA scanners; [85587]

(4) what proportion of the budget allocated for the purchase of new DXA scanners in 2006-07 and 2007-08 has been spent. [85588]

Andy Burnham: The Department allocated £3 million revenue (£214,000 each), on a non-recurrent basis in 2005-06, to 14 strategic health authorities (SHAs). Analyses by the National Osteoporosis Society (NOS) in 2005 identified these SHAs, as listed as follows, as having the least available dual-energy X-ray absorptiometry (DXA) scanning capacity. The funding was allocated for the purchase of DXA scans, rather than DXA scanning equipment. Scans were mainly to be purchased from independent sector (IS) providers, but also from national health service providers where this represented better value for money. Expenditure against these allocations has not been monitored centrally, but it will be subject to audit.

Avon, Gloucestershire and Wiltshire
Bedfordshire and Hertfordshire
Birmingham and the Black Country
Cheshire and Merseyside
Cumbria and Lancashire
Greater Manchester
Hampshire and the Isle of Wight
Leicestershire, Northamptonshire and Rutland
Norfolk, Suffolk and Cambridgeshire
South West Peninsula
Surrey and Sussex
Thames Valley
West Midlands South
West Yorkshire

Capital funding of £17 million has been made available in 2006-07 and 2007-08 to improve NHS capacity through investment in new DXA scanning equipment. This additional funding was mainly included in the overall strategic capital allocation to SHAs and is not ring-fenced. The Department does not monitor how SHAs' strategic capital is spent.

Primary care trusts (PCTs) were informed of their revenue allocations up to 2007-08 on 9 February 2005. The 2006-07 and 2007-08 revenue allocations represent a £135 billion investment in the NHS, £64 billion to PCTs in 2006-07 and £70 billion in 2007-08. The Department has no plans to make additional recurrent funding available to PCTs to cover the running costs of DXA scanners.

Gender Dysphoria

Lynne Jones: To ask the Secretary of State for Health pursuant to the Answer of 5 July 2006, *Official Report*, column 1220W, on gender dysphoria, what the locations are of centres providing gender reassignment surgery that have treated NHS patients. [85227]

Ms Rosie Winterton: In survey of specialised services commissioners conducted in October 2004, the following national health service trusts and private units provided gender dysphoria surgery:

Male to female:

Hammersmith Hospitals NHS Trust (Charing Cross Hospital);
Mid Yorkshire Hospitals NHS Trust;
Newcastle upon Tyne Hospitals NHS Trust;
Royal Infirmary of Edinburgh NHS Trust;
University Hospitals of Leicester NHS Trust (Leicester General Infirmary);
The Hove Nuffield; and
The Sussex Nuffield;

Female to male:

University College London Hospitals NHS Trust; and
The Hospital of St John and St Elizabeth.

Health Expenditure

Mr. Laurence Robertson: To ask the Secretary of State for Health what the amount spent on the NHS *(a)* in the UK and *(b)* in Gloucestershire was in each year since 1978. [74166]

Andy Burnham: The table shows total England net expenditure over the time frame requested and also a shorter time series of information for Avon, Gloucestershire and Wiltshire strategic health authority (SHA) area, now part of the South West SHA. Data for 1998-99 to 2004-05, are the earliest and latest years for which information is available.

Information for other countries in the United Kingdom can be obtained from the relevant devolved administrations.

It is not possible to provide data for Gloucestershire as this does not correspond to any current specific health body area. Information in the table relates to revenue expenditure by all relevant health authorities, SHAs and primary care trusts (PCTs) within the current Avon, Gloucestershire and Wiltshire SHA area.

England expenditure data series:

[1] Figures are not consistent over the period (1971-72 to 2007-08). Therefore, it is difficult to make comparisons across different periods.

[2] Expenditure pre 1999-2000 is on a cash basis.

[3] Expenditure figures from 1999-2000 to 2002-03 are on a stage 1 resource budgeting basis.

[4] Expenditure figures from 2003-04 to 2007-08 are on a stage 2 resource budgeting basis.

[5] The resource budgeting stage 2 expenditure figures shown for 2004-05 to 2007-08 are consistent with table 3.4 of the 2006 departmental report.

[6] A retrospective adjustment for an underspend on NHSLA provisions of £1.497 billion in 2004-05 affects growth rates for the periods 2003-04 to 2004-05 and 2004-05 to 2005-06.

Notes on Avon, Gloucestershire and Wiltshire expenditure data series:

1. Expenditure figures given are not the total NHS expenditure in the area.
2. Figures for 1998-99 to 2001-02 have been prepared using gross expenditure figures. Figures for 2002-03 and 2003-04 have been adjusted to eliminate expenditure which would be double counted where an authority acts as a lead in commissioning healthcare or other services.
3. Expenditure by SHA area is taken as the total expenditure of the SHA, predecessor health authorities and PCTs within the SHA area.
4. Expenditure on general dental services and pharmaceutical services accounted for by the Dental Practice Board and prescription pricing division of the NHS Business Services Authority (formerly known as the Prescription Pricing Authority), respectively, are excluded. This expenditure cannot be included within the figures for the individual health bodies as they are not included in commissioner accounts.

4. Audited summarisation forms of Avon, Gloucestershire and Wiltshire SHA 2002-03 to 2004-05.

Influenza Pandemic

Mr. Lansley: To ask the Secretary of State for Health pursuant to the written statement of 29 June 2006, *Official Report*, columns 16-17WS, on the informal meeting of EU health ministers, what the content was of the discussion on the development of an EU-wide stockpile of antivirals for use in the event of an influenza pandemic; what size she expects such an EU-wide stockpile to be; whether the UK would be expected to contribute to the EU-wide stockpile from its own stockpile of antivirals; for what purpose an EU-wide stockpile of antivirals would be used; and if she will make a statement. [85830]

Ms Rosie Winterton: At the informal meeting of European Union (EU) Health Ministers on 25-26 April, the presidency sought a consensus from member states on the principle of whether to establish an EU stockpile of antiviral drugs. No agreement was reached and the United Kingdom, supported by a number of other member states, emphasised that there was insufficient information on practical issues to demonstrate whether a stockpile could work in practice, and hence be effective.

The purpose of the proposed stockpile would be to try to slow the spread of a pandemic in Europe. The size of the proposed EU-wide stockpile is three million treatment courses. The UK's national level stockpile of 14.6 million treatment courses covering 25 per cent. of its population will be complete by September 2006. We currently plan to maintain it at this level.

Mr. Lansley: To ask the Secretary of State for Health what research she has *(a)* commissioned and *(b)* evaluated of on the efficacy of stockpiling gloves and face masks for use in the event of an outbreak of pandemic influenza. [84017]

Ms Rosie Winterton: We have recommended the use of face masks for health care professionals who would be working closely with infected patients. This is detailed in the national health service infection control guidance which is available on the Department's website at www.dh.gov.uk/pandemicflu This guidance is evidence-based and sets out how protective clothing, including gloves, should be used to minimise the risk of NHS staff acquiring pandemic influenza while caring for symptomatic patients. Gloves are not required for routine care of patients with pandemic flu.

The chief medical officer commissioned the Health Protection Agency to review the scientific evidence for the use of face masks by the public during an influenza pandemic. This review did not find any clear evidence that such a policy would be of benefit. However, as with all policies relating to pandemic influenza, the evidence is regularly reviewed.

Infection control guidance for the workplace is available on the Health and Safety Executive website at www.hse.gov.uk

Low-life Expectancy

Paul Rowen: To ask the Secretary of State for Health what steps her Department is taking to tackle low life expectancy in areas of deprivation. [87008]

Caroline Flint: Life expectancy is improving across England for all but is currently improving more slowly in the spearhead areas with the worst deprivation. Some spearhead areas are on track to meet the 2010 health inequalities target and we are working to ensure this best practice is spread not only to enable more people to live longer but narrow the health inequalities gap too.

Mental Health

Ms Keeble: To ask the Secretary of State for Health what assessment she has made of the recent changes in the levels of services in mental and community health services in Northamptonshire. [85870]

Ms Rosie Winterton: The assessment of recent changes in the levels of services in mental and community health services in Northamptonshire is the responsibility of the NHS East Midlands strategic health authority (SHA).

It is for SHAs in conjunction with primary care trusts and other local stakeholders to plan and develop services to meet the needs of their local populations.

Dr. Iddon: To ask the Secretary of State for Health what measures her Department is taking to improve the safety of women patients in NHS mental health accommodation. [84801]

Ms Rosie Winterton: The Department has already introduced a number of policy initiatives which will improve the safety of women patients in mental health accommodation, including: single sex accommodation guidance in 2000; a national suicide prevention strategy in 2002; psychiatric inpatient care best practice guidance in 2002; mainstreaming women's mental health guidance in 2003; and management of violence guidance in 2004 to make in-patient services safer, including clear guidance on single sex accommodation to which national health service trusts are expected to adhere. This allows for men and women within the same unit, providing that there are separate sleeping areas, separate bathrooms and appropriate operational policies and procedures in place to ensure each patient's safety.

The Department's statistical note of May 2005, "Elimination of mixed-sex hospital accommodation", shows that 99 per cent. of mental health trusts and primary care trusts which provide mental health services meet these single-sex accommodation objectives. We are working closely with the remaining trusts to ensure that they achieve the necessary standards as quickly as possible. This is available on the Department's website at: www.dh.gov.uk/assetRoot/04/11/21/41/04112141.pdf

In 2005, the National Institute for Health and Clinical Excellence published guidelines on the management of violence in inpatient settings. Revised guidance on the management of aggression and violence is due to be published in September 2006 by the Care Service Improvement Partnership (CSIP), and this will also address issues of sexual safety.

The Healthcare Commission will include safety and the physical environment in their improvement review on acute inpatient care, commencing in autumn 2006 and reporting in 2007. The Healthcare Commission will also include sexual safety in its review of inpatient mental health services due to be carried out in spring 2007.

In addition, the Department will participate in national programmes which will build on existing initiatives of protecting vulnerable patients in mental health services with CSIP, the National Patient Safety Agency, and other agencies to ensure that reporting and appropriate investigation of all such incidents occurs. For example, CSIP together with the current joint Home Office/Department programme on domestic and sexual violence will discuss with mental health trusts what type of guidance is most needed to help support this.

Mr. Clegg: To ask the Secretary of State for Health how many beds were available in secure mental health wards in each year since 1997. [85410]

Ms Rosie Winterton: The average daily number of available beds for adults, excluding the elderly, in secure mental illness and in secure learning disability wards for each year from 1996-97 is shown in the table. Figures for 2005-06 are not yet available:

	Available beds in secure mental illness wards (daily average)	*Available beds in secure learning disability wards (daily average)*	*Available beds (both types)*
1996-97	1,575	423	1,998
1997-98	1,921	439	2,360
1998-99	1,747	422	2,169
1999-2000	1,882	404	2,286
2000-01	1,952	431	2,383
2001-02	1,848	407	2,255
2002-03	2,064	508	2,572
2003-04	2,569	514	3,083
2004-05	2,696	503	3,199

Source:
Department of Health form KH03

Ms Keeble: To ask the Secretary of State for Health what the budget for mental health services for Northamptonshire *(a)* was in 2005-06 and *(b)* is in 2006-07. [85871]

Ms Rosie Winterton: Information on budgets for mental health services for Northamptonshire for 2005-06 and 2006-07 is not held centrally.

Planned investment in mental health per head of weighted working age population in the Leicestershire, Northamptonshire and Rutland strategic health authority (SHA) area for 2005-06 is provided in the table.

	Leicestershire, Northamptonshire and Rutland[1] SHA
Weighted population	902,914
Total investment (£000)	134,663
Overall investment per head (£)	149

[1] This SHA merged with Trent SHA to become the East Midlands SHA effective from 3 July.
Source:
2005-06 National Survey of Investment in Mental Health Services. It is for primary care trusts to determine how to use the funding allocated to them to commission services to meet the healthcare needs of their local populations.

Midwives

Jon Trickett: To ask the Secretary of State for Health (1) what steps are being taken to implement the Independent Midwives NHS Community Midwifery Model in all parts of the country; [85765]

(2) what recent discussions she has had with midwives' representatives in relation to the Independent Midwives NHS Community Midwifery Model. [85766]

Mr. Ivan Lewis: It is for primary care trusts (PCTs) in partnership with strategic health authorities (SHAs) and other local stakeholders to determine which

models best suit the local needs of women and the midwifery workforce. This process provides the means for addressing local needs within the health community including the provision of maternity services.

Ministers and officials met with the Independent Midwives Association (IMA) in August 2005 and again in March 2006 to discuss their proposal of a national health service community midwifery model. The IMA was asked by Liam Byrne, then Parliamentary Under-Secretary of State for Care Services, to identify a PCT and SHA, together with a group of midwives, who would be willing to test the model and help to create an outline contract. That process is continuing.

Milton Keynes Primary Care Trust

Mr. Lancaster: To ask the Secretary of State for Health what plans Milton Keynes Primary Care Trust has to sell the site occupied by the Fraser Day hospital in Newport Pagnell. [85827]

Andy Burnham: It is for primary care trusts in partnership with strategic health authorities and other local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services.

Multiple Sclerosis

Mr. Amess: To ask the Secretary of State for Health how many *(a)* males and *(b)* females are diagnosed with multiple sclerosis, broken down by age; what medication is available to those diagnosed with multiple sclerosis; and if she will make a statement. [87105]

Mr. Ivan Lewis: Information on the number of people diagnosed with multiple sclerosis (MS) is not collected.

Under the MS risk-sharing scheme, a joint venture between the Department and drug manufacturers, beta interferon and glatiramer acetate are available to patients who meet the criteria of the Association of British Neurologists, including those with secondary progressive MS. In addition, all patients living with multiple sclerosis have access to a wide range of medications to help manage the symptoms associated with this disease. These include drugs for the relief of pain, depression, spasticity and bladder problems.

NHS Direct

David Howarth: To ask the Secretary of State for Health pursuant to the Answer of 3 March 2006, *Official Report*, column 1050W, on NHS Direct, what steps she is taking to measure the net value of NHS Direct to the national health service. [57539]

Ms Rosie Winterton *[holding answer 10 March 2006]:* Regular performance review meetings are held between the Department and NHS Direct. This review includes indicators in relation to the percentage of urgent and emergency referrals and the percentage of calls completed by NHS Direct without onward referral.

NHS Direct applies consistent methods to assess the clinical needs of people contacting them across the country. According to that assessment they give advice on self care, provide access to a nurse or, where appropriate, advice on seeing a doctor, or other part of the national health service. This ensures that people are able to access health services appropriately.

NHS Direct provides a 24-hour service, 365 days a year, that is shown in monthly patient satisfaction surveys to be highly valued by people seeking advice on health and health care.

The service is available through a variety of channels—by telephone, through the internet or through television sets in the comfort of one's own home. NHS Direct also provides medical and dental out of hours services for a number of primary care trusts and is developing a number of services to support and complement other NHS organisations, including pilot work to proactively support patients with long-term conditions, as well as pre-operative screening and post-operative follow up services. Its work to support people in their homes is an important contribution to the changes in services needed to meet people's needs as set out in the White paper, "Our health, our care, our say, a new direction for community services".

NHS Finance

Mr. Clifton-Brown: To ask the Secretary of State for Health what criteria will apply to the use of capital money for the NHS; and whether capital receipts for the sale of closed community hospitals will be able to be reused in new community facilities. [85077]

Andy Burnham: The Department's capital investment plans are set out in chapter 4 of the 'Departmental Report 2006' published in May of this year.

National health service trusts and primary care trusts may retain the proceeds of disposals for reinvestment up to their delegated limits. The sums above this limit go back to the strategic health authority for local prioritisation and it would be unusual for them not to be reinvested in the locality.

As long as the sale proceeds are used for capital investment, such as investment in buildings and equipment, it is for local managers to decide what types of facility are bought and this could include investment in a new community hospital.

The Government have recently announced a central capital fund of £750 million to invest in community hospitals projects and the criteria that will apply to this money are set out in the recently published document 'Our health, our care, our community' and are available on the Department's website at www.dh.gov.uk

NHS Performance

Andrew George: To ask the Secretary of State for Health pursuant to her oral statement of 7 June 2006, *Official Report*, column 264, on NHS performance, (1) what the financial impact was of the *(a)* social and economic deprivation, *(b)* proportion of elderly people living in the community and *(c)* demands of a rural economy element of the funding formula on each primary care trust in (i) 2004-05, (ii) 2005-06 and (iii) 2006-07; [81960]

(2) what other elements in addition to those mentioned are contained in the funding formula for local health trusts; and how these are weighted within the formula in respect of their potential proportionate impact on local health trust budgets; [81962]

(3) what assessment she has made of the potential *(a)* financial impact and *(b)* proportionate overall funding impact on the average primary care trust (PCT) of (i) the demand of a rural economy, (ii) the proportion of elderly people living within the community, (iii) social and economic deprivation, (iv) the market forces factor and (v) all other elements which create variability of funding for PCTs and health trusts; [81963]

(4) what financial impact *(a)* the demands of a rural economy, *(b)* the proportion of elderly people living within the community, *(c)* social and economic deprivation and *(d)* the market forces factor have on the available budget for each of the three Cornish primary care trusts. [81997]

Andy Burnham: Funding for primary care trusts (PCTs) is informed by a weighted capitation formula which determines their target shares of available resources to enable them to commission similar levels of healthcare for populations with similar healthcare need.

Four elements are used to set PCTs' actual allocations:

weighted capitation targets which are set according to the national weighted capitation formula which calculates PCTs' target shares of available resources by adjusting PCT populations for age (to allow for different levels of health need in different age groups), additional need (highly correlated to social and economic deprivation) and unavoidable geographical differences in the cost of providing healthcare (the market forces factor (MFF));

recurrent baselines which represent the actual current allocation which PCTs receive. For each allocation year the recurrent baseline is the previous year's actual allocation, plus any adjustments made within the financial year;

distance from target (DFT) which is the difference between weighted capitation targets and recurrent baselines above. If the weighted capitation targets are greater than recurrent baselines, a PCT is said to be under target. If the weighted capitation targets are smaller than recurrent baselines, a PCT is said to be over target; and

pace of change policy which determines the level of increase which all PCTs get to deliver on national and local priorities and the level of extra resources to under target PCTs to move them closer to their weighted capitation targets.

Because there are four elements to PCT allocations, it is not possible to state the financial impact of each adjustment in the formula.

There are separate components in the formula for different services: hospital and community health services (HCHS), primary medical services, prescribing and HIV/AIDS. Within each component, each adjustment for age, additional need and unavoidable costs is expressed as an index comparing the PCT score on the adjustment to the national average. These indices are listed in "2003-04 to 2005-06 Primary Care Trust Revenue Resource Limits Exposition Book" and "2006-07 and 2007-08 Primary Care Trust Initial Revenue Resource Limits Exposition Book" which are available in the Library.

The demands of a rural economy are reflected in both the additional need and unavoidable cost adjustments. The additional need adjustment recognises that access to services is more difficult in rural areas by including measures of distance to providers in the statistical modelling. The unavoidable cost adjustment includes an adjustment for emergency ambulance services where geographical cost differences are partly accounted for by rurality.

A full explanation of the elements in the weighted capitation formula and their weights is provided in "Resource Allocation Weighted Capitation Formula Fifth Edition" which is available in the Library.

PCTs (Debt Cancellation)

Mr. Harper: To ask the Secretary of State for Health what the financial arrangements were which enabled the Ellesmere West and the Ellesmere Port and Neston primary care trusts to cancel their historic debts; whether the arrangements were approved by Ministers; and if she will make a statement. [82535]

Ms Rosie Winterton *[holding answer 5 July 2006]:* As part of its 2006-07 financial management strategy, Cheshire and Merseyside strategic health authority (SHA) agreed to use the SHA reserve to absorb £15 million of Cheshire West primary care trust (PCT) carry-forward of overspending from previous years and £6 million of Ellesmere Port and Neston PCTs carry-forward of overspending from previous years.

SHAs are responsible for delivering overall financial balance for their local health communities, and ensuring each and every body achieves financial balance.

People Trafficking

Mr. Steen: To ask the Secretary of State for Health what training is available for social workers to help them identify and detect victims of trafficking. [87080]

Mr. Ivan Lewis: It is the responsibility of the General Social Care Council, the regulatory body for social workers, to approve the courses for pre-registration and post-qualification training in social work.

It is the responsibility of social care service providers to ensure that their employees are suitably qualified and competent to carry out their role.

Rural Health Services

Mr. Paice: To ask the Secretary of State for Health how she assesses the needs of the rural population in making funding allocations within the NHS. [85135]

Andy Burnham: Revenue allocations are made to primary care trusts (PCTs) on the basis of the relative needs of their populations. A weighted-capitation formula is used to determine each PCT's target share of available resources. In calculating relative health needs, the formula includes an adjustment related to the age of the population, as well as an additional need adjustment that is related to the level of deprivation. In addition, the formula takes account of the difficulties of accessing services in rural areas.

The development of the weighted-capitation formula is continuously overseen by the advisory committee on resource allocation (ACRA). This is an independent

body, which has national health service management, general practitioner and academic members. The ACRA work programme post 2007-08 includes further consideration of rurality issues.

Speech and Language Therapy

Dr. Blackman-Woods: To ask the Secretary of State for Health if she will make a statement on the delivery of speech and language therapy services in County Durham. [84692]

Ms Rosie Winterton: Speech and language therapy services in Durham cover a full range of adult and children's services.

Durham and Chester-le-Street primary care trust (PCT) provides services for North Durham, serving the populations of Durham, Chester-le-Street and also the populations of Derwentside PCT. The adult service is both acute and community-based, and the children's service is focused in the community.

South Durham is serviced by Sedgefield PCT serving the populations of Sedgefield, Durham and Dales PCT and Darlington PCT. The Department uses a predominantly consultative model of delivery. Services may be face-to-face, within groups, telephone contact and training sessions.

Therapists (Norfolk)

Dr. Gibson: To ask the Secretary of State for Health what plans she has to provide therapists in Norfolk to provide psychological therapies for depression. [84861]

Andy Burnham: We consider that improvements in access to evidence-based psychological therapies should be available, and this policy was set out in our 2005 manifesto and in the "Our Health, our care, our say" White Paper. Clinical guidelines about access to psychological therapies were also commissioned by the National Institute for Health and Clinical Excellence, which concluded that these treatments should be made available to all people with mild to moderate depression or anxiety or schizophrenia.

Our "Improving Access to Psychological Therapies" (IAPT) programme forms a key part of the Government's "Health, Work and Well-Being-Caring for Our Future" strategy, which the Department launched last October with the Department for Work and Pensions and the Health and Safety Commission. The IAPT programme will define the best way to achieve these improvements over the next five to 10 years.

We have recently set up psychological therapy demonstration sites in Doncaster and Newham, to help test the extent to which increasing access to these therapies improves well-being, reduces worklessness and the number of people claiming incapacity benefit and provides greater choices in treatment and core options for people with these conditions. The demonstration sites will help to clarify the numbers of staff, the skills set and the training requirements needed to improve access to psychological therapies. Evidence from the demonstration sites will be supplemented by a national network of smaller, local IAPT projects and 20 national primary care mental health collaborative sites.

We have provided resources for delivering mental health services, including psychological therapies, within the unified allocations made directly to primary care trusts (PCTs). It is for PCTs in partnership with strategic health authorities and other local stakeholders to decide how best to use their resources to deliver services in line with their assessment of local need.

Waiting Lists

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 5 July 2006, *Official Report*, column 1238W, on waiting lists, whether her Department holds information on how the average waiting time in 1979 of nine months, as stated by the then Secretary of State for Health in her answer of 3 December 1996, *Official Report*, column 784, on NHS operations, was calculated. [85966]

Andy Burnham: The Department does not hold details of the average waiting time quoted in the reference given. Official figures on average waiting times are only available from 1988.

Wheelchairs (Waiting Times)

Mr. Waterson: To ask the Secretary of State for Health what the average waiting time was for an NHS wheelchair in *(a)* Eastbourne, *(b)* East Sussex and *(c)* England in 2005-06. [86407]

Mr. Ivan Lewis: The information requested is not held centrally.

William Kerr/Michael Haslam

Mr. Willis: To ask the Secretary of State for Health when she will publish the response to the recommendations of the inquiry into the conduct of William Kerr and Michael Haslam published in July 2005. [86698]

Andy Burnham: There are many similarities between the issues raised by the Kerr/Haslam inquiry and those of the Ayling and Neale inquiries and the fifth report of the Shipman inquiry. We are therefore intending to publish a joint response to all four reports. This will be issued as soon as possible after the close of the consultation on the reviews of medical regulation and non-medical regulation which we published last week and which contain important recommendations relevant to the issues raised by the four inquiries. In the meanwhile, we are progressing some of the specific recommendations from the Kerr/Haslam inquiry where these are not directly affected by the consultation.

TRANSPORT

A13 (Speed Cameras)

Mr. Amess: To ask the Secretary of State for Transport how many speed cameras are situated on the A13 between the A405 and the M25; and what plans there are to install new speed cameras in the next two years. [87257]

Dr. Ladyman: The Department only holds information on a road number or partnership basis rather than for specific lengths of road. More detailed information will be available from individual partnership websites, links to which can be found via our website at www.dft.gov.uk/safetycameras. The Department is not aware of any current plans for new speed cameras on the A13 in the next two years.

Road Improvements (East Sussex)

Gregory Barker: To ask the Secretary of State for Transport which organisations were involved in the preparation of the draft orders for the proposed A21 upgrade. [86170]

Dr. Ladyman: The Highways Agency has consulted widely, which is normal practice, with local highway authorities, statutory bodies and stakeholders and the South East England Development Agency (SEEDA).

Gregory Barker: To ask the Secretary of State for Transport what plans he has to publish the draft orders for the proposed A21 upgrade; and if he will make a statement. [86171]

Dr. Ladyman: The Highways Agency will publish draft orders on behalf of the Secretary of State in accordance with the individual scheme programmes, in line with our response on 6 July to the advice from the South East region about its major scheme priorities to 2011. We have accepted the region's advice to include the A21 Tonbridge Bypass to Pembury Dualling, the A21 Kippings Cross to Lamberhurst Bypass and the A21 Baldslow Junction Improvement within the programme of schemes that we expect to be taken forward in the South East in the next five years, subject to the completion of all the statutory procedures, funding available and compliance with the Department's scheme appraisal requirements.

Gregory Barker: To ask the Secretary of State for Transport what role the South East England Development Agency has played in preparing draft orders for the proposed A21 upgrade. [86173]

Dr. Ladyman: At this stage work has not yet started on preparing draft orders. South East England Development Agency will be consulted alongside other statutory bodies and stakeholders in due course.

Gregory Barker: To ask the Secretary of State for Transport what plans the Highways Agency has to issue compulsory purchase orders for houses along the route of the proposed A21 upgrade. [86462]

Dr. Ladyman: The Highways Agency will publish draft compulsory purchase orders on behalf of the Secretary of State in accordance with the individual scheme requirements and programmes.

Gregory Barker: To ask the Secretary of State for Transport when he expects to publish the draft orders relating to the proposed Hastings to Bexhill link road; and if he will make a statement. [86463]

Dr. Ladyman: The Bexhill to Hastings link road is being promoted by East Sussex county council, who are the local highway authority. It is, therefore for the council to determine when to publish the draft orders for the scheme.

A3 (Hindhead)

Mr. Arbuthnot: To ask the Secretary of State for Transport when he expects to publish the report of the inspector on the proposed work on the A3 at Hindhead. [86691]

Dr. Ladyman: I refer the hon. Member to the answer I gave to the hon. Member for South-West Surrey (Mr. Hunt) on 17 July 2006, *Official Report*, columns 1-2W.

Agency Staff

Ms Katy Clark: To ask the Secretary of State for Transport what average hourly rate was paid by his Department to each employment agency for staff employed through agencies in 2005-06. [81487]

Gillian Merron: DfT(c) have a call off contract with Adecco, Brook Street and Reed, who are contracted to provide temporary agency staff when required. This contract is also used by the Department's Executive agencies. The hourly rates for each agency are commercially sensitive information, therefore the average hourly rates incorporating the three agencies above are as follows:

	£
London rates	
AA	9.92
DS	12.50
AO	10.80
PS	13.84
SPS	15.56
EO	12.30
HEO	16.05
SEO	18.91
Regional rates	
AA	8.25
DS	10.31
AO	9.23
PS	11.54
SPS	12.80
EO	10.91
HEO	12.82
SEO	14.45

In addition, some of the Department's Executive agencies also use other agencies to provide temporary staff. The average hourly rates are as follows:

Driving Standards Agency —no set rates with other agencies used. No average available.

Highways Agency—Average hourly rate of other agencies—£13.19

VOSA

	£
AA	7.80-9.66
AO	8.51-10.42
EO	12.06-12.32
HEO	15.43
SEO	18.41

GCDA—Average hourly rate of other agencies—£10.88

DVLA—No information available

The use of temporary staff is something that the Department only considers to cover a short term temporary period such as covering leave or while a permanent resource is found. The Department actively manage their headcount and will consider any displaced staff for temporary roles prior to obtaining a temporary agency worker.

Aircraft Carbon Emissions

Chris Huhne: To ask the Secretary of State for Transport how many commercial flights departed from UK airports to destinations a distance away of *(a)* 500 miles or less, *(b)* 1,000 miles or less, *(c)* 1,500 miles or less and *(d)* in intervals of 500 miles up to 10,000 miles in the most recent year for which figures are available; and how many passengers departed from UK airports to such destinations in each case. [84112]

Gillian Merron: The Department does not hold the information but it is available from the Civil Aviation Authority (CAA). Contact details for information at CAA may be found at www.caa.co.uk.

Airport Expansion

Andrew Rosindell: To ask the Secretary of State for Transport if he will make a statement on the Government's plans for airport expansion in Southern England. [84412]

Gillian Merron: I refer to my reply on 11 July 2006, *Official Report*, column 1697W to the hon. Member for Croydon South (Richard Ottaway).

Buses

Mrs. Dunwoody: To ask the Secretary of State for Transport how many bus compliance officers are available to monitor bus punctuality in *(a)* England and *(b)* the North West region; how bus punctuality is measured; and how many bus operators were found not to be running their services punctually in (i) 2003-04, (ii) 2004-05 and (iii) 2005-06. [83358]

Gillian Merron: I refer my hon. Friend to my answer of 15 June 2006, *Official Report*, columns 1325-6W, to my hon. Friend the hon. Member for Manchester, Blackley (Graham Stringer), regarding the number of bus compliance officers available in Great Britain. A full account of the measurements for bus punctuality is published in the Traffic Commissioners Practice Direction No.4 which is available on-line via: www.dft.gov.uk.

I also refer my hon. Friend to my answer of 6 July 2006, *Official Report*, column 1267W, regarding the number of operators called to public inquiry and the number of orders issued to restrict operations.

To provide a detailed answer regarding bus operators found not to be operating punctually can only be done at disproportionate cost as the data are not held centrally.

Mr. Jim Cunningham: To ask the Secretary of State for Transport what plans he has to encourage the use of public transport by bus in Coventry, South. [83971]

Gillian Merron *[holding answer 12 July 2006]:* Within the context of delivering our long-term strategy for improving bus services across the country, the most recent steps taken by the Government include:

- Providing local authorities in England with the resources to support their Local Transport Plan strategies, a large part of which are related to improving bus-related infrastructure (some £571 million invested by local authorities between 2001-02 and 2004-05 in bus improvements);
- The introduction of free local concessionary fares for older and disabled people from April 2006, and the announcement of free national concessionary fares from April 2008;
- Up to £200 million per year of the Transport Innovation Fund (from 2008-09) has been made available specifically to support packages of measures that will address congestion in towns and cities through demand management and public transport improvements, including better bus services;
- Allocating £20 million to fund 43 kick-start schemes to pump-prime promising local bus services;
- £54 million available for 2006-07 to support rural bus services.
- Providing capital funding for major bus schemes, such as the £42 million contribution towards the Greater Bristol Bus Network scheme.

Over the coming months we will be looking at the success of these and other initiatives, with a view to developing future plans to encourage bus use.

Chris Huhne: To ask the Secretary of State for Transport what research he has undertaken on the *(a)* number and *(b)* length of bus routes serving general hospitals in each local authority which draw down a budget for concessionary fares. [85027]

Gillian Merron: None. From 1 April 2006, older and disabled people have been entitled to free off-peak travel within their local authority area. We are introducing a national scheme in April 2008 which will allow older and disabled people free off-peak bus travel anywhere in the country. In the interim, local authorities have the discretion to offer travel concessions to a hospital outside their boundary, based on their judgement of local needs and circumstances and their overall financial priorities.

Chris Huhne: To ask the Secretary of State for Transport how many bus passengers there were in each local authority administering concessionary fares *(a)* in the last year for which figures are available and *(b)* (i) five and (ii) 10 years previously; how many bus routes there were in each such local authority; and what the total mileage of routes was in each authority. [84094]

Gillian Merron: The Department does not hold this information which could be obtained only at disproportionate cost.

Chris Grayling: To ask the Secretary of State for Transport what the average age is of buses in service in each region. [85563]

Gillian Merron: The information, for the first quarter of 2006, is given in the following table.

Region/country	*Age of fleet (years)*
North East	8.1
North West	7.6
Yorkshire and the Humber	8.2
East Midlands	8.0
West Midlands	7.9
East of England	9.0
Greater London	5.3
South East	7.2
South West	9.0
England	7.7
Scotland	8.0
Wales	9.8
Great Britain	7.8

Note:
This table shows the age of buses by their region of registration, which may not be the same as their main area of operation. *Source:* DVLA

Chris Huhne: To ask the Secretary of State for Transport what guidance he issues to local authorities on checking compliance by bus companies with the arrangements for concessionary fares. [84959]

Gillian Merron: None. The Transport Act 2000 places a duty on bus operators to offer the statutory minimum entitlement; it is an offence if they fail to comply with that obligation. It is for Travel Concession Authorities to decide on how best to check compliance based on local circumstances and to take any necessary action.

Rosie Cooper: To ask the Secretary of State for Transport what assessment he has made of the impact of free bus travel on the existing arrangements for bus travel between *(a)* Skelmersdale and Liverpool, *(b)* Ormskirk and Wigan and *(c)* Skelmersdale and Southport. [83468]

Gillian Merron: The Department does not yet have full details of the discretionary enhancements that will be offered by local authorities. We will be carrying out a comprehensive survey of concessionary fares schemes shortly.

Kerry McCarthy: To ask the Secretary of State for Transport when he expects to make an announcement on the outcome of the Greater Bristol Bus Network bid for new Showcase Bus routes submitted in July 2005. [83436]

Gillian Merron: On 6 July 2006 the Greater Bristol Bus Network Scheme was awarded Programme Entry into the Department's local authority major scheme programme, allowing the scheme to progress through statutory procedures.

Chris Huhne: To ask the Secretary of State for Transport what subsidies were granted to rural bus operators in each year since 1997; and if he will make a statement. [85938]

Gillian Merron: The majority of subsidies for local bus services, including those in rural areas, are provided through unhypothecated funding from the Government's Revenue Support Grant (RSG) to local authorities.

The Department has separately provided specific funding for rural bus services to local authorities in England through the Rural Bus Subsidy Grant (RBSG) since 1998, and the Rural Bus Challenge (RBC) between 1998 and 2003.

The amounts provided in RBSG allocations and RBC awards are shown in the table.

		£ million
	RBSG	*RBC*
1998-99	32.50	11.2
1999-00	32.50	16.8
2000-01	32.50	21.2
2001-02	41.50	20.5
2002-03	47.50	20.0
2003-04	48.50	20.3
2004-05	51.00	n/a
2005-06	53.00	n/a

Mr. Keetch: To ask the Secretary of State for Transport (1) what criteria are taken into account when decisions are made on the suitability of local authorities for yellow bus pilot schemes; [86532]

(2) whether the Government plan to extend the yellow bus schemes *(a)* to more pilot areas and *(b)* to the whole of England. [86533]

Gillian Merron: There are no plans to extend yellow bus schemes to more pilot areas or to the whole of England. Individual local authorities and passenger transport executives are encouraged to consider these and other dedicated school bus schemes as part of broader local transport planning and decide if they would be appropriate to their area.

The Education and Inspections Bill includes provisions to improve home to school transport, including enabling a small number of local authorities to propose Pathfinder schemes to pilot innovative approaches to home to school transport which would focus on better school bus provision for more pupils and which could include trialling yellow bus schemes.

DfES has policy responsibility for home to school transport and has published the 'School Travel Pathfinder Draft Prospectus and Guidance' alongside the Education and Inspections Bill. This includes details of the criteria that the Secretary of State for Education and Skills will apply in deciding which schemes to approve (http://www.teachernet.gov.uk/docbank/index.cfm?id=9800).

Correspondence

Chris Grayling: To ask the Secretary of State for Transport if he will publish the preliminary assessment letter he sent to the Prime Minister following his appointment as Secretary of State. [85045]

Mr. Douglas Alexander: Copies have today been placed in the Libraries of the House and published on the departmental website at www.dft.gov.uk.

Departmental Publications

Mr. Amess: To ask the Secretary of State for Transport if he will list the unnumbered command papers produced by his Department in each session since 1976; say how *(a)* hon. Members and *(b)* members of the public can (i) inspect and (ii) obtain copies; and if he will make a statement. [81642]

Gillian Merron: Documents which are laid before Parliament as unnumbered Command Papers are generally restricted to Explanatory Notes to Treaties, Explanatory Memorandums to Statutory Instruments and some Treasury Minutes. All other documents are published in the Numbered Command Papers series.

The Department for Transport was formed on 31 May 2002; since then some 277 unnumbered Command Papers have been laid.

Copies of all unnumbered Command Papers are made available via the Vote Office.

Departmental Staff

Roger Berry: To ask the Secretary of State for Transport how many disabled staff in his Department received support through the Access to Work scheme *(a)* in each of the last five years and *(b)* in 2006-07. [82233]

Gillian Merron: The Department has used the Access to Work scheme particularly in our larger agencies. Records of the support provided via the service are either not centrally recorded or incomplete. As it is for the individual to apply for help via the scheme, the employer will not always be aware that support has been provided.

Digital Tachographs

Chris Grayling: To ask the Secretary of State for Transport whether he is taking steps to exempt coach companies organising tours lasting more than one week from the rule that requires drivers to have one day off in seven; what representations have been made to him by trade unions about the rule; and if he will make a statement. [84835]

Gillian Merron: A new, directly applicable EU Regulation on drivers' hours has recently been adopted by the EU institutions—it was published in the Official Journal in April 2006 and will, for the most part, come into force in April 2007.

During negotiation of this new EU Regulation, consideration was given to retaining the provision in the existing EU Regulation which allows coach drivers on non-regular journeys—such as excursions, tours and private hire—to postpone their weekly rest period until the end of the twelfth day. Following strong opposition to this on road safety grounds, it was not included.

The Department carried out an extensive public consultation exercise prior to adoption of this new EU Regulation. The trade unions were invited to contribute, and did not support the retention of this particular provision.

Driving Test Centres

Mr. Carmichael: To ask the Secretary of State for Transport where each driving centre test site is located; and how many of each type of test were taken at each site in 2005-06. [85825]

Dr. Ladyman: The information requested has been placed in the Libraries of the House.

Environmental Standards

Chris Huhne: To ask the Secretary of State for Transport whether his Department *(a)* is committed to the achievement of environmental management to ISO 14001 standard and *(b)* has been externally certified as in compliance with that standard; and if he will make a statement. [81191]

Gillian Merron: On 12 June the Government launched new targets for sustainable operations on the Government estate, which included a requirement for all Departments to have Environmental Management Systems based upon or modelled upon a recognised system. The Department for Transport is committed to achieving this target.

Harbours Bill

Mr. Brazier: To ask the Secretary of State for Transport what his most recent assessment is of the merits of the Harbours Bill. [86267]

Dr. Ladyman: I refer the hon. Member to the answer I gave him on 28 March 2006, *Official Report*, column 853W.

Insurance (Foreign Drivers)

Mr. Burrowes: To ask the Secretary of State for Transport what steps he is taking to ensure foreign drivers of foreign registered vehicles are adequately insured when driving in the UK. [86731]

Dr. Ladyman: European law requires all vehicles registered in a member state to have insurance for the use of that vehicle in any other member state.

The police have full power to stop and check any foreign vehicle to ensure the driver has appropriate insurance cover.

Local Authorities (Transport Funding)

Chris Grayling: To ask the Secretary of State for Transport which local authorities have had transport funding withheld by his Department since his Department's press release of 28 July 2004 announcing the withholding of funds to Thurrock, East Sussex, Plymouth and Southend-on-Sea; what the reason was in each case; and when the withheld money was paid in each case. [82208]

Gillian Merron: Funds were withheld in late 2003 from Thurrock, East Sussex, Plymouth and Southend-on-Sea because they had reported poor programme delivery in the previous year. The authorities were given the opportunity to take action to improve their performance during the early part of 2004 and in all cases took sufficient steps to convince the Department to provide the funds later.

The press release of 28 July 2004 announced that the funds previously withheld from Thurrock, East Sussex, Plymouth and Southend-on-Sea would be released. This funding was released as part of the local government financial settlement for 2005-06 announced in late 2004.

No authorities have had local transport capital funding similarly withheld since July 2004.

M42

Mr. Spellar: To ask the Secretary of State for Transport what percentage of the equipment required to introduce hard shoulder running on the M42 is already installed. [87040]

Dr. Ladyman: I am reviewing the proposed start date of hard shoulder running in light of the good progress being made towards its introduction.

M6 Widening

Mr. Hoyle: To ask the Secretary of State for Transport when he expects work on the widening of the M6 motorway between Birmingham and Warrington *(a)* to begin and *(b)* to be completed. [86123]

Dr. Ladyman: Today I announced that I have instructed the Highways Agency to progress plans for the online widening of the M6 from junction 11a to 19, and to no longer pursue the Expressway alternative. They will now continue to work on the design and delivery of the scheme. Early indicative dates suggest that the first phase of the works could commence in 2012 and open in 2014 with the whole scheme being completed around 2017. This is of course subject to the availability of funding, the satisfactory completion of the detailed design process and the normal statutory procedures.

Maritime Labour Convention

Mr. Carmichael: To ask the Secretary of State for Transport what progress the Government have made towards a decision on whether to ratify the International Labour Organisation's Maritime Labour Convention. [85918]

Dr. Ladyman: The Government will ratify the Maritime Labour Convention, 2006 as soon as UK law and practice is adapted to the requirements of the Convention.

Motorway Costs

Mr. Carmichael: To ask the Secretary of State for Transport what his most recent estimate is of the cost of *(a)* one mile of new motorway, *(b)* adding an extra lane to one mile of motorway, *(c)* one mile of new dual carriageway and *(d)* one mile of new single carriageway. [86138]

Dr. Ladyman: I refer the hon. Member to my answer of 22 May 2006, *Official Report*, column 1280W, to the hon. Member for Epsom and Ewell (Chris Grayling), about the average costs per mile of building motorways, dual carriageways and single lane roads. Adding an extra lane to one mile of motorway is estimated at an average of £27.5 million per mile.

National Travel Scheme

Mr. Hancock: To ask the Secretary of State for Transport pursuant to his answer of 19 June 2006, *Official Report*, column 1599W, on the National Travel Scheme, when he expects decisions to be made on how the National Travel Scheme will be delivered in 2008. [85296]

Gillian Merron: The implementation of the national scheme requires primary legislation and has implications for the financing of local government, both of which require formal consultation. Therefore, it will not be possible to make final decisions before summer 2007.

Parliamentary Questions

Mr. Hunt: To ask the Secretary of State for Transport if he will provide a substantive reply to Question 84871 before the House rises for the summer adjournment. [86940]

Dr. Ladyman: A substantive reply was given to the hon. Member on 17 July 2006, *Official Report*, columns 1-2W.

Public Appointments

Mr. Amess: To ask the Secretary of State for Transport how many public appointments are within his patronage; what *(a)* salary and *(b)* other emoluments are attached to each; and what the comparable figures were in (i) 1976, (ii) 1986 and (iii) 1996. [83163]

Gillian Merron: The Department for Transport was created in 2002. The information provided in the table is correct as at 31 March 2006, except for the Chair and members of the Strategic Rail Authority. The Chair was appointed on 1 April 2006 and the members reduced to two at the same time.

Public body	*Number of appointments*	*Remuneration (pa) (£)*	*Emoluments (£)*
Commission for Integrated Transport	Chair x 1	[1]5,431	—
	Vice Chair x 1	24,000	—
	Members x 10	5,403	—

Public body	Number of appointments	Remuneration (pa) (£)	Emoluments (£)
Disabled Persons Transport Advisory Council	Chair x 1	Unpaid	[2]—
	Members x 20	Unpaid	[2]—
Civil Aviation Authority	Chair x 1	124,649	60,299
	Members x 9	[3]884,554	[4]242,165
Rail Passenger Council (operates as Passenger Focus)	Chair x 1	25,000	[5]—
	Members x 11	15,000	[5]—
Railway Heritage Committee	Chair x 1	Unpaid	Out of pocket expenses only
	Deputy Chair x 1	Unpaid	Out of pocket expenses only
	Members x 10	Unpaid	Out of pocket expenses only
British Transport Police Authority	Chair x 1	25,800	[6]—
	Deputy Chair x 1	19,350	[6]—
	Members x 10	14,448	[6]—
Senior Traffic Commissioner	Senior Traffic Commission x 1	93,483	—
Traffic Commissioners	Traffic Commissioners x 6	84,135	—
Strategic Rail Authority	Chair x 1	20,731	—
	Members x 2	20,731 and 208,512 (41,712 wef 25 June 2006)	—

[1] The current Chair of the Commission for Integrated Transport chooses to receive a reduced level of remuneration for this post.
[2] £34 per quarter communication allowance.
[3] Represents total members' remuneration.
[4] Represents total members' emoluments.
[5] £150 p.a. miscellaneous allowance.
[6] £150 p.a. to cover printing costs.

Details of public appointments to public bodies sponsored by all Departments can be found in 'Public Bodies', copies of which are in the Library. 'Public Bodies' has been published annually since 1980 and the most recent edition provides figures, including those for the public bodies sponsored by the Department for Transport, for 2005.

Public Transport (London)

Mr. Davey: To ask the Secretary of State for Transport how many people travelled on *(a)* buses, *(b)* trains and *(c)* other forms of public transport in each (i) London borough and (ii) region in each year since 2001. [85476]

Gillian Merron: The number of bus and light rail passenger journeys by Government office region (including London) for years 1994-95 to 2004-05 can be found in table 2.1 of the Department's publication "Regional Transport Statistics: 2005". This publication is available from the Department's website and a copy will shortly be placed in the House of Commons Library. The number of London Underground passenger journeys for years 1994-95 to 2004-05 can be found in table 2.4 of the same publication.

Information on regional rail travel is included in the National Rail Trends Yearbooks, which are published by the Office of Rail Regulation and available in the House of Commons Library. The statistics team at the Office of Rail Regulation also hold information on rail travel by station and by borough.

Information on the number of public transport journeys in each London borough is not available for other modes.

Railways

Martin Linton: To ask the Secretary of State for Transport what proportion of revenue support grant is paid towards rail passenger services in London. [82943]

Gillian Merron: Revenue support grant (RSG) is paid to local authorities (including London borough councils and the Greater London authority, GLA) to be spent according to local priorities. There is no element in the calculations underpinning the RSG levels related specifically to rail passenger services.

Mr. Steen: To ask the Secretary of State for Transport (1) how many employees of *(a)* Network Rail and *(b)* its contractors are employed in maintaining the track at Dawlish Warren; and what the cost of this workforce has been in each of the last 10 years; [87077]

(2) how much public money Network Rail has spent in Dawlish Warren on capital work to bolster up the sea defences since 1997; and what the annual cost has been of ongoing repairs in each of the last nine years. [87079]

Derek Twigg: These are operational matters for Network Rail, as the owner and operator of the national rail network. The hon. Member should contact Network Rail's Chief Executive at the following address for a response to his questions:

John Armitt
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE

Mr. Lancaster: To ask the Secretary of State for Transport whether planned improvements to Central Milton Keynes train station include a lift for disabled access to all platforms. [86748]

Derek Twigg: The station extension at Milton Keynes Central station is being designed to the latest accessibility requirements including the continued provision of lifts to all platforms.

Road Noise

Mr. Carmichael: To ask the Secretary of State for Transport how many miles of road were resurfaced to reduce noise in each year since 2000-01; what the location of each resurfacing project was; what the total cost of resurfacing was in each year; and what work is planned in each year up to 2010-11. [85817]

Dr. Ladyman: The Highways Agency currently resurfaces roads for maintenance reasons only, but has in previous years also resurfaced carriageways for environmental noise reasons, when specific funding was available. The Highways Agency does not separately record these two categories of carriageway resurfacing and it is therefore not possible to confirm the carriageway length resurfaced purely for noise reasons.

Since 2000-01 it has been Highways Agency policy to resurface carriageways with quieter surfacing materials, when maintenance is required. The following table shows the total quieter surfacing delivered in each year (data are only recorded in lane kms):

	Lane kms quieter surfacing
2000-01	1,172
2001-02	1,613
2002-03	1,685
2003-04	1,565
2004-05	1,226
2005-06	1,618

The Highways Agency anticipates that it will deliver at least 1,000 lane kms in 2006-07. With respect to future forecasts, the forward maintenance programme is currently being updated, therefore it is not possible to accurately confirm the anticipated delivery for 2007-08. Delivery for years beyond 2007-08 will be subject to confirmation within the comprehensive spending review 2007.

The Highways Agency annually resurfaces a large number of routes, many of very short length; it is therefore not possible to identify every individual location.
